

## GENERAL DIRECTIONS FOR ASSEMBLY OF FISH

Fish should be reinforced by glueing to construction paper before assembly.

Do all coloring before cutting and glueing.

Use white glue instead of paste.

Completed fish can be sprayed with clear acrylic varnish or painted with an acrylic polymer for a light gloss.

The crappie, sunfish, bluegill, and both bass are assembled the same with slight variations in folding to the heads.

Black Crappie - Body is dull gray with scattered black spots.

Green Sunfish - The over-all color is olive-green that blends into a yellow belly.

Longear Sunfish - The body is colored with brilliant blue streaks and orange spots. The iris of the eye is reddish in front and behind the pupil. Dorsal and anal fins are light orange. Pectoral fins are dusty in color.

Blue Gill - The body is basically dark olive-green with a yellow or reddish belly. Blackish spot located on the base of the dorsal and pectoral fins.

Smallmouth Bass - Mouth extends only to the middle of the eye. The body is light green with vertical black blotches or bars.

Largemouth Bass - The mouth extends beyond the eye. The body is bright dark green on the sides with a blackish band blending into a silvery belly.

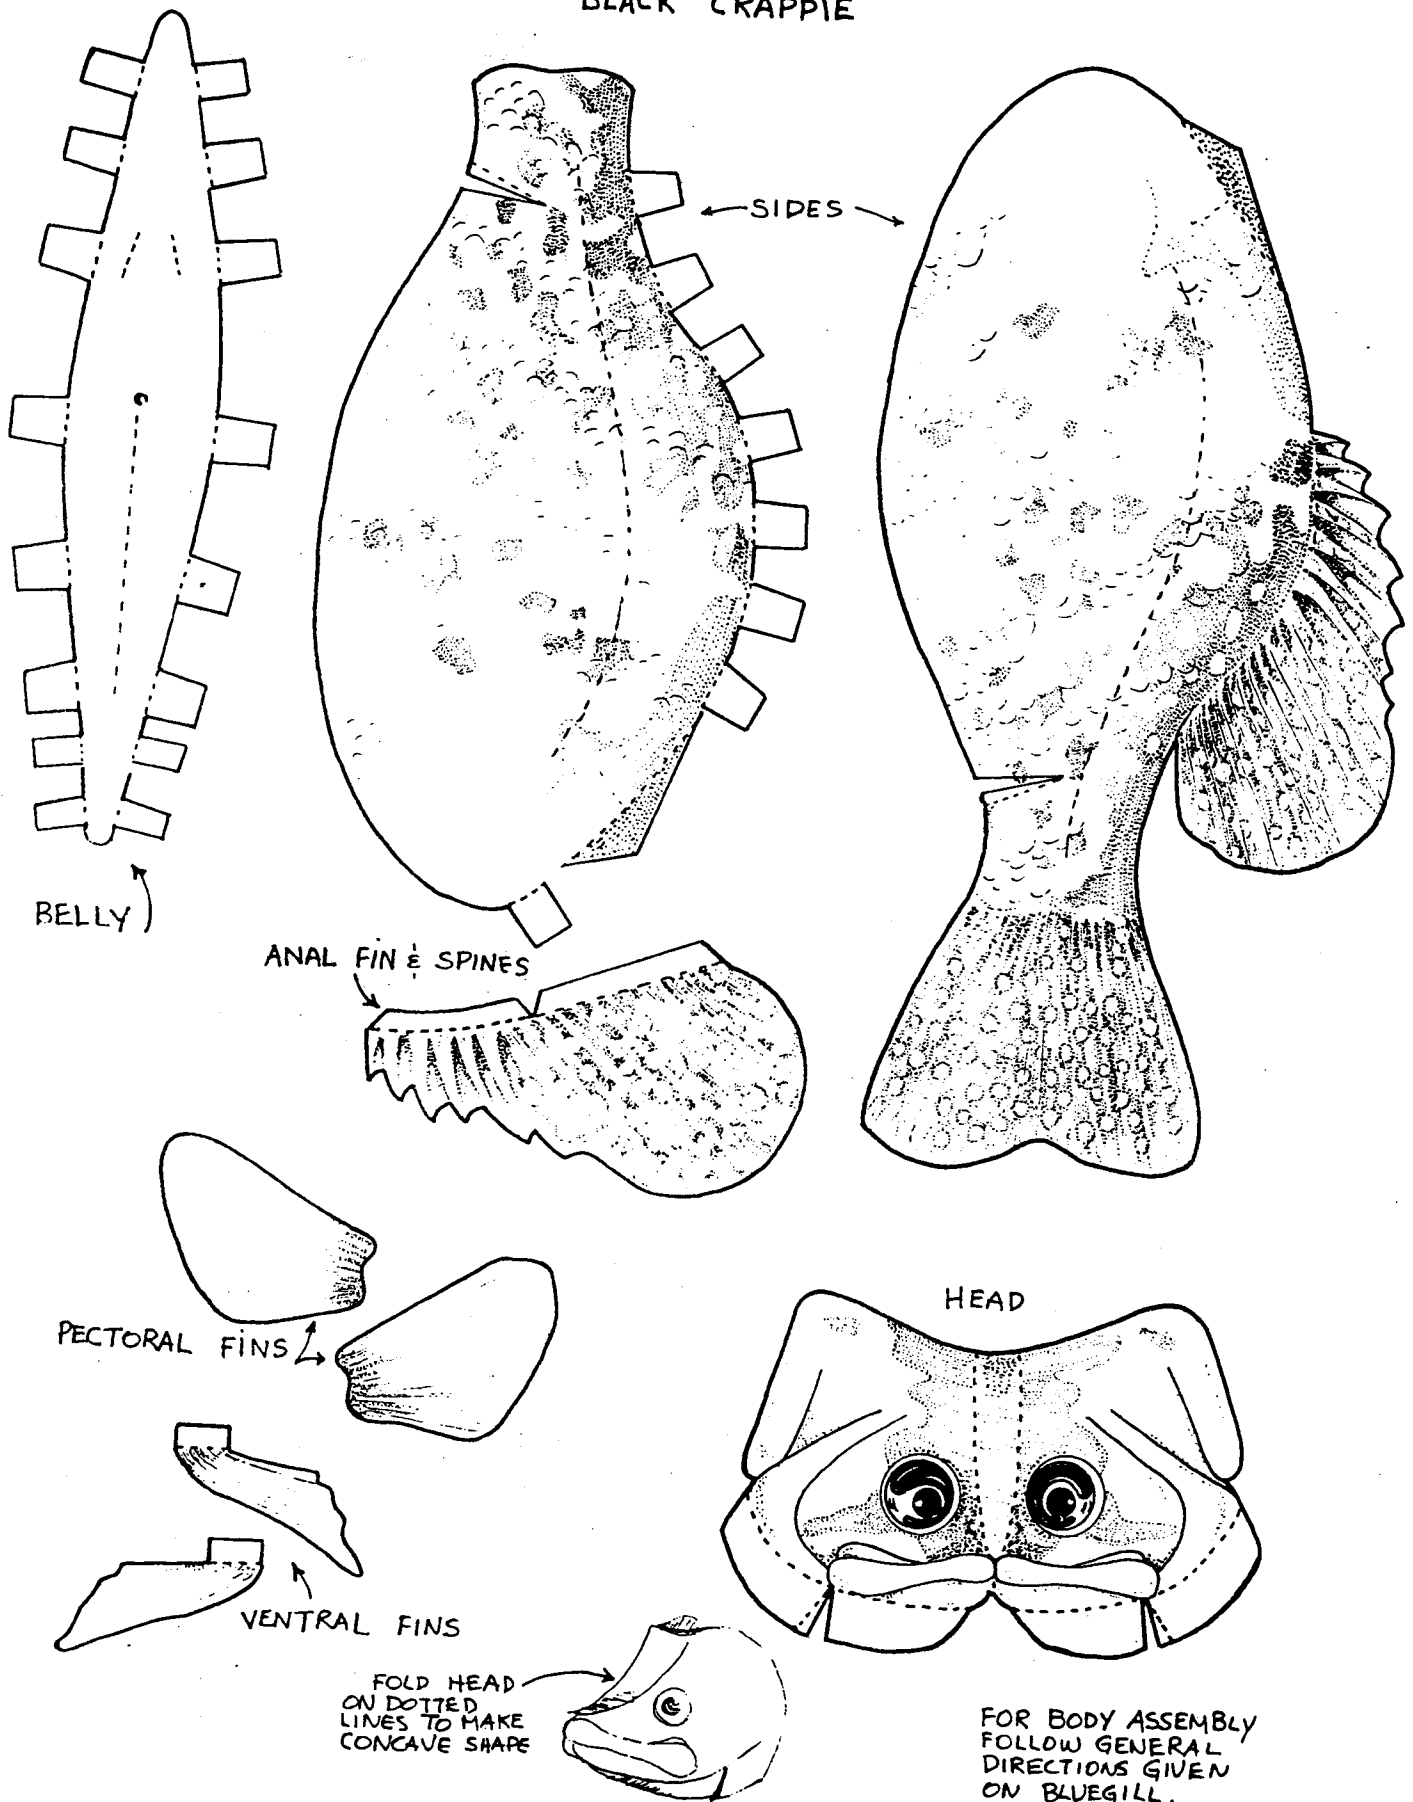

Paddlefish - A long flat snout and shark-like tail. The body is scaleless and gray to bluish-gray.

Rainbow Trout - The upper part of the body is dark olive-green, thickly speckled with black spots. The sides have a pinkish or red strip with the belly being a silvery white.

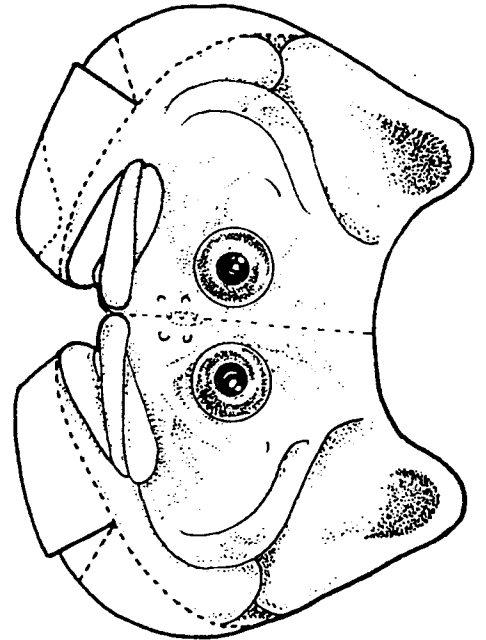

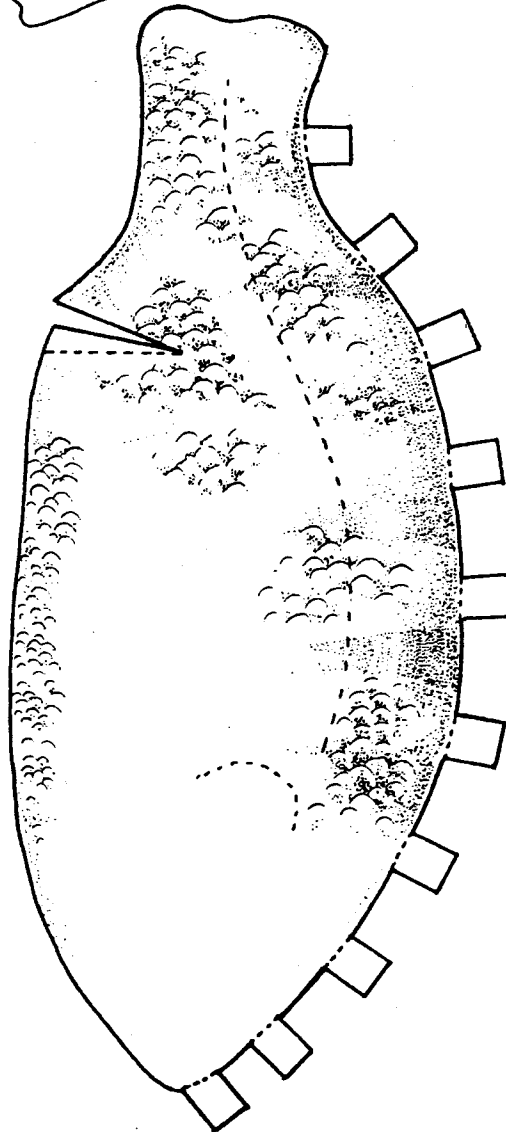

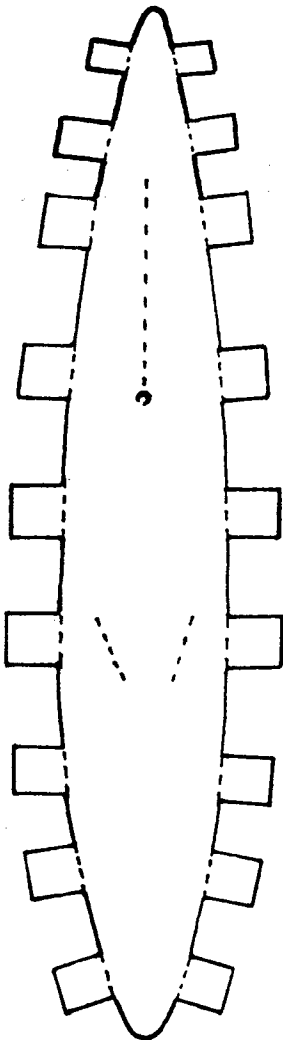

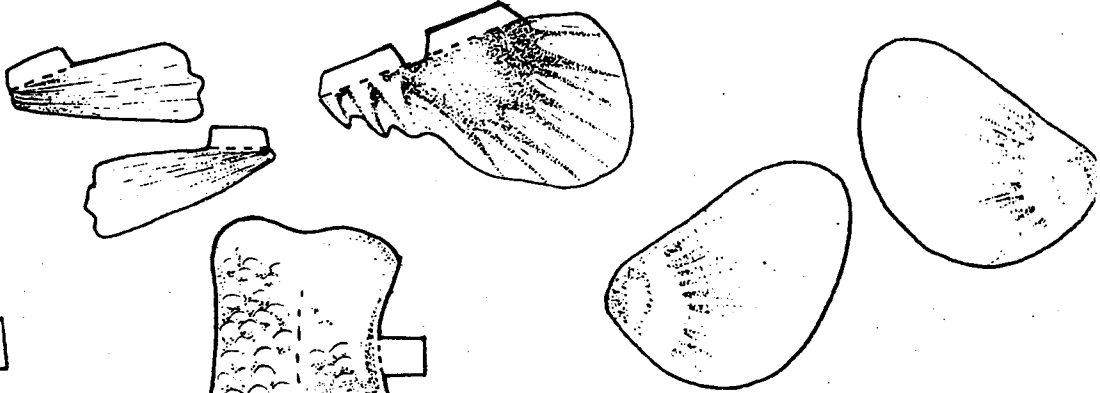

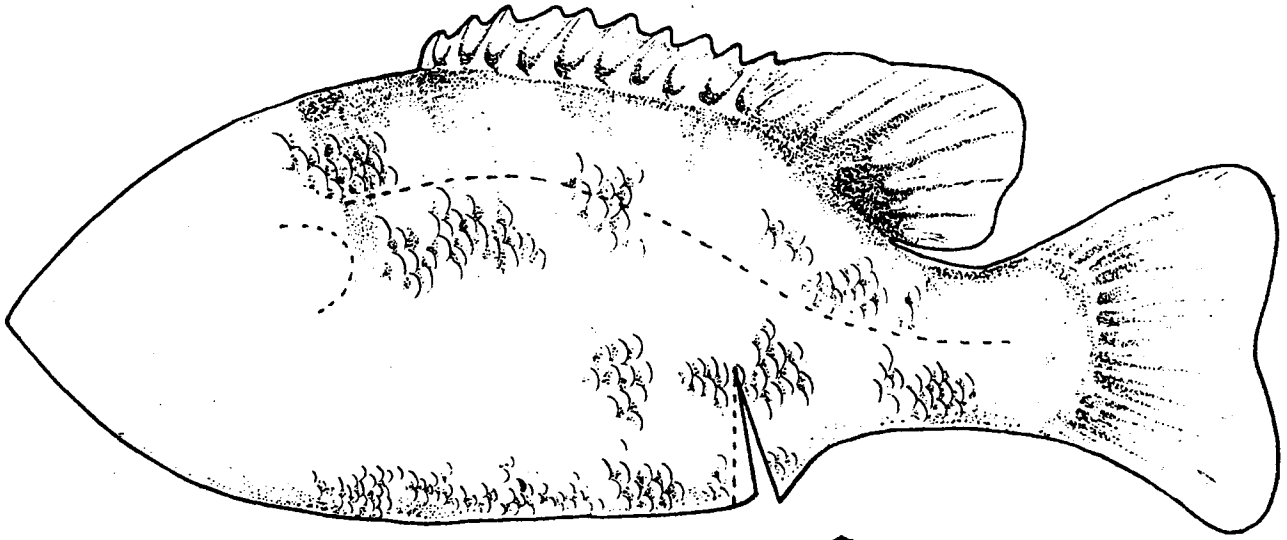

Channel Catfish - The back is bluish or olive, fading to silver on the sides and white on the belly. The smaller fish have scattered dark circular spots on their sides.

Golden Redhorse Sucker - The body is colored golden.

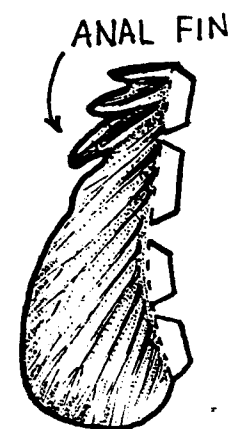

# BLACK CRAPPIE

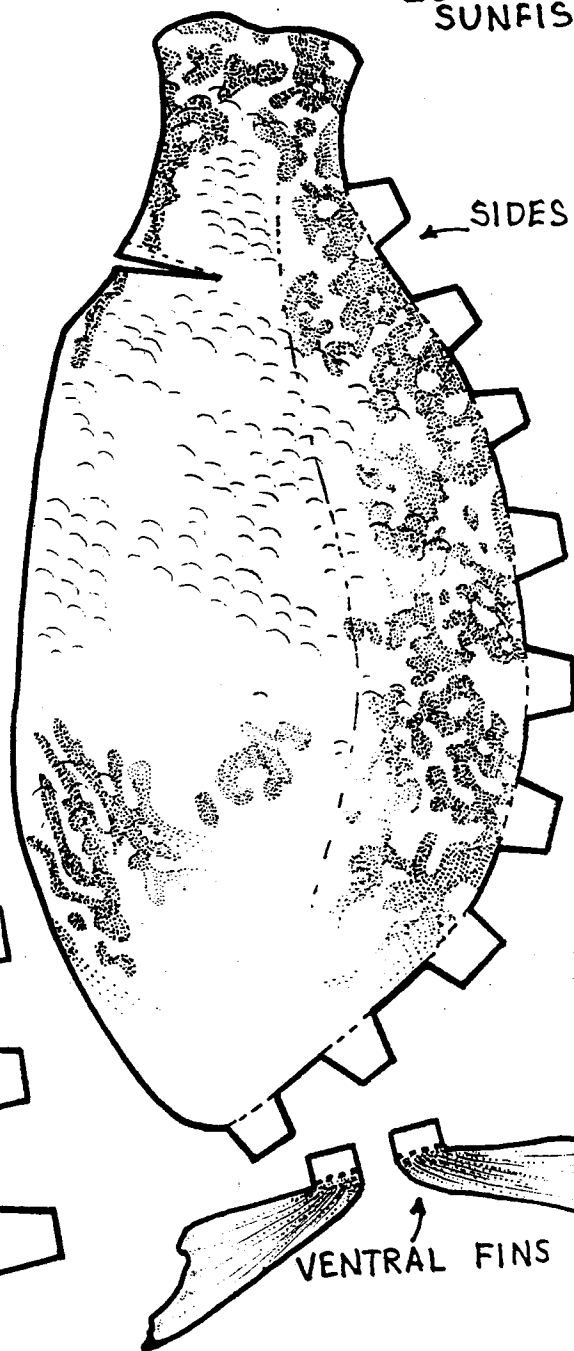

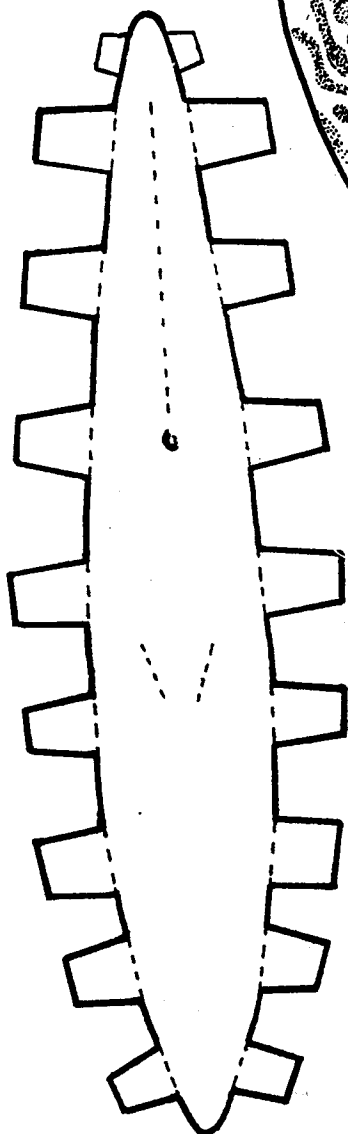

GREEN SUNFISH

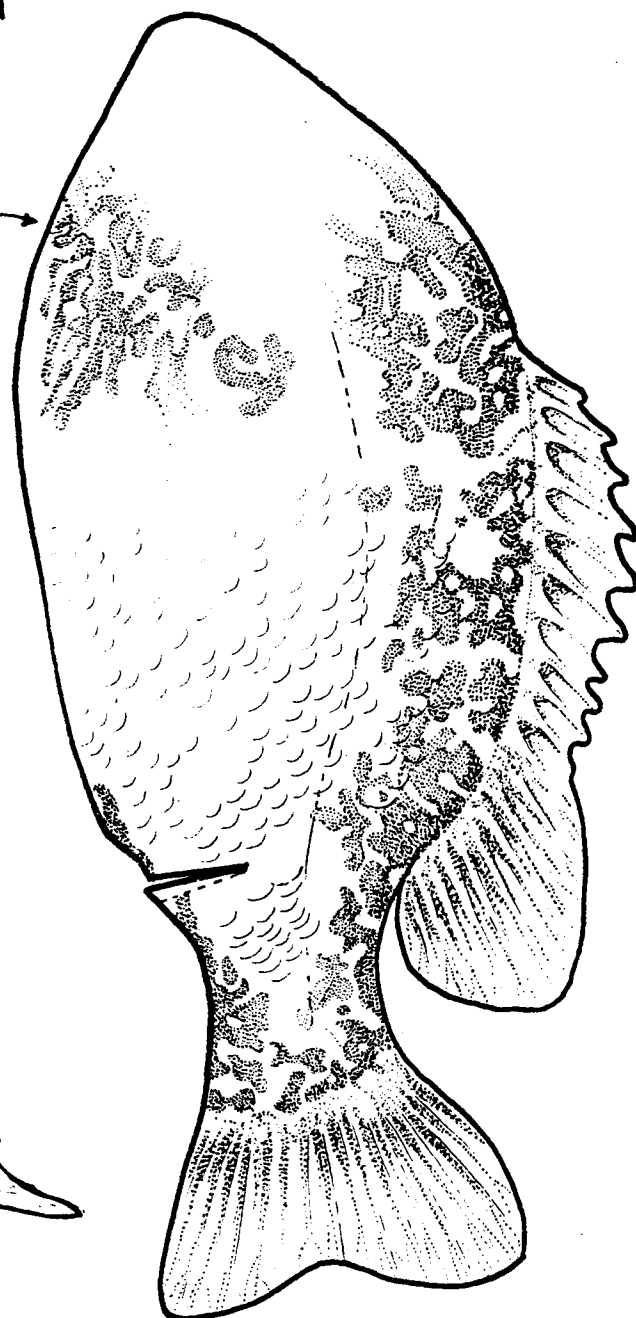

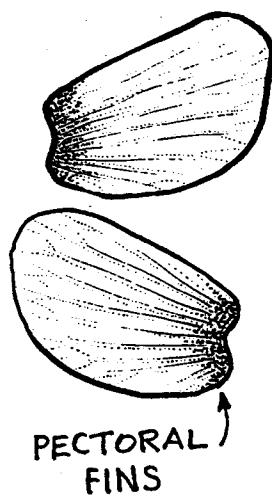

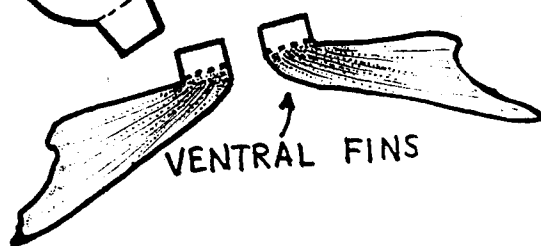

# LONGEAR SUNFISH

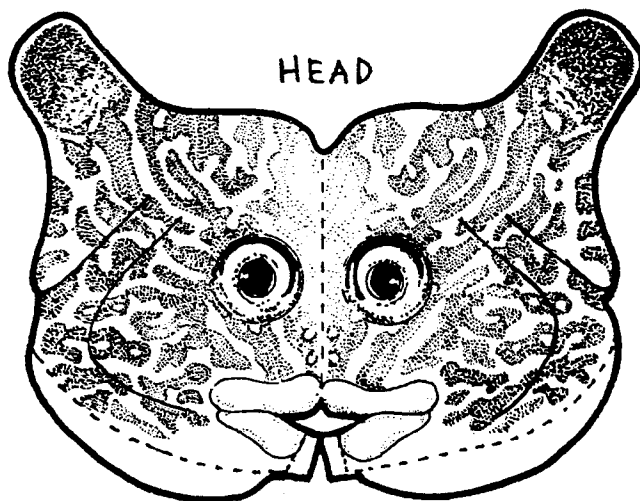

BELLY,

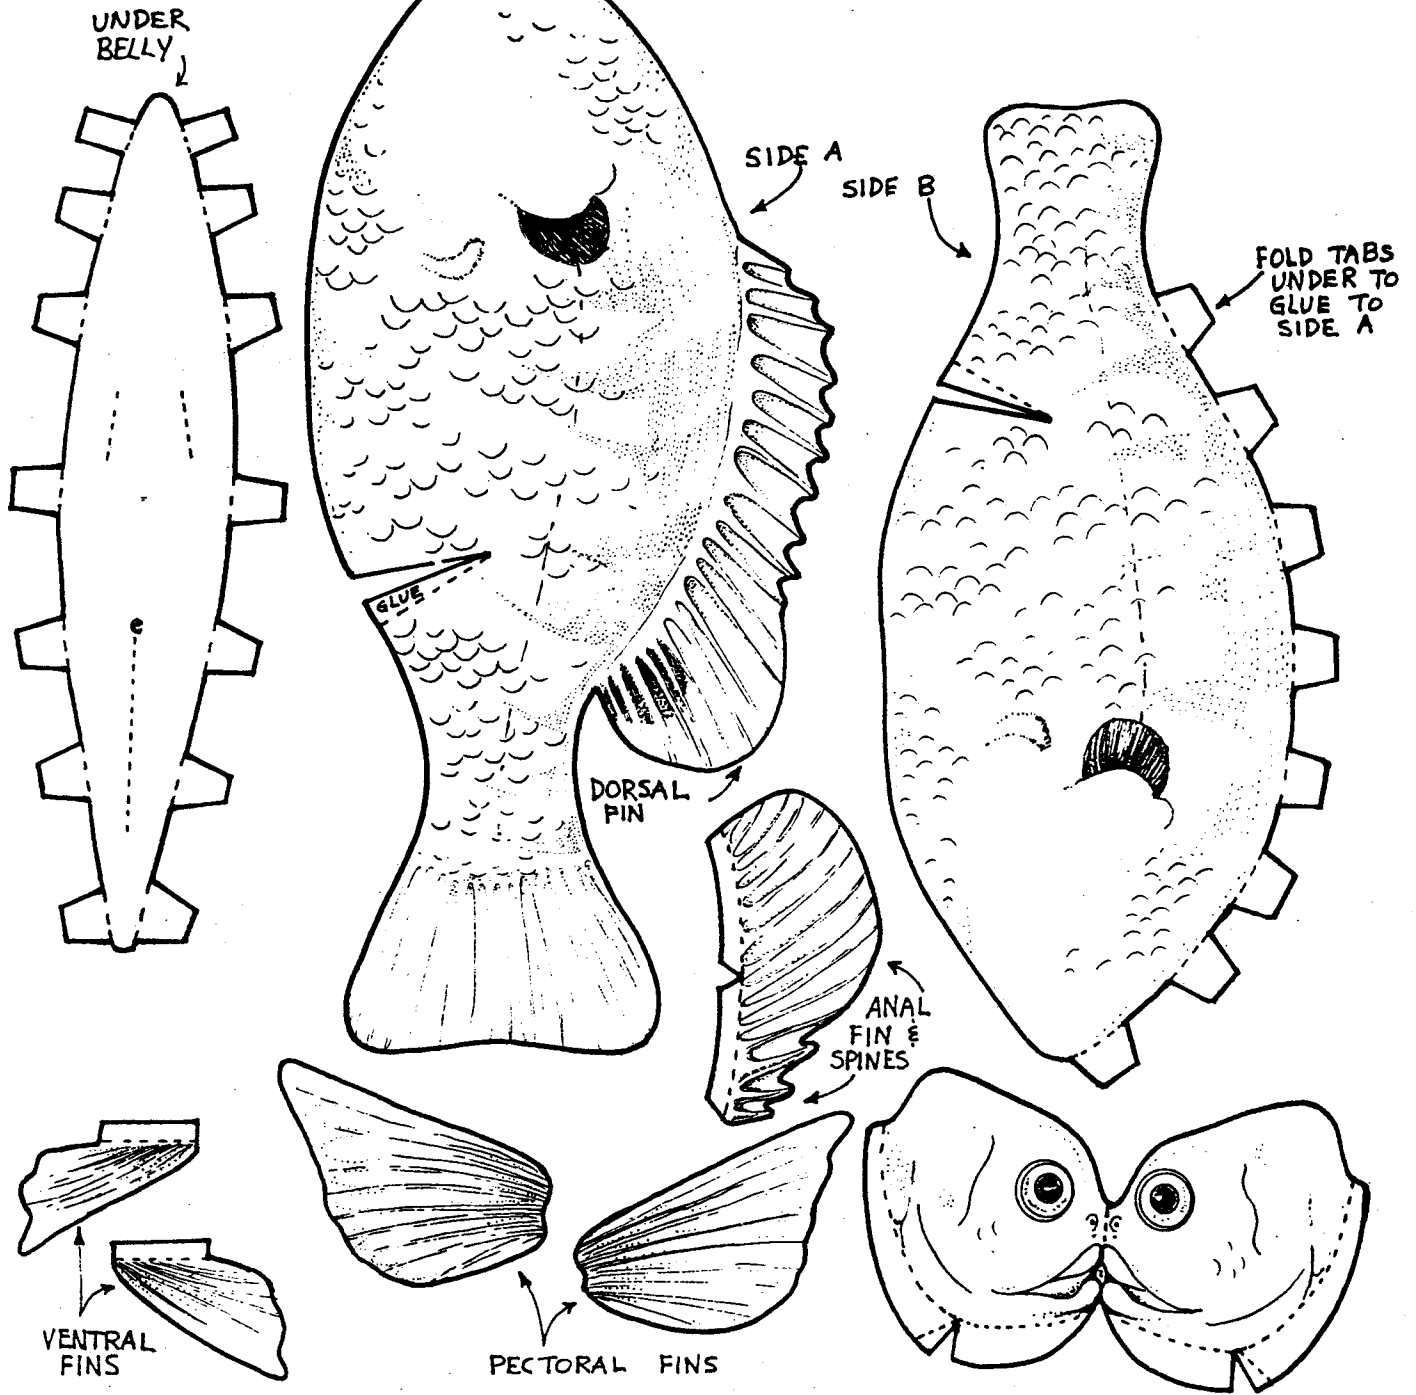

VENTRAL FINS

HEAD

# BLUEGILL

1. GLUE BOTH SIDES TOGETHER

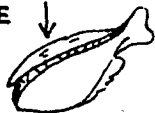

3. GLUE PECTORAL FINS BELOW DARK HALF MOON SHAPE.

5. FOLD HEAD ON DOTTED LINES

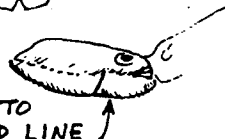

2. GLUE UNDER BELLY PIECE TO SIDES

4. GLUE VENTRAL FINS TO SHORT DOTTED LINES ON UNDER BELLY

6. GLUE FLAPS OVER TO DOTTED LINE

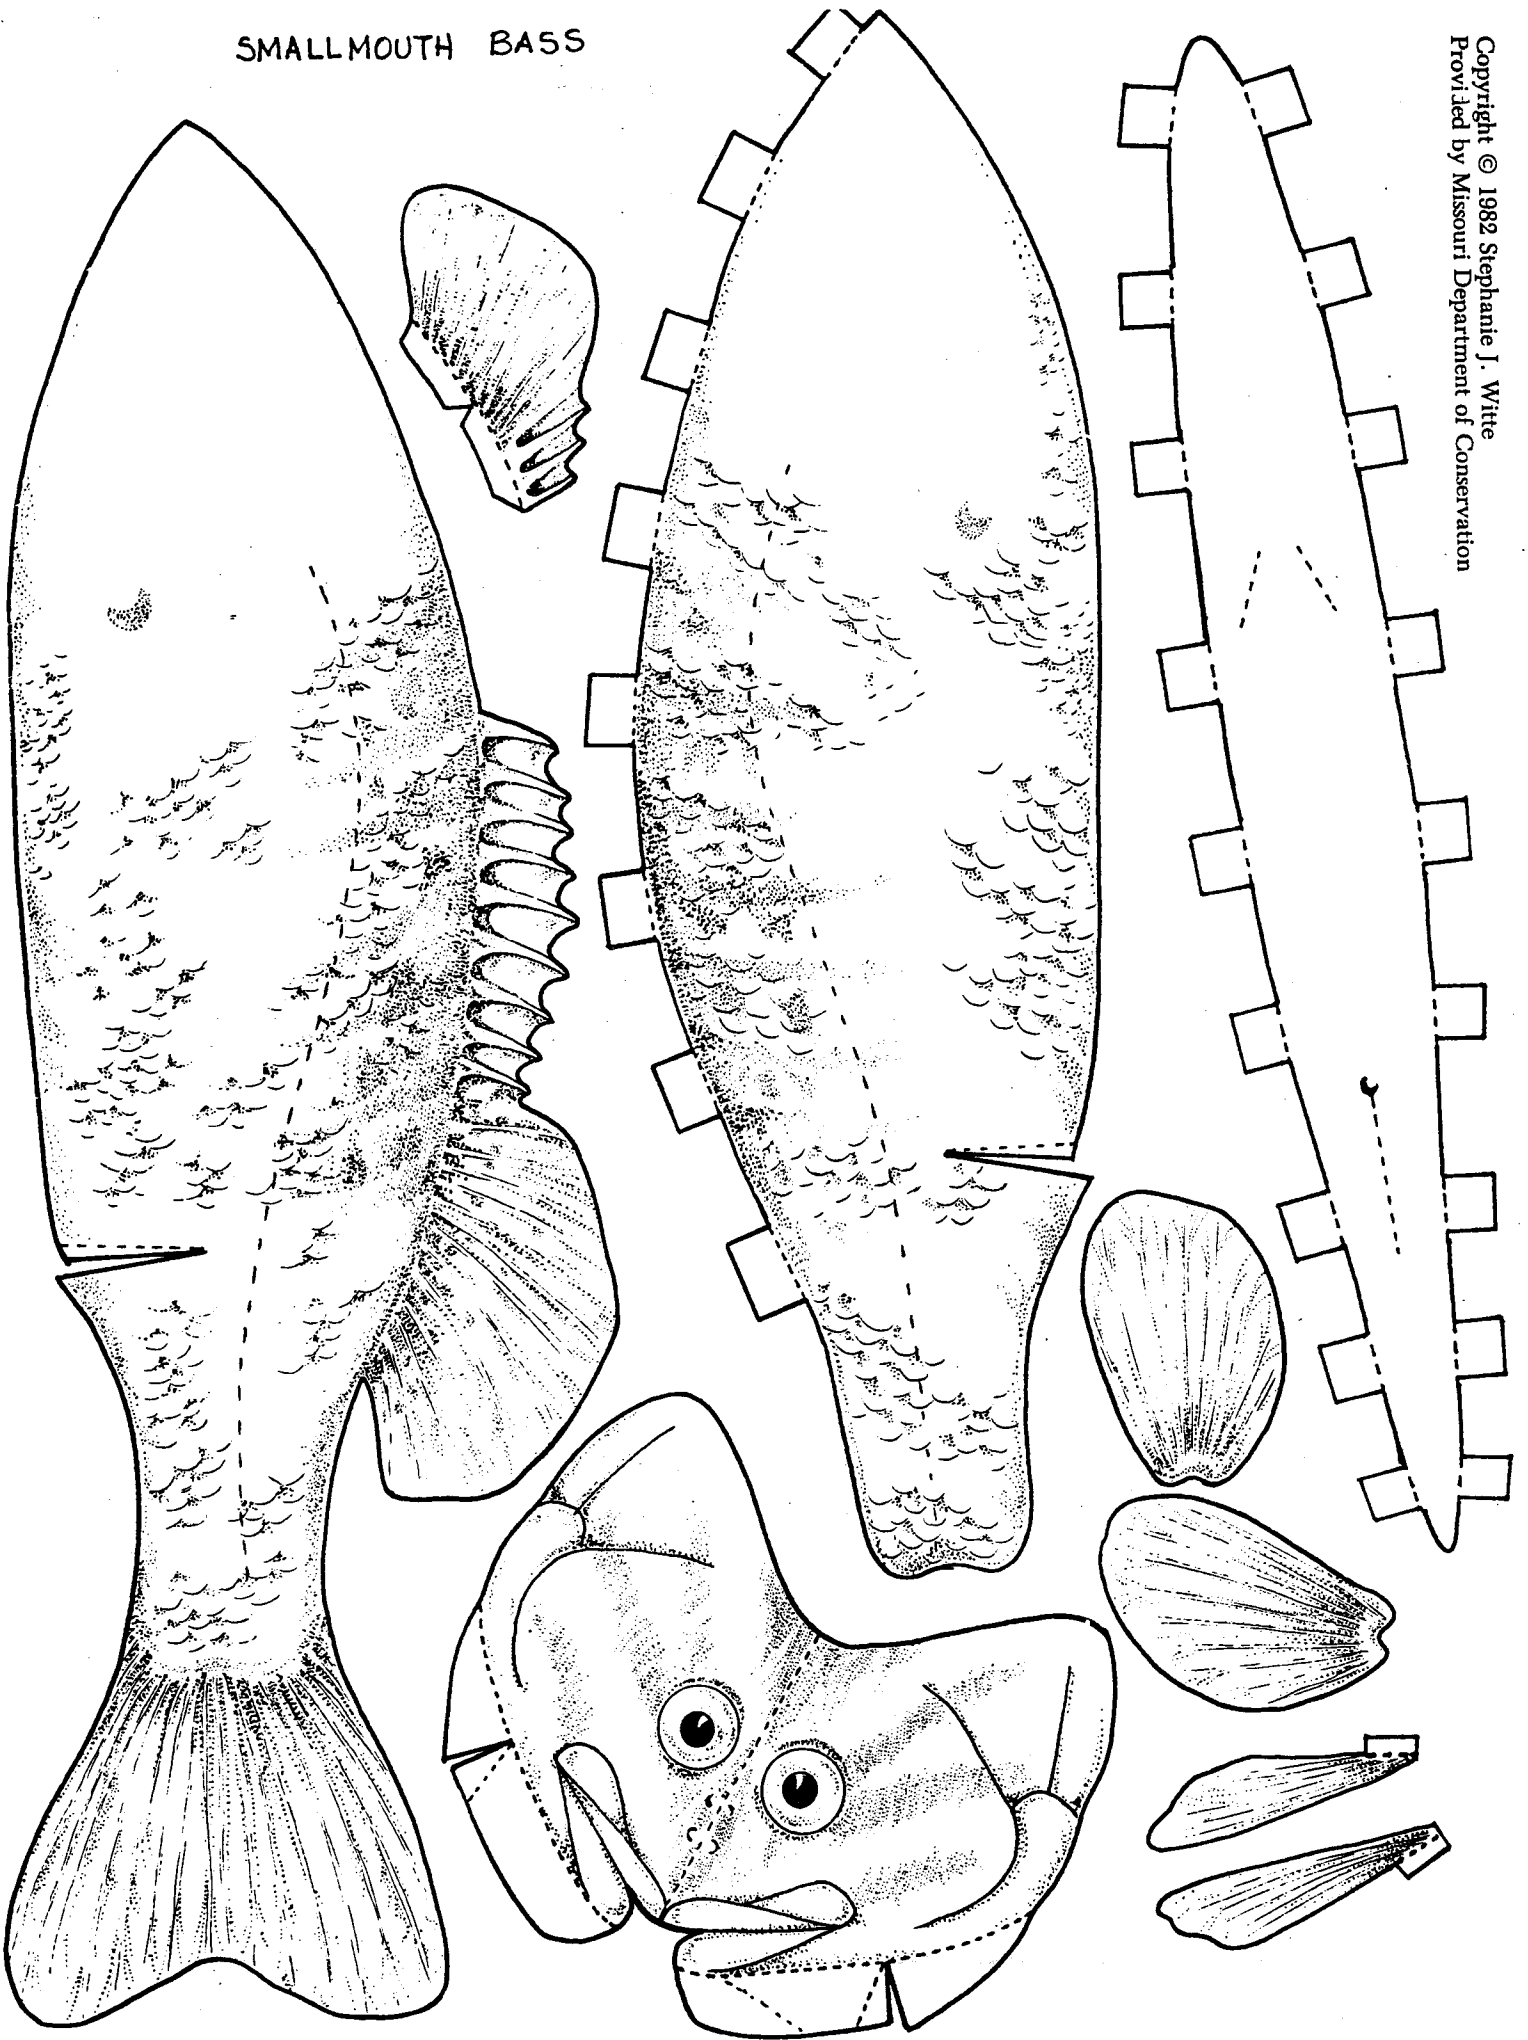

7. SLIDE HEAD OVER FRONT & GLUE IN PLACE

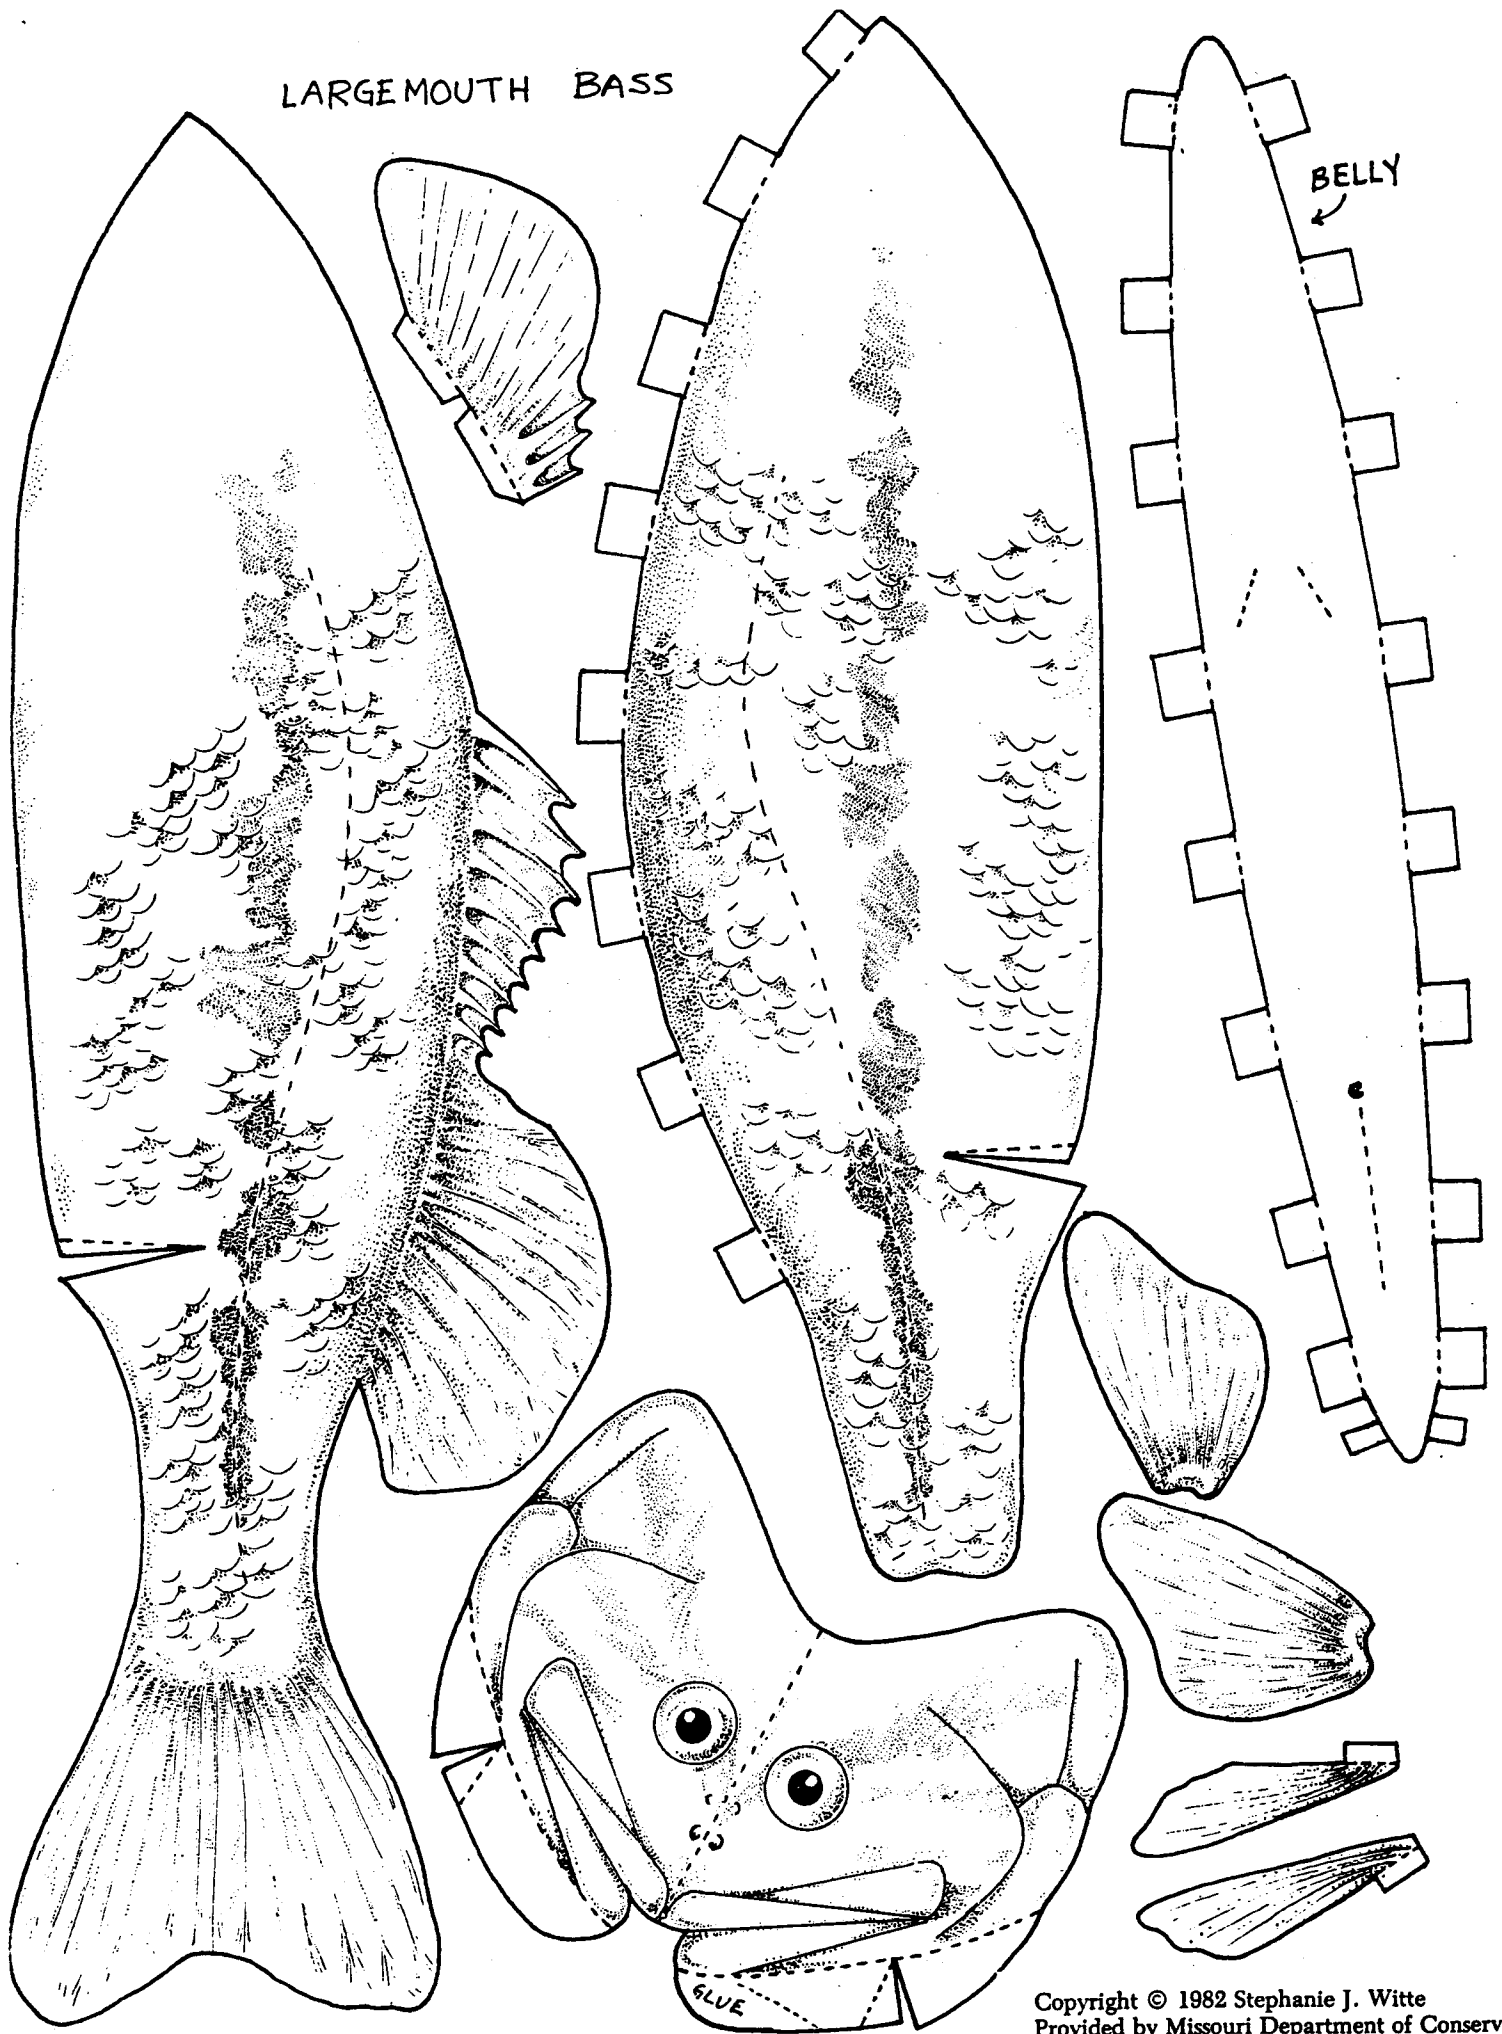

GLUE ANAL FIN ON LONG DOTTED LINE ON UNDER BELLY

# DIRECTIONS FOR RAINBOW TROUT

1. FOLD ALONG MIDDLE DOTTED LINE TO FORM BACK OF FISH.

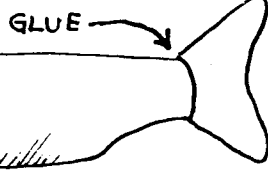

2. GLUE SLITS OVER TO DOTTED LINE

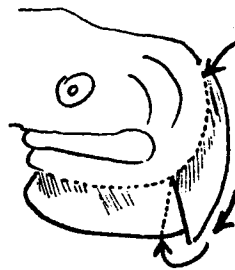

3. GLUE BOTTOM TOGETHER CAREFULLY. YOU MAY WANT TO USE A PENCIL OR RULER INSIDE THE BODY TO HELP PRESS THE EDGES TOGETHER.

4.

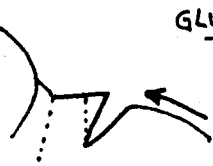

5.

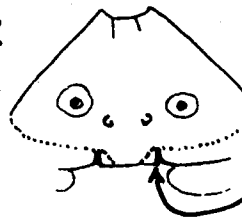

FOLD THE CURVED DOTTED LINE CAREFULLY. THEN GLUE THE SLIT EDGE OVER TO THE DOTTED LINE (ON BOTH SIDES)

6.

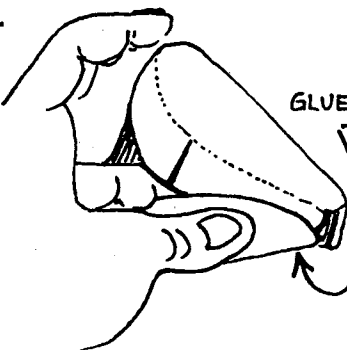

GLUE SLITS ON TOP OF THE HEAD. FOLD ON THE MIDDLE DOTTED LINE.

7.

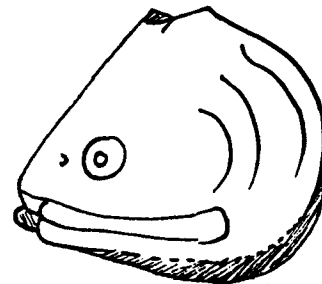

CUT SMALL SLITS ON FRONT OF THE HEAD & GLUE THE EDGES OVER TO THE DOTTED LINES TO SHAPE THE LIP

8.

GLUE BOTTOM EDGES TOGETHER TO THE EDGE OF THE DOTTED LINE — IT HELPS TO STICK YOUR FINGER INSIDE & USE YOUR THUMB TO HOLD TIL THE GLUE STICKS.

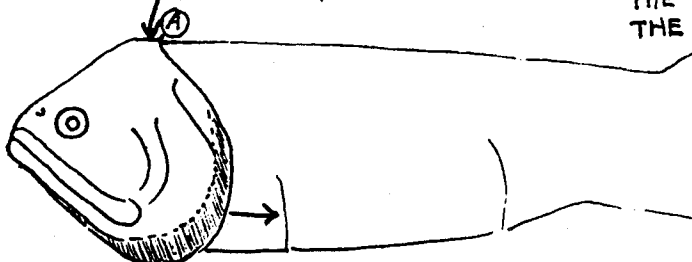

9.

FINISHED HEAD PIECE

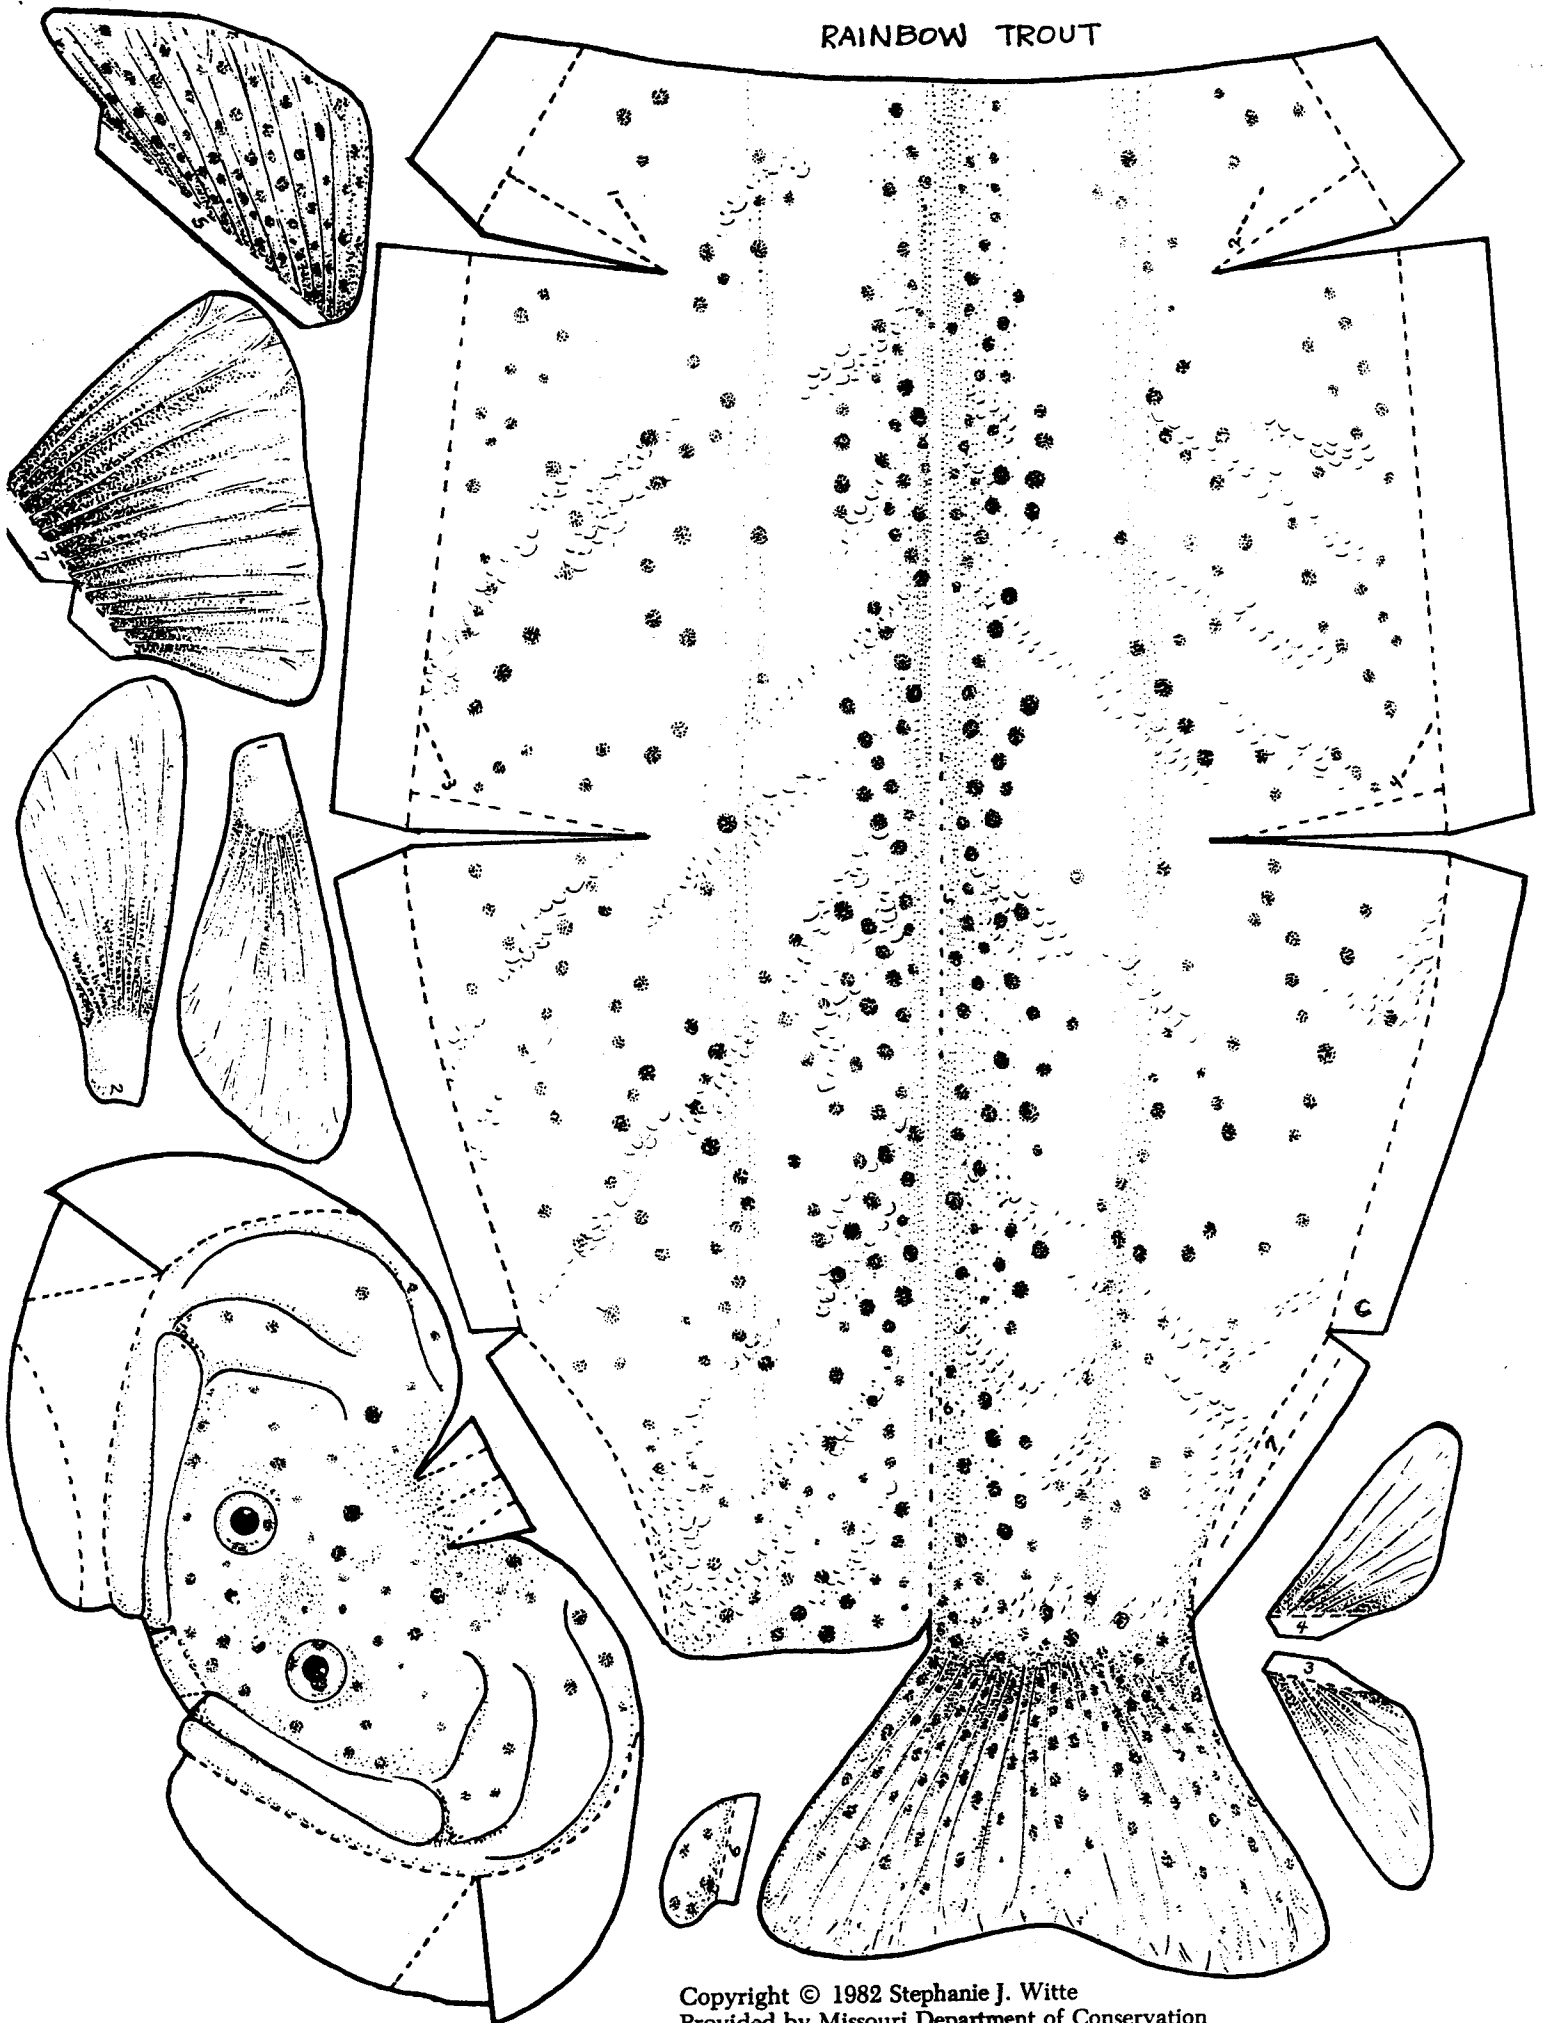

MATCH UP DOTTED LINE ON HEAD & BACK -

10. SLIDE THE BODY INTO THE HEAD PIECE UP TO THE FIRST BODY SLIT. GLUE HEAD TO BODY AT POINT A & AT THE GILL SECTION. HEAD SHOULD TILT DOWN SLIGHTLY AS PICTURED.

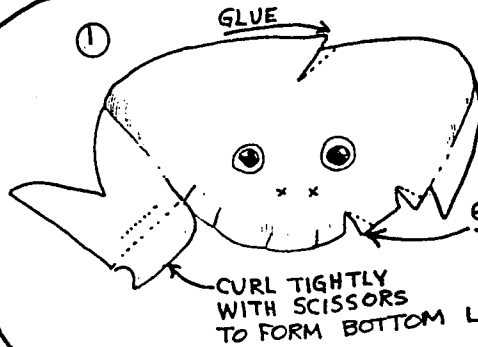

11. ADD FINS WHERE MARKED BY DOTTED LINES & NUMBERS.

# RAINBOW TROUT

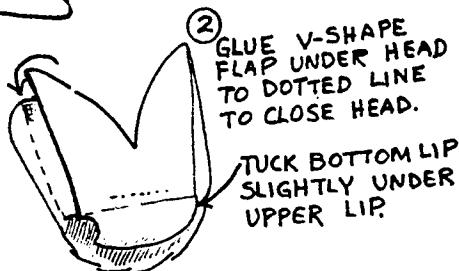

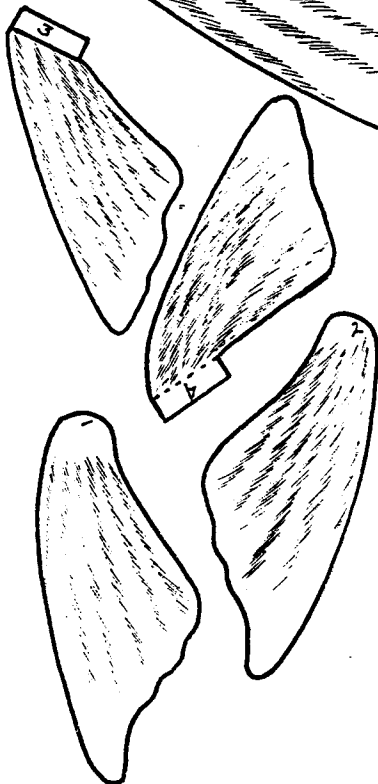

# DIRECTIONS FOR CHANNEL CATFISH

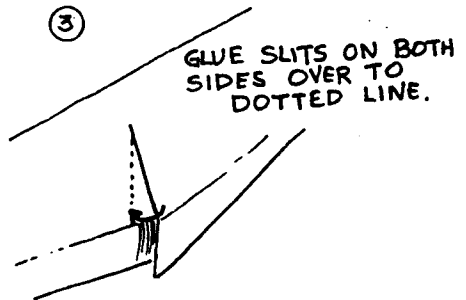

GLUE FLAP OVER TO DOTTED LINE TO SHAPE FRONT OF HEAD.

CURL TIGHTLY WITH SCISSORS TO FORM BOTTOM LIP.

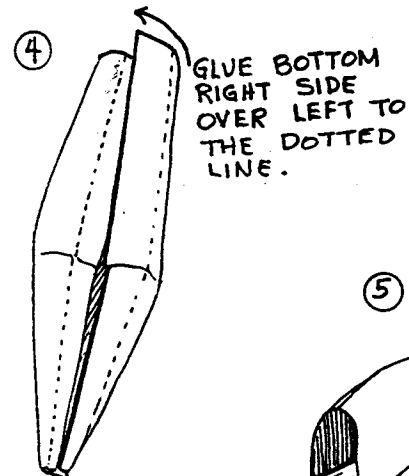

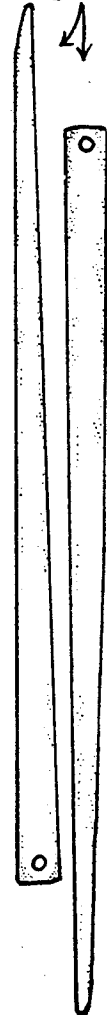

GLUE V-SHAPE FLAP UNDER HEAD TO DOTTED LINE TO CLOSE HEAD.

TUCK BOTTOM LIP SLIGHTLY UNDER UPPER LIP.

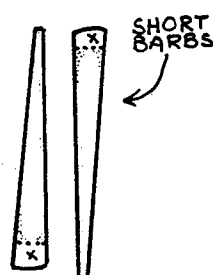

GLUE SLITS ON BOTH SIDES OVER TO DOTTED LINE.

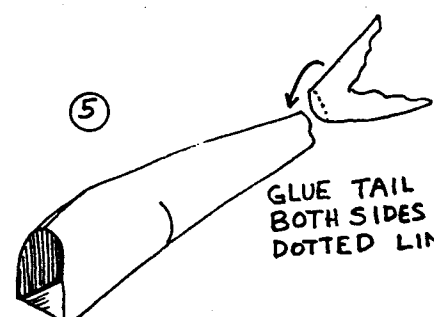

LIP BARBS

GLUE BOTTOM RIGHT SIDE OVER LEFT TO THE DOTTED LINE.

SHORT BARBS

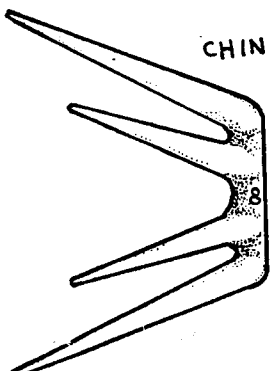

GLUE TAIL ON BOTH SIDES AT DOTTED LINE.

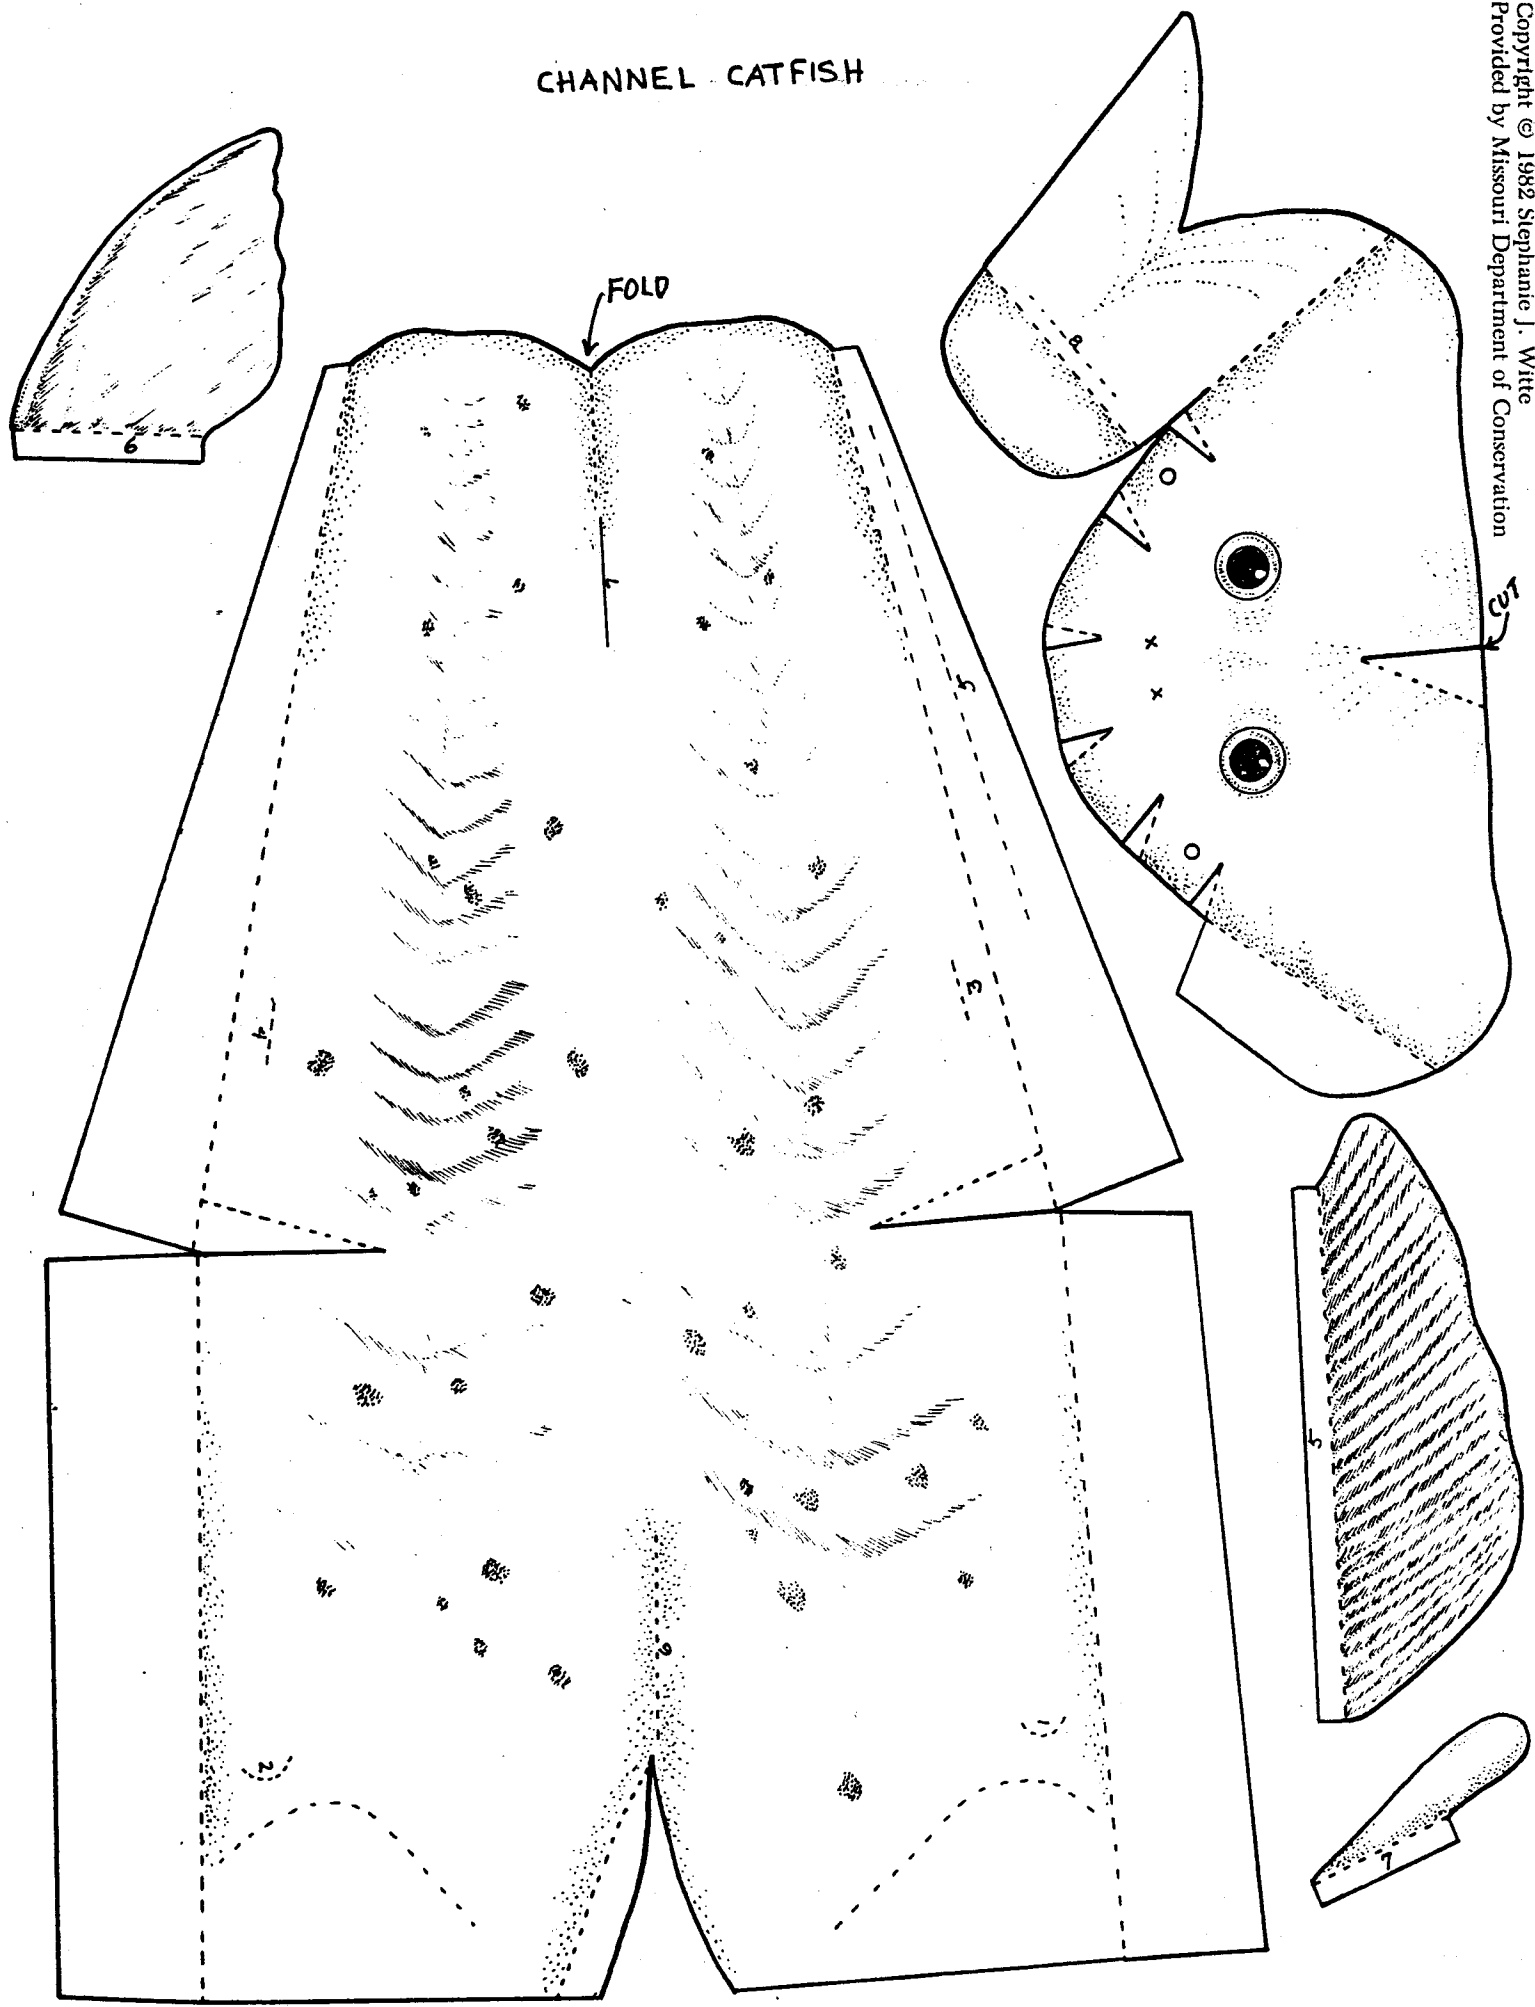

6 GLUE HEAD TO BODY AT BOTTOM AND AT GILL SECTIONS. (MARKED ON BODY BY DOTTED LINES.)

7 ATTACH FINS BY MATCHING NUMBERS. ATTACH SHORT BARBS ON X'S ON HEAD. LONG BARBS ATTACH ON O AT EACH SIDE OF UPPER LIP.

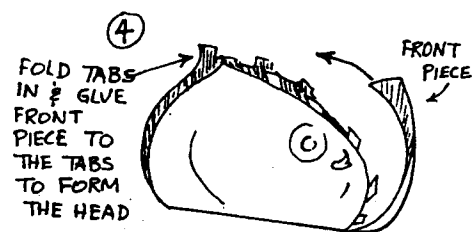

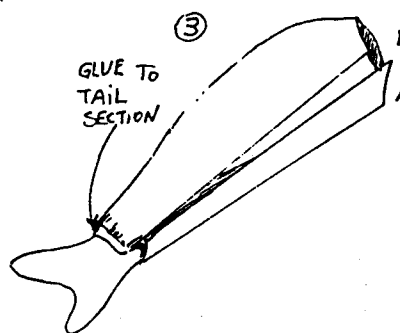

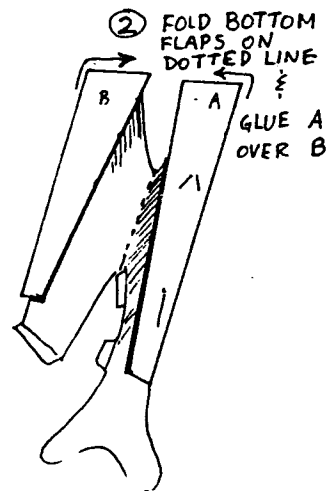

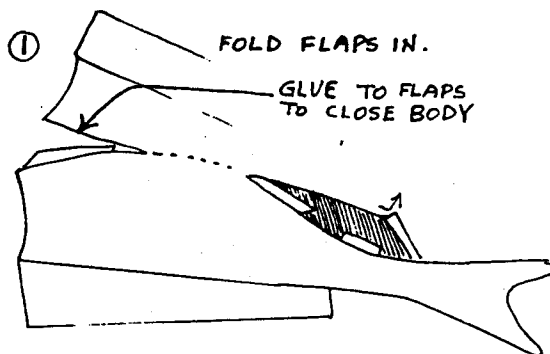

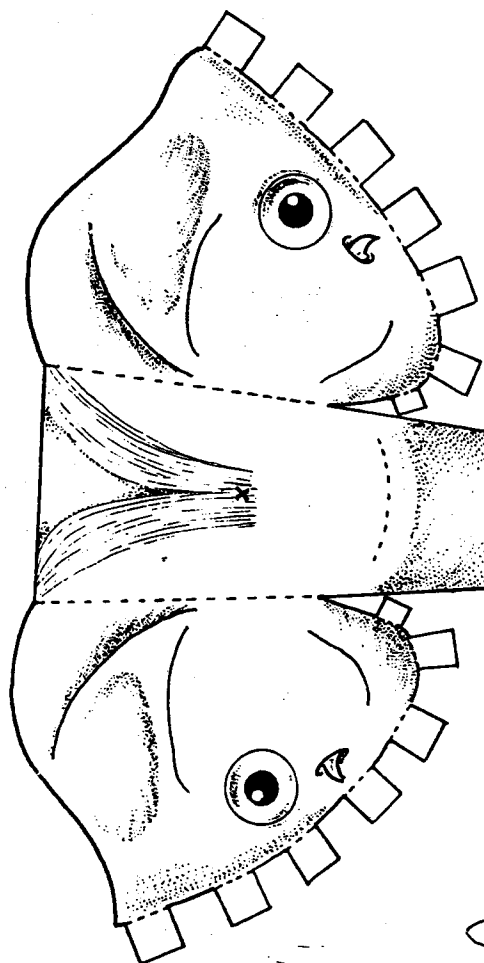

CHIN BARBS
