I authorize the Office of Collections to return money that was withdrawn from my account in error by electronically adjusting my account. I understand I will be notified by the Office of Collections if adjustments are made. It is my responsibility to complete a new Electronic Funds Transfer Authorization form and mail it to the address above if I change financial institutions or account numbers. If I am changing financial institutions or closing my account, I will not close my old account until payments have been successfully withdrawn from the new account. This authorization is governed by National Automated Clearing House Rules and Regulations about electronic transfers as they exist on the date of my signature on this form or as subsequently adopted, amended, or repealed. Michigan law governs electronic fund transactions authorized by this agreement in all respects except as otherwise superseded by federal law. I understand any change to the payment amount, and/or due date must be made a minimum of **16 days** prior to the payment due date, by contacting the Office of Collections by mail or fax. I understand any missed payment or payment returned for non-sufficient funds (NSF) may be subject to additional penalty charges and the account recommended for enforcement action such as levying of wages and other financial assets.

If multiple account holders are required to authorize a withdrawal of funds, all must sign this authorization form.

Note: You are ineligible to pay by ACH if the bank account identified above is funded or otherwise associated with a foreign bank account to the extent that the payment transaction would qualify as an International ACH Transaction (IAT) under the NACHA Rules.

***Commercial/Business Accounts:** Some financial institutions offer a service referred to as "Debit Blocking" to their business account owners to prevent unauthorized withdrawals posting to their accounts. If an account has a Debit Block, any withdrawal transactions attempting to post to the account will be returned unpaid. Most Debit Blocking services provide the business account owner with the option to authorize certain withdrawals by providing the bank with specific information about transactions it wishes to authorize.

For purposes of the Treasury Collection Installment Agreement, the Company ID field of the ACH debit transaction initiated by submitting your EFT Authorization can be used to identify it as an authorized transaction. The Company ID for the Treasury Collection Installment Agreement transactions is 1386000134.

If you have a Debit Block service on your account it is essential that you contact your bank and take steps to allow ACH transactions identified with the Company ID above to debit your account. Failure to make these arrangements will result in your installment agreement payment to be rejected by your bank and your payment will not be made.
