

**MICHIGAN CIVIL SERVICE COMMISSION
JOB SPECIFICATION**

DAIRY INDUSTRY FIELD SCIENTIST

JOB DESCRIPTION

Employees in this job complete and oversee a variety of professional assignments to enforce laws regarding the production, processing, preparation, handling, transportation, storage, and sale of dairy products and/or to control and eradicate livestock diseases and ensure humane treatment of animals for economic and health purposes.

There are four classifications in this job.

Position Code Title - Dairy Industry Scientist-E

Dairy Industry Field Scientist 9

This is the entry level. As a trainee, the employee carries out a range of professional dairy industry field scientist assignments while learning the methods of work.

Dairy Industry Field Scientist 10

This is the intermediate level. The employee performs an expanding range of professional dairy industry field scientist assignments in a developing capacity.

Dairy Industry Field Scientist P11

This is the experienced level. The employee performs a full range of professional dairy industry field scientist assignments in a full-functioning capacity. Considerable independent judgment is used to make decisions in carrying out assignments that have significant impact on services or programs. Guidelines may be available, but require adaptation or interpretation to determine appropriate courses of action.

Position Code Title - Dairy Industry Scientist-A

Dairy Industry Field Scientist 12

This is the advanced level. The employee may function as a lead worker or senior worker. At this level, employees are responsible for overseeing the work assignments of other professionals or have regular assignments that have been recognized by Civil Service as having significantly greater complexity than those assigned at the experienced level.

NOTE: Employees generally progress through this series to the experienced level based on satisfactory performance and possession of the required experience.

JOB DUTIES

NOTE: The job duties listed are typical examples of the work performed by positions in this job classification. Not all duties assigned to every position are included, nor is it expected that all positions will be assigned every duty.

Inspects establishments where dairy products are handled, manufactured, processed, stored, or offered for sale in order to ensure compliance with state dairy industry laws.

Inspects dairy farms, milk haulers, and dairy plants to determine compliance with sanitation standards.

Explains state dairy industry laws to persons involved in the production, processing, handling, and sale of dairy products and/or involved in the raising, selling, processing, transporting, and care of livestock.

Inspects milk products for purity, wholesomeness, and proper labeling in compliance with the hazardous analysis, critical control points, and guidelines.

Instructs violators of dairy industry laws in the proper methods and courses of action for correcting violations.

Test weights and measures devices and/or processing equipment for accuracy, proper construction, and operation.

Quarantines livestock that are diseased or do not comply with health standards.

Conducts investigations, presents evidence, and testifies in court cases related to violations of dairy industry laws.

Investigates violations of livestock laws and cases of illegal inter- and intra- state movement of livestock.

Works with the Michigan Department of Agriculture and Rural Development veterinarians in testing animals for contagious diseases.

Assists in the training of new dairy industry specialists.

Prepares and/or maintains reports, files, and written correspondence related to the work.

Performs related work as assigned.

Additional Job Duties

Dairy Industry Field Scientist 12 (Lead Worker)

Oversees the work of professional staff by making and reviewing work assignments, establishing priorities, coordinating activities, and resolving related work problems.

Dairy Industry Field Scientist 12 (Senior Worker)

Performs on a regular basis professional dairy industry field scientist assignments which are recognized by Civil Service as more complex than those assigned at the experienced level.
