

May I split my farmland agreement?

A farmland agreement may be split into smaller agreements as long as the request is consistent with the intent of the act.

Minimum Requirements

To split an agreement, each of the resulting parcels must meet one of these criteria:

- At least 40 acres in size
- At least five acres, but less than 40 acres, and a minimum of 51% devoted to agricultural use, and producing a gross annual income of \$200 or more per tillable acre

How to Make Your Request

To request a split of an agreement, you must submit the following to MDARD:

- Farmland agreement number of the parcel to be split
- Legal descriptions for each parcel that will be placed in a separate agreement
- Number of acres in each parcel
- For parcels at least five acres, but fewer than 40 acres, the number of tillable acres in each parcel, and the gross annual income per tillable acre (parcels in CRP are considered to meet the gross income requirement)

Approval

If the parcels meet these requirements, new agreements will be sent for signing and recording.

What are other options for releasing land from a farmland agreement?

Entire farmland agreements may be released prior to the expiration date of the agreement, if approved by the local unit of government and the state, and when one of the following criteria are met:

- The farmland is economically inviable
- Surrounding land usage restricts farming
- Natural irreversible change occurs to the land, which restricts farming
- A court order restricts farming
- Public interest is served by the release

(Note: Portions of agreements may be released due to public interest.)

How to make your request

Request an application from the MDARD Farmland Preservation Office. Submit the form to the local unit of government for action. If the application is approved by the local government, it is forwarded to MDARD for review and action. If the application is denied by the local government, that decision may be appealed to MDARD. The local government may also waive its right to review the application and forward it directly to MDARD for action.

Required Repayments

If the parcel is approved for release, the landowner is required to repay the tax credits taken during the last seven years under the agreement, plus 6% simple interest. When the Farmland Preservation Office receives the repayment amount from the Michigan Department of Treasury, notification will be sent to the owner and the parcel will be released once the amount is paid.

The Farmland & Open Space Preservation Program

Farmland Agreements Transferring, Splitting & Releasing

www.michigan.gov/farmland

What is the Farmland and Open Space Preservation Program?

The Farmland and Open Space Preservation Program is designed to preserve farmland and open space through agreements that restrict development, and provide tax incentives for program participation.

(See brochure #1 Farmland Agreements--Enrollment, Eligibility & Benefits for more information.)

May I sell my land if it is enrolled in a farmland agreement?

A landowner is free to sell his/her land. However, the agreement remains with the land. It may be transferred, as long as the new owner agrees to comply with the provisions of the agreement, and *all land described in the agreement is conveyed to the new owner.*

Transferring Your Agreement

When enrolled land is conveyed to another party, you must submit the following to the MDARD Farmland Preservation Office:

- Farmland agreement number
- Copy of the deed, land contract and/or death certificate used to convey the land to the new owner
- New owner's address (if different from the deed)

When this information is received, a new agreement is sent to the new owner for signing and recording.

Can land be released from the program due to death or disability?

It's possible to release property from the program when the landowner dies or becomes disabled. A request to release property must be made within three years of the date of death or disability.

Release Due to Death

Termination due to death may be requested for a single agreement or multiple agreements or for a parcel up to two acres with a pre-existing building. The person who becomes owner through survivorship or inheritance must submit a copy of the death certificate with the request.

Release Due to Disability

An owner requesting a disability termination must submit a signed statement from a physician indicating the type and severity of the disability, and whether the condition represents total and permanent disability, as defined in the program's administrative rules. A request for disability termination must be for all of the land enrolled in the program in the disabled person's name, OR just for a parcel up to two acres with a pre-existing building.

Partial Release Due to Death/Disability

To request a partial release of agreement, you must submit the following documents:

- Farmland agreement number
- Legal description of the parcel to be released
- Listing, on letterhead from the local assessor, the taxable value for the past seven years for the lot to be released and
- Letter from the assessor indicating at least one structure was present prior to the beginning of the agreement.

Required Repayment

To complete the release of the parcel, the requester must repay a prorated share of the tax credits taken during the last seven years, attributable to the parcel being released. When MDARD receives the repayment amount from the Michigan Department of Treasury, the owner will be notified and the relinquishment document will be mailed to the owner for recording.

Can a lot with pre-existing buildings be released from an agreement?

Up to two acres may be released from a Farmland Agreement when there are buildings in existence that were present prior to the start of the original agreement.

How to Make Your Request

To request such a release submit the following:

- Farmland agreement number
- Resolution of approval from the local government
- Legal description of the parcel to be released
- Listing of the taxable value of the parcel for the past seven years on letterhead from the local assessor

Can a lot be released to allow a farm employee to build?

Up to two acres may be released to allow for the construction of a house for a person essential to the farm.

Definition of Essential to the Farm

A person essential to the farm is a co-owner, partner, shareholder, farm manager or family member who cultivates, operates or manages the farm under an agreement; has a financial interest equal to or greater than one-half the cost of producing crops, livestock or products; and inspects, advises and consults with the owner on production activities; OR works 1,040 hours or more annually in activities connected with the production of the farm operation.

How to Make Your Request

To request the release of up to two acres, the following items must be submitted to MDARD:

- Farmland agreement number
- A resolution of approval from the local unit of government
- Legal description of the parcel
- Listing, on letterhead from the local assessor, the taxable value for the past seven years for the lot to be released
- Documents (W-2, Schedule F, or payroll records) that show that the person to whom the lot is being released meets the requirements for being essential to the farm.

Required Repayment

To complete the release of the parcel and building(s), repayment is required for the tax credits taken during the last seven years, plus 6% simple interest on the parcel being removed. When MDARD receives the repayment amount from the Michigan Department of Treasury, the owner is notified and the parcel is released upon payment.
