Mineral Auction Stipulations

Stipulation ID	Stipulation Name	Description
15	Limited Surface Disturbance-OG FEE	To limit surface disturbance, any wells to be drilled on the leased premises shall be drilled from a single surface area that is acceptable to and approved by the Lessor. The Lessee shall submit a proposed development plan for the leased premises including a proposed surface area, access routes and pipeline corridors, with due regard to surface features, the relative location of other operations in the area, and applicable regulatory requirements. The Lessee may not drill any well on the leased premises without first obtaining an approval from the Lessor. Approval shall not be unreasonably withheld. If Lessor reasonably determines that production on adjacent land creates the probability of drainage of oil and/or gas from State mineral land, additional surface locations may be considered.
19	Recreational Trails	All other provisions of this lease notwithstanding, it is understood that no well site shall be located closer than 660 feet to any recreational trail without obtaining the written consent of the Lessor and contacting the local Department trails coordinator.
20	Use Existing Well Pad	All other provisions of this lease notwithstanding, it is further understood that existing well pads shall be used for drilling unless otherwise authorized by the Department of Natural Resources' Land Manager.
33	Raptor Nesting Area	All other provisions on this lease notwithstanding, it is understood that this parcel was determined to be, at time of leasing, near to a known raptor nesting site. No drilling or development shall take place, and no activity is allowed within ¼ mile of known (or possible) protected raptor nests, during the nesting season. All exploration and development activities must be approved, in writing, by the Lessor's Wildlife Management Unit Supervisor.
49	Best Management Practices	Best Management Practices along wetlands, waterways, or steep slopes as per Sustainable Soil and Water Practices on Forest Land IC 4011 (Rev. 06/01/2018 and as amended) and approved in writing by the Local Management Supervisor.
69	Limited Surface Disturbance-OG MIN ONLY	To limit surface disturbance, any wells to be drilled on the leased premises shall be drilled from a single surface area. Upon the request of the Department's Land Administering Division (LAD), the Lessee shall submit a proposed development plan to the LAD for the leased premises including a proposed surface area, access routes and pipeline corridors, with due regard to surface features, the relative location of other operations in the area, and applicable regulatory requirements. If Lessor reasonably determines that production on adjacent land creates the probability of drainage of oil and/or gas from State mineral land, additional surface locations may be considered.
70	Best Management Practices-OG MIN ONLY	Best Management Practices along wetlands, waterways, or steep slopes as per Sustainable Soil and Water Practices on Forest Land IC 4011 (Rev. 06/01/2018 and as amended) and approved in writing by the Surface Owner and the Local Management Supervisor.
