# STANDARD CONTRACT TERMS

---

This STANDARD CONTRACT (“**Contract**”) is agreed to between the State of Michigan (the “**State**”) and Forest Resource Services (“**Contractor**”), a Michigan Limited Liability Company. This Contract is effective on 1/1/21 (“**Effective Date**”), and unless terminated, expires on 12/31/25.

This Contract may be renewed for up to 4 additional 1-year period(s). Renewal is at the sole discretion of the State and will automatically extend the Term of this Contract. The State will document its exercise of renewal options via Contract Change Notice.

The parties agree as follows:

- 1. Duties of Contractor.** Contractor must perform the services and provide the deliverables described in **Schedule A – Statement of Work** (the “**Contract Activities**”). An obligation to provide delivery of any commodity is considered a service and is a Contract Activity.

Contractor must furnish all labor, equipment, materials, and supplies necessary for the performance of the Contract Activities, and meet operational standards, unless otherwise specified in Schedule A.

Contractor must: (a) perform the Contract Activities in a timely, professional, safe, and workmanlike manner consistent with standards in the trade, profession, or industry; (b) meet or exceed the performance and operational standards, and specifications of the Contract; (c) provide all Contract Activities in good quality, with no material defects; (d) not interfere with the State’s operations; (e) obtain and maintain all necessary licenses, permits or other authorizations necessary for the performance of the Contract; (f) cooperate with the State, including the State’s quality assurance personnel, and any third party to achieve the objectives of the Contract; (g) return to the State any State-furnished equipment or other resources in the same condition as when provided when no longer required for the Contract; (h) not make any media releases without prior written authorization from the State; (i) assign to the State any claims resulting from state or federal antitrust violations to the extent that those violations concern materials or services supplied by third parties toward fulfillment of the Contract; (j) comply with all State physical and IT security policies and standards which will be made available upon request; and (k) provide the State priority in performance of the Contract except as mandated by federal disaster response requirements. Any breach under this paragraph is considered a material breach.

Contractor must also be clearly identifiable while on State property by wearing identification issued by the State, and clearly identify themselves whenever making contact with the State.

- 2. Notices.** All notices and other communications required or permitted under this Contract must be in writing and will be considered given and received: (a) when verified by written receipt if sent by courier; (b) when actually received if sent by mail without verification of receipt; or (c) when verified by automated receipt or electronic logs if sent by facsimile or email.

The State may require a performance bond (as specified in Schedule A – Statement of Work) if, in the opinion of the State, it will ensure performance of the Contract.

6. **Insurance Requirements.** Contractor, at its sole expense, must maintain the insurance coverage identified below. All required insurance must: (a) protect the State from claims that may arise out of, are alleged to arise out of, or result from Contractor's or a subcontractor's performance; (b) be primary and non-contributing to any comparable liability insurance (including self-insurance) carried by the State; and (c) be provided by a company with an A.M. (including any provisions hereof requiring Contractor to indemnify, defend and hold harmless the State).

**7. RESERVED.**

**8. RESERVED.**

**9. Independent Contractor.** Contractor is an independent contractor and assumes all rights, obligations and liabilities set forth in this Contract. Contractor, its employees, and agents will not be considered employees of the State. No partnership or joint venture relationship is created by virtue of this Contract. Contractor, and not the State, is responsible for the payment of wages, benefits and taxes of Contractor's employees and any subcontractors. Prior performance does not modify Contractor's status as an independent contractor.

**10. Subcontracting.** Contractor may not delegate any of its obligations under the Contract without the prior written approval of the State. Contractor must notify the State at least 90 calendar days before the proposed delegation and provide the State any information it requests to determine whether the delegation is in its best interest. If approved, Contractor must: (a) be the sole point of contact regarding all contractual matters, including payment and charges for all Contract Activities; (b) make all payments to the subcontractor; and (c) incorporate the terms and conditions contained in this Contract in any subcontract with a subcontractor. Contractor remains responsible for the completion of the Contract Activities, compliance with the terms of this Contract, and the acts and omissions of the subcontractor. The State, in its sole discretion, may require the replacement of any subcontractor.

**11. Staffing.** The State's Contract Administrator may require Contractor to remove or reassign personnel by providing a notice to Contractor.

**12. Background Checks.** Pursuant to Michigan law, all agencies subject to IRS Pub. 1075 are required to ask the Michigan State Police to perform fingerprint background checks on all employees, including Contractor and Subcontractor employees, who may have access to any database of information maintained by the federal government that contains confidential or personal information, including, but not limited to, federal tax information. Further, pursuant to Michigan law, any agency described above is prohibited from providing Contractors or Subcontractors with the result of such background check. For more information, please see Michigan Public Act 427 of 2018. Upon request, or as may be specified in Schedule A, Contractor must perform background checks on all employees and subcontractors and its employees prior to their assignment. The scope is at the discretion of the State and documentation must be provided as requested. Contractor is responsible for all costs associated with the requested background checks. The State, in its sole discretion, may also perform background checks.

**13. Assignment.** Contractor may not assign this Contract to any other party without the prior approval of the State. Upon notice to Contractor, the State, in its sole discretion, may assign in whole or in part, its rights or responsibilities under this Contract to any

## STANDARD CONTRACT TERMS

---

other party. If the State determines that a novation of the Contract to a third party is necessary, Contractor will agree to the novation and provide all necessary documentation and signatures.

- 14. Change of Control.** Contractor will notify within 30 days of any public announcement or otherwise once legally permitted to do so, the State of a change in Contractor's organizational structure or ownership. For purposes of this Contract, a change in control means any of the following: (a) a sale of more than 50% of Contractor's stock; (b) a sale of substantially all of Contractor's assets; (c) a change in a majority of Contractor's board members; (d) consummation of a merger or consolidation of Contractor with any other entity; (e) a change in ownership through a transaction or series of transactions; (f) or the board (or the stockholders) approves a plan of complete liquidation. A change of control does not include any consolidation or merger effected exclusively to change the domicile of Contractor, or any transaction or series of transactions principally for bona fide equity financing purposes.

In the event of a change of control, Contractor must require the successor to assume this Contract and all of its obligations under this Contract.

- 15. Ordering.** Contractor is not authorized to begin performance until receipt of authorization as identified in Schedule A.
- 16. Acceptance.** Contract Activities are subject to inspection and testing by the State within 30 calendar days of the State's receipt of them ("**State Review Period**"), unless otherwise provided in Schedule A. If the Contract Activities are not fully accepted by the State, the State will notify Contractor by the end of the State Review Period that either: (a) the Contract Activities are accepted but noted deficiencies must be corrected; or (b) the Contract Activities are rejected. If the State finds material deficiencies, it may: (i) reject the Contract Activities without performing any further inspections; (ii) demand performance at no additional cost; or (iii) terminate this Contract in accordance with Section 23, Termination for Cause.

Within 10 business days from the date of Contractor's receipt of notification of acceptance with deficiencies or rejection of any Contract Activities, Contractor must cure, at no additional cost, the deficiency and deliver unequivocally acceptable Contract Activities to the State. If acceptance with deficiencies or rejection of the Contract Activities impacts the content or delivery of other non-completed Contract Activities, the parties' respective Program Managers must determine an agreed to number of days for re-submission that minimizes the overall impact to the Contract. However, nothing herein affects, alters, or relieves Contractor of its obligations to correct deficiencies in accordance with the time response standards set forth in this Contract.

If Contractor is unable or refuses to correct the deficiency within the time response standards set forth in this Contract, the State may cancel the order in whole or in part. The State, or a third party identified by the State, may perform the Contract Activities and recover the difference between the cost to cure and the Contract price

plus an additional 10% administrative fee.

**18. RESERVED.**

**19. RESERVED.**

**20. Terms of Payment.** Invoices must conform to the requirements communicated from time-to-time by the State. All undisputed amounts are payable within 45 days of the State's receipt. Contractor may only charge for Contract Activities performed as specified in Schedule A. Invoices must include an itemized statement of all charges. The State is exempt from State sales tax for direct purchases and may be exempt from federal excise tax, if Services purchased under this Agreement are for the State's exclusive use. All prices are exclusive of taxes, and Contractor is responsible for all sales, use and excise taxes, and any other similar taxes, duties and charges of any kind imposed by any federal, state, or local governmental entity on any amounts payable by the State under this Contract.

The State has the right to withhold payment of any disputed amounts until the parties agree as to the validity of the disputed amount. The State will notify Contractor of any dispute within a reasonable time. Payment by the State will not constitute a waiver of any rights as to Contractor's continuing obligations, including claims for deficiencies or substandard Contract Activities. Contractor's acceptance of final payment by the State constitutes a waiver of all claims by Contractor against the State for payment under this Contract, other than those claims previously filed in writing on a timely basis and still disputed.

The State will only disburse payments under this Contract through Electronic Funds Transfer (EFT). Contractor must register with the State at <http://www.michigan.gov/SIGMAVSS> to receive electronic fund transfer payments. If Contractor does not register, the State is not liable for failure to provide payment. Without prejudice to any other right or remedy it may have, the State reserves the right to set off at any time any amount then due and owing to it by Contractor against any amount payable by the State to Contractor under this Contract.

**21. Liquidated Damages.** Liquidated damages, if applicable, will be assessed as described in Schedule A.

**22. Stop Work Order.** The State may suspend any or all activities under the Contract at any time. The State will provide Contractor a written stop work order detailing the suspension. Contractor must comply with the stop work order upon receipt. Within 90 calendar days, or any longer period agreed to by Contractor, the State will either: (a) issue a notice authorizing Contractor to resume work, or (b) terminate the Contract or delivery order. The State will not pay for Contract Activities, Contractor's lost profits, or any additional compensation during a stop work period.

**23. Termination for Cause.** The State may terminate this Contract for cause, in whole or in part, if Contractor, as determined by the State: (a) endangers the value, integrity,

---

or security of any location, data, or personnel; (b) becomes insolvent, petitions for bankruptcy court proceedings, or has an involuntary bankruptcy proceeding filed against it by any creditor; (c) engages in any conduct that may expose the State to liability; (d) breaches any of its material duties or obligations; or (e) fails to cure a breach within the time stated in a notice of breach. Any reference to specific breaches being material breaches within this Contract will not be construed to mean that other breaches are not material.

If the State terminates this Contract under this Section, the State will issue a termination notice specifying whether Contractor must: (a) cease performance immediately, or (b) continue to perform for a specified period. If it is later determined that Contractor was not in breach of the Contract, the termination will be deemed to have been a Termination for Convenience, effective as of the same date, and the rights and obligations of the parties will be limited to those provided in Section 24, Termination for Convenience.

The State will only pay for amounts due to Contractor for Contract Activities accepted by the State on or before the date of termination, subject to the State's right to set off any amounts owed by the Contractor for the State's reasonable costs in terminating this Contract. The Contractor must pay all reasonable costs incurred by the State in terminating this Contract for cause, including administrative costs, attorneys' fees, court costs, transition costs, and any costs the State incurs to procure the Contract Activities from other sources.

- 24. Termination for Convenience.** The State may immediately terminate this Contract in whole or in part without penalty and for any reason, including but not limited to, appropriation or budget shortfalls. The termination notice will specify whether Contractor must: (a) cease performance of the Contract Activities immediately, or (b) continue to perform the Contract Activities in accordance with Section 25, Transition Responsibilities. If the State terminates this Contract for convenience, the State will pay all reasonable costs, as determined by the State, for State approved Transition Responsibilities.
- 25. Transition Responsibilities.** Upon termination or expiration of this Contract for any reason, Contractor must, for a period of time specified by the State (not to exceed **90** calendar days), provide all reasonable transition assistance requested by the State, to allow for the expired or terminated portion of the Contract Activities to continue without interruption or adverse effect, and to facilitate the orderly transfer of such Contract Activities to the State or its designees. Such transition assistance may include, but is not limited to: (a) continuing to perform the Contract Activities at the established Contract rates; (b) taking all reasonable and necessary measures to transition performance of the work, including all applicable Contract Activities, training, equipment, software, leases, reports and other documentation, to the State or the State's designee; (c) taking all necessary and appropriate steps, or such other action as the State may direct, to preserve, maintain, protect, or return to the State all materials, data, property, and confidential information provided directly or indirectly to

Contractor by any entity, agent, vendor, or employee of the State; (d) transferring title in and delivering to the State, at the State's discretion, all completed or partially completed deliverables prepared under this Contract as of the Contract termination date; and (e) preparing an accurate accounting from which the State and Contractor may reconcile all outstanding accounts (collectively, "**Transition Responsibilities**"). This Contract will automatically be extended through the end of the transition period.

- 26. General Indemnification.** Contractor must defend, indemnify and hold the State, its departments, divisions, agencies, offices, commissions, officers, and employees harmless, without limitation, from and against any and all actions, claims, losses, liabilities, damages, costs, attorney fees, and expenses (including those required to establish the right to indemnification), arising out of or relating to: (a) any breach by Contractor (or any of Contractor's employees, agents, subcontractors, or by anyone else for whose acts any of them may be liable) of any of the promises, agreements, representations, warranties, or insurance requirements contained in this Contract; (b) any infringement, misappropriation, or other violation of any intellectual property right or other right of any third party; (c) any bodily injury, death, or damage to real or tangible personal property occurring wholly or in part due to action or inaction by Contractor (or any of Contractor's employees, agents, subcontractors, or by anyone else for whose acts any of them may be liable); and (d) any acts or omissions of Contractor (or any of Contractor's employees, agents, subcontractors, or by anyone else for whose acts any of them may be liable).

The State will notify Contractor in writing if indemnification is sought; however, failure to do so will not relieve Contractor, except to the extent that Contractor is materially prejudiced. Contractor must, to the satisfaction of the State, demonstrate its financial ability to carry out these obligations.

The State is entitled to: (i) regular updates on proceeding status; (ii) participate in the defense of the proceeding; (iii) employ its own counsel; and to (iv) retain control of the defense if the State deems necessary. Contractor will not, without the State's written consent (not to be unreasonably withheld), settle, compromise, or consent to the entry of any judgment in or otherwise seek to terminate any claim, action, or proceeding. To the extent that any State employee, official, or law may be involved or challenged, the State may, at its own expense, control the defense of that portion of the claim.

Any litigation activity on behalf of the State, or any of its subdivisions under this Section, must be coordinated with the Department of Attorney General. An attorney designated to represent the State may not do so until approved by the Michigan Attorney General and appointed as a Special Assistant Attorney General.

- 27. Infringement Remedies.** If, in either party's opinion, any piece of equipment, software, commodity, or service supplied by Contractor or its subcontractors, or its operation, use or reproduction, is likely to become the subject of a copyright, patent, trademark, or trade secret infringement claim, Contractor must, at its expense: (a) procure for the State the right to continue using the equipment, software, commodity,

---

or service, or if this option is not reasonably available to Contractor, (b) replace or modify the same so that it becomes non-infringing; or (c) accept its return by the State with appropriate credits to the State against Contractor's charges and reimburse the State for any losses or costs incurred as a consequence of the State ceasing its use and returning it.

- 28. Limitation of Liability and Disclaimer of Damages.** IN NO EVENT WILL THE STATE'S AGGREGATE LIABILITY TO CONTRACTOR UNDER THIS CONTRACT, REGARDLESS OF THE FORM OF ACTION, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY OR BY STATUTE OR OTHERWISE, FOR ANY CLAIM RELATED TO OR ARISING UNDER THIS CONTRACT, EXCEED THE MAXIMUM AMOUNT OF FEES PAYABLE UNDER THIS CONTRACT. The State is not liable for consequential, incidental, indirect, or special damages, regardless of the nature of the action.
- 29. Disclosure of Litigation, or Other Proceeding.** Contractor must notify the State within 14 calendar days of receiving notice of any litigation, investigation, arbitration, or other proceeding (collectively, "**Proceeding**") involving Contractor, a subcontractor, or an officer or director of Contractor or subcontractor, that arises during the term of the Contract, including: (a) a criminal Proceeding; (b) a parole or probation Proceeding; (c) a Proceeding under the Sarbanes-Oxley Act; (d) a civil Proceeding involving: (1) a claim that might reasonably be expected to adversely affect Contractor's viability or financial stability; or (2) a governmental or public entity's claim or written allegation of fraud; or (e) a Proceeding involving any license that Contractor is required to possess in order to perform under this Contract.
- 30. State Data.** All data and information provided to Contractor by or on behalf of the State, and all data and information derived therefrom, is the exclusive property of the State ("**State Data**"); this definition is to be construed as broadly as possible. Upon request, Contractor must provide to the State, or a third party designated by the State, all State Data within 10 calendar days of the request and in the format requested by the State. Contractor will assume all costs incurred in compiling and supplying State Data. No State Data may be used for any marketing purposes.
- 31. RESERVED.**
- 32. Non-Disclosure of Confidential Information.** The parties acknowledge that each party may be exposed to or acquire communication or data of the other party that is confidential, privileged communication not intended to be disclosed to third parties. The provisions of this Section survive the termination of this Contract.
- a. **Meaning of Confidential Information.** For the purposes of this Contract, the term "**Confidential Information**" means all information and documentation of a party that: (a) has been marked "confidential" or with words of similar meaning, at the time of disclosure by such party; (b) if disclosed orally or not marked "confidential" or with words of similar meaning, was subsequently summarized in writing by the disclosing party and marked "confidential" or with words of similar

---

meaning; and, (c) should reasonably be recognized as confidential information of the disclosing party. The term “Confidential Information” does not include any information or documentation that was: (a) subject to disclosure under the Michigan Freedom of Information Act (FOIA); (b) already in the possession of the receiving party without an obligation of confidentiality; (c) developed independently by the receiving party, as demonstrated by the receiving party, without violating the disclosing party’s proprietary rights; (d) obtained from a source other than the disclosing party without an obligation of confidentiality; or, (e) publicly available when received, or thereafter became publicly available (other than through any unauthorized disclosure by, through, or on behalf of, the receiving party). For purposes of this Contract, in all cases and for all matters, State Data is deemed to be Confidential Information.

- b. **Obligation of Confidentiality.** The parties agree to hold all Confidential Information in strict confidence and not to copy, reproduce, sell, transfer, or otherwise dispose of, give or disclose such Confidential Information to third parties other than employees, agents, or subcontractors of a party who have a need to know in connection with this Contract or to use such Confidential Information for any purposes whatsoever other than the performance of this Contract. The parties agree to advise and require their respective employees, agents, and subcontractors of their obligations to keep all Confidential Information confidential. Disclosure to a subcontractor is permissible where: (a) use of a subcontractor is authorized under this Contract; (b) the disclosure is necessary or otherwise naturally occurs in connection with work that is within the subcontractor's responsibilities; and (c) Contractor obligates the subcontractor in a written contract to maintain the State's Confidential Information in confidence. At the State's request, any employee of Contractor or any subcontractor may be required to execute a separate agreement to be bound by the provisions of this Section.
- c. **Cooperation to Prevent Disclosure of Confidential Information.** Each party must use its best efforts to assist the other party in identifying and preventing any unauthorized use or disclosure of any Confidential Information. Without limiting the foregoing, each party must advise the other party immediately in the event either party learns or has reason to believe that any person who has had access to Confidential Information has violated or intends to violate the terms of this Contract and each party will cooperate with the other party in seeking injunctive or other equitable relief against any such person.
- d. **Remedies for Breach of Obligation of Confidentiality.** Each party acknowledges that breach of its obligation of confidentiality may give rise to irreparable injury to the other party, which damage may be inadequately compensable in the form of monetary damages. Accordingly, a party may seek and obtain injunctive relief against the breach or threatened breach of the foregoing undertakings, in addition to any other legal remedies which may be available, to include, in the case of the State, at the sole election of the State, the

immediate termination, without liability to the State, of this Contract or any Statement of Work corresponding to the breach or threatened breach.

- e. **Surrender of Confidential Information upon Termination.** Upon termination of this Contract or a Statement of Work, in whole or in part, each party must, within 5 calendar days from the date of termination, return to the other party any and all Confidential Information received from the other party, or created or received by a party on behalf of the other party, which are in such party's possession, custody, or control; provided, however, that Contractor must return State Data to the State following the timeframe and procedure described further in this Contract. Should Contractor or the State determine that the return of any Confidential Information is not feasible, such party must destroy the Confidential Information and must certify the same in writing within 5 calendar days from the date of termination to the other party. However, the State's legal ability to destroy Contractor data may be restricted by its retention and disposal schedule, in which case Contractor's Confidential Information will be destroyed after the retention period expires.

**35. RESERVED.**

- 36. Records Maintenance, Inspection, Examination, and Audit.** The State or its designee may audit Contractor to verify compliance with this Contract. Contractor must retain and provide to the State or its designee and the auditor general upon request, all financial and accounting records related to the Contract through the term of the Contract and for 4 years after the latter of termination, expiration, or final payment under this Contract or any extension ("**Audit Period**"). # SCHEDULE A – STATEMENT OF WORK

## CONTRACT ACTIVITIES

---

### BACKGROUND

An increased need has surfaced for precommercial thinning and release work. The Department has been experimenting with some methods to conduct these treatments and is now ready for them to become operational over the length that a contract would be awarded. Some of the work can be done with brush saws and another method requires chainsaws. Precommercial thinning can be completed between July 15 and September 15.

### SCOPE

**Precommercial Thinning:** There are three different types of precommercial thinning treatments. General explanations of work volumes and seasonality are listed below. See the requirements section for additional specifications.

- **Conifer Release:** This treatment will most often be in sites planted to red pine. The work can be accomplished using brush saws. Oak, cherry, red maple and jack pine ranging from 1-3 inches dbh are typical stems being removed. Average stand size is 25-100 acres. The range of densities being cut will generally fall between 500 and 1500 trees per acre. This work can begin on July 15<sup>th</sup> of any year and be completed by September 15<sup>th</sup>. Exceptions could be made on a case by case basis, but most of this work would need to be completed in this timeframe. A stand list has already been selected for treatment. The acreage is being prioritized and spread over the projected length of this contract cycle. The annual acreage range is projected to be between 400 and 600 acres.
- **Hardwood Release:** Typical sites will consist of beech, ironwood, and/or red maple ranging from 1-3 inches dbh being removed. Density of stems being removed would generally range between 200 and 1000 acres. This work can be accomplished using brush saws. Treatment can begin on July 15<sup>th</sup> of any year and be completed by September 15<sup>th</sup>. Exceptions could be made on a case by case basis, but most of this work would need to be completed in this timeframe. This work is not very common at this point but may build on the later years in this contract cycle. Annual acreage range is currently projected at 20 to 100 acres.
- **Jack Pine Thinning:** the third type of precommercial thinning is jack pine stands that were previously planted for Kirtland's warbler habitat. This work can begin after July 15<sup>th</sup>. In contrast to the previous types of precommercial thinning this treatment can extend through fall and into winter but must be complete by March 1st. Chainsaws would be necessary to complete this treatment. Current stocking ranges from 600-900 trees per acre when the

openings are included and 700-1300 considering only the planted areas. Diameter at breast height ranges from 3-6 inches. Trees per acre to be removed range from 200 to 400. Sites are generally range from 200 to 500 acres in size. There will be approximately 500 acres annually over the length of this contract (this is an estimate based on anticipated budgets and not guaranteed).

### **1. Requirements**

#### **1.1. General Requirements**

- The Contractor's crew must be prepared and outfitted to work in inclement weather conditions including rain, snow, sleet and freezing rain. Thinning will be performed unless the weather is unusually severe; any delay in work will be determined by the DNR designee.
- The contractor must provide transportation for their personnel to and from worksites.
- No alcohol or controlled substances are allowed while working on State owned or State managed lands.
- The contractor is required to furnish the following:
  - All tools and other accessories necessary to meet contract requirements.
  - A foreman for each crew. The foreman will coordinate the activity in the field as well as perform quality control. The foreman will not be a laborer and will not transport trees or tools to workers unless given prior approval by the DNR designee.

#### **1.2. Precommercial Thinning Requirements**

##### Conifer Release

- All natural regeneration within 8 feet and taller than a planted seedling will need to be cut. The exception is that any stems larger than 3 inches dbh can be left standing.

- All other desirable regeneration will be left undamaged.
- Stump heights must be less than 6 inches.

##### Hardwood Release

- All undesirable stems taller than dbh (4.5 ft) will need to be cut and any stems larger than 3 inches dbh can be left standing. Detailed species specifications will be listed on each treatment.

- All other desirable regeneration will be left undamaged.
- Stump heights must be less than 6 inches.

Jack Pine Thinning

- Dominant crop trees will be identified on approximate 10 foot within row spacing while treatment occurs. Natural regeneration can count as dominant crop trees.
- All co-dominant jack pine suppressed jack pine, and cherry within 10 feet of selected crop trees will be removed. Jack pine will be the most commonly selected crop tree.
- Dominant jack pine may need to be cut in some places in order to achieve the 10 foot within room spacing.
- All oak and red pine trees will remain uncut.
- Dead trees do not need to be cut
- Stem heights must be less than 1 ft.

**2. Service Requirements**

**2.1. Timeframes**

All Contract Activities must be completed by September 15<sup>th</sup> for precommercial thinning assigned at any point in the fiscal year. The receipt of order date is pursuant to the **Notices** section of the *Standard Contract Terms*.

**2.2. Quality Control for Precommercial Thinning**

Contractor’s Responsibilities:

The Contractor’s foreman must be on site at all times to oversee proper cutting techniques and thinning density.

- The foreman for each thinning crew will perform checks on each individual cutter to evaluate the quality of work.
- The foreman will perform check procedures four (4) times per day for each laborer. Each check procedure will include a plot with the following sizes:
  - Conifer release: 10 planted seedling locations
  - Hardwood release: 10 1/50<sup>th</sup> acre plots
  - Jack pine thinning: 10 crop tree locations
- The foreman will check the following categories – see Liquidated Damages section for acceptable error/variance allowed for each of these categories:

**SCHEDULE A – STATEMENT OF WORK CONTRACT ACTIVITIES**

---

- The proper species and number of trees must be cut.
- Damage to crop trees are not acceptable.

**3. Acceptance**

**3.1. Acceptance, Inspection, and Testing**

The State will use the following criteria to determine acceptance of the Contract Activities:

- Compliance with specifications will be monitored by the foreman and the DNR designee through continuous observations, inspections and quality control checks. Foreman’s Record of Quality Checks & Stocking and records of DNR designee’s inspections will be utilized to determine compliance.
- Errors or variances fall within acceptable range. Foreman’s Record of Quality Checks & Stocking and records of DNR designee’s inspections will be utilized to determine if errors or variances fall within specified ranges for acceptable without assessment of liquidated damages. See Liquidated Damages for acceptable ranges and deduction to be assessed for each range of error or variance.

Inspection and initial Acceptance:

The following inspection/initial acceptance process will be used by the State to determine acceptance of contract actives under the contract:

- Initial inspection for satisfactory completion of the contract activities shall be made within 14 calendar days of the DNR designee receiving notification.
- If the initial inspection results are unacceptable to the contractor, the contractor may request a re-inspection of the sites. The request for re-inspection must indicate the sites that the contractor is disputing. The DNR designee will re-inspect the disputed sites. The same inspection procedure will be used; however, new plots will be selected. If the re-inspection indicates a variance from the first inspection, the results of the two inspections will be averaged to determine payment.

**3.2. Final Acceptance**

Within 24 hours of completion, the contractor shall notify the DNR designee that work is completed for the season. The notification may be verbal but must be followed up by written notification via email.

Final Acceptance will be made in writing within 21 days of receipt of the contractor’s notice that work is complete unless the contractor requests a re-inspection. The contractor will be notified of final acceptance in writing. The Final Acceptance notification will indicate the amounts of final payment authorized and deductions for

### **7. Ordering**

#### **7.1. Authorizing Document**

The appropriate authorizing document for the Contract will be delivery order (DO).

### **8. Invoice and Payment**

#### **8.1. Invoice Requirements**

Invoices may be submitted following the completion of each region (Upper and Lower Peninsula) and the Kirtland Warbler habitat. Final invoices must be received by the DNR within 14 calendar days of completion of the work. Invoices should be sent to the Program Manager or designee with a copy to the appropriate office indicated on the delivery order.

All invoices submitted to the State must include: (a) date; (b) purchase order; (c) quantity; (d) description of the Contract Activities; (e) unit price; (f) shipping cost (if any); and (g) total price. Overtime, holiday pay, and travel expenses will not be paid.

#### **8.2. Payment Methods**

The State will make payment for Contract Activities through Electronic Funds Transfer (EFT).

### **9. Liquidated Damages**

The parties acknowledge that late or improper completion of Contract Activities will cause loss and damage to the State, and that it would be impractical and extremely difficult to determine the actual damage sustained by the State as a result. Therefore, the Contractor and the State agree that if there is late or improper completion of the work and the State does not elect to exercise its rights under the Terminate for Cause section of the Standard Terms and Conditions, the State is entitled to collect liquidated damages.

The DNR designee will inspect each thinning to determine compliance with specifications and determine final acceptance. If the DNR designee finds thinning deviates from the specifications, liquidated damages may be assessed for each individual treatment site planted incorrectly. If the Contractor disputes the inspection results, the Contractor may submit a written Request for Re-Inspection (see Reporting section). Attempt at correction by lifting and replanting the seedlings will not be permitted.

#### **Precommercial Thinning**

The proper species and number of trees must be cut. If its clear more stems need to be removed in order to meet the specifications, then the DNR would withhold all payment until additional work is completed.

## **SCHEDULE A – STATEMENT OF WORK CONTRACT ACTIVITIES**

No damage to crop trees are acceptable. Liquidated damages will be assessed at a rate of \$300 per acre for proportions of the site in which greater than 10% of crop trees are damaged.

## SCHEDULE B - PRICING

- Price includes all costs, including but not limited to, any one-time or set-up charges, fees, and potential costs that Contractor may charge the State (e.g., shipping and handling, per piece pricing, and palletizing).
