STATE OF MICHIGAN
STATE BUDGET OFFICE
LANSING

GRETCHEN WHITMER
GOVERNOR

CHRIS KOLB
DIRECTOR

March 6, 2020

The Honorable Gretchen Whitmer, Governor
Members of the Legislature
People of the State of Michigan

As required by Article 9, Section 21, of the State Constitution and Section 494, Public Act 431 of 1984, as amended, we are pleased to submit the *State of Michigan Comprehensive Annual Financial Report (SOMCAFR)* for the fiscal year ended September 30, 2019.

INTRODUCTION TO THE REPORT

Responsibility: The State Budget Office, Office of Financial Management, prepares the SOMCAFR and is responsible for both the accuracy of the data and the completeness and fairness of the presentation, including disclosures. To the best of our knowledge and belief, the information contained in the SOMCAFR is accurate in all material respects and reported in a manner that fairly presents the financial position and results of operations of the State primary government and component units for which it is financially accountable. All disclosures necessary to enable the reader to gain a reasonable understanding of the State's financial affairs have been included.

Adherence to Generally Accepted Accounting Principles: As required by State statute, we have prepared the financial statements contained in the SOMCAFR in accordance with generally accepted accounting principles (GAAP) applicable to state and local governments, as promulgated by the Governmental Accounting Standards Board (GASB). The State also voluntarily follows the recommendations of the Government Finance Officers Association of the United States and Canada (GFOA) for the contents of government financial reports and participates in the GFOA's review program for the Certificate of Achievement for Excellence in Financial Reporting.

Report: The SOMCAFR is divided into four major sections: introductory, financial, statistical, and other information:

- The introductory section includes this letter, the State's organization chart, and the list of principal officials.
- The financial section includes: the independent auditor's report on the Basic Financial Statements; Management's Discussion and Analysis (MD&A), which provides an introduction, overview, and analysis to the Basic Financial Statements; the Basic Financial Statements, which present the government-wide financial statements and fund financial statements for governmental funds, proprietary funds, fiduciary funds, and component units, together with footnotes to the Basic Financial Statements; Required Supplementary Information other than MD&A, which presents budgetary comparison schedules, pension and other postemployment benefits liability and contribution schedules and information about infrastructure assets; and the supplemental financial data, which includes the combining financial statements and schedules.
- The statistical section includes such items as trend information, information on debt levels, and other selected economic and statistical data.
- The other information section includes General Fund and Special Revenue Funds revenue and expenditure schedules and General Fund source and disposition of spending authorization schedules.

Internal Control Structure: The State Budget Office is responsible for the overall operation of the State's central accounting system and for establishing and maintaining the State's internal control structure. The system of internal control has been designed to provide reasonable, rather than absolute, assurance that the financial statements are free from material misstatement. All financial transactions of the State primary government are recorded in the central accounting system, except for the Michigan Unemployment Compensation Funds, Attorney Discipline System, the State of Michigan 457 Plans, the State of Michigan 401K Plans, Michigan Education Savings Program, and the Michigan Achieving a Better Life Experience Program. Many of the essential control features are decentralized, such as the preparation and entry of expenditure transactions into the central accounting system. Consequently, the State Budget Office relies upon the controls in place at the various State departments and agencies.

Act 431 requires each principal department to maintain adequate internal control systems. Each department is also required to periodically report to the Governor on the adequacy of its internal accounting and administrative control systems and, if any material weaknesses exist, provide corrective action plans and time schedules for addressing such weaknesses. This reporting is required on or before May 1 of each odd numbered year, effective as of the preceding October 1.

The discretely presented component units generally operate outside the State's central accounting system and are responsible for establishing and maintaining their own separate internal control structures.

Internal Auditors: Pursuant to Executive Order 2007-31, the Office of Internal Audit Services (OIAS) provides internal audit services to executive branch departments and agencies. OIAS performs periodic financial, performance, and compliance audits of department and agency programs and organizational units. In addition to periodic audits, OIAS also reviews department and agency managements' processes for establishing, monitoring, and reporting on internal controls; advises department and agency management on internal control matters; and assists department and agency management with investigations of alleged fraud or other irregularities.

Independent Auditors: The Office of the Auditor General (OAG) is the principal auditor of the SOMCAFR. The OAG also relies on the opinions of outside public accounting firms, particularly for component unit financial statements (such as the Michigan State Housing Development Authority and ten of the State's universities) and the Unemployment Compensation Funds. The purpose of the OAG's audit is to provide reasonable assurance that the Basic Financial Statements for the fiscal year ended September 30, 2019, are free of material misstatements. The OAG concluded that the Basic Financial Statements for the fiscal year ended September 30, 2019, are fairly presented in accordance with GAAP and issued unmodified opinions.

In addition to the annual audit of the SOMCAFR, the OAG also performs periodic financial statement and performance audits of the various State departments, agencies, and institutions of higher education. The Auditor General also has primary responsibility for conducting audits under the federal Single Audit Act Amendments of 1996. Pursuant to Michigan Public Act 233 of 2012, an annual statewide single audit will be conducted for applicable State departments, agencies and component unit authorities, and will result in a separately issued audit report.

Management's Discussion and Analysis (MD&A): GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the Basic Financial Statements in the form of MD&A. This letter of transmittal is intended to complement MD&A and should be read in conjunction with it. The MD&A immediately follows the Independent Auditor's Report.

PROFILE OF THE GOVERNMENT

Michigan was admitted to the Union as the 26th state in 1837. The State is governed under the Constitution of 1963, as amended.

Executive Branch: As of March 6, 2020, the Executive Branch consisted of 17 principal departments. Fourteen principal departments are headed by commissions and/or directors appointed by the elected governor. Elected officials head two principal departments, Attorney General and State, and one, Education, is headed by an elected board.

Judicial Branch: The Judicial Branch consists of the Supreme Court, Court of Appeals, Court of Claims, and the State's circuit, district, probate, and municipal courts. In addition to its judicial duties, the Supreme Court is responsible for the general administrative supervision of all courts in the State. The Supreme Court also establishes rules for practice and procedure in all courts.

Legislative Branch: The Legislative Branch consists of the Senate, House of Representatives, and Office of the Auditor General. The Senate, which consists of 38 elected members, and House of Representatives, which consists of 110 elected members, enact the laws of Michigan. The Office of the Auditor General conducts post financial and performance audits of State government operations.

Reporting Entity: The financial reporting entity of the State includes all of the funds of the primary government as well as component units for which the State's elected officials are financially accountable. The transmittal letter, MD&A, and the financial statements focus on the primary government and its activities. Although information pertaining to the component units is provided, their separately issued financial statements should be read to obtain a complete overview of their financial position.

Budgetary Reporting and Control: For the State primary government operating funds (i.e., the General Fund and annually appropriated special revenue, capital projects, and permanent funds), the State projects revenues and expenditures and calculates fund balances for budgetary purposes in accordance with GAAP. Public Act 431 of 1984, as amended, prohibits the State from budgeting for an ending fund balance deficit in an operating fund. If an actual deficit is incurred, the Constitution and Act 431 require that it be addressed in the subsequent year's budget. If accounting principles change, Act 431 requires the State to also implement such changes in its budgetary process.

Compliance with the final updated budget for the annually budgeted operating funds of the State primary government is demonstrated in the budget and actual comparative schedules and notes in the SOMCAFR. In addition, subsequent to the publication of the SOMCAFR, the State releases a Statewide Authorization Dispositions report that provides line item appropriation details, the legal level of budgetary control, for the General Fund and budgeted operating funds.

MAJOR INITIATIVES AND FUTURE PROJECTS

Fixing our Roads: Improving the condition of our roads remains one of Governor Whitmer's top priorities. The governor is moving forward with a major bonding initiative to infuse more money into Michigan's transportation system, and she continues to request legislative support for added revenue. Helping to ensure good, safe roads for Michigan's residents and visitors will remain a focus of the Whitmer administration.

Improving Public Schools in Michigan: Governor Whitmer believes that every child, no matter their community, deserves a great education that can get them on a path to success. She understands that making sure our educators have the resources they need to do their job is essential. The governor will continue to advocate for a weighted funding formula in the state budget that prioritizes funding based on science and equity to help at-risk and special education students get ahead. She will remain focused on improving literacy in our state so more kids can read by the end of third grade.

Creating Thousands of Good Paying Jobs: This Whitmer administration will continue to push for economic development opportunities that create and enhance good paying jobs across the state. This will include efforts aimed at keeping Michigan talent in our state where students can find an easier path to higher education and job skills training so that they can find a good paying job. Efforts will also be focused on helping employers and small business provide benefits to employees that will entice them to work in Michigan.

Improving and Expanding Health Care: Every Michigander deserves the right to quality health care. Governor Whitmer will continue to support the Healthy Michigan Program so that every Michigan family has access to needed medical services, with a renewed focus on the start of life and the needs of mothers and babies. Some of the specific aspects of health care needs for women will be targeted. Transparency in the health care system will be a priority, with a focus on fair prescription drug prices for everyone.

Protecting our Environment and Assuring Clean Water: The Whitmer administration is committed to protecting the health and safety of all Michiganders by protecting our environment and assuring access to clean water. The fiscal year 2021 budget will continue to invest in needs across our state, including funding for rapid environmental response as well as funding to address the negative impacts of Michigan's changing climate conditions.

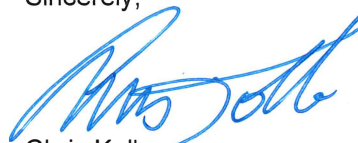

AWARDS AND ACKNOWLEDGEMENTS

Certificate of Achievement: The GFOA awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of Michigan for its SOMCAFR for the year ended September 30, 2018. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report whose content satisfies both generally accepted accounting principles and applicable legal requirements.

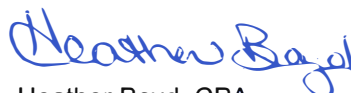

A Certificate of Achievement is valid for a period of one year only. The State has received a Certificate of Achievement for 32 consecutive years. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments: The preparation of this report requires the collective efforts of the management and staff of the Accounting and Financial Reporting Division, Office of Financial Management; the Office of Internal Audit Services; SIGMA Operations and Support; the chief financial officers, chief accountants, and their staffs from all State agencies; and the management and staff of the Office of the Auditor General. We sincerely appreciate the dedicated efforts of all of these individuals that have allowed Michigan to maintain its position as a national leader in quality financial reporting.

Sincerely,

Chris Kolb

Independent Auditor's Report

The Honorable Gretchen Whitmer, Governor
Members of the Legislature

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Michigan principally as of and for the fiscal year ended September 30, 2019 and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. The financial statements of the following component units and funds were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included in these component units and funds, are based solely on the reports of the other auditors:

- State Lottery Fund (a major fund)
- Michigan Unemployment Compensation Funds (a major fund)
- Michigan Employment Security Act - Administration Fund
- Unemployment Obligation Trust Fund
- State Building Authority - Debt Service Fund
- State Building Authority - Capital Projects Fund
- Attorney Discipline System
- State Sponsored Group Insurance Fund
- Michigan Education Savings Program
- Michigan Achieving a Better Life Experience Program
- Michigan Finance Authority
- Michigan State Housing Development Authority
- Farm Produce Insurance Authority
- Mackinac Bridge Authority
- Mackinac Island State Park Commission
- Michigan Early Childhood Investment Corporation
- Michigan Education Trust
- State Bar of Michigan
- Venture Michigan Fund
- Central Michigan University
- Eastern Michigan University
- Western Michigan University
- Ferris State University
- Grand Valley State University
- Lake Superior State University
- Michigan Technological University
- Northern Michigan University
- Oakland University
- Saginaw Valley State University

Those financial statements reflect total assets and total revenues or additions to the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information as follows:

Opinion Unit	Percent of Total Assets	Percent of Total Revenues/Additions
Governmental activities	1.5%	2.4%
Business-type activities	98.6%	80.7%
Aggregate discretely presented component units	95.0%	87.3%
State Lottery Fund	100.0%	100.0%
Michigan Unemployment Compensation Funds	100.0%	100.0%
Aggregate remaining fund information	7.2%	11.1%

Office of the Auditor General

Doug A. Ringler, CPA, CIA
Auditor General

The Honorable Gretchen Whitmer, Governor
Members of the Legislature
Page 2

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to in the first paragraph present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Michigan as of September 30, 2019 and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

As discussed in Note 4 to the financial statements, the State of Michigan:

- Restated beginning net position of the government-wide governmental activities statements to account for pollution remediation obligations related to underground storage tanks which met the liability criteria in Governmental Accounting Standards Board (GASB) Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations*.
- Restated beginning net position of the Gifts, Bequests, and Deposits Investment Fund, a private purpose trust fund, to reflect a change in presentation of the Michigan Achieving a Better Life Experience Program (MiABLE). Beginning in fiscal year 2019, MiABLE is disclosed separately and is no longer included in the Gifts, Bequests, and Deposits Investment Fund.

Our opinions are not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information other than management's discussion and analysis, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by GASB who

OAG

Office of the Auditor General

Doug A. Ringler, CPA, CIA
Auditor General

The Honorable Gretchen Whitmer, Governor
Members of the Legislature
Page 3

considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State's basic financial statements. The combining and individual fund statements and schedules - non-major funds and the introductory, statistical, and other information sections listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements and schedules - non-major funds are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, the combining and individual fund statements and schedules - non-major funds are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory, statistical, and other information sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we will also issue a report on our consideration of the State's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State's internal control over financial reporting and compliance.

Sincerely,

Doug Ringler
Auditor General
March 6, 2020

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following is a discussion and analysis of the State of Michigan's (the State's) financial performance, providing an overview of the activities for the fiscal year ended September 30, 2019. Please read it in conjunction with the transmittal letter at the front of this report and with the State's financial statements, which follow this section.

HIGHLIGHTS

Government-wide

- At September 30, 2019, the State's net position was \$16.2 billion. This means that total State assets and deferred outflows of resources exceeded total State liabilities and deferred inflows of resources by \$16.2 billion.
- The State's unrestricted net position was negative \$14.7 billion as of the close of the fiscal year. A positive balance in unrestricted net position represents excess assets available to meet ongoing obligations. A negative balance means that it would be necessary to convert restricted assets (e.g., capital assets) to unrestricted assets if all ongoing obligations were immediately due and payable.
- Revenues of \$64.1 billion supported expenses of \$62.7 billion during fiscal year 2019. As a result, the State's total net position increased by \$1.5 billion (10.0 percent). The increase in net position relates mostly to increased tax revenue of \$1.8 billion compared to the prior year. This increase is primarily due to increases in revenues from sales tax; personal income tax; single business, Michigan business, and corporate income tax; and insurance provider assessments.

Fund Level

- As of the close of the fiscal year, the State's governmental funds reported combined ending fund balances of \$7.8 billion. Governmental fund balances increased \$310.0 million (4.1 percent) from the prior year.
- The State's two major governmental funds, the General Fund and the School Aid Fund, closed the fiscal year with a combined fund balance of \$4.4 billion, an increase of \$293.0 million (7.1 percent) from the prior year. Of the total General Fund balance of \$4.2 billion, \$916.2 million is unassigned and, therefore, available for appropriation in future years. The remaining \$3.2 billion is either non-spendable (e.g., consists of assets not easily converted to cash, such as inventories); restricted for specific purposes by enabling legislation; committed to specific programs or projects by legislative action; or assigned to fulfill contractual obligations. In the School Aid Fund, the entire fund balance of \$275.8 million is restricted for education purposes.
- The State's proprietary funds reported net position at year-end of \$4.5 billion. This represents an increase of \$460.0 million (11.4 percent) compared to the prior year-end balance. Most of the increase results from the Michigan Unemployment Compensation Funds increase in net position which was primarily due to a decrease in unemployment benefit payments and an increase in interest revenue.

Long-term Debt

- The State's total long-term bonded debt as of September 30, 2019 was \$5.4 billion, a decrease of \$380.7 million (6.6 percent) from the prior year. The decrease represents the net difference between new issuances, payments, and refundings of debt.

More detailed information regarding the government-wide, fund level, and long-term debt activities can be found beginning on page 20.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is an introduction to the State's basic financial statements, which are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide Statements (Reporting the State as a Whole)

The Statement of Net Position and the Statement of Activities are two financial statements that report information about the State, as a whole, and about its activities that should help answer this question: How has the State's financial position, as a whole, changed as a result of this year's activities? These statements include all non-fiduciary assets and liabilities using the accrual basis of accounting. The current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Position (pages 28 and 29) presents all of the State's non-fiduciary assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. Over time, increases and decreases in net position measure whether the State's financial position is improving or declining.

The Statement of Activities (pages 30 and 31) presents information showing how the State’s net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying events giving rise to the change occur, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in these statements for some items that will result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave).

Both statements report three activities:

- *Governmental Activities* – Most of the State’s basic services are reported under this category. Taxes and intergovernmental revenues generally fund these services. The Legislature, the Judiciary, and the general operations of the Executive departments fall within governmental activities.
- *Business-type Activities* – The State charges fees to customers to help it cover all or most of the cost of certain services it provides. Lottery tickets, liquor purchases, and the State’s unemployment compensation services are examples of business-type activities.
- *Discretely Presented Component Units* – Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The State has 12 authorities and 10 universities that are reported as discretely presented component units of the State.

This report includes two schedules (pages 35 and 37) that reconcile the amounts reported on the governmental fund financial statements, which are prepared using the modified accrual basis of accounting, with the governmental activities in the government-wide statements, which are prepared using the accrual basis of accounting. The following table summarizes the differences between modified accrual and full accrual accounting:

Description	Reported in Governmental Fund Financial Statements (modified accrual basis)	Reported in Government- Wide Financial Statements (accrual basis)
Capital assets of the general government (e.g. land, buildings, and infrastructure)	No	Yes
Deferred inflows of unavailable resources	Yes	No
Assets and liabilities of internal service funds that primarily serve governmental funds	No	Yes
Assets for certain debt issuance costs (i.e., prepaid insurance costs)	No	Yes
Unmatured long-term debt (e.g. bonds, notes, capital lease obligations) net of unamortized premiums, discounts, and similar items	No	Yes
Certain accrued obligations not normally expected to be liquidated with expendable available financial resources unless they are due for payment in the current period (i.e. claims and adjustments, compensated absences, and net pension liability)	No	Yes
Accrued interest on long-term debt	No	Yes
Liability for unearned revenue	Yes	Yes
Capital outlay spending	Yes	No
Debt service principal payments and refunding payments	Yes	No
Other financing sources, uses, and expenditures resulting from debt issuance	Yes	No

Michigan

Description	Reported in Governmental Fund Financial Statements (modified accrual basis)	Reported in Government- Wide Financial Statements (accrual basis)
Sales of capital assets	Yes, in the amount of the proceeds of the sale	Yes, gain or loss on the sale
Revenues earned during the period but not yet available	No	Yes
Expenses incurred during the period, but not normally expected to be liquidated with expendable available financial resources unless they are due for payment in the current period	No	Yes
Depreciation	No	Yes
Revenues and expenditures related to prior periods	Yes	No
Amortization of issuance costs, premiums, discounts and similar items	No	Yes
Activities of internal service funds properly included within governmental activities	No	Yes

The Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes can be found beginning on page 59 of this report.

Fund Financial Statements (Reporting the State's Major Funds)

The fund financial statements begin on page 34 and provide detailed information about the major individual funds. A fund is a fiscal and accounting entity with a self-balancing set of accounts that the State uses to keep track of specific sources of funding and spending for a particular purpose. In addition to the major funds, page 186 begins the individual fund data for the non-major funds. The State's funds are divided into three categories – governmental, proprietary, and fiduciary – and use different accounting approaches.

- Governmental funds** - Most of the State's basic services are reported in the governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for future spending. The governmental fund financial statements provide a detailed short-term view of the State's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the State's programs. These funds are reported using *modified accrual* accounting, which measures cash and all other financial assets that can readily be converted to cash. Governmental funds include the General Fund and special revenue, capital project, debt service, and permanent funds.
- Proprietary funds** - When the State charges customers for the services it provides, whether to outside customers or to other agencies within the State, these services are generally reported in proprietary funds. Proprietary (enterprise and internal service) funds utilize accrual accounting, the same method used by private sector businesses. Enterprise funds report activities that provide supplies and services to the general public. An example is the State Lottery Fund. Internal service funds report activities that provide supplies and services for the State's other programs-such as risk management and state sponsored group insurance activities. Internal service funds are reported as governmental activities on the government-wide statements.
- Fiduciary funds** - The State acts as a trustee or fiduciary for its employee pension plans. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The State's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position beginning on page 46. These funds, which include pension (and other employee benefit), private-purpose, and agency funds, are reported using accrual accounting. The government-wide statements exclude fiduciary fund activities and balances because these assets are restricted in purpose and do not represent discretionary assets of the State to finance its operations.

Additional Required Supplementary Information

Following the basic financial statements is additional Required Supplementary Information (RSI) that further explains and supports the information in the financial statements. The RSI includes budgetary comparison schedules reconciling the statutory and generally accepted accounting principles fund balances at fiscal year-end, condition and maintenance data regarding certain portions of the State's infrastructure, and information regarding the State's pension plans, including contributions and changes in the net pension liability.

Other Supplementary Information

Other supplementary information includes combining financial statements for non-major governmental, proprietary, and fiduciary funds, and non-major discretely presented component units. These funds are added together, by fund type, and presented in single columns in the basic financial statements, but are not reported individually, as with major funds, on the governmental fund financial statements.

FINANCIAL ANALYSIS OF THE GOVERNMENT AS A WHOLE

The State's combined net position increased \$1.5 billion (10.0 percent) over the course of this fiscal year's operations. The net position of the governmental activities increased by \$985.0 million (9.6 percent), and business-type activities had an increase of \$490.7 million (11.0 percent).

Michigan

The largest component of the State's net position, at \$21.6 billion, reflects its investment in capital assets (e.g. land, buildings, equipment, infrastructure, and others), less any related debt outstanding that was needed to acquire or construct the assets. Restricted net position is the next largest component, comprising \$9.3 billion of the total. This represents resources that are subject to external restrictions, constitutional provisions, or enabling legislation limiting how they can be used. The State's unrestricted net position was negative \$14.7 billion as of the close of the year. A positive balance in unrestricted net position represents excess assets available to meet ongoing obligations. A negative balance means that it would be necessary to convert restricted assets to unrestricted assets if all ongoing obligations were immediately due and payable.

The following condensed financial information was derived from the government-wide Statement of Activities and reflects how the State's net position changed during the fiscal year:

Change in Net Position

*More information regarding the restatement of beginning net position can be found in Note 4 to the financial statements.

Governmental Activities

Revenues to fund governmental activities totaled \$57.6 billion for fiscal year 2019. As shown in the accompanying chart, 37.4 percent of the governmental activities' revenue came from operating grants, primarily from the federal government, and were earmarked for specific uses, such as highway construction and health and human services programs. In addition, the State Constitution and other statutory restrictions earmarked 27.3 percent for educational and transportation purposes. Only 28.4 percent of the revenues were available for general use.

Revenues - Governmental Activities for Fiscal Year Ending September 30, 2019
(\$57.6 billion)

Expenses related to governmental activities totaled \$58.0 billion during fiscal year 2019. The expenses include spending appropriated in prior years, such as capital outlay and work project authorization. As evidenced by the accompanying chart, education and health and human services represent the governmental activities' largest spending categories, accounting for 73.5 percent of the spending.

Expenses - Governmental Activities for Fiscal Year Ending September 30, 2019
(\$58.0 billion)

Business-type Activities

The business-type activities' net position increased \$490.7 million (11.0 percent) during the fiscal year. Factors contributing to these results included:

- The Michigan Unemployment Compensation Funds (MUCF) finished the fiscal year with an increase in net position of \$479.9 million (10.6 percent). In fiscal year 2018, the increase in net position was \$528.3 million. The decrease in the change in net position of these funds is primarily related to a decrease in operating income, which included a reduction in both benefit expenditures and employer contributions.
- The State Lottery Fund's net position increased \$10.5 million (23.9 percent) from the fiscal year 2018 amount. The increase in net position is primarily related to unrealized gains on investments due to changes in market value.

FINANCIAL ANALYSIS OF THE STATE'S FUNDS

As the State completed the year, its governmental funds reported fund balances of \$7.8 billion. Of this amount, \$916.2 million constitutes unassigned fund balance in the General Fund, which is available to appropriate in future years. Of the total governmental fund balances, \$1.1 billion is in nonspendable form made up of amounts legally or contractually required to be maintained intact, including permanent fund endowments and assets that will not be converted to cash in the short-term, including consumable inventories. Another \$3.0 billion of the governmental fund balances are restricted for specific purposes by enabling legislation, the majority of which is legally restricted for capital projects. Committed governmental fund balances totaled \$2.7 billion as of the end of the fiscal year representing funding set aside for multi-year projects and earmarked revenue carried forward with legislative authority for specific ongoing programs. Another \$135.3 million of the governmental fund balances are assigned for encumbered services and goods to be received after the end of the fiscal year. Two capital projects funds reported a negative unassigned fund balance totaling \$104.5 million due to expenditures incurred in advance of bonding proceeds which will be received after the end of the fiscal year.

General Fund

The General Fund is the chief operating fund of the State. At the end of fiscal year 2019, the General Fund total fund balance was \$4.2 billion, of which \$916.2 million was unassigned and, therefore, available for appropriation. The General Fund total fund balance of \$4.2 billion represents an increase of \$450.7 million (12.2 percent) from the fiscal year 2018 ending total fund balance. Included within the General Fund's committed fund balance is \$1.1 billion in the Counter-Cyclical Budget and Economic Stabilization Fund. This fund, also referred to as the Rainy Day Fund, is used to stabilize government programs in times of economic downturn.

General Fund Budgetary Highlights:

The original enacted fiscal year 2019 general fund budget was \$35.5 billion. During the year, various positive and negative supplemental appropriations and other adjustments resulted in a final enacted budget of \$36.8 billion. The difference between the final enacted budget of \$36.8 billion and actual spending and encumbrances of \$36.6 billion resulted from spending authority net lapses of \$142.7 million and restricted revenue authorized, but not spent, totaling \$71.1 million. At fiscal year-end, excess restricted revenue of \$2.2 billion was carried forward into fiscal year 2020 and is available for appropriation. There were no net overexpenditures or line-item overexpenditures, by State departments, during the year.

School Aid Fund

Fund balance at September 30, 2019, totaled \$275.8 million, a decrease of \$157.7 million (36.4 percent) from the prior year. Revenues and transfers to the fund totaled \$15.3 billion, up \$363.5 million (2.4 percent) from the prior year. In fiscal year 2019, tax revenues deposited in the fund increased \$163.5 million (1.3 percent). Federal funds collected by the School Aid Fund were up \$55.5 million (3.5 percent) over the prior year. Expenditures and transfers to other funds totaled \$15.4 billion, an increase of \$467.5 million (3.1 percent) over the previous year. The School Aid Stabilization Fund ended the year with \$194.7 million in restricted fund balance.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets: At the end of the fiscal year 2019, the State had invested \$24.1 billion, net of accumulated depreciation, in a broad range of capital assets (see the table below). Depreciation charges for this fiscal year totaled \$306.2 million.

Capital Assets as of September 30
(Net of Depreciations, In Millions)

	Governmental Activities		Business-type Activities		Total Primary Government	
	2019	2018	2019	2018	2019	2018
Land	\$ 3,628.4	\$ 3,605.7	\$ -	\$ -	\$ 3,628.4	\$ 3,605.7

Other	19.8	19.8	-	-	19.8	19.8
Subtotal	22,171.7	21,812.3	2.3	1.7	22,174.0	21,813.9
Construction in progress	1,928.8	2,020.6	-	-	1,928.8	2,020.6
Total	<u>\$ 24,100.5</u>	<u>\$ 23,832.9</u>	<u>\$ 2.3</u>	<u>\$ 1.7</u>	<u>\$ 24,102.8</u>	<u>\$ 23,834.5</u>

The most significant impact on capital assets during the year resulted from partially completed road and bridge construction and repair projects which are reported within construction in progress.

As allowed by Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments, the State has adopted an alternative process for recording depreciation expense on selected infrastructure assets. Under this alternative method, referred to as the modified approach, the State expenses certain maintenance and preservation costs and does not report depreciation expense. Assets accounted for under the modified approach include the State’s network of public transportation roads and bridges, including ancillary assets, such as guard rails, signs, lighting, culverts, fencing, and the like. The State is responsible for maintaining approximately 29,711 lane miles of roads and 4,837 bridges (spans in excess of 20 feet).

The State has maintained the assessed condition of roads over the past five years. The State’s goal is to have more than 70.0 percent of roads in fair to excellent condition. The most recent condition assessment, completed for calendar year 2018, indicated that 73.0 percent of roads were considered fair or better.

The State’s bridges have assessed conditions that are better than the established benchmarks. The most recent assessment (2019) indicated that the condition of the bridges were the same as the prior year. For fiscal year 2019, 93.7 percent of the bridges were assessed as structurally fair or better.

The Legislature passed capital outlay appropriations of \$315.8 million for fiscal year 2019. More detailed information about the State’s capital assets is presented in Note 9 to the financial statements.

Michigan

Long-term Debt: The State, along with the State Building Authority (SBA), a blended component unit of the State, are empowered by law to authorize, issue, and sell debt obligations. General obligation bonds, issued by the State, are backed by the full faith and credit of the State. The State also issues revenue dedicated bonded debt, whose payment for principal and interest comes solely out of funds that receive legally restricted revenues. The State is not legally obligated for the debt issued by SBA. SBA's bonds generate revenue to finance the construction of facilities used by the State and universities. Revenues derived from leases on the facilities fund the debt service requirements. More detailed information regarding the State's long-term obligations is presented in Notes 13 and 15 to the financial statements.

	Outstanding Bonded Debt as of September 30 (In Millions)					
	Governmental Activities		Business-type Activities		Total Primary Government	
	2019	2018	2019	2018	2019	2018
General obligation bonds (backed by the State)	\$ 1,358.4	\$ 1,531.0	\$ -	\$ -	\$ 1,358.4	\$ 1,531.0
Revenue bonds and notes (backed by specific tax and fee revenue)	4,033.6	4,241.6	-	-	4,033.6	4,241.6
Total	<u>\$ 5,391.9</u>	<u>\$ 5,772.6</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 5,391.9</u>	<u>\$ 5,772.6</u>

During the year, the State issued bonds and bond anticipation notes totaling \$67.5 million and refunding bonds totaling \$168.1 million. The proceeds from the new bonds will provide funding for university-owned buildings.

BOND RATINGS

The State's general obligations are rated AA stable outlook by Fitch, AA stable outlook by Standard & Poor's, and Aa1 stable outlook by Moody's.

Limitations on Debt

The State Constitution authorizes general obligation long-term borrowing, with approval of the Legislature and a majority of the voters, and general obligation short-term notes, of which the principal may not exceed 15.0 percent of undedicated revenues received in the preceding year. In fiscal year 2019, the State did not issue any general obligation short-term notes.

ECONOMIC CONDITIONS

As measured by real gross domestic product (GDP), the U.S. economy has grown each calendar year beginning with 2010. (All years cited in this section refer to calendar years.) After slowing from 2.9 percent real GDP growth in 2015 to 1.6 percent growth in 2016, real GDP growth accelerated to 2.4 percent in 2017 and 2.9 percent in 2018. Real GDP has slowed in 2019. Through the first three quarters of 2019, average real GDP is up 2.3 percent compared to the first three quarters of 2018.

U.S. employment has increased each year since 2011. Over these eight years (2011-2018), U.S. employment rose by 18.7 million jobs with employment rising to new annual record highs in each of the past five years. Through the first nine months of 2019, average U.S. employment is up 1.6 percent compared to 2018. The U.S. unemployment rate has fallen each year since 2011 with the rate dropping from 9.6 percent in 2010 to 3.9 percent in 2018. Through the first nine months of 2019, the national unemployment rate has averaged 3.7 percent.

The light vehicle sector, which remains a key component of the Michigan economy, recovered markedly from a 27-year low of 10.4 million units in 2009. Light vehicle sales rose each year from 2010 to 2016. In 2016, light vehicle sales rose to a new record high of 17.5 million units. Light vehicle sales declined in 2017 but remained above 17.0 million units. In 2018, light vehicle sales rose slightly. Through September 2019, annualized light vehicle sales were down slightly from 2018.

The U.S. housing market has improved significantly after collapsing during the Great Recession. Housing starts increased each year from 2010 to 2018 – rising from 554,000 units in 2009 to 1.3 million in 2018. Through the first nine months of 2019, annualized starts have averaged 1.3 million units – matching the 2018 annual total. Starts remain below their pre-Great Recession annual average of 1.5 million units.

Michigan payroll employment grew each year between 2011 and 2018 with annual growth rates ranging from a high of 2.3 percent in 2011 to a low of 1.1 percent in both 2017 and 2018. Over the eight-year period, annual State employment rose by 555,000 jobs to a 16-year high. However, 2018 Michigan annual employment remained 5.5 percent below the State's record high annual employment level recorded in 2000. In August 2019, Michigan employment rose to its highest monthly employment level in over 16 years before declining slightly in September. Through September 2019, average Michigan employment was up 0.7 percent from a year ago.

In 2018, Michigan's unemployment rate fell for the ninth straight year and averaged 4.1 percent – an 18-year low and 9.6 percentage points lower than the State's Great Recession peak rate of 13.7 percent. Through the first nine months of 2019, the Michigan unemployment rate has averaged 4.1 percent.

In 2018, Michigan personal income and Michigan real GDP both increased for the ninth straight year. Over the last nine years, Michigan personal income rose 43.6 percent – ranking 22nd among U.S. states. Still more, in the past nine years, Michigan personal income per person increased 42.3 percent – placing seventh among U.S. states. Similarly, over the past nine years, Michigan real GDP rose 23.8 percent – the 11th largest increase among U.S. states.

In 2018, Michigan personal income rose 4.9 percent, up from 3.4 percent growth in 2017. Nationally personal income increased 5.6 percent in 2018, up from 4.7 percent growth in 2017. Michigan real GDP increased 2.5 percent in 2018, up from 1.5 percent growth in 2017. In the first two quarters of 2019, Michigan personal income was up 3.7 percent compared with 4.8 percent national growth. Through the first two quarters of 2019, Michigan real GDP was up 0.6 percent from a year prior.

CONTACTING THE STATE'S OFFICE OF FINANCIAL MANAGEMENT

This financial report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the State's finances and to demonstrate the State's accountability for the money it receives. Additional financial information can be obtained elsewhere on the Office of Financial Management website. You can also contact the office by phone at (517) 241-4010.

The State's component units prepare their own separately issued audited financial statements. These statements may be obtained by directly contacting the component unit. To obtain their phone numbers, you may contact the Office of Financial Management at (517) 241-4010.

GOVERNMENTAL FUND FINANCIAL STATEMENTS

Major Funds

GENERAL FUND

This fund is the State's operating fund. It accounts for the financial resources and transactions not accounted for in other funds.

SCHOOL AID FUND

An amendment to the 1908 State Constitution created this fund in 1955. The 1963 State Constitution provided for the fund's continued existence. Its purpose is to aid in the support of the public schools, intermediate school districts, higher education and school employees' retirement systems of the State. School aid payments to school districts are based on a statutory formula. Michigan Compiled Laws Section 388.1611a, effective October 1, 2003, created the School Aid Stabilization Fund as a separate account within the School Aid Fund.

The fund receives State revenues restricted to local school programs, including: the constitutionally dedicated 60 percent of the collections of sales tax imposed at a rate of 4 percent and all of the collections of sales tax imposed at the additional rate of 2 percent; State Lottery Fund earnings; a percentage of the adjusted gross receipts from casino gaming; the real estate transfer tax; and portions of the personal income, cigarette, liquor, and industrial and commercial facilities taxes. A constitutional amendment approved by voters in 1994 made structural changes in the method of financing local school districts. The amendment authorized the levy of a statewide property tax, which is deposited in the School Aid Fund. General Fund allocations to the School Aid Fund that are not expended by the end of the state fiscal year are also transferred to the School Aid Stabilization Fund.

Non-Major Funds

Non-major governmental funds are presented, by fund type, beginning on page 178.

Total fund balances for governmental funds		\$ 7,830,442
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. (Note 9)		
Land and other non-depreciable assets	3,734,334	
Buildings, equipment, and other depreciable assets	5,131,187	
Infrastructure	15,554,871	
Construction in progress	1,927,533	
Interest in joint ventures	34,683	
Accumulated depreciation	<u>(2,866,189)</u>	23,516,420
Certain tax revenues are earned but not available and therefore are reported as deferred inflows of resources in the funds.		
		2,930,576
Other long-term assets are not available to pay for current period expenditures and therefore are reported as deferred inflows of resources in the funds.		
		284,898
Amounts due to component units for long-term loans.		
		(197,341)
Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Position.		
		(424,047)
Pension related assets are not available in the current period and therefore are not reported in the funds.		
		8,073
Deferred outflows of resources not reported in the funds:		
Refunding of debt		17,537
Pension related		847,276
OPEB related		1,460,549
Debt issuance costs are reported as current expenditures in the funds. However, certain debt issuance costs are amortized over the life of the bonds and are included in the governmental activities in the Statement of Net Position.		
		75
Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds. (Note 15)		
Capital lease and financed purchase obligations	(413,553)	
Compensated absences	(341,191)	
Workers' compensation	(46,769)	
Net pension liability	(6,473,777)	
Net OPEB liability	(9,280,988)	
Pollution remediation	(199,654)	
Other long-term liabilities	<u>(593,704)</u>	(17,349,635)
Long-term bonded debt is not due and payable in the current period and therefore is not reported in the funds. Unamortized premiums, unamortized discounts, and accrued interest payable are not reported in the funds. However, these amounts are included in the Statement of Net Position. This is the net effect of these balances on the statement. (Note 13)		
Bonds and notes payable	(5,391,928)	
Unamortized premiums	(466,190)	
Unamortized discounts	3,494	
Accrued interest payable	<u>(91,398)</u>	(5,946,022)
Deferred inflows of resources not reported in the funds:		
Refunding of debt		(8,771)
Pension related		(562,790)
OPEB related		<u>(1,161,228)</u>
Net position of governmental activities		<u>\$ 11,246,012</u>

Michigan

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES
IN FUND BALANCES - GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**

FISCAL YEAR ENDED SEPTEMBER 30, 2019

(In Thousands)

Net change in fund balance - total governmental funds \$ 309,965

Governmental funds report capital outlay as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period. (Note 9)

Land and other non-depreciable assets	23,851	
Buildings, equipment, and other depreciable assets	45,996	
Infrastructure	(197,115)	
Construction in progress	631,286	
Disposal of capital assets	(9,396)	
Depreciation expense	<u>(181,871)</u>	312,751

Change in deferred inflows of resources from the prior year. Revenues recognized in the Statement of Activities are reported as deferred inflows of resources in the funds when they are not yet available. These amounts are related to:

Tax revenues	615,869	
Other revenues	<u>(5,154)</u>	610,715

Increase (decrease) in equity interest in joint ventures. (Note 7) (3,117)

Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The net revenue (expense) of the internal service funds is reported with governmental activities. (30,689)

Bond proceeds provide current financial resources to governmental funds by issuing debt which increases long-term bonded debt in the Statement of Net Position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term bonded debt in the Statement of Net Position. This is the amount repayments exceed proceeds. (Note 13)

Bond proceeds and premiums received	(264,691)	
Repayment of bond principal	432,071	
Payment to refunded bond escrow agent	185,167	
Accrued interest and amortization	<u>46,377</u>	398,924

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in the funds. Some expenditures reported in the funds either increase or decrease long-term obligations reported in the Statement of Net Position.

In the current year, these amounts related to:

Pension costs, net	(1,049,686)	
OPEB costs, net	188,274	
Advances from component units	430,636	
Capital leases and financed purchases	21,080	
Compensated absences payments	32,796	
Litigation recoveries, settlements and payments	(228,519)	
Pollution remediation obligations	(6,931)	
Workers' compensation	2,788	
Other	<u>(3,961)</u>	<u>(613,523)</u>

Change in net position of governmental activities \$ 985,026

The accompanying notes are an integral part of the financial statements.

PROPRIETARY FUND FINANCIAL STATEMENTS

Major Funds

STATE LOTTERY FUND

Michigan Compiled Laws (MCL) Section 432.41 established the State Lottery Fund and MCL Section 432.5 created a Bureau of State Lottery under authority of Article 5, Section 4, of the State Constitution. This authority expired on August 1, 1974, at which time the Bureau became an organizational entity in the Department of Technology, Management and Budget. The Bureau was transferred to the Department of Treasury during fiscal year 1991. Net income of the fund related to lottery operations is transferred to the School Aid Fund and the fund's net income related to bingo and charity games regulation is transferred to the General Fund. The remaining net position balance represents the unrealized cumulative gain or loss on investments held to fund future Lottery prizes that are annuities, the change in net other postemployment benefits (OPEB) liability, capital assets (leasehold improvements and equipment less capital lease obligations), and the change in net pension liability and deferred inflows and outflows related to pensions and OPEB. These are required by Governmental Accounting Standards Board (GASB) Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, and GASB Statement No. 68, Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27.

In general, revenues and related expenses are recognized in the period during which the related drawings are held. Because draw games may be played on an advance wager basis, an associated liability is recognized for all wagers received for drawings to be conducted after the end of the reporting period. Deferred prize awards are recorded as expenses and liabilities at their discounted present value. The State Treasurer invests funds equivalent to the discounted value of the installment payments and the Lottery Fund is credited with the interest earnings.

MICHIGAN UNEMPLOYMENT COMPENSATION FUNDS

The columns for the Michigan Unemployment Compensation Funds reflect the activity of two funds administered by the Unemployment Insurance Agency: the Michigan Unemployment Compensation Fund and the Michigan Employment Security Act Contingent Fund. The Michigan Unemployment Compensation Fund receives contributions from employers and provides for the payment of benefits to eligible unemployed workers. The fund also makes payments under certain federally funded programs. Administrative costs of the fund are accounted for in the Michigan Employment Security Act - Administration Fund, a special revenue fund. Executive Order 2014-12, established the Department of Talent and Economic Development (TED) and transferred the Unemployment Insurance Agency from the Department of Licensing and Regulatory Affairs to TED.

The Michigan Employment Security Act Contingent Fund was created by Michigan Compiled Laws (MCL) Section 421.10 to receive a special temporary unemployment tax surcharge, known as the solvency tax. The fund also receives interest and penalty charges on unemployment insurance benefit overpayments and late contributions. MCL Section 421.10 restricts use of solvency taxes for payment of interest on the Michigan Unemployment Compensation borrowings from the federal government.

Non-Major Funds

Individual fund statements for the Enterprise Funds, whose combined totals are presented on this statement, begin on page 238.

Individual fund statements for the Internal Service Funds, whose combined totals are presented on this statement, begin on page 242.

COMPONENT UNIT FINANCIAL STATEMENTS

Major Component Units

MICHIGAN FINANCE AUTHORITY

Executive Order 2010-2 created the Michigan Finance Authority (MFA) to consolidate 10 different public finance authorities. In addition, the authorization to finance the facilities of public and private schools, formerly under the Michigan Strategic Fund, and to issue bonds and notes on behalf of the Land Bank Fast Track Authority was transferred to MFA. A seven-member Board of Directors, consisting of the State Treasurer and six appointees of the Governor with advice and consent of the State Senate, governs MFA.

MFA provides sources of funding for loans to governmental units, school districts, nonpublic nonprofit institutions of higher education, and healthcare corporations and facilities. MFA assists governmental units in financing and marketing municipal debt and tax-exempt bonds. MFA also enhances Michigan's student loan efforts by overseeing the collection of federal and state issued loans as well as through the administration of the Michigan Guaranty Agency. MFA may not create debt or liabilities on behalf of the State or pledge the full faith and credit of the State.

MICHIGAN STATE HOUSING DEVELOPMENT AUTHORITY

Michigan Compiled Laws Section 125.1421 created the Michigan State Housing Development Authority (MSHDA) to issue notes and bonds to finance housing for sale or rental to families with low or moderate incomes and to finance home improvements. MSHDA is also the administrator of various "Section 8" housing programs in Michigan for the U.S. Department of Housing and Urban Development. The Governor appoints MSHDA's board members.

MICHIGAN STRATEGIC FUND

The Michigan Strategic Fund (MSF) is a public body corporate and politic created by Section 5 of the Michigan Strategic Fund Act, Michigan Compiled Laws Section 125.2005 to help diversify the economy of the State and to provide for economic development, through the administration of financial support for business development, community development, and state marketing activities, including the promotion of tourism and arts and cultural affairs.

MSF is governed by a board of 11 members, including the State Treasurer or her designee from within the Department of Treasury, the Chief Executive Officer of the Michigan Economic Development Corporation, a person in the position of Vice President or higher at either the MEDC or the Department of Talent and Economic Development, appointed by the Governor, and eight residents of the State appointed by the Governor.

CENTRAL MICHIGAN UNIVERSITY, EASTERN MICHIGAN UNIVERSITY, AND WESTERN MICHIGAN UNIVERSITY

Of the 10 universities included in this report, Central Michigan University, Eastern Michigan University, and Western Michigan University are reported as major component units. The universities are legally separate entities whose governing boards are appointed by the Governor and for which the State is therefore defined as legally accountable. Excluded from this report are three other universities (University of Michigan, Michigan State University, and Wayne State University) whose board members are elected by the voters and, therefore, considered separate special purpose governments.

Non-Major Component Units

The non-major component unit - authorities are presented beginning on page 268.

The non-major component unit - State universities are presented beginning on page 274.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of the State conform in all material respects to generally accepted accounting principles (GAAP) as applicable to governments. The Governmental Accounting Standards Board (GASB) is the standard setting body for establishing governmental accounting and financial reporting principles, which are primarily set forth in the GASB's Codification of Governmental Accounting and Financial Reporting Standards. Following is a summary of the significant policies:

Reporting Entity

Michigan was admitted to the Union as the twenty-sixth state in 1837. The State of Michigan is governed under the Constitution of 1963, as amended. The legislative power is vested in a 38-member senate and a 110-member house of representatives; executive power is vested in a governor; and the judicial power is vested exclusively in one court of justice.

For financial reporting purposes, the State of Michigan's reporting entity includes the "primary government" and its "component units." The primary government includes all funds, departments and agencies, bureaus, boards, commissions, and those authorities that are considered an integral part of the primary government. Component units are legally separate governmental organizations for which the State's elected officials are financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Financial accountability is defined in GASB Statement No. 14, The Financial Reporting Entity, as amended by GASB Statement No. 61. The State is financially accountable for those entities in which the State appoints a voting majority of an organization's governing authority, and either is able to impose its will upon the entity or there exists a financial benefit or burden relationship with the State. For those entities in which the State does not appoint a voting majority of the governing authority, GASB standards require inclusion in the reporting entity if they are fiscally dependent on the State and there exists a financial benefit or burden relationship with the State.

GASB Statement No. 39, Determining Whether Certain Organizations Are Component Units, an amendment of GASB Statement No. 14, establishes criteria for legally separate, tax-exempt entities that should be reported as component units if all of the criteria are met. Although the State has not identified any organizations that would qualify as direct component units of the State by meeting all of the criteria of GASB Statement No. 39, most of the university component units described later in this note have significant foundations that meet the criteria of GASB Statement No. 39.

Blended Component Units

The State Building Authority (SBA) is a legally separate organization that has a board appointed by the primary government and provides services primarily to benefit the State. Therefore, SBA is reported as though it was part of the primary government, using the blending method.

Discretely Presented Component Units

These types of component units are reported in separate columns or rows in the government-wide financial statements to emphasize that they are legally separate from the government.

The State has the ability to appoint a voting majority of each governing board and is able to impose its will upon these discretely presented component units:

The Michigan Finance Authority provides sources of funding for loans to governmental units, school districts, and nonpublic nonprofit institutions of higher education, healthcare corporations and facilities. The Authority also makes loans and acquires loans made to students and their parents.

The Michigan State Housing Development Authority (MSHDA) finances loans for the construction of single and multi-family housing and home improvement projects.

The Farm Produce Insurance Authority provides reimbursements to participating producers for losses suffered in the event of a grain dealer's financial failure.

The Land Bank Fast Track Authority receives tax reverted properties, undertakes expedited action to clear their titles, and then ensures the properties' redevelopment.

The Mackinac Bridge Authority accounts for the operation of the Mackinac Bridge.

The Mackinac Island State Park Commission operates the Mackinac Island and Michilimackinac State Parks.

The Michigan Early Childhood Investment Corporation participates with intermediate school districts to establish standards and guidelines for early childhood development activities.

Michigan
Notes to the Financial Statements

The Michigan Education Trust offers contracts, which, for actuarially determined amounts, provide plan participants with future tuition at institutions of higher education.

The State has the ability to appoint a voting majority of each governing board and there is a financial burden/benefit relationship between these entities and the State:

The Michigan Strategic Fund provides business enterprises with additional sources of financing.

The Michigan Economic Development Corporation manages programs to stimulate, coordinate, and advance economic development in the State.

The Venture Michigan Fund is a nonprofit corporation that raises capital and invests that capital in venture capital firms with the intent of benefiting Michigan's seed or early stage businesses in order to promote the economic health of the State of Michigan.

The following entity's relationship with the State would be misleading if it were omitted from the State's reporting entity:

The State Bar of Michigan is a public body corporation whose membership consists of persons licensed to practice law.

Ten of the State's public universities are considered component units because they have boards appointed by the primary government and there is a financial burden/benefit relationship with the State. Their balances and operating results are included with the other discretely presented component units on the government-wide financial statements. The 10 universities included in these statements are: Central Michigan University, Eastern Michigan University, Ferris State University, Grand Valley State University, Lake Superior State University, Michigan Technological University, Northern Michigan University, Oakland University, Saginaw Valley State University, and Western Michigan University. Michigan State University, the University of Michigan, and Wayne State University are not included in the State's reporting entity because they have separately elected governing boards and are legally separate. The State provides significant funding to support these institutions; however, under GASB criteria, they are considered fiscally independent, special-purpose governments.

Included in the balances and operating results for most of the university component units is financial activity for fund-raising foundations that contribute to these universities. Although the universities do not control the timing or amount of receipts from their foundations, the majority of resources or income thereon that the foundations hold and invest are restricted to the activities of the respective universities by the donors. Because these restricted resources held by the foundations can only be used by, or for the benefit of, the specific universities, the foundations are considered component units of the universities and are included in the universities' financial statements.

Significant Transactions

The State had significant transactions with its major discretely presented component units. The significant transactions consist of appropriations to public universities, including \$112.5 million to Western Michigan University, \$96.6 million to Central Michigan University and \$107.5 million to Eastern Michigan University. The financial statements also reflect a \$1.3 billion liability related to loans to school districts that have been assigned to Michigan Finance Authority (MFA) and a \$84.5 million liability related to amounts owed to MFA from the transfer of bond proceeds to the State that were used to repay federal advances to the State's unemployment trust account. The bonds were secured by an unemployment obligation assessment, which is collected by the State from employers and transferred to MFA to be used for debt service.

Availability of Financial Statements

The State's component units prepare their own separately issued audited financial statements. These statements may be obtained by directly contacting the various component units. To obtain their phone numbers, you may contact the State Budget Office, Office of Financial Management at (517) 241-4010.

Related Organizations

The State's Insurance Commissioner is responsible for appointing the members of the boards of the Michigan Catastrophic Claims Association and the Michigan Property and Casualty Guaranty Association, but the State's accountability for these organizations does not extend beyond making the appointments.

The State's Governor is responsible for appointing the members of the board of the Michigan Health Endowment Fund, but the State's accountability does not extend beyond making the appointments.

The State's Governor is responsible for appointing members of the council of the Local Community Stabilization Authority, but the State's accountability does not extend beyond making the appointments.

Joint Ventures

As discussed in more detail in Note 7, the State participates in two joint ventures. Their financial activities are not included in the State's fund financial statements, but the State's equity interest is recorded as an asset in the Statement of Net Position.

Jointly Governed Organizations

The State, the University of Michigan, Michigan State University, and Wayne State University appoint members of the board of the Michigan Public Health Institute (MPHI), a nonprofit corporation. MPHI was established to plan, promote, and coordinate health services research with a public university or a consortium of public universities in the State. The State does not appoint a majority of the board, has no rights to the assets, and is not responsible for debts of MPHI. Therefore, the State's accountability for MPHI does not extend beyond making the appointments. During fiscal year 2019, the State awarded contracts totaling \$105.4 million to MPHI.

The City of Detroit, Charter County of Wayne, and the Department of Health and Human Services of the State of Michigan appoint members of the board of Authority Health, a public agency. Authority Health was established to plan, promote, and coordinate health services for at-risk population in the City of Detroit and Wayne County. The State does not appoint a majority of the board, has no right to the assets, and is not responsible for debts of Authority Health; therefore, the State's accountability for Authority Health does not extend beyond making the appointments. During fiscal year 2019, the State awarded contracts totaling \$1.2 million to Authority Health.

Government-Wide and Fund Financial Statements

Government-Wide Financial Statements

The Statement of Net Position and Statement of Activities report information on all non-fiduciary activities of the primary government and its component units. Primary government activities are distinguished between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The **Statement of Net Position** presents the reporting entity's non-fiduciary assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. Net position is reported in three categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net position results when constraints placed on the use of net position are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position consists of net position that does not meet the definition of the two preceding categories. Unrestricted net position often has constraints on resources that are imposed by management, but can be removed or modified.

The **Statement of Activities** demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are instead reported as general revenue.

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements, with non-major funds being combined into a single column.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary fund financial statements except for agency funds which have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as they become *susceptible to accrual*; generally when they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period, generally within 60 days. Significant revenues susceptible to accrual include tax revenues and federal grants. Revenues that the State earns by incurring obligations are recognized in the period when all applicable eligibility requirements have been met.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to debt service, compensated absences, and claims and judgments are recorded only when payment is due and payable.

Financial Statement Presentation

The State reports the following major governmental funds:

The General Fund is the State's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.

The School Aid Fund's purpose is to aid in the support of the public schools, intermediate school districts, higher education and school employees' retirement systems of the State. The fund receives state revenues restricted to local school programs, including the State Education (property) Tax, portions of the sales and personal income taxes, State Lottery Fund earnings, and a percentage of the adjusted gross receipts from casino gaming. The fund also receives General Fund allocations that are not expended by the end of the State fiscal year.

The State reports the following major enterprise funds:

The State Lottery Fund accounts for the operations of the State's lottery, bingo, and charitable game operations.

The Michigan Unemployment Compensation Funds receive contributions from employers and provide benefits to eligible unemployed workers.

Additionally, the State reports the following fund types:

Governmental Fund Types:

Special Revenue Funds – account for specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Debt Service Funds – account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Capital Projects Funds – account for resources used for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude capital-related outflows financed by proprietary or trust funds.

Permanent Funds – report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that benefit the government or its citizenry.

Proprietary Fund Types:

Enterprise Funds – report the activities for which fees are charged to external users for goods or services, such as the State's liquor sales. This fund type is also used when the activity is financed with debt that is secured by a pledge of the net revenues from the fees.

Internal Service Funds – provide goods or services primarily to other agencies or funds of the State, rather than to the general public. These goods and services include prisoner-built office furnishings; motor pool services; printing, reproduction and mailing services; information technology; risk management; and health-related fringe benefits. In the government-wide financial statements, internal service funds are included with governmental activities.

Fiduciary Fund Types:

Pension (and Other Employee Benefit) Trust Funds – report resources that are required to be held in trust for the members and beneficiaries of the State's defined benefit pension plans, defined contribution plans, and other postemployment benefit plans.

Private Purpose Trust Funds – report resources of all other trust arrangements in which principal and income benefit individuals, private organizations, or other governments. Examples include the State's Escheats fund, gifts to the State, and others.

Agency Funds – report assets and liabilities for deposits and investments entrusted to the State as an agent for others.

Fiscal Year-Ends

All funds and discretely presented component units are reported using fiscal years which end on September 30, except for MSHDA and the 10 state universities, which utilize June 30 year-ends, and the Farm Produce Insurance Authority and the Venture Michigan Fund, which have December 31 year-ends.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance

Cash and Cash Equivalents

On the Statement of Cash Flows, the amount reported as "Cash and cash equivalents" is equal to the total of the amounts reported on the Statement of Net Position as "Cash," "Cash on deposit with fiscal agent," and "Equity in common cash."

Cash

Cash reported on the Statement of Net Position and the Balance Sheet consists of petty cash, undeposited receipts, deposits in transit to the Common Cash pool, and cash equivalents such as short-term investments with original maturities of less than three months that are used for cash management, rather than investing activities.

Equity in Common Cash

The State Treasurer maintains centralized management of most state cash resources (not including component units). From the perspective of the various state funds, the pool functions as both a cash management pool and a demand deposit account. The operations and investments of the Common Cash pool are described in Note 5.

Taxes Receivable

Taxes receivable represent amounts due to the State at September 30, which will be collected sometime in the future. In the government-wide financial statements, a corresponding amount is recorded as revenue. In the governmental fund financial statements, the portion considered "available" (i.e., received by the State within approximately 60 days after year-end) is recorded as revenue; the remainder is recorded as deferred inflows of resources. Application of the measurability and availability criteria regarding taxes is described in Note 6.

Amounts Due From Federal Agencies

For most federally funded programs, revenue is accrued in the same period as related obligations are recorded. In certain programs financed entirely by the federal government, expenditures and related revenues are recognized only to the extent of billings received by fiscal year-end. This treatment, which is generally limited to certain programs within the Department of Education, understates both assets and liabilities, and expenditures and revenues; however, there is no impact on net position or fund balance.

Inventories

Inventories are valued at cost, primarily using the first-in, first-out flow method. Expenditures (governmental funds) and expenses (proprietary funds) are recognized using the consumption method (i.e., when used or sold).

Investments

Generally, investments are reported at fair value, consistent with the provisions of GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools and GASB Statement No. 72, Fair Value Measurement and Application. Short-term, highly liquid debt instruments including commercial paper, banker's acceptances, and U.S. Treasury obligations are reported at amortized cost. Additional disclosures describing investments are provided in Note 8.

Security Lending Collateral

Securities on loan for cash collateral are reported in the Statement of Net Position. Liabilities resulting from the security lending transactions are also reported. Additional disclosures describing security lending transactions are provided in Note 8.

Other Assets

Other assets include receivables, amounts held in escrow, and other types of assets not reported on other lines.

Mortgages and Loans Receivable

Mortgages and loans receivable are reported net of unamortized premiums, discounts, and allowances for possible losses.

Capital Assets

Capital assets, which include land, buildings, equipment, intangibles, and infrastructure assets (e.g., roads, bridges, ramps, and similar items), are reported in the government-wide financial statements and applicable fund financial statements. Capital assets that are used for governmental activities are only reported in the government-wide financial statements. Capital assets are reported at historical cost or, if donated, at acquisition value. In some instances, capital asset historical costs were not available; therefore, the costs of these assets at the dates of acquisitions have been estimated.

Interest incurred during construction is only capitalized in proprietary funds. Most capital assets are depreciated over their useful lives, using the straight-line depreciation method. However, the State's significant infrastructure assets utilize an alternative accounting treatment in which costs to maintain and preserve these assets are expensed and no depreciation expense is recorded. This approach is discussed further in the Required Supplementary Information portion of this report.

Additional disclosures related to capital assets and assets acquired through capital leases are provided in Notes 9 and 12, respectively.

Deferred Outflows of Resources

Deferred outflows of resources are defined as a consumption of net assets by the government that is applicable to a future reporting period; they increase net position, similar to assets. Note 28 provides further detail on the components of deferred outflows of resources.

Income Tax Refunds Payable

The amount of collected or accrued personal income tax revenues that will be refunded is estimated and accrued as a General Fund liability. Note 16 more fully describes this liability.

Prize Awards Payable

The State Lottery Fund makes long-term prize awards for certain games, most notable the lotto games. At September 30, 2019, long-term prize awards of \$212.9 million were reported at a present value of \$149.8 million, using discount rates ranging from 2.3 to 6.5 percent.

Non-installment prize awards and the portion of long-term awards payable during the next fiscal year, totaling \$200.5 million, are included with "Accounts payable and other liabilities" on the Statement of Net Position.

Unearned Revenue

Unearned revenue is recognized when cash, receivables, or other assets are received prior to their being earned.

Long-Term Liabilities

In the government-wide financial statements and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds, are reported as debt service expenditures.

Long-term liabilities are more fully described in Notes 13, 14, and 15.

Compensated Absences

In the government-wide financial statements and proprietary fund financial statements, compensated absences are reported as liabilities as required by GASB.

Employees accumulate annual leave (vacation) balances to maximum amounts ranging from 296 to 356 hours. The maximum accumulation that may be paid off is 40 hours less than the total hours that may be accumulated. Employees receive a 100 percent termination payment upon separation based upon their final rate of pay. The liability for annual leave is recorded at the maximum accumulation amounts in accordance with GAAP, as it is probable that the State will compensate employees through paid time off, for the hours earned in excess of the total that may be paid off. The liability for annual leave is valued at 100 percent of the balance plus the State's share of social security and retirement contributions.

Employee sick leave balances accumulate without limit. Termination payments are made only upon separation from State service and only to employees hired prior to October 1, 1980. Payments at retirement or death are based on 50.0 percent of the employee's sick leave accumulation, times their last rate of pay. When separating for any other reason, employees are paid a percentage of their unused sick leave that increases from 0.0 to 50.0 percent, depending upon the balance of their sick leave hours. Sick leave is valued at 0.0 to 50.0 percent plus the State's share of social security contributions, based on the pay rates in effect as of September 30, 2019.

The State instituted a banked leave time program in fiscal year 2004 whereby eligible employees work a regular schedule but receive pay for a reduced number of hours. The banked leave time program was utilized in fiscal years 2005, 2006, and 2010.

The unpaid hours worked accrue to a banked leave time account. Upon an employee's separation, death, or retirement from State service, unused banked leave time hours shall be contributed by the State to the employee's account within the State of Michigan 401K Plans, and if applicable, to the State of Michigan 457 Plans. The banked leave liability is valued at the pay rates in effect as of September 30, 2019.

In the governmental fund financial statements, liabilities for compensated absences are accrued when they are considered "due and payable" and recorded in the fund only for separations or transfers that occur before year-end.

Deferred Inflows of Resources

Deferred inflows of resources are defined as an acquisition of net assets by the government that is applicable to a future period; they decrease net position, similar to liabilities. Note 28 provides further detail on the components of deferred inflows of resources.

Net Position/Fund Balance

The net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources is "Net Position" on the government-wide, proprietary, and fiduciary fund financial statements, and "Fund Balance" on governmental fund financial statements.

Fund Balance Classifications

In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the State is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Nonspendable fund balance includes amounts that cannot be spent because they are either not in spendable form, such as inventories, prepaids, and long-term receivables, or legally or contractually required to be maintained intact.

Restricted fund balance includes amounts that are restricted when constraints placed on the use of the resources are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.

Committed fund balance includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the State Legislature through legislation passed into law.

Assigned fund balance includes amounts that are constrained by the State's intent to be used for specific purposes, but are neither restricted nor committed. Assignments of fund balance are created by the executive branch when criteria established by the State Budget Office are met. In governmental funds other than the General Fund, assigned fund balance also represents the remaining amount that is not restricted or committed.

Unassigned fund balance is the residual classification for the General Fund and represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. Unassigned fund balance also includes negative residual balances in other funds.

The State's policy is that restricted amounts are spent first when an expenditure is incurred for purposes for which both restricted or unrestricted (committed, assigned, or unassigned) resources are available. When expenditures are incurred for which only unrestricted resources are available, the intent is to use committed resources first, then assigned. Unassigned amounts are generally used only after the other resources have been used.

Revenues and Expenditures/Expenses

Government-Wide Financial Statements

In the government-wide Statement of Activities, revenues and expenses are segregated by activity (governmental or business-type), then further by function (e.g., general government, education, transportation, etc.). Additionally, revenues are classified between program and general revenues. Program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues, rather than as program revenue. General revenues include all taxes. Certain indirect costs are included in the program expenses reported for individual functions.

Interest on Long-Term Debt

Interest charges on the State's general long-term liabilities do not qualify as a direct expense of a function and are reported on this line unless the borrowing is essential to the creation or continuing existence of a program. During fiscal year 2019, interest charges on general long-term liabilities totaling \$29.9 million were reported as functional expenses.

Fund Financial Statements

In the governmental fund financial statements, revenues are reported by sources. For budgetary control purposes, revenues are further classified as either "general purpose" or "restricted." General purpose revenues are available to fund any activity accounted for in the fund. Restricted revenues are, either by state law or by outside restriction (e.g., federal grants), available only for specified purposes. When both general purpose and restricted funds are available for use, it is the State's policy to use restricted resources first.

In the governmental fund financial statements, expenditures are reported by character: "Current," "Capital outlay," "Intergovernmental-revenue sharing," or "Debt service." Current expenditures are subclassified by function and are for items such as salaries, grants, supplies, and services. Tax expenditures, which represent income tax credit programs that are in substance grants, are also reported as current expenditures. These are described in more detail in Note 16.

Capital outlay includes expenditures for capital assets. Intergovernmental-revenue sharing accounts for the distribution of certain tax revenues that are shared with local units based upon constitutional and statutory requirements. Debt service includes both interest and principal outlays related to bonds and payments on capitalized leases.

Revenues and expenses of proprietary funds are classified as operating or nonoperating and are subclassified by object (i.e., salaries, depreciation, and purchases for resale). Operating revenues and expenses generally result from providing services and producing and delivering goods. All other revenues and expenses are reported as nonoperating.

Other Financing Sources

These additions to governmental fund balances in the fund financial statements include resources and financing provided by bond proceeds, capital leases, financed purchases, and transfers.

Reimbursements

Reimbursements result when a fund originally making a disbursement receives resources from another fund to which the expenditure/expense is more properly attributable. For example, the State uses this method when the administrative costs of proprietary funds, discretely presented component units, or pension (and other employee benefit) trust funds are appropriated in the General Fund.

Interfund Services Provided and Used

When a sale or purchase of program-related goods and/or services between funds occurs for a price approximating their external exchange value, the seller reports revenue and the purchaser expenditure or expense, depending upon the fund type.

Transactions between the primary government and a discretely presented component unit are generally classified as revenues and expenses unless they represent repayments of loans or similar activities.

Other Financing Uses

These reductions of governmental fund resources in fund financial statements normally result from transfers to other funds.

Interfund Activity and Balances

Interfund Activity

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this rule are 1) activities between funds reported as governmental activities and funds reported as business-type activities (examples include the transfers of profits from the Liquor Purchase Revolving Fund to the General Fund and the State Lottery Fund to the School Aid Fund) and 2) activities between funds that are reported in different functional categories in either the governmental or business-type activities column (examples include activities between the Department of Treasury [general government line] and the Department of Education [education line]). Elimination of these activities would distort the direct costs and program revenues for the functions concerned.

In the fund financial statements, transfers represent flows of assets (such as goods or cash) without equivalent flows of assets in return or a requirement for repayment. In addition, transfers are recorded when a fund receiving revenue provides it to the fund which expends the resources. An example is gas taxes collected by the Department of Transportation but expended by the Department of Natural Resources.

Interfund Balances

Interfund receivables and payables have been eliminated from the Statement of Net Position, except for the residual amounts due between governmental and business-type activities.

NOTE 2 – FUNDS AND COMPONENT UNITS BY CLASSIFICATION

The following table lists all funds and component units whose balances are reflected in this financial report.

Operating funds which are subject to annual appropriation and for which budget and actual schedules are included in this report are identified by an “*”. For each fund or component unit listed, the page number of the first financial statement for that fund or component unit is shown in parenthesis.

Major Funds:

Governmental:

- General Fund* (p. 34)
- School Aid Fund* (p. 34)

Proprietary:

- State Lottery Fund (p. 40)
- Michigan Unemployment Compensation Funds (p. 40)

Saginaw Valley State University (p. 275)

- (1) Michigan State University, the University of Michigan, and Wayne State University are not included in the State's reporting entity because they have separately elected governing boards and are legally separate from the State. The State provides significant funding to support these institutions; however, under GASB Statement No. 14, The Financial Reporting Entity, as amended by GASB Statement No. 61, criteria, they are considered fiscally independent special-purpose governments.

NOTE 3 – BUDGETING, BUDGETARY CONTROL, AND LEGAL COMPLIANCE

Major Constitutional and Statutory Provisions

Balanced Budget Requirements

Article 5 of the State Constitution mandates that the executive budget recommend spending limits for operating funds to the Legislature that are within available resources. Compliance with this is demonstrated in the executive budget and budget bills for each fiscal year.

Article 4 of the State Constitution mandates the Legislature to enact appropriations for each operating fund that do not exceed that fund's revenue estimates, including beginning fund balance.

Compliance with this requirement is demonstrated in schedules included in the annual appropriation acts, usually the "General Government" appropriation act. When it appears that revenue will fall below the estimates on which the appropriations are based, the Governor is required to recommend spending reductions as necessary to avoid a year-end deficit.

Local Spending Requirements

Article 9, Section 30, of the State Constitution requires that state spending to, or on behalf of, local units of government shall not fall below a specified percentage of total state spending. The percentage, recalculated effective with fiscal year 1993, is 48.97 percent.

Final calculations establishing the State's compliance with this constitutional provision for fiscal year 2019 are not yet complete. For fiscal year 2018, the most recent year for which final calculations are available, the proportion of total state spending paid to local units of government was determined to be 55.25 percent, reflecting payments that exceeded the

minimum required by \$2.1 billion. The State expects that payments to local units of government will exceed the minimum requirement for fiscal year 2019. See Note 25 for information regarding current litigation related to whether certain categories of State spending should be counted toward, or excluded from, the calculation.

Revenue Limits

Article 9, Section 26, of the State Constitution restricts state revenues to a ceiling that is based upon revenues as a proportion of total personal income for the State. The base year ratio, determined in fiscal year 1979, in relation to calendar year 1977 personal income, is 9.49 percent. Both the constitutional language and implementing statutes provide for other adjustments to the revenue and personal income calculations. If revenues exceed the limit by 1.0 percent or more, the amount in excess must be refunded to personal income tax payers and payers of the State's Corporate Income Tax. If the limit is exceeded by an amount less than 1.0 percent, the excess may be deposited into the State's Budget Stabilization Fund. The calculations determining the State's compliance with this constitutional provision for fiscal year 2019 are not final. For fiscal year 2018, the most recent year for which final calculations are available, total state revenues subject to this limitation were beneath the constitutional limit by \$8.7 billion. The State expects that total state revenues subject to the limitation will not exceed the limit for fiscal year 2019.

Budget Stabilization Fund

The Counter-Cyclical Budget and Economic Stabilization Fund ("Budget Stabilization Fund" or "Rainy Day Fund") was created in 1977 to assist in stabilizing revenue during periods of economic recession. This fund currently operates under Sections 18.1351 - 18.1359 of the Michigan Compiled Laws, as amended. In general, the law requires payments into the fund when real economic growth exceeds 2.0 percent and allows withdrawals from the fund when real economic growth is less than 0.0 percent. Funds can also be withdrawn when the State's unemployment rate exceeds 8.0 percent or upon appropriation to finance capital outlay or other projects, or for other purposes designated by the Legislature. The Counter-Cyclical Budget and Economic Stabilization Fund is accounted for as a subfund of the General Fund where its fund balance is committed.

The following table summarizes the transactions for the fund at September 30 (in millions):

Beginning committed fund balance	\$	1,006.0
Interest income		25.1
Tobacco settlement proceeds		17.5
Deposits		100.0
Withdrawals		-
Ending committed fund balance	\$	1,148.6

During fiscal year 2014, \$194.8 million was transferred to the Michigan Settlement Administration Authority to support the Detroit bankruptcy settlement. That withdrawal is being repaid to the fund in the amount of \$17.5 million annually from tobacco settlement funds, beginning in fiscal year 2015. The remaining balance due from the tobacco settlement funds as of September 30, 2019, is \$107.3 million.

School Aid Fund Budgetary Provisions

The School Aid Stabilization Fund is a separate account within the School Aid Fund created under Section 388.1611a of the Michigan Compiled Laws. Any unexpended or unencumbered state school aid fund revenue is deposited into this fund at the end of each fiscal year. The amounts accumulated in this fund are carried forward and shall be expended only for purposes for which state school aid money may be expended. The School Aid Stabilization Fund ending restricted fund balance is \$194.7 million for fiscal year 2019.

Budgetary Overexpenditures

In the event that expenditures exceed authorization during a year, the State department must request a supplemental appropriation for the amount overspent, if that amount exceeds their lapses or if they expect to make payments from prior year authorization in the next fiscal year. There were no net overexpenditures or line-item overexpenditures, by State departments, during the year.

NOTE 4 – ACCOUNTING CHANGES AND RESTATEMENTS

Pollution Remediation Obligations

Beginning net position for governmental activities in the government-wide statements was decreased by \$24.8 million to account for pollution remediation obligations related to underground storage tanks. The pollution remediation obligations met the criteria of Governmental Accounting Standards Board (GASB) Statement No. 49, Accounting and Financial Reporting for Pollution Remediation Obligations, for accruing a liability in the government-wide statements.

Private Purpose Trust Funds

The Gifts, Bequests, and Deposits Investment Fund, a private purpose trust fund, decreased its beginning net position by \$6.2 million to reflect a change in presentation of the Michigan Achieving a Better Life Experience Program (MiABLE). Prior to fiscal

year 2019, MiABLE was included in the Gifts, Bequests, and Deposits Investment Fund. Beginning in fiscal year 2019, MiABLE is reported separately as a private purpose trust fund within the fiduciary fund statements.

Michigan Early Childhood Investment Corporation

The Michigan Early Childhood Investment Corporation, a discretely presented component unit, increased its beginning net position by \$1.7 million to correct an error in revenue recognized for a certain grant agreement made in a prior year.

NOTE 5 – TREASURER’S COMMON CASH

General Accounting Policies

The State Treasurer (Treasurer) manages the State’s Common Cash pool, which is used by most state funds. The pooling of cash allows the Treasurer to invest monies not needed to pay immediate obligations so that investment earnings on available cash are maximized. Investments of the pool are not segregated by fund; rather, each contributing fund’s balance is treated as equity in the pool and presented in this report as “Equity in common cash.” Many funds, including pension (and other employee benefit) trust funds, use their equity in the pool as a short-term investment vehicle.

All negative balances in the pool are reclassified at year-end as interfund liabilities. If the negative balance is considered long-term, the reclassification is recorded as an advance.

Statute or administrative policy determines whether a fund receives or pays interest on its balances in the pool. If a fund does not receive or pay interest, the General Fund receives or absorbs such amounts. The Treasurer has placed a “cap,” or limit, on the amount of interest that can be earned by some State funds. These “capped” funds are limited to a maximum rate determined by the Treasurer. For the remaining “uncapped” funds, earnings on positive balances and charges on negative balances are allocated quarterly based upon the average daily balances of the various funds and the average investment earnings rate for the quarter. Accrued earnings of the pool are recorded as assets, with the accrual allocated to the various funds’ equity in the pool.

Interest revenues on positive balances and interest charges on negative balances are reflected as revenues or expenditures/expenses of each of the participating funds.

Investments and Deposits

The investment authority for the Common Cash pool is found in Sections 21.141 - 21.147 of the Michigan Compiled Laws (MCL). The Treasurer may invest surplus funds belonging to the State in bonds, notes, and other evidences of indebtedness of the United States Government and its agencies and in prime commercial paper. Certificates of deposit are permitted in financial institutions whose principal office is located in the State.

The Treasurer invests excess cash in short-term investments or cash equivalents. The law does not prohibit the Treasurer from entering into repurchase agreements; however, the Treasurer did not use these agreements in managing the pool in fiscal year 2019.

Statutes provide for certain special state investment programs for which the General Fund is credited (charged) for earnings in excess of (under) those achieved by regular pool investments. To date, these programs have not resulted in any principal losses.

Emergency Financial Assistance Loan Program: This program provides for emergency loans to local units of government and is the most significant of the special investment programs. The Emergency Financial Assistance Loan Board, established by MCL Section 141.932, administers the program.

Loan authorization limits are established in MCL Section 141.933. For fiscal years beginning after September 30, 2018, the board may authorize loans to municipalities that total up to \$10.0 million in a fiscal year, but a loan to a single municipality shall not exceed \$4.0 million in that fiscal year.

In fiscal year 2000, the Emergency Financial Assistance Loan Board was authorized to approve the lending of up to \$159.9 million to Wayne County (County) to finance the payment of certain obligations to the State. The outstanding balance at September 30, 2019 was \$53.1 million. The interest rate is reset July 1 of each year in accordance with the loan agreement. Effective November 1, 2009, the Wayne County emergency loan was reclassified from an interest-bearing loan to a zero percent loan.

The change in interest terms for the loan will be in effect until the debt obligations for the Detroit Regional Convention Facility Authority are retired, or 2039, whichever comes first. Loan repayments by the County are supported by provisions of the loan agreement and legislation that pledge the County’s share of a portion of the state taxes collected on cigarette sales. No principal repayments were made on the loan in fiscal year 2019.

In fiscal year 2016 the Emergency Financial Assistance Loan Board authorized the lending of \$150.0 million to the School District of the City of Detroit to finance the transitional operating cost of the School District of the City of Detroit to the new district, the Detroit Public Schools Community District in accordance with Public Acts 192 and 197 of 2016. The note bears a

Michigan
Notes to the Financial Statements

1.3 percent per annum interest rate that may be adjusted by the local Emergency Financial Assistance Loan Board. Interest payments are due every six months starting in September 2016 with principal payments starting September 2022. The note will be paid off by 2026.

Assets and equities of the Common Cash pool as of September 30 were as follows (in millions):

Assets	
Cash on hand	\$ -
Demand deposits	727.9
Time deposits - regular	-
Prime commercial paper - at cost	5,600.6
Interest receivable	11.9
Emergency loans to local units - at cost	280.0
Total Assets	<u>\$ 6,620.4</u>
Equities	
Fund equities (net) in common cash:	
Governmental activities	\$ 4,519.5
Business-type activities	220.9
Fiduciary funds	430.4
Discretely presented component units	1,449.6
Net Fund Equities	<u>\$ 6,620.4</u>

Negative equity balances in the pool are reclassified at year-end as interfund receivables and liabilities. Current balances are included with "Amounts due from other funds" and "Amounts due to other funds" and long-term amounts are classified as interfund advances. Note 19 summarizes interfund receivables and liabilities.

The following paragraphs provide disclosures about deposits and investments of the Common Cash pool, as required by Governmental Accounting Standards Board (GASB) Statement No. 3, Deposits with Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements, as amended by GASB Statement No. 40, Deposit and Investment Risk Disclosures. Please see Note 8 for information about deposits and investments that are not part of the Common Cash pool.

Common Cash Deposits

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the State's deposits may not be recovered.

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are:

Uncollateralized

Collateralized with securities held by the pledging financial institution, or

Collateralized with securities held by the pledging financial institution's trust department or agent but not in the depositor-government's name.

The Treasurer's policy requires the following criteria to lessen custodial credit risk: all financial institutions holding the State's money must pledge collateral equal to the amount of the account balance for all demand and time deposits, to secure the State's funds; a bank, savings and loan association, or credit union holding state funds must be organized under the laws of Michigan or federal law and maintain a principal office or branch office in the State of Michigan; no deposit in any financial organization may be in excess of 50.0 percent of the net worth of the organization.

At September 30, 2019, the carrying amount of deposits, including time and demand deposits, was \$727.9 million. The demand deposit carrying amount includes checks outstanding of \$150.4 million. The deposits were reflected in the accounts of the banks at \$879.2 million. Of the bank balance, \$4.8 million was covered by federal depository insurance and \$869.3 million was collateralized with securities held by the State's agent in the State's name. There were demand deposits of \$5.1 million exposed to custodial credit risk that were uninsured and uncollateralized. Compensating balances kept in demand deposit accounts to avoid service charges totaled \$840.2 million at September 30, 2019.

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of deposits.

MCL Section 487.714 requires state deposits be held in a financial institution which maintains a principal office or branch office located in the State. The State had no Common Cash deposits subject to foreign currency risk at September 30, 2019.

Common Cash Investments

Types of Investments

Common Cash investments include prime commercial paper, certificates of deposit, and emergency municipal loans.

Risk

In accordance with GASB Statement No. 40, investments also require certain disclosures regarding policies and practices with respect to the risks associated with them. Custodial credit risk, credit risk, and interest rate risk are discussed in the following paragraphs.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of a failure of the counterparty, the State will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either:

The counterparty, or

The counterparty's trust department or agent but not in the government's name.

The Treasurer does not have an investment policy for managing custodial credit risk. At September 30, 2019, Common Cash investments were not exposed to custodial credit risk.

Credit Risk

Credit risk is the risk that an issuer or another counterparty to an investment will not fulfill its obligations.

Prime commercial paper investments must be rated within one of the two highest ratings classifications ("1" or "2") at the time of purchase from not less than two of the nationally recognized ratings organizations specified in MCL 38.1132d. Borrowers must have at least \$400.0 million in commercial paper outstanding, and the State Treasurer may not invest in more than 10.0 percent of the borrower's outstanding debt.

Emergency municipal loans are evidenced by unrated notes held by the State in the State's name. At September 30, 2019 prime commercial paper investments were rated at A-1 or P-1.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

The Treasurer's policy states that cash equivalents are invested in short-term fixed income securities with an average weighted maturity of less than one year to provide liquidity and safety of principal from capital market and default risk. At September 30, 2019, the fair value of cash equivalents was \$5.6 billion; the weighted average maturity was 37 days.

The Treasurer does not have a policy for controlling interest rate risk regarding the Common Cash special loan programs described earlier. These loan programs are investments created through legislation. Although some interest rate risk exposure exists, this risk is not a consideration when entering into these loan programs.

NOTE 6 – TAXES RECEIVABLE

Taxes receivable represent amounts due to the State at September 30, 2019, for revenues earned during the fiscal year that will be collected sometime in the future. Amounts expected to be collected in the next fiscal year are classified as "current" and amounts expected to be collected beyond the next fiscal year are classified as "noncurrent." The receivables have been recorded net of allowances for uncollectibles.

Sales, use, Michigan business, and income taxes are accrued to the extent that the related sales, wage, or activity being taxed occurred prior to October 1. Property taxes are accrued if the levy date occurred prior to October 1.

Local units of government, as agents for the State, assess the State Education Tax (SET), which is a statewide property tax. The SET is levied on July 1 and is due and payable at the same time as local unit taxes levied on July 1. The State accrues SET revenue received by the State or the local units, on its behalf, during October and November. The accrued telephone and telegraph taxes are due December 1 and were received at approximately that time.

In the government-wide financial statements, a corresponding amount is recorded as revenue using the accrual basis of accounting. In the governmental fund financial statements, revenue is recorded using the modified accrual basis of accounting for amounts due to the State at September 30 (as stated above), that are considered "available" (i.e. received by the State within approximately 60 days after that date). Delinquent taxes are recognized to the extent that they are collected within 12 months. The remainder is recorded as a deferred inflow of resources.

Michigan
Notes to the Financial Statements

Effective January 1, 2008, the State replaced the Single Business Tax (SBT) with the Michigan Business Tax (MBT). Effective January 1, 2012, MBT was replaced by the Corporate Income Tax (CIT). A small number of taxpayers with certificated credits may continue to file under the MBT provisions until their credits expire.

Taxes receivable as of September 30 consisted of the following (in millions):

Tax	General Fund	Other Governmental Funds	Total
Sales and use	\$ 549.1	\$ 1,014.1	\$ 1,563.2
Individual income	3,217.7	491.6	3,709.3
SBT/MBT/CIT	1,149.8	-	1,149.8
State education (property)	-	1,516.3	1,516.3
Telephone & telegraph	11.7	-	11.7
Motor fuel	-	199.5	199.5
Insurance - retaliatory	90.4	-	90.4
Tobacco products	57.4	29.8	87.3
Quality assurance assessment	334.2	-	334.2
Insurance provider assessment	150.8	-	150.8
Other	44.1	12.9	57.0
Penalties and interest	1,322.7	-	1,322.7
Gross taxes receivable	6,927.9	3,264.2	10,192.2
Less allowances for uncollectibles	2,816.5	720.2	3,536.8
Total taxes receivable (net)	<u>\$ 4,111.4</u>	<u>\$ 2,544.0</u>	<u>\$ 6,655.4</u>
 <u>As reported on the Statement of Net Position</u>			
Current taxes, interest, and penalties receivable	\$ 3,797.5	\$ 2,474.7	\$ 6,272.2
Noncurrent taxes, interest, and penalties receivable	313.9	69.3	383.2
Total taxes, interest, and penalties receivable	<u>\$ 4,111.4</u>	<u>\$ 2,544.0</u>	<u>\$ 6,655.4</u>

NOTE 7 – JOINT VENTURES

The State participates in two joint ventures as described below. Joint ventures are not reflected as component units within this report because they do not meet the generally accepted accounting principles criteria for inclusion. Their separately issued financial statements may be obtained by directly contacting the applicable organizations. To obtain their phone numbers, you may contact the State Budget Office, Office of Financial Management, at (517) 241-4010.

Great Lakes Protection Fund

The Great Lakes Protection Fund (GLPF) is a not-for-profit corporation located in Evanston, Illinois. Its mission is to identify, demonstrate, and promote regional action to enhance the health of the Great Lakes basin ecosystem. Seven of the states bordering the Great Lakes became members by making a required contribution to the GLPF endowment.

Contribution requirements were established in 1989 based upon water consumption and usage. State contributions to the endowment are permanently restricted and cannot be disbursed. Of the seven states, Michigan is the largest contributor at \$25.0 million, or 30.9 percent, of the total \$81.0 million endowment. Michigan made its required contribution by issuing GLPF a general obligation bond authorized as part of the State's environmental protection bond program. No additional contributions from Michigan will be required.

The governor of each of the seven member states appoints two representatives to GLPF's board of directors. Directors control the investment of the endowment, finance and budgeting operations (within the requirements of the Articles of Incorporation), and they determine how to use net earnings to support GLPF's mission. Two-thirds of the net earnings of the endowment (after operating expenses) are available for grants. One-third of the net earnings is returned to the seven member states, proportional to their original contributions, to support local projects. The State's equity interest in GLPF of \$25.0 million is reflected as an asset in the government-wide financial statements.

Sault Ste. Marie Bridge Authority

The International Bridge in Sault Ste. Marie, Michigan is a joint venture of the State and Canadian governments. Sault Ste. Marie Bridge Authority (SSMBA) consists of eight people, four appointed by each government. SSMBA oversees the operations and maintenance of the Bridge. The International Bridge Administration, an administrative entity within the Michigan Department of

Transportation, is responsible for the day-to-day operations of the Bridge. SSMBA reimburses the State for costs incurred to provide these services.

For the period ending December 31, 2018 (SSMBA's most recently audited financial statements), its net position decreased by approximately \$6.0 million, \$5.5 million of which was a result of the restatement of the beginning net position for GASB 75. The Bridge and one-half of the ancillary assets on Michigan's side of the Bridge, and in addition one-half of the joint funds not required to pay liabilities, and all funds reserved for capital projects on the Michigan half of the Bridge, represent the State's equity interest. The State is obligated to pay one-half of any claims incurred by SSMBA that are not covered by insurance or existing resources. The State's equity interest of \$9.7 million is reflected as an asset in the government-wide financial statements.

NOTE 8 – DEPOSITS AND INVESTMENTS

This note provides information for all deposits and investments except those of the Common Cash pool, which are described in Note 5.

Deposits – Primary Government

Custodial Credit Risk

In addition to equity in the Common Cash pool, some State funds maintain deposits with financial institutions. At present, only the Michigan Unemployment Compensation Funds (MUCF), the Attorney Discipline System (ADS), the Michigan Education Savings Program (MESP) and the Michigan Achieving a Better Life Experience (MiABLE) maintain these deposits and are potentially exposed to custodial credit risk.

The Unemployment Insurance Agency administers, under the auspices of the federal government, the deposits of the MUCF. Tax collections are deposited in a clearing account as required by the Michigan Employment Security Act. Refunds are paid from that account; after the clearance of vouchers for refunds, all other money remaining in the fund, less amounts needed for refunds and judgments, must be deposited with the Secretary of the Treasury of the United States of America to the credit of the State in the Unemployment Trust Fund, established and maintained pursuant to Section 904 of the Social Security Act, 42 USC 1104. These deposits are maintained in the Federal Reserve Bank. At year-end, the carrying amount of these deposits, reported as cash in the Statement of Net Position, was \$11.2 million. The bank balance of the deposits was \$22.0 million; these deposits were either covered by federal depository insurance or were collateralized. Amounts reported as Cash on Deposit with Fiscal Agent, totaling \$4.7 billion, represent MUCF's interest in a U.S. Treasury trust fund managed by the Secretary of the Treasury pursuant to Title IX of the Social Security Act, which includes deposits from the unemployment compensation funds of various states. MUCF is credited quarterly with trust fund investment earnings, as computed on a daily basis.

The bank deposits of the ADS were \$3.3 million; these deposits were covered by Federal Deposit Insurance Corporation insurance or were collateralized. ADS has no policy to address custodial credit risk. It assesses financial institutions' risk levels; only those with acceptable levels of risk are used as depositories.

The deposits of the MESP were reflected in bank accounts at \$19.8 thousand. These deposits were covered by depository insurance. The level of risk for each financial institution is evaluated and assessed; only those with an acceptable estimated risk level are used as depositories. MESP has no other policy for controlling this risk.

The deposits of the MiABLE program were reflected in bank savings accounts at \$5.5 million. Of the bank balance, \$0.5 million was covered by depository insurance, and \$5.0 million was uninsured and uncollateralized. The active investments of the program were reflected in various portfolio options, as disclosed in the MiABLE participant disclosure statement, at a fair value of \$6.1 million. The MiABLE custodian invests in mutual funds that are not rated by a nationally recognized statistical rating organization. The custodian has no specific investment policies with regards to credit risk, custodial credit risk, interest risk, or foreign currency risk. All of MiABLE investment portfolios, as outlined by the custodian, are uninsured and unregistered. A given MiABLE account owner has an investment in a shared portfolio, not a direct investment in the underlying mutual fund or vehicle to which funds may be allocated; this ownership structure mitigates some inherent custodial credit risk.

Michigan
Notes to the Financial Statements

Investments – Primary Government

The following table shows the carrying amounts and fair values of investments of the primary government by investment type and in total at September 30:

Primary Government Total Investments (In millions)				
Investment Types	Retirement Systems	Deferred Compensation/ Defined Contribution Funds	Other Funds	Total
Commercial paper	\$ 2,318.1	\$ -	\$ -	\$ 2,318.1
Money market funds	-	-	175.5	175.5
Other short-term	1,484.8	-	2.4	1,487.2

Authority

Investment authority for the State's pension (and other employee benefit) trust funds is found in Michigan Compiled Laws (MCL) Section 38.1133. This law allows the State of Michigan Investment Board, as investment fiduciary, to make diverse investments in stocks, corporate and government bonds and notes, mortgages, real estate, venture capital, and other investments. The law has prudence standards and requires that the assets of a retirement system shall: be invested solely in the interest of the participants and beneficiaries; be made for the exclusive purpose of providing benefits to the participants and the participants' beneficiaries; and defray reasonable expenses of investing the assets of the state system.

The investment authority for other state funds is found in their enabling statutes and/or their bond resolutions where applicable. Except as noted below, the investments of the non-pension (and other employee benefit) trust funds are comprised mostly of United States government securities.

The State Building Authority makes diverse investments as allowed by state statute and/or bond resolutions.

The deferred compensation plans are invested in mutual funds, U.S. Treasury strips, money market funds, and pooled investment funds. During fiscal year 2019, the deferred compensation plans' investment activities were managed by a private investment firm, which invests as directed by members of the plan.

Derivatives

The State of Michigan Investment Board is also authorized to invest a limited amount of pension (and other employee benefit) trust funds in derivatives to provide additional diversification. Derivatives are used in managing the trust fund portfolios, but uses do not include speculation or leverage of investments. State investment statutes limit total derivative exposure to 15.0 percent of a fund's total asset value and restrict uses to replication of returns and hedging of assets. Option and future contracts traded daily on an exchange and settling in cash daily or having a limited and fully defined risk profile at an identified fixed cost are not subject to the derivative exposure limitation. Less than 15.0 percent of the total trust funds' portfolio has been invested from time to time in future contracts, swap agreements, and option contracts.

The State of Michigan Investment Board entered into swap agreements with investment grade counterparties with maturity dates ranging from October 2019 to June 2020. Generally, the notional amount of equity swaps tied to foreign stock market indices is executed via a net total return U.S. Dollar (USD) index. The swap agreements provide that the System will pay quarterly, over the term of the agreements, interest indexed to the three-month London Inter Bank Offer Rate (LIBOR), adjusted for an interest rate spread, on the notional amount stated in the agreements. At maturity the trust funds will receive either the increase in the value of the equity indices from the level at the inception of the agreements or pay the decrease in the value of the indices. U.S. Domestic LIBOR based floating rate notes and other income earning investments are held to correspond with the notional amount of the swap agreements. The State of Michigan Investment Board maintains custody and control of these dedicated notes and other investments.

The value of these synthetic equity structures is a combination of the value of the swap agreements and the value of the notes and other investments. The book value represents the cost of the notes and other investments. The current value represents the current value of the notes and other investments and the change in the value of the underlying indices from the inception of the swap agreements. Current value is used as a representation of the fair value based on the intention to hold all swap agreements until maturity.

To reduce the risk in the fixed income and international equity portfolios, the State of Michigan Investment Board has entered into foreign exchange (FX) swap agreements, interest rate swap agreements and credit default swap agreements with investment grade counterparties. The FX swap agreements are tied to foreign currency forward exchange rates and are used to reduce the currency risk with the fixed income portfolio. The swap agreements are entered into on an as-needed basis and are generally tied to the maturity of a foreign government bond indenture denominated in a foreign currency. The purpose of the FX swap agreement that has a final maturity date of less than three months is to reduce or eliminate the currency risk on foreign bond transactions. U.S. Domestic LIBOR-based floating rate notes, U.S. Treasury securities, and portfolio cash are held to correspond with the notional amount of FX swap agreements within the fixed income portfolio. Interest rate swaps are used to adjust interest rate and yield curve exposures and substitute for physical securities. Long swap positions that receive fixed rate, increase exposure to long-term interest rates; short swap positions that pay fixed rate, decrease exposure. Credit default swaps (CDS) are used to manage credit exposure without buying or selling securities outright. Written CDS increase credit exposure, selling protection, obligating the portfolio to buy bonds from counterparties in the event of a default. Purchased CDS decrease exposure, buying protection, providing the right to "Put" bonds to the counterparty in the event of a default.

Counterparty credit risk is the maximum loss amount that would be incurred if the counterparties to the derivative instrument failed to perform according to the terms of the contract, without respect to any collateral or other security, or netting arrangement. For the Over-The-Counter (OTC) derivative investments, the system held collateral of \$48.4 million in cash deposits and \$77.4 million in securities on behalf of counterparties. Collateral securities in the amount of \$0.4 million were held on our behalf by counterparties.

Investment Pools

In July 2004, five State retirement systems' (i.e., State Employees', State Police, Public School Employees', Judges' and Military) investments were contributed to an investment pool structure. A pro rata share of the entire pool represents each system's ownership of a portion of the investments in the State's pool.

Repurchase Agreements

As a matter of administrative policy, the State Treasurer makes only limited use of investments in repurchase agreements. No such investments were outstanding at year-end.

Risk

Governmental Accounting Standards Board (GASB) Statement No. 40, Deposit and Investment Risk Disclosures, requires certain disclosures regarding policies and practices with respect to the risks associated with investments. The custodial credit risk, credit risk, interest rate risk, foreign currency risk and concentration of credit risk are discussed in the following paragraphs.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of a failure of the counterparty to a transaction, the State will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government and are held by either the counterparty, or the counterparty's trust department or agent, but not in the government's name. The State Treasurer does not have a policy for limiting custodial credit risk. As of September 30, 2019, there were no securities exposed to custodial credit risk.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Short-term investments for the pension funds are in prime commercial paper and follow the same policy described in Note 5 for this type of investment. The ratings at September 30, 2019, are included in the debt investments table.

Investment grade and noninvestment grade securities may be acquired in compliance with parameters set forth in MCL Sections 38.1132 – 38.1141, and the State Treasurer's investment policy. Law defines investment grade as investments in the top four major grades, rated by two national rating services, S&P (AAA, AA, A, BBB) and Moody's (Aaa, Aa, A, Baa). At September 30, 2019, the system was in compliance with the policy in all material aspects. The primary government's debt investments as of September 30, 2019, are presented in the following table. Note that securities backed by the full faith and credit of the United States government are excluded.

Michigan
Notes to the Financial Statements

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of those investments.

The State Treasurer's policy states that cash equivalents are invested in short-term fixed income securities with an average weighted maturity of less than one year to provide liquidity and safety of principal from capital market and default risk. At September 30, 2019, the fair value of prime commercial paper was \$2.3 billion; the weighted average maturity was 44 days.

The State Treasurer does not have a policy regarding interest rate risk for long-term debt investments. However, the pension trust funds are invested with a long-term strategy with no investments with a maturity of less than one year at the time of purchase. The goal is to balance higher returns while accepting minimum risk for the return. Analyzing the yield curve on individual securities as compared to those of the U.S. Treasury determines, in part, what is an acceptable risk for the return. Therefore, market conditions such as lower interest rates result in shorter duration; higher interest rates result in longer duration.

As of September 30, the pension trust funds had the following long-term debt securities:

Pension (and Other Employee Benefit) Trust Funds Debt Securities (In millions)		
	Fair Value	Duration In Years
Retirement Systems:

* International debt securities contain domestic government and corporate securities as a part of their derivative strategies. The interest rates reset on a quarterly basis for these securities.

Fair Value of Investments

The State of Michigan (SOM) categorizes their fair value measurements within the fair value hierarchy established by generally accepted accounting principles (GAAP). The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Not all investments held by SOM are recorded at fair value. GASB Statement No. 72, Fair Value of Measurement and Application, allows for certain investments to be recorded at cost (or amortized cost or any other valuation method), and therefore, they are not presented in the fair value hierarchy table. Equity and fixed income securities classified in Level 1 of the

Michigan
Notes to the Financial Statements

fair value hierarchy are valued using prices quoted in active markets for those securities. Equity swaps and fixed income securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique and other significant observable inputs. Equity and fixed income securities classified as Level 3 of the fair value hierarchy are valued using third party data and reports that are unobservable. Securities reported at Net Asset Value (NAV) are valued using the most recent third party statements adjusted for cash flows as of September 30, 2019. Investments that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below.

The Pension (and Other Employee Benefit) Trust Funds have the following recurring fair value measurements as of September 30 (in millions):

	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Cash and Cash Equivalents	\$ 96.1	\$ 7.6	\$ 88.5	\$ -

Government Issues	333.0	150.5	182.5
U.S. Agency Issues	0.2	-	0.2
Commingled Funds, Exchange Traded Funds and Publicly Traded Partnerships	44.1	44.1	-
Fixed Income Total	725.4	194.6	530.8
Total Investments Measured at Fair Value	6,738.7	\$ 6,207.9	\$ 530.8
Investments Measured at NAV:			
Private Equity Total	210.1		
Real Estate Total	60.0		
Event Driven Hedge Funds	48.5		
Multi-Strategy Hedge Funds	71.5		
Total Investments Measured at NAV	390.1		
Total Other Primary Government Funds	\$ 7,128.8		

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. SOM's assessment of the significance of particular inputs to these fair value measurements requires judgement and considers factors specific to each asset or liability.

Additional disclosures for fair value measurements of investments in certain entities that calculate the NAV per share (or its equivalent):

Pension (and Other Postemployment Benefit) Trust Funds:

Absolute Return Portfolio: This type invests in hedge funds and hedge funds of funds that pursue multiple strategies to diversify risks and reduce volatility. The fair values of the investments in this portfolio have been determined using the NAV per share (or its equivalent) of the investments. For 74.3 percent of the investments, investors may redeem at various dates between October 1, 2019, and January 1, 2021; 13.9 percent of the investments are redeemable between January 1, 2021 through April 1, 2025. The remaining 11.8 percent is not redeemable on demand.

The total market value and unfunded commitments of these investments as of September 30, 2019, are \$4.1 billion and \$60.1 million, respectively.

Real Return and Opportunistic Portfolio: This type includes 90 funds that invest in private credit, tangible and intangible real assets, or other real return and opportunistic strategies. The fair values of the investments in this portfolio have been determined using the NAV per share (or its equivalent) of the plan's ownership interest in partners' capital. These investments can never be redeemed with the funds. Distributions from each fund will be received as the underlying investments of the funds are liquidated. It is expected that the underlying assets of the funds will be liquidated over the next 5 to 10 years.

The total market value and unfunded commitments of these investments as of September 30, 2019, are \$7.9 billion and \$3.9 billion, respectively.

Private Equity Portfolio: This type of investment includes investments in approximately 271 partnerships that invest in leveraged buyouts, venture capital, mezzanine debt, distressed debt, secondary funds and other investments. These types of investments can never be redeemed with the funds, but distributions are received through the liquidation of the underlying assets of the fund. It is expected that the underlying assets of the fund are liquidated over a period of five to eight years.

The total market value and unfunded commitments of these investments as of September 30, 2019, are \$13.5 billion and \$8.0 billion, respectively. However, it is probable that all of the investments in this group will be sold at an amount different from the NAV per share (or its equivalent). Therefore, the fair values of the investments in this type have been determined using recent

observable transaction information for similar investments and nonbinding bids received from potential buyers of the investments. As of September 30, 2019, a buyer for these investments has not been identified.

Real Estate and Infrastructure Portfolio: These funds include approximately 111 accounts (limited partnerships, limited liability companies, etc.) that invest in real estate or infrastructure related assets. The fair value has been determined in accordance with GAAP using the NAV per share (or its equivalent) of the plan's ownership interest in partners' capital. These types of investments cannot be redeemed with the funds. Distributions from these funds will be received as the underlying investments are sold and liquidated over time. It is expected that the underlying assets will be sold over the next five to 15 years. However, buyers have not been determined so the fair value has been determined using the NAV per share (or its equivalent) of the plan's ownership interest in partners' capital.

The total market value and unfunded commitments of these investments as of September 30, 2019, are \$6.9 billion and \$1.5 billion, respectively.

Other Limited Partnerships:

The balance of plan assets reported at NAV includes:

- A limited partnership that invests in the equity of Japanese companies. The limited partnership permits partners to withdraw funds quarterly with 180 days of advanced notice.
- Limited partnerships that invest in fixed income investments such as residential rehabilitation, middle market business loans and senior secured debt financing. These investments cannot be redeemed by limited partners. Distributions are received through the liquidation of the underlying assets of the fund.
- Limited partnerships that invest in fixed income type investments permitting partners to request redemption monthly or quarterly, after initial lock up period of one year or less, requiring 45 to 65 days' advance notice.
- Global investments permitting partners to request partial redemptions quarterly or monthly, with advanced notice, subject to the sole discretion of the general partner.

The total market value and unfunded commitments of these investments as of September 30, 2019, are \$2.0 billion and \$37.8 million, respectively.

Other Primary Government Funds:

Private Equity Portfolio: This type of investment includes investments in 75 partnerships that invest in various credit strategies, real assets, and other investments. These types of investments can never be redeemed with the funds, but distributions are received through the liquidation of the underlying assets of the fund. It is expected that the underlying assets of the fund are liquidated over a period of five to eight years.

The total market value and unfunded commitments of these investments as of September 30, 2019, are \$210.1 million and \$59.1 million, respectively. However, it is probable that all of the investments in this type will be sold at an amount different from the NAV per share (or its equivalent) of the plan's ownership interest in partners' capital. Therefore, the fair values of the investments in this type have been determined using recent observable transaction information for similar investments and nonbinding bids received from potential buyers of the investments.

Real Estate and Infrastructure Portfolio: This type of investment includes investment in 19 partnerships that invest primarily in multi-family preferred equity structure in the U.S. This type of investment can never be redeemed with the funds, but distributions are received through the liquidation of the underlying assets of the fund. It is expected that the underlying assets of the fund are liquidated over a period of 10 to 12 years.

The total market value and unfunded commitments of these investments as of September 30, 2019, are \$60.0 million and \$3.9 million, respectively. However, it is probable that all of the investments in this type will be sold at an amount different from the NAV per share (or its equivalent) of the plan's ownership interest in partners' capital. Therefore, the fair values of the investments in this type have been determined using recent observable transaction information for similar investments and nonbinding bids received from potential buyers of the investments.

Event-Driven Hedge Funds: This type includes five investments specializing in event-driven investing. It typically applies a fundamental value discipline to identify undervalued companies that have one or more specific catalysts to unlock the value. It focuses on "active shareholder engagement" and invests both long and short and across the capital structure including equity and debt.

These types of investments can never be redeemed with the funds, but distributions are received through the liquidation of the underlying assets of the fund. Distribution proceeds from the sale of partnership investments, dividends, or interest must be returned to the limited partners within 90 days following receipt by the partnership. Such distributable amounts shall increase the unfunded portion of the limited partnership commitment and may be called again for contribution to the partnership by the general partner.

Michigan
Notes to the Financial Statements

It is expected that the underlying assets of the fund are liquidated over a period of three to six years. The total market value and unfunded commitments of these investments as of September 30, 2019, are \$48.5 million and \$13.5 million, respectively. Market price observability is impacted by a number of factors, including the type of investment and characteristics specific to the investment.

Multi-Strategy Hedge Funds: This type includes investments in six funds that pursue multiple strategies to diversify risks and reduce volatility. It is organized for the primary purpose of developing and actively managing an investment portfolio of non-traditional portfolio managers. This is an open-ended fund that invests in equities, credit-driven, global macro, relative value, interest rate-driven, commodities, managed-futures and event-driven, with redemption restriction terms ranging from zero to 96 months.

These types of investments offer limited partnership "Class A" interests. Generally, the limited partner may withdraw all or any portion of its Class A interests capital account at any time upon not less than 95 days' prior written notice to the fund. The general partner will submit withdrawal requests with respect to the fund's investments. Payment of the withdrawal proceeds will be made promptly after the fund receives withdrawal proceeds from such investments.

The fair value of investments in limited partnerships and investment funds and affiliated limited partnerships and investment funds ("investee funds") is generally determined using the reported net asset value per share of the investee fund, or its equivalent, as a practical expedient for fair value. The total market value of these investments as of September 30, 2019 is \$71.5 million.

State of Michigan 457 Plans and State of Michigan 401K Plans:

The plans have the following recurring fair value measurements as of September 30 (in millions):

State of Michigan 457 Plans:

	Total	Level 1	Level 2

* Tier III investments exclude cash held in participant accounts totaling approximately \$18.0 million.

Synthetic Guaranteed Investment Contract (SGIC)

SGIC investment derivatives within the Stable Value Fund contain a portfolio of underlying securities and a benefit responsive wrap contract. The wrap contract produces a floating rate of return that is adjusted periodically, but not below zero, to reflect the underlying investment portfolio and generally provide for participant withdrawals at contract value (principal plus accrued interest). As of September 30, 2019, the fair value of SGIC's underlying investments was \$1.2 billion. The wrap contract did not have a value because the market value of SGIC's underlying investments was higher than SGIC's contract value; therefore, the wrap contract does not have a value.

Michigan
Notes to the Financial Statements

As of September 30, the primary government, excluding pension trust funds, had the following debt securities:

Investment Type	Fair Value	Other Funds Debt Securities (In millions)			
		Investment Maturities (In years)			
		Less Than 1	1 To 5	6 To 10	More Than 10
U.S. Treasury bonds	\$ 300.1	\$ 26.6	\$ 120.5	\$ 104.1	\$ 48.9
Municipal bonds	32.9	4.5	15.3	13.0	-
U.S. bonds - backed	34.2	-	-	-	34.2
U.S. agency bonds - sponsored	9.9	-	-	2.7	7.2
Corporate bonds	304.3	5.1	58.7	185.7	54.8
Mutual funds	2,185.1	24.0	-	2,152.6	8.5
Total	\$ 2,866.4	\$ 60.3	\$ 194.5	\$ 2,458.1	\$ 153.5

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of investments or deposits. The State invests in various global foreign securities. These investments are limited to 30.0 percent of the total assets of the system and are additionally limited to 5.0 percent of the outstanding foreign securities of any single issuer. No investment is allowed in a country that has been identified by the United States State Department as engaging in or sponsoring terrorism.

Michigan
Notes to the Financial Statements

These limits are set forth in MCL Sections 38.1133 and 38.1140. The types of foreign securities include fixed income, equities, mutual funds, real estate, and limited partnerships. At September 30, 2019, total foreign investments were \$12.0 billion. As of September 30, 2019, the State held the following investments subject to foreign currency risk:

		Pension (and Other Employee Benefit) Trust Funds Foreign Currency Risk (In millions)

*International debt securities include derivatives whose market value exposure to foreign currency risk is the net amount of unrealized gains and unrealized losses. Maturity dates on these investments range from October 2019 through June 2020, with an average maturity of .5 years.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributable to the magnitude of a government's investments with a single issuer. Other than obligations issued that are assumed or guaranteed by the United States, its agencies, or United States government-sponsored enterprises, the pension systems are prohibited by MCL Section 38.1137 from investing in more than 5.0 percent of

Michigan
Notes to the Financial Statements

the outstanding obligations of any one issuer or investing more than 5.0 percent of a system's assets in the obligations of any one issuer.

At September 30, 2019, there were no investments in any single issuer that accounted for more than 5.0 percent of the system's assets.

Pension trust fund investments represent 91.0 percent of the total investments of the primary government. Other large holders of investments were the State Lottery Fund (SLF), MESP, and the Michigan Natural Resources Trust Fund.

SLF investments, \$182.5 million, are all in the form of zero coupon U.S. Treasury bonds and State of Michigan Municipal bonds. These investments are held to provide funding for deferred prize awards.

Securities Lending Transactions

The State of Michigan, pursuant to a Securities Lending Authorization Agreement, has authorized State Street Bank and Trust Company ("State Street") to act as agent in lending the State's securities to approved borrowers. State Street, as agent, enters into Securities Loan Agreements with borrowers.

During the fiscal year, State Street lent, on behalf of the State, certain securities of the State held by State Street as custodian and received cash or other collateral including securities issued or guaranteed by the United States government. The types of securities lent were equity, and fixed income, which includes government and corporate bonds and notes. State Street does not have the ability to pledge or sell collateral securities delivered absent a borrower default. Borrowers were required to deliver collateral for each loan equal to at least 100 percent of the market value of the loaned securities.

Pursuant to the Securities Lending Authorization Agreement, State Street had an obligation to indemnify the State in the event of default by a borrower. There were no failures by any borrowers to return loaned securities or pay distributions thereon during the fiscal year that resulted in a declaration or notice of default of the borrower.

During the fiscal year, the State and the borrowers maintained the right to terminate securities lending transactions upon notice. The cash collateral received on each loan was invested, together with the cash collateral of other qualified tax-exempt plan lenders, in a collective investment pool. As of September 30, 2019, the investment pool had an average duration of 6 days and an average weighted final maturity of 124 days for USD. Because the loans were terminable at will their duration did not generally match the duration of the investments made with cash collateral. On September 30, 2019, the State had no credit risk exposure to borrowers. The market value of collateral held and the market value (USD) of securities on loan for the client as of September 30, 2019, was \$3.0 billion and \$2.9 billion, respectively.

At September 30, the pension trust funds had the following debt investments made from cash received as collateral for securities lent:

Investment Type	Debt Investments (In millions)			
	Fair Value	Rating S & P	Fair Value	Rating Moody's
Securities Lending Collateral				
Short-term	\$ 456.1	A-1	\$ 506.1	P-1
	591.5	Unrated	990.5	Unrated
Corporate	208.0	AA	655.8	Aa
	1,681.9	A	804.1	A
	19.0	BBB	-	Baa
Total	\$ 2,956.5		\$ 2,956.5	

Deposits and Investments – Discretely Presented Component Units

Deposits

At year-end, the carrying amount of discretely presented component unit deposits, excluding those classified as investments, was \$799.1 million. The deposits were reflected in the accounts of the banks at \$740.9 million. Of the bank balance, \$561.3 million was uninsured and uncollateralized and therefore exposed to custodial credit risk.

Investments

The investment authority for most discretely presented component units is typically found in their enabling statutes and/or their bond resolutions where applicable. Those component units that are financing authorities generally may invest in government or government-backed securities and deposits. Investment policies for the State universities are typically set forth by their governing boards and include a broad range of investment types. The Michigan Education Trust's (MET) investments are subject to an investment agreement with the State of Michigan Investment Board that allows the Treasurer, acting as agent, to make diverse investments including stocks, bonds, notes, and other investments.

Michigan
Notes to the Financial Statements

Each discretely presented component unit separately issues a publicly available financial report that includes its financial statements and notes to financial statements. GASB Statement No. 72 related disclosures for the investments of discretely presented component units are available within those reports and may be obtained by directly contacting the component unit. To obtain their phone numbers, you may contact the Office of Financial Management at (517) 241-4010.

Restricted Assets

Restricted investments on the government-wide Statement of Net Position, totaling \$820.3 million, represent amounts that are pledged toward the payment of outstanding bonds and notes.

The following table summarizes the investment maturities reported by the discretely presented component units (in millions):

	Fair Value	Investment Maturities (In years)				N/A
		Less Than 1	1 To 5	6 To 10	More Than 10

NOTE 9 – CAPITAL ASSETS

Primary Government

Summary of Significant Accounting Policies

Methods used to value capital assets

Capital assets, which include property, plant, equipment, intangible items (e.g., mineral rights, land rights, and computer software) and infrastructure items (e.g., roads, bridges, ramps, and similar items), are reported in the applicable governmental or business-type activity columns of the government-wide financial statements. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

Capitalization policies

All land and non-depreciable land improvements are capitalized, regardless of cost. Equipment is capitalized when the cost of individual items exceeds \$5.0 thousand, computer software is capitalized when the cost exceeds \$5.0 million, and all other capital assets are capitalized when the cost of individual items or projects exceed \$100.0 thousand.

The costs of normal maintenance and repairs that do not add to the value of assets or materially extend asset lives are not capitalized.

Michigan
Notes to the Financial Statements

Items not capitalized and depreciated

The State possesses certain capital assets that have not been capitalized and depreciated because the assets are held for public exhibition, education, or research in furtherance of public service, rather than financial gain. These assets include works of art and historical treasures such as statues, monuments, historical documents, paintings, forts and lighthouses, rare library books, miscellaneous capitol-related artifacts and furnishings, and the like.

Depreciation and useful lives

Applicable capital assets are depreciated using the straight-line method. Capital assets that were put into service prior to October 1, 2017 had a half-year's depreciation charged in the year of acquisition. Depreciation expense for capital assets put into service after September 30, 2017 is calculated on a daily basis. Agencies assigned useful lives that were most suitable for the particular assets. Estimated useful lives generally were assigned as follows:

Asset	Years
Buildings	5-50
Equipment	2-25
Infrastructure	3-40
Intangibles	6-12
Land Improvements	5-40

Modified approach for infrastructure

The State has elected to use the "modified approach" to account for certain infrastructure assets, as provided in Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments. Under this process, the State does not record depreciation expense nor are amounts capitalized regarding improvements to these assets unless the improvements expand the capacity or efficiency of an asset. Utilization of this approach requires the State to: 1) commit to maintaining and preserving affected assets at or above a condition level established by the State, 2) maintain an inventory of the assets and perform periodic condition assessments to ensure that the condition level is being maintained, and 3) make annual estimates of the amounts that must be expended to maintain and preserve assets at the predetermined condition levels.

Roads, bridges and ramps maintained by the Department of Transportation are accounted for using the modified approach.

Capital asset activities for the fiscal year ended September 30 were as follows (in millions):

	Beginning Balance	Additions	Deletions	Ending Balance
Governmental Activities				
Capital assets, not being depreciated:				
Land	\$ 3,605.7	\$ 25.5	\$ (2.7)	\$ 3,628.4

Less accumulated depreciation	<u>(3,220.8)</u>
Capital Assets, Net - Discretely Presented Component Units	<u>\$ 4,854.2</u>

Service Concession Agreements

Northern Michigan University entered an agreement on July 22, 2016 with a third party developer, Education Realty Trust (EdR), to construct and manage the premises of six resident living-learning community buildings with connectors, housing 1,229 beds, multipurpose meeting spaces, tutoring center, and classrooms. On September 20, 2018 EdR was acquired by Greystar. The project, known as the Woods, has a cost of \$79.6 million and is being built on land owned by the University and leased to Greystar for a 75-year term. Under the terms of the Lease Agreement and the Operating Agreement, Greystar will control, manage, maintain and operate the project and will receive the gross revenue of the project, which consists of substantially all of the revenue and other income received from the operation of the project. Greystar is currently making rental payments to the University for the duration of the lease term based on a percentage of the gross revenue of the project. The University will account for the Lease Agreement as a concession arrangement in accordance with GASB Statement No. 60, Accounting and Financial Reporting for Service Concession Arrangements.

Under the phase-in approach, Phase I consisted of two buildings that opened in August 2017 and two buildings that opened in January 2018. Phase II consisted of two buildings that opened in August 2018. The residence halls are reported as a capital asset with a carrying value of \$75.9 million as of June 30, 2019, and deferred inflows of resources in the amount of \$66.1 million as of June 30, 2019 pursuant to the service concession agreement. The University is responsible for the trash removal and insurance coverage for the term of the contract. As such, the University recorded a liability at June 30, 2019 and 2018 at present value for trash removal and insurance in the amount of \$4.60 million and \$4.65 million, respectively. The 75-year term lease with Greystar includes maintenance standards for the facilities and parameters for the room rental rates for the contract duration. The University will receive a percentage of the total revenues and a share of the net income after Greystar achieves a minimum internal rate of return. The amount of deferred inflow of resources is included in Note 28.

On January 4, 2018, Eastern Michigan University entered into a 35-year lease and concession agreement with Provident Resources. Operations of the agreement began on April 23, 2018. ParkEMU operates the University's parking concession on the concessionaire's behalf. Under the agreement, ParkEMU operates, maintains and retains parking revenues from the University's parking lots and structures. This agreement also regulates the parking rates that may be charged and future increases in these rates. The University received a lump sum payment of \$55.0 million from this agreement and will use the proceeds for University reserves and operations, as necessary.

The lump-sum payment under this service concession agreement is reported as a deferred inflow of resources and is being amortized to operating revenue over the life of the agreement. Deferred inflows related to the parking agreement were \$53.1 million at June 30, 2019. The University reported the parking lots and structures as capital assets with a carrying value of \$14.2 million at June 30, 2019. The amount of deferred inflow of resources is included in Note 28.

NOTE 10 – PENSION BENEFITS

Defined Benefit Pension Plans

The component unit information required to be disclosed in this note is related to the State Employees' Retirement System (SERS) only. All other component units of the State participate in pension plans where the State is not an employer.

The defined benefit pension plans are administered through a trust and follow the disclosure requirements set forth in Governmental Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions.

Plan Description

The State of Michigan administers the following defined benefit pension plans:

Name	Type of Plan	Participating Employers
Legislative Retirement System (LRS)	Single employer	1
State Police Retirement System (SPRS)	Single employer	1
State Employees' Retirement System (SERS)	Single employer	1
Public School Employees' Retirement System (PSERS) ⁽¹⁾	Cost sharing multiple employer	685
Judges' Retirement System (JRS)	Single employer	1
Military Retirement Provisions (MRP)	Single employer	1

(1) The State of Michigan is not an employer within PSERS; therefore, pension plan information is not disclosed in this note.

Each plan is accounted for in a separate pension trust fund and also issues a publicly available financial report that includes financial statements, notes to financial statements, and required supplementary information for that plan. Those reports, except LRS, may be obtained by visiting www.michigan.gov/ors or by calling the Customer Contact Center at (517) 284-4400 or 1-800-381-5111. The LRS report may be obtained by visiting <https://audgen.michigan.gov/completed-projects/> or by calling (517) 373-0575.

As mandated by legislation, all new State of Michigan employees (except Michigan State Police officers) hired on or after March 31, 1997, are members of the State of Michigan Defined Contribution Retirement Plan (Plan) as opposed to the LRS, SERS, and JRS defined benefit plans. Employees hired before that date were given the option of remaining in the defined benefit plan or transferring to the defined contribution plan. The decision is irrevocable and transfers were completed by September 30, 1998. This was a one-time opportunity. With the passage of the legislation permitting the transfer, the LRS, SERS, and JRS defined benefit plans became closed systems. Michigan State Police troopers and sergeants who become a member of SPRS on or after June 10, 2012, are part of the hybrid defined benefit and defined contribution plan. MRP is open to new National Guard members.

Michigan
Notes to the Financial Statements

At September 30, 2018, the measurement date, the following employees were covered by the benefit terms.

	<u>SERS⁽²⁾</u>	<u>LRS</u>	<u>SPRS</u>	<u>JRS</u>	<u>MRP</u>
Inactive employees or beneficiaries currently receiving benefits ⁽³⁾	60,010	262	3,117	544	4,453
Inactive employees entitled to but not yet receiving benefits	3,472	6	43	-	922
Active employees	9,473	1	1,787	95	10,558
DROP program participants ⁽⁴⁾	-	-	213	-	-
Total	<u>72,955</u>	<u>269</u>	<u>5,160</u>	<u>639</u>	<u>15,933</u>

- (2) The component unit employee membership is included within the SERS pension plan. A breakout of the component unit employee membership is unavailable.
- (3) LRS employee count includes 10 domestic relations orders (DRO) alternate payees for 2018. Sometimes a retiree must share their pension benefit when they retire because of a DRO or the DRO could still receive benefits after the retiree associated with the DRO dies, so the DRO is accounted for a separate employee.
- (4) SPRS employee count includes Deferred Retirement Option Plan (DROP) employees. Public Act 83 of 2004 amended the State Police Retirement Act to create a DROP for SPRS members with 25 years of service. This benefit program allows state police who are eligible to retire to defer their retirement and keep working for up to six years.

Basis of Accounting

The financial statements are prepared using the accrual basis of accounting. Contributions from the State are recognized as revenue when due and payable. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

Benefit Payments

State statutes require that the State plans provide certain retirement, disability, death benefits, and annual cost-of-living adjustments to plan members. The LRS life insurance benefits are provided through the defined benefit pension plan and are accounted for as pension benefits. The LRS life insurance benefits are paid on an advance-funded basis. The actuarial cost method and actuarial assumptions are the same as for the pension plan.

Valuation of Plan Investments

Plan investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Corporate bonds not traded on a national or international exchange are based on equivalent values of comparable securities with similar yield and risk. The fair value of private investments is based on the net assets value reported in the financial statements of the respective investment entity. The net asset value is determined in accordance with governing documents of the investment entity and is subject to an independent annual audit. Securities purchased with cash collateral under securities lending activities are recorded at estimated fair value. Other investments not having an established market are recorded at estimated fair value.

Contributions

The statute requires the employer to contribute to finance the benefits of plan members. These employer contributions are determined annually by the System's actuary. For fiscal year 2019, the contribution rates for SERS were 22.0 to 25.9 percent of the defined benefit employee wages and 17.7 percent of the defined contribution employee wages. The contribution rates for SPRS were 60.3 percent and 62.0 percent of the defined benefit employee wages for non-command and command officers, respectively, and 50.8 percent of the hybrid defined benefit and defined contribution employee wages. The Actuarially Determined Contribution was \$2.8 million for JRS, \$4.4 million for MRP, and \$9.3 million for LRS. The employer contribution to SERS, SPRS, JRS, MRP, and LRS for the fiscal year ending September 30, 2019, was \$722.6 million from the primary government and \$8.0 million from its component units (SERS only).

Net Pension Liability

The net pension liability for SERS, SPRS, JRS, MRP, and LRS was measured as of September 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of September 30, 2017, and rolled forward using generally accepted actuarial procedures.

Actuarial Valuations and Assumptions

Actuarial valuations for the pension plans involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and mortality. Amounts determined regarding the funded status of the plan and the Actuarially Determined Contributions are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedules of funding progress present multi-year trend information about whether the actuarial value of plan assets for the pension plans is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point.

Michigan
Notes to the Financial Statements

The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. The actuarial methods and assumptions in the table below are used to calculate the total pension liability.

	LRS	SPRS	SERS	JRS	MRP
Latest actuarial valuation date	9/30/2017	9/30/2017	9/30/2017	9/30/2017	9/30/2017
Actuarial cost method	Entry Age	Entry Age	Entry Age	Entry Age	Entry Age
Amortization method	Level dollar open	Level percent of payroll closed	Level dollar closed	Level dollar closed	Level dollar closed
Remaining amortization period as of October 1, 2017	10 years	19 years	19 years	19 years	21 years
Asset valuation method	Fair value	Fair value	Fair value	Fair value	Fair value
Actuarial assumption:					
Investment rate of return	4.8%	7.1% Non-hybrid 7.0% Hybrid	7.0%	6.8%	6.8%
Projected salary increases	4.0%	3.3 – 87.8%	2.8 – 11.8%	3.3%	2.8%
Includes wage inflation at	4.0%	2.8%	2.8%	2.8%	2.8%
Cost-of-living adjustments	4.0% annual compounded (non-compounded for legislators who first became members after 1/1/1995)	2.0% annual non-compounded max. annual increase \$500	3.0% annual non-compounded with max. annual increase \$300	Assumed 3.3% compounded for those eligible	Assumed 2.8% compounded for those eligible

Actuarial Assumptions Changes

Assumption changes as a result of an experience study for the period 2012 through 2017 have been adopted for use in the annual pension valuations beginning with the September 30, 2018, valuations for SERS, SPRS, and JRS. Assumption changes as a result of an experience study for the period 2015 through 2017 have been adopted for use in the annual pension valuations beginning with the September 30, 2018, valuation for MRP. The mortality tables, which are used to measure the probabilities of each benefit payment being made after retirement, changed for SERS, SPRS, MRP, LRS and JRS. The rates of early retirement, used to measure the probability of eligible members retiring with reduced retirement benefits during the next year, decreased for SERS. The rates of regular retirement table, which is used to measure the probability of eligible members retiring during the next year, changed for SERS, SPRS, JRS and MRP. The rates of separation from active membership table, which is used to measure the probabilities of members remaining in employment, changed for SERS, SPRS and MRP. The rates of pay increase table, used to project a member's current pay to the pay upon which System benefits will be based, changed for SERS, SPRS, MRP and JRS.

The investment return assumption was lowered from 7.0 percent to 6.7 for SERS, 7.1 percent to 6.8 for SPRS Non-Hybrid plan, 7.0 percent to 6.9 percent for SPRS Hybrid plan, 7.5 percent to 6.8 percent for MRP, and 6.8 percent to 6.3 for JRS for use in the annual funding valuations beginning with the September 30, 2018, valuations. The September 30, 2018, funding valuation will establish the actuarially determined contribution amounts for fiscal year 2021 for SERS, SPRS, and MRP and fiscal year 2019 for JRS and LRS.

Long-Term Expected Return on Plan Assets

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2018, are summarized in the following table:

Asset Allocation for SERS, SPRS, JRS, and MRP

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return*
Domestic Equity Pools	28.0 %	5.7 %
Private Equity Pools	18.0	9.2
International Equity Pools	16.0	7.2
Fixed Income Pools	10.5	0.5
Real Estate & Infrastructure Pools	10.0	3.9
Absolute Return Pools	15.5	5.2
Short Term Investment Pools	2.0	-
Total	100.0 %	

*Long-term Rate of Returns are net of administrative expenses and 2.3 percent inflation.

Asset Allocation for LRS

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return**
Large Cap Equity	27.0 %	4.5 %
Small Cap Equity	13.0	5.5
International Developed Equity	11.0	7.0
International Small Cap Equity	5.0	7.0
Emerging Markets	9.0	9.0
Fixed Income	18.0	2.2
Hedge Fund	5.0	5.2
Public Natural Resources	10.0	7.0
Cash	2.0	1.6
Total	100.0 %	

**Real rate of return is based on investment manager inflation assumption of 2.2 percent.

Rate of Return

For the year ended September 30, 2018, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 11.1 percent for SERS, SPRS, and JRS, 9.5 percent for MRP, and 6.6 percent for LRS. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Discount Rate

For SERS, a discount rate of 7.0 percent, compared to a prior year rate of 7.5 percent, was used to measure the total pension liability. This discount rate was based on the long-term expected rate of return on pension plan investments of 7.0 percent. For SPRS, a discount rate of 7.1 percent, compared to a prior year rate of 7.5 percent, was used to measure the total pension liability (7.0 percent for the Pension Plus Plan). This discount rate was based on the long-term expected rate of return on pension plan investments of 7.1 percent (7.0 percent for the Pension Plus Plan). For MRP and JRS, a discount rate of 6.8 percent, compared to a prior year rate of 7.5 percent and 8.0 percent, respectively, was used to measure the total pension liability. This discount rate was based on the long-term expected rate of return on pension plan investments of 6.8 percent. The projection of cash flows used to determine this discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

For LRS, the single discount rate used to measure the total pension liability increased to 4.8 percent, compared to the prior year's rate of 4.4 percent. This single discount rate was based on an expected rate of return on pension plan investments of 7.0 percent and a municipal bond rate of 3.8 percent (the municipal bond rate is based on an index of twenty-year general obligation bonds with average AA credit ratings, which is published by the Federal Reserve). The projection of cash flows used to determine this single discount rate assumes that plan member contributions will be made at the current contribution rate and that employer

Michigan
Notes to the Financial Statements

contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position and future contributions were sufficient to finance the benefit payments through the year 2031. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2031, and the municipal bond rate was applied to all benefit payments after 2031.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents SERS's net pension liability, calculated using a discount rate of 7.0 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current discount rate (in thousands):

	<u>1% Decrease</u> 6.0%	<u>Current Discount</u> 7.0%	<u>1% Increase</u> 8.0%
SERS Net Pension Liability/(Asset)	\$ 7,909,239.3	\$ 6,046,885.9	\$ 4,460,823.0

The following presents SPRS's net pension liability, calculated using a discount rate of 7.1 percent (7.0 percent for Pension Plus Plan), as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current discount rate (in thousands):

	<u>1% Decrease</u> 6.1%/6.0%	<u>Current Discount</u> 7.1%/7.0%	<u>1% Increase</u> 8.1%/8.0%
SPRS Net Pension Liability/(Asset)	\$ 953,795.1	\$ 704,753.5	\$ 498,185.2

The following presents JRS and MRP's net pension liability, calculated using a discount rate of 6.8 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current discount rate (in thousands):

	<u>1% Decrease</u> 5.8%	<u>Current Discount</u> 6.8%	<u>1% Increase</u> 7.8%
MRP Net Pension Liability/(Asset)	\$ 41,683.3	\$ 35,523.9	\$ 30,449.6
JRS Net Pension Liability/(Asset)	22,443.7	707.2	(18,129.2)

The following presents LRS's net pension liability, calculated using a discount rate of 4.8 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current discount rate (in thousands):

	<u>1% Decrease</u> 3.8%	<u>Current Discount</u> 4.8%	<u>1% Increase</u> 5.8%
LRS Net Pension Liability/(Asset)	\$ 143,998.4	\$ 114,239.5	\$ 89,674.6

Michigan

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2019, the State recognized pension expense related to the primary government and its component units of \$1,844.3 million and \$22.1 million, respectively. Pension expense by plan is listed in the table below (in millions):

Plan	Primary Government	Component Unit
SERS	\$ 1,734.8	\$ 22.1
SPRS	93.9	-
MRP	(5.1)	-
LRS	(0.1)	-
JRS	20.9	-
Total	\$ 1,844.3	\$ 22.1

The total reported deferred outflows of resources and deferred inflows of resources related to pensions, including component units, are identified in Note 28. For each plan, the deferred outflows of resources and deferred inflows of resources related to pensions are in the table below (in millions):

	Primary Government					Component Unit	Total
	SERS	SPRS	MRP	LRS	JRS	SERS Only	
Deferred Outflows of Resources:							
Difference between expected and actual experience	\$ -	\$ 18.1	\$ 0.6	\$ -	\$ -	\$ -	\$ 18.7
Changes of assumptions	-	135.7	3.5	-	-	-	139.2
Net difference between projected and actual earnings on pension plan investments	-	-	0.4	-	-	-	0.4
Contributions subsequent to the measurement date	592.1	78.5	41.0	8.1	2.8	8.0	730.5
Total Deferred Outflows of Resources:	\$ 592.1	\$ 232.4	\$ 45.5	\$ 8.1	\$ 2.8	\$ 8.0	\$ 888.8
Deferred Inflows of Resources:							
Difference between expected and actual experience	\$ -	\$ -	\$ 0.5	\$ -	\$ -	\$ -	\$ 0.5
Changes of assumptions	-	-	8.1	-	-	-	8.1
Net difference between projected and actual earnings on pension plan investments	509.8	61.8	-	1.9	10.5	6.8	590.8
Total Deferred Inflows of Resources:	\$ 509.8	\$ 61.8	\$ 8.6	\$ 1.9	\$ 10.5	\$ 6.8	\$ 599.4

Michigan
Notes to the Financial Statements

Amounts reported as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended September 30, 2020. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows (amounts in millions):

Year Ended September 30	Primary Government Pension Expense Amount					Component Unit Pension Expense Amount	Total
	SERS	SPRS	MRP	LRS	JRS	SERS Only	
2020	\$ (56.6)	\$ 44.3	\$ (6.0)	\$ 1.5	\$ (0.9)	\$ (0.8)	\$ (18.5)
2021	(180.3)	28.1	0.8	(1.9)	(3.9)	(2.4)	(159.6)
2022	(191.3)	12.5	1.0	(1.4)	(4.1)	(2.5)	(186.0)
2023	(81.6)	7.2	0.1	0.0	(1.6)	(1.1)	(76.9)

Currently, deferred outflows and inflows of resources related to pensions that will be recognized in pension expense do not extend beyond the four years identified in the table above.

Defined Contribution Pension Plans

State of Michigan Defined Contribution Retirement Plan

The Plan, now within the State of Michigan 401K Plans Fund, was established to provide benefits at retirement to employees of the State who were hired after March 31, 1997, Michigan State Police officers hired on or after June 10, 2012, Public School Reporting Units members hired after July 1, 2010, and to those members of SERS (defined benefit) and eligible members of the Education Achievement Authority (EAA), JRS, and LRS who elected to transfer to this Plan. The Plan is administered by the Department of Technology, Management and Budget. Michigan Compiled Laws Section 38.686 created the State of Michigan Personal Healthcare Fund for State employees hired after January 1, 2012, and those who elected to transfer to this plan.

The State is required to contribute 4.0 percent of annual covered payroll. The State is also required to match employee contributions up to 3.0 percent of annual covered payroll. The Plan provides for eligible public school reporting units and the Michigan State Police to make a mandatory contribution of 50.0 percent of participants' voluntary contributions up to 1.0 percent of compensation. The Plan also provides for the EAA to make a mandatory contribution of 100 percent of participants' voluntary contributions up to 7.5 percent of compensation. In addition, the Plan provides a Personal Healthcare Fund for State of Michigan employees hired on or after January 1, 2012, Michigan State Police officers hired on or after June 10, 2012, and Public School employees hired on or after September 4, 2012, with an employer match of up to 2.0 percent of compensation. State of Michigan employees hired prior to January 1, 2012, who elected to transfer to this plan received an employer match up to 2.0 percent of future compensation plus a monetized amount for existing years of service distributed on termination. Plan provisions and contribution requirements are established and may be amended by the Legislature. The reports may be obtained by visiting www.michigan.gov/ors or by calling (517) 284-4400.

Employees are immediately vested in their own contributions and earnings on those contributions and become vested in the State contributions and earnings on State contributions after completion of 48 months of credited service with the State. Nonvested contributions are forfeited upon termination of employment. Forfeitures are used to offset future State contributions and pay administrative expenses of the Plan. For the year ended September 30, 2019, the State recognized pension expense of \$215.2 million. For the year ended September 30, 2019, forfeitures reduced the State's pension expense by \$11.8 million.

Component Units

In addition to the PSERS, the state university component units participate in a defined contribution multiple-employer pension plan primarily administered by the Teachers' Insurance and Annuity Association and College Retirement Equities Fund (TIAA-CREF) and also, in some cases, Fidelity Investments. The state university component units are required to contribute between 4.0 percent and 15.0 percent of annual covered payroll, as determined by each institution's employment agreements. The total contribution to the TIAA-CREF and Fidelity Investments for all state university component units was \$114.6 million for the year ending June 30, 2019.

Additional plan information may be found in the separately issued financial reports of the state university component units.

Effective January 1, 2004, the State Bar of Michigan assumed responsibility for the retirement plans of State Bar employees who participated in the Plan. All monies held in the Plan on behalf of participating State Bar employees were subsequently transferred to the newly established State Bar 401(a) retirement plan and the 457(b) retirement plan. The State Bar of Michigan is required to make minimum contributions and may establish other benefit provisions for their retirement plans. The State Bar of Michigan's contribution to the new plans was \$0.3 million for the year ending September 30, 2019.

Additional information for the retirement plan can be obtained by contacting the State Bar at (517) 346-6300.

NOTE 11 – OTHER POSTEMPLOYMENT BENEFITS

Other Postemployment Benefit Plans

The component unit information required to be disclosed in this note is related to the State Employees' Retirement System (SERS) and Postemployment Life Insurance Benefit (PELIB) plan. All other component units of the State participate in Other Postemployment Benefit plans (OPEB) where the State is not an employer.

The other postemployment benefit plans are administered through a trust and follow the disclosure requirements set forth in Governmental Accounting Standards Board (GASB) Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.

Plan Description

The State of Michigan administers the following OPEB plans:

Name	Type of Plan	Participating Employers
Legislative Retirement System (LRS)	Single employer	1
State Police Retirement System (SPRS)	Single employer	1
State Employees' Retirement System	Single employer	1
Public School Employees' Retirement System (PSERS) ⁽¹⁾	Cost sharing multiple employer	685
Judges' Retirement System (JRS)	Single employer	1
Postemployment Life Insurance Benefit ⁽²⁾	Single employer	1

- (1) The State of Michigan is not an employer within PSERS; therefore, OPEB plan information is not disclosed in this note.
- (2) Postemployment Life Insurance Benefit plan is not administered through a trust but follows the disclosure requirements set forth in GASB Statement No. 75.

Each plan, except for PELIB, is accounted for in a separate OPEB trust fund and also issues a publicly available financial report that includes financial statements, notes to financial statements, and required supplementary information for that plan. Those reports, except LRS, may be obtained by visiting www.michigan.gov/ors or by calling the Customer Contact Center at (517) 284-4400 or 1-800-381-5111. The LRS report may be obtained by visiting <https://audgen.michigan.gov/completed-projects/> or by calling (517) 373-0575. The PELIB information is included in a separate section at the end of this note.

Pursuant to Michigan Public Act 200 of 2011, the LRS OPEB plan became closed. All qualified participants must have completed six years of service before January 1, 2013, to qualify for health insurance in the plan.

At September 30, 2018, the measurement date, the following employees were covered by the benefit terms:

	SERS ⁽³⁾	LRS	SPRS	JRS
Eligible participants ⁽⁴⁾	60,090	380	2,901	54
Participants receiving benefits:				
Health ⁽⁴⁾	52,305	355	2,779	39
Dental	53,408	-	2,772	-
Vision	53,213	-	2,773	-
Active members	49,453	24	1,787	38
Inactive vested members ⁽⁵⁾	7,185	-	256	5
Deferred participants	-	59	-	-

- (3) The component unit employee membership is included within the SERS OPEB plan. A breakout of the component unit employee membership is unavailable.
- (4) LRS employee count includes 103 defined contribution participants at September 30, 2018 who are receiving health care insurance through the System in accordance with state statute. At September 30, 2018, the number of defined contribution participants who were eligible for health care insurance but declined to receive the benefits were 24.
- (5) SPRS employee count includes Deferred Retirement Option Plan (DROP) employees. Public Act 83 of 2004 amended the State Police Retirement Act to create a DROP for SPRS members with 25 years of service. This benefit program allows state police who are eligible to retire to defer their retirement and keep working for up to six years.

Basis of Accounting

The financial statements are prepared using the accrual basis of accounting. Contributions from the State are recognized as revenue when due and payable. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

Benefit Payments

State statutes require that the State provide certain OPEB benefits to many of its retired employees. Health, dental, and vision benefits as well as life insurance coverage are provided to retirees. SERS no longer gives health, medical, and dental benefits to employees hired on or after January 1, 2012, or to those employees that elected the Personal Healthcare Fund. SPRS no longer gives health, medical, and dental benefits to employees hired on or after June 10, 2012, or to those employees that elected the Personal Healthcare Fund. These employees receive contributions to the Personal Healthcare Fund (as described in Note 10).

Valuation of Plan Investments

Plan investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Corporate bonds not traded on a national or international exchange are based on equivalent values of comparable securities with similar yield and risk. The fair value of private investments is based on the net assets value reported in the financial statements of the respective investment entity. The net asset value is determined in accordance with governing documents of the investment entity and is subject to an independent annual audit. Securities purchased with cash collateral under securities lending activities are recorded at estimated fair value. Other investments not having an established market are recorded at estimated fair value.

Contributions

The statute requires the employer to contribute to finance the benefits of plan members. These employer contributions are determined annually by the System's actuary. For fiscal year 2019, the contribution rates for SERS were 23.8 percent of the defined benefit employee wages and the defined contribution employee wages. The contribution rate for SPRS was 43.6 percent of wages for defined benefit non-command and command officers and for hybrid defined benefit and defined contribution employees. The actuarially determined contribution was \$0.8 million for JRS and \$10.2 million for LRS. The employer contribution to SERS, SPRS, JRS, and LRS for the fiscal year ending September 30, 2019, was \$832.9 million from the primary government and \$9.4 million from its component units (SERS only).

Net OPEB Liability

The net OPEB liability for SERS, SPRS, JRS, and LRS was measured as of September 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of September 30, 2017, and rolled forward using generally accepted actuarial procedures.

Actuarial Valuations and Assumptions

Actuarial valuations for the OPEB plans involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. The schedules of funding progress present multi-year trend information about whether the actuarial value of plan assets for the OPEB plans is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point.

Michigan
Notes to the Financial Statements

The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. The actuarial methods and assumptions in the table below are used to determine the net OPEB liability.

	LRS	SPRS	SERS	JRS
Latest actuarial valuation date	9/30/2017	9/30/2017	9/30/2017	9/30/2017
Actuarial cost method	Entry Age	Entry Age	Entry Age	Entry Age
Amortization method	Level dollar closed	Level percent of payroll closed	Level percent of payroll closed	Level percent of payroll closed
Remaining amortization period as of October 1, 2017	23 years	19 years	19 years	19 years
Asset valuation method	Fair Value	Fair Value	Fair Value	Fair Value
Actuarial assumption:				
Investment rate of return	4.0%	7.0%	7.0%	7.0%
Projected salary increases	4.0%	3.3 - 87.8%	2.8 - 11.8%	3.3%
Includes wage inflation at	4.0%	2.8%	2.8%	2.8%
Healthcare cost trend rate	8.8% Year 1 grading to 4.0% Year 10	8.3 % Year 1 graded to 3.0% Year 10	8.3% Year 1 graded to 3.0% Year 10	9.0% Year 1 graded to 3.0% Year 11

Actuarial Assumptions Changes

Assumption changes as a result of an experience study for the period 2012 through 2017 have been adopted for use in the annual OPEB valuations beginning with the September 30, 2018, valuations for SERS, SPRS, and JRS. The mortality tables, which are used to measure the probabilities of each benefit payment being made after retirement, changed for SERS, SPRS, LRS and JRS. The rates of early retirement, used to measure the probability of eligible members retiring with reduced retirement benefits during the next year, decreased for SERS. The rates of regular retirement table, which is used to measure the probability of eligible members retiring during the next year, changed for SERS, SPRS, and JRS. The rates of separation from active membership table, which is used to measure the probabilities of members remaining in employment, changed for SERS and SPRS. The rates of pay increase table, used to project a member's current pay to the pay upon which System benefits will be based, changed for SERS, SPRS, MRP and JRS.

In accordance with directions provided by the Office of Retirement Services, the investment return assumption was lowered from 7.5 percent to 7.4 percent for SPRS and SERS for use in the annual funding valuations beginning with the September 30, 2017, valuation. For use in the annual funding valuations beginning with the September 30, 2018, valuation, the investment return assumption was lowered from 7.4 percent to 6.9 percent for SPRS and SERS. The investment return assumption was lowered from 8.0 percent to 7.5 percent for JRS for use in the annual funding valuations beginning with the September 30, 2017, valuation. For use in the annual funding valuations beginning with the September 30, 2018, valuation, the investment return assumption was lowered from 7.5 percent to 7.0 percent for JRS. The September 30, 2018, funding valuation will establish the actuarially determined contribution amounts for fiscal year 2021 for SERS and SPRS and for the fiscal year 2019 for JRS and LRS.

Long-Term Expected Return on Plan Assets

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the OPEB plan's target asset allocation as of September 30, 2018, are summarized in the following table:

Asset Allocation for SERS, SPRS, and JRS

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return*
Domestic Equity Pools	28.0%	5.7%
Private Equity Pools	18.0	9.2
International Equity Pools	16.0	7.2
Fixed Income Pools	10.5	0.5
Real Estate & Infrastructure Pools	10.0	3.9
Absolute Return Pools	15.5	5.2
Short Term Investment Pools	2.0	-
Total	<u>100.0%</u>	

*Long-term Rate of Returns are net of administrative expenses and 2.3 percent inflation.

Asset Allocation for LRS

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return**
Large Cap Equity	27.0%	4.5%
Small Cap Equity	13.0	5.5
International Developed Equity	11.0	7.0
International Small Cap Equity	5.0	7.0
Emerging Markets	9.0	9.0
Fixed Income	18.0	2.2
Hedge Fund	5.0	5.2
Public Natural Resources	10.0	7.0
Cash	2.0	1.6
Total	<u>100.0%</u>	

**The arithmetic rates of return were provided by the System's investment consultant along with a 2.2 percent price inflation assumption.

Rate of Return

For the year ended September 30, 2018, the annual money-weighted rate of return on OPEB plan investments, net of OPEB plan investment expense, was 10.9 percent for SERS, 10.8 percent for SPRS, 9.3 percent for JRS, and 10.3 percent for LRS. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Discount Rate

For SERS and SPRS a discount rate of 7.0 percent was used to measure the total OPEB liability, compared to a prior year rate of 7.5 percent. For JRS, a discount rate of 7.0 percent was used to measure the total OPEB liability, compared to a prior year rate of 8.0 percent. This discount rate was based on the long-term expected rate of return on OPEB plan investments of 7.0 percent. The projection of cash flows used to determine this discount rate assumed that plan member contributions would be made at the current contribution rate and that employer contributions would be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the OPEB plans' fiduciary net positions were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Michigan
Notes to the Financial Statements

For LRS, the single discount rate of 4.0 percent, compared to a prior year rate of 3.7 percent, was used to measure the total OPEB liability. This single discount rate was based on an expected rate of return on OPEB plan investments of 7.0 percent and a municipal bond rate of 3.8 percent (the municipal bond rate is based on an index of twenty-year general obligation bonds with average AA credit ratings, which is published by the Federal Reserve). The projection of cash flows used to determine this single discount rate assumes that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the OPEB plan's fiduciary net position and future contributions were sufficient to finance the benefit payments through the year 2025. As a result, the long-term expected rate of return on OPEB plan investments was applied to projected benefit payments through the year 2025, and the municipal bond rate was applied to all benefit payments after that date.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents SERS, SPRS, and JRS's net OPEB liability, calculated using a discount rate of 7.0 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current discount rate (in thousands):

	1% Decrease 6.0%	Current Discount 7.0%	1% Increase 8.0%
SERS Net OPEB Liability	\$ 9,163,805.2	\$ 7,935,180.4	\$ 6,904,702.7
SPRS Net OPEB Liability	674,459.7	578,424.9	499,118.1
JRS Net OPEB Liability	8,381.4	7,507.1	6,755.3

The following presents LRS's net OPEB liability, calculated using a discount rate of 4.0 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current discount rate (in thousands):

	1% Decrease 3.0%	Current Discount 4.0%	1% Increase 5.0%
LRS Net OPEB Liability	\$ 195,519.0	\$ 163,663.0	\$ 138,584.8

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Trend Rate

The following presents SERS and SPRS's net OPEB liability, calculated using a healthcare trend rate of 8.3 percent graded to 3.0 percent, as well as what the net OPEB liability would be if it were calculated using a healthcare trend rate that is one percentage point lower or one percentage point higher than the current trend rate (in thousands):

	1% Decrease	Current Healthcare Cost Trend Rate Assumption	1% Increase
SERS Net OPEB Liability	\$ 6,842,013.3	\$ 7,935,180.4	\$ 9,205,334.5
SPRS Net OPEB Liability	494,934.5	578,424.9	676,983.5

The following presents JRS's net OPEB liability (asset), calculated using a healthcare trend rate of 9.0 percent graded to 3.0 percent, as well as what the net OPEB liability would be if it were calculated using a healthcare trend rate that is one percentage point lower or one percentage point higher than the current trend rate (in thousands):

	1% Decrease	Current Healthcare Cost Trend Rate Assumption	1% Increase
JRS Net OPEB Liability	\$ 6,718.3	\$ 7,507.1	\$ 8,397.3

The following presents LRS's net OPEB liability, calculated using a healthcare trend rate of 8.8 percent graded to 4.0 percent, as well as what the net OPEB liability would be if it were calculated using a healthcare trend rate that is one percentage point lower or one percentage point higher than the current trend rate (in thousands):

	1% Decrease	Current Healthcare Cost Trend Rate Assumption	1% Increase
LRS Net OPEB Liability	\$ 137,781.7	\$ 163,663.0	\$ 195,976.4

Michigan

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended September 30, 2019, the State recognized OPEB expense related to the primary government and its component units of \$628.1 million and \$7.4 million, respectively. OPEB expense for SERS, SPRS, LRS, and JRS is listed by plan in the table below (in millions):

Plan	Primary Government	Component Units
SERS	\$ 584.6	\$ 7.4
SPRS	42.9	-
LRS	(0.3)	-
JRS	1.0	-
Total	\$ 628.1	\$ 7.4

Michigan
Notes to the Financial Statements

The total reported deferred outflows of resources and deferred inflows of resources related to OPEB, including component units, are identified in Note 28. For each plan, the deferred outflows of resources and deferred inflows of resources related to OPEB for SERS, SPRS, LRS, and JRS are in the table below (in millions):

	Primary Government				Component Units	
	SERS	SPRS	LRS	JRS	SERS Only	Total
Deferred Outflows of Resources:						
Difference between expected and actual experience	\$ -	\$ -	\$ -	\$ 0.3	\$ -	\$ 0.3
Changes of assumptions	653.2	21.4	-	0.8	8.7	684.1
Changes in proportion and differences between employer contributions and proportionate share of contributions	11.7	-	-	-	3.0	14.7
Contributions subsequent to the measurement date	755.8	60.4	9.1	7.6	9.4	842.3
Total Deferred Outflows of Resources:	<u>\$ 1,420.7</u>	<u>\$ 81.8</u>	<u>\$ 9.1</u>	<u>\$ 8.6</u>	<u>\$ 21.2</u>	<u>\$ 1,541.4</u>
Deferred Inflows of Resources:						
Difference between expected and actual experience	\$ 899.4	\$ 59.9	\$ -	\$ -	\$ 12.0	\$ 971.3
Net difference between projected and actual earnings on pension plan investments	104.4	8.0	0.6	-	1.4	114.4
Changes in proportion and differences between employer contributions and proportionate share of contributions	49.1	-	-	-	5.3	54.5
Total Deferred Inflows of Resources:	<u>\$ 1,052.9</u>	<u>\$ 67.9</u>	<u>\$ 0.6</u>	<u>\$ 0.1</u>	<u>\$ 18.7</u>	<u>\$ 1,140.2</u>

Amounts reported as deferred outflows of resources related to OPEB resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended September 30, 2020. Other amounts reported as deferred outflows and inflows of resources related to OPEB for SERS, SPRS, LRS, and JRS will be recognized in OPEB expense as follows (amounts in millions):

Year Ended September 30	Primary Government OPEB Expense Amount				Component Units OPEB Expense Amount	
	SERS	SPRS	LRS	JRS	SERS Only	Total
2020	\$ (96.1)	\$ (11.9)	\$ (0.2)	\$ 0.4	\$ (1.7)	\$ (109.5)
2021	(96.1)	(11.9)	(0.2)	0.4	(1.7)	(109.5)
2022	(96.1)	(11.7)	(0.2)	0.2	(1.7)	(109.5)
2023	(78.2)	(9.7)	-	-	(1.4)	(89.3)
2024	(21.6)	(1.2)	-	-	(0.5)	(23.3)

Currently, deferred outflows and inflows of resources related to OPEB that will be recognized in OPEB expense do not extend beyond the five years identified in the table above.

Postemployment Life Insurance Benefit

Plan Description

The State of Michigan provides PELIB to eligible individuals upon retirement from State employment. Members of SERS, SPRS, JRS, and certain members of the Military Retirement Provisions (MRP) may receive a life insurance benefit if they meet the benefit eligibility requirements. PELIB is a single-employer, state-wide, defined benefit OPEB plan. The State contracts with Minnesota Life to administer the payout of life insurance benefits. PELIB is administered by the Michigan Civil Service Commission under Article XI, Section 5 of the Michigan Constitution of 1963 and Michigan Civil Service Commission Rule 5-11.

Activity of PELIB is accounted for in the State Sponsored Group Insurance Fund (Fund), an internal service fund in the State of Michigan Comprehensive Annual Financial Report (SOMCAFR). The Fund was administratively established to account for employee insurance benefit programs, which are largely self-funded. Five group insurance programs are offered to State employees: health, dental, vision, long-term disability, and life.

PELIB is not a trust and has no plan assets.

Benefits Provided

The State's group policy with Minnesota Life includes any active employee in the category of classified State service with an appointment of at least 720 hours duration, but excluding employees with non-career appointments and those working less than 40.0 percent of full time; any active official or active unclassified employee of the State who has been approved for coverage by the Civil Service Commission; any retired employee or official who was insured under this policy or the prior policies it replaced prior to entry into a State Retirement System; and Wayne County employees who a) were State Judicial Council employees on October 1, 1996, and whose employment was transferred to the Recorder's Court on October 1, 1996, and b) whose employer subsequently became the Wayne County Clerk's Office.

Eligible retirees are provided with life insurance coverage equal to 25.0 percent of the active life insurance coverage (which amount is rounded to the next higher \$100 provided the retiree retired after July 1, 1974), \$1,000 for spouse and \$1,000 for each dependent under age 23. The active life insurance amount is either a) two times the employee's basic annual salary, the result rounded to the next higher \$1,000 if not already a multiple thereof, with a minimum of \$10,000 and a maximum of \$200,000; or b) one times the employee's basic annual salary, the result rounded to the next higher \$1,000 if not already a multiple thereof, with a minimum of \$10,000 and a maximum of \$50,000.

Contributions

The State contributes 100 percent of the premiums for employee and retiree life insurance coverage. The premium rates for fiscal year 2018 and fiscal year 2019 were 28.0 cents for each \$1,000 of coverage of active payroll. The employee contributes 100.0 percent of the premiums for dependent life coverage, and an employee must have been enrolled in dependent life insurance to maintain eligibility for dependent coverage as a retiree. The State is liable for benefit payments that exceed premiums paid. The Michigan Civil Service Commission is responsible for establishing and amending funding policies. The employer contribution to PELIB for retirees and their eligible dependents for the fiscal year ending September 30, 2019, was \$32.9 million from the primary government and \$0.4 million from its component units.

More specific information concerning eligibility requirements, benefit level, and funding policies is included in employee collective bargaining agreements, benefit plan booklets, and rules and regulations issued by the Michigan Civil Service Commission.

Net OPEB Liability

The net OPEB liability for PELIB was measured as of September 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of September 30, 2017, and rolled forward using generally accepted actuarial procedures.

Actuarial Valuations and Assumptions

Actuarial valuations for PELIB involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and mortality.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities consistent with the long-term perspective of the calculations.

Summary of Actuarial Assumptions

Valuation Date:	September 30, 2017
Actuarial Cost Method:	Individual Entry-Age
Wage Inflation Rate:	3.5%
Investment Rate of Return (discount rate):	3.8% per year

Mortality: Healthy Life and Disabled Life Mortality (Percentages of the Male and Female rates used in the pension valuations):

Plan	Percent of Male Rates	Percent of Female Rates
SERS	115%	121%
SPRS	111	121
JRS	120	128
MRP	111	121

Claims Incurred But Not Reported (IBNR): A liability equal to 25.0 percent of expected first year cash flow was held for postemployment life insurance benefits claims IBNR.

Michigan
Notes to the Financial Statements

Spouse Benefits for Future Retirees: The liabilities for active members were loaded to account for potential postemployment life insurance benefits payable to spouses of future retirees as follows:

SERS plan members:	3.0%
SPRS Non-Hybrid plan members:	2.0%
SPRS Hybrid plan members:	4.0%
JRS plan members:	1.0%
Special Duty Officer members:	1.0%

Spouse Benefits for Current Retirees: Data regarding postemployment life insurance benefits coverage for spouses of current retirees was not available. Liabilities for retired members were loaded to account for postemployment life insurance benefits payable to the spouses of current retirees as follows:

SERS retirees:	4.0%
SPRS retirees:	3.0%
JRS retirees:	2.0%
Special Duty Officer retirees:	2.0%

Opt Out Factors: The data provided to the actuary for this valuation indicates that a portion of JRS members are not members of PELIB. Approximately 52.0 percent of JRS active members participate in the Program. A list of current retiree members of JRS who participate in PELIB was not available. JRS retiree member liabilities were developed by multiplying total potential JRS retiree liabilities by 52.0 percent.

Compensation: For some SERS retirees, final average compensation (FAC) was not reported. The FAC for these members was assumed to be \$51,045 (the average of all SERS retiree records reported with FAC).

For purposes of valuing the postemployment life insurance benefit policies for retirees, base wage at retirement was not available and was approximated by applying a factor to the reported FAC at retirement. The factor used to cover an FAC to a base wage is based on the length of the FAC period for each group. The factor used for each affected plan follows:

SERS	Conservation:	0.983092 (2 year FAC)
	Corrections and All Others:	0.966565 (3 year FAC)
SPRS	Non-Hybrid:	0.983092 (2 year FAC)
	Hybrid:	0.934616 (5 year FAC)

For SERS defined contribution plan retirees, compensation at retirement and other information was not provided to the actuary. The postemployment life insurance benefit policies for this group were assumed to have the same average value as the policies for retirees in the SERS defined benefit plan.

Other: The face values of PELIB policies currently in force were requested by the actuary but were not available for use in this valuation. The actuary estimated the value of the PELIB policies for retirees as follows:

Individuals retired after July 1974: 50.0 percent of compensation at retirement (compensation reported for the 2017 retirement system valuations)

Individuals retired on or before July 1974: A minimum benefit of \$1,000 and a maximum benefit of \$5,000 for an average of \$3,000

Spousal benefits \$1,000

Data for current retiree members of PELIB was not available for use in this valuation. All current retiree members of the retirement plans deemed eligible for postemployment life insurance benefits and reported in connection with the 2017 retirement valuations were included in this valuation of PELIB.

Discount Rate

A discount rate of 3.8 percent was used to measure the ending total OPEB liability for PELIB as of September 30, 2018. This discount rate was based on the tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date since PELIB has no assets. The municipal bond rate of 3.5 percent was used for determining the beginning total OPEB liability for PELIB as of September 30, 2017. For the prior valuation, dated September 30, 2016, the discount rate used was 3.5 percent. A decrease in the discount rate used affects the measurement of total OPEB liability for PELIB by increasing its total OPEB liability.

Michigan
Notes to the Financial Statements

Total OPEB Liability for Postemployment Life Insurance Benefits

PELIB total liability is measured as the total liability, less the amount of the PELIB net position. In actuarial terms, this is the accrued liability less the market value of assets. PELIB has no assets (amounts below are in millions).

Total OPEB Liability as of September 30, 2017	\$	1,279.2
Total OPEB Liability as of September 30, 2018		1,249.4
Total Covered Payroll		3,154.5
Total Liability as a Percentage of Covered Payroll		39.6%

Sensitivity of the Total OPEB Liability for Postemployment Life Insurance

The following table presents total OPEB liability for PELIB, calculated using a Single Discount Rate of 3.8 percent, as well as what the total OPEB liability would be if it were calculated using a Single Discount Rate that is one percent lower or one percent higher (in thousands):

	1% Decrease <u>2.8%</u>	Current Discount <u>3.8%</u>	1% Increase <u>4.8%</u>
PELIB Net OPEB Liability	\$ 1,460,788.3	\$ 1,249,369.8	\$ 1,080,488.9

Changes in the Total OPEB Liability

The amounts included in the table below are related to PELIB (in millions):

	Primary Government Increase (Decrease) <u>Total OPEB Liability (a)</u>	Primary Component Units Increase (Decrease) <u>Total OPEB Liability (a)</u>
Balances at 9/30/2018	\$ 1,262.9	\$ 16.4
Changes for the year:		
Service cost	28.5	0.4
Interest	44.2	0.6
Differences between expected/actual	(7.5)	(0.1)
Changes of assumptions	(63.7)	(0.8)
Benefit payments, including refunds of member contributions	(30.9)	(0.4)
Other changes	0.3	(0.3)
Net changes	<u>(29.1)</u>	<u>(0.7)</u>
Balances at 9/30/2019	<u>\$ 1,233.7</u>	<u>\$ 15.6</u>

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Life Insurance OPEB

For the year ended September 30, 2019, the State recognized OPEB expense related to PELIB of \$46.7 million for the primary government and \$0.5 million for the component units.

The deferred outflows of resources and deferred inflows of resources related to PELIB are included in Note 28 and in the table below (in millions):

	Primary Government	Component Units
Deferred Outflows of Resources:		
Difference between expected and actual experience	\$ 0.8	\$ -
Changes in proportion and differences between employer contributions and proportionate share of contributions	1.5	0.5
Contributions subsequent to the measurement date	32.9	0.4
Total Deferred Outflows of Resources:	<u>\$ 35.2</u>	<u>\$ 0.9</u>
Deferred Inflows of Resources:		
Difference between expected and actual experience	\$ 6.3	\$ 0.1
Changes of assumptions	107.3	1.4
Changes in proportion and differences between employer contributions and proportionate share of contributions	1.2	0.8
Total Deferred Inflows of Resources:	<u>\$ 114.7</u>	<u>\$ 2.2</u>

Michigan
Notes to the Financial Statements

Amounts reported as deferred outflows of resources related to PELIB resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the total PELIB liability in the year ended September 30, 2020. Other amounts reported as deferred outflows and inflows of resources related to PELIB will be recognized in PELIB expense as follows (amounts in millions):

Year Ended September 30	Primary Government OPEB Expense Amount	Component Units OPEB Expense Amount
2020	\$ (25.9)	\$ (0.4)
2021	(25.9)	(0.4)
2022	(25.9)	(0.4)
2023	(24.2)	(0.4)
2024	(10.5)	(0.2)

Currently, deferred outflows and inflows of resources related to PELIB that will be recognized in OPEB expense do not extend beyond the five years identified in the table above.

NOTE 12 – LEASES

Accounting Policy

The State leases various assets under non-cancelable leasing arrangements. Leases that constitute rental agreements are classified as operating leases; the resulting expenditures are recognized as incurred over the lease term. Leases that are comparable to purchases are classified as capital leases.

In the government-wide and proprietary fund financial statements, assets and liabilities resulting from capital leases are recorded at lease inception. The principal portion of lease payments reduces the liability; the interest portion is expensed.

For capital leases in governmental funds, other financing sources and expenditures are recorded at lease inception. Lease payments are recorded as debt service expenditures. For budgetary purposes, lease payments are only reported as expenditures when paid.

Most leases have cancellation clauses with one to six-month notice requirements in the event that funding is not available. For reporting purposes, such cancellation clauses are not considered in the determination of whether a lease is cancelable, because the likelihood that they will be exercised is considered remote. Some lease agreements include renewal or purchase options. The effect of such options is reflected in the minimum lease payments only if it is considered reasonably assured that an option will be exercised. Some lease agreements include escalation clauses or other contingent rentals.

The State has entered into a few installment purchase agreements. Because the amounts involved are immaterial, and the accounting treatment is similar, such agreements are reported together with capital leases.

Leases that exist between the State and the State Building Authority (SBA), a blended component unit, are not recorded as leases in this report. In their separately issued financial statements, SBA records a lease receivable from the State. Although payables and receivables technically exist between these parties, when combined for government-wide reporting, they are eliminated. A long-term liability exists on the government-wide financial statements for the bonds issued by SBA to construct the assets associated with the leases. Future payments to SBA are, therefore, not included in the schedules of lease commitments below. Note 13 provides information on the amount of SBA's bonds outstanding and a schedule of debt service requirements.

During fiscal years 2008, 2011, and 2015, the State entered into building lease agreements with the Michigan Strategic Fund (MSF), a discretely presented component unit. The leases were classified as capital leases and are included in the capital lease disclosures below.

Primary Government – Governmental Activities

Rental expenditures incurred under operating leases totaled \$58.3 million during the fiscal year. Payments for capital lease principal, interest, and executory costs totaled \$52.8 million, \$46.3 million, and \$18.4 million, respectively, during the fiscal year. Included in these amounts were payments to MSF for principal, interest, and executory costs totaling \$12.4 million, \$10.3 million, and \$0.0 million, respectively.

Michigan
Notes to the Financial Statements

A summary of the operating and non-cancelable capital lease commitments to maturity follows (in millions):

Year Ended September 30	Operating Leases	Capital Leases			
		Principal	Interest	Executory Costs	Total
2020	\$ 11.3	\$ 51.9	\$ 43.3	\$ 17.6	\$ 112.9
2021	7.0	47.7	39.5	15.5	102.7
2022	4.1	45.3	36.1	13.8	95.2
2023	2.6	44.2	32.6	12.3	89.0
2024	0.9	32.7	29.4	10.6	72.7
2025-2029	0.3	126.3	99.2	39.6	265.2
2030-2034	0.1	43.7	42.4	12.5	98.6
2035-2039	0.1	26.5	24.0	6.7	57.1
2040-2044	0.1	20.0	11.0	0.9	32.0
Thereafter	0.4	14.9	2.2	0.1	17.2
Total	<u>\$ 26.9</u>	<u>\$ 453.4</u>	<u>\$ 359.7</u>	<u>\$ 129.6</u>	<u>\$ 942.6</u>

The above capital leases relate to governmental activities which include the General Fund, other governmental funds, and the internal service funds. A liability of \$453.4 million has been recorded in the government-wide financial statements for the capital lease principal. Included in this liability are the capital leases between the State and MSF totaling \$177.9 million.

The historical cost of assets acquired under capital leases, which are included in capital assets on the government-wide financial statements at September 30, follows (in millions):

	Governmental Activities	Business Type Activities
Buildings	\$ 479.3	\$ 1.6
Equipment	249.5	-
Total	728.8	1.6
Accumulated Depreciation	(363.9)	(0.5)
Net Buildings and Equipment	<u>\$ 364.9</u>	<u>\$ 1.1</u>

Included in the table above is the historical cost and accumulated depreciation for the capital leases between the State and MSF of \$250.7 million and \$117.1 million, respectively.

Primary Government – Business-Type Activities

Rental expense incurred under operating leases totaled \$0.2 million during the fiscal year.

A summary of the operating lease and non-cancelable capital lease commitments to maturity follows (in millions):

Year Ended September 30	Operating Leases	Capital Leases			
		Principal	Interest	Executory Costs	Total
2020	\$ 0.3	\$ 0.1	\$ 0.2	\$ 0.1	\$ 0.4
2021	0.2	0.1	0.1	0.1	0.3
2022	0.1	0.1	0.1	0.1	0.3
2023	0.1	0.1	0.1	0.1	0.3
2024	-	0.1	0.1	0.1	0.3
2025-2029	-	0.6	0.4	0.4	1.4
2030-2034	-	0.1	0.2	0.1	0.4
2035-2039	-	0.1	-	-	0.1
Total	<u>\$ 0.7</u>	<u>\$ 1.3</u>	<u>\$ 1.2</u>	<u>\$ 1.0</u>	<u>\$ 3.5</u>

Discretely Presented Component Units

Operating lease commitments for universities and authorities totaled \$16.0 million. Total capital lease obligations were \$26.8 million, \$9.5 million, and \$0.3 million for principal, interest, and executory costs, respectively, during the fiscal year.

NOTE 13 – BONDS AND NOTES PAYABLE – PRIMARY GOVERNMENT

General Information

General Obligation Bonds and Notes

Article 9, Section 15, of the State Constitution authorizes general obligation long-term borrowing, subject to approval by the Legislature and a majority of voters at a general election. In addition, debt may be incurred without voter approval for the purpose of providing loans to school districts. General obligation notes to provide temporary financing for such loans are recorded as liabilities in the School Bond Loan Fund, a subfund of the General Fund. General Fund appropriations are made to finance debt principal and interest requirements for all general obligation issues. General obligation bonds are backed by the full faith and credit of the State.

The State Constitution provides that the Legislature may also authorize the issuance of general obligation short-term notes, the principal amount of which may not exceed 15.0 percent of undedicated revenues received in the preceding year. The State Constitution also provides that such notes must be repaid within the fiscal year of the borrowing. In fiscal year 2019, the State did not issue any general obligation short-term notes.

Revenue Dedicated Bonds and Notes

Long-term bonds have been issued periodically for specific purposes, with the stipulation that financing of debt requirements is to come strictly from designated revenue sources. The transportation related debt is payable solely out of funds restricted for transportation purposes by Article 9, Section 9, of the State Constitution. The State's general credit does not support such issues.

Revenue bonds have been issued by the State Building Authority (SBA) to acquire and/or construct various facilities for use by the State or institutions of higher education. Revenue bonds have also been issued to finance equipment capital lease refinancings and acquisitions. In addition, SBA issues commercial paper notes to fund capital projects prior to bonding. Short-term debt activity for the fiscal year ended September 30 follows (in millions):

	Beginning			Ending
	Balance	Draws	Repayments	Balance
Commercial Paper Notes	\$ 46.4	\$ 89.8	\$ 62.6	\$ 73.6

Note 14 provides disclosures regarding the bonds and notes payable of the discretely presented component units.

Bonds Issued and Outstanding

General obligation and revenue dedicated bonds issued and outstanding (excluding defeased bonds) at September 30 (in millions) are as follows:

- (1) Sections 324.19301 and 324.71301 of the Michigan Compiled Law (MCL) authorized the issuance of bonds totaling \$800.0 million. As of September 30, 2017, \$800.0 million of such bond proceeds had been received, leaving no remaining authorization. The sum of the amounts issued in the preceding table differs by the amount of bonds refunded or redeemed, premiums and discounts, and other issuance costs.
- (2) MCL Section 324.95102 authorized the issuance of bonds totaling \$675.0 million. As of September 30, 2019, \$637.4 million of such bond proceeds had been received, leaving remaining authorization of \$37.6 million. The sum of amounts issued in the preceding table differs by the amount of bonds refunded or redeemed, premiums and discounts, and other issuance costs.
- (3) In November 2002, voters approved a ballot proposal in which the State would issue \$1.0 billion in general obligation bonds to provide capital, which is then loaned to local units of government for water quality improvement projects. As of September 30, 2019, \$655.0 million of such bond proceeds had been recognized as received, leaving remaining authorization of \$345.0 million. Included in the amount recognized as received is \$100.0 million in bonds issued on December 18, 2003, to a discretely presented component unit, Michigan Finance Authority (MFA) (\$10.0 million relating to Strategic Water Quality and \$90.0 million relating to the previously existing State Water Quality Revolving Fund). No cash traded hands in the issuance of the bonds to MFA, the registered owner of the bonds.

Michigan
Notes to the Financial Statements

The \$10.0 million bond was being used as collateral for Strategic Water Quality revenue bonds issued by MFA. MFA funded the principal and interest costs of the issued revenue bonds until the State refunded the general obligation bond document. This transaction allowed the State's General Fund to defer principal and interest costs until future years when the bond was repurchased/redeemed. In addition, the \$10.0 million bond included a provision that required the State to repurchase all or any portion of this bond upon 10-days written notice from the registered owner, MFA. For this reason, the State had recognized the bond related to Strategic Water Quality as a liability in the entity-wide statements. The \$10.0 million bond was reduced to a net obligation of \$6.0 million when \$4.0 million of the proceeds from the General Obligation Recreation and Environmental Protection Series 2006 B (which was fully refunded in fiscal year 2009) were used to refund a portion of the original obligation. The remaining \$6.0 million net obligation was fully refunded by General Obligation Environmental Program and Refunding Bonds Series 2017 A.

The \$90.0 million "bond" document issued for the State Water Quality Revolving Fund does not contain the 10-day repurchase provision that the \$10.0 million bond did. Nor is the \$90.0 million "bond" document being used as collateral by MFA. For these reasons, the State has not recognized a liability for the \$90.0 million "bond" document related to the existing State Water Quality Revolving Fund.

- (4) SBA Multi-Modal and variable rate bonds bear interest at a remarketed weekly rate. Estimated interest was computed using the weekly rates as of September 30, 2019.
- (5) This issuance was acquired as an investment by the State Lottery Fund, an enterprise fund, through a public market offering and is reported as part of investments in the fund's statement of net position.

Capital Appreciation Bonds

Capital appreciation and convertible capital appreciation bonds are recorded in the Bonds Issued and Outstanding table and the Changes in Bonds and Notes Payable table at their accreted year-end book value. The following table summarizes capital appreciation bonds (in millions):

	Accreted Book Value	Ultimate Maturity Value	Fiscal Year Maturities	
			First Year	Last Year
General Obligation Bonds				
Series 2009 B (Refunding)	\$ 24.8	\$ 37.6	2010	2030

Refundings and Defeasances

The State has defeased certain bonds through advance refundings by placing the proceeds of new bonds (i.e., the "refunding" bonds in the table of bonds issued and outstanding) in irrevocable trust to provide for all future debt service on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not recorded as assets or liabilities in these statements and are not included in the other debt tables in this note.

Revenue Dedicated

During the year, SBA issued fixed rate Revenue and Revenue Refunding Bonds 2019 Series I in the amount of \$235.6 million, maturing in fiscal years 2020 to 2054. From the proceeds, \$189.1 million was deposited with an escrow agent to partially refund principal and pay accrued interest on 2009 Revenue Refunding Bonds Series I and 2009 Revenue Bonds Series II; \$62.6 million was used to refund commercial paper notes; and \$12.9 million was deposited in the Acquisition Fund for costs of 2019 Facilities. As a result of the refundings, SBA's debt service increased by \$160.1 million over the next 35 years. The refundings resulted in an economic gain of \$17.3 million.

The following table summarizes the defeased bonds outstanding at September 30 (in millions):

	Amounts Outstanding
State Building Authority:	
Series 2009 I (Refunding)	\$ 100.9
Series 2009 II	84.2
Total State Building Authority	\$ 185.1

Michigan
Notes to the Financial Statements

Debt Service Requirements

The following table summarizes debt service requirements for outstanding bonds (in millions):

Fiscal Years Ending	General Obligation		State Park and Transportation Related		State Building Authority		Total Principal and Interest
	Principal	Fixed Interest	Principal	Fixed Interest	Principal	Interest	
2020	\$ 155.7	\$ 49.8	\$ 162.7	\$ 52.4	\$ 98.8	\$ 128.9	\$ 648.3

2022	162.4	38.1	147.8	37.5	85.8	125.7	597.3
2023	155.5	32.0	112.9	30.7	90.2	121.8	543.2
2024	108.4	26.7	112.9	25.1	94.3	117.8	485.1
2025-2029	437.3	74.7	399.6	44.2	552.0	514.0	2,021.9
2030-2034	189.4	15.6	29.7	7.7	685.5	360.1	1,288.0
2035-2039	-	-	17.9	1.4	578.1	208.3	805.7
2040-2044	-	-	-	-	344.0	107.5	451.4
2045-2049	-	-	-	-	214.9	45.1	260.0
2050-2054	-	-	-	-	84.6	6.9	91.5
Total	\$ 1,371.2	\$ 280.1	\$ 1,123.8	\$ 243.8	\$ 2,909.7	\$ 1,866.0	\$ 7,794.7

Interest to maturity for SBA may be significantly smaller than the amount shown in the above table because many of the bonds will be called prior to the final scheduled maturity date. The retirement of these bonds varies from project to project, as each bond issue is related to specific projects and any excess borrowing and accrued investment earnings are restricted to projects and debt service on the related bonds.

Changes in Bonds and Notes Payable

Changes in bonds and notes payable for the year ended September 30 were as follows (in millions):

	Beginning Balance	Additions	Reductions	Accretion	Ending Balance	Amounts Due Within One Year	Due Thereafter
Governmental Activities							
Bonds Payable:							
General obligation debt	\$ 1,531.0	\$ -	\$ (174.7)	\$ 2.1	\$ 1,358.4	\$ 155.7	\$ 1,202.6
Revenue bonds	1,283.8	-	(159.9)	-	1,123.8	162.7	961.2
State Building Authority	2,957.9	235.6	(283.7)	-	2,909.7	98.8	2,810.9
Unamortized Discounts:

NOTE 14 – BONDS AND NOTES PAYABLE – DISCRETELY PRESENTED COMPONENT UNITS

Bonds and Notes Payable

The state universities and the Michigan State Housing Development Authority (MSHDA) utilize June 30 fiscal year-ends. The Farm Produce Insurance Authority and Venture Michigan Fund (VMF) utilize a December 31 fiscal year-end, and the remaining discretely presented component units have September 30 fiscal year-ends.

Bonds Payable

Bonds payable of the discretely presented component units are legal obligations of the component units and are not general obligations of the State.

The following table summarizes debt service requirements of the discretely presented component units as reported in their separately issued financial statements, utilizing their respective fiscal year-end (in millions):

<u>Fiscal Years Ending In</u>	<u>Total Debt</u>		<u>All Other Debt</u>		<u>Direct Placement Debt</u>	
	<u>Principal</u>	<u>Interest</u>	<u>Principal</u>	<u>Interest</u>	<u>Principal</u>	<u>Interest</u>
2020	\$ 1,432.2	\$ 529.0	\$ 1,268.6	\$ 484.1	\$ 163.6	\$ 44.9
2021	650.3	492.4	477.1	452.9	173.3	39.5
2022	840.3	464.9	663.2	430.9	177.1	34.0
2023	657.0	431.7	474.0	403.9	183.0	27.8
2024	793.6	404.3	665.8	381.6	127.7	22.8
Total five years	4,373.5	2,322.4	3,548.7	2,153.4	824.7	169.0
2025-2029	2,522.2	1,630.6	2,171.0	1,557.8	351.2	72.8
2030-2034	2,273.9	1,102.3	2,202.7	1,067.2	71.2	35.1
2035-2039	1,447.9	642.4	1,415.6	612.4	32.3	30.0
2040-2044	1,203.9	355.9	1,060.9	337.6	143.0	18.3
2045-2049	1,358.4	119.9	1,353.2	119.8	5.2	0.1
2050-2054	1,217.5	29.1	1,217.5	29.1	-	-
Thereafter	4,459.6	6.3	4,459.6	6.3	-	-
2025 - Thereafter	14,483.4	3,886.4	13,880.5	3,730.2	602.9	156.2
Total	18,856.9	\$ 6,208.8	\$ 17,429.2	\$ 5,883.6	\$ 1,427.7	\$ 325.2
Unamortized discount	(15.1)					
Unamortized premium	449.2					
Off market borrowings	41.5					
Unpaid accretion for capital appreciation bonds	(5,824.3)					
Total principal	\$ 13,508.1					

Included in the table above is \$1.5 billion of demand bonds comprised of \$771.3 million issued by MSHDA, \$600.0 million issued by the Michigan Finance Authority (MFA), and \$120.0 million issued by the state universities.

Notes Payable

As of September 30, 2019, MFA has short-term notes outstanding of \$417.9 million and long-term notes outstanding of \$235.6 million. Of the total \$653.5 million notes outstanding, \$180.5 million were direct placement notes.

As of December 31, 2018, VMF has long-term notes outstanding of \$250.0 million.

State universities have short-term notes outstanding of \$1.2 million and long-term notes outstanding of \$9.0 million as of June 30, 2019. Of the total \$10.2 million notes outstanding, \$0.7 million were direct placement notes.

Unrecorded Limited Obligation Debt

Certain State financing authorities have issued limited obligation revenue bonds which are not recorded as liabilities in these statements because the borrowings are, in substance, debts of other entities. The State has no obligation for this debt.

Typically, these borrowings are repayable only from the repayment of loans, unloaned proceeds and related interest earnings, and any collateral which may be provided.

MFA issues limited obligation bonds to finance loans to private or nonpublic, nonprofit institutions of higher education, qualified public or private educational facilities and healthcare providers for capital improvements. As of September 30, 2019, MFA had bonds outstanding of \$10.1 billion. Of this amount, \$410.3 million of the bonds have been defeased in substance, leaving a remaining undefeased balance of \$9.7 billion.

The Michigan Strategic Fund (MSF) issues taxable and tax-exempt private activity bonds, formerly known as industrial development revenue bonds, which are not recorded as liabilities. The total amount of private activity bonds issued by MSF and its predecessor entity for the period January 1, 1979, through September 30, 2019 was \$11.4 billion. The amount of tax-exempt bonds issued during fiscal year 2019 was \$912.7 million. In fiscal year 2019, there were no taxable bonds issued by MSF under the Taxable Bond Program. These borrowings are, in substance, debts of other entities and financial transactions are handled by outside trustees.

MSHDA issues limited obligation bonds to finance multi-family housing projects. At June 30, 2019, limited obligation bonds had been issued totaling \$909.1 million, of which 85 issues totaling \$796.5 million had been retired. The aggregated principal of all MSHDA outstanding debt may not exceed \$4.2 billion.

MSHDA entered into several interest rate exchange agreements for a total of \$742.4 million as of June 30, 2019, representing several bond series. In accordance with the exchange agreements, MSHDA pays fixed rates ranging from 2.7 percent to 5.4 percent.

NOTE 15 – OTHER LONG-TERM OBLIGATIONS

Primary Government

Other Long-Term Obligations

In general, expenditures and fund liabilities are not recorded in governmental funds for long-term obligations until claims, judgments, or amounts owed are “due and payable” at September 30. Expenses and liabilities for material claims and judgment losses are recorded in the government-wide and proprietary fund financial statements when the loss is considered probable.

Capital Leases

This liability is described in more detail in Note 12.

Compensated Absences

This liability is described in more detail in Note 1.

Workers' Compensation

The gross amount of workers' compensation liability, \$69.6 million at September 30, 2019, has been recorded at its discounted present value of \$46.8 million, using a discount rate of approximately 8.0 percent. The present value of the current portion of this liability is \$10.4 million. In fiscal year 2019, state agencies paid reimbursement for actual workers' compensation claims and administrative fees totaling \$22.9 million.

Net Pension Liability

This liability is described in more detail in Note 10.

Net Other Postemployment Benefits (OPEB) Liability

This liability is described in more detail in Note 11.

Pollution Remediation

This liability is measured in accordance with the obligating event criteria defined in Governmental Accounting Standards Boards (GASB) Statement No. 49, Accounting and Financial Reporting for Pollution Remediation Obligations. The State's pollution remediation obligation at September 30, 2019, is \$199.7 million (\$31.5 million of which is the current portion). This estimate is based on professional judgment, experience, and historical cost data. Recoveries from other responsible parties, which would reduce the State's remediation liability, are not anticipated. Remediation obligation estimates may change over time due to changes in technology, prices, and regulations.

Superfund sites account for approximately \$122.9 million of this total. The State has numerous instances of hazardous waste contamination that qualify as Superfund sites. Superfund is the federal government's program to clean up these hazardous

Michigan
Notes to the Financial Statements

waste sites. Under this program, the State is required to pay or ensure payment of 10.0 percent of the cost of remediation action and 100 percent of the cost of operations and maintenance.

Remediation obligations related to underground storage tanks account for \$32.0 million of this total. As of September 30, 2019, there were 307 open claims. The State reimburses eligible refined petroleum underground storage tank owners or operators for eligible cleanup costs for confirmed releases that were discovered and reported on or after December 30, 2014.

Other pollution obligations include funds committed for remediation activities for publicly-funded response activities and state-liable sites. Not included in the liability is approximately \$16.1 million for state-owned sites where a legal obligation exists but the GASB Statement No. 49 criteria for accruing a liability has not been met.

Financed Purchases

This liability represents contracts entered into by the Department of Transportation for the design, building, and financing of highway lighting projects. The liability of \$48.9 million at September 30, 2019, represents the cost of the project less payments made through fiscal year 2019.

Other Claims and Judgments

The governmental activities estimated liability for other claims and litigation losses, \$731.5 million at September 30, 2019, includes amounts for litigation, such as damages in tort cases and refund claims in cases involving state taxes and other claims, in which it is considered probable that costs will be incurred. Where a range of potential loss exists, the amount recorded is based upon the expected minimum amount that will be lost if the State does, indeed, lose. The allowance also includes projections for highway related negligence cases based upon historical loss ratios. The State continues to vigorously contest all of these claims and the State may incur no liability in the individual cases involved. Therefore, the allowance for litigation losses may be overstated (to the extent that losses do not occur) or understated (if the State losses exceed the projected minimums which have been recorded). The maximum potential loss on the allowance for estimated litigation losses is not considered reasonably measurable.

The liability for other claims and judgments also includes \$225.6 million for the expected sale and redemption or nullification of Venture Michigan Fund tax vouchers. This liability is further described in Note 25.

The liability recorded for other claims and judgments within business-type activities includes overpayments by employers to the Michigan Unemployment Compensation Funds totaling \$28.7 million.

Changes in Other Long-Term Obligations

Changes in long-term liabilities for the year ended September 30 are summarized as follows (in millions):

	Beginning Balance	Additions	Reductions	Ending Balance	Amounts Due Within One Year	Amounts Due Thereafter
Governmental Activities						
Other Long-term Obligations:						
Capital lease obligations:						
Component units	\$ 190.3	\$ -	\$ 12.4	\$ 177.9	\$ 13.8	\$ 164.1
Others	298.3	17.4	40.4	275.4	38.1	237.2

Workers' compensation	49.6	8.2	11.0	46.8	10.4	36.4
Net pension liability	5,903.4	890.0	10.3	6,783.1	-	6,783.1
Net OPEB liability	10,137.0	2.0	384.7	9,754.3	-	9,754.3
Pollution remediation **	192.7	35.9	29.0	199.7	31.5	168.1
Direct borrowing - financed purchases	60.2	-	11.3	48.9	3.7	45.2
Other claims and judgments	506.3	296.4	71.3	731.5	222.3	509.2
Total Governmental Activities	<u>\$ 17,734.6</u>	<u>\$ 1,529.4</u>	<u>\$ 884.5</u>	<u>\$ 18,379.4</u>	<u>\$ 533.4</u>	<u>\$ 17,846.0</u>
Business-type Activities						
Other Long-term Obligations:						
Lottery prize awards*	\$ 170.3	\$ 10.0	\$ 15.7	\$ 164.6	\$ 14.9	\$ 149.8
Capital lease obligations	0.7	0.5	0.1	1.2	0.1	1.1
Compensated absences	3.0	1.8	1.9	2.9	1.7	1.2
Net pension liability	36.2	4.1	0.7	39.6	-	39.6
Net OPEB liability	65.8	-	6.1	59.6	-	59.6
Other claims and judgments	47.4	-	18.8	28.7	-	28.7
Total Business-type Activities	<u>\$ 323.5</u>	<u>\$ 16.5</u>	<u>\$ 43.3</u>	<u>\$ 296.7</u>	<u>\$ 16.7</u>	<u>\$ 280.0</u>

*The amounts due within one year are included with "Accounts payable and other liabilities" on the Statement of Net Position.

**Beginning balance has been restated. More detailed information can be found in Note 4.

The General Fund, other governmental, and internal service funds in which the leases are recorded will liquidate the capital lease obligations. The compensated absence and workers' compensation liabilities will be liquidated by the applicable governmental and internal service funds that account for the salaries and wages of the related employees. The net pension liabilities and net OPEB liabilities will be liquidated by the State's governmental and proprietary funds that contribute toward the pension funds, based on the statutorily required contribution rates. The pollution remediation obligation will be liquidated by the General Fund. Other claims and judgments attributable to governmental activities will generally be liquidated by the General Fund and transportation related governmental funds.

Discretely Presented Component Units

The net pension liability totaled \$741.7 million for component units, which includes \$79.4 million related to authorities participating in the State Employees' Retirement System, \$639.0 million related to State universities participating in the Public Schools Employees' Retirement System, and the remaining amount in other non-State of Michigan related retirement systems.

The net OPEB liability totaled \$264.7 million for component units, which includes \$120.2 million related to authorities participating in the State Employees' Retirement System and Postemployment Life Insurance Benefit, \$124.7 million related to State universities participating in the Public Schools Employees' Retirement System, and the remaining amount in other non-State of Michigan related retirement systems.

Michigan Education Trust

Michigan Education Trust (MET) offers contracts, which for actuarially determined amounts, provide future tuition at State institutions of higher education. Contract provisions also allow the benefits to be used at private or out-of-state institutions, with the amount provided being based upon rates charged by the State's public institutions of higher education. The tuition payments are made by MET as a separate legal entity and these contracts are not considered obligations of the State. The Legislature is not obligated to provide appropriations should losses occur. The statutes and contracts provide for refunds to the participants if MET becomes actuarially unsound. Liabilities have been recorded on the Statement of Net Position for the actuarial present value of future tuition benefit obligations.

The 1988, 1989, and 1990 enrollments are known as Plans B and C. Enrollments after November 1995 are known as Plan D.

The actuarial report on the status of MET Plans B and C, as of September 30, 2019, shows the actuarial present value of future tuition obligations to be \$57.1 million, as compared to the actuarially determined market value of assets available of \$114.9 million. The actuarial assumptions used include: a projected tuition increase rate of 5.5 percent for year 1, 5.0 percent for year 2, 4.5 percent for year 3 and 4.5 percent for year 4 and beyond; and a discount rate of 2.9 percent.

The actuarial report on the status of MET Plan D, as of September 30, 2019, shows the actuarial present value of future tuition obligations to be \$783.0 million, as compared to the actuarially determined market value of assets available of \$1.0 billion. The actuarial assumptions used include: a projected tuition increase rate of 5.5 percent for year 1, 5.0 percent for year 2, 4.5 percent for year 3 and 4.5 percent for year 4 and beyond; and a discount rate of 5.5 percent.

On November 8, 1994, the U.S. Court of Appeals for the Sixth Circuit ruled that MET is an integral part of the State of Michigan and, thus, the investment income realized by MET is not currently subject to federal income tax. On August 20, 1996, the Small Business Job Protection Act of 1996 (the "1996 Tax Act") was signed into law which included a provision adding a new section to the Internal Revenue Code of 1986 defining "qualified state tuition programs." A qualified state tuition program is generally exempt from income tax, but is subject to unrelated business income tax. MET has no unrelated business income. Distributions made in excess of qualified higher education expenses (whether to the refund designee, beneficiary, or to a college on behalf of the beneficiary) are taxable income to the beneficiary or the refund designee. In May 1997, MET submitted a request for ruling to the Internal Revenue Service (IRS) for verification that MET is in compliance with the 1996 Tax Act. On December 23, 1997, the IRS issued a favorable ruling which confirms that MET is in compliance with the 1996 Tax Act.

NOTE 16 – INCOME TAX CREDITS AND REFUNDS

Income Tax Credits

The Michigan Income Tax Act provides for several types of tax credits. Some credits are accounted for as revenue reductions for financial reporting purposes while others are reported as expenditures. Revenue reductions are reported for those income tax credits that are limited by the amount of an individual's tax liability before considering such credits. To the extent these nonrefundable credits will generate future year payments, they are accrued as income tax refund liabilities together with estimated overwithholdings.

Expenditures are reported for those credits which can be received even if they exceed the individual's tax liability. For these refundable credits, the substance of the transaction is that the State is making a grant payment using the income tax system as a filing and payment mechanism. The amount of credit received is not a part of the determination of tax liability. The State's property tax is the primary credit that falls into this category. Expenditures for this credit are recognized in the year the tax returns are filed and recipients claim the credit.

Michigan
Notes to the Financial Statements

The following table summarizes the various credits, reported on the “Tax credits” line as an expense in the government-wide financial statements and as an expenditure in the fund financial statements at September 30 (in millions):

Property tax credits:	
General homestead	\$ 407.6
Senior citizens	266.5
Blind and disabled	64.5
Farmland preservation	44.2
Veterans	0.4
Subtotal - property tax credits	783.2
Earned income tax credit	111.8
Home heating (excluding federal share)	0.1
Total tax credits	\$ 895.1

Income Tax Refunds Payable

The \$997.9 million reported as a liability on the “Income tax refunds payable” line in the government-wide and fund financial statements includes: projected refund estimates for overwithholding and tax credits reported as revenue reductions, actual refunds made in October and November, and accruals for known income tax litigation losses.

NOTE 17 – TAX ABATEMENTS

The State employs a variety of tax abatements that encourage economic development within the State, or otherwise benefits Michigan citizens. A tax abatement (for financial reporting purposes) is a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are otherwise entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the State or citizens of the State. Governmental Accounting Standards Board (GASB) Statement No. 77, Tax Abatement Disclosures, requires disclosure of certain information about tax abatement agreements. The State administers other programs and policies that reduce the taxes that an individual or entity would otherwise owe that do not meet the definition of a tax abatement as defined by GASB Statement No. 77 and are therefore not included in this disclosure.

As of September 30, the State provided tax abatements through the following programs:

Program Name	Brownfield Redevelopment Credit Program
Program purpose	The Brownfield Redevelopment Credit Program was established to encourage businesses to make an investment in eligible Michigan property that was used or is currently used for commercial, industrial, public, or residential purposes and is either a facility (environmentally contaminated property), functionally obsolete, or blighted.
Taxes being abated	Michigan Business Tax (MBT)
Authority under which abatement agreements are entered	Public Acts 39 of 2011 Michigan Compiled Laws (MCL) Sections 125.2651 - 125.2670, 207.801 - 207.810, and 208.1437
Criteria to be eligible to receive abatements	Taxpayer enters into an agreement with the Michigan Economic Growth Authority (MEGA) and agrees to fulfill investment necessary for the demolition, construction, restoration, alteration, renovation, or improvement of buildings located in Brownfield development zones. Eligible property must be owned or leased by the taxpayer and designated in a locally approved Brownfield Plan created under the Brownfield Redevelopment Financing Act. Credits are awarded to projects that best meet criteria for selection priorities.
How taxes are reduced	Taxpayer claims a credit when filing annual tax return. Taxpayer may also file a form separate from the annual tax return to claim an accelerated and reduced payment of the credit. Credit is computed and certified by the Michigan Economic Development Corporation (MEDC).
How amount of abatement is determined	Tax liability is reduced via credit based on a formula set by law that considers the amount of eligible investment.

Michigan
Notes to the Financial Statements

Program Name	Brownfield Redevelopment Credit Program
Provisions and conditions under which abated taxes become eligible for recapture	The disposal or transfer to another location of personal property used to calculate this credit will result in an addition to the tax liability of the qualified taxpayer that was originally awarded the credit in the year in which the disposal or transfer occurs. This is true even if the credit was assigned to someone else. This additional liability will be calculated as of the date of the disposition or transfer by multiplying the same percentage used to calculate the credit times the federal basis of the property used to calculate gain or loss (as calculated for federal purposes). The amount otherwise added to the tax liability may also be used to reduce any carryforward of credits available to the taxpayer. For multiphase projects, if all components are not completed by ten years after the date on which the preapproval letter was issued, the qualified taxpayer shall pay to the state treasurer, as a penalty, an amount equal to the sum of all credits claimed and assigned for all components of the project. No credits based on that multiphase project shall be claimed after that date by the qualified taxpayer or any assignee.
Types of commitments made by the recipients of the tax abatements	Perform eligible investment per MEGA agreement. Taxpayer will need to perform either demolition, construction, restoration, alteration, renovation, or improvement of buildings or site improvements on eligible property, the addition of machinery, equipment, and fixtures to eligible property, or various environmental clean-up activities on eligible property.
Total revenue estimated to be reduced for fiscal year 2019	\$22.3 million

Program Name	Brownfield Redevelopment Tax Increment Financing Program
Program purpose	This Brownfield Redevelopment Tax Increment Financing Program was established to encourage businesses to revitalize and redevelop eligible Michigan property that was used or is currently used for commercial, industrial, public, or residential purposes and is either a facility (environmentally contaminated property), functionally obsolete, or blighted.
Taxes being abated	State Education Tax (SET)
Authority under which abatement agreements are entered	MCL Sections 125.2651 - 125.2670
Criteria to be eligible to receive abatements	A work plan in accordance with P.A. 381 of 1996 to remediate a Brownfield property must be approved by either the Department of Environmental Quality for environmental eligible activities or the Michigan Strategic Fund (MSF) for nonenvironmental eligible activities. The size and the duration of tax incentives are highly discretionary, as each is determined on a case-by-case basis by the Brownfield Redevelopment Authority of the relevant locality.
How taxes are reduced	Taxes are reduced using tax increment financing. The developer of the Brownfield property is repaid for its Brownfield related investment via capture of the increased taxable value.
How amount of abatement is determined	The amount of abatement is based on the increase in taxable value caused by redevelopment of the Brownfield property.
Provisions and conditions under which abated taxes become eligible for recapture	No provisions for recapturing abated taxes.
Types of commitments made by the recipients of the tax abatements	Adherence to Brownfield work plans for rehabilitation of Brownfield properties.
Total revenue estimated to be reduced for fiscal year 2019	\$5.6 million

Michigan
Notes to the Financial Statements

Program Name	Farmland Preservation Credit - Corporate and Non-Corporate Program
Program Purpose	The Farmland Preservation Credit Program was established to provide tax incentive for farmland owners, which include individuals and corporations, that enter into a Farmland Development Rights Agreement (FDRA) with the Michigan Department of Agriculture and Rural Development (MDARD) and agree to preserve the land as farmland and not develop for another use. The credit gives back to farmland owners a portion of the property taxes paid on farmland.
Taxes being abated	Individual Income Tax (IIT) MBT
Authority under which abatement agreements are entered	Public Act 39 of 2011 MCL Section 324.36109
Criteria to be eligible to receive abatements	Taxpayer must own farmland and have entered into an FDRA agreement with MDARD.
How taxes are reduced	Taxpayer claims a credit when filing annual tax return.
How amount of abatement is determined	Tax liability is reduced via credit based on a formula set by law that considers the proportion of eligible and non-eligible property taxes paid on the farmland.
Provisions and conditions under which abated taxes become eligible for recapture	If a parcel is released from the program, the land owner is required to repay the tax credits taken during the last seven years under the agreement, plus six percent simple interest.
Types of commitments made by the recipients of the tax abatements	Taxpayer agrees not to develop farmland for another purpose besides farming.
Total revenue estimated to be reduced for fiscal year 2019	\$47.2 million (IIT) \$1.8 million (MBT)

Program Name	Historic Preservation Credit Program
Program purpose	The Historic Preservation Credit Program was established to provide tax incentives for homeowners, commercial property owners, and businesses to rehabilitate historic resources located in Michigan. Rehabilitation projects must be certified by the State Historic Preservation Office (SHPO).
Taxes being abated	MBT IIT
Authority under which abatement agreements are entered	Public Act 39 of 2011 MCL Sections 206.266 and 208.1435
Criteria to be eligible to receive abatements	Taxpayer has a rehabilitation plan certified for the rehabilitation of a historic resource, and/or the taxpayer applies and receives confirmation from the Michigan State Housing Development Authority that the historic significance, the rehabilitation plan, and the completed rehabilitation of the historic resource meet criteria determined by the law. This credit is no longer available to new property owners and no new applications are being accepted, however there are existing projects actively using the credit.
How taxes are reduced	Taxpayer claims a credit when filing annual tax return. Credit is computed and certified by SHPO.
How amount of abatement is determined	Tax liability is reduced via credit based on a formula set by law that considers the amount of qualified eligible investment certified by SHPO, scale of project, and whether the taxpayer is eligible for the federal Rehabilitation Credit under Section 47 of Internal Revenue Code.

Michigan
Notes to the Financial Statements

Program Name	Historic Preservation Credit Program
Provisions and conditions under which abated taxes become eligible for recapture	If the historic resource is sold or disposed of less than five years after being placed in service, a percentage of the credit amount previously claimed shall be added back to the tax liability of the qualified taxpayer based on the number of years the resource had been in service.
Types of commitments made by the recipients of the tax abatements	Make qualified expenditures to rehabilitate a historic resource.
Total revenue estimated to be reduced for fiscal year 2019	\$3.1 million (MBT) \$0.1 million (IIT)

Program Name	MEGA Employment Credit Program
Program purpose	The MEGA Tax Credit Program was established in 1995 to promote economic growth and job creation within the State. The MEGA tax credit is a refundable tax credit to a company's business tax liability to the State of Michigan. A MEGA tax credit certificate is granted to a Michigan business once it fulfills an agreed upon number of created and retained jobs and amount of capital investment in the State. As of December 2011, no new tax credit applications have been accepted or awarded.
Taxes being abated	MBT
Authority under which abatement agreements are entered	Public Act 39 of 2011 MCL Sections 207.801 - 207.810 and 208.1431
Criteria to be eligible to receive abatements	Taxpayer agrees to retain or add qualified new jobs as defined in MCL Section 207.803.
How taxes are reduced	Taxpayer claims a credit when filing annual tax return. Credit is computed and certified by MEDC.
How amount of abatement is determined	Tax liability is reduced via credit based on the amount of payroll attributable to qualified new or retained jobs, health care costs, tax rate, and specific annual limits defined by law.
Provisions and conditions under which abated taxes become eligible for recapture	As determined by MEGA, the taxpayer may have its credit reduced or terminated, or have a percentage of the credit amount previously claimed added back to the tax liability of the taxpayer in the tax year that the taxpayer: <ul style="list-style-type: none"> • fails to meet the requirements for the credit • violates any conditions included in the agreement entered with MEGA • removes any of the qualified new jobs from Michigan during the term of the written agreement and for a period of years after the term of the written agreement
Types of commitments made by the recipients of the tax abatements	Retain or add qualified new jobs as defined in MCL Section 207.803.
Total revenue estimated to be reduced for fiscal year 2019	\$510.4 million

Program Name	MEGA Poly-Silicon Energy Cost Credit Program
Program purpose	The MEGA Poly-Silicon Energy Cost Credit Program was established to stimulate the manufacturing of polycrystalline silicon to be used for solar cells and semiconductor microchips.
Taxes being abated	MBT

Michigan
Notes to the Financial Statements

Program Name	MEGA Poly-Silicon Energy Cost Credit Program
Authority under which abatement agreements are entered	Public Act 39 of 2011 MCL Sections 207.801 - 207.810 and 208.1432
Criteria to be eligible to receive abatements	Taxpayer enters into agreement with MEGA and agrees to construct and operate a new or expanded facility for the manufacturing of polycrystalline silicon.
How taxes are reduced	Taxes are reduced for a period of 12 years by taxpayer claiming a credit when filing annual tax return. Credit is computed and certified by MEDC.
How amount of abatement is determined	Tax liability is reduced via credit based on a formula set by law that considers the annual guaranteed cost of electricity and the annual projected cost of electricity.
Provisions and conditions under which abated taxes become eligible for recapture	No provisions for recapturing abated taxes.
Types of commitments made by the recipients of the tax abatements	Construct and operate a new or expanded facility to manufacture polycrystalline silicon to be used for solar cells and semiconductor microchips.
Total revenue estimated to be reduced for fiscal year 2019	This information is legally prohibited from being disclosed under MCL Section 205.28(1)(f).

Program Name	Renaissance Zone Credit - Development Program
Program purpose	The Renaissance Zone Credit - Development Program provides incentive for businesses and individuals to help revitalize a designated Renaissance Zone. Originally, Michigan Renaissance Zones were geographic regions of the State designated as virtually tax free for any business or resident presently in or moving into a Renaissance Zone for a period of up to 15 years. Since then, the Renaissance Zone Act, (P.A. 376 of 1996, as amended) has been expanded shifting away from larger geographic area designations and now focuses on project-specific and parcel-specific designations. All Renaissance Zone types receive the same benefit. As of December 31, 2011, the geographic region portion of the program is being phased out and time extensions and new geographic subzones are no longer available.
Taxes being abated	MBT
Authority under which abatement agreements are entered	Public Act 39 of 2011 MCL Sections 125.2681 - 125.2696 and 208.1433
Criteria to be eligible to receive abatements	Renaissance Zone Credits reported under GASB Statement No. 77 are limited to credits claimed by taxpayers with a development agreement executed between the taxpayer and MSF board or that are part of a qualified collaborative agreement. Taxpayers with an agreement must be located and conducting business activity in a Renaissance Zone.
How taxes are reduced	Taxpayer claims a credit when filing annual tax return.
How amount of abatement is determined	Tax liability is reduced via credit based on a formula that considers the level of business activity performed in the Renaissance Zone with respect to the level of activity performed outside of the Renaissance Zone.
Provisions and conditions under which abated taxes become eligible for recapture	Recapture conditions vary and only occur when expressly provided in the agreement signed by the taxpayer and MSF board.

Michigan
Notes to the Financial Statements

Program Name	Renaissance Zone Credit - Development Program
Types of commitments made by the recipients of the tax abatements	Locate and conduct business in the Renaissance Zone and create jobs or make capital investment.
Total revenue estimated to be reduced for fiscal year 2019	\$48.0 million

Program Name	Renaissance Zone Property Tax Exemption Program
Program purpose	The Renaissance Zone Property Tax Exemption Program provides incentive for businesses and individuals to help revitalize a designated Renaissance Zone. Originally, Michigan Renaissance Zones were geographic regions of the State designated as virtually tax free for any business or resident presently in or moving into a Renaissance Zone for a period of up to 15 years. Since then, the Renaissance Zone Act (P.A. 375 of 1996, as amended) has been expanded shifting away from larger geographic area designations and now focuses on project-specific and parcel-specific designations. All Renaissance Zone types receive the same benefit. As of December 31, 2011, the geographic region portion of the program is being phased out and time extensions and new geographic subzones are no longer available.
Taxes being abated	SET
Authority under which abatement agreements are entered	MCL Sections 125.2681 - 125.2696 and 211.7ff
Criteria to be eligible to receive abatements	Renaissance Zone exemptions reported under GASB Statement No. 77 are limited to exemptions claimed by taxpayers with a development agreement executed between the taxpayer and MSF board or that are part of a qualified collaborative agreement. Taxpayers must be located and conducting business activity in a Renaissance Zone.
How taxes are reduced	For taxpayers with an executed development agreement, real and personal property in a Renaissance Zone is exempt from taxation under the General Property Tax Act with certain exceptions as specified in MCL 211.7ff.
How amount of abatement is determined	Property tax exemption applies to all taxes levied except for debt millage, school district sinking fund millage, independent school district enhancement millage, and special assessments.
Provisions and conditions under which abated taxes become eligible for recapture	Recapture conditions vary and only occur when expressly provided in the agreement signed by the taxpayer and MSF board.
Types of commitments made by the recipients of the tax abatements	Locate and conduct business in the Renaissance Zone and create jobs or make capital investment.
Total revenue estimated to be reduced for fiscal year 2019	\$4.2 million

Program Name	State Essential Services Assessment Exemption
Program purpose	The State Essential Services Assessment Exemption was established to encourage large-scale Michigan investments in eligible manufacturing personal property.
Taxes being abated	State Essential Services Assessment (ESA)
Authority under which abatement agreements are entered	MCL Section 211.1059

Michigan
Notes to the Financial Statements

Program Name	State Essential Services Assessment Exemption
Criteria to be eligible to receive abatements	Taxpayer submits a business plan or demonstrates to MSF that a minimum of \$25 million will be invested in additional eligible personal property in this state during the duration of the written agreement. The fund board considers the following criteria when approving an exemption to the assessment: out-of-state competition; net-positive return to the State of Michigan; level of investment made by the eligible claimant; business diversification; reuse of existing facilities; near-term job creation or significant job retention as a result of the investment made in eligible personal property; strong links to Michigan suppliers; whether the project is in a local unit of government that contains an eligible distressed area as that term is defined in MCL Section 125.1411.
How taxes are reduced	If MSF grants an exemption from ESA, the taxpayer is subject to Alternative ESA under Public Act 93 of 2014. Alternative ESA is identical to ESA except that Alternative ESA tax rates are half the ESA rates. If MSF grants an exemption from both ESA and Alternative ESA, a 100% exemption is granted.
How amount of abatement is determined	Businesses receiving the abatement are required to report the acquisition cost of the exempted personal property. The acquisition cost is the tax base used to calculate ESA. The number of mills decreases based on the number of years the personal property is owned.
Provisions and conditions under which abated taxes become eligible for recapture	The written agreement shall provide for a repayment provision on the exemption to the assessment if the eligible claimant fails to comply with the provisions of the written agreement.
Types of commitments made by the recipients of the tax abatements	Taxpayer must make the required personal property investment.
Total revenue estimated to be reduced for fiscal year 2019	\$4.2 million

NOTE 18 – DEFERRED COMPENSATION PLANS

The State participates in two deferred compensation plans that allow employees to defer a portion of their salary until future years. Executive Order 1999-7 transferred administrative oversight of the plans, labeled 457 and 401k after sections of the Internal Revenue Code, to the Department of Technology, Management and Budget. Day-to-day operations of the plans have been contracted to a third-party; however, the State Treasurer oversees investment options. Prior to fiscal year 2016, the 457 and the 401k deferred compensation plans were combined for reporting purposes under the heading of “State of Michigan Deferred Compensation Funds.” In fiscal year 2016, the 401k deferred compensation plan was transferred to the State of Michigan 401k Plans Fund and combined with the defined contribution pension plan. As a result, the remaining 457 deferred compensation plan amounts are now included within the State of Michigan 457 Plans Fund.

Although the 457 and 401k deferred compensation plans are no longer combined for reporting purposes, the following policies still apply. Generally, the State makes no contribution to the 457 plan; however, the payments for other postemployment benefits related to employees hired prior to January 1, 2012, and who opted out of the graded premium may go to the 457 plan as employer contributions. Generally, the State does not make matching contributions to the 401k deferred compensation plan. To expand investment options, three investment tiers were developed and made available to participants on July 1, 1997. Participants invest their contributions and accumulated earnings by selecting investments in one or more of the investment tiers. Employees may, at any time, transfer accumulated balances and future contributions among the investment tiers. Investment earnings, net of administrative charges, are credited to the participants proportionally, based upon their balances in the plan.

The 457 and 401k deferred compensation plans include loan provisions for State of Michigan employees. Loans to participants are recorded as assets.

NOTE 19 – INTERFUND RECEIVABLES AND PAYABLES

Primary Government

The balances of current interfund receivables and payables as of September 30 were (in millions):

Due From	Due To						Total
	General Fund	School Aid Fund	Non-Major Governmental Funds	Unemployment Compensation Funds	Internal Service Funds	Fiduciary Funds	
General Fund	\$ -	\$ -	\$ -	\$ 0.6	\$ 8.7	\$ 74.3	\$ 83.6
School Aid Fund	1,620.4	-	-	-	-	-	1,620.4
Non-Major Governmental Funds	32.6	-	76.4	-	0.9	9.0	118.9
State Lottery Fund	-	26.8	-	-	-	0.4	27.2
Unemployment Compensation Funds	0.1	-	0.9	-	-	-	0.9
Non-Major Enterprise Funds	-	-	-	-	-	0.2	0.2
Internal Service Funds	-	-	-	-	0.3	3.9	4.2
Fiduciary Funds	-	-	-	-	-	0.9	0.9
Total	<u>\$ 1,653.1</u>	<u>\$ 26.8</u>	<u>\$ 77.3</u>	<u>\$ 0.6</u>	<u>\$ 9.9</u>	<u>\$ 88.7</u>	<u>\$ 1,856.4</u>

Interfund receivables and payables are recorded for borrowings to eliminate negative balances in the Common Cash pool, as described in Note 5, payroll liabilities for group insurance and retirement, and tax accrual distributions for taxes collected in the following fiscal year.

Not included in the table above are the following interfund advances, which are not expected to be repaid within one year: \$1.0 million due from the Correctional Industries Revolving Fund (an internal service fund) to the General Fund for amounts loaned for capital construction and related accrued interest of \$2.2 million.

Discretely Presented Component Units

Receivables and related liabilities between the primary government and the discretely presented component units, do not agree because the Michigan State Housing Development Authority and the 10 State universities have a June 30 fiscal year-end.

NOTE 20 – INTERFUND COMMITMENTS

Mackinac Bridge Authority

Mackinac Bridge Authority (MBA), a discretely presented component unit, has over the years received \$75.3 million of subsidies, including \$12.3 million for operations and \$63.0 million for debt service. These subsidies were provided by the State Trunkline and Michigan Transportation funds, respectively.

State statutes require that MBA continue charging bridge tolls and begin repaying the State funds for the subsidies provided. These repayments are to continue until such time as the subsidies have been completely returned. MBA has not recorded a liability and the State funds have not recorded receivables for these subsidies because: the reimbursements are contingent upon future net revenues, there is no repayment schedule, and the repayment commitment is long-term and budgetary in nature. Repayments may be authorized by MBA, after consideration of MBA's annual needs for its operations and planned repairs and improvements.

As of September 30, 2019, MBA has repaid a total of \$16.8 million of the advance from the Michigan Transportation Fund, leaving a balance of \$46.2 million. No repayments have been made on the advance from the State Trunkline Fund.

NOTE 21 – TRANSFERS

Interfund transfers as of September 30, consisted of the following (in millions):

Transferred From	Transfer To			
	General Fund	School Aid Fund	Non-Major Governmental Funds	Total
General Fund	\$ -	\$ 1.7	\$ 436.7	\$ 438.4
School Aid Fund	-	-	125.4	125.4
Non-Major Governmental Funds	70.5	-	1,800.3	1,870.8
State Lottery Fund	3.3	1,070.6	3.0	1,077.0
Unemployment Compensation Funds	-	-	50.5	50.5
Non-Major Enterprise Funds	248.1	-	-	248.1
Internal Service Funds	4.2	-	-	4.2
Fiduciary Funds	0.3	-	-	0.3
Total	\$ 326.4	\$ 1,072.4	\$ 2,415.8	\$ 3,814.6

Transfers are used to 1) move revenues from the fund that statute requires to collect them to the fund that statute requires to expend them, 2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, 3) move unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations, 4) move profits from the Liquor Purchase Revolving Fund and the State Lottery Fund as required by law, and 5) transfer accumulated surpluses from other funds to the General Fund when authorized by statute.

NOTE 22 – FUND DEFICITS

Primary Government

Governmental Funds reporting a fund balance deficit:

The Advance Financing Funds, a capital projects fund, had a fund balance deficit of \$23.7 million. The fund deficit was caused by expenditures for projects for which bonds have not yet been issued and for expenditures incurred to improve State-owned sites that have not been sold.

The State Building Authority, a capital projects fund, had a fund balance deficit of \$80.8 million. The fund deficit resulted because the issuance of commercial paper represents a fund liability and the corresponding construction projects are not reported as assets in the fund.

Proprietary Funds reporting a net position deficit (in millions):

Enterprise Funds:	
State Lottery Fund (SLF)	\$ 33.5
Liquor Purchase Revolving Fund	37.2
Internal Service funds:	
Correctional Industries Revolving Fund	2.5
Information Technology Fund	653.5
Motor Transport Fund	6.2

The deficits above are primarily attributable to the implementation of Governmental Accounting Standards Board (GASB) Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits other than Pensions. The Statement of Net Position now includes a portion of net Other Postemployment Benefits liability related to the State Employees' Retirement System (SERS) that was allocated to the fund in accordance with GASB standards. The deficit is also attributed to GASB Statement No. 68, Accounting and Financial Reporting for Pensions. The Statement of Net Position includes a portion of net pension liability related to the SERS that was allocated to the fund in accordance with GASB standards.

In addition the SLF deficit is also attributed to the unrealized losses on investments that SLF holds to fund future payments due on annuitized lottery prizes. Accounting principles dictate that SLF record the gain or loss related to the change in market value of investments.

NOTE 23 – FUND BALANCES AND NET POSITION

Fund Balance Classifications – Governmental Funds

The following table provides additional detail regarding the fund balances reported on the Governmental Funds Balance Sheet at September 30 (in millions):

	General Fund	School Aid Fund	Other Special Revenue Funds	Debt Service Funds	Capital Projects Funds	Permanent Funds	Total
Non-Spendable							
Inventory and prepaids	\$ 20.4	\$ -	\$ -	\$ -	\$ 10.4	\$ -	\$ 30.8

Due to Fiduciary Funds *	-	-	-	87.8	-	-	-	87.8
Miscellaneous	-	-	-	-	14.4	-	0.4	14.8
Total	\$ 3,114.0	\$ 156.2	\$ 664.6	\$ 183.0	\$ 219.3	\$ 33.4	\$ 110.2	\$ 4,480.7

* This amount represents amounts due to fiduciary funds that are reclassified as external payables on the government-wide Statement of Net Position.

Effective January 1, 2008, the State replaced the Single Business Tax with the Michigan Business Tax (MBT). Effective January 1, 2012, the MBT was replaced by the Corporate Income Tax. However, a small number of taxpayers with certificated credits may continue to file under the MBT provisions until their credits expire. Beginning in fiscal year 2008, the State did not estimate a business tax liability on the accrual basis of accounting due to the lack of information. The State is still unable to estimate an accrual because the data needed to compare tax payments received to the total tax liability is not available. Therefore, any potential tax refunded (payable), or tax overpayments that will be applied by taxpayers against subsequent tax liability periods (carried forward), is not measurable and has not been recorded in this fiscal year.

NOTE 25 – CONTINGENCIES AND COMMITMENTS

Primary Government

Litigation

In the government-wide and proprietary fund financial statements, the State accrues liabilities related to significant legal proceedings if a loss is probable and reasonably estimable. In the governmental fund financial statements, liabilities are accrued when cases are settled and the amount is due and payable.

The State is a party to various legal proceedings seeking damages, injunctive, or other relief. In addition to routine litigation, certain of these proceedings could, if unfavorably resolved from the point of view of the State, substantially affect state programs or finances. These lawsuits involve programs generally in the areas of corrections; tax collection; and commerce and budgetary reductions to school districts and governmental units. Relief sought generally includes damages in tort cases; improvement of prison medical and mental health care and refund claims for state taxes. The State is also a party to various legal proceedings that, if resolved in the State's favor, would result in contingency gains to the State, but without material effect upon fund balance/net position. The ultimate dispositions and consequences of all of these proceedings are not presently determinable, but such ultimate dispositions and consequences of any single proceeding or all legal proceedings collectively should not themselves, except as listed below, in the opinion of the Attorney General of the State and the State Budget Office, have a material adverse effect on the State's financial position. Those lawsuits pending which may have a significant impact or substantial effect on state programs or finances, if resolved in a manner unfavorable to the State, include the following:

In re Flint Water Cases (formerly known as Melisa Mays v Governor Snyder): The State of Michigan, Governor Snyder, Department of Environmental Quality (DEQ), Department of Health and Human Services (DHHS) and various other State employees, officers, and boards have been sued in approximately 90 lawsuits arising out of the Flint Water Crisis. Plaintiffs allege that the State defendants are responsible for a decision to use the Flint River as the drinking water source, which caused them to be exposed to contaminated water. According to plaintiffs, DEQ failed to order Flint to properly treat the drinking water, which allegedly caused the plaintiffs to be exposed to unsafe levels of lead and to legionella bacteria. Plaintiffs also allege DHHS failed to warn plaintiffs of the increased exposure to lead and to legionella. Over 2,700 individuals have filed notices of intent against the State defendants in the Court of Claims. Multiple individual and class actions have been filed against the State defendants seeking injunctive relief and monetary damages arising out of claims for bodily injury, property damage, statutory violations, and infringement of constitutional rights. Plaintiffs have not yet stated the total damages being sought, but the claimed damages will certainly exceed \$1.0 billion. The State defendants have asserted multiple defenses to those claims, which are under consideration by the courts. A reasonable possibility exists that the litigation will be settled in 2020 and that any settlement will require a significant payment in the hundreds of millions by the State.

Taxpayers for Michigan Constitutional Government v The State of Michigan: On September 7, 2016, plaintiffs filed suit against defendants in the Michigan Court of Appeals under the provisions of the Headlee Amendment to the Michigan Constitution. Plaintiffs named the Department of Technology, Management and Budget, the Office of the Auditor General, and the State as defendants. Among its provision, Section 30 of the Headlee Amendment requires that “The proportion of total state spending paid to all units of local government, taken as a group, shall not be reduced below that proportion in effect in fiscal year 1978-79.” The figure was recalculated in 1993 based on prior litigation. This means that each year, state spending in the form of aid to local governments, in the aggregate, must be at least 48.97 percent of total state spending from state revenue sources, as those terms are defined.

This case challenges whether certain categories of state spending should be counted toward, or excluded from, the 48.97 percent calculation. Plaintiffs’ allegations challenged Proposal A funding for schools, including public school academies, transportation funding, and other unspecified state spending to aid units of local government. The transportation funding claims were later dismissed. Although plaintiffs do not quantify a specific dollar amount in contention as to the remaining claims, making it impossible to estimate the precise fiscal impact of this case, the State’s annual school spending alone is a substantial portion of the State’s overall budget. On October 29, 2019, the Court of Appeals issued a published decision in the Defendants’ favor as to Counts I and II of the complaint, addressing Proposal A spending generally and Public School Academy spending specifically, for purposes of Section 30 of the Headlee Amendment. The Court of Appeals found in favor of the Plaintiffs as to Count IV and V of the complaint, addressing treatment of state mandate spending under Section 30 of the Headlee Amendment and Plaintiffs’ statutory mandamus request, respectively. The parties filed timely cross-applications for leave to appeal with the Michigan Supreme Court and the applications are pending.

Any Court decision changing how these categories of state spending are treated under Headlee could have a substantial impact on the State’s overall budget and the Legislature’s annual appropriation process. The Court of Appeals’ decision is not final unless, or until, the Michigan Supreme Court addresses the parties’ respective applications for leave to appeal, which are still in the briefing stage.

Concerned Pastors for Social Action et al v Nick Khouri et al: On January 27, 2016, plaintiffs filed suit against defendants in a lawsuit arising out of the Flint Water Crisis. A settlement agreement was reached on March 27, 2017. As a part of the settlement agreement the State is required to allocate \$87.0 million from a combination of State and federal funding sources to reimburse the City of Flint through calendar year 2020 for costs related to identifying service line materials and replacing lead and galvanized steel service lines. Of the \$87.0 million, \$20.0 million will originate from federal funds under the Water Infrastructure Improvements for the Nation Act (WIIN) and \$20.0 million will be from State matching funds related to the WIIN federal funds. The remaining \$47.0 million is required to be allocated by the State from sources other than WIIN. In addition, the State is required to reserve an additional \$10.0 million in federal WIIN funds in the event that the \$87.0 million in allocated funds do not cover all costs. As of the fiscal year ended September 30, 2019, the State has expended over \$63.0 million in funds for service line replacements. Other components of the settlement agreement require the State to conduct the following activities until all lead service lines are replaced: provide tap water monitoring; perform filter installation, maintenance and education activities; and continue to operate and maintain funding at current levels for several existing programs. It is expected that the remaining \$34.0 million will be paid in 2020.

John Doe et al v Department of Corrections et al: Plaintiffs filed class action complaints in Washtenaw County Circuit Court and federal district court against the Department of Corrections (DOC), Governor Snyder, DOC’s Director and Deputy Directors, and several DOC employees, including individual wardens. The state-court complaint is based on alleged violations of the Elliott-Larsen Civil Rights Act. The federal complaint alleges violations of 42 USC § 1983, as well as claims based on international law. The proposed class includes “youthful prisoners,” described as those between 14 and 17 years that were incarcerated within the Michigan Department of Corrections at any time after October 2010. The parties reached a settlement agreement in February 2020. Under the agreement, the State is required to pay \$25.0 million in fiscal year 2020, \$15.0 million in fiscal year 2021, \$25.0 million in fiscal year 2022, and \$15.0 million in fiscal year 2023. The State has recognized a liability of \$80.0 million in the government-wide statements.

Federal Grants

The State receives significant financial assistance from the federal government in the form of grants and entitlements. The receipt of federal grants is generally conditioned upon compliance with terms and conditions of the grant agreements and applicable federal regulations. Substantially all federal grants are subject to either federal single audits or financial and compliance audits by grantor agencies. Questioned costs as a result of these audits may become disallowances after the appropriate review of federal agencies. Material disallowances are recognized as liabilities in the government-wide and proprietary fund financial statements when the loss becomes probable and reasonably estimable. Disallowances are recognized as liabilities in the governmental fund financial statements when the loss becomes due and payable. As of September 30, 2019, the State has recognized a liability of \$34.7 million in the government-wide statements and had been notified of disallowances totaling approximately \$195.7 million for which the State believes the possibility of full repayment is reasonably possible. The State estimates that any additional disallowances of recognized revenue will not be material to the general purpose financial statements.

Gain Contingencies

Certain contingent receivables related to DHHS are not recorded as assets in these statements. Amounts recoverable from DHHS grant recipients for grant overpayments or from responsible third parties are recorded as receivables only if the amount is reasonably measurable, expected to be received within 12 months, and not contingent upon future grants or the completion of major collection efforts by the State. If recoveries are accrued and the program involves federal participation, a liability for the federal share of the recovery is also accrued. The unrecorded amount of potential recoveries, which are ultimately collectible, cannot be reasonably determined.

Master Settlement Annual Payment: In 1998, the major United States tobacco product manufacturers entered into the Master Settlement Agreement (MSA) with the State of Michigan and 51 other jurisdictions (the Settling States) comprised of 46 states, the District of Columbia, Puerto Rico, and four U.S. territories. The MSA is the product of extensive negotiations between the Settling States and Participating Manufacturers (PMs). The Ingham County Circuit Court approved the MSA by entry of a Consent Order on December 11, 1998. The MSA releases the PMs from Michigan's claims that the PMs had conspired to conceal from the public the health risks related to smoking, and had specifically targeted minors in their marketing efforts. In return for the release, the MSA obligates the PMs to make annual payments to the states, and requires substantial changes in the companies' advertising and marketing practices, with the intention of reducing underage smoking. The MSA provides that an Independent Auditor calculates the PMs' payments annually, using a specified formula. The payment is computed as an aggregate figure, which is then divided among the states according to percentages specified in the MSA. The MSA requires the PMs to make their payments by April 15 of each year, in perpetuity, with Michigan receiving an allocable share of 4.3519476 percent of the total.

In December 2012, the State of Michigan along with over 20 other states signed the term sheet settlement; an agreement in principle designed to settle litigation over the application and interpretation of the Nonparticipating Manufacturers (NPM) adjustment and diligent enforcement provisions of the MSA. As a result of the term sheet, the uncertainty regarding the State's disputed payment account and whether the State was diligently enforcing its collection obligations pursuant to the MSA during years 2003 through 2012 was substantially eliminated. The State of Michigan avoided any further reduction of its tobacco payments for those years, and the State's share of those funds was released.

In October 2017, the parties to the term sheet settlement formalized their 2012 understanding by signing the NPM Adjustment Settlement Agreement, which provided a more definitive framework for avoiding similar disputes in subsequent years but retains the potential for additional diligent enforcement-based adjustments after 2017.

On April 18, 2019, the State of Michigan received an annual payment of \$290.7 million pursuant to the terms of the tobacco MSA. This figure represents a combined total of the amounts received by the Michigan Department of Treasury Receipts Processing Division and the Trustee for the Michigan Tobacco Settlement Finance Authority, which receives 24.11 percent of Michigan's annual MSA payment pursuant to Michigan Compiled Law (MCL) Section 129.261, et seq.

It is impossible to calculate with precision the amount of the MSA's sales-based annual payment that Michigan will receive in April 2020, but is expected to be in the range of \$275.0 million to \$290.0 million.

Contingent Liability for Local School District Bonds

Article 9, Section 16, of the Michigan Constitution resulted in a contingent liability for the bonds of any school district which are "qualified" by the State Treasurer. If, for any reason, a qualified school district will be, or is, unable to pay the principal and interest on its qualified bonds when due, the school district shall borrow, and the State shall lend to it, any amount necessary for the school district to avoid a default on its qualified bonds. In the event that adequate funds are not available in the School Loan Revolving Fund to make such a loan, the State is required to make loans from the General Fund. As of September 30, 2019, the principal amount of qualified bonds outstanding was \$13.1 billion. Total debt service requirements on these bonds including interest will be approximately \$1.9 billion in 2020. The amount of loans by the State (related to local school district bonds qualified under this program), outstanding to local school districts as of September 30, 2019, is \$1.2 billion. Interest due on these loans as of September 30, 2019, is \$112.8 million.

Venture Michigan Fund Tax Vouchers

As of September 30, 2019, the Venture Michigan Fund had \$250.0 million in tax vouchers outstanding. These vouchers are used as collateral for loans to early stage venture investment businesses as a mechanism to promote a healthy economic climate in Michigan. Of this amount, the State has recognized a liability of \$225.6 million in the government-wide statements. The liability represents the tax vouchers expected to be sold and redeemed or nullified during the next five years.

Michigan Economic Growth Authority (MEGA) Tax Credits and Poly-Silicon Energy Cost Credit

MEGA tax credits are awarded to businesses that commit to making capital investments that create and/or retain jobs in Michigan. During fiscal year 2015, a number of amendments were made to the MEGA tax credit program that will cap and reduce the liability in future years.

The MEGA Poly-Silicon Energy Cost Credit was established to stimulate the manufacturing of polycrystalline silicon to be used for solar cells and semiconductor microchips. The law allows a refundable credit awarded before 2009 to be claimed for a period of 12 years starting in 2012 (tax years 2012 – 2023).

As of September 30, 2019, an estimated \$6.1 billion in MEGA tax credits and Poly-Silicon Energy Cost Credits remained outstanding. The amount of MEGA tax credits and Poly-Silicon Credits expected to be redeemed is estimated at \$603.5 million in fiscal year 2020; \$593.3 million in fiscal year 2021; \$592.2 million in fiscal year 2022; \$567.4 million in fiscal year 2023; and the remainder in subsequent fiscal years. The State has recognized a liability of \$30.5 million in the government-wide statements. The liability represents certificated credits, eligible to be claimed, and not yet claimed as of December 1, 2019.

Michigan Brownfield Tax Credits

Michigan Brownfield Tax Credits are awarded to businesses that commit to revitalize, redevelop, and reuse contaminated, blighted, functionally obsolete, tax reverted, or historic property. Although the State stopped awarding new Brownfield Tax Credits in calendar year 2011, previously issued credits remain eligible for redemption. As of September 30, 2019, an estimated \$72.6 million in Brownfield Tax Credits remained outstanding. The amount of Brownfield Tax Credits expected to be redeemed is estimated at \$29.9 million in fiscal year 2020, \$40.3 million in fiscal year 2021, and \$2.4 million in fiscal year 2022. The State has recognized a liability of \$18.1 million in the government-wide statements. The liability represents certificated credits, eligible to be claimed, and not yet claimed as of December 1, 2019.

Other Contingent Liabilities

The State has been involved in a court case challenging MCL Section 38.1343a, as enacted by P.A. 75 of 2010, which was in effect from July 1, 2010 to September 3, 2012, that has been amended by P.A. 300 of 2012. Public Act 75 of 2010 required that active members of the Michigan Public School Employees Retirement System (MPERS) contribute 3.0 percent of their compensation to help pay for the cost of health care for retirees of MPERS. On December 20, 2017, the Michigan Supreme Court affirmed that P.A. 75 of 2010 is unconstitutional as it substantially impaired the plaintiffs' employment contracts by involuntarily reducing the plaintiffs' wages by 3.0 percent. As a result, the funds collected pursuant to P.A. 75 of 2010 were refunded to the plaintiffs, by order of the Court of Claims. The amount refunded totaled \$554.0 million, including actual interest accrued. During post-judgment proceedings, the Court of Claims additionally awarded plaintiffs additional judgment interest totaling approximately \$80.0 million to \$90.0 million. The State has filed an appeal related to the Court of Claims' order awarding the plaintiffs judgment interest; the appeal is pending in the Court of Appeals.

Commitments and Encumbrances

The Michigan Department of Transportation has construction and consultant commitments that will be paid with transportation related funds. As of September 30, 2019, these commitments equaled \$2.5 billion; a portion of this balance, \$45.1 million, has been encumbered.

Michigan
Notes to the Financial Statements

Encumbrance balances are comprised of grant agreements and other contracts the State has entered into with vendors for services or goods not yet performed or received as of year-end. A portion of these commitments will be funded with current fund balances. These amounts are included on the face of the financial statements in the restricted, committed, and assigned fund balance classifications. Resources provided by future bond proceeds, taxes, federal grants, and local and private revenues will fund the remaining commitments. The following table shows total governmental fund encumbrances as of September 30 (in millions):

	General Fund	School Aid Fund	Other Funds	Total
Restricted				
Education	\$ 2.3	\$ 27.2	\$ -	\$ 29.4
Public safety and corrections	14.6	-	-	14.6
Conservation, environment, recreation and agriculture	112.2	-	95.5	207.7
Health and human services	14.0	-	-	14.0
Transportation	-	-	364.3	364.3
Labor, commerce, and regulatory	8.0	-	10.6	18.7
Other purposes	20.2	-	0.4	20.6
Committed				
Education	0.4	-	-	0.4
Public safety and corrections	21.5	-	-	21.5
Conservation, environment, recreation and agriculture	25.4	-	-	25.4
Health and human services	10.7	-	-	10.7
Transportation	11.8	-	-	11.8
Labor, commerce, and regulatory	14.6	-	-	14.6
Other purposes	26.7	-	4.3	31.1
Assigned				
Education	3.4	-	-	3.4
Public safety and corrections	53.3	-	-	53.3

Transportation	-	-	-	-
Labor, commerce, and regulatory	4.2	-	-	4.2
Other purposes	26.2	-	-	26.2
Total Encumbrances	<u>\$ 425.2</u>	<u>\$ 27.2</u>	<u>\$ 475.2</u>	<u>\$ 927.6</u>

Discretely Presented Component Units

Student Loan Guarantees

The Michigan Guaranty Agency (MGA), a fiduciary fund of the Michigan Finance Authority, is contingently liable for student loans made by financial institutions that qualify for guaranty. The State, other than MGA, is not liable for these loans. The default ratio for loans guaranteed by MGA is below 5.0 percent for the fiscal year ended September 30, 2019. In the event of future adverse default experience, MGA could be liable for up to 25.0 percent of defaulted loans. While management believes the MGA expected maximum contingent liability is less than 25.0 percent of outstanding guaranteed loans, the maximum contingent liability at 25.0 percent is \$252.8 million as of September 30, 2019. Management does not expect that all guaranteed loans could default in one year.

The MGA has entered into commitment agreements with all lenders that provide, among other things, that the MGA will maintain cash and marketable securities at an amount sufficient to guarantee loans in accordance with the Higher Education Act of 1965, as amended. MGA management believes MGA was in compliance with this requirement as of September 30, 2019.

Multi-Family Mortgage Loans

As of June 30, 2019, the Michigan State Housing Development Authority (MSHDA) has commitments to issue multi-family mortgage loans in the amount of \$130.2 million and single-family mortgage loans in the amount of \$73.6 million.

MSHDA has committed up to approximately \$1.1 million per year for up to 30 years from the date of completion of the respective developments (subject to three years advance notice of termination) from its accumulated reserves and future income to subsidize operations or rents for certain tenants occupying units in certain developments funded under MSHDA's multi-family program.

In addition, MSHDA makes available up to approximately \$1.0 million per year for up to 30 years to subsidize rents in a similar fashion for 20.0 percent of the units in certain other developments financed or to be financed under MSHDA's multi-family mortgage lending program.

NOTE 26 – RISK MANAGEMENT

Primary Government

General

The State has elected not to purchase commercial insurance for many of the risks of losses to which it is exposed. The State is self-insured for most general liability and property losses, portions of its employee insurance benefit and employee bonding programs, automobile liability, and workers' compensation and unemployment compensation claims. Areas of risk where some level of insurance coverage is purchased include: aircraft liability, property and loss rental insurance that may be required by bond or lease agreements, portions of the state employee insurance benefits program, certain state artifacts, builder's risk coverage, boiler and machinery coverage, and employee bonding. Settled claims have not exceeded commercial coverage in any of the past ten fiscal years.

The State has established two internal service funds, which are described below, to account for certain aspects of the risk management program. Fund expenditures (expenses) are recognized in the paying funds in a manner similar to purchased commercial insurance. For other uninsured losses not covered by an internal service fund program, such as general liability and property losses, the State recognizes fund liabilities in the fund incurring the loss as follows: governmental funds record an expenditure when a loss is due and payable; proprietary funds record an expense when it is probable that a loss has occurred and the amount can be reasonably estimated. As explained more fully in Note 15, losses for workers' compensation and certain types of litigation losses have been recognized as liabilities in the government-wide financial statements.

For unemployment claims, the Unemployment Insurance Agency (UIA) bills the State for the actual amount of claims paid to former State employees. The State accrues liabilities in the governmental fund financial statements for unemployment compensation, only to the extent paid by UIA through September 30. During fiscal year 2019, expenditures for payments to former State employees (not including university employees) totaled \$4.8 million. The potential liability for future payments cannot be estimated.

The State's two internal service funds, which account for certain areas of risk management, such as portions of its employee insurance benefits, employee bonding, and automobile liability, follow accounting standards established by the Governmental Accounting Standards Board. This results in a reporting which is very similar to that used in the private insurance industry. The various component programs within the two funds may incur deficits during a given year, but each program's surplus and unrestricted net position balance is considered in calculating future charges or benefit levels.

Risk Management Fund

This fund was established during fiscal year 1990 to account for insurance management activities implemented within the Department of Technology, Management and Budget. The automobile liability and administrative functions are accounted for as operating activities of this fund. Expenses and liabilities for claims, including incurred but not reported or not processed claims, have been recorded in the amount of \$5.2 million. This includes a long-term portion, which is recorded at \$3.3 million.

Changes in the Risk Management Fund's claims for automobile liability for the fiscal years ending September 30, 2019 and 2018 are as follows (in millions):

	2019	2018
Balance - beginning	\$ 5.1	\$ 5.4
Current year claims and changes in estimates	0.8	2.1
Claim payments	<u>(0.8)</u>	<u>(2.3)</u>
Balance - ending	<u>\$ 5.2</u>	<u>\$ 5.1</u>

The Risk Management Fund also has general liability insurance with \$0.9 million recorded in long-term liabilities. General liability insurance amounts were previously reported as part of the Fund's automobile liability. The combined total for the automobile liability and general liability insurances is \$6.1 million in 2019 as well as in 2018.

Workers' compensation payments for state agencies are processed centrally through the Risk Management Fund. Changes in workers' compensation claims for the fiscal years ending September 30, 2019 and 2018 are as follows (in millions):

	2019	2018
Balance - beginning	\$ 49.6	\$ 55.4
Current year claims and changes in estimates	8.2	6.5
Claim payments	<u>(11.0)</u>	<u>(12.3)</u>
Balance - ending	<u>\$ 46.8</u>	<u>\$ 49.6</u>

Workers' compensation is further described in Note 15.

State Sponsored Group Insurance Fund

The Department of Technology, Management and Budget and the Civil Service Commission use this fund to account for employee benefit programs, which are largely self-funded. Expenses and liabilities for claims, which include incurred but not reported or not processed benefit claims, based on preliminary estimates from the plan administrators, have been recorded as liabilities in the amount of \$131.1 million. This includes a long-term portion, which is recorded at a discounted present value of \$95.7 million. For all claims incurred prior to October 1, 2019, the discounted present value of the long-term disability liability was calculated over a 20-year period using a discount rate of approximately 0.8 percent.

Payments to the State Sponsored Group Insurance Fund are based on estimates of amounts needed to pay prior and current year claims. In addition, a portion of the fund's net position has been designated for catastrophic losses. The risk management designation represents the level of reserves that should be maintained to ease large fluctuations in premium levels in years of unexpected excessive claims. That designation was \$38.1 million at September 30, 2019. Unrestricted net position totaled \$231.4 million at September 30, 2019.

Changes in the State Sponsored Group Insurance Fund's claims liability for employee benefit programs for the fiscal years ending September 30, 2019 and 2018 are as follows (in millions):

	2019	2018
Balance - beginning	\$ 135.0	\$ 134.3
Current year claims and changes in estimates	729.8	728.4
Claim payments	(733.7)	(727.7)
Balance - ending	\$ 131.1	\$ 135.0

Discretely Presented Component Units

State Universities

The state university component units participate with the other Michigan public universities in the Michigan Universities Self-Insurance Corporation (MUSIC), which provides indemnity to its members against comprehensive general liability, errors and omissions losses, and property damage commonly covered by insurance. Loss coverages for comprehensive general liability and property are structured on a three-layer basis with each member retaining a portion of its losses, MUSIC covering the second layer, and commercial carriers covering the third layer. For all policy years through June 30, 1993, errors and omissions coverage was structured on a two-layer basis with no excess insurance provided. Effective July 1, 1993, MUSIC obtained excess insurance coverage from commercial carriers covering the third layer. For automobile liability there is no member retention. Comprehensive general liability, property and automobile liability coverage is provided on an occurrence basis; errors and omissions coverage is provided on a claims-made basis.

NOTE 27 – PLEDGED REVENUES

As authorized by legislation, certain revenues of the primary government are pledged to secure debt of the State's discretely presented component units, and to pay the debt service on those bond issuances. In 2006, the Michigan Tobacco Settlement Finance Authority (MTSFA) was created to issue tobacco settlement bonds, the proceeds of which were used to provide funding for the 21st Century Jobs Trust Fund, as well as the School Aid Fund, the General Fund, and a reserve fund. MTSFA was reported as a blended component unit of the State; MTSFA subsequently was transferred by Executive Order 2010-2 to the Michigan Finance Authority (MFA), a discretely presented component unit of the State. The bonds were securitized by a portion of the State's Tobacco Settlement Revenues (TSRs), which were payable to the State under the Master Settlement Agreement entered into by participating cigarette manufacturers in 1998. Beginning April 1, 2008, 13.3 percent of the State's share of the TSRs was pledged to pay tobacco settlement bonds issued in 2006; beginning April 1, 2010, 10.8 percent of TSRs was pledged to pay tobacco settlement bonds issued as part of the 2007 tobacco securitization. From 2018-2025, the State's share of the settlement is \$348.3 million per year. The actual amount received by the State is less, and is affected by market and other factors related to cigarette manufacturing.

For the period ended September 30, 2019, the State's pledged revenue to MFA was \$70.1 million. A total amount of \$69.7 million was received in MFA's tobacco settlement debt service fund to contribute to annual debt service requirements of \$77.6 million. Shortfalls in the receipt of pledged revenue are made up by investment income if available or other resources; debt service on these bonds is payable solely from pledged TSRs.

The State Legislature issued Public Acts 267 and 268 of 2011, which permitted MFA to issue bonds to repay federal advances to the State's Unemployment Trust Account, avoid additional advances, pay unemployment benefits, and minimize the impact on unemployment insurance tax rates. This legislation also created the Unemployment Obligation Trust Fund to receive unemployment obligation assessment revenue created by the legislation and assessed on employers as long as obligations are outstanding. The assessment rate shall be an amount sufficient to ensure timely payment of debt service on the Unemployment Obligation Trust bonds. All revenue collected or earned in the fund is pledged to MFA for payment of the bonds or for other purposes specified in the legislation. During fiscal year 2019, \$455.1 million was recognized as revenue in the State's Unemployment Obligation Trust Fund and \$455.1 million was paid to MFA's unemployment obligation assessment debt service fund; debt service of \$593.8 million was paid by MFA during the current fiscal year. Remaining principal and interest requirements of the secured bonds totaled \$176.6 million at September 30, 2019.

NOTE 28 – DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES

The following table provides additional detail regarding deferred outflows of resources and deferred inflows of resources reported on the government-wide Statement of Net Position (in millions):

	Primary Government			Component Units
	Governmental Activities	Business- Type Activities	Totals	
Deferred Outflows of Resources:				
Accumulated decrease in fair value of hedging derivatives	\$ -	\$ -	\$ -	\$ 69.7
Refunding of debt	17.5	-	17.5	128.4
Pension Related:				
Differences between expected and actual experience	18.7	-	18.7	1.0
Changes of assumptions	139.2	-	139.2	10.8
Net difference between projected and actual earnings on pension plan investments	0.4	-	0.4	-
Changes in proportion and differences between contributions and proportionate share of contributions	-	-	-	0.1
Contributions subsequent to the measurement date	718.6	3.9	722.6	38.1
Total Pension Related	876.9	3.9	880.9	50.0
Other Postemployment Benefits Related:				
Differences between expected and actual experience	1.1	-	1.1	-
Changes of assumptions	671.1	4.3	675.4	14.6
Changes in proportion and differences between contributions and proportionate share of contributions	12.8	0.4	13.2	3.6
Contributions subsequent to the measurement date	860.5	5.2	865.7	25.2
Total Other Postemployment Benefits Related	1,545.5	9.9	1,555.4	43.5
Total Deferred Outflows of Resources	<u>\$ 2,439.9</u>	<u>\$ 13.9</u>	<u>\$ 2,453.8</u>	<u>\$ 291.6</u>
Deferred Inflows of Resources:				
Accumulated increase in fair value of hedging derivatives	\$ -	\$ -	\$ -	\$ 0.3
Loan origination fees	-	-	-	17.5
Refunding of debt	8.8	-	8.8	7.6
Irrevocable split-interest agreements	-	-	-	15.8
Service concession arrangements	-	-	-	119.2
Pension Related:				
Differences between expected and actual experience	0.5	-	0.5	1.2
Changes of assumptions	8.1	-	8.1	2.4
Net difference between projected and actual earnings on pension plan investments	580.6	3.4	584.0	28.4
Changes in proportion and differences between contributions and proportionate share of contributions	-	-	-	0.1
Total Pension Related	589.2	3.4	592.6	32.2
Other Postemployment Benefits Related:				
Differences between expected and actual experience	959.6	6.0	965.6	48.5
Changes of assumptions	106.6	0.7	107.3	86.7
Net difference between projected and actual earnings on pension plan investments	112.4	0.7	113.1	8.2
Changes in proportion and differences between contributions and proportionate share of contributions	46.4	3.9	50.3	6.3
Total Other Postemployment Benefits Related	1,225.0	11.3	1,236.2	149.7
Total Deferred Inflows of Resources	<u>\$ 1,822.9</u>	<u>\$ 14.7</u>	<u>\$ 1,837.6</u>	<u>\$ 342.2</u>

Michigan
Notes to the Financial Statements

The following table provides additional detail regarding deferred inflows of resources reported in the governmental funds (in millions):

	General Fund	School Aid Fund	Non-Major Funds	Total Governmental Funds
Taxes considered unavailable	\$ 2,386.6	\$ 532.1	\$ 12.0	\$ 2,930.6
Tobacco settlement receivables	13.1	-	150.6	163.7
School loan revolving program	112.8	-	-	112.8
Other	4.3	-	4.0	8.3
Total deferred inflows of resources	<u>\$ 2,516.8</u>	<u>\$ 532.1</u>	<u>\$ 166.6</u>	<u>\$ 3,215.5</u>

Service Concession Arrangements

This deferred inflow of resources is described in more detail in Note 9. The Service Concession Arrangements are related to Eastern Michigan University and Northern Michigan University.

NOTE 29 – SUBSEQUENT EVENTS

Unemployment Insurance Agency – Obligation Trust Fund

Subsequent to year end, the Unemployment Insurance Agency transferred to the Michigan Finance Authority (MFA) funds from the Compensation Fund sufficient to fully redeem the remaining outstanding obligation bonds with a redemption date of December 30, 2019. In January of 2020, the Obligation Assessment Fund repaid these funds to the Compensation Fund. Consequently, no obligation assessment tax will be assessed for the 2020 rate year. Taxes and interest assessed and collected relating to prior rate years will revert to the Michigan Unemployment Compensation Fund.

Short-Term Borrowing

On October 3, 2019, the State Building Authority (SBA) issued \$84.0 million of commercial paper notes bearing an interest rate of 1.4 percent. The notes matured on January 9, 2020.

On January 9, 2020, SBA issued \$133.4 million of commercial paper notes bearing an interest rate of 1.0 percent. The notes mature on May 21, 2020.

Long-Term Borrowing – Discretely Presented Component Units

On January 14, 2020, MFA issued \$3.9 million of tax anticipation revenue notes bearing a variable interest rate with an initial rate of 4.7 percent. The notes mature on June 30, 2021.

On January 22, 2020, MFA issued \$15.9 million of tax anticipation revenue notes bearing a variable interest rate with an initial rate of 3.4 percent. The notes mature on June 30, 2021.

Subsequent to their respective year-ends, the following discretely presented component units issued bonds, some of which are for purposes of refinancing (in millions):

	Bonds Issued
Central Michigan University	\$ 25.4
Ferris State University	39.3
Michigan Finance Authority	500.8
Michigan State Housing Development Authority	529.0
Oakland University	90.0
Western Michigan University	92.9
Total	<u>\$ 1,277.3</u>

**BUDGETARY COMPARISON SCHEDULE
BUDGET-TO-GAAP RECONCILIATION**

FISCAL YEAR ENDED SEPTEMBER 30, 2019

(In Thousands)

	<u>GENERAL FUND</u>	<u>SCHOOL AID FUND</u>
Sources/inflows of resources		
Actual amounts (budgetary basis) "available for appropriation" from the budgetary comparison schedule.	\$ 40,492,543	\$ 15,666,290
Differences - Budget-to-GAAP:		
Budgetary fund balance at the beginning of the year is a budgetary resource but is not a current-year revenue for financial reporting purposes.	(3,486,258)	(405,098)
Proceeds from sale of capital assets are inflows of budgetary resources but are not revenues for financial reporting purposes.	(5,053)	-
Transfers from other funds are inflows of budgetary resources but are not revenues for financial reporting purposes.	<u>(326,400)</u>	<u>(1,072,363)</u>
Total revenues as reported on the Statement of Revenues, Expenditures, and Changes in Fund Balances - Governmental Funds.	<u>\$ 36,674,832</u>	<u>\$ 14,188,829</u>
Uses/outflows of resources		
Actual amounts (budgetary basis) "total charges to appropriations" from the budgetary comparison schedule.	\$ 36,554,472	\$ 15,418,294
Differences - Budget-to-GAAP:		
Encumbrances for supplies and equipment ordered but not received are reported in the year the order is placed for budgetary purposes, but in the year the supplies are received for financial reporting purposes.	1,090	584
Transfers to other funds are outflows of budgetary resources but are not expenditures for financial reporting purposes.	(438,383)	(125,389)
Capital lease and financed purchase acquisitions are not outflows of budgetary resources but are recorded as capital outlay expenditures and other financing sources under GAAP.	<u>7,271</u>	<u>-</u>
Total expenditures as reported on the Statement of Revenues, Expenditures, and Changes in Fund Balances - Governmental Funds.	<u>\$ 36,124,451</u>	<u>\$ 15,293,488</u>

REQUIRED SUPPLEMENTARY INFORMATION

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – BUDGETARY REPORTING

Statutory/Budgetary Presentation

The various funds and programs within funds utilize a number of different budgetary control processes. Annual legislative appropriations and revenue estimates are provided for most “operating” funds. Note 2 of the basic financial statements identifies the annually budgeted operating funds.

The original executive budget and original legislative appropriations provide general purpose (unrestricted) revenue estimates in order to demonstrate compliance with constitutional provisions. Revenues restricted by law or outside grantors to a specific program are estimated at a level of detail consistent with controlling related expenditure accounts.

For programs financed from restricted revenues, spending authorization is generally contingent upon recognition of the related revenue. Reductions of spending authority occur if revenues fall short of estimates. If revenues exceed the estimate, supplemental appropriations are required before the additional resources can be spent.

The budgetary comparison schedule presented for the General Fund and the School Aid Fund presents both the original and final appropriated budgets for fiscal year 2019, as well as the actual resource inflows, outflows, and fund balance stated on the budgetary basis. The supplementary portion of this report includes a Combining Schedule of Revenues, Expenditures, and Changes in Fund Balances – Budget and Actual, by fund type, for non-major special revenue, capital projects, and permanent funds with annual budgets. Those schedules only include the final appropriated budget.

The original budget and related estimated revenues represent the spending authority enacted into law by the appropriation bills as of October 1, 2018 and includes multi-year projects budgetary carry-forwards from the prior fiscal year.

The budgetary fund balance represents total fund balance, net of noncurrent assets and prior year encumbrances. Noncurrent assets do not represent current financial resources available for appropriation and are removed for budgetary purposes. Prior year encumbrances are considered uses of spending authority in the year the State incurs an obligation and are also removed.

Generally accepted accounting principles (GAAP) require that the final legal budget be reflected in the “final budget” column, therefore updated revenue estimates available for appropriations as of November 30, rather than the amounts shown in the original budget, are reported. The November 30 date is used because P.A. 431 of 1984, as amended, permits budget adjustments by the Legislature through 60 days after year-end.

The final appropriations budget represents original and supplemental appropriations, carry-forwards, carry-backs (i.e., current year appropriations for prior year overdrafts), approved transfers, executive order reductions, and timing differences. Expenditures, transfers out, other financing uses, and encumbrances are combined and classified by department rather than being reported by character and function as shown in the GAAP statements. This departmental classification is used to better reflect organizational responsibility and to be more consistent with the budget process. Appropriations include interagency expenditure reimbursement, in which one agency provides funding to another agency within the same fund. The final budget and actual amounts are adjusted to eliminate the duplication.

The timing differences result from unspent authorizations for multi-year projects, such as capital outlay and work projects, and from restricted revenues that had not been appropriated for expenditure in the current year. Such authorization balances remaining at year-end are removed from the final budget column to provide an “annualized” budget.

Positive “variances” reflect restricted revenues that were appropriated and available for expenditure in the current year and unused general purpose spending authority (lapses); negative “variances” reflect budgetary overdrafts. If both positive and negative variances exist for a line, the amount shown is the net variance.

Statutory/Budgetary Reconciliation

The statutory/budgetary basis presentation differs from GAAP in ways that do not affect ending fund balance.

For budgetary reporting purposes, expenditures and transfers out in the “Actual” column include recorded encumbrances because they are considered uses of spending authority in the year the State incurs an obligation. Therefore, the “Original” and “Final Budget” columns do not include encumbrance authorization balances carried over from the prior fiscal year. In the GAAP basis statements, expenditures do not include encumbrances. The effect of this difference is reflected as a reconciling item on the Budgetary Comparison Schedule for the major funds and the Combining Schedule of Revenues, Expenditures, and Changes in Fund Balances – Budget and Actual for the non-major special revenue funds and permanent funds.

For budgetary purposes, capitalizable lease and financed purchase expenditures are recognized when payments are due, rather than upon lease inception as required by GAAP. This difference does not affect fund balance because the “other financing sources” recorded under GAAP at lease inception are not recorded on the statutory/budgetary basis.

Statewide Authorization Dispositions

Subsequent to the release of this report, the State publishes “Statewide Authorization Dispositions” to demonstrate its compliance with the legal level of budgetary control. The report includes line-item appropriation details for the General Fund and budgeted operating funds and is available by contacting the State Budget Office, Office of Financial Management at (517) 241-4010.

REQUIRED SUPPLEMENTARY INFORMATION

INFORMATION ABOUT INFRASTRUCTURE ASSETS REPORTED USING THE MODIFIED APPROACH

As allowed by Governmental Accounting Standards Board Statement No. 34, Basic Financial Statements – and Management’s Discussion and Analysis - for State and Local Governments, the State has adopted an alternative process for recording depreciation expense on selected infrastructure assets. Under this alternative method, referred to as the modified approach, the State expenses certain maintenance and preservation costs and does not report depreciation expense. Assets accounted for under the modified approach include the State’s network of public transportation roads and bridges, including ancillary assets, such as guard rails, signs, lighting, culverts, fencing, and the like. The State is responsible for maintaining approximately 29,711 lane miles of roads and 4,837 bridges (spans in excess of 20 feet).

In order to utilize the modified approach, the State is required to:

- Maintain an asset management system that includes an up-to-date inventory of eligible infrastructure assets.
- Perform condition assessments of eligible assets and summarize the results using a measurement scale.
- Estimate each year the annual amount to maintain and preserve the assets at the condition level established and disclosed by the State.
- Document that the assets are being preserved approximately at, or above, the established condition level.

Roads

Measurement Scale

The Michigan Department of Transportation (MDOT) uses numerous methods to determine the condition of roadway pavements. The Sufficiency Rating had served as the State’s primary method to measure and monitor pavement conditions since 1961; however, Sufficiency Rating has now been eliminated. MDOT has now adopted the Pavement Surface Evaluation and Rating (PASER) as the State’s primary method to measure and monitor pavement conditions. The PASER Rating is a visual analysis conducted by trained road agency staff and includes a 10-point scale, as follows:

Rating	Asphalt	Concrete
10, 9, 8 = Good	New, like new construction, from no defects to occasional transverse crack, crack width tight (hairline) or sealed. Few if any longitudinal cracks on joints.	New, like new construction, from no defects to slight traffic wear, slight map cracking, minor surface defects-pop outs, map cracking or flight scaling, isolated meander cracks, isolated cracks at manholes.
7, 6, 5 = Fair	Little or no crack erosion, little or no raveling, few if any patches in good condition or slight to moderate polishing or flushing, no patches or few, slight raveling or patching/wedging in good condition, moderate raveling, extensive to several flushing and polishing. Sound structural condition.	Minor surface scaling, some open joints, isolated settlement or heave areas or moderate surface scaling <25.0% of surface, several corner cracks tight or well-sealed or moderate to severe scaling or polishing between 25.0% to 50.0% of surface, spalling from shallow reinforcement, multiple corner cracks.
4, 3, 2, 1 = Poor	Severe surface raveling, multiple longitudinal and transverse cracks with slight crack erosion or longitudinal and transverse cracks showing extensive crack erosion, occasional potholes, patches in fair/poor condition or closely spaced cracks with erosion, frequent potholes, extensive patches in poor condition or loss of surface integrity, extensive surface distress.	Severe scaling, polishing, map cracking or spalling >50.0% of surface, corner cracks missing pieces or patches, pavement blowups or extensive patching in fair to poor condition or extensive and severely spalled slab cracks, extensive failed patches, joints failed, severe and extensive settlement and heaves or extensive potholes, total loss of pavement integrity.

Established Condition Level

No more than 30 percent of the pavements shall be rated as “Poor.”

Assessed Conditions

The State assesses condition on a calendar year basis. The following table reports the percentage of pavements meeting ratings of “Good” or “Poor,” for the past three years. “Good” represents ratings of 10 through 5 above and “Poor” represents ratings of 4 through 1 on the PASER rating scale.

Rating	2018	2017	2016
Good	73.0%	75.0%	77.2%
Poor	27.0%	25.0%	22.8%

Bridges

Measurement Scale

MDOT utilizes the National Bridge Inventory (NBI) rating scale to monitor the condition of all bridges under its jurisdiction. The inventory rates bridges, including the deck, superstructure and substructure, using a 10-point scale:

Rating	Description
9	Excellent (no specific definition).
8	Very good. No problems noted.
7	Good. Some minor problems.
6	Satisfactory. Structural elements show some minor deterioration.
5	Fair. All primary structural elements are sound but may have minor section loss, cracking, spalling, or scour.
4	Poor. Advanced section loss, deterioration, spalling, or scour.
3	Serious. Loss of section, deterioration, spalling, or scour have seriously affected primary structural components. Local failures are possible. Fatigue cracks in steel or shear cracks in concrete may be present.
2	Critical. Advanced deterioration of primary structural elements. Fatigue cracks in steel or shear cracks in concrete may be present or scour may have removed substructure support. Unless closely monitored it may be necessary to close the bridge until corrective action is taken.
1	Imminent failure. Major deterioration or section loss present in critical structural components or obvious vertical or horizontal movement affecting structure stability. Bridge is closed to traffic, but corrective action may put it back in light service.
0	Failure. Out of service; beyond corrective action.

Established Condition Level

No more than 35 percent of the bridges shall be rated as "structurally deficient."

Assessed Conditions

A bridge is classified as structurally deficient if the deck, superstructure, substructure, or culvert is rated in "poor" condition (0 to 4 on the NBI rating scale). A bridge can also be classified as structurally deficient if its load carrying capacity is significantly below current design standards or if a waterway below frequently overtops the bridge during floods. The following table reports the percentage of bridges reported in the NBI (spans in excess of 20 feet) whose condition was assessed as "structurally deficient," in the stated year:

Fiscal Year	Structurally Deficient
2019	6.3%
2018	5.5%
2017	5.5%

Bridges that are not intended to carry highway traffic are not included in MDOT's condition assessment shown above. As a result, the number of bridges that were included in the structurally deficient calculation (4,492) in fiscal year 2019 is less than the total (4,837) maintained and assessed by the department.

Estimated and Actual Costs to Maintain

The following table presents the State's estimate of spending necessary to preserve and maintain the roads and bridges at, or above, the "Established Condition Levels" cited above, and the actual amount spent during the past five fiscal years (in millions):

Fiscal Year	Estimated Spending	Actual Spending
2020	\$ 1,073.1	\$ -
2019	1,049.9	1,162.6
2018	919.4	1,073.7
2017	844.8	830.1
2016	824.2	879.9
2015	729.3	748.5

* Governmental Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions, requires the presentation of supplementary information for each of the 10 most recent years. However, until a full 10-year trend is compiled, the State will present information for the years which the information is available. Information presented in the schedule has been determined as of the measurement date (one year before the most recent fiscal year end).

** GASB Statement No. 82, Pension Issues, which is effective for fiscal year 2017, states that the measure of payroll that is presented in schedules of required supplementary information required by GASB Statement No. 68 is covered payroll. GASB Statement No. 82 defines covered payroll as the payroll on which contributions to a pension plan are based. To match this definition, the amount reported as covered payroll in this schedule (based on the fiscal year 2017 measurement period) for the State Employees' Retirement System increased significantly from fiscal year 2017 to fiscal year 2018. Prior to fiscal year 2018, these amounts are reported as covered-employee payroll.

Contribution deficiency (excess)	<u>\$ 1,081</u>	<u>\$ 6,975</u>	<u>\$ 6,765</u>	<u>\$ 5,926</u>
Covered-employee payroll*	\$ 613	\$ 1,662	\$ 1,662	\$ 1,662
Contributions as a percentage of covered-employee payroll	1484.1%	280.2%	275.1%	273.0%

Valuation Date:

Actuarially determined contribution amounts are calculated as of September 30, 2018.

Methods and Assumptions Used to Determine Contributions for the Fiscal Year Ending September 30, 2019:

Actuarial Cost Method	Projected Unit Credit
Amortization Method	Level Dollar, closed
Remaining Amortization Period	22 years, as of October 1, 2018
Asset Valuation Method	Fair value
Wage Inflation	4.0 percent
Projected Salary Increases	4.0 percent
Investment Rate of Return	7.0 percent
Retirement Age	Age-based tables of rates with a 100 percent probability of retirement once a member is subject to term limits.
Mortality	
Active	RP-2014 Employee Generational Mortality Tables, extended via cubic spline. This table is adjusted backwards to 2006 with the MP-2014 scale, resulting in a base year of 2006 with future mortality improvements assumed each year using scale MP-2017.
Retirees	RP-2014 Healthy Annuitant Generational Mortality Tables, extended via cubic spline. This table is adjusted backwards to 2006 with the MP-2014 scale, resulting in a base year of 2006 with future mortality improvements assumed each year using scale MP-2017.
Disability Retirement	The RP-2014 Disabled Mortality Table, extended via cubic spline. This table is adjusted backwards to 2006 with the MP-2014 scale, resulting in a base year of 2006 with future mortality improvements assumed each year using scale MP-2017.
Healthcare Trend Rates	8.3 percent trend, gradually decreasing to 4.0 percent in year 10
Excise Tax	A 2.0 percent load was applied to the health care liabilities of current retirees and a 4.0 percent load was applied to the health care liabilities of future retirees to approximate the cost for future excise tax.
Aging Factors	Based on the 2013 SOA Study "Health Care Costs - From Birth to Death"

* The Legislative Retirement System does not base contributions to the other postemployment benefits plan on a measure of pay. Therefore, in accordance with Governmental Accounting Standards Board Statement No. 85, Omnibus 2017, covered-employee payroll is presented in this schedule instead of covered payroll.

Mortality

Retirees	RP-2000 Combined Healthy Life Mortality Table, adjusted for mortality improvements to 2015 using projection scale BB; 100 percent of the table rates were used for males and females.
Active	RP-2000 Combined Healthy Life Mortality Table, adjusted for mortality improvements to 2015 using projection scale BB; 50.0 percent of the table rates were used for males and females.

* Governmental Accounting Standards Board (GASB) Statement No. 82, Pension Issues, which is effective for fiscal year 2017, states that the measure of payroll that is presented in schedules of required supplementary information required by GASB Statement No. 68 is covered payroll. GASB Statement No. 82 defines covered payroll as the payroll on which contributions to a pension plan are based. To match this definition, the amount reported as covered payroll for the State Employees Retirement System increased significantly from fiscal year 2016 to fiscal year 2017. Prior to fiscal year 2017, these amounts are reported as covered-employee payroll.

SPECIAL REVENUE FUNDS - TRANSPORTATION RELATED

MICHIGAN TRANSPORTATION FUND

Established pursuant to Michigan Compiled Laws Section 247.660, this fund accounts for the receipt and distribution of several tax revenues dedicated for highway purposes. Transfers are made to the General Fund, State Trunkline Fund, and the Comprehensive Transportation Fund. Expenditures include grants to counties, cities, and villages for highway purposes.

COMPREHENSIVE TRANSPORTATION FUND

Established pursuant to Michigan Compiled Laws Section 247.660b, this fund accounts for the planning and development of public transportation systems within the State. Federal revenues, vehicle-related sales tax, and transfers from the Michigan Transportation Fund provide financing for expenditures.

SPECIAL REVENUE FUNDS – CONSERVATION, ENVIRONMENT, AND RECREATION RELATED

MICHIGAN CONSERVATION AND RECREATION LEGACY FUND

This fund (“Legacy Fund”) was created by Article 9, Section 40, of the State Constitution, an amendment approved by voters in November 2006. The purpose of the amendment was to constitutionally prevent the diversion of certain funds and revenues for purposes other than those for which they were created. Section 40 created the following accounts within the Legacy Fund: Forest Recreation, Game and Fish Protection, Off-Road Vehicle, Recreation Improvement, Snowmobile, State Park Improvement, and Waterways.

The implementing legislation related to this amendment, found in Sections 324.2002 – 324.2035 of the Michigan Compiled Laws, transferred a number of special revenue funds and certain restrictively financed activities within the General Fund to the Legacy Fund. The following special revenue funds were transferred into the fund: Game and Fish Protection Fund, Michigan State Waterways Fund, Marine Safety Fund, and State Park Improvement Fund. The restrictively financed activities transferred into the fund from the General Fund were related to various outdoor recreation activities including snowmobiles, off-road vehicles, recreation trails, and State forest recreation.

Financing consists primarily of hunting and fishing licenses; camping and park entrance fees; 2 percent of gasoline taxes dedicated for boating, snowmobiling, off-road vehicles and other trails; watercraft and snowmobile registration fees; and trail use permits. The fund also receives funding from the Michigan Game and Fish Protection Trust Fund. Expenditures are limited to those activities specified in Section 40 and include forest recreation activities, wildlife and fisheries programs, off-road vehicle and snowmobile trails and facilities, State parks and recreation areas, improvement of lake harbors and inland waterways, and water safety education programs.

MICHIGAN GAME AND FISH PROTECTION TRUST FUND

The former Game and Fish Protection Trust Fund was established in 1986 to restrict certain assets for the purpose of generating interest and earnings for transfer to the former Game and Fish Protection Fund (now accounted for within the Michigan Conservation and Recreation Legacy Fund). Article 9, Section 41, of the State Constitution, an amendment approved by voters in November 2006, further protected these assets by creating the Michigan Game and Fish Protection Trust Fund.

The fund operates under Sections 324.43702 – 324.43704 of the Michigan Compiled Laws. The Legislature may appropriate up to \$6 million annually for use by the Game and Fish Protection Account of the Michigan Conservation and Recreation Legacy Fund. Mineral royalties from lands acquired by the Game and Fish Protection Account; direct sale proceeds; and other revenues, which, by statute, are retained for permanent investment, provide additional investment funding.

MICHIGAN NONGAME FISH AND WILDLIFE TRUST FUND

The former Michigan Nongame Fish and Wildlife Fund was established in 1983 to finance research and management of nongame fish and wildlife, designated endangered species, and designated plant species of this State. Article 9, Section 42, of the State Constitution, an amendment approved by voters in November 2006, further protected these assets by creating the Michigan Nongame Fish and Wildlife Trust Fund.

The fund operates under Sections 324.43902 – 324.43907 of the Michigan Compiled Laws. The fund may receive transfers from other funds, donations, investment income, and revenue from specialty license plate sales.

FOREST DEVELOPMENT FUND

This fund was established in 1993, along with the Michigan Forest Finance Authority, and operates under Michigan Compiled Laws Section 324.50507. The primary revenue source of the fund is timber revenue from State forest lands. Expenditures from the fund are for forest management activities and forest fire protection. The Authority is authorized to, but thus far has not, issued bonds.

BOTTLE DEPOSITS FUND

Michigan Compiled Laws (MCL) Section 445.573c created the Bottle Deposits Fund to provide for the disposition of unredeemed bottle deposits. The Department of Treasury and the Department of Environmental Quality (DEQ) jointly administer the fund. The law mandates that an annual distribution of the funds be made as follows: 25 percent returned to the dealers and 75 percent to fund several sub-funds.

The 75 percent distribution to DEQ is initially deposited into the Cleanup and Redevelopment Trust Sub-Fund (CRTF), and if not further distributed, remains there until the principal amount reaches \$200 million. Of funds received annually by the CRTF, 80 percent is allocated to the Cleanup and Redevelopment Sub-Fund (CRF) and 10 percent to the Community Pollution Prevention Sub-Fund.

MCL Section 324.20108 moved the former Environmental Response Fund (ERF) to a sub-fund of the CRF. The law mandates that proceeds of all cost recovery actions taken and settlements entered into pursuant to the ERF (excluding natural resource damages) by DEQ or the Attorney General, or both, shall be credited to the ERF.

Several DEQ sub-funds are administratively housed within the Bottle Deposits Fund, although they receive no bottle deposits revenue. Included is the State Sites Cleanup Sub-Fund, established in accordance with MCL Section 324.20108c to provide for response activities at facilities where the State is liable as an owner or operator. The following loan programs administered by DEQ are also included: the Brownfield Revolving Loan Fund created by MCL Section 324.19608a, the Revitalization Revolving Loan Fund created by MCL Section 324.20108a, and the Federal Brownfield Cleanup and Revolving Loan Fund.

SPECIAL REVENUE FUNDS – REGULATORY AND ADMINISTRATIVE RELATED

HOMEOWNER CONSTRUCTION LIEN RECOVERY FUND

Michigan Compiled Laws (MCL) Section 570.1201 created the Homeowner Construction Lien Recovery Fund to allow contractors, subcontractors, suppliers, and laborers to collect payments for work done if they have not been paid, despite filing a residential lien. MCL Section 570.1201 was repealed effective August 23, 2010. The fund is still accruing monies received from licensees who had final orders issued by the Michigan Residential Builders' and Maintenance and Alteration Contractors' Board to reimburse the payouts from the fund and/or legal costs.

MICHIGAN EMPLOYMENT SECURITY ACT - ADMINISTRATION FUND

Michigan Compiled Laws Section 421.10 created this fund to account for administrative costs of the Unemployment Insurance Agency, which is administered by the Department of Talent and Economic Development. The fund derives most of its revenue from federal grants. It also receives transfers from the Michigan Employment Security Act Contingent Fund (reported as part of the Michigan Unemployment Compensation Funds, an enterprise fund). Expenditures for administration are subject to legislative appropriation.

Unemployment benefit payments to individuals are made directly from funds accumulated from employer premiums. These activities are reported in the Michigan Unemployment Compensation Funds.

SAFETY EDUCATION AND TRAINING FUND

Michigan Compiled Laws Section 408.1055 imposes an annual levy on each insurance carrier licensed to write workers' disability compensation business in the State and on each self-insured employer. The Safety Education and Training Fund was established to receive these assessments for supporting the safety education and training activities of the Department of Licensing and Regulatory Affairs' Michigan Occupational Safety and Health Administration.

SECOND INJURY FUND

Michigan Compiled Laws Section 418.501 created the Second Injury Fund to insure carriers and self-insured employers against certain workers' compensation losses. The administrator, appointed by the fund's Board of Trustees, supervises the fund. The fund's revenue consists of assessments, calculated under provisions of the act, which are assessed to insurance carriers and self-insured employers licensed or authorized in Michigan.

SELF-INSURERS' SECURITY FUND

Established by Michigan Compiled Laws Section 418.501, the Self-Insurers' Security Fund (SISF) pays workers' compensation benefits to injured employees of insolvent, private self-insured employers. Revenues are generated through annual assessments of private self-insured employers.

The SISF also administers bankrupt self-insured employer trust funds that are created for the payment of employer obligations due under the Michigan Workers' Disability Compensation Act. Employer obligations are reported as liabilities of this fund.

SILICOSIS, DUST DISEASE, AND LOGGING INDUSTRY COMPENSATION FUND

Established by Michigan Compiled Laws Section 418.501, the Silicosis, Dust Disease, and Logging Industry Compensation Fund reimburses insurance carriers and self-insured employers licensed or authorized in Michigan who pay benefits to employees injured from certain dust diseases, and employees who have sustained personal injury or death while being employed in the logging industry. Revenues are generated through annual assessments of insurance carriers and self-insured employers licensed or authorized in Michigan.

STATE CONSTRUCTION CODE FUND

Michigan Compiled Laws Section 125.1522 created the State Construction Code Fund. Fees received for building permit applications and other funds collected under this legislation are appropriated by the Legislature for the operation of the Department of Licensing and Regulatory Affairs' Bureau of Construction Codes and related indirect overhead expenditures.

UTILITY CONSUMER REPRESENTATION FUND

Established by Michigan Compiled Laws (MCL) Section 460.6m, the Utility Consumer Representation Fund provides funding, on behalf of residential gas, fuel, and electric customers, for energy cost recovery hearings before the Michigan Public Service Commission. The costs of operation and expenses incurred by the Utility Consumer Participation board in performing its duties under this section and MCL Section 460.6l, shall also be paid from the fund. Revenues are generated through annual assessments of regulated utility companies.

UNEMPLOYMENT OBLIGATION TRUST FUND

This fund was created by Michigan Compiled Laws (MCL) Section 421.10a to facilitate the repayment of debt incurred through a bond issuance authorized under the Employment Security Financing Act (MCL Section 12.271 et seq.) and MCL Section 421.26a. This debt was issued in order to repay advances received from the Federal Government that were provided to temporarily assist Michigan with unemployment payments that exceeded current revenue collections. Revenues within the Obligation Trust Fund are generated from annual assessments on employers. Payments are made to the Michigan Finance Authority, a discretely presented component unit, which currently holds the bonds and makes regular payments to the bond holders.

STATE CASINO GAMING FUND

Created by Michigan Compiled Laws (MCL) Section 432.212, this fund provides the licensing, regulation, and control of casino gaming activities in Michigan via the five-member gaming control board created under MCL Section 432.204. Additional responsibilities include the performance of authorized inspections of tribal Class III gaming facilities and records pursuant to and in accordance with the provisions of the various tribal/state compacts as delegated by the Governor in November 2002; the regulation of live horse racing per Executive Order 2009-45; and the licensing and regulation of Millionaire Party charitable gaming events per Executive Order 2012-4.

SPECIAL REVENUE FUNDS – OTHER STATE FUNDS

21ST CENTURY JOBS TRUST FUND

Michigan Compiled Laws Section 12.257 created the 21st Century Jobs Trust Fund to account for the transfer of the net bond proceeds issued by the Michigan Tobacco Settlement Finance Authority. Executive Order 2010-2 moved the Authority to the Michigan Finance Authority. The bonds were issued to provide sufficient funds to purchase all or a portion of the State's receipts from the master settlement agreement between tobacco manufacturers and the State. Fund expenditures are used to reimburse the Michigan Strategic Fund for expenses related to revitalizing Michigan's economy and for other programs as determined by the Legislature. The fund may accept donations of money from any source; all interest earned is deposited into the State's General Fund. Beginning in fiscal year 2008 through 2023, the fund will also receive a portion of the tobacco settlement revenue received by the State.

MICHIGAN MERIT AWARD TRUST FUND

This fund was created by Michigan Compiled Laws (MCL) Section 12.259 to account for a portion of the revenue from the master settlement agreement between tobacco manufacturers and the State. The settlement reimburses the State for health care costs, which result from the use of tobacco products. The fund also consists of interest and earnings from trust fund investments and donations. Fund expenditures are used for programs, as determined by the Legislature.

All assets and liabilities of the Tobacco Settlement Trust Fund, established by MCL Section 12.253 and repealed as part of tobacco securitization legislation passed in November 2005, were transferred to the Michigan Merit Award Trust Fund in fiscal year 2006.

CHILDREN'S TRUST FUND

Michigan Compiled Laws (MCL) Section 21.171, established the Children's Trust Fund to support the State Child Abuse and Neglect Prevention Board (MCL Section 722.603) to coordinate and fund activities for the prevention of child abuse and neglect in the State. All money contributed to the fund in a fiscal year, plus up to 5.0 percent of the rolling average of the fund for the previous twelve quarters shall be available for disbursement if the rolling average of the fund is at least \$23.5 million. If the rolling average of the fund for the previous twelve quarters is less than \$23.5 million then up to 4.25 percent of the twelve-quarter rolling average is available for disbursement. In addition, money granted or received as gifts or donations to the trust fund is available for disbursement upon appropriation. Funds that are not available for disbursement are reported as nonspendable fund balance.

MILITARY FAMILY RELIEF FUND

Michigan Compiled Laws Section 35.1213 created this fund to provide assistance to families of certain members of the reserve components of the United States armed forces on active duty. A qualified individual or the individual's family shall apply to the Department of Military and Veterans Affairs for a grant from the fund. Funds are received primarily from taxpayer contributions on his or her annual State tax return designating \$1 or more of his or her refund to be credited to this fund.

COMMUNITY DISTRICT EDUCATION TRUST FUND

Michigan Compiled Laws Section (MCL) 12.262 created this fund to provide funding to community districts for the duration they are prohibited under MCL Section 380.386 from levying a school operating tax by offsetting the absence of local school operating revenue in the funding of the State portion of foundation allowances under MCL Section 388.1622b. Beginning in fiscal year 2017, \$72.0 million of tobacco settlement revenue shall be deposited into the fund each year until a total of \$617.0 million is deposited. If the earmarked tobacco settlement revenue is less than the amount necessary to offset the absence of local school operating revenue in a community district in the funding of the State portion of foundation allowances under MCL 386.1622b, then the General Fund will be required to reimburse the School Aid Fund for as long as that community district is prohibited from levying a school operating tax.

MISCELLANEOUS SPECIAL REVENUE FUNDS

The miscellaneous special revenue funds column reflects the activities of the following funds: Children's Institute Trust (operating under the authority of Michigan Compiled Laws (MCL) Section 400.207), Special Assessment Deferment (operating under the authority of MCL Section 211.770), and Intrastate Switched Toll Restructuring (operating under the authority of MCL Section 484.2310).

DEBT SERVICE FUNDS

COMBINED STATE TRUNKLINE BOND AND INTEREST REDEMPTION FUND

This fund was administratively established to account for the debt service on all State Trunkline Fund (STF) related bond issues allowed for under Michigan Compiled Laws Section 247.661. The bonds are not general obligations of the State. The bonds are payable solely out of funds restricted for transportation purposes by Article 9, Section 9, of the State Constitution and irrevocably pledged by law for deposit in STF. Debt service requirements are funded by annual appropriations in STF.

COMBINED COMPREHENSIVE TRANSPORTATION BOND AND INTEREST REDEMPTION FUND

This fund was administratively established to account for the debt service on all Comprehensive Transportation Fund (CTF) related bond issues allowed for under Michigan Compiled Laws Section 247.660b. The bonds are not general obligations of the State. The bonds are payable solely out of funds restricted for comprehensive transportation purposes by Article 9, Section 9, of the State Constitution and irrevocably pledged by law for deposit in CTF. Debt service requirements are funded by annual appropriations in CTF.

RECREATION AND ENVIRONMENTAL PROTECTION BOND REDEMPTION FUND

This fund was established pursuant to Michigan Compiled Laws (MCL) Sections 324.19506, 324.71506, and 324.95102 to service recreation and environmental protection bond issues. This fund also reflects debt service transactions related to State Park Improvement Fund (SPIF) revenue bonds, issued pursuant to MCL Section 324.74106.

Financing of debt retirement, interest expense, and paying agent fees is provided by annual legislative appropriation from the General Fund, transfers from SPIF representing state park revenues pledged for the payment of State Park Gross Revenue Bonds, and transfers from other funds as required by legislative appropriation or executive order.

Included in the restricted fund balance on the balance sheet is a \$300 thousand reserve account required by the State Park Gross Revenue Bonds document for additional security to pay bond principal and interest.

SCHOOL LOAN BOND REDEMPTION FUND

Michigan Compiled Laws Section 388.922 created this fund to account for debt service on general obligation bonds issued to finance loans to local school districts. Financing of debt retirement, interest expense, and paying agent fees is provided by annual legislative appropriation from the General Fund or School Aid Fund.

STATE BUILDING AUTHORITY

The State Building Authority (SBA) was created pursuant to Michigan Compiled Laws Section 830.412, to issue bonds to finance the acquisition or renovation of buildings for use by the State or public institutions of higher education, as well as State furnishings and equipment.

SBA projects are financed by revenue bonds, the proceeds of which can only be used for construction, cost of borrowing and debt service on projects related to particular bond issues. The resources to finance bond interest and principal payments are provided by transfers from the General Fund and from investment earnings of this fund. When a project is completed, the remaining assets are transferred to this fund where they are invested and used for debt service.

CAPITAL PROJECTS FUNDS

STATE TRUNKLINE FUND

Established pursuant to Michigan Compiled Laws Section 247.661, this fund accounts for highway construction and maintenance. Its annual budget is subject to legislative review and appropriation, but the Transportation Commission has significant discretion in determining the funding of individual projects. The majority of projects in this fund are owned by the State. Financing consists primarily of federal aid, local participation, and transfers from the Michigan Transportation Fund. Expenditures and transfers are for administration, highway maintenance and construction, debt service, and various contractual obligations.

This fund also is used to record loans made to local units of government for reconstructing and resurfacing roadways. Activities of the Blue Water Bridge program, segregated as a separate fund within the accounting system, are also reported within the State Trunkline Fund.

STATE AERONAUTICS FUND

Established pursuant to Michigan Compiled Laws Section 259.34, this fund accounts for airport improvement projects, of which a majority are locally owned. Financing consists primarily of aviation fuel taxes and federal contributions.

COMBINED STATE TRUNKLINE BOND PROCEEDS FUND

Established pursuant to Michigan Compiled Laws Section 247.668b, this fund accounts for the proceeds of State trunkline revenue dedicated bonds. These bonds are used in part to finance the costs of road and bridge construction. All projects accounted for by this fund are owned by the State.

COMBINED COMPREHENSIVE TRANSPORTATION BOND PROCEEDS FUND

Established pursuant to Michigan Compiled Laws Section 247.668b, this fund accounts for the proceeds of comprehensive transportation revenue dedicated bonds. These bonds are used in part to finance the costs of locally owned comprehensive transportation projects.

TRANSPORTATION RELATED TRUST FUNDS

The Michigan Department of Transportation is recognized as the legal representative of the State, including all governmental subdivisions, in the administration of the Federal Highway Administration programs. The financing accounted for in this fund consists primarily of revenues from the federal Highway Trust Fund utilized to reimburse municipalities for road and bridge program activities with very little State funds. All projects accounted for in this fund are locally owned.

STATE BUILDING AUTHORITY

The State Building Authority (SBA) was created pursuant to Michigan Compiled Laws Section 830.412, to issue bonds to finance the acquisition or renovation of buildings for use by the State or public institutions of higher education, as well as State furnishings and equipment. The SBA's five-member board is appointed by the Governor.

This capital projects fund accounts for the construction of State projects, certain equipment financing, and higher education related projects using short-term commercial paper notes. Transfers out reflect reimbursements of expenditures to the SBA Advance Financing Fund, and the transfer of assets remaining after the completion of a project to the debt service fund. In the State's Government-wide Financial Statements, accumulated expenditures for incomplete projects are reflected as "construction in progress" and completed projects are recorded as "buildings."

ADVANCE FINANCING FUNDS

The Advance Financing Funds reflects the activities of two sub-funds: the State Building Authority (SBA) Advance Financing Fund and the Site Preparation Economic Development Fund.

The SBA Advance Financing Fund was administratively established to account for expenditures incurred for equipment, higher education, and State projects prior to the issuance of SBA bonds. Appropriation acts and concurrent resolutions provide temporary financing of such expenditures for legislatively authorized projects. Expenditures on behalf of SBA are recorded when incurred. At year-end, any deficit in the common cash pool is reclassified as an interfund liability. In addition to advance expenditures, expenditures financed by the General Fund or other sources related to the SBA projects are recorded in this fund.

SBA, in its separately issued statements, does not recognize liabilities for these projects until bonds or commercial paper are issued; therefore, no receivable from SBA is recognized in this fund prior to bond or commercial paper issuance. This results in the fund showing a year-end fund balance deficit. SBA will reimburse this fund by recording a transfer and the deficit attributable to the bonded projects will be eliminated when SBA issues bonds or obtains commercial paper.

The Site Preparation Economic Development Fund is created through the annual appropriations process to account for expenditures incurred to prepare and sell State owned sites declared as surplus that would provide economic benefit to the area or State. Expenditures are recorded when incurred. Sale proceeds of fund properties are deposited into the fund.

PERMANENT FUNDS

MICHIGAN NATURAL RESOURCES TRUST FUND

Article 9, Section 35, of the State Constitution created the Michigan Natural Resources Trust Fund (MNRTF). The fund, established in 1985, operates under Sections 324.1901 - 324.1908 of the Michigan Compiled Laws. The State Treasurer directs fund investments, which include fixed income and equity investments.

In May of 2011, the MNRTF reached the constitutional limit of \$500 million on the investment corpus. As a result, the MNRTF no longer receives revenue generated from oil and gas bonuses, rentals, and royalties from State-owned land. Constitutionally, these revenue sources are now deposited into the Michigan State Parks Endowment Fund.

Constitutional provisions limit all future MNRTF appropriations to investment and other miscellaneous income of the fund. Appropriations are used to fund grants to local units of government as well as State agencies to acquire land or develop public recreation facilities and to fund payments in lieu of property taxes on State lands acquired by the fund.

MICHIGAN STATE PARKS ENDOWMENT FUND

Established in 1994, the Michigan State Parks Endowment Fund (MSPEF) is governed by the provisions of Michigan Compiled Laws Section 324.74119 to finance operations, maintenance, and capital improvements at Michigan State parks. The voters approved a constitutional amendment in August 2002 that changed the distribution formula and allows the State Treasurer to invest in equity securities and other types of investments.

The fund was established with a \$40 million transfer from the sale of the Accident Fund of Michigan to provide funds for permanent investment. Currently all revenues previously attributable to the Michigan Natural Resources Trust Fund from oil and gas bonuses, rentals, and royalties from State-owned land are deposited in the MSPEF until its accumulated principal is capped at \$800 million.

The legislature is limited to appropriating no more than 50 percent of revenues from oil and gas bonuses, rentals, and royalties from State-owned land plus interest and earnings and any private contributions or other revenue to the endowment fund. When the endowment fund's principal balance reaches \$800 million, only the interest and earnings in excess of the amount needed to maintain the \$800 million principal limit, annually adjusted for inflation, may be expended.

MICHIGAN VETERANS' TRUST FUND

Article 9, Section 37, of the State Constitution created this fund to finance programs to assist veterans and their beneficiaries. A seven-member board of trustees governs the fund. Resources are provided by investment and common cash earnings. Expenditures and transfers out reflect grants to benefit veterans and their widows or dependents, program and administrative costs at both the State and local level. The fund is administered within the Department of Military and Veterans Affairs.

ATTORNEY DISCIPLINE SYSTEM

The Attorney Discipline System (ADS) consists of the Attorney Grievance Commission and the Attorney Discipline Board. This system provides the courts, legal profession, and the general public with a means to ensure that complaints against attorneys for potential violations of the Court Rules and the Michigan Rules of Professional Conduct are properly heard and investigated, and that sanctions are imposed where required. ADS is under the supervision of the Michigan Supreme Court which also approves the two agencies' budgets.

ADS receives revenue in the form of mandatory annual assessments on members of the State Bar of Michigan, provided for by Court Rules. This system also receives other revenue, primarily through the assessment of administrative fees and the recovery of costs, including subpoena fees and transcript costs.

LIQUOR PURCHASE REVOLVING FUND

Michigan Compiled Laws (MCL) Section 436.1221 authorized the Liquor Control Commission, within the Department of Licensing and Regulatory Affairs, to maintain a revolving fund that is to be derived from the money deposited to the credit of the commission with the State Treasurer. Under State monopoly, liquor is sold at wholesale through a State controlled, privately operated distribution system. The fund accounts for the sales of and the replenishing and transporting of the liquor stock. Administrative, warehousing, and delivery costs are paid for through the fund. At the end of each fiscal year, the net income of the fund is transferred to the General Fund in accordance with MCL Section 18.1435.

INTERNAL SERVICE FUNDS

CORRECTIONAL INDUSTRIES REVOLVING FUND

Authorized by Michigan Compiled Laws (MCL) Section 800.325, this fund accounts for the financial transactions of multiple manufacturing and service processing industries employing inmates incarcerated in Michigan's correctional institutions. In 1980, MCL Section 800.326 expanded the fund's sales market to include institutions of this or any other state or political subdivision thereof, the federal government or its agencies, a foreign government or agencies of a foreign government, a private vendor that operates the youth correctional facility, and certain tax-exempt organizations.

The amendment allowed for a five-year phase-in of price setting which would provide a margin in direct and indirect costs to reach self-sufficiency. Since self-sufficiency was reached in 1985, the fund has supported the cost of civilian wages, salaries and other costs which were paid by the Department in the past. A solvent fund allows Industries to expand its operations to service more inmates.

Executive Order 1992-13 stipulates that the fund repay the General Fund for the cost of building and equipping prison factories included as part of new prison construction. The costs of buildings and equipment are to be repaid over 30 years and 10 years respectively. The minimum required payment was made in fiscal year 2019.

STATE SPONSORED GROUP INSURANCE FUND

This fund was administratively established to reflect the financial transactions of the State sponsored insurance plans that provide health, long-term disability, life, vision, and dental coverage for participating employees. The plans' funding methods range from those where the State is fully self-insured to those where an outside carrier assumes partial risk on a contracted basis. A note to the financial statements entitled "Risk Management" provides additional information about this fund.

INFORMATION TECHNOLOGY FUND

This fund was created by administrative decision to provide telecommunication and information technology services for State agencies. During fiscal year 2002, the use of this fund was expanded to account for all information technology activities of the executive branch as prescribed in Executive Order 2001-03. User agencies are billed for the equipment and services based on actual costs or rates established to cover actual costs.

OFFICE SERVICES REVOLVING FUND

Created in 1952, this fund operates under Michigan Compiled Laws Section 18.1269 to provide services in the following areas: printing, reproduction, microfilm and imaging, mailing, distribution of federal and state surplus property, delivery, and warehouse services. The cost of the services or supplies is charged to user departments and agencies. Resultant revenue is credited to the revolving fund and is used for administration and operation of the program, including purchase of necessary equipment. During fiscal year 2002, the use of the fund was expanded to account for the purchase of bulk gas used by State agencies.

MOTOR TRANSPORT FUND

This fund was created by Michigan Compiled Laws Section 18.1213 to provide vehicle and travel services for State agencies. Activities include lease, purchase, replacement, and maintenance of automotive equipment. Vehicles are available to agencies on a permanently assigned basis or through the motor pool for short-term usage and are furnished to agencies at a rate sufficient to cover all costs of operation and maintenance. Agencies are billed on a monthly basis for services rendered.

RISK MANAGEMENT FUND

Administratively established, this fund accounts for certain centralized risk management functions performed by the Department of Technology, Management and Budget for other State agencies. Currently, the fund has assumed a degree of risk for the automotive liability. This activity and administrative functions are recorded as operating activity of the fund. An activity of the fund for which the fund assumes no risk is the centralized processing of workers' compensation payments for State agencies. Workers' compensation long-term claim liabilities are recorded in the Government-wide Financial Statements and the related current year workers' compensation expenditures are recorded in the applicable funds.

PENSION (AND OTHER EMPLOYEE BENEFIT) TRUST FUNDS

Notes to the financial statements, entitled "Deferred Compensation Plans," "Pension Benefits," and "Other Postemployment Benefits," include additional information regarding the following funds and plans.

STATE OF MICHIGAN 457 PLANS

This fund was established in accordance with Michigan Compiled Laws (MCL) Section 38.1151 to account for deferred compensation plans that permit State of Michigan, Michigan Public School, and Education Achievement Authority employees to defer a portion of their income until future years. This fund also includes the State of Michigan 457 Personal Healthcare subfund created by MCL Section 38.68b for all employees hired after January 1, 2012 and those who opted out of the graded premium.

Prior to fiscal year 2016, this fund was titled the State of Michigan Deferred Compensation Funds and included a portion of the State of Michigan 401k Plan related to deferred compensation for State employees. Beginning with fiscal year 2016, this fund only includes amounts that are part of deferred compensation plans established in accordance with Section 457(b) of the Internal Revenue Code. This change occurred to improve comparability with the 457 Plan's separately issued financial statements.

LEGISLATIVE PENSION BENEFITS FUND

This fund was established to account for pension benefits of the Legislative Retirement System (LRS) created by Michigan Compiled Laws (MCL) Section 38.1001. LRS's pension plan provides benefits for members of the Legislature, the presiding officers, and their surviving spouses or children. Participants in the system have a deduction from each salary payment to partially finance the fund. Legislative appropriations, interest on fund investments, and court fees complete the financing.

MCL Section 38.1018 amended LRS's enabling legislation to provide that individuals who first became a legislator or lieutenant governor on or after March 31, 1997, participate in the State's defined contribution plan.

LEGISLATIVE OTHER POSTEMPLOYMENT BENEFITS FUND

This fund was established to account for other postemployment benefits (OPEB) of the Legislative Retirement System (LRS) created by Michigan Compiled Laws Section 38.1001. LRS's OPEB plan provides its members with health, dental, vision, and hearing insurance coverage. This fund includes health coverage for participants of both the defined benefit pension plan and the defined contribution retirement plan.

Pursuant to MCL Section 38.1075, the LRS OPEB plan became closed to new participants. All qualified participants must have completed six years of service before January 1, 2013, to qualify for health insurance in the plan.

STATE POLICE PENSION BENEFITS FUND

This fund was established to account for pension benefits of the Michigan State Police Retirement System (MSPRS) created by Michigan Compiled Laws Section 38.1605, which is administered by a nine-member board under the direction of a chairperson elected from the membership. MSPRS's pension plan provides retirement, survivor and disability benefits to Michigan State Police officers. Financing is provided by investment income and by an annual legislative appropriation.

As a result of contract negotiations, a "pension plus" plan was created which pairs a guaranteed retirement income (defined benefit pension) with a flexible and transferable retirement savings (defined contribution) account for employees first hired on or after June 10, 2012.

STATE POLICE OTHER POSTEMPLOYMENT BENEFITS FUND

This fund was established to account for other postemployment benefits (OPEB) of the Michigan State Police Retirement System (MSPRS) created by Michigan Compiled Laws Section 38.1605. MSPRS's OPEB plan provides retirees hired before June 10, 2012, with the option of receiving health, dental, and vision coverage. Employees hired on or after June 10, 2012, are accounted for within the State of Michigan 401k Plan's Personal Health Care Fund.

STATE EMPLOYEES' PENSION BENEFITS FUND

This fund was established to account for pension benefits of the State Employees' Retirement System (SERS) created by Michigan Compiled Laws (MCL) Section 38.2, which is administered by a nine-member board under the direction of an Executive Secretary. SERS's pension plan provides retirement, survivor and disability benefits to State employees.

Effective March 31, 1997, MCL Section 38.13 closed the plan to new applicants. All new employees become members of the State's defined contribution plan. The law also allows returning employees and members who left state employment on or before March 31, 1997, to elect the defined benefit plan instead of the defined contribution plan.

STATE EMPLOYEES' OTHER POSTEMPLOYMENT BENEFITS FUND

This fund was established to account for other postemployment benefits (OPEB) of the State Employees' Retirement System (SERS) created by Michigan Compiled Laws Section 38.2. SERS's OPEB plan provides all retirees with the option of receiving health, dental, and vision coverage. This fund includes coverage for participants of both the defined benefit pension plan and the defined contribution retirement plan.

PUBLIC SCHOOL EMPLOYEES' PENSION BENEFITS FUND

This fund was established to account for pension benefits of the Michigan Public School Employees' Retirement System (MPERS) created by Michigan Compiled Laws (MCL) Section 38.1321. An eight-member board governs administrative policy. MPERS's pension plan provides retirement, survivor and disability benefits to the public school employees.

Employer contributions and investment earnings provide financing for the fund. Under MCL Section 38.1343a, employees may contribute additional amounts into a "member investment plan."

MCLs Section 38.1304, et al were amended to create a new "pension plus" plan which pairs a guaranteed retirement income (defined benefit) with a flexible and transferable retirement savings (defined contribution) account for employees first hired after June 30, 2010.

Effective July 13, 2017, MCL Section 38.1305 et al., were amended to close the pension plus plan to employees hired after January 31, 2018 and a new, optional pension plus 2 was created. The pension plus 2 plan is similar to the pension plus plan, however, it contains a 50% contribution share from the employee and employer, both of which include the cost of future unfunded liabilities.

PUBLIC SCHOOL EMPLOYEES' OTHER POSTEMPLOYMENT BENEFITS FUND

This fund was established to account for other postemployment benefits (OPEB) of the Michigan Public School Employees' Retirement System (MPERS) created by Michigan Compiled Laws (MCL) Section 38.1321. MPERS's OPEB plan provides all retirees with the option of receiving health, dental, and vision coverage.

Effective July 1, 2010, MCL Section 38.1343e requires employees to contribute a percentage of their compensation into a funding account established under the Public Employee Retirement Health Care Funding Act.

JUDGES' PENSION BENEFITS FUND

This fund was established to account for pension benefits of the Michigan Judges Retirement System (MJRS) created by Michigan Compiled Laws (MCL) Section 38.2201. MJRS's pension plan provides retirement, survivor and disability benefits to judges in the judicial branch of State government. Financing comes from member contributions, court filing fees as provided under law, investment earnings, and legislative appropriations.

MCL Section 38.2401a, effective March 31, 1997, closed the plan to new entrants. Judges or state officials newly appointed or elected on or after March 31, 1997, become members of the State's defined contribution plan.

JUDGES' OTHER POSTEMPLOYMENT BENEFITS FUND

This fund was established to account for other postemployment benefits (OPEB) of the Michigan Judges Retirement System (MJRS) created by Michigan Compiled Laws Section 38.2201. MJRS's OPEB plan provides all retirees with the option of receiving health, dental, and vision coverage. This fund includes health coverage for participants of both the defined benefit pension plan and the defined contribution retirement plan.

MILITARY PENSION BENEFITS FUND

This fund was established to account for pension benefits of the Military Retirement Provisions (MRP) created by Public Act 150 of 1967 being Michigan Compiled Laws (MCL) Section 32.706 and 32.801. MRP's pension plan provides retirement and survivor benefits to State of Michigan military officers and former members of the Michigan National Guard. Financing comes from investment earnings and legislative appropriations.

STATE OF MICHIGAN 401K PLANS

This fund was established in accordance with Michigan Compiled Laws (MCL) Section 38.1151 as a defined contribution pension plan. Membership within the plan includes all State employees hired after March 31, 1997, Public School Reporting Units members hired after July 1, 2010, and for those members of the State Employees' Retirement (defined benefit) System, Judges' Retirement System, Legislative Retirement System, and Education Achievement Authority who elect to transfer to this plan. This fund also includes the State of Michigan 401k Personal Healthcare subfund created by MCL Section 38.68b for all employees hired after January 1, 2012, and those who opted out of the graded premium.

Prior to fiscal year 2016 this fund was titled the State of Michigan Defined Contribution Retirement Fund. Beginning with fiscal year 2016, this fund only includes amounts that are part of deferred compensation and defined contribution plans established in accordance with Section 401 of the Internal Revenue Code. This change occurred to improve comparability with the 401k Plan's separately issued financial statements.

PRIVATE PURPOSE TRUST FUNDS

MICHIGAN EDUCATION SAVINGS PROGRAM

Michigan Compiled Laws Section 390.1473 established the Michigan Education Savings Program (MESP) as an entity within the Department of Treasury. MESP operates a college savings plan authorized by section 529 of the Internal Revenue Code. The plan is designed to collect and invest deposits made by contributors for purposes of financing tuition on behalf of future students. Investment earnings, held in trust by MESP, are Federal and State tax-deferred until the student is ready to attend college. The State offers a tax deduction for contributions made each year.

ESCHEATS FUND

The Escheats Fund operates under the authority of Sections 567.221 – 567.265 of the Michigan Compiled Laws and is used to account for unclaimed property held by the State until claimed by the rightful owners. All property, including any income or increment derived from the property, is subject to the custody of (escheated to) the State when certain criteria contained within the laws are met. Proceeds of the fund pay the administrative costs and prompt claims allowed under the laws.

GIFTS, BEQUESTS, AND DEPOSITS INVESTMENT FUND

This fund was administratively established to account for gifts, bequests, and deposits donated or entrusted to the State. Gifts and donations to the State may only be expended in accordance with applicable external restrictions. This fund earns interest quarterly for its share of the equity in the State Treasurer's Common Cash pool.

HOSPITAL PATIENTS' TRUST FUND

The Hospital Patients' Trust Fund operates under the authority of Michigan Compiled Laws Section 330.1730 and is used to account for the personal funds of patients receiving services in State hospitals. The Department of Health and Human Services (DHHS), in conjunction with the State Treasury, acts as the trustee of this fund. The Hospital Patients' Trust Fund earns interest quarterly for its share of the equity in the State Treasurer's Common Cash pool. DHHS distributes the interest quarterly to patients meeting minimum balance requirements.

MICHIGAN ACHIEVING A BETTER LIFE EXPERIENCE

Michigan Compiled Laws Section 206.983 established the Michigan Achieving a Better Life Experience (MiABLE) Program within the Department of Treasury. MiABLE operates a disability savings plan authorized by Section 529 of the Internal Revenue Code. The plan is designed to collect and invest deposits made by contributors for purposes of financing qualified disability expenses on behalf of individuals with disabilities and their designated beneficiaries with disabilities. Any person may contribute into the program, as prescribed by law. Investment earnings are held in trust by MiABLE until the account owner is ready to withdraw for eligible expenses. The Federal and State governments offer a tax benefit for contributions made each year.

AGENCY FUNDS

ENVIRONMENTAL QUALITY DEPOSITS FUND

The Environmental Quality Deposits Fund accounts for deposits of performance bonds for which the Department of Environmental Quality has legal custody. The bonds held by this fund include bond deposits from the hazardous waste program and the solid waste program as provided by Sections 324.11141 and 324.11523 of the Michigan Compiled Laws (MCL) and from the scrap tire program as provided in MCL Section 324.16903.

INSURANCE CARRIER DEPOSITS FUND

This fund was administratively established to account for deposits held by the State Treasurer on behalf of insurance carriers who are licensed or authorized to write insurance in the State and are required by Michigan Compiled Laws Section 500.411, to provide such deposits. All deposits are in the form of various securities and other acceptable assets.

CITY INCOME TAX – TRUST FUND

Michigan Compiled Laws Sections 141.501 – 141.787 created the City Income Tax - Trust Fund and allows a city that imposes a city income tax, pursuant to the City Income Tax Act as amended, to enter into an agreement with the Department of Treasury under which the Department of Treasury shall administer, enforce and collect the city income tax on behalf of the city. City income taxes, interest, penalties and collection fees collected under an agreement entered into pursuant to the above, shall be kept in the City Income Tax - Trust Fund and shall be paid to the city, except that an amount of the taxes collected as determined in the agreement may be retained by the Department of Treasury to cover the cost of collection and administration and that the amount shall be deposited into the State general fund.

CHILD SUPPORT COLLECTION FUND

This fund was administratively established to account for the activity of the Michigan State Disbursement Unit (MISDU). The MISDU, administered by the Department of Health and Human Services, was created to provide a single location within the State for the receipt and disbursement of child support payments.

SOCIAL WELFARE FUND

This fund was administratively created to provide a single location within the State for the receipts and disbursements related to county child care funds and local county funds. Participating counties provide funds to the Department of Health and Human Services (DHHS) on a quarterly basis to pay for court ward youth under DHHS supervision. DHHS uses the funds to pay for approved foster care individuals, private agencies, institutions, in-home care, and independent living based on receipt of child care invoices and supporting documentation.

COMPONENT UNITS – AUTHORITIES

FARM PRODUCE INSURANCE AUTHORITY

Michigan Compiled Laws (MCL) Section 285.315 created the Farm Produce Insurance Authority (FPIA) as a public body corporate. Operating under Sections 285.311 – 285.331 of the MCL, FPIA is governed and administered by a ten-member board of directors. FPIA administers a program in which producers of dry beans, grain, or corn may contribute to the Farm Produce Insurance Fund, a percentage of their net proceeds from all farm produce sold by the producer to a licensee in this State. Under this program the producer may recover from the fund for losses caused by the licensed grain dealer's financial failure.

LAND BANK FAST TRACK AUTHORITY

Michigan Compiled Laws Section 124.765 created the Land Bank Fast Track Authority (LBFTA) to assemble or dispose of public property, including tax reverted property, in a coordinated manner to foster the development of the property and to promote economic growth within the State. LBFTA receives public properties, undertakes expedited action to clear their titles, and then ensures the properties' redevelopment.

MACKINAC BRIDGE AUTHORITY

Michigan Compiled Laws (MCL) Section 254.302 created the Mackinac Bridge Authority (MBA). MCL Section 254.314 empowered MBA to construct and operate a bridge between the lower and upper peninsulas of Michigan. Fares and earnings on investments finance the operation and maintenance of the bridge. State statutes require that MBA continue charging bridge tolls and repay State funds for all the subsidies provided in prior years.

MACKINAC ISLAND STATE PARK COMMISSION

Established in 1927, the Mackinac Island State Park Commission currently operates under Sections 324.76701 – 324.76709 of the Michigan Compiled Laws. The Governor, with the advice and consent of the Senate, appoints the seven-member commission. The Commission is responsible for the management of the Mackinac Island and Michilimackinac State Parks and has the authority to issue revenue-dedicated bonds.

MICHIGAN EARLY CHILDHOOD INVESTMENT CORPORATION

The Michigan Early Childhood Investment Corporation was created by an interlocal agreement between the Department of Health and Human Services and participating intermediate school districts. The interlocal agreement was entered into pursuant to Sections 124.501 – 124.512 of the Michigan Compiled Laws. In 2018, the interlocal agreement was first amended and restated between the Department of Education and participating intermediate school districts. The Corporation's primary objective is to administer activities related to early childhood development.

The governing body of each participant shall appoint one member of the Corporation Board to serve at the will of the participant. The Corporation Board will also include fifteen members appointed by the Governor and the State Superintendent or his or her designee from within the Department. The Corporation will have an Executive Committee of 15 members of the Corporation Board. The members of the Executive Committee will include the State Superintendent, or his or her designated representative from within the Department serving as a member of the Corporation Board, and 14 members of the Corporation Board appointed by the Governor. The members of the Executive Committee appointed by the Governor must include at least one of the members of the Corporation Board appointed by a Participant. The Executive Committee shall exercise the powers of the Corporation.

MICHIGAN ECONOMIC DEVELOPMENT CORPORATION

The Michigan Economic Development Corporation (MEDC) is a public body corporate created pursuant to an agreement authorized under the Urban Cooperation Act of 1967 and Sections 124.501 – 124.512 of the Michigan Compiled Laws (MCL). MEDC was created by an interlocal agreement, as amended and restated, between participating local economic development organizations formed under the Economic Development Corporations Act, 125.1601 – 125.1636 of the MCL and the Michigan Strategic Fund. The MEDC is a separate legal entity whose purpose is to stimulate, coordinate and advance economic development in the State. Under the terms of the interlocal agreement, the governance of MEDC resides in an executive committee of 20 members appointed to eight-year, staggered terms before May 1, 2019 and for four year terms after April 30, 2019.

MICHIGAN EDUCATION TRUST

The Michigan Education Trust (MET) operates a prepaid tuition program authorized by section 529 of the Internal Revenue Code. A purchaser enters into a contract with MET which provides that in return for a specified actuarially determined payment, MET will provide a Michigan child's undergraduate tuition at any Michigan public university or community college. The amount the purchaser is required to pay is based on several factors, among them are tuition costs, the child's age and grade in school, anticipated investment earnings, tuition rate increases, and the type of contract purchased.

Michigan Compiled Laws Section 390.1425, the Michigan Education Trust Act, created MET. MET is governed by a nine-member board that consists of the State Treasurer and eight other individuals appointed by the Governor with the advice and consent of the Senate. Although MET is administratively located within the Michigan Department of Treasury, the law provides its assets are not to be considered assets of the State and are not to be loaned or otherwise transferred or used by the State for any purpose other than the purposes specified in the law. The law and contracts also specifically provide that the State is not liable if MET becomes actuarially unsound. In that event, the contracts provide for refunds to participants.

STATE BAR OF MICHIGAN

The State Bar of Michigan is an association of lawyers who are licensed to practice in Michigan. It is organized as a public body corporate. Its operations are financed solely from member dues and income from member services. The State Bar's budget is the responsibility of its Board of Commissioners, and it is not subject to State of Michigan appropriation procedures.

Pursuant to Supreme Court rule, its purpose is to aid in promoting improvements in the administration of justice and advancements in jurisprudence, in improving relations between the legal profession and the public, and in promoting the interests of the legal profession in this State.

VENTURE MICHIGAN FUND

The Venture Michigan Fund (VMF) was formed as a nonprofit corporation for the purpose of qualifying as a Michigan early stage venture investment corporation as authorized by Sections 125.2231 – 125.2263 of the Michigan Compiled Laws. VMF was organized to raise capital and invest that capital in venture capital firms with the intent of benefiting Michigan's seed or early stage businesses in order to promote the economic health of the State of Michigan. VMF is governed by a board of directors consisting of the State Treasurer, the Chief Executive Officer of the Michigan Economic Development Corporation, and five other directors appointed by the Governor with the advice and consent of the Senate and the House. The Michigan Venture Capital Association also has the option to appoint one member to the board.

COMPONENT UNITS – STATE UNIVERSITIES

The State has 13 legally separate public universities, 10 of which are included in this report as component units and 3 of which are excluded. Included are the 10 universities whose governing boards are appointed by the Governor and for which the State is legally accountable, as prescribed by the Governmental Accounting Standards Board (GASB) Statement No. 14, The Financial Reporting Entity, as amended by GASB Statement No. 61. Excluded are those 3 that have governing boards whose members are elected by the voters and, therefore, considered separate special purpose governments. The 3 that are excluded are the largest public universities: Michigan State University, University of Michigan, and Wayne State University. Also excluded are the public community colleges, for which local units of government are legally accountable.

The information presented in this report for the 10 universities is based upon their separately issued financial statements for the fiscal year ended on June 30, 2019. The universities include Central Michigan University, Eastern Michigan University, and Western Michigan University presented as major component units and the following non-major component units: Ferris State University, Grand Valley State University, Lake Superior State University, Michigan Technological University, Northern Michigan University, Oakland University, and Saginaw Valley State University.

INDEX

This part of the State of Michigan’s comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the State’s overall financial health.

<u>CONTENTS:</u>	<u>Page</u>
Financial Trends	
These schedules contain trend information to help the reader understand how the State’s financial performance and well-being have changed over time.	
Net Position by Component	280
Changes in Net Position	282
Fund Balances – Governmental Funds	286
Changes in Fund Balances – Governmental Funds	288
Revenue Capacity	
These schedules contain information to help the reader assess the State’s most significant revenue sources: personal income and sales taxes.	
Personal Income by Industry	290
Taxable Sales by Industry	292
Personal Income Tax Filers and Liability by Income Level	294
Sales Tax Payers by Industry	295
Debt Capacity	
These schedules present information to help the reader assess the affordability of the State’s current levels of outstanding debt and the State’s ability to issue additional debt in the future. The State has no statutory limit on the amount of general obligation debt that may be authorized.	
Ratios of Outstanding Debt by Type	296
Ratios of Net General Obligation Bonded Debt Outstanding	298
Debt Service Coverage – Comprehensive Transportation Fund Related Bonds	300
Debt Service Coverage – State Trunkline Fund Related Bonds	302
Debt Service Coverage – State Building Authority	304
Demographic and Economic Information	
These schedules offer demographic and economic indicators to help the reader understand the environment within which the State’s financial activities take place.	
Demographic and Economic Indicators	306
Operating Information	
These schedules contain information about the State’s operations and resources to help the reader understand how the information in the State’s financial report relates to the services the State provides and the activities it performs.	
Classified Employees by Function	308
Operating Indicators by Function	310
Capital Assets by Function	314

SOURCES:

Unless otherwise noted, the information in these schedules is derived from the financial statements presented in the comprehensive annual financial reports for the relevant years.

Total	\$ 105,492.7	\$ 105,036.9	\$ 112,126.5	\$ 117,793.5
Direct Sales Tax Rate	6.0%	6.0%	6.0%	6.0%

NOTES: Taxable sales were imputed from fiscal year sales tax cash collections by industry, and do not align with final reported revenue that includes accrual items.

Industries were categorized by using the Standard Industrial Classification through fiscal year 2014, and beginning in fiscal year 2015 using the North American Industry Classification System. The switch in classification system results in a significant increase reported by service firms and less reported by firms classified as retailers.

Fiscal year 2018 is the most recent year for which data is available.

NOTES: Due to confidentiality issues, the names of the ten largest revenue payers are not available. These categories are intended to provide alternative information regarding the sources of the State's personal income tax revenue.

Tax year 2008 personal income tax amount refers to tax amount net of nonrefundable credits, and net of Home Heating Credits (HHC), Homestead Property Tax Credits (HPTC), Farmland Preservation, Adoption, and Stillbirth Credits.

Tax year 2017 personal income tax amount refers to tax amount net of nonrefundable credits, and net of HHC, HPTC, Michigan Earned Income Tax, Farmland Preservation, and Historic Preservation Credits.

Tax year 2017 is the most recent year for which data is available.

NOTES: Taxable sales were imputed from fiscal year sales tax cash collections by industry, and do not align with final reported revenue that includes accrual items.

Industries were categorized using the Standard Industrial Classification through fiscal year 2014 and beginning in fiscal year 2015 using the North American Industry Classification System. The switch in classification system results in a significant increase in tax reported by service firms and less reported by firms classified as retailers.

Due to confidentiality issues, the names of the ten largest revenue payers are not available. These categories are intended to provide alternative information regarding the sources of the State's sales tax revenue.

Fiscal year 2018 is the most recent year for which data is available.

NOTES: Article 9, Section 15 of the State Constitution allows for long-term borrowing by the State for specific purposes in amounts as may be provided by acts of the Legislature adopted by a vote of two-thirds of the members in each house and approved by a majority of the people voting at a general election. The debts of public bodies corporate and politic created by law are not general obligation debts and liabilities of the State. Details regarding the State's debt can be found in the bonds and notes payable note of the financial statements.

Total	50,615	47,818	47,683	47,739

NOTES: This report reflects classified employees who are full-time, part-time, permanent intermittent, limited term, seasonal, non-career, or on worker's compensation in primary positions only, except for the following non-career appointments: student assistant, transportation aide, and state worker.

Each fiscal year in this schedule also includes approximately 2,000 classified employees for the business-type activities and discretely presented component unit authorities. Although the expenses for the business-type activities and component unit authorities are reported separately in the government-wide financial statements, the employee counts were combined in this schedule to ensure consistency with the Civil Service Commission reports and for administrative efficiency.

This schedule includes average employee counts. Employees who job share are divided in half. For this reason, totals may not equal the sum of the employee counts per function.

OPERATING INDICATORS BY FUNCTION (Continued)

LAST TEN FISCAL YEARS

	2010	2011	2012	2013
Transportation				
Annual vehicle miles of travel on				
State Trunkline roads (8)	48,700,000,000	49,800,000,000	48,700,000,000	49,400,000,000
Miles of intercity bus travel receiving State funding	1,080,444	1,086,022	1,094,911	1,110,733
Miles of local bus travel receiving State funding	108,426,363	105,267,567	104,317,459	101,203,565
Railroad crossing maintenance/safety inspections	1,454	2,563	2,644	1,970
Tax credits				
Taxpayers claiming refundable credits (5) (7)	2,454,200	2,363,800	1,882,600	1,840,900
Intergovernmental-revenue sharing				
Township grants	1,240	1,240	1,240	1,240
City grants	277	277	277	277
Village grants	256	256	256	256
County grants (6)	20	36	50	62
Liquor Purchase Revolving Fund				
Annual retail liquor licenses issued (9)	15,898	15,870	15,961	16,026
Liquor sales volume (cases)	6,877,873	7,117,299	7,373,714	7,532,846
Beer sales volume (barrels)	6,448,197	6,250,673	6,318,295	6,206,452
Wine sales volume (liters)	79,440,328	81,504,221	84,253,865	88,096,394
Pre-mixed spirit drink sales volume (liters)	983,029	954,712	1,076,369	1,058,511
State Lottery Fund				
Retailers	10,797	10,746	10,879	10,848
Winners greater than \$600	60,543	48,567	44,904	52,365
Millionaire prizewinners	39	28	31	36
Michigan Unemployment Compensation Funds				
Individuals receiving benefits (calendar year)	825,858	636,493	527,507	449,388

- NOTES: (5) Tax credits are reported based on the tax year. Credits claimed during tax year 2018, for example, are reported above in fiscal year 2018.
- (6) County grants were suspended beginning in fiscal year 2005. Instead, each county expends from its revenue sharing reserve fund created by State statute in 2004. Each fiscal year, counties are allowed only to expend from the fund the amount the Department of Treasury certifies them to spend. Once a county has exhausted its revenue sharing reserve fund, the county will return to revenue sharing.
- (7) Amount estimated and rounded to nearest hundred.
- (8) Amount estimated and rounded to nearest one hundred million on a calendar-year basis.
- (9) In fiscal year 2017, the Liquor Control Commission implemented the Alcohol Information Management System which includes Specially Designated Merchant licenses that were issued in conjunction with other license types.
- (10) The first year of the Healthy Michigan plan was fiscal year 2014. Amount is a nine month average for fiscal year 2014.

* Timing differences are subtracted from Gross Spending Authority in order to show an annualized Budget that is comparable to the current year's Actual uses. Timing differences consist of unused authorizations for multi-year projects (capital outlay and work projects) and restricted revenue not authorized/used, which includes revenues that by statute, are restricted for use to a particular program or activity. Generally, the expenditure of the restricted revenue is subject to annual legislative appropriation. However, the restricted revenue may also be used in subsequent years to finance expenditures in multi-year appropriations and for encumbrances carried forward.

Restricted revenue balances authorized in the Variances category represent restricted revenue carry-overs that could have been used in the current period but were not.

For budgetary purposes, encumbrance authorization is considered use of spending authority in the year the State incurs an obligation.

NOTE: This schedule was prepared on the Statutory/Budgetary basis.

* The amounts in the "Current Legislative Appropriation" column include certain appropriations that do not appear as line-item appropriations in the budget bills. These appropriations are authorized in narrative "boilerplate" language in the budget bills. "Boilerplate" appropriations include interfund borrowing, interest on general obligation notes and bonds, and certain interfund transfers.

"Boilerplate" appropriations accounted for \$100.0 million of the "Current Legislative Appropriation."
