Date Review: September 30, 2007

1.1.7 Tower Usage Fee

I. Subject and Purpose

This policy establishes the fee structure for installing non-MPSCS member equipment on MPSCS tower and grounds. MPSCS also requires non member applicants to cover additional expenses such as the necessity to design, license and install the equipment.

II. Procedures and Guidelines

Non-MPSCS members will be charged the following fee for antenna installation on MPSCS towers:

	Year 1	Year 2 and beyond
First Antenna	\$10,200/year	\$4500/year
Each Additional Antenna	\$1200/year	\$1200/year

This fee allows the non-MPSCS Member to build a shelter to support the antenna's electronics. The shelter or equipment enclosure must be approved by the MPSCS. All shelter costs will be paid by the applicant.

The above fee does not cover other expenses necessary for antenna(s) and shelter installation. The non-MPSCS member agrees to pay for the actual costs including (but not limited to) engineering analysis and reviews, licensing reviews and costs, load studies, utility installation and ongoing utility charges and other costs.

The applicant agrees to abide by the MPSCS rules for site access and security. These rules include providing background checks for their employees and third parties that access sites for visits and maintenance.

The yearly fee covers the following MPSCS services:

- Security escort on MPSCS Sites (inside fenced perimeter and tower)
- Equipment installations inspections
- Tower registration
- Light Monitoring
- Tower Infrastructure Maintenance
