

# **Welcome to MSI**

## **Michigan State Industries Laundry**

## **Kincheloe, Michigan**

# MSI – Laundry

Laundry carts are weighed, logged and unloaded.

The carts are washed and sanitized for the return of the clean laundry.

# MSI – Laundry

Laundry is hand sorted by product and color.

# MSI –Laundry

Loads are placed on one of two conveyers that delivers them to the tunnel washers.

# MSI – Laundry

The two six pocket tunnel washers are computer controlled.

# MSI – Laundry

Computer

Chemical injections are computer controlled -

Pumping just the right amount at just the right time.

Injection Pumps

Chemical Storage Tanks

# MSI - Laundry

Extractor

Once washing is complete - excess water is extracted.

Clean laundry is automatically delivered -

Shuttle

Dryer

to one of six dryers.

# MSI – Laundry

Dryer controls know just when laundry is done and cools it down before unloading it to the carts.

# MSI – Laundry

Clothing is sorted,  
folded, and counted.  
Put in clean carts  
for return.

# MSI – Laundry

**Sheets, pillowcases and other flat work are pressed and folded.**

# MSI – Laundry

Carts of clean laundry are weighed before they are loaded on the truck for the return trip to your facility.

# MSI – Laundry

Cleaning and Maintenance are on going daily.

# MSI – Laundry

Smaller or specialty loads, like bio-hazard, mops, and kitchen whites are completed in a separate section of the laundry.

# MSI – Laundry

Steam pressing of garments is also available.
