SECTION 404 (2) (a)
DEMOGRAPHIC SUMMARY DATA
2002

Statewide Summary & CMHSP Specific

Overview

The data that is presented in this section was provided by CMHSPs as required by the FY 2002 MDCH/CMHSP contract. Demographic data was collected from October 1, 2001 to September 30, 2002 and submitted to MDCH by January 3, 2003. Nine demographic indicators are presented cumulatively within the statewide summary, with the total served representing an unduplicated count within the Mental Illness (MI) and Developmental Disability (DD) consumers. Selected demographic indicators are then presented separately by CMHSP. These indicators are divided into three categories: Persons with MI (mental illness), Persons with DD (developmental disability), and Unknown Disability. (Very young children, persons newly admitted to service, or individuals who appeared for services only once may not have been diagnosed and therefore it is unknown whether they met the criteria for "mental illness" or "developmental disability.)

The demographic indicators presented in this section Include:

- Gender
- Age
- Race/Ethnicity
- Correction Status
- Residence
- Total Annual Household Income
- Source of Payment
- Employment
- Education

Definitions of these demographic indicators are presented in the attachment.
