MICHIGAN CIVIL SERVICE COMMISSION
JOB SPECIFICATION

PHYSICAL PLANT SUPERVISOR

JOB DESCRIPTION

Employees in this job supervise and direct the overall operation and maintenance of a physical plant at a state facility or office complex. Duties include responsibility for the operation and maintenance of a power generating plant, electrical and mechanical building maintenance, general building maintenance, and grounds maintenance. Employees may also have responsibility for a motor pool, an automotive repair facility, a sewage plant operation, a fire and safety unit, or related areas. Employees plan and coordinate the work of a variety of skilled, semi-skilled, and unskilled trades persons and their supervisors in a wide variety of building trades and maintenance activities.

There are two classifications in this job. Level determination is based on the amount of responsibility involved in supervising and directing the operation and maintenance of the physical plant. This responsibility is determined by criteria which measures the size and diversity of the physical plant operation. The criteria include the number and size of operating units supervised; the number of people supervised; the number of different classifications comprising the physical plant staff; and the size of the budget appropriated for the operation and maintenance of the physical plant.

Position Code Title - Physical Plant Supervisor-1
Physical Plant Supervisor 12
The employee serves as supervisor with responsibility for directing the overall operation of a physical plant at a facility or office complex or serves as an assistant to the physical plant superintendent at a large facility or office complex.

Position Code Title - Physical Plant Supervisor-2
Physical Plant Supervisor 13
The employee serves as a supervisor with responsibility directing the overall operation and maintenance of a physical plant at a large facility or office complex, typically including building maintenance, electrical and mechanical maintenance, grounds maintenance, and a power generating plant.
