Notes:

The cohort-component method is used to prepare population projections for every five years from 1995 to 2020, based on 1990 census counts, and projected fertility, mortality, and migration rates by age, sex, and race. Where appropriated, the preliminary July 1, 1995 estimates developed by the Census Bureau through the Federal-State Cooperative Program are used to adjust the projections and benchmark the projections from July 1, 1995. The projections represent the July 1 population for subsequent projection years. The preliminary projections are subject to revision when more recent fertility, mortality, and migration data become available.

For more information about the projections contact:
 Office of the State Demographer, State Budget Office
 Phone: (517) 373-7910; Fax: (517) 335-2355
 or Kenneth Darga, Senior Demographer
