

**MICHIGAN CIVIL SERVICE COMMISSION
JOB SPECIFICATION**

EPIDEMIOLOGIST MANAGER

JOB DESCRIPTION

Employees in this job direct professional subordinate positions in the management of epidemiological investigations of occupational health/environmental diseases, infectious diseases, chronic diseases, and other health issues. The work requires the use of considerable independent judgment and thorough knowledge of epidemiology. Knowledge of managerial techniques, personnel policies, and procedures is also required.

There are three classifications in this job. The information provided under each position code title represents a general description of the classification concept. To determine the appropriate level of the manager position, application of the Professional Managerial Position Evaluation System is required.

Position Code Title - Epidemiologist Manager-2

Epidemiologist Manager 13

The employee functions as a first-line professional manager of professional positions in a standard work area, a first-line professional manager of a professional position in a complex work area, a first-line professional manager of nonprofessional positions in a complex work area, a first-line manager of a professional position in a standard work area receiving executive direction, or a first-line professional manager of nonprofessional positions in a standard work area receiving executive direction.

Position Code Title - Epidemiologist Manager-3

Epidemiologist Manager 14

The employee functions as a first-line professional manager of professional positions in a complex work area, a first-line professional manager of professional positions in a standard work area receiving executive direction, a second-line professional manager of professional positions in a standard work area, a first-line manager of a professional position in a complex work area receiving executive direction, or a first-line professional manager of nonprofessional positions in a complex work area receiving executive direction.

Position Code Title - Epidemiologist Manager-4

Epidemiologist Manager 15

The employee functions as a first-line professional manager of professional positions in a complex work area receiving executive direction, a second-line professional manager of professional positions in a complex work area, a second-line manager of professional positions in a standard work area receiving executive direction, or a third-line professional manager of professional positions in a standard work area.

JOB DUTIES

NOTE: The job duties listed are typical examples of the work performed by positions in this job classification. Not all duties assigned to every position are included, nor is it expected that all positions will be assigned every duty.
