The Senior Companions Program (SCP) is part of Senior Corps, a network of national service programs that provides older Americans with the opportunity to apply their life experience to meeting community needs. Senior Companions serve one-on-one with the frail elderly and other homebound persons who have difficulty completing everyday tasks. They assist with grocery shopping, bill paying, and transportation to medical appointments, and they alert doctors and family members to potential problems. Senior Companions also provide short periods of relief for primary caregivers. Because of the program, thousands of citizens are able to live with dignity in their own homes.
