**INSTRUCTIONS FOR CABLE TELEVISION AND UTILITY PERSONAL PROPERTY REPORT**

Use Part 1 to report cable television microwave signal receiving and transmission equipment, and cable television transmission and distribution assets. Use Part 2 to report the transmission and distribution assets of fluid and natural gas pipelines and to report the transmission and distribution assets of electric utilities.

Cable television converters should be reported in Section F of the 2015 Personal Property Statement, L-4175 (Form 632). Cable television local origination equipment should be reported in Section D on Form L-4175. Coaxial and/or fiber-optic wiring costs and associated infrastructure of audio and/or visual systems serving subscribers of one or more multiple unit dwellings or temporary habitations under common ownership, which do not use public rights-of-way, shall be reported in Section M of Form L-4175. Other types of assessable assets owned or possessed by the property owner should be reported on the appropriate A-O Sections of Form L-4175.

All costs must be placed in the Original Cost column of the appropriate table, adjacent to the appropriate acquisition Year column. The reported cost must reflect acquisition cost new as defined in the instructions to Form L-4175. If you have constructed an asset yourself, or have provided construction supervision, you must report the cost that would have been incurred if the asset had been acquired already constructed from a third party vendor. See STC Bulletin 8 of 2007.

The total acquisition costs of cable television assets from Part 1 must be added to the total capitalized acquisition costs of fluid and natural gas pipeline and electric transmission and distribution assets from Part 2.
