

International Bridge

Kids Club

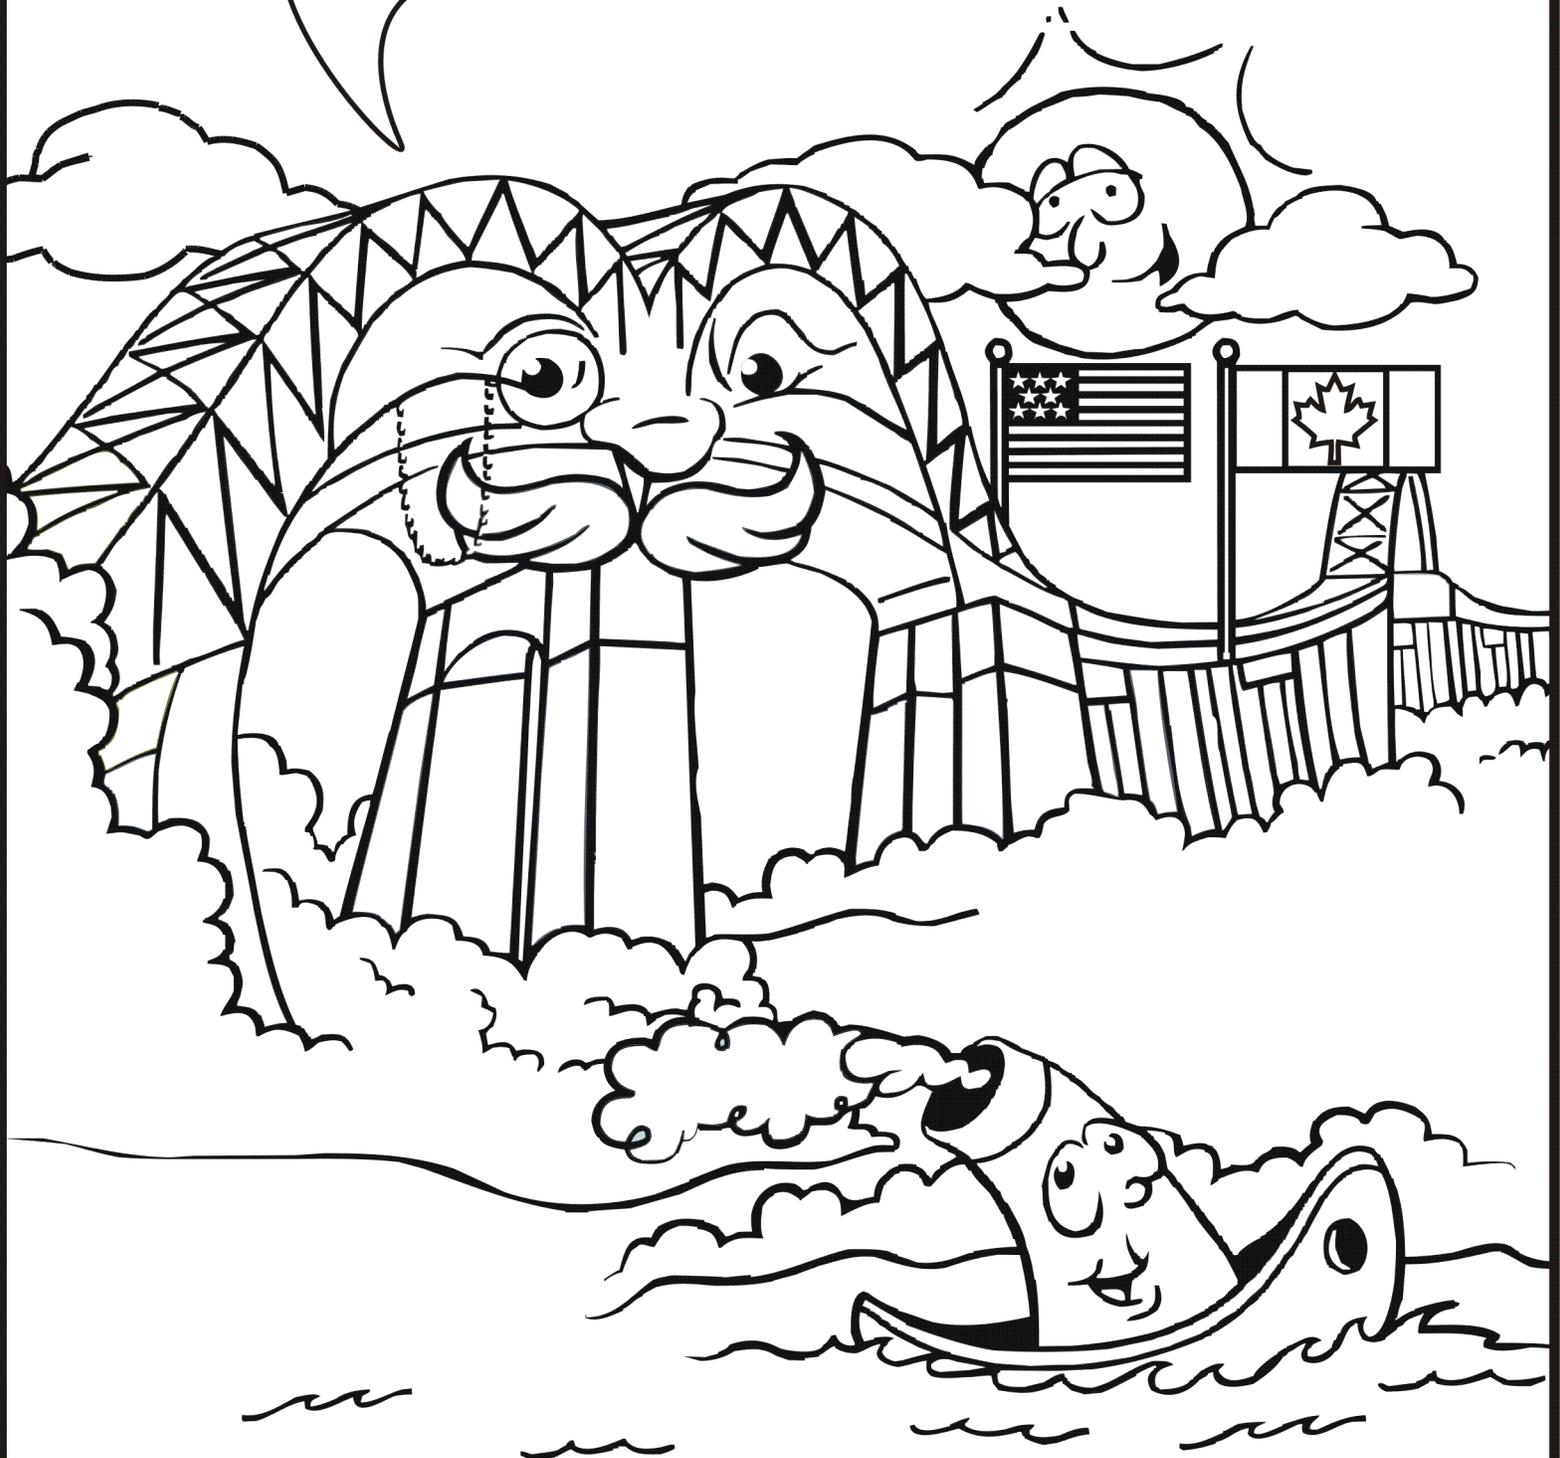

Coloring Book

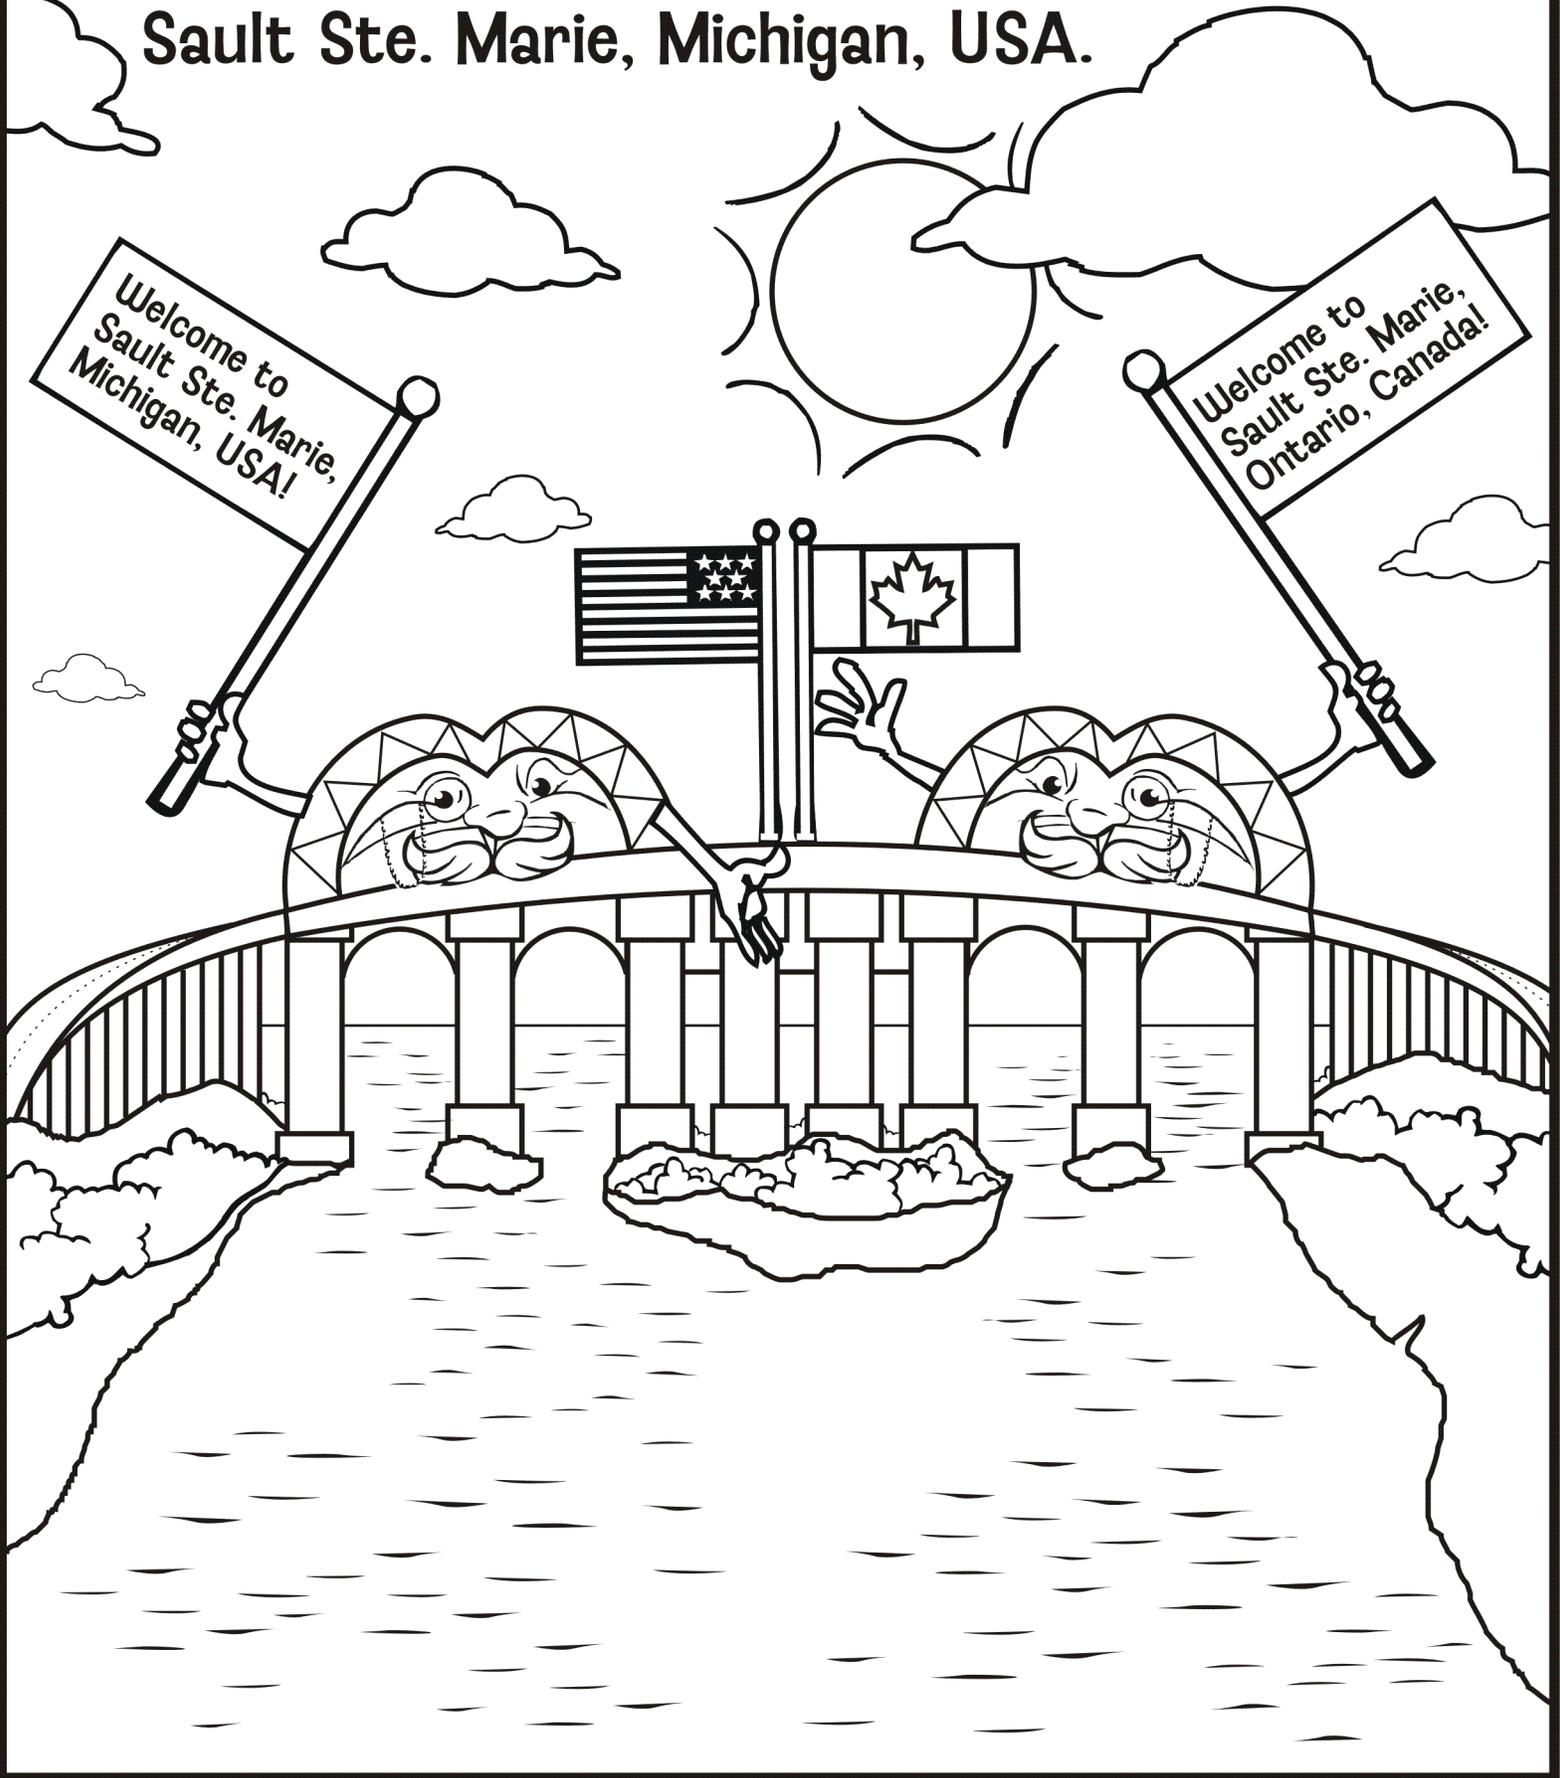

Hello!

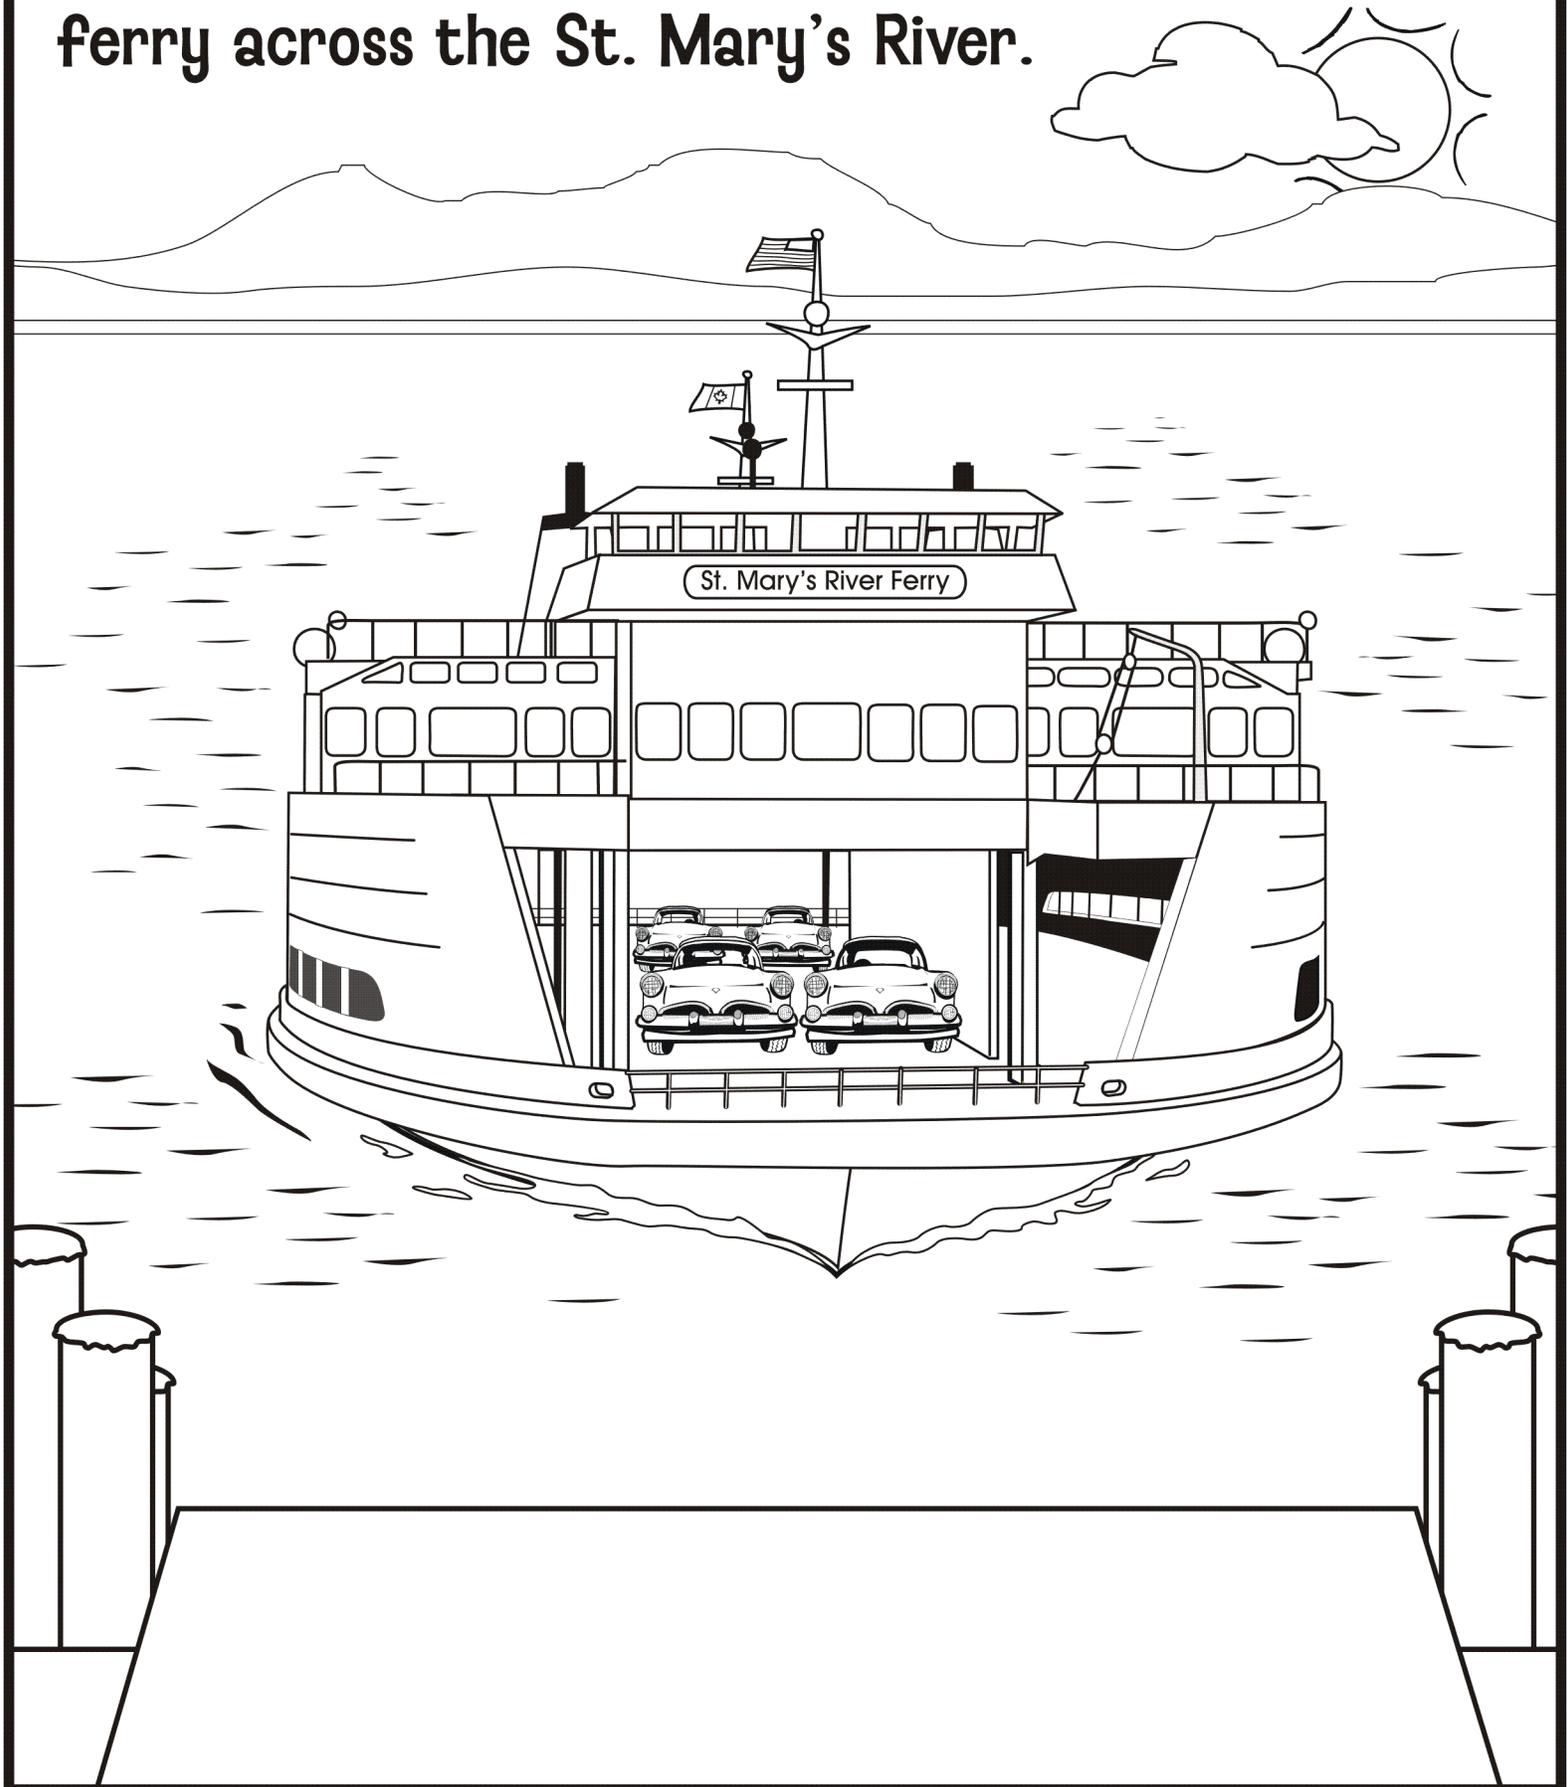

I'm the Sault Ste. Marie International Bridge.
But you can just call me Archy.

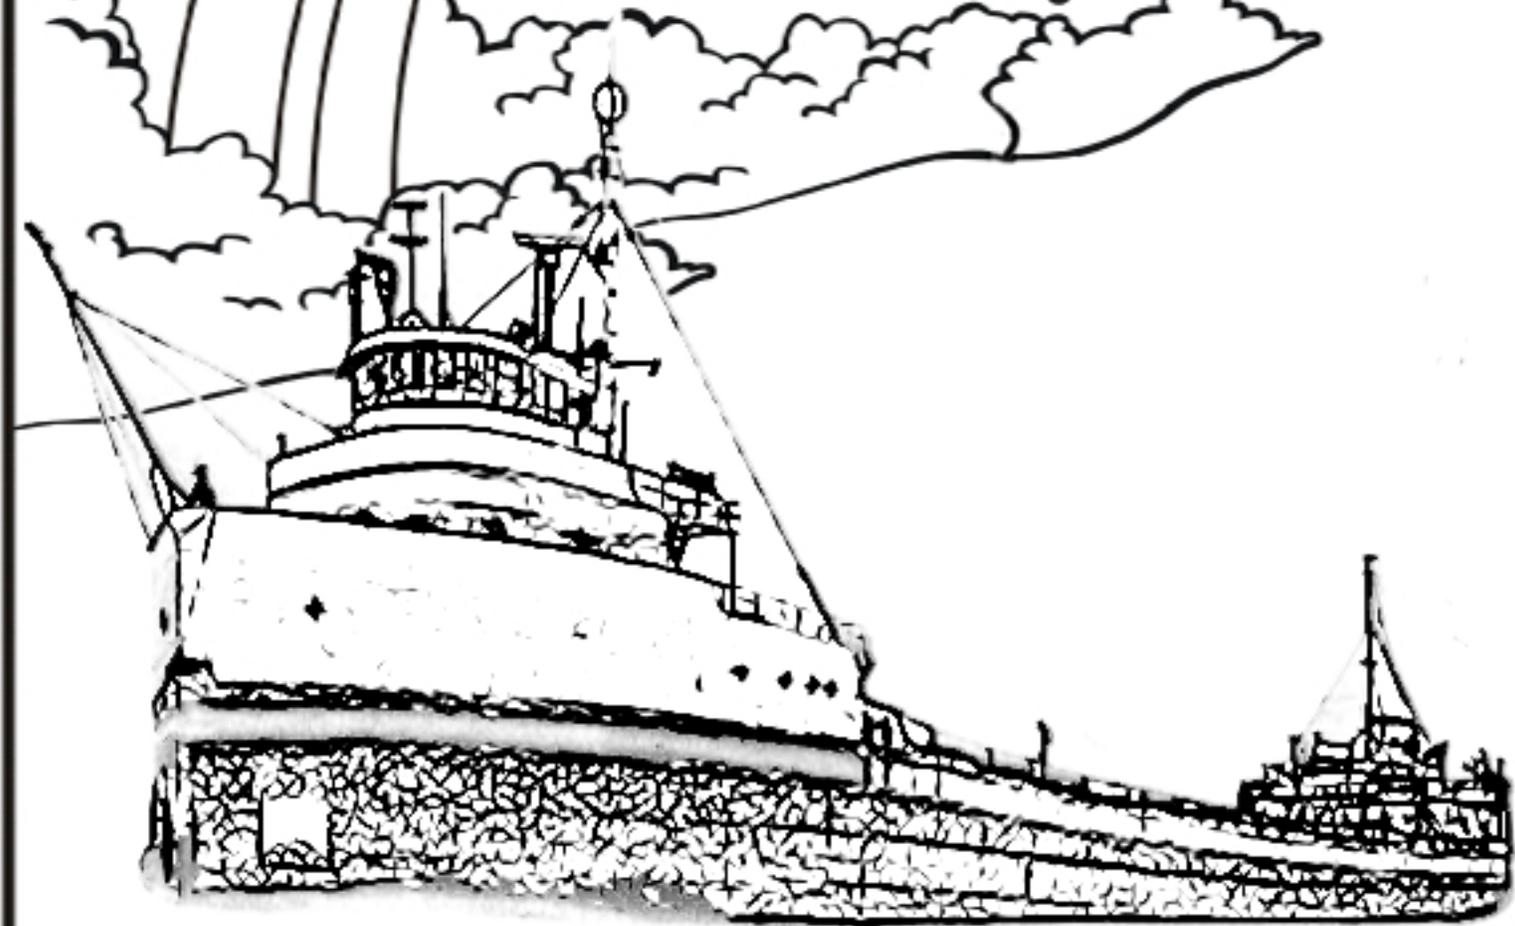

I connect the twin cities of
Sault Ste. Marie, Ontario, Canada and
Sault Ste. Marie, Michigan, USA.

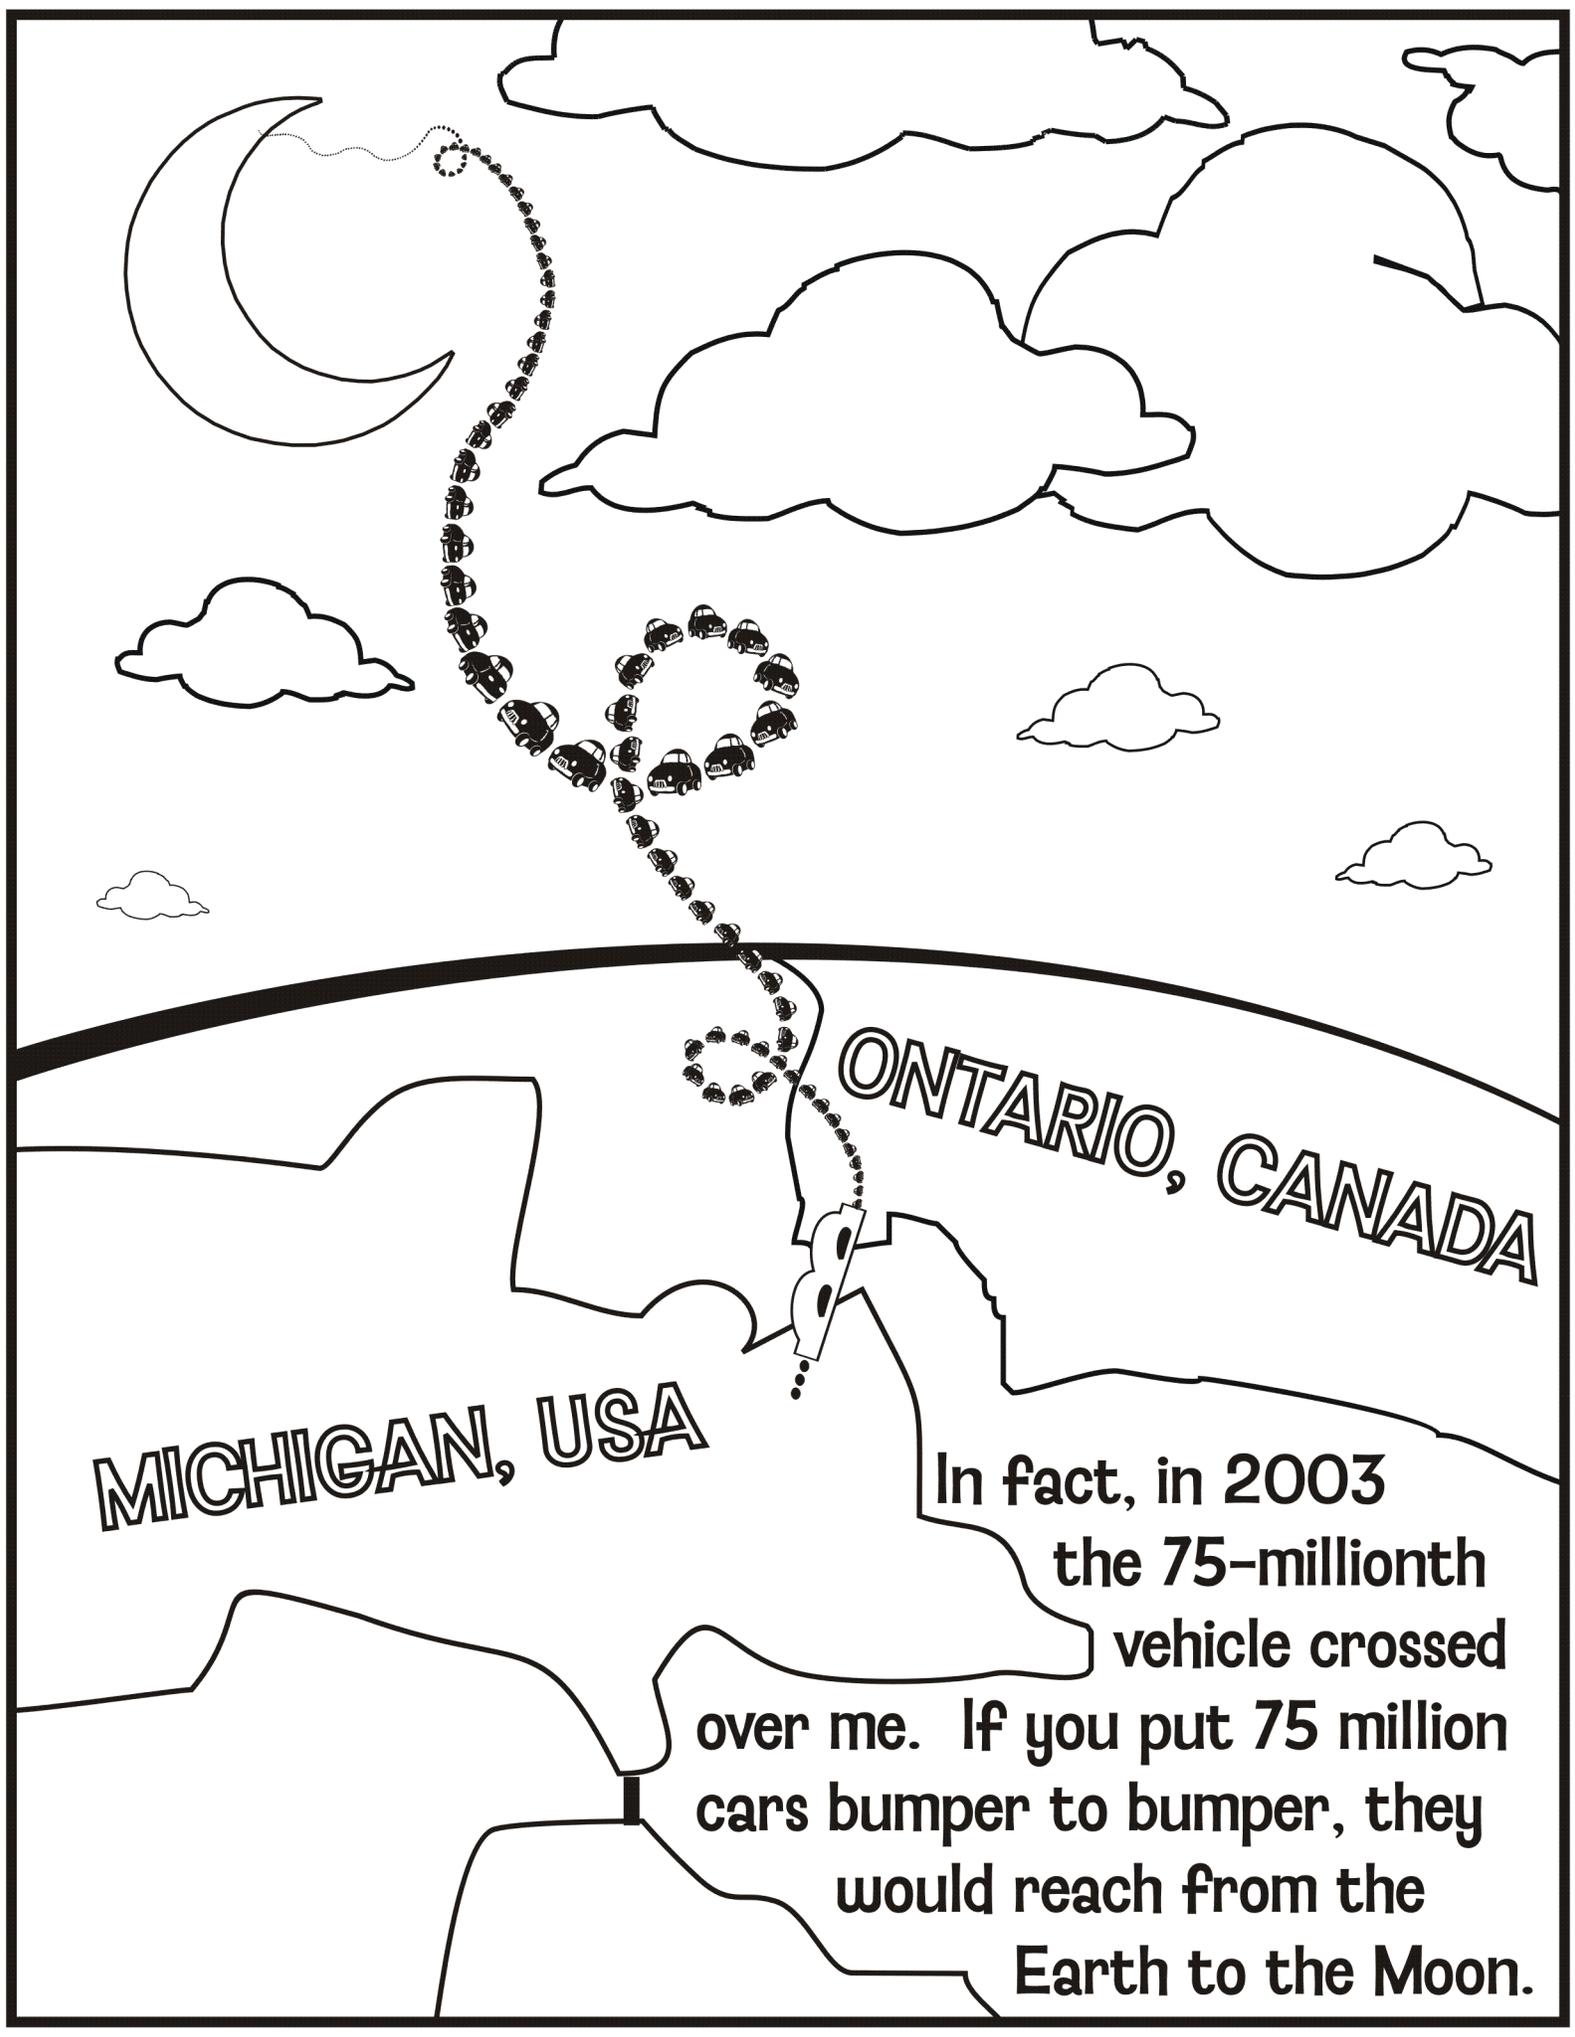

Before I was built, people who wanted to travel between the two countries would have to take a ferry across the St. Mary's River.

**Ships pass
under me on their
way to and from the Soo
Locks. Because of that, I'm
145 feet tall at my highest point.
I'm also 2.8 miles or
4.5 kilometers long.**

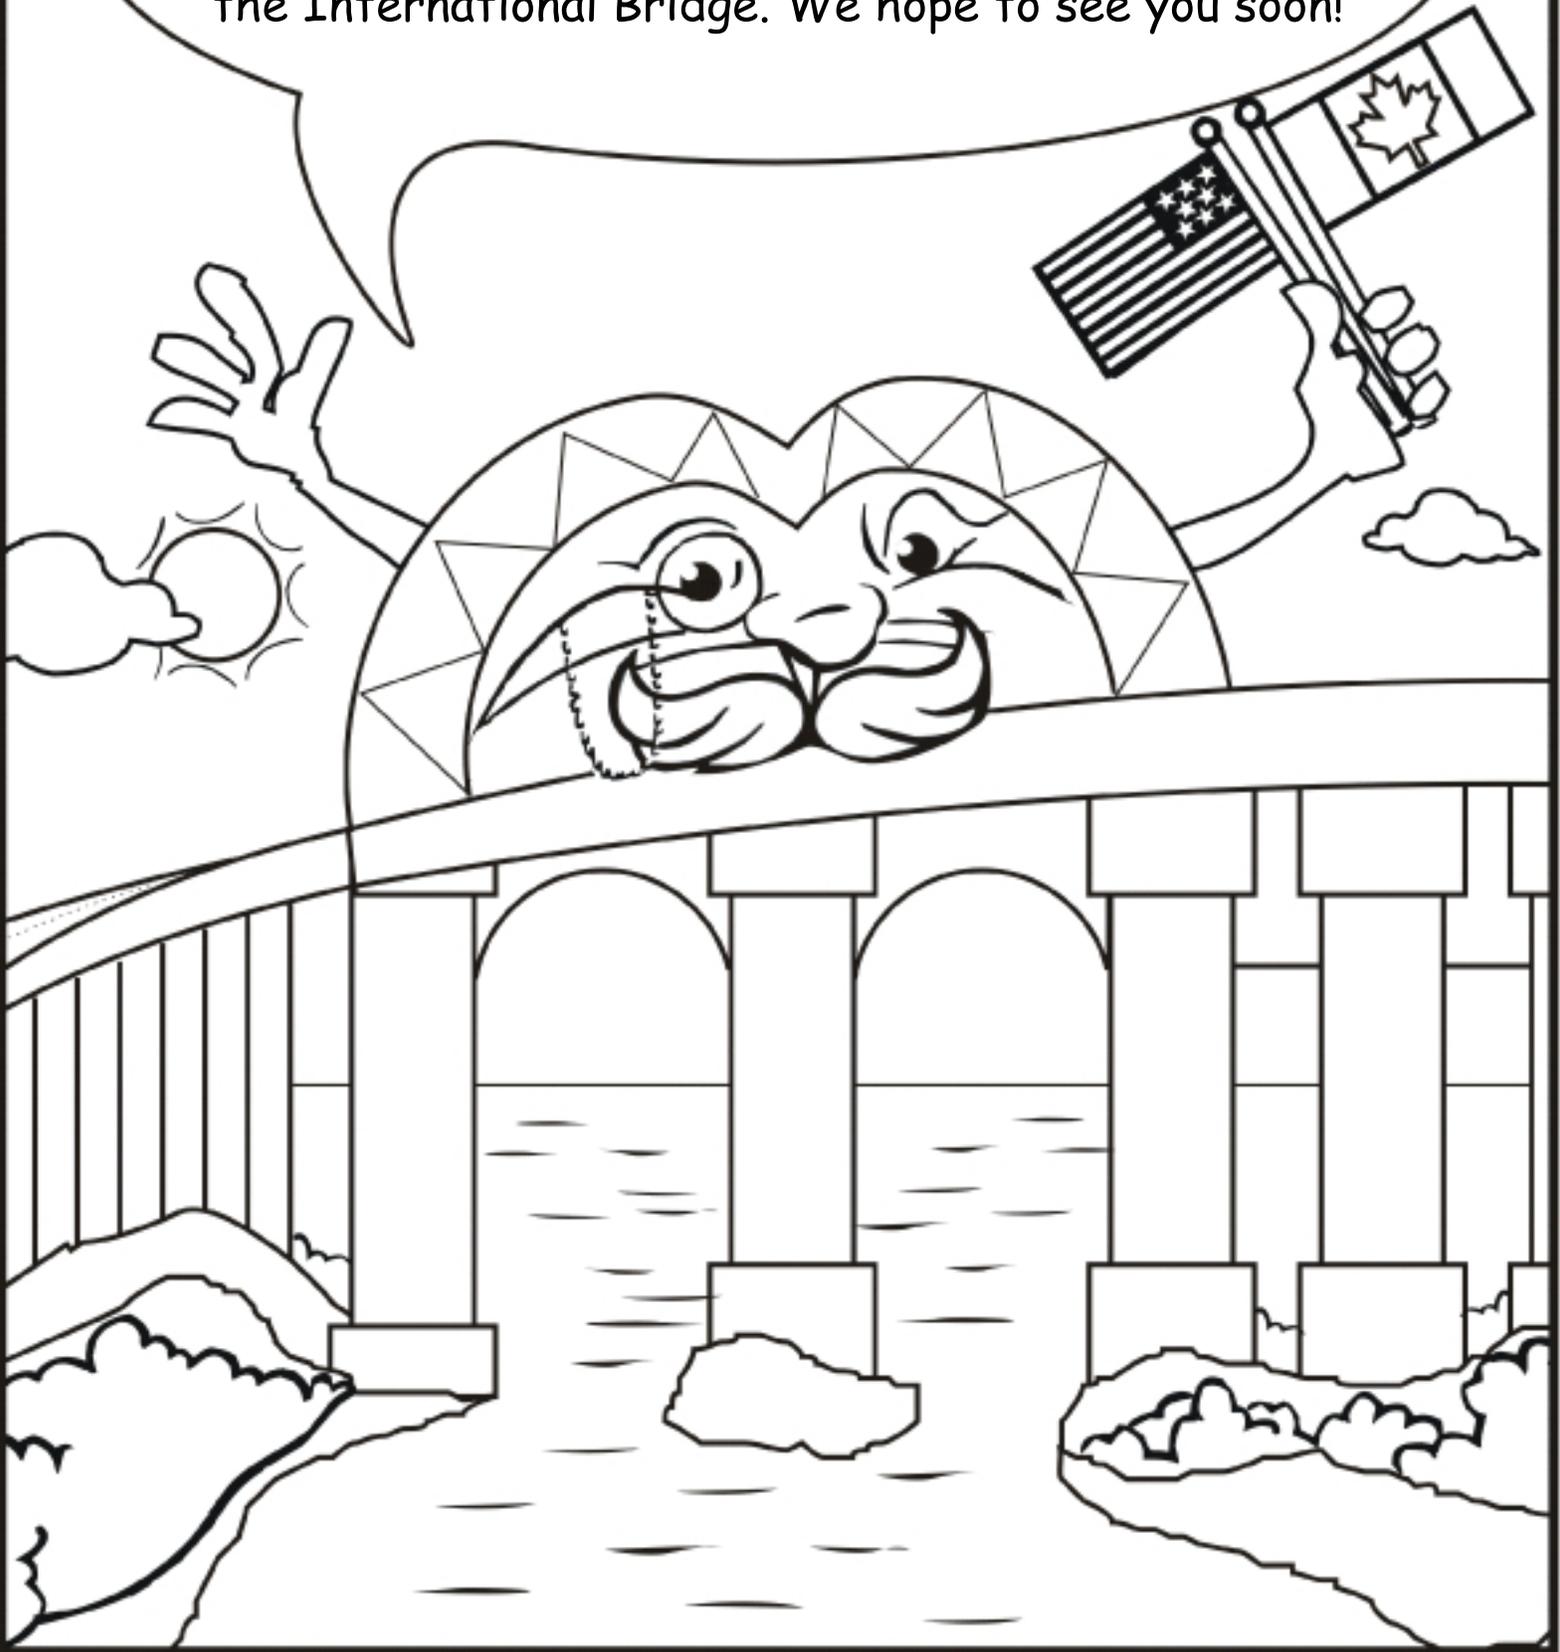

MICHIGAN, USA

ONTARIO, CANADA

**In fact, in 2003
the 75-millionth
vehicle crossed
over me. If you put 75 million
cars bumper to bumper, they
would reach from the
Earth to the Moon.**

If you'd like to learn more about me,
you should join the International Bridge Kids Club.
It's free to join! Just colour the picture of me, Archy,
that is on the second page, of this book. Mail the picture
with the form on the next page, filled out, to my friends at
the International Bridge. We hope to see you soon!
