

K-12 Classroom Programs Winter 2025

Eddy Discovery Center

To register for a program in your classroom, email park interpreter Zach O'Dell at OdellZ@Michigan.gov or call 734-475-3170.

Who Eats Who in the Michigan Winter?

Using the skins and skulls from local wildlife, your first through fifth grade students can learn about our winter food web!

Become a Naturalist

Fifth through 12th grade students can discover the magical world of community science by exploring tools and methods to cultivate a scientific process-based mindset! With apps like iNaturalist, Seek and Merlin, students will work with a DNR educator to create a presentation about a topic.

Waterloo's Superpower Squad

Third through sixth grade students can learn about the friends and foes of the animal world by using art, games and observations!

Tracking 101

Many animals are nocturnal and come out at night. How do we know this? They leave behind evidence! Winter is the perfect time to see who lives in your backyard. Third through 12th grade students can join us and learn tracking skills from our park interpreter.

Michigan's Resident Birds: The Winter Shift

Not all birds go south for the winter, but why is that? Third through 12th grade students can learn about our winter feathered friends and why they decide to stay throughout the year.

Michigan.gov/EddyCenter

All programs are free unless otherwise noted; however, a Recreation Passport is required for entry to the park.
