

STATE OF MICHIGAN
OIL AND GAS LEASE ONLINE AUCTION
SUMMARY

Tuesday, May 2, 2023

**Finance and Operations Division
Minerals Management Section**

Mineral Auction Stipulations

Stipulation ID	Stipulation Name	Description
1	Development - USDA Forest Service Surface	All other provisions of this lease notwithstanding, it is understood that the land described in this lease shall not be entered for any purpose whatsoever without first contacting the United States Department of Agriculture, (USDA) Forest Service and securing detailed instructions as to cutting any forest growth for the purpose of making roadways or clearing well locations or for any other purpose in order that the surface values may be properly protected and conserved. No drilling operations may be conducted within 200 feet of any road, trail or highway unless otherwise approved by the USDA. All operations must be in compliance with the standards and guidelines outlined in the National Forests Land and Resource Management Plan.
3	Department of Natural Resources Archaeologist	All other provisions of this lease notwithstanding, it is understood and agreed that no exploration or development work shall be conducted on this land without specific consultation from the Department of Natural Resources Archaeologist. No operations shall be conducted until written recommendations for the proper protection of any and all artifacts of historical or archaeological value are issued by the DNR Archaeologist.
5	Military and Veteran Affairs Agreement No. L-7084	All other provisions of this lease notwithstanding, it is understood that no exploration, drilling or development work shall be conducted on this land until the lessee first contacts the Department of Military and Veterans Affairs to obtain approval regarding the timing of activities.
6	Kirtland's Warbler Habitat Management	Portions of the leased area may lie within essential Kirtland's Warbler habitat or within ¼ mile of essential Kirtland's Warbler habitat. No drilling, development, construction, or non-routine maintenance activities shall take place within ¼ mile of essential habitat from May 1 to August 15 without prior written authorization from the lessor. In addition, no surface development of any kind will be allowed within essential habitat or within 300 feet of essential habitat.
15	Limited Surface Disturbance-OG FEE	To limit surface disturbance, any wells to be drilled on the leased premises shall be drilled from a single surface area that is acceptable to and approved by the Lessor. The Lessee shall submit a proposed development plan for the leased premises including a proposed surface area, access routes and pipeline corridors, with due regard to surface features, the relative location of other operations in the area, and applicable regulatory requirements. The Lessee may not drill any well on the leased premises without first obtaining an approval from the Lessor. Approval shall not be unreasonably withheld. If Lessor reasonably determines that production on adjacent land creates the probability of drainage of oil and/or gas from State mineral land, additional surface locations may be considered.
16	Threatened or Endangered Species Habitat	All other provisions of this lease notwithstanding, it is understood that no exploration or development work shall be conducted on this parcel without specific authorization from the Department of Natural Resources, Wildlife Division. No operations shall be conducted until written instructions for the proper protection of any threatened or endangered species or their habitat are issued.
19	Recreational Trails	All other provisions of this lease notwithstanding, it is understood that no well site shall be located closer than 660 feet to any recreational trail without obtaining the written consent of the Lessor and contacting the local Department trails coordinator.
20	Use Existing Well Pad	All other provisions of this lease notwithstanding, it is further understood that existing well pads shall be used for drilling unless otherwise authorized by the Department of Natural Resources' Land Manager.

Mineral Auction Stipulations

Stipulation ID	Stipulation Name	Description
33	Raptor Nesting Area	All other provisions on this lease notwithstanding, it is understood that this parcel was determined to be, at time of leasing, near to a known raptor nesting site. No drilling or development shall take place, and no activity is allowed within ¼ mile of known (or possible) protected raptor nests, during the nesting season. All exploration and development activities must be approved, in writing, by the Lessor's Wildlife Management Unit Supervisor.
34	Nondevelopment Species Habitat	This parcel is classified as nondevelopment due to the presence of threatened or endangered species at time of leasing.
49	Best Management Practices	Best Management Practices along wetlands, waterways, or steep slopes as per Sustainable Soil and Water Practices on Forest Land IC 4011 (Rev. 06/01/2018 and as amended) and approved in writing by the Local Management Supervisor.
69	Limited Surface Disturbance-OG MIN ONLY	To limit surface disturbance, any wells to be drilled on the leased premises shall be drilled from a single surface area. Upon the request of the Department's Land Administering Division (LAD), the Lessee shall submit a proposed development plan to the LAD for the leased premises including a proposed surface area, access routes and pipeline corridors, with due regard to surface features, the relative location of other operations in the area, and applicable regulatory requirements. If Lessor reasonably determines that production on adjacent land creates the probability of drainage of oil and/or gas from State mineral land, additional surface locations may be considered.
70	Best Management Practices-OG MIN ONLY	Best Management Practices along wetlands, waterways, or steep slopes as per Sustainable Soil and Water Practices on Forest Land IC 4011 (Rev. 06/01/2018 and as amended) and approved in writing by the Surface Owner and the Local Management Supervisor.
78	GS Lease 3332	The Lessee herein agrees that all drilling operations conducted by it upon the premises shall be done in a good and workmanlike manner and in accordance with good oil and gas field practice, and the Lessee herein agrees to case and seal off each gas, brine or fresh water stratum down to and including the Marshall formation to prevent effectively the migration of gas, brine, or fresh water to other strata, and to prevent insofar as practicable, any loss of gas encountered by its drilling operations in any stratum down to and including the Marshall formation, such casing and sealing off shall be effected and tested in such manner and by such methods and means as may be prescribed or approved by the Supervisor of Wells of the State of Michigan, or his authorized representative. When necessary to seal off permanently any gas, brine, or fresh water, the amount of material to be used shall be specified or approved by said Supervisor of Wells, or his authorized representative. The Lessee herein agrees to give Consumers Power Company, its agents, or assigns, at least twenty-four (24) hours' notice before drilling through either the Michigan Stray or Marshall formations to enable Consumers Power Company to have its agents present at the time such well is drilled through the said Michigan Stray and Marshall formations.
79	Top Quality Coldwater Aquatic Riverine Resource	Top quality coldwater trout river/stream present 800 ft. buffer.
87	Seasonal Restriction to Protect Aquatic Res	Seasonal restriction October 1 - April 15 for coldwater fish spawning habitat and egg incubation.
