

Michigan Forest Products Primary Mills Active in 2021

Mill Type and Count

- Large Sawmill (43)
- Medium Sawmill (81)
- Small Sawmill (125)
- ◆ Pellet Mill (1)
- ✚ Veneer Mills (5)
- Pulp Mills (3)
- Post, Pole, and Piling Mills (10)
- Composite Board (5)
- ▲ Energy Plants (6)
- Other Mills (28)

Based on data collected as part of the primary mill survey conducted by Michigan DNR for primary manufacturers active in 2021.

Primary mills: Companies that use wood chips, saw logs or pulpwood obtained directly from the forest to manufacture paper or other wood products.

Large sawmills: Mills that used raw material volumes greater than 5 million board feet in 2021.

Energy plants: Facilities that used wood fuel from forest and urban tree removal sources for generation of electricity in 2021.
