Total Student Count: Total student count is from 2019-2020 MI School Data Student Count report. The count is based on data collected on legislated count day, which is the first Wednesday of October, and is pulled from both the Fall General Collection and the Early Childhood Collection in MSDS. Only students receiving school-based services are in this report. This means Early On and some Pre-K Special Ed students are not included.

Qualifying students are students meeting any of the following definitions (From 2019-2020 MI School Data Student Counts). If a student is in multiple categories, the district is paid multiple times for that student. For ISDs, the count is based on special education FTE.

English Language Learners: English Learners are students who speak a language other than English as their primary language and who have difficulty speaking, reading, writing, or understanding English.

Students with Disabilities: Students with one or more specific impairments that require special education or related services and have an Individual Education Plan (IEP).

Economically Disadvantaged: Students who have been determined to be eligible for free or reduced-price meals via locally gathered and approved family applications under the receiving food (Supplemental Nutrition Assistance Program) or cash (Temporary Assistance to Needy Families) assistance, are homeless, are migrant, are in foster care, or, beginning in 2017-18, certain MEDICAID eligible children. National School Lunch program, are in households When any of these conditions are present, a student is considered economically disadvantaged.

Note 1: Estimated Per Pupil Allocation is **86.61766332**
