

Have you ordered vaccine for the 2006-2007 season?

The following is a list of organizations that are planning to distribute influenza vaccine manufactured by Chiron, ID Biomedical (contingent on FDA licensure), and MedImmune. Note that ID Biomedical is a subsidiary of Glaxo Smith Kline.

ASD Healthcare	Phone: (866) 281-4FLU (4358) <a href="http://www.asdhealthcare.com">www.asdhealthcare.com</a>

Seacoast Medical	Phone: (800) 732-2115 <a href="http://www.seacoastmedical.com">www.seacoastmedical.com</a>

### **Ordering from a Group Purchasing Organization**

There are a wide variety of group purchasing organizations (GPOs) that generally serve hospitals and other facilities. GPOs have been in the news increasingly because of their ability to reduce costs. Some physician groups have been able to participate in such groups as well, but MDCH does not have access to a list of GPOs that may work with practices. Physicians may wish to check with hospitals, nursing homes or other health care organizations to see if there are GPOs in their area with whom they could affiliate. A list of GPOs can be found at:

[http://www.higpa.org/member\\_orgs/Member\\_Orgs.asp](http://www.higpa.org/member_orgs/Member_Orgs.asp) . The "Industry Members" are the GPOs. The "Affiliate Members" are the manufacturers and distributors.

### **Ordering from Vaccines for Children**

Practices that participate in the federally sponsored Vaccines for Children program in Michigan can obtain free influenza (and other) vaccine for eligible patients. If you are not a VFC provider but are interested in becoming one, please contact your local health department. Visit the Division of Immunization program (MDCH) website at [www.michigan.gov/immunize](http://www.michigan.gov/immunize)
