

Use of State-Administered ACT Tests for Admission to the United States Air Force Academy (USAFA)

Prior to April 2006, the USAFA would only accept ACT tests from a National Administration of the ACT.

Effective April 2006, the USAFA will accept ACT tests administered through state testing programs. As such, students participating in the 2007 MME will be able to use their ACT Plus Writing test scores for admission to the USAFA.
