

Michigan Department of Natural Resources – Forest Resources Division

FOREST LEGACY PROGRAM – INFLATION REDUCTION ACT NOMINATION APPLICATION

This information is required by authority of Part 501 of the Natural Resource and Environmental Protection Act, 1994 PA 451, as amended, to be considered for nomination

Co-sponsored by: USDA Forest Service, State and Private Forestry Program
Michigan Department of Natural Resources, Forest Resources Division

DUE DATE: DECEMBER 13, 2024

GENERAL INFORMATION

The Department of Natural Resources, Forest Resources Division, in cooperation with the USDA Forest Service, has established a Forest Legacy Program to protect privately owned forest lands from being used for non-forest uses. Funding for the Forest Legacy Program is federal money allocated from the Land and Water Conservation Fund through the USDA Forest Service, State and Private Forestry Program, FLP (CFDA 10.676).

In 2022, upon the passage of the Inflation Reduction Act, additional funding was made available to the Forest Legacy Program. Specifically, Subtitle D, Sec. 23003 (a). State and Private Forestry Conservation Programs – Appropriations \$700,000,000 to provide competitive grants to States through the Forest Legacy Program established under section 7 of the Cooperative Forestry Assistance Act of 1978 (16 U.S.C. 2103c) for projects for the acquisition of land and interests in land. This nomination application is specific to the IRA portion of the available Forest Legacy Program funding.

Participation in Michigan's Forest Legacy Program is strictly voluntary.

The purpose of Michigan's Forest Legacy Program is to use federal funds and matching funds to purchase development rights, conservation easements, or fee simple interest on those environmentally important forests threatened by conversion to non-forest uses within designated geographic areas, known as Forest Legacy Areas. Unless fee simple interest is purchased, these forests shall remain in private ownership except for the conveyed easement items, such as development rights, which become State-owned and protected. ***Michigan's Forest Legacy Program requires that the rights of public access be conveyed to the State on all land or interest in land acquired with FLP funding.***

Please note all easements and interests in land acquired for the Forest Legacy Program are conveyed in perpetuity and must contain such covenants and language to ensure perpetuity of Forest Legacy easements.

Please note all submitted materials become the property of the State of Michigan and are non-returnable. Disclosure of this information is voluntary. However, failure to provide all of the requested information will substantially decrease the ability of designated persons to properly review and rank your application and property for participation in Michigan's Forest Legacy Program.

For additional information, visit the DNR website at Michigan.gov/DNR, or contact:

FOREST LEGACY PROGRAM NOMINATION APPLICATION

This information is required by authority of Part 501 of the Natural Resource and Environmental Protection Act, 1994 PA 451, as amended, to be considered for nomination.

Instructions: Applications will be accepted from individuals and privately-owned corporations, or from agents such as a land trust or conservancy, or other legally authorized representative. **The application must demonstrate that property nominated for consideration does not have preexisting agreements attached to the deed which are in opposition to the purpose and function of the FLP.**

CONTENTS

GENERAL INFORMATION	1
PART I. PARCEL INFORMATION AND OWNERSHIP	2
PART II. SELF-EVALUATION AND SCORING	6
CRITERIA	8
APPLICATION PACKET SUBMITTAL INFORMATION	13
ATTACHMENT A: PROJECT CATEGORIES	14

PART I. PARCEL INFORMATION AND OWNERSHIP

This portion of the application provides information on ownership, location and size of the parcel nominated, as well as providing straightforward information regarding the estimated appraisal value of the property and the conservation easement. It also provides information as to whether the landowner participates in other federal land programs, as well as indicating if this parcel is subject to any other land protection agreements or easements that could affect its participation for the FLP.

Primary Landowner Information		
Name		
Address, City, State, ZIP Code		
Telephone Number	Fax Number	Email Address
Contact Person Information (Individual Contact Name)		
Name		
Address, City, State, ZIP Code

Agencies(s)	Acres	Organization(s)	Acres

Liens and Encumbrances (that may affect the eligibility of this parcel for nomination in the FLP. Failure to complete this section may result in immediate dismissal from consideration in the Program.

Please list any and all liens and encumbrances on the property proposed for enrollment in Michigan’s Forest Legacy Program. Examples: mortgages; utility easements; public rights-of-way; water flow or water use restrictions; septic systems or water easements; deed restrictions or covenants; mineral extraction rights (gas, oil coal, stone, etc.); tax liens; dump sites; underground fuel tanks; or any other environmental hazards, etc.

Landowner Goals and Objectives (why this parcel is important to the landowner and what benefits the landowner receives as the result of owning this property)

Describe long-term goals and objectives for nominated property. This may include stating why property is important to you, what benefits you accrue from owning it (e.g., financial, aesthetic, spiritual), present use and considerations for future management (e.g., timber products, biodiversity, recreation, aquatic habitat).

List of Rights Wishing to be Retained by Landowner (essential information that identifies what parts of your ownership you are willing to sell or convey to the FLP). It is not a commitment form but should be considered seriously since it provides key information regarding the parcel’s potential to meet Forest Legacy goals and objectives. It will affect the desirability of your parcel and its appraised value. Please indicate whether you wish to “Keep”, “Sell”, or “Unsure” for each of the interest or uses stated in this section. Be sure to check every item. You may add other interests to this section if needed.

Note: “Keep” means this is a forest use or interest you wish to retain or control. All other rights may become the property of the State of Michigan upon successful completion of negotiations between the State of Michigan and yourself. “Sell” means you are interested in selling this forest use or interest to the program. Checking “Sell” does not limit your ability to negotiate price and options in the future; it merely assists the Forest Stewardship Advisory Committee when evaluating your parcel. “Unsure” means you need more information or have not yet decided on this use or interest.

Note: Checking “Keep” or “Sell” does not commit you to anything at the time of application. Completion of this checklist is a tool to help the Forest Legacy Subcommittee when inspecting, prioritizing, and evaluating your parcel. Also, development rights are the minimum rights purchased on Forest Legacy Parcels and therefore are not included on the list below.

Forest Use or Interest	Retain Control of the Following			Retrain Control of the Following Recreational Activities			
	Keep	Sell	Unsure	Keep	Sell	Unsure	
Timber and Wood Product Rights	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Hunting	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Buildings and other improvements (amount of area)		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Other:		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Financial Information				
<p>The first section provides financial information about your parcel and the forest uses or interests that you are willing to sell or donate to the FLP. This information will help in ranking your application. An official property appraisal is not required to complete this section but doing so may help in the project priority ranking process. Any offer by the FLP to purchase easements or fee simple must utilize an appraisal that meets the December 2000 edition of "Uniform Appraisal Standards for Federal Land Acquisitions." These appraisals are coordinated by the DNR after the project has been selected as a candidate to receive Forest Legacy funds.</p> <p>The following estimates are for preliminary use only. Any final offer for a conservation easement or fee simple purchase cannot exceed fair market value, as determined by an appraisal meeting federal appraisal standards.</p>				
Estimated Total Value of Nominated Property \$		Estimated Value of the Interests Proposed for Transfer by Conservation Easement \$		
How were these values determined? (e.g., landowner's personal estimate, licensed appraiser, realtor, written legal appraisal)				
Date of Appraisal		Are you willing to donate part of the easement value? <input type="checkbox"/> Yes <input type="checkbox"/> No		
Percentage of Easement Value to Donate %		Approximate Asking Price for Interests Being Offered \$		
NOTE: Donations may constitute a charitable contribution for income tax purposes, depending on applicable Internal Revenue Service guidelines and regulations				

PART II. SELF-EVALUATION AND SCORING

Please provide a narrative for each category. The narrative information provided here will be crucial in helping us in a preliminary scoring and ranking of your proposal. This section helps to identify nominated parcels that have state, regional, and national significance. Refer to the “Eligibility Criteria” and the associated rating descriptions as aids in completing this section.

Traditional Forest Uses Maintained: Traditional forest uses provide timber and other forest products and amenities. Explain the traditional forestry values of this parcel and if they are maintained with a DNR-approved resource management plan.

Scenic Resources and Public Recreation Opportunities: Please explain how your parcel provides these values, especially with respect to proximity to a national trail, major fall color tour, or one of the Great Lakes shorelines.

Riparian and Hydrologic Areas: Please describe and explain how your property provides water resource values, such as cold-water trout habitat, wetlands, floodplains, riparian corridors, or areas of high groundwater recharge potential. Also state if your property has frontage on a Federal Scenic and Wild River or State-Designated Natural River.

Fish and Wildlife Habitat and Habitat Connectivity: Explain how your property protects and enhances wildlife and fish habitat and values. Also describe how your property contributes to habitat connectivity for both wildlife and fish.

Habitat for Known, Rare, Threatened, and Endangered Species: Describe if your property contains rare, threatened, or endangered plant and/or animal species.

Known Historic, Cultural, Tribal and Archeological Resources: Describe if your property contains such resources as Native American burial sites, or areas with artifacts related to early European settlement or any other artifacts you think fit this category. Also include information about aspects of your property that may have tribal importance such as ceremonial sites, species of great tribal importance, or access for traditional hunting, fishing, and gathering.

Other Ecological Values: Describe if your property has other significant ecological values. Examples include area(s) of globally imperiled natural communities (Hemlock-Yellow Birch Forest, Wooded Dune and Swale), Coastal Dune area, or Niagara Escarpment based communities.

Size and Contiguity: Describe the size of your parcel(s), and if the property nominated is in large contiguous blocks or is a key contributor to a larger, landscape level conservation effort.

Benefits to Disadvantaged Communities: Describe how your property will benefit one or more disadvantaged communities in terms of economic benefits, clean water, cultural importance, public access, or climate resilience.

Carbon Sequestration and Climate Resilience: Describe how protection of the property will result in benefits related to climate resilience and adaptation and carbon sequestration.

CRITERIA

This self-scoring section provides you and the FLP more precise information regarding how your parcel meets the goals and objectives of Michigan's Forest Legacy Program.

Please score the following criteria using points to the right of each specific description. Note: These criteria shall serve as guidance for the Selection Committee to use in the overall process of prioritizing and ranking projects. The committee may also use other information to qualify and determine project ranking and selection.

Core Criteria	Total Points Possible	Total Points	Comments
Conversion Threat			
Conversion threat is imminent and will occur within 2 years if no action to acquire easement occurs.	40 Pts.		
Conversion threat is present and is likely to occur within 3-5 years.	20 Pts.		
Conversion threat is a possibility within 6-10 years.	10 Pts.		
Conversion is unlikely in the foreseeable future.	0 Pts.		
Public Access			
Full access to entire parcel allowed throughout the year.	40 Pts.		
Limited access to parcel.	20 Pts.		
Public access restricted to protect environmentally important resources.	20 Pts.		
Limited access to only one portion of the parcel.	10 Pts.		
No access allowed.	0 Pts.		
Abuts Public or Other Protected Forest Lands			
Abuts lands owned and managed by the DNR, NPS, USFS, or USFWS.	40 Pts.		
Abuts property owned or protected by land trust or other conservation group.	20 Pts.		
Abuts municipally owned property managed as forest, park, or open space.	10 Pts.		
Traditional Forest Uses			
Approved management plan properly implemented, with parcel providing sustainable flow of timber and fiber; site quality and productivity for forest products is high.	40 Pts.		
Approved management plan properly implemented, etc.; site quality and productivity medium to fair.	20 Pts.		
Approved management plan properly implemented, etc., site quality and productivity fair to poor.	10 Pts.		

Core Criteria	Total Points Possible	Total Points	Comments
Scenic Resources			
Parcel has frontage on one of the Great Lakes shoreline, designated Wild and Scenic, or Natural River or federally designated trail, such as the North Country Trail, or scenic route.	20 Pts.		
Parcel has frontage on state designated trail, designated state or local fall color tour route, or regional scenic views.	10 Pts.		
Benefits to Disadvantaged Communities (*Additional core criteria for 2024 IRA opportunity)			
Proposed project has a high level of connection with a disadvantaged community AND is entirely located within an identified disadvantaged community.	40 pts.		
Proposed project has a moderate level of connection with a disadvantaged community AND is at least partially located within an identified disadvantaged community.	20 pts.		
Proposed project has a low to moderate level of connection with a disadvantaged community AND is located adjacent to an identified disadvantaged community.	10 pts.		
Proposed project does not have a level of connection with a disadvantaged community OR is not located within or adjacent to a disadvantaged community.	0 pts.		
Tribal/Cultural Resources (*Additional core criteria for 2024 IRA opportunity)			
Proposed project is located within an established reservation and contains historical ceremonial sites, uses, and species of importance and is accessible to tribal members for fishing, hunting, and gathering.	40 pts.		
Proposed project is located within the historic home territory of a tribal entity and contains important sites or species of importance.	20 pts.		
Proposed project provides access for fishing, hunting, and gathering of important species by tribal members.	10 pts.		
Subtotal			
Known Historic/Archeological Resources			
Parcel contains two or more archeological/historic sites in good to excellent condition, as documented by the State Historic Preservation Officer (SHPO).	20 Pts.		
Parcel contains one SHPO documented archeological/historic site in fair condition.	10 Pts.		
Parcel may contain significant site or artifacts.	5 Pts.		
Fish and Wildlife Habitat & Habitat Connectivity			
Majority of parcel adjacent to or contains stream or inland lake regulated by the DNR, or for trout and/or salmon OR parcel provides significant habitat connectivity and is managed to provide for a diversity of wildlife habitat (e.g., old growth to seral tree species, mixed conifer/hardwood stands, coarse woody debris) beneficial to game and non-game wildlife.	20 Pts.		

Core Criteria	Total Points Possible	Total Points	Comments
Portion of parcel provides some habitat connectivity and is managed for wildlife or cold-water habitat suitable for trout and or salmon.	10 Pts.		
Parcel adjacent to another forest parcel > 200 acres.	5 Pts.		
Riparian and Watershed Resources			
Parcel has > 1,000' frontage on perennial cold-water river or stream(s) or contains > 20 acres of lake or open water wetlands within easement boundary.	20 Pts.		
Parcel has > 300' frontage on perennial cold-water stream or > 10 acres of lake/open water wetland within easement boundary.	10 Pts.		
Parcel has < 300' frontage on perennial cold-water stream or > 5 acres of lake/open water wetland.	5 Pts.		
Threatened & Endangered (T&E) Species or Special Communities			
Parcel contains coastal dune (>100 acres) OR Niagara Escarpment community (>20 acres) OR old growth forest (>50 acres, average age > 120 years) with element occurrence rank "B".	20 Pts.		
Parcel contains one or more of the above communities, but less than desired acreage OR contains other natural communities of "exceptional" quality.	10 Pts.		
Parcel contains at least one element occurrence or at least one vernal pond.	5 Pts.		
Non-Timber Products			
Parcel produces native seed of medicinal plants for commercial sale and use.	20 Pts.		
Parcel produces other non-timber forest products desired by public.	10 Pts.		
Parcel capable of producing valued non-timber products.	5 Pts.		
Climate Resiliency			
Parcel is entirely located within an identified priority climate resilience protection area	40 Pts.		
Parcel is partially located within an identified priority climate resilience protection area	30 Pts.		
Parcel is located directly adjacent to an identified priority climate resilience protection area	10 Pts.		
Parcel is not located in or adjacent to an identified priority climate resilience protection area	0 Pts.		
	Subtotal		

Special Emphasis Criteria by Project Type

Please fill out the appropriate section below based on the IRA project type (Large Landscape, State-Tribal Partnership, or Strategic Small Tracts) being nominated. See Attachment A: Project Categories for details.

Core Criteria	Total Points Possible	Total Points	Comments
Large Landscape Projects and State-Tribal Partnership Projects			
Size and Contiguity of Forest Lands			
Parcel is contiguous block or overall large ownership > 5,000 acres in UP, > 2,500 acres in NLP or > 250 acres in SLP.	30 pts.		
Parcel is contiguous block > 2,500 acres in UP, > 750 acres in NLP or > 150 acres in SLP.	20 pts.		
Parcel is contiguous block > 1,000 acres in UP, > 350 acres in NLP or > 80 acres in SLP.	10 pts.		
Parcel does not meet size and contiguity criteria for pertinent region.	0 pts.		
Carbon Sequestration			
Potential forest ecosystem carbon sequestration (2010-2050) based on TNC's Resilient Mapping Tool is 34.1-77 metric tons per acre	40 pts.		
Potential forest ecosystem carbon sequestration (2010-2050) based on TNC's Resilient Mapping Tool is 20.1-34 metric tons per acre	30 pts.		
Potential forest ecosystem carbon sequestration (2010-2050) based on TNC's Resilient Mapping Tool is 8.1-20 metric tons per acre	20 pts.		
Potential forest ecosystem carbon sequestration (2010-2050) based on TNC's Resilient Mapping Tool is 0.9-8 metric tons per acre	10 pts.		
Strategic Small Tracts Projects			
Size and Contiguity of Forest Lands			
Parcel is contiguous block > 400 acres in UP, > 240 acres in NLP or > 120 acres in SLP.	30 pts.		
Parcel is contiguous block > 240 acres in UP, > 160 acres in NLP or > 80 acres in SLP.	20 pts.		
Parcel is contiguous block > 200 acres in UP, > 100 acres in NLP or > 40 acres in SLP.	10 pts.		
Parcel does not meet size and contiguity criteria for pertinent region.	0 pts.

APPLICATION PACKET SUBMITTAL INFORMATION

This completed application must be submitted electronically along with each of the following items:
(If you cannot locate or obtain these items, please contact the FLP manager for the appropriate substitute.)

- Application Form Part I and Part II thoroughly completed and signed.
- Copy of the county map showing location of the property. Please outline the property and, if the entire property is not being nominated, the portion that is proposed for the project.
- Copy of plat or survey map of the parcel.
- Copy of the last deed of record for the parcel.
- Copy of the forest management or multi-resource stewardship plan, if completed.
- Aerial photo of the property with the property and project area outlined.
- Map of identifying dams, underground fuel tanks, dumps or waste disposal sites on the property, if applicable.
- Map or list of permanent improvements on the nominated parcel (such as roads, buildings, ponds, dams, wells, and other structures and approximate acreage occupied by these improvements).
- For projects that are in the "State-Tribal Partnership" category, a copy of the written agreement between the tribal entity and the State regarding co-management of the property.
- Any written comments you wish to provide.

Please note that all submitted materials become the property of the State of Michigan and are non-returnable.

**Applications and materials should be submitted electronically.
Applications must be received by close of business December 13, 2024.**

Submit this completed application and all required documentation (listed above) to:

ATTACHMENT A: PROJECT CATEGORIES

1. Large Landscape Projects:

These projects should focus on large-scale, high impact opportunities in ecological and economically significant landscapes where a significant federal investment available at one time will achieve a conservation outcome with exceptional public benefits. This opportunity is limited to conservation easement and fee simple acquisition transactions with a single legal entity (individual, family, or corporate landowners) with high leverage/non-federal contributions by the landowner, state, and other partners.

- One project can be submitted per state per funding round
- Up to \$50 million per project
- Special emphasis criteria includes:
 - Exceptional economic, social, and environmental benefits and high strategic importance in a priority landscape
 - Significant contribution to one or more of the following goals:
 - Climate resilience
 - Carbon sequestration
 - Habitat connectivity
 - Benefits for disadvantaged or tribal/indigenous communities
 - Projects with higher non-federal cost share than 25% will be given greater consideration
 - Large investment now will be more cost effective and efficient than phasing over time
 - High readiness and capacity to implement within 3 years of grant award

2. State-Tribal Partnership Projects:

Projects where the State works in partnership with Tribes to identify and conserve lands with high importance and significant benefits for those Tribes. This opportunity is limited to fee simple acquisitions only. Only privately held lands are eligible for acquisition under this opportunity. The State and Tribe will manage the acquired property together for long-term stewardship, with the terms of the relationship between the State and Tribe documented in a formal agreement and/or in the recorded deed.

- One project can be submitted per state per funding round
- Up to \$50 million per project
- Special emphasis criteria includes:
 - Meaningful support and involvement of tribes (beyond letters of support) in the design, implementation, and stewardship of the project
 - Establishes or enhances long-term stewardship-oriented relationships between states and tribe, including agreement to co-manage the land
 - Supports the protection of tangible or intangible cultural resources and/or traditions. Public access will be managed to protect cultural resources and traditions. Tribal members will have access to the property for cultural purposes.
 - Significant contribution to one or more of the following goals:
 - Climate resilience
 - Carbon sequestration
 - Habitat connectivity
 - Benefits for disadvantaged or tribal/indigenous communities
 - High readiness and capacity to implement within 3 years of grant award
 - Provides for long-term tribal engagement and co-management in stewardship of the project area. Management plans should incorporate traditional indigenous ecological knowledge/practices to reflect joint-stewardship.

3. Strategic Small Tract Projects:

These projects support the conservation of strategic inholdings or adjacent properties to already conserved lands, including strategic tracts that complement previous Forest Legacy Program investments. Each tract will need to be submitted as a stand-alone project, not bundled with other tracts as is allowed under the annual LWCF process. For the purposes of this opportunity, a “tract” is defined as contiguous land under the same legal ownership. This opportunity is available for both conservation easements and fee simple acquisition transactions.

- Three projects can be submitted per state per funding round
- Up to \$1.5 million per project
- Special emphasis criteria includes:
 - Inholdings or adjacent properties to already conserved lands

- Significant contribution to one or more of the following goals:
 - Climate resilience
 - Habitat connectivity
 - Benefits for disadvantaged communities
- Public access is required with a goal of enhancing public access to existing protected lands where applicable and strategic
- High readiness and capacity to implement within 12 months of grant award
