

Looking to Hunt Turkeys?

Turkey Tracts are designed to highlight public hunting areas where intensive habitat management for turkeys has been conducted. Management practices include timber harvest, selective use of herbicides, invasive species treatment and removal, and prescribed fire. A large kiosk, giving hunters area information and local business discounts, are at each Turkey Tract site. Surrounding businesses provide a discount when hunters take a “selfie” with the kiosk and show it at the business.

Want to Know More?

Why Hunt a Turkey Tracts?

- Try a new type of hunt
- Try a new location
- Mentor a new hunter
- Show support for local businesses
- Travel across the state, how many Turkey Tracts can you hunt?

Thank you to all hunters,
partners, and businesses who have
made Turkey Tracts successful.
