NOTICE TO SUPPLIERS, TERMINAL OPERATORS & CARRIERS REGARDING FTZ FUEL

Per our discussions with Northwest, we would like to begin reporting of Foreign Trade Zone (FTZ) fuel. Effective with the August 2004 return due September 20, 2004, all FTZ fuel will be reported on the applicable Michigan motor fuel tax report.

Terminal Operators and Carriers will continue to report the receipt and disbursement of FTZ fuel on the receipt and disbursement schedules currently being filed with your return.

Suppliers will report the disbursement of FTZ fuel on Schedule 10B, Gallons of Foreign Trade Zone Fuel Disbursed. As with other schedules, these loads will be reported on a load by load basis and may not be summarized. This schedule is informational only and will not affect the computation of the return.

Please contact the Customer Contact Division, Special Taxes at (517) 636-4600 if you have any questions.
