MICHIGAN CIVIL SERVICE COMMISSION
JOB SPECIFICATION

RESOURCE ANALYST

JOB DESCRIPTION
Employees in this job complete and oversee a variety of professional assignments to protect, develop and maintain the state’s land and water resources.

There are four classifications in this job.

Position Code Title – Resource Analyst-E
Resource Analyst 9
This is the entry level. As a trainee, the employee carries out a range of professional resource analyst assignments while learning the methods of the work.

Resource Analyst 10
This is the intermediate level. The employee performs an expanding range of professional resource analyst assignments in a developing capacity.

Resource Analyst P11
This is the experienced level. The employee performs a full range of professional resource analyst assignments in a full-functioning capacity. Considerable independent judgement is used to make decisions in carrying out assignments that have significant impact on services or programs. Guidelines may be available, but require adaptation or interpretation to determine appropriate courses of action.

Position Code Title – Resource Analyst-A
Resource Analyst 12
This is the advanced level. The employee may function as a lead worker or senior worker. At this level, employees are responsible for overseeing the work assignments of other professionals or have regular assignments which have been recognized by Civil Service as having significantly greater complexity than those assigned at the experienced level.

NOTE: Employees generally progress through this series to the experienced level based on satisfactory performance and possession of the required experience.

JOB DUTIES
NOTE: The job duties listed are typical examples of the work performed by positions in this job classification. Not all duties assigned to every position are included, nor is it expected that all positions will be assigned every duty.
Carries out assigned projects and studies in an area of natural resource planning.

Participates in technical investigative studies to determine the significance of specific environmental impact factors.

Participates in the coordination of projects, studies, surveys and programs with other agencies and organizations.

Provides technical information to substantiate or modify recommendations for proposed environmental policies or programs.

Participates in river basin and federal/state water resource, water quality or shorelands planning programs and studies on a regional and state-wide basis.

Participates in the coordination of federal programs with the state's recreation, fish, wildlife and water quality interests.

Investigates land and water use by agricultural, municipal, industrial and recreational groups.

Compiles and organizes data on a variety of recreational topics for use in planning and policy formulation by the department.

Prepares environmental impact statements as required by the National Environmental Policy Act, the Clean Air Act and state executive orders and legislative acts.

Assists land owners and local units with planning and implementation of environmental beneficial practices.

Examines and appraises property being considered for state ownership through tax reversion, purchase, exchange, gift, or easement.

Examines and appraises state-owned property or rights in land being considered for disposal through sale or easement.

Conducts field examinations of property to identify and assess natural resource values, including land, water, minerals, wildlife, recreation and timber.

Conducts site inspections to identify hazardous conditions, environmental contamination, conformance with accepted practices, and other environmental concerns.

Interviews landowners, tenants, and others, and observes and inspects properties and improvements to secure adequate and accurate descriptions required for the appraisal of properties.

Compiles and analyzes data; prepares written and graphic materials.
Participates in special studies and surveys and prepares technical reports.

May represent the department at meetings and before public groups to explain programs and answer questions.

Maintains records and prepares reports and correspondence related to the work.

Performs related work as assigned.

**Additional Job Duties**

Resource Analyst 12 (Lead Worker)
Oversees the work of professional staff by making and reviewing work assignments, establishing priorities, coordinating activities, and resolving related work problems.

Resource Analyst 12 (Senior Worker)
Performs on a regular basis professional resource analyst assignments which are recognized by Civil Service as more complex than those assigned at the experienced level.

**JOB QUALIFICATIONS**
