

## **ATTORNEY GENERAL BILL SCHUETTE 6-8 Introduction**

Length: 1 minute, 14 seconds

Hey everybody, I'm Bill Schuette Michigan's Attorney General. You know the Attorney General is the chief law enforcement officer of our State, the safety of students just like you is one of my most important priorities. That's why my team and I are here today to talk with you about two very important programs. First OK2SAY, and second the Michigan Cyber Safety Initiative or Michigan CSI.

OK2SAY is Michigan's school safety initiative and OK2SAY is a 24/7, 365 early warning system which is designed to stop violence in schools before it occurs. OK2SAY accepts safety tips by email, phone or an app in a confidential and a secure manner.

Now Michigan CSI addresses safe and responsible use of all forms of technology including smart phones, computers, tablets and other devices.

We've created these programs just for you so they can help you do the right thing and make a big difference.

OK2SAY and Michigan CSI are all about safety, all about security but most of all, all about you.

Thanks for your attention and enjoy the presentation.
