### Information with Regard to P&T Committee New Drug Review

- New not classified as a “priority” by the FDA are reviewed by the P & T Committee at or after six months availability at the next scheduled meeting date.
- An “expedited” review of those new drugs classified by the FDA as “priority” will be conducted. This review will take place through e-mail or telephone conference as necessary.
- The approval of line extensions such as new strengths or forms of an existing product has been delegated to the Department for review. The Department may decide to request P & T Committee review.
- Drugs not yet reviewed are available to Medicaid beneficiaries, if medically necessary, through prior authorization. Generally, these are considered nonpreferred and must also follow all clinical prior authorization criteria.
- At the department’s discretion, the P&T Committee may provide a courtesy review at the next scheduled meeting. A manufacturer may request consideration for a courtesy review. Such requests should be directed to the P&T Committee through the Department of Community Health by e mail, fax or U S mail to:
