The People of the State of Michigan Enact:

Article I

State Aid to Public Schools, Early Childhood, and Adult Education

Sec. 2. As used in this article, and article IV, and article V, the words and phrases defined in sections 3 to 6 have the meanings ascribed to them in those sections.

Sec. 3. (1) "Average daily attendance", for the purposes of complying with federal law, means 92% of the pupils counted in membership on the pupil membership count day, as defined in section 6(7).
(2) “Board” means the governing body of a district or public school academy.

(3) “Center” means the center for educational performance and information created in section 94a.

(4) “Community district” means a school district organized under part 5b of the revised school code.

(5) “Cooperative education program” means a written voluntary agreement between and among districts to provide certain educational programs for pupils in certain groups of districts. The written agreement shall be approved by all affected districts at least annually and shall specify the educational programs to be provided and the estimated number of pupils from each district who will participate in the educational programs.

(6) “Department”, except in section 107, as otherwise provided in this article, means the department of education.

(7) “District” means a local school district established under the revised school code or, except in sections 6(4), 6(6), 13, 20, 22a, 31a, 51a(14), 105, 105c, and 166b, a public school academy. Except in section 20, district also includes a community district.

(8) “District of residence”, except as otherwise provided in this subsection, means the district in which a pupil's custodial parent or parents or legal guardian resides. For a pupil described in section 24b, the pupil's district of residence is the district in which the pupil enrolls under that section. For a pupil described in section 6(4)(d), the pupil's district of residence shall be considered to be the district or intermediate district in which the pupil is counted in membership under that section. For a pupil under court jurisdiction who is placed outside the district in which the pupil's custodial parent or parents or legal guardian resides, the pupil's district of residence shall be considered to be the educating district or educating intermediate district.

(9) “District superintendent” means the superintendent of a district or the chief administrator of a public school academy.

Sec. 6. (1) “Center program” means a program operated by a district or by an intermediate district for special education pupils from several districts in programs for pupils with autism spectrum disorder, pupils with severe cognitive impairment, pupils with moderate cognitive impairment, pupils with severe multiple impairments, pupils with hearing impairment, pupils with visual impairment, and pupils with physical impairment or other health impairment. Programs for pupils with emotional impairment housed in buildings that
do not serve regular education pupils also qualify. Unless otherwise approved by the
department, a center program either serves all constituent districts within an intermediate
district or serves several districts with less than 50% of the pupils residing in the
operating district. In addition, special education center program pupils placed part-time
in noncenter programs to comply with the least restrictive environment provisions of
section 1412 of the individuals with disabilities education act, 20 USC 1412, may be
considered center program pupils for pupil accounting purposes for the time scheduled in
either a center program or a noncenter program.

(2) “District and high school graduation rate” means the annual completion and pupil
dropout rate that is calculated by the center pursuant to nationally recognized standards.

(3) “District and high school graduation report” means a report of the number of
pupils, excluding adult education participants, in the district for the immediately
preceding school year, adjusted for those pupils who have transferred into or out of the
district or high school, who leave high school with a diploma or other credential of equal
status.

(4) “Membership”, except as otherwise provided in this article, means for a district,
a public school academy, or an intermediate district the sum of the product of .90 times
the number of full-time equated pupils in grades K to 12 actually enrolled and in regular
daily attendance on the pupil membership count day for the current school year, plus the
product of .10 times the final audited count from the supplemental count day for the
immediately preceding school year. A district’s, public school academy’s, or intermediate
district’s membership is adjusted as provided under section 25e for pupils who enroll after
the pupil membership count day in a strict discipline academy operating under sections
131lb to 131lm of the revised school code, MCL 380.1311b to 380.1311m. However, for a
district that is a community district, “membership” means the sum of the product of .90
times the number of full-time equated pupils in grades K to 12 actually enrolled and in
regular daily attendance in the community district on the pupil membership count day for
the current school year, plus the product of .10 times the sum of the final audited count
from the supplemental count day of pupils in grades K to 12 actually enrolled and in
regular daily attendance in the community district for the immediately preceding school
year. All pupil counts used in this subsection are as determined by the department and
calculated by adding the number of pupils registered for attendance plus pupils received by
transfer and minus pupils lost as defined by rules promulgated by the superintendent, and
as corrected by a subsequent department audit. The amount of the foundation allowance for a
pupil in membership is determined under section 20. In making the calculation of
membership, all of the following, as applicable, apply to determining the membership of a
district, a public school academy, or an intermediate district:

(a) Except as otherwise provided in this subsection, and pursuant to subsection (6),
a pupil is counted in membership in the pupil’s educating district or districts. An
individual pupil shall not be counted for more than a total of 1.0 full-time equated
membership.

(b) If a pupil is educated in a district other than the pupil’s district of
residence, if the pupil is not being educated as part of a cooperative education program,
if the pupil’s district of residence does not give the educating district its approval to
count the pupil in membership in the educating district, and if the pupil is not covered by
an exception specified in subsection (6) to the requirement that the educating district
must have the approval of the pupil’s district of residence to count the pupil in
membership, the pupil is not counted in membership in any district.

(c) A special education pupil educated by the intermediate district is counted in
membership in the intermediate district.

(d) A pupil placed by a court or state agency in an on-grounds program of a juvenile
detention facility, a child caring institution, or a mental health institution, or a pupil
funded under section 53a, is counted in membership in the district or intermediate district
approved by the department to operate the program.

(e) A pupil enrolled in the Michigan Schools for the Deaf and Blind is counted in
membership in the pupil’s intermediate district of residence.

(f) A pupil enrolled in a career and technical education program supported by a
millage levied over an area larger than a single district or in an area vocational-
technical education program established under section 690 of the revised school code, MCL
380.690, is counted in membership only in the pupil’s district of residence.

(g) A pupil enrolled in a public school academy is counted in membership in the
public school academy.

(h) For the purposes of this section and section 6a, for a cyber school, as defined
in section 551 of the revised school code, MCL 380.551, that is in compliance with section
553a of the revised school code, MCL 380.553a, a pupil’s participation in the cyber
school’s educational program is considered regular daily attendance, and for a district or
public school academy, a pupil’s participation in a virtual course as defined in section
21f is considered regular daily attendance. For the purposes of this subdivision, for a
pupil enrolled in a cyber school and utilizing sequential learning, participation means
that term as defined in the pupil accounting manual, section 5-o-d: requirements for
counting pupils in membership-subsection 10.

(i) For a new district or public school academy beginning its operation after
December 31, 1994, membership for the first 2 full or partial fiscal years of operation is
determined as follows:

   (i) If operations begin before the pupil membership count day for the fiscal year,
       membership is the average number of full-time equated pupils in grades K to 12 actually
       enrolled and in regular daily attendance on the pupil membership count day for the current
       school year and on the supplemental count day for the current school year, as determined by
       the department and calculated by adding the number of pupils registered for attendance on
       the pupil membership count day plus pupils received by transfer and minus pupils lost as
       defined by rules promulgated by the superintendent, and as corrected by a subsequent
       department audit, plus the final audited count from the supplemental count day for the
       current school year, and dividing that sum by 2.

   (ii) If operations begin after the pupil membership count day for the fiscal year and
       not later than the supplemental count day for the fiscal year, membership is the final
       audited count of the number of full-time equated pupils in grades K to 12 actually enrolled
       and in regular daily attendance on the supplemental count day for the current school year.

   (j) If a district is the authorizing body for a public school academy, then, in the
       first school year in which pupils are counted in membership on the pupil membership count
       day in the public school academy, the determination of the district’s membership excludes
       from the district’s pupil count for the immediately preceding supplemental count day any
       pupils who are counted in the public school academy on that first pupil membership count
       day who were also counted in the district on the immediately preceding supplemental count
day.

   (k) For an extended school year program approved by the superintendent, a pupil
       enrolled, but not scheduled to be in regular daily attendance, on a pupil membership count
day, is counted in membership.

1. To be counted in membership, a pupil must meet the minimum age requirement to be eligible to attend school under section 1147 of the revised school code, MCL 380.1147, or must be enrolled under subsection (3) of that section, and must be less than 20 years of age on September 1 of the school year except as follows:

   (i) A special education pupil who is enrolled and receiving instruction in a special education program or service approved by the department, who does not have a high school diploma, and who is less than 26 years of age as of September 1 of the current school year is counted in membership.

   (ii) A pupil who is determined by the department to meet all of the following may be counted in membership:

       (A) Is enrolled in a public school academy or an alternative education high school diploma program, that is primarily focused on educating pupils with extreme barriers to education, such as being homeless as defined under 42 USC 11302.

       (B) Had dropped out of school.

       (C) Is less than 22 years of age as of September 1 of the current school year.

   (iii) If a child does not meet the minimum age requirement to be eligible to attend school for that school year under section 1147 of the revised school code, MCL 380.1147, but will be 5 years of age not later than December 1 of that school year, the district may count the child in membership for that school year if the parent or legal guardian has notified the district in writing that he or she intends to enroll the child in kindergarten for that school year.

   (m) An individual who has achieved a high school diploma is not counted in membership. An individual who has achieved a high school equivalency certificate is not counted in membership unless the individual is a student with a disability as defined in R 340.1702 of the Michigan Administrative Code. An individual participating in a job training program funded under former section 107a or a jobs program funded under former section 107b, administered by the department of labor and economic opportunity, or participating in any successor of either of those 2 programs, is not counted in membership.

   (n) If a pupil counted in membership in a public school academy is also educated by a district or intermediate district as part of a cooperative education program, the pupil is counted in membership only in the public school academy unless a written agreement signed
by all parties designates the party or parties in which the pupil is counted in membership, and the instructional time scheduled for the pupil in the district or intermediate district is included in the full-time equated membership determination under subdivision (q) and section 101. However, for pupils receiving instruction in both a public school academy and in a district or intermediate district but not as a part of a cooperative education program, the following apply:

(i) If the public school academy provides instruction for at least 1/2 of the class hours required under section 101, the public school academy receives as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the public school academy provides divided by the number of hours required under section 101 for full-time equivalency, and the remainder of the full-time membership for each of those pupils is allocated to the district or intermediate district providing the remainder of the hours of instruction.

(ii) If the public school academy provides instruction for less than 1/2 of the class hours required under section 101, the district or intermediate district providing the remainder of the hours of instruction receives as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the district or intermediate district provides divided by the number of hours required under section 101 for full-time equivalency, and the remainder of the full-time membership for each of those pupils is allocated to the public school academy.

(o) An individual less than 16 years of age as of September 1 of the current school year who is being educated in an alternative education program is not counted in membership if there are also adult education participants being educated in the same program or classroom.

(p) The department shall give a uniform interpretation of full-time and part-time memberships.

(q) The number of class hours used to calculate full-time equated memberships must be consistent with section 101. In determining full-time equated memberships for pupils who are enrolled in a postsecondary institution or for pupils engaged in an internship or work experience under section 1279h of the revised school code, MCL 380.1279h, a pupil is not considered to be less than a full-time equated pupil solely because of the effect of his or her postsecondary enrollment or engagement in the internship or work experience, including...
necessary travel time, on the number of class hours provided by the district to the pupil.

(r) Full-time equated memberships for pupils in kindergarten are determined by dividing the number of instructional hours scheduled and provided per year per kindergarten pupil by the same number used for determining full-time equated memberships for pupils in grades 1 to 12. However, to the extent allowable under federal law, for a district or public school academy that provides evidence satisfactory to the department that it used federal title I money in the 2 immediately preceding school fiscal years to fund full-time kindergarten, full-time equated memberships for pupils in kindergarten are determined by dividing the number of class hours scheduled and provided per year per kindergarten pupil by a number equal to 1/2 the number used for determining full-time equated memberships for pupils in grades 1 to 12. The change in the counting of full-time equated memberships for pupils in kindergarten that took effect for 2012-2013 is not a mandate.

(s) For a district or a public school academy that has pupils enrolled in a grade level that was not offered by the district or public school academy in the immediately preceding school year, the number of pupils enrolled in that grade level to be counted in membership is the average of the number of those pupils enrolled and in regular daily attendance on the pupil membership count day and the supplemental count day of the current school year, as determined by the department. Membership is calculated by adding the number of pupils registered for attendance in that grade level on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(t) A pupil enrolled in a cooperative education program may be counted in membership in the pupil’s district of residence with the written approval of all parties to the cooperative agreement.

(u) If, as a result of a disciplinary action, a district determines through the district’s alternative or disciplinary education program that the best instructional placement for a pupil is in the pupil’s home or otherwise apart from the general school population, if that placement is authorized in writing by the district superintendent and district alternative or disciplinary education supervisor, and if the district provides appropriate instruction as described in this subdivision to the pupil at the pupil’s home
or otherwise apart from the general school population, the district may count the pupil in
membership on a pro rata basis, with the proration based on the number of hours of
instruction the district actually provides to the pupil divided by the number of hours
required under section 101 for full-time equivalency. For the purposes of this subdivision,
a district is considered to be providing appropriate instruction if all of the following
are met:

(i) The district provides at least 2 nonconsecutive hours of instruction per week to
the pupil at the pupil’s home or otherwise apart from the general school population under
the supervision of a certificated teacher.

(ii) The district provides instructional materials, resources, and supplies that are
comparable to those otherwise provided in the district’s alternative education program.

(iii) Course content is comparable to that in the district’s alternative education
program.

(iv) Credit earned is awarded to the pupil and placed on the pupil’s transcript.

(v) If a pupil was enrolled in a public school academy on the pupil membership count
day, if the public school academy’s contract with its authorizing body is revoked or the
public school academy otherwise ceases to operate, and if the pupil enrolls in a district
within 45 days after the pupil membership count day, the department shall adjust the
district’s pupil count for the pupil membership count day to include the pupil in the
count.

(w) For a public school academy that has been in operation for at least 2 years and
that suspended operations for at least 1 semester and is resuming operations, membership is
the sum of the product of .90 times the number of full-time equated pupils in grades K to
12 actually enrolled and in regular daily attendance on the first pupil membership count
day or supplemental count day, whichever is first, occurring after operations resume, plus
the product of .10 times the final audited count from the most recent pupil membership
count day or supplemental count day that occurred before suspending operations, as
determined by the superintendent.

(x) If a district’s membership for a particular fiscal year, as otherwise calculated
under this subsection, would be less than 1,550 pupils and the district has 4.5 or fewer
pupils per square mile, as determined by the department, and if the district does not
receive funding under section 22d(2), the district’s membership is considered to be the
membership figure calculated under this subdivision. If a district educates and counts in
its membership pupils in grades 9 to 12 who reside in a contiguous district that does not
operate grades 9 to 12 and if 1 or both of the affected districts request the department to
use the determination allowed under this sentence, the department shall include the square
mileage of both districts in determining the number of pupils per square mile for each of
the districts for the purposes of this subdivision. If a district has established a
community engagement advisory committee in partnership with the department of treasury and
if the district is required to submit a deficit elimination plan or an enhanced deficit
elimination plan under section 1220 of the revised school code, MCL 380.1220, the
district’s membership is considered to be the membership figure calculated under this
subdivision. The membership figure calculated under this subdivision is the greater of the
following:

   (i) The average of the district’s membership for the 3-fiscal-year period ending with
that fiscal year, calculated by adding the district’s actual membership for each of those 3
time, as otherwise calculated under this subsection, and dividing the sum of those
3 membership figures by 3.

   (ii) The district’s actual membership for that fiscal year as otherwise calculated
under this subsection.

   (y) Full-time equated memberships for special education pupils who are not enrolled
in kindergarten but are enrolled in a classroom program under R 340.1754 of the Michigan
Administrative Code are determined by dividing the number of class hours scheduled and
provided per year by 450. Full-time equated memberships for special education pupils who
are not enrolled in kindergarten but are receiving early childhood special education
services under R 340.1755 or R 340.1862 of the Michigan Administrative Code are determined
by dividing the number of hours of service scheduled and provided per year per-pupil by
180.

   (z) A pupil of a district that begins its school year after Labor Day who is enrolled
in an intermediate district program that begins before Labor Day is not considered to be
less than a full-time pupil solely due to instructional time scheduled but not attended by
the pupil before Labor Day.

   (aa) For the first year in which a pupil is counted in membership on the pupil
membership count day in a middle college program, the membership is the average of the
full-time equated membership on the pupil membership count day and on the supplemental
count day for the current school year, as determined by the department. If a pupil
described in this subdivision was counted in membership by the operating district on the
immediately preceding supplemental count day, the pupil is excluded from the district’s
immediately preceding supplemental count for the purposes of determining the district’s
membership.

(bb) A district or public school academy that educates a pupil who attends a United
States Olympic Education Center may count the pupil in membership regardless of whether or
not the pupil is a resident of this state.

(cc) A pupil enrolled in a district other than the pupil’s district of residence
under section 1148(2) of the revised school code, MCL 380.1148, is counted in the educating
district.

(dd) For a pupil enrolled in a dropout recovery program that meets the requirements
of section 23a, the pupil is counted as 1/12 of a full-time equated membership for each
month that the district operating the program reports that the pupil was enrolled in the
program and was in full attendance. However, if the special membership counting provisions
under this subdivision and the operation of the other membership counting provisions under
this subsection result in a pupil being counted as more than 1.0 FTE in a fiscal year, the
payment made for the pupil under sections 22a and 22b must not be based on more than 1.0
FTE for that pupil, and any portion of an FTE for that pupil that exceeds 1.0 is instead
paid under section 25g. The district operating the program shall report to the center the
number of pupils who were enrolled in the program and were in full attendance for a month
not later than 30 days after the end of the month. A district shall not report a pupil as
being in full attendance for a month unless both of the following are met:

(i) A personalized learning plan is in place on or before the first school day of the
month for the first month the pupil participates in the program.

(ii) The pupil meets the district’s definition under section 23a of satisfactory
monthly progress for that month or, if the pupil does not meet that definition of
satisfactory monthly progress for that month, the pupil did meet that definition of
satisfactory monthly progress in the immediately preceding month and appropriate
interventions are implemented within 10 school days after it is determined that the pupil
does not meet that definition of satisfactory monthly progress.
(ee) A pupil participating in a virtual course under section 21f is counted in membership in the district enrolling the pupil.

(ff) If a public school academy that is not in its first or second year of operation closes at the end of a school year and does not reopen for the next school year, the department shall adjust the membership count of the district or other public school academy in which a former pupil of the closed public school academy enrolls and is in regular daily attendance for the next school year to ensure that the district or other public school academy receives the same amount of membership aid for the pupil as if the pupil were counted in the district or other public school academy on the supplemental count day of the preceding school year.

(gg) If a special education pupil is expelled under section 1311 or 1311a of the revised school code, MCL 380.1311 and 380.1311a, and is not in attendance on the pupil membership count day because of the expulsion, and if the pupil remains enrolled in the district and resumes regular daily attendance during that school year, the district’s membership is adjusted to count the pupil in membership as if he or she had been in attendance on the pupil membership count day.

(hh) A pupil enrolled in a community district is counted in membership in the community district.

(ii) A part-time pupil enrolled in a nonpublic school in grades K to 12 in accordance with section 166b shall not be counted as more than 0.75 of a full-time equated membership.

(jj) A district that borders another state or a public school academy that operates at least grades 9 to 12 and is located within 20 miles of a border with another state may count in membership a pupil who is enrolled in a course at a college or university that is located in the bordering state and within 20 miles of the border with this state if all of the following are met:

(i) The pupil would meet the definition of an eligible student under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, if the course were an eligible course under that act.

(ii) The course in which the pupil is enrolled would meet the definition of an eligible course under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, if the course were provided by an eligible postsecondary institution under that act.
(iii) The department determines that the college or university is an institution that, in the other state, fulfills a function comparable to a state university or community college, as those terms are defined in section 3 of the postsecondary enrollment options act, 1996 PA 160, MCL 388.513, or is an independent nonprofit degree-granting college or university.

(iv) The district or public school academy pays for a portion of the pupil’s tuition at the college or university in an amount equal to the eligible charges that the district or public school academy would pay to an eligible postsecondary institution under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, as if the course were an eligible course under that act.

(v) The district or public school academy awards high school credit to a pupil who successfully completes a course as described in this subdivision.

(kk) A pupil enrolled in a middle college program may be counted for more than a total of 1.0 full-time equated membership if the pupil is enrolled in more than the minimum number of instructional days and hours required under section 101 and the pupil is expected to complete the 5-year program with both a high school diploma and at least 60 transferable college credits or is expected to earn an associate’s degree in fewer than 5 years.

(ll) If a district’s or public school academy’s membership for a particular fiscal year, as otherwise calculated under this subsection, includes pupils counted in membership who are enrolled under section 166b, all of the following apply for the purposes of this subdivision:

(i) If the district’s or public school academy’s membership for pupils counted under section 166b equals or exceeds 5% of the district’s or public school academy’s membership for pupils not counted in membership under section 166b in the immediately preceding fiscal year, then the growth in the district’s or public school academy’s membership for pupils counted under section 166b must not exceed 10%.

(ii) If the district’s or public school academy’s membership for pupils counted under section 166b is less than 5% of the district’s or public school academy’s membership for pupils not counted in membership under section 166b in the immediately preceding fiscal year, then the district’s or public school academy’s membership for pupils counted under section 166b must not exceed the greater of the following:

(A) 5% of the district’s or public school academy’s membership for pupils not counted
in membership under section 166b.

(B) 10% more than the district’s or public school academy’s membership for pupils counted under section 166b in the immediately preceding fiscal year.

A person who intentionally makes a false report of a crime to law enforcement officials for the purposes of this

(7) “Pupil membership count day” of a district or intermediate district means:

(a) Except as provided in subdivision (b), the first Wednesday in October each school year or, for a district or building in which school is not in session on that Wednesday due to conditions not within the control of school authorities, with the approval of the superintendent, the immediately following day on which school is in session in the district or building.

If the money in the school aid stabilization fund is insufficient to fully fund an amount equal to the projected shortfall, the state budget director shall notify the legislature as required under section 296(2) and state payments in an amount
equal to the remainder of the projected shortfall must be prorated in the manner provided under section 296(3).

2017 fiscal year or has at least 4,000 pupils in membership for a fiscal year after
2016-2017, an amount not to exceed $2,425,000.00 for 2019-2020-2020-2021 for the purpose of
employing school nurses, classroom aides, and school social workers. The district shall
provide a report to the department in a form, manner, and frequency prescribed by the
department. The department shall provide a copy of that report to the governor, the house
and senate school aid subcommittees, the house and senate fiscal agencies, and the state
budget director within 5 days after receipt. The report must provide at least the following

early intervention services that are similar to the services described in the early on
Michigan state plan, including ensuring that all children described in subsection (1) who
are less than 4 years of age as of September 1, 2016 are assessed and evaluated at least
twice annually.

(4) From the state school aid fund allocation in subsection (1), there is allocated
an amount not to exceed $1,000,000.00 for 2019-2020-2020-2021 to the intermediate district
described in subsection (3) to enroll children described in subsection (1) in school-day

contained in section 32d. The department shall administer this funding consistent with all
other provisions that apply to great start readiness programs under sections 32d and 39.

(5) For 2019-2020-2020-2021, from the general fund allocation in subsection (1),
there is allocated an amount not to exceed $650,000.00 for nutritional services to children
described in subsection (1).

(6) For 2020-2021, from the state school aid fund allocation in subsection (1), there is allocated an amount not to exceed $1,600,000.00 to the intermediate district described in subsection (3) for interventions and supports for students in kindergarten through twelfth grade who were impacted by the drinking water proclamation of emergency described in subsection (1). (8) Notwithstanding section 17b, the department shall make payments under this section on a schedule determined by the department.

Sec. 15. (1) If a district or intermediate district fails to receive its proper apportionment, the department, upon satisfactory proof that the district or intermediate district was entitled justly, shall apportion the deficiency in the next apportionment. Subject to subsections (2) and (3), if a district or intermediate district has received more than its proper apportionment, the department, upon satisfactory proof, shall deduct the excess in the next apportionment. Notwithstanding any other provision in this article, state aid overpayments to a district, other than overpayments in payments for special education or special education transportation, may be recovered from any payment made under this article other than a special education or special education transportation payment, from the proceeds of a loan to the district under the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, or from the proceeds of millage levied or pledged under section 1211 of the revised school code, MCL 380.1211. State aid overpayments made in special education or special education transportation payments may be recovered from subsequent special education or special education transportation payments, from the proceeds of a loan to the district under the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, or from the proceeds of millage levied or pledged under section 1211 of the revised school code, MCL 380.1211.
(2) If the result of an audit conducted by or for the department affects the current fiscal year membership, the department shall adjust affected payments in the current fiscal year. A deduction due to an adjustment made as a result of an audit conducted by or for the department, or as a result of information obtained by the department from the district, an intermediate district, the department of treasury, or the office of auditor general, must be deducted from the district’s apportionments when the adjustment is finalized. At the request of the district and upon the district presenting evidence satisfactory to the department of the hardship, the department may grant up to an additional 4 years for the adjustment and may advance payments to the district otherwise authorized under this article if the district would otherwise experience a significant hardship in satisfying its financial obligations. However, a district that has presented satisfactory evidence of hardship and is undergoing an extended adjustment during 2018-2019 may continue to use the period of extended adjustment as originally granted by the department.

(3) If, based on an audit by the department or the department’s designee or because of new or updated information received by the department, the department determines that the amount paid to a district or intermediate district under this article for the current fiscal year or a prior fiscal year was incorrect, the department shall make the appropriate deduction or payment in the district’s or intermediate district’s allocation in the next apportionment after the adjustment is finalized. The department shall calculate the deduction or payment according to the law in effect in the fiscal year in which the incorrect amount was paid. If the district does not receive an allocation for the fiscal year or if the allocation is not sufficient to pay the amount of any deduction, the amount of any deduction otherwise applicable must be satisfied from the proceeds of a loan to the district under the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, or from the proceeds of millage levied or pledged under section 1211 of the revised school code, MCL 380.1211, as determined by the department.

(4) If the department makes an adjustment under this section based in whole or in part on a membership audit finding that a district or intermediate district employed an educator in violation of certification requirements under the revised school code and rules promulgated by the department, the department shall prorate the adjustment according to the period of noncompliance with the certification requirements.

(5) The department may conduct audits, or may direct audits by designee of the
department, for the current fiscal year and the immediately preceding fiscal year of all
records related to a program for which a district or intermediate district has received
funds under this article.

(6) Expenditures made by the department under this article that are caused by the
write-off of prior year accruals may be funded by revenue from the write-off of prior year
accruals.

(7) In addition to funds appropriated in section 11 for all programs and services,
there is appropriated for 2019-2020 2020-2021 for obligations in excess of applicable
appropriations an amount equal to the collection of overpayments, but not to exceed amounts
available from overpayments.

Sec. 18. (1) Except as provided in another section of this article, each district or
other entity shall apply the money received by the district or entity under this article to
salaries and other compensation of teachers and other employees, tuition, transportation,
lighting, heating, ventilation, water service, the purchase of textbooks, other supplies,
and any other school operating expenditures defined in section 7. However, not more than
20% of the total amount received by a district under sections 22a and 22b or received by an
intermediate district under section 81 may be transferred by the board to either the
capital projects fund or to the debt retirement fund for debt service. A district or other
entity shall not apply or take the money for a purpose other than as provided in this
section. The department shall determine the reasonableness of expenditures and may withhold
from a recipient of funds under this article the apportionment otherwise due upon a
violation by the recipient.

(2) A district or intermediate district shall adopt an annual budget in a manner that
complies with the uniform budgeting and accounting act, 1968 PA 2, MCL 141.421 to 141.440a.
Within 15 days after a district board adopts its annual operating budget for the following
school fiscal year, or after a district board adopts a subsequent revision to that budget,
the district shall make all of the following available through a link on its website
homepage, or may make the information available through a link on its intermediate
district’s website homepage, in a form and manner prescribed by the department:

(a) The annual operating budget and subsequent budget revisions.

(b) Using data that have already been collected and submitted to the department, a

(3) For the information required under subsection (2)(a), (2)(b)(i), and (2)(c), an intermediate district shall provide the same information in the same manner as required for a district under subsection (2).

(4) For the purposes of determining the reasonableness of expenditures, whether a district or intermediate district has received the proper amount of funds under this article, and whether a violation of this article has occurred, all of the following apply:

(a) The department shall require that each district and intermediate district have an audit of the district’s or intermediate district’s financial and pupil accounting records conducted at least annually, and at such other times as determined by the department, at the expense of the district or intermediate district, as applicable. The audits must be performed by a certified public accountant or by the intermediate district superintendent, as may be required by the department, or in the case of a district of the first class by a certified public accountant, the intermediate superintendent, or the auditor general of the city. A district or intermediate district shall retain these records for the current fiscal year and from at least the 3 immediately preceding fiscal years.

(b) If a district operates in a single building with fewer than 700 full-time equated pupils, if the district has stable membership, and if the error rate of the immediately preceding 2 pupil accounting field audits of the district is less than 2%, the district may have a pupil accounting field audit conducted biennially but must continue to have desk
audits for each pupil count. The auditor must document compliance with the audit cycle in the pupil auditing manual. As used in this subdivision, “stable membership” means that the district’s membership for the current fiscal year varies from the district’s membership for the immediately preceding fiscal year by less than 5%.

(c) A district’s or intermediate district’s annual financial audit must include an analysis of the financial and pupil accounting data used as the basis for distribution of state school aid.

(d) The pupil and financial accounting records and reports, audits, and management letters are subject to requirements established in the auditing and accounting manuals approved and published by the department.

(e) All of the following shall be done not later than November 1 each year for reporting the prior fiscal year data:

(i) A district shall file the annual financial audit reports with the intermediate district and the department.

(ii) The intermediate district shall file the annual financial audit reports for the intermediate district with the department.

(iii) The intermediate district shall enter the pupil membership audit reports for its constituent districts and for the intermediate district, for the pupil membership count day and supplemental count day, in the Michigan student data system.

(f) The annual financial audit reports and pupil accounting procedures reports must be available to the public in compliance with the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

(g) Not later than January 31 of each year, the department shall notify the state budget director and the legislative appropriations subcommittees responsible for review of the school aid budget of districts and intermediate districts that have not filed an annual financial audit and pupil accounting procedures report required under this section for the school year ending in the immediately preceding fiscal year.

(5) By the first business day in November of each fiscal year, each district and intermediate district shall submit to the center, in a manner prescribed by the center, annual comprehensive financial data consistent with the district’s or intermediate district’s audited financial statements and consistent with accounting manuals and charts of accounts approved and published by the department. For an intermediate district, the
The report must also contain the website address where the department can access the report required under section 620 of the revised school code, MCL 380.620. The department shall ensure that the prescribed Michigan public school accounting manual chart of accounts includes standard conventions to distinguish expenditures by allowable fund function and object. The functions must include at minimum categories for instruction, pupil support, instructional staff support, general administration, school administration, business administration, transportation, facilities operation and maintenance, facilities acquisition, and debt service; and must include object classifications of salary, benefits, including categories for active employee health expenditures, purchased services, supplies, capital outlay, and other. A district shall report the required level of detail consistent with the manual as part of the comprehensive annual financial report.

(6) By the last business day in September 30 of each year, each district and intermediate district shall file with the center the special education actual cost report, known as “SE-4096”, on a form and in the manner prescribed by the center. An intermediate district shall certify the audit of a district’s report.

(7) By October 7 one week after the last business day in September of each year, each district and intermediate district shall file with the center the audited transportation expenditure report, known as “SE-4094”, on a form and in the manner prescribed by the center. An intermediate district shall certify the audit of a district’s report.

(8) The department shall review its pupil accounting and pupil auditing manuals at least annually and shall periodically update those manuals to reflect changes in this article.

(9) If a district that is a public school academy purchases property using money received under this article, the public school academy shall retain ownership of the property unless the public school academy sells the property at fair market value.

(10) If a district or intermediate district does not comply with subsections (4), (5), (6), (7), and (12), or if the department determines that the financial data required under subsection (5) are not consistent with audited financial statements, the department shall withhold all state school aid due to the district or intermediate district under this article, beginning with the next payment due to the district or intermediate district, until the district or intermediate district complies with subsections (4), (5), (6), (7), and (12). If the district or intermediate district does not comply with subsections (4),
(5), (6), (7), and (12) by the end of the fiscal year, the district or intermediate
district forfeits the amount withheld.

(11) If a district or intermediate district does not comply with subsection (2), the
department may withhold up to 10% of the total state school aid due to the district or
intermediate district under this article, beginning with the next payment due to the
district or intermediate district, until the district or intermediate district complies
with subsection (2). If the district or intermediate district does not comply with
subsection (2) by the end of the fiscal year, the district or intermediate district
forfeits the amount withheld.

(12) By November 1 of each year, if a district or intermediate district offers
virtual learning under section 21f, or for a school of excellence that is a cyber school,
as defined in section 551 of the revised school code, MCL 380.551, the district or
intermediate district shall submit to the department a report that details the per-pupil
costs of operating the virtual learning by vendor type and virtual learning model. The
report must include information concerning the operation of virtual learning for the
immediately preceding school fiscal year, including information concerning summer
programming. Information must be collected in a form and manner determined by the
department and must be collected in the most efficient manner possible to reduce the
administrative burden on reporting entities.

(13) By March 31 of each year, the department shall submit to the house and senate
appropriations subcommittees on state school aid, the state budget director, and the house
and senate fiscal agencies a report summarizing the per-pupil costs by vendor type of
virtual courses available under section 21f and virtual courses provided by a school of
excellence that is a cyber school, as defined in section 551 of the revised school code,
MCL 380.551.

(14) As used in subsections (12) and (13), “vendor type” means the following:

(a) Virtual courses provided by the Michigan Virtual University.

(b) Virtual courses provided by a school of excellence that is a cyber school, as
defined in section 551 of the revised school code, MCL 380.551.

(c) Virtual courses provided by third party vendors not affiliated with a Michigan
public school.

(d) Virtual courses created and offered by a district or intermediate district.
An allocation to a district or another entity under this article is contingent upon the district’s or entity’s compliance with this section.

Sec. 20. (1) For 2019-2020, 2020-2021, both of the following apply:

(a) The target foundation allowance, formerly known as the basic foundation allowance, is $8,529.00—$8,679.00.

(b) The minimum foundation allowance is $8,111.00—$8,336.00.

(2) The department shall calculate the amount of each district’s foundation allowance as provided in this section, using a target foundation allowance in the amount specified in subsection (1). For the purpose of these calculations, a reference to the target foundation allowance for a preceding fiscal year is equivalent to a reference to the “basic” foundation allowance for that fiscal year.

(3) Except as otherwise provided in this section, the department shall calculate the amount of a district’s foundation allowance as follows, using in all calculations the total amount of the district’s foundation allowance as calculated before any proration:

(a) Except as otherwise provided in this subdivision, for a district that had a foundation allowance for the immediately preceding fiscal year that was at least equal to the minimum foundation allowance for the immediately preceding fiscal year, but less than the target foundation allowance for the immediately preceding fiscal year, the district receives a foundation allowance in an amount equal to the sum of the district’s foundation allowance for the immediately preceding fiscal year plus the difference between twice one and a half times the dollar amount of the adjustment from the immediately preceding fiscal year to the current fiscal year made in the target foundation allowance and [(the difference between the target foundation allowance for the current fiscal year and target foundation allowance for the immediately preceding fiscal year minus $40.00—$50.00) times (the difference between the district’s foundation allowance for the immediately preceding fiscal year and the minimum foundation allowance for the immediately preceding fiscal year) divided by the difference between the target foundation allowance for the current fiscal year and the minimum foundation allowance for the immediately preceding fiscal year.] However, the foundation allowance for a district that had less than the target foundation allowance for the immediately preceding fiscal year must not exceed the target foundation allowance for the current fiscal year.

(b) Except as otherwise provided in this subsection, for a district that in the
immediately preceding fiscal year had a foundation allowance in an amount equal to the amount of the target foundation allowance for the immediately preceding fiscal year, the district receives a foundation allowance for 2019-2020-2020-2021 in an amount equal to the target foundation allowance for 2019-2020-2020-2021.

(c) For a district that had a foundation allowance for the immediately preceding fiscal year that was greater than the target foundation allowance for the immediately preceding fiscal year, the district’s foundation allowance is an amount equal to the sum of the district’s foundation allowance for the immediately preceding fiscal year plus the lesser of the increase in the target foundation allowance for the current fiscal year, as compared to the immediately preceding fiscal year, or the product of the district’s foundation allowance for the immediately preceding fiscal year times the percentage increase in the United States Consumer Price Index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b.

(d) For a district that has a foundation allowance that is not a whole dollar amount, the department shall round the district’s foundation allowance up to the nearest whole dollar.

(4) Except as otherwise provided in this subsection, beginning in 2014-2015, the state portion of a district’s foundation allowance is an amount equal to the district’s foundation allowance or the target foundation allowance for the current fiscal year, whichever is less, minus the local portion of the district’s foundation allowance. For a district described in subsection (3)(c), beginning in 2014-2015, the state portion of the district’s foundation allowance is an amount equal to $6,962.00 plus the difference between the district’s foundation allowance for the current fiscal year and the district’s foundation allowance for 1998-99, minus the local portion of the district’s foundation allowance. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the department shall calculate the state portion of the district’s foundation allowance as if that reduction did not occur. For a receiving district, if school operating taxes continue to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, the taxable value per membership pupil of property in the receiving district used
for the purposes of this subsection does not include the taxable value of property within
the geographic area of the dissolved district. For a community district, if school
operating taxes continue to be levied by a qualifying school district under section 12b of
the revised school code, MCL 380.12b, with the same geographic area as the community
district, the taxable value per membership pupil of property in the community district to
be used for the purposes of this subsection does not include the taxable value of property
within the geographic area of the community district.

(5) The allocation calculated under this section for a pupil is based on the
foundation allowance of the pupil’s district of residence. For a pupil enrolled pursuant to
section 105 or 105c in a district other than the pupil’s district of residence, the
allocation calculated under this section is based on the lesser of the foundation allowance
of the pupil’s district of residence or the foundation allowance of the educating district.
For a pupil in membership in a K-5, K-6, or K-8 district who is enrolled in another
district in a grade not offered by the pupil’s district of residence, the allocation
calculated under this section is based on the foundation allowance of the educating
district if the educating district’s foundation allowance is greater than the foundation
allowance of the pupil’s district of residence. The calculation under this subsection shall
take into account a district’s per-pupil allocation under section 20m.

(6) Except as otherwise provided in this subsection, for pupils in membership, other
than special education pupils, in a public school academy, the allocation calculated under
this section is an amount per membership pupil other than special education pupils in the
public school academy equal to the foundation allowance of the district in which the public
school academy is located or the state maximum public school academy allocation, whichever
is less. Except as otherwise provided in this subsection, for pupils in membership, other
than special education pupils, in a public school academy that is a cyber school and is
authorized by a school district, the allocation calculated under this section is an amount
per membership pupil other than special education pupils in the public school academy equal
to the foundation allowance of the district that authorized the public school academy or
the state maximum public school academy allocation, whichever is less. However, for a
public school academy that had an allocation under this subsection before 2009-2010 that
was equal to the sum of the local school operating revenue per membership pupil other than
special education pupils for the district in which the public school academy is located and
the state portion of that district’s foundation allowance, that allocation is not reduced
as a result of the 2010 amendment to this subsection. Notwithstanding section 101, for a
public school academy that begins operations after the pupil membership count day, the
amount per membership pupil calculated under this subsection must be adjusted by
multiplying that amount per membership pupil by the number of hours of pupil instruction
provided by the public school academy after it begins operations, as determined by the
department, divided by the minimum number of hours of pupil instruction required under
section 101(3). The result of this calculation must not exceed the amount per membership
pupil otherwise calculated under this subsection. Beginning in 2020-2021, for pupils in
membership in a public school academy that was issued a contract under section 552 of the
revised school code, MCL 380.552, to operate as a school of excellence that is a cyber
school, the allocation calculated under this section shall be an amount equal to 80% of the
amount as would otherwise be calculated under this subsection for a public school academy.

(7) Except as otherwise provided in this subsection, for pupils in membership, other
than special education pupils, in a community district, the allocation calculated under
this section is an amount per membership pupil other than special education pupils in the
community district equal to the foundation allowance of the qualifying school district, as
described in section 12b of the revised school code, MCL 380.12b, that is located within
the same geographic area as the community district.

(8) Subject to subsection (4), for a district that is formed or reconfigured after
June 1, 2002 by consolidation of 2 or more districts or by annexation, the resulting
district’s foundation allowance under this section beginning after the effective date of
the consolidation or annexation is the lesser of the sum of the average of the foundation
allowances of each of the original or affected districts, calculated as provided in this
section, weighted as to the percentage of pupils in total membership in the resulting
district who reside in the geographic area of each of the original or affected districts
plus $100.00 or the highest foundation allowance among the original or affected districts.
This subsection does not apply to a receiving district unless there is a subsequent
consolidation or annexation that affects the district. The calculation under this
subsection shall take into account a district’s per-pupil allocation under section 20m.

(9) The department shall round each fraction used in making calculations under this
section to the fourth decimal place and shall round the dollar amount of an increase in the
target foundation allowance to the nearest whole dollar.

(10) State payments related to payment of the foundation allowance for a special education pupil are not calculated under this section but are instead calculated under section 51a.

(11) To assist the legislature in determining the target foundation allowance for the subsequent fiscal year, each revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b, must calculate a pupil membership factor, a revenue adjustment factor, and an index as follows:

(a) The pupil membership factor is computed by dividing the estimated membership in the school year ending in the current fiscal year, excluding intermediate district membership, by the estimated membership for the school year ending in the subsequent fiscal year, excluding intermediate district membership. If a consensus membership factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(b) The revenue adjustment factor is computed by dividing the sum of the estimated total state school aid fund revenue for the subsequent fiscal year plus the estimated total state school aid fund revenue for the current fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund and excluding money transferred into that fund from the countercyclical budget and economic stabilization fund under the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594, by the sum of the estimated total school aid fund revenue for the current fiscal year plus the estimated total state school aid fund revenue for the immediately preceding fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund. If a consensus revenue factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(c) The index is calculated by multiplying the pupil membership factor by the revenue adjustment factor. If a consensus index is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their
estimates to the house and senate subcommittees responsible for school aid appropriations
not later than 7 days after the conclusion of the revenue conference.

(12) Payments to districts and public school academies are not made under this section. Rather, the calculations under this section are used to determine the amount of state payments under section 22b.

(13) If an amendment to section 2 of article VIII of the state constitution of 1963 allowing state aid to some or all nonpublic schools is approved by the voters of this state, each foundation allowance or per-pupil payment calculation under this section may be reduced.

(14) For the purposes of section 1211 of the revised school code, MCL 380.1211, the basic foundation allowance under this section is considered to be the target foundation allowance under this section.

(15) As used in this section:
(a) “Certified mills” means the lesser of 18 mills or the number of mills of school operating taxes levied by the district in 1993–94.
(b) “Combined state and local revenue” means the aggregate of the district’s state school aid received by or paid on behalf of the district under this section and the district’s local school operating revenue.
(c) “Combined state and local revenue per membership pupil” means the district’s combined state and local revenue divided by the district’s membership excluding special education pupils.
(d) “Current fiscal year” means the fiscal year for which a particular calculation is made.
(e) “Dissolved district” means a district that loses its organization, has its territory attached to 1 or more other districts, and is dissolved as provided under section 12 of the revised school code, MCL 380.12.
(f) “Immediately preceding fiscal year” means the fiscal year immediately preceding the current fiscal year.
(g) “Local portion of the district’s foundation allowance” means an amount that is equal to the difference between (the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district’s certified mills and, for a district with certified mills exceeding 12, the product of the
taxable value per membership pupil of property in the district that is commercial personal
property times the certified mills minus 12 mills) and (the quotient of the product of the
captured assessed valuation under tax increment financing acts times the district’s
certified mills divided by the district’s membership excluding special education pupils).

(h) “Local school operating revenue” means school operating taxes levied under
section 1211 of the revised school code, MCL 380.1211. For a receiving district, if school
operating taxes are to be levied on behalf of a dissolved district that has been attached
in whole or in part to the receiving district to satisfy debt obligations of the dissolved
district under section 12 of the revised school code, MCL 380.12, local school operating
revenue does not include school operating taxes levied within the geographic area of the
dissolved district.

(i) “Local school operating revenue per membership pupil” means a district’s local
school operating revenue divided by the district’s membership excluding special education
pupils.

(j) “Maximum public school academy allocation”, except as otherwise provided in this
subdivision, means the maximum per-pupil allocation as calculated by adding the highest
per-pupil allocation among all public school academies for the immediately preceding fiscal
year plus the difference between \textit{twice-one and a half} the amount of the difference between
the target foundation allowance for the current fiscal year and the target foundation
allowance for the immediately preceding fiscal year and \{the amount of the difference
between the target foundation allowance for the current fiscal year and the target
foundation allowance for the immediately preceding fiscal year minus \$40.00 \text{--} \$50.00\} times
(the difference between the highest per-pupil allocation among all public school academies
for the immediately preceding fiscal year and the minimum foundation allowance for the
immediately preceding fiscal year) divided by the difference between the target foundation
allowance for the current fiscal year and the minimum foundation allowance for the
immediately preceding fiscal year.) For the purposes of this subdivision, for 2019-2020,
2020-2021 the maximum public school academy allocation is \$8,111.00 \text{--} \$8,336.00.

(k) “Membership” means the definition of that term under section 6 as in effect for
the particular fiscal year for which a particular calculation is made.

(l) “Nonexempt property” means property that is not a principal residence, qualified
agricultural property, qualified forest property, supportive housing property, industrial
personal property, commercial personal property, or property occupied by a public school
academy.

(m) "Principal residence", "qualified agricultural property", "qualified forest
property", "supportive housing property", "industrial personal property", and "commercial
personal property" mean those terms as defined in section 1211 of the revised school code,
MCL 380.1211.

(n) "Receiving district" means a district to which all or part of the territory of a
dissolved district is attached under section 12 of the revised school code, MCL 380.12.

(o) "School operating purposes" means the purposes included in the operation costs of
the district as prescribed in sections 7 and 18 and purposes authorized under section 1211
of the revised school code, MCL 380.1211.

(p) "School operating taxes" means local ad valorem property taxes levied under
section 1211 of the revised school code, MCL 380.1211, and retained for school operating
purposes.

(q) "Target foundation allowance for the immediately preceding fiscal year" means,
for 2019-2020 only, the basic foundation allowance in effect for the 2018-2019 fiscal year.

(r) "Tax increment financing acts" means parts 2, 3, 4, and 6 of the recodified
tax increment financing act, 2018 PA 57, MCL 125.4201 to 125.4420 and 125.4602 to 125.4629,
or the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2670.

(r) "Taxable value per membership pupil" means taxable value, as certified by the
county treasurer and reported to the department, for the calendar year ending in the
current state fiscal year divided by the district’s membership excluding special education
pupils for the school year ending in the current state fiscal year.

Sec. 20d. In making the final determination required under former section 20a of a
district’s combined state and local revenue per membership pupil in 1993-94 and in making
calculations under section 20 for 2019-2020, 2020-2021, the department and the department
of treasury shall comply with all of the following:

(a) For a district that had combined state and local revenue per membership pupil in
the 1994-95 fiscal year of $6,500.00 or more and served as a fiscal agent for a state board
designated area vocational education center in the 1993-94 school year, total state school
aid received by or paid on behalf of the district under this act in 1993-94 excludes
payments made under former section 146 and under section 147 on behalf of the district’s
employees who provided direct services to the area vocational education center. Not later than June 30, 1996, the department shall make an adjustment under this subdivision to the district’s combined state and local revenue per membership pupil in the 1994-95 fiscal year and the department of treasury shall make a final certification of the number of mills that may be levied by the district under section 1211 of the revised school code, MCL 380.1211, as a result of the adjustment under this subdivision.

(b) If a district had an adjustment made to its 1993-94 total state school aid that excluded payments made under former section 146 and under section 147 on behalf of the district’s employees who provided direct services for intermediate district center programs operated by the district under sections 51 to 56, if nonresident pupils attending the center programs were included in the district’s membership for purposes of calculating the combined state and local revenue per membership pupil for 1993-94, and if there is a signed agreement by all constituent districts of the intermediate district agreeing to an adjustment under this subdivision, the department shall calculate the foundation allowances for 1995-96 and 1996-97 of all districts that had pupils attending the intermediate district center program operated by the district that had the adjustment as if their combined state and local revenue per membership pupil for 1993-94 included resident pupils attending the center program and excluded nonresident pupils attending the center program.

Sec. 20f. (1) From the funds appropriated in section 11, there is allocated an amount not to exceed $18,000,000.00 for 2019-2020-2020-2021 for payments to eligible districts under this section.

(2) The funding under this subsection is from the allocation under subsection (1). A district is eligible for funding under this subsection if the district received a payment under this section as it was in effect for 2013-2014. A district was eligible for funding in 2013-2014 if the sum of the following was less than $5.00:

(a) The increase in the district’s foundation allowance or per-pupil payment as calculated under section 20 from 2012-2013 to 2013-2014.

(b) The district’s equity payment per membership pupil under former section 22c for 2013-2014.

(c) The quotient of the district’s allocation under section 147a for 2012-2013 divided by the district’s membership pupils for 2012-2013 minus the quotient of the district’s allocation under section 147a for 2013-2014 divided by the district’s membership
pupils for 2013-2014.

(3) The amount allocated to each eligible district under subsection (2) is an amount per membership pupil equal to the amount per membership pupil the district received under this section in 2013-2014.

(4) The funding under this subsection is from the allocation under subsection (1). A district is eligible for funding under this subsection if the sum of the following is less than $25.00:

(a) The increase in the district’s foundation allowance or per-pupil payment as calculated under section 20 from 2014-2015 to 2015-2016.

(b) The decrease in the district’s best practices per-pupil funding under former section 22f from 2014-2015 to 2015-2016.

(c) The decrease in the district’s pupil performance per-pupil funding under former section 22j from 2014-2015 to 2015-2016.

(d) The quotient of the district’s allocation under section 31a for 2015-2016 divided by the district’s membership pupils for 2015-2016 minus the quotient of the district’s allocation under section 31a for 2014-2015 divided by the district’s membership pupils for 2014-2015.

(5) The amount allocated to each eligible district under subsection (4) is an amount per membership pupil equal to $25.00 minus the sum of the following:

(a) The increase in the district’s foundation allowance or per-pupil payment as calculated under section 20 from 2014-2015 to 2015-2016.

(b) The decrease in the district’s best practices per-pupil funding under former section 22f from 2014-2015 to 2015-2016.

(c) The decrease in the district’s pupil performance per-pupil funding under former section 22j from 2014-2015 to 2015-2016.

(d) The quotient of the district’s allocation under section 31a for 2015-2016 divided by the district’s membership pupils for 2015-2016 minus the quotient of the district’s allocation under section 31a for 2014-2015 divided by the district’s membership pupils for 2014-2015.

(6) If the allocation under subsection (1) is insufficient to fully fund payments under subsections (3) and (5) as otherwise calculated under this section, the department shall prorate payments under this section on an equal per-pupil basis.
Sec. 20m. (1) Foundation allowance supplemental payments for 2020-2021 to districts that in the 2019-2020 fiscal year had a foundation allowance greater than $8,529.00 shall be calculated under this section.

(2) The per-pupil allocation to each district under this section shall be the difference between the dollar amount of the adjustment from the 2019-2020 state fiscal year to the current state fiscal year in the target foundation allowance minus the dollar amount of the adjustment from the 2019-2020 fiscal year to the current state fiscal year in a qualifying district's foundation allowance.

(3) If a district's local revenue per pupil does not exceed the sum of its foundation allowance under section 20 plus the per-pupil allocation under subsection (2), the total payment to the district calculated under this section shall be the product of the per-pupil allocation under subsection (2) multiplied by the district's membership excluding special education pupils. If a district's local revenue per pupil exceeds the foundation allowance under section 20 but does not exceed the sum of the foundation allowance under section 20 plus the per-pupil allocation under subsection (2), the total payment to the district calculated under this section shall be the product of the difference between the sum of the foundation allowance under section 20 plus the per-pupil allocation under subsection (2) minus the local revenue per pupil multiplied by the district's membership excluding special education pupils. If a district's local revenue per pupil exceeds the sum of the foundation allowance under section 20 plus the per-pupil allocation under subsection (2), there is no payment calculated under this section for the district.

(4) Payments to districts shall not be made under this section. Rather, the calculations under this section shall be made and used to determine the amount of state payments under section 22b.

Sec. 21h. (1) From the appropriation in section 11, there is allocated $6,000,000.00 for assisting districts assigned by the superintendent to participate in a partnership to improve student achievement and for assisting districts demonstrating financial stress, as determined by the state treasurer. The purpose of the partnership is to identify district needs, develop intervention plans, and partner with public, private, and nonprofit organizations to coordinate resources and improve student achievement and district financial stability. The superintendent shall collaborate with state treasurer to identify any conditions that may be contributing to low academic
performance within a district being considered for assignment to a partnership. Assignment of a district to a partnership is at the sole discretion of made by the superintendent in consultation with the state treasurer.

(2) A district assigned to a partnership by the superintendent or a district that has established a community engagement advisory committee in partnership with the department of treasury is eligible for funding under this section if the district includes at least 1 school that has been rated with a grade of “F”, or comparable performance rating, in the most recent state accountability system rating identified as low performing under the approved federal accountability system or the state accountability system. A district described in this subsection must do and that does all of the following to be eligible for funding under this section:

(a) **Complete** a comprehensive needs assessment or evaluation, in collaboration with an intermediate school district, community members, education organizations, and postsecondary institutions, as applicable and approved by the superintendent, within 90 days of assignment to the partnership described in this section or by October 15 of each year if the district has established a community engagement advisory committee. The comprehensive needs evaluation must include at least all of the following:

(i) A review of the district’s implementation and utilization of a multi-tiered system of supports to ensure that it is used to appropriately inform instruction.

(ii) A review of the district and school building leadership and educator capacity to substantially improve student outcomes.

(iii) A review of classroom, instructional, and operational practices and curriculum to ensure alignment with research-based instructional practices and state curriculum standards.

(b) **Develop** an academic and financial operating plan or intervention plan that has been approved by the superintendent and that addresses the needs identified in the comprehensive needs evaluation completed under subdivision (a). The intervention plan must include at least all of the following:

(i) Specific actions that will be taken by the district and each of its partners to improve student achievement.

(ii) Specific measurable benchmarks that will be met within 18 months to improve
student achievement and identification of expected student achievement outcomes to be attained within 3 years after assignment to the partnership.

(c) Craft academic goals that put pupils on track to meet or exceed grade level proficiency.

(3) Upon approval of the academic and financial operating plan or intervention plan developed under subsection (2), the department, in collaboration with the department of treasury, shall assign a team of individuals with expertise in comprehensive school and district reform to partner with the district, the intermediate district, community organizations, education organizations, and postsecondary institutions identified in the academic and financial operating plan or intervention plan to review the district’s use of existing financial resources to ensure that those resources are being used as efficiently and effectively as possible to improve student academic achievement and to ensure district financial stability. The superintendent of public instruction may waive burdensome administrative rules for a partnership district for the duration of the partnership agreement or for a district that receives funding under this section in the current fiscal year that has established a community engagement advisory committee in partnership with the department of treasury.

(4) Funds allocated under this section may be used to pay for district expenditures approved by the superintendent to improve student achievement. Funds may be used for professional development for teachers or district or school leadership, increased instructional time, teacher mentors, or other expenditures that directly impact student achievement and cannot be paid from existing district financial resources. An eligible district shall not receive funds under this section for more than 3 years. Notwithstanding section 17b, the department shall make payments to eligible districts under this section on a schedule determined by the department.

(5) The department shall collaborate with the department of treasury and annually report in person to the legislature on the activities funded under this section and how those activities impacted student achievement in eligible districts that received funds under this section. To the extent possible, participating districts receiving funding under this section shall participate in the report. This report shall also include a description regarding the department’s involvement in any community engagement advisory committee, including a detailed justification if any decisions were made to not partner with a
district seeking to create a community engagement advisory committee. If a determination is
made by the department of treasury that the department does not collaborate as required
under this section, the department shall include in the report under this section a
detailed justification as to why the collaboration did not occur.

Sec. 22a. (1) From the appropriation in section 11, there is allocated an amount not
to exceed $5,057,000,000.00 for 2018-2019 and there is allocated an
amount not to exceed $4,943,000,000.00 for 2019-2020-2020-2021 for payments to districts
and qualifying public school academies to guarantee each district and qualifying public
school academy an amount equal to its 1994-95 total state and local per pupil revenue for
school operating purposes under section 11 of article IX of the state constitution of 1963.
Pursuant to section 11 of article IX of the state constitution of 1963, this guarantee does
not apply to a district in a year in which the district levies a millage rate for school
district operating purposes less than it levied in 1994. However, subsection (2) applies to
calculating the payments under this section. Funds allocated under this section that are
not expended in the state fiscal year for which they were allocated, as determined by the
department, may be used to supplement the allocations under sections 22b and 51c in order
to fully fund those calculated allocations for the same fiscal year.

(2) To ensure that a district receives an amount equal to the district’s 1994-95
total state and local per pupil revenue for school operating purposes, there is allocated
to each district a state portion of the district’s 1994-95 foundation allowance in an
amount calculated as follows:

(a) Except as otherwise provided in this subsection, the state portion of a
district’s 1994-95 foundation allowance is an amount equal to the district’s 1994-95
foundation allowance or $6,500.00, whichever is less, minus the difference between the sum
of the product of the taxable value per membership pupil of all property in the district
that is nonexempt property times the district’s certified mills and, for a district with
certified mills exceeding 12, the product of the taxable value per membership pupil of
property in the district that is commercial personal property times the certified mills
minus 12 mills and the quotient of the ad valorem property tax revenue of the district
captured under tax increment financing acts divided by the district’s membership. For a
district that has a millage reduction required under section 31 of article IX of the state
constitution of 1963, the department shall calculate the state portion of the district’s
foundation allowance as if that reduction did not occur. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, taxable value per membership pupil of all property in the receiving district that is nonexempt property and taxable value per membership pupil of property in the receiving district that is commercial personal property do not include property within the geographic area of the dissolved district; ad valorem property tax revenue of the receiving district captured under tax increment financing acts does not include ad valorem property tax revenue captured within the geographic boundaries of the dissolved district under tax increment financing acts; and certified mills do not include the certified mills of the dissolved district. For a community district, the department shall reduce the allocation as otherwise calculated under this section by an amount equal to the amount of local school operating tax revenue that would otherwise be due to the community district if not for the operation of section 386 of the revised school code, MCL 380.386, and the amount of this reduction is offset by the increase in funding under section 22b(2).

(b) For a district that had a 1994-95 foundation allowance greater than $6,500.00, the state payment under this subsection is the sum of the amount calculated under subdivision (a) plus the amount calculated under this subdivision. The amount calculated under this subdivision must be equal to the difference between the district’s 1994-95 foundation allowance minus $6,500.00 and the current year hold harmless school operating taxes per pupil. If the result of the calculation under subdivision (a) is negative, the negative amount is an offset against any state payment calculated under this subdivision. If the result of a calculation under this subdivision is negative, there is not a state payment or a deduction under this subdivision. The taxable values per membership pupil used in the calculations under this subdivision are as adjusted by ad valorem property tax revenue captured under tax increment financing acts divided by the district’s membership. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, ad valorem property tax revenue captured under tax increment financing acts do not include ad valorem property tax revenue captured within the geographic
boundaries of the dissolved district under tax increment financing acts.

(3) Beginning in 2003-2004, for pupils in membership in a qualifying public school academy, there is allocated under this section to the authorizing body that is the fiscal agent for the qualifying public school academy for forwarding to the qualifying public school academy an amount equal to the 1994-95 per pupil payment to the qualifying public school academy under section 20.

(4) A district or qualifying public school academy may use funds allocated under this section in conjunction with any federal funds for which the district or qualifying public school academy otherwise would be eligible.

(5) Except as otherwise provided in this subsection, for a district that is formed or reconfigured after June 1, 2000 by consolidation of 2 or more districts or by annexation, the resulting district’s 1994-95 foundation allowance under this section beginning after the effective date of the consolidation or annexation is the average of the 1994-95 foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district in the fiscal year in which the consolidation takes place who reside in the geographic area of each of the original districts. If an affected district’s 1994-95 foundation allowance is less than the 1994-95 basic foundation allowance, the amount of that district’s 1994-95 foundation allowance is considered for the purpose of calculations under this subsection to be equal to the amount of the 1994-95 basic foundation allowance. This subsection does not apply to a receiving district unless there is a subsequent consolidation or annexation that affects the district.

(6) Payments under this section are subject to section 25g.

(6) As used in this section:

(a) “1994-95 foundation allowance” means a district’s 1994-95 foundation allowance calculated and certified by the department of treasury or the superintendent under former section 20a as enacted in 1993 PA 336 and as amended by 1994 PA 283.

school operating taxes are to be levied on behalf of a dissolved district that has been
attached in whole or in part to the receiving district to satisfy debt obligations of the

12 of the revised school code, MCL 380.12.

operating taxes on a principal residence, qualified agricultural property, qualified forest
property, supportive housing property, industrial personal property, commercial personal
property, and property occupied by a public school academy could be reduced as provided in
section 1211 of the revised school code, MCL 380.1211, and the number of mills of school
operating taxes that could be levied on all property as provided in section 1211(2) of the
revised school code, MCL 380.1211, as certified by the department of treasury for the 1994
tax year. For a receiving district, if school operating taxes are to be levied on behalf of a
dissolved district that has been attached in whole or in part to the receiving district
to satisfy debt obligations of the dissolved district under section 12 of the revised
school code, MCL 380.12, school operating taxes do not include school operating taxes
levied within the geographic area of the dissolved district.

(g) “Membership” means the definition of that term under section 6 as in effect for
the particular fiscal year for which a particular calculation is made.

(m) “Tax increment financing acts” means 1975 PA 197, MCL 125.1651 to 125.1681, the tax increment finance authority act, 1980 PA 450, MCL 125.1801 to 125.1830, the local development financing act, 1986 PA 281, MCL 125.2151 to 125.2174, the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2670, or the corridor improvement authority act, 2005 PA 280, MCL 125.2871 to 125.2899.

(n) “Taxable value per membership pupil” means each of the following divided by the district’s membership:

(i) For the number of mills by which the exemption from the levy of school operating taxes on a principal residence, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, commercial personal property, and property occupied by a public school academy may be reduced as provided in section 1211 of the revised school code, MCL 380.1211, the taxable value of principal residence, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, commercial personal property, and property occupied by a public school academy for the calendar year ending in the current fiscal year. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, mills do not include mills within the geographic area of the dissolved district.

(ii) For the number of mills of school operating taxes that may be levied on all property as provided in section 1211(2) of the revised school code, MCL 380.1211, the taxable value of all property for the calendar year ending in the current fiscal year. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy
debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, school operating taxes do not include school operating taxes levied within the geographic area of the dissolved district.

Sec. 22b. (1) For discretionary nonmandated payments to districts under this section, there is allocated for 2019-2020-2021 an amount not to exceed $4,480,600,000.00 from the state school aid fund and general fund appropriations in section 11 and an amount not to exceed $75,400,000.00-$78,400,000.00 from the community district education trust fund appropriation in section 11. Except for money allocated from the community district trust fund, money allocated under this section that is not expended in the state fiscal year in which it was allocated, as determined by the department, may be used to supplement the allocations under sections 22a and 51c in order to fully fund those calculated allocations for the same fiscal year.

(2) Subject to subsection (3) and section 296, the allocation to a district under this section is an amount equal to the sum of the amounts calculated under sections 20, 20m, 51a(2), 51a(3), and 51a(11), minus the sum of the allocations to the district under sections 22a and 51c. For a community district, the allocation as otherwise calculated under this section is increased by an amount equal to the amount of local school operating tax revenue that would otherwise be due to the community district if not for the operation of section 386 of the revised school code, MCL 380.386, and this increase must be paid from the community district education trust fund allocation in subsection (1) in order to offset the absence of local school operating revenue in a community district in the funding of the state portion of the foundation allowance under section 20(4).

(3) In order to receive an allocation under subsection (1), each district must do all of the following:

(a) Comply with section 1280b of the revised school code, MCL 380.1280b.

(b) Comply with sections 1278a and 1278b of the revised school code, MCL 380.1278a and 380.1278b.

(c) Furnish data and other information required by state and federal law to the center and the department in the form and manner specified by the center or the department, as applicable.

(e) Comply with section 21f.
(f) For a district or public school academy that has entered into a partnership agreement with the department, comply with section 22p.

(g) For a district or public school academy that offers kindergarten, comply with section 104(4).

(4) Districts are encouraged to use funds allocated under this section for the purchase and support of payroll, human resources, and other business function software that is compatible with that of the intermediate district in which the district is located and with other districts located within that intermediate district.

(5) From the allocation in subsection (1), the department shall pay up to $1,000,000.00 in litigation costs incurred by this state related to commercial or industrial property tax appeals, including, but not limited to, appeals of classification, that impact revenues dedicated to the state school aid fund.

(6) From the allocation in subsection (1), the department shall pay up to $1,000,000.00 in litigation costs incurred by this state associated with lawsuits filed by 1 or more districts or intermediate districts against this state. If the allocation under this section is insufficient to fully fund all payments required under this section, the payments under this subsection must be made in full before any proration of remaining payments under this section.

(7) It is the intent of the legislature that all constitutional obligations of this state have been fully funded under sections 22a, 31d, 51a, 51c, and 152a. If a claim is made by an entity receiving funds under this article that challenges the legislative determination of the adequacy of this funding or alleges that there exists an unfunded constitutional requirement, the state budget director may escrow or allocate from the discretionary funds for nonmandated payments under this section the amount as may be necessary to satisfy the claim before making any payments to districts under subsection (2). If funds are escrowed, the escrowed funds are a work project appropriation and the funds are carried forward into the following fiscal year. The purpose of the work project is to provide for any payments that may be awarded to districts as a result of litigation. The work project is completed upon resolution of the litigation.

(8) If the local claims review board or a court of competent jurisdiction makes a final determination that this state is in violation of section 29 of article IX of the state constitution of 1963 regarding state payments to districts, the state budget director
shall use work project funds under subsection (7) or allocate from the discretionary funds for
nonmandated payments under this section the amount as may be necessary to satisfy the
amount owed to districts before making any payments to districts under subsection (2).

(9) If a claim is made in court that challenges the legislative determination of the
adequacy of funding for this state’s constitutional obligations or alleges that there
exists an unfunded constitutional requirement, any interested party may seek an expedited
review of the claim by the local claims review board. If the claim exceeds $10,000,000.00,
this state may remove the action to the court of appeals, and the court of appeals has and
shall exercise jurisdiction over the claim.

(10) If payments resulting from a final determination by the local claims review
board or a court of competent jurisdiction that there has been a violation of section 29 of
article IX of the state constitution of 1963 exceed the amount allocated for discretionary
nonmandated payments under this section, the legislature shall provide for adequate funding
for this state’s constitutional obligations at its next legislative session.

(11) If a lawsuit challenging payments made to districts related to costs reimbursed
by federal title XIX Medicaid funds is filed against this state, then, for the purpose of
addressing potential liability under such a lawsuit, the state budget director may place
funds allocated under this section in escrow or allocate money from the funds otherwise
allocated under this section, up to a maximum of 50% of the amount allocated in subsection
(1). If funds are placed in escrow under this subsection, those funds are a work project
appropriation and the funds are carried forward into the following fiscal year. The purpose
of the work project is to provide for any payments that may be awarded to districts as a
result of the litigation. The work project is completed upon resolution of the litigation.
In addition, this state reserves the right to terminate future federal title XIX Medicaid
reimbursement payments to districts if the amount or allocation of reimbursed funds is
challenged in the lawsuit. As used in this subsection, “title XIX” means title XIX of the
social security act, 42 USC 1396 to 1396w-5.

Sec. 22d. (1) From the state school aid fund money appropriated under section 11, an
amount not to exceed $7,000,000.00 is allocated for 2019-2020-2021 for supplemental
payments to rural districts under this section.

(2) From the allocation under subsection (1), there is allocated for 2019-2020-2021 an amount not to exceed $957,300.00 for payments under this subsection to districts
that meet all of the following:

(a) Operates grades K to 12.

(b) Has fewer than 250 pupils in membership.

(c) Each school building operated by the district meets at least 1 of the following:

(i) Is located in the Upper Peninsula at least 30 miles from any other public school building.

(ii) Is located on an island that is not accessible by bridge.

(3) The amount of the additional funding to each eligible district under subsection (2) is determined under a spending plan developed as provided in this subsection and approved by the superintendent of public instruction. The spending plan must be developed cooperatively by the intermediate superintendents of each intermediate district in which an eligible district is located. The intermediate superintendents shall review the financial situation of each eligible district, determine the minimum essential financial needs of each eligible district, and develop and agree on a spending plan that distributes the available funding under subsection (2) to the eligible districts based on those financial needs. The intermediate superintendents shall submit the spending plan to the superintendent of public instruction for approval. Upon approval by the superintendent of public instruction, the amounts specified for each eligible district under the spending plan are allocated under subsection (2) and must be paid to the eligible districts in the same manner as payments under section 22b.

(4) Subject to subsection (6), from the allocation in subsection (1), there is allocated for 2019-2020-2020-2021 an amount not to exceed $6,042,700.00 for payments under this subsection to districts that have fewer than 10.0 pupils per square mile as determined by the department.

(5) The funds allocated under subsection (4) are allocated as follows:

(a) An amount equal to $5,200,000.00 is allocated to districts with fewer than 8.0 pupils per square mile, as determined by the department, on an equal per-pupil basis.

(b) The balance of the funding under subsection (4) is allocated as follows:

(i) For districts with at least 8.0 but fewer than 9.0 pupils per square mile, as determined by the department, the allocation is an amount per pupil equal to 75% of the per-pupil amount allocated to districts under subdivision (a).

(ii) For districts with at least 9.0 but fewer than 10.0 pupils per square mile, as
determined by the department, the allocation is an amount per pupil equal to 50% of the
per-pupil amount allocated to districts under subdivision (a).

(c) If the total funding allocated under subdivision (b) is not sufficient to fully
fund payments as calculated under that subdivision, the department shall prorate payments
to districts under subdivision (b) on an equal per-pupil basis.

(6) A district receiving funds allocated under subsection (2) is not eligible for
funding allocated under subsection (4).

Sec. 22m. (1) From the appropriations in section 11, there is allocated for 2019-2020
2020-2021 an amount not to exceed $2,200,000.00 for supporting the integration of local
data systems into the Michigan data hub network based on common standards and applications
that are in compliance with section 19(6).

(2) An entity that is the fiscal agent for no more than 5 consortia of intermediate
districts that previously received funding from the technology readiness infrastructure
grant under former section 22i for the purpose of establishing regional data hubs that are
part of the Michigan data hub network is eligible for funding under this section.

(3) The center shall work with an advisory committee composed of representatives from
intermediate districts within each of the data hub regions to coordinate the activities of
the Michigan data hub network.

(4) The center, in collaboration with the Michigan data hub network, shall determine
the amount of funds distributed under this section to each participating regional data hub
within the network, based upon a competitive grant process. The center shall ensure that
the entities receiving funding under this section represent geographically diverse areas in
this state.

(5) Notwithstanding section 17b, the department shall make payments under this
section on a schedule determined by the center.

(6) To receive funding under this section, a regional data hub must have a governance
model that ensures local control of data, data security, and student privacy issues. The
integration of data within each of the regional data hubs must provide for the actionable
use of data by districts and intermediate districts through common reports and dashboards
and for efficiently providing information to meet state and federal reporting purposes.

(7) Participation in a data hub region in the Michigan data hub network under this
section is voluntary and is not required.
(8) Entities receiving funding under this section shall use the funds for all of the following:

(a) Creating an infrastructure that effectively manages the movement of data between data systems used by intermediate districts, districts, and other educational organizations in Michigan based on common data standards to improve student achievement.

(b) Utilizing the infrastructure to put in place commonly needed integrations, reducing cost and effort to do that work while increasing data accuracy and usability.

(c) Promoting the use of a more common set of applications by promoting systems that integrate with the Michigan data hub network.

(d) Promoting 100% district adoption of the Michigan data hub network by September 30, 2021.

(e) Ensuring local control of data, data security, and student data privacy.

(f) Utilizing the infrastructure to promote the actionable use of data through common reports and dashboards that are consistent statewide.

(g) Creating a governance model to facilitate sustainable operations of the infrastructure in the future, including administration, legal agreements, documentation, staffing, hosting, and funding.

(h) Evaluating future data initiatives at all levels to determine whether the initiatives can be enhanced by using the standardized environment in the Michigan data hub network.

(9) Not later than January 1 of each fiscal year, the center shall prepare a summary report of information provided by each entity that received funds under this section that includes measurable outcomes based on the objectives described under this section and a summary of compiled data from each entity to provide a means to evaluate the effectiveness of the project. Measurable academic outcomes under this subdivision must include outcomes that put pupils on track to meet or exceed grade level proficiency and must be based on district needs identified as required under section 21h and must include at least one proficiency or growth outcome based upon state assessments as defined in section 104c.

(b) Adopts a partnership agreement that includes accountability measures to be imposed if the district or public school academy does not achieve the measurable academic outcomes under subdivision (a) for a school subject to a partnership agreement. Accountability measures under this subdivision may include the closure of the school at the end of the current school year or the reconstitution of the school. For a public school academy that adopts a partnership agreement under this subdivision, the agreement must include a requirement that if reconstitution is imposed on a school that is operated by the public school academy and that is subject to the partnership agreement, the school must be reconstituted as described in section 507 of the revised school code, MCL 380.507. For a district that adopts a partnership agreement under this subdivision, the agreement must include a requirement that if reconstitution is imposed on a school that is operated by the district and that is subject to the partnership agreement, all of the following apply:

(i) The district shall make significant changes to the instructional and noninstructional programming of the school based on the needs identified through a comprehensive review of data in compliance with section 21h.

(iii) The reconstitution plan for the school shall require the adoption of goals similar to the goals included in a partnership agreement, with a limit of 3 years to achieve the goals. If the goals are not achieved within 3 years, the superintendent of public instruction shall either impose a second reconstitution plan or close the school.

(2) If a district or public school academy is assigned as a partnership district during the current fiscal year, it must have a signed partnership agreement in place within 90 days of assignment or funding under section 22b will be withheld until such time that an
agreement is in place.

Sec. 22q. (1) From the funds appropriated in section 11, there is allocated for 2020-2021 only an amount not to exceed $5,000,000.00 for competitive assistance grants to districts and intermediate districts.

(2) Funds received under this section may be used for costs associated with reorganization and cooperative activities between districts or between districts and intermediate districts that occur on or after June 30, 2020. A district or intermediate district is not eligible for funding under this section until a reorganization or cooperative activity is approved by the school electors of the applicable districts or intermediate districts. A recipient district or intermediate district may spend funds allocated under this section over 3 fiscal years.

(3) The department shall collaborate with the department of treasury to develop an application process and to determine grant recipients and award amounts under this section.

(4) Notwithstanding section 17b, grant payments under this section shall be paid on a schedule determined by the department.

(5) The funds allocated under subsection (1) for 2020-2021 are a work project appropriation, and any unexpended funds for 2020-2021 are carried forward into 2021-2022. The purpose of the work project is to improve the efficiency of the state education system through the support of reorganization and cooperative activities between districts or between districts and intermediate districts. The estimated completion date of the work project is September 30, 2023.

Sec. 24. (1) From the appropriation in section 11, there is allocated for 2020-2021 an amount not to exceed $7,150,000.00 for payments to the educating district or intermediate district for educating pupils assigned by a court or the department of health and human services to reside in or to attend a juvenile detention facility or child caring institution licensed by the department of health and human services and approved by the department to provide an on-schools education program. The amount of the payment under this section to a district or intermediate district is calculated as prescribed under subsection (2).

(2) The department shall allocate the total amount allocated under this section by paying to the educating district or intermediate district an amount equal to the lesser of the district’s or intermediate district’s added cost or the department’s approved per-pupil
allocation for the district or intermediate district. For the purposes of this subsection:

(a) “Added cost” means 100% of the added cost each fiscal year for educating all pupils assigned by a court or the department of health and human services to reside in or to attend a juvenile detention facility or child caring institution licensed by the department of health and human services or the department of licensing and regulatory affairs and approved by the department to provide an on-grounds education program. Added cost is computed by deducting all other revenue received under this article for pupils described in this section from total costs, as approved by the department, in whole or in part, for educating those pupils in the on-grounds education program or in a program approved by the department that is located on property adjacent to a juvenile detention facility or child caring institution. Costs reimbursed by federal funds are not included.

(b) “Department’s approved per-pupil allocation” for a district or intermediate district is determined by dividing the total amount allocated under this section for a fiscal year by the full-time equated membership total for all pupils approved by the department to be funded under this section for that fiscal year for the district or intermediate district.

(3) A district or intermediate district educating pupils described in this section at a residential child caring institution may operate, and receive funding under this section for, a department-approved on-grounds educational program for those pupils that is longer than 181 days, but not longer than 233 days, if the child caring institution was licensed as a child caring institution and offered in 1991-92 an on-grounds educational program that was longer than 181 days but not longer than 233 days and that was operated by a district or intermediate district.

(4) Special education pupils funded under section 53a are not funded under this section.

Sec. 24a. From the appropriation in section 11, there is allocated an amount not to exceed $1,355,700.00 for 2019-2020-2021-2021 for payments to intermediate districts for pupils who are placed in juvenile justice service facilities operated by the department of health and human services. The amount of the payment to each intermediate district is an amount equal to the state share of those costs that are clearly and directly attributable to the educational programs for pupils placed in facilities described in this section that are located within the intermediate district’s boundaries. The intermediate districts
receiving payments under this section shall cooperate with the department of health and
human services to ensure that all funding allocated under this section is utilized by the
intermediate district and department of health and human services for educational programs
for pupils described in this section. Pupils described in this section are not eligible to
be funded under section 24. However, a program responsibility or other fiscal
responsibility associated with these pupils must not be transferred from the department of
health and human services to a district or intermediate district unless the district or
intermediate district consents to the transfer.

Sec. 26a. From the funds appropriated in section 11, there is allocated an amount not
to exceed $14,000,000.00 for 2018–2019 and there is allocated an amount not to exceed
$15,300,000.00 for 2019–2020–2020–2021 to reimburse districts and intermediate districts
pursuant to section 12 of the Michigan renaissance zone act, 1996 PA 376, MCL 125.2692, for
taxes levied in 2018 and 2019, as applicable, 2020. The department shall pay the
allocations not later than 60 days after the department of treasury certifies to the
department and to the state budget director that the department of treasury has received
all necessary information to properly determine the amounts due to each eligible recipient.

Sec. 26b. (1) From the appropriation in section 11, there is allocated an amount not
to exceed $4,420,100.00 for 2018–2019 and there is allocated an amount not to exceed
$4,641,100.00 for 2019–2020–2020–2021 for payments to districts, intermediate districts,
and community college districts for the portion of the payment in lieu of taxes obligation
that is attributable to districts, intermediate districts, and community college districts
under section 2154 of the natural resources and environmental protection act, 1994 PA 451,
MCL 324.2154.

(2) If the amount appropriated under this section is not sufficient to fully pay
obligations under this section, payments are prorated on an equal basis among all eligible
districts, intermediate districts, and community college districts.

Sec. 26c. (1) From the appropriation in section 11, there is allocated an amount not
to exceed $3,400,000.00 for 2018–2019 and there is allocated an amount not to exceed
$8,400,000.00 for 2019–2020–2020–2021 to the promise zone fund created in
subsection (3). The funds allocated under this section reflect the amount of revenue from
the collection of the state education tax captured under section 17 of the Michigan promise
zone authority act, 2008 PA 549, MCL 390.1677.
(2) Funds allocated to the promise zone fund under this section must be used solely for payments to eligible districts and intermediate districts, in accordance with section 17 of the Michigan promise zone authority act, 2008 PA 549, MCL 390.1677, that have a promise zone development plan approved by the department of treasury under section 7 of the Michigan promise zone authority act, 2008 PA 549, MCL 390.1667. Eligible districts and intermediate districts shall use payments made under this section for reimbursement for qualified educational expenses as defined in section 3 of the Michigan promise zone authority act, 2008 PA 549, MCL 390.1663.

(3) The promise zone fund is created as a separate account within the state school aid fund to be used solely for the purposes of the Michigan promise zone authority act, 2008 PA 549, MCL 390.1661 to 390.1679. All of the following apply to the promise zone fund:

(a) The state treasurer shall direct the investment of the promise zone fund. The state treasurer shall credit to the promise zone fund interest and earnings from fund investments.

(b) Money in the promise zone fund at the close of a fiscal year remains in the promise zone fund and does not lapse to the general fund.

(4) Subject to subsection (2), the state treasurer may make payments from the promise zone fund to eligible districts and intermediate districts under the Michigan promise zone authority act, 2008 PA 549, MCL 390.1661 to 390.1679, to be used for the purposes of a promise zone authority created under that act.

(5) Notwithstanding section 17b, the department shall make payments under this section on a schedule determined by the department.

Sec. 28. (1) To recognize differentiated instructional costs for different types of pupils in 2019-2020, 2020-2021 the following sections provide a weighted foundation allocation or an additional payment of some type in the following amounts, as allocated under those sections:

(a) Section 22d, isolated and rural districts, $7,000,000.00.

(b) Section 31a, at risk, standard programming, $50,000,000.00 — $579,800,000.00.

$120,207,000.00.

(g) Section 61a, career and technical education, standard reimbursement, $37,611,300.00.

(h) Section 61d, career and technical education incentives, $10,000,000.00.

$5,000,000.00.

(2) The funding described in subsection (1) is not a separate allocation of any funding but is instead a listing of funding allocated in the sections listed in subsection (1).

Sec. 31a. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2019-2020-2020-2021 an amount not to exceed $535,150,000.00 for payments to eligible districts and eligible public school academies for the purposes of ensuring that pupils are proficient in English language arts by the end of grade 3, that pupils are proficient in mathematics by the end of grade 8, that pupils are attending school regularly, that high school graduates are career and college ready, and for the purposes under subsections (7) and (8).

(2) For a district that has combined state and local revenue per membership pupil under section 20 that is greater than the target foundation allowance under section 20 for the current fiscal year and that, for the immediately preceding fiscal year, had combined state and local revenue per membership pupil under section 20 that was greater than the basic foundation allowance under section 20 that was in effect for the 2018-2019 fiscal year, the allocation under this section is an amount equal to 30% of the allocation for which it would otherwise be eligible under this section before any proration under subsection (14). It is intended that this percentage be increased annually until it reaches 100%. If a district has combined state and local revenue per membership pupil under section 20 that is greater than the target foundation allowance under section 20 for the current fiscal year, but for the immediately preceding 2018-2019 fiscal year had combined state and local revenue per membership pupil under section 20 that was less than the basic foundation allowance under section 20 that was in effect for the 2018-2019 fiscal year, the district shall receive an amount per pupil equal to 11.5% of the statewide weighted average foundation allowance, as applied under
subsection (4), and before any proration under subsection (14).

(3) For a district or public school academy to be eligible to receive funding under this section, other than funding under subsection (7) or (8), the district or public school academy, for grades K to 12, shall comply with the requirements under section 1280f of the revised school code, MCL 380.1280f, and shall use resources to address early literacy and numeracy, and for at least grades K to 12 or, if the district or public school academy does not operate all of grades K to 12, for all of the grades it operates, must implement a multi-tiered system of supports that is an evidence based framework that uses data driven problem solving to integrate academic and behavioral instruction and that uses intervention delivered to all pupils in varying intensities based on pupil needs. The multi-tiered system of supports described in this subsection must provide at least all of the following essential components:

(a) Team-based leadership.
(b) A tiered delivery system.
(c) Selection and implementation of instruction, interventions, and supports.
(d) A comprehensive screening and assessment system.
(e) Continuous data-based decision making.

(4) From the funds allocated under subsection (1), there is allocated for 2019-2020 an amount not to exceed $510,000,000.00 to continue a weighted foundation per pupil payment for districts and public school academies enrolling economically disadvantaged pupils. The department shall pay under this section to each eligible district or eligible public school academy an amount per pupil equal to 11.5% of the statewide weighted average foundation allowance for the following, as applicable:

(a) Except as otherwise provided under subdivision (b) or (c), the greater of the following:

(i) The number of membership pupils in the district or public school academy who are determined to be economically disadvantaged, as reported to the center in the form and manner prescribed by the center not later than the fifth Wednesday after the pupil membership count day of the immediately preceding fiscal year.

(ii) If the district or public school academy is in the community eligibility program, the number of pupils determined to be eligible based on the product of the identified student percentage multiplied by the total number of membership pupils in the
district or public school academy, as reported to the center in the form and manner prescribed by the center not later than the fifth Wednesday after the pupil membership count day of the immediately preceding fiscal year. These calculations shall be made at the building level. This subparagraph only applies to an eligible district or eligible public school academy for the fiscal year immediately following the first fiscal year in which it is in the community eligibility program. As used in this subparagraph, “identified student percentage” means the quotient of the number of membership pupils in an eligible district or eligible public school academy who are determined to be economically disadvantaged, as reported to the center in a form and manner prescribed by the center, not later than the fifth Wednesday after the pupil membership count day in the fiscal year preceding the first fiscal year in which the eligible district or eligible public school academy is in the community eligibility program, divided by the total number of pupils counted in membership in an eligible district or eligible public school academy on the pupil membership count day in the fiscal year preceding the first fiscal year in which the eligible district or eligible public school academy is in the community eligibility program.

(b) If the district or public school academy began operations as a district or public school academy after the pupil membership count day of the immediately preceding school year, the number of membership pupils in the district or public school academy who are determined to be economically disadvantaged, as reported to the center in the form and manner prescribed by the center not later than the fifth Wednesday after the pupil membership count day of the current fiscal year.

(c) If the district or public school academy began operations as a district or public school academy after the pupil membership count day of the current fiscal year, the number of membership pupils in the district or public school academy who are determined to be economically disadvantaged, as reported to the center in the form and manner prescribed by the center not later than the fifth Wednesday after the supplemental count day of the current fiscal year.

(5) Except as otherwise provided in this section, a district or public school academy receiving funding under this section shall use that money only to provide instructional programs and direct noninstructional services, including, but not limited to, medical, mental health, or counseling services, for at-risk pupils; for school health clinics; and for the purposes of subsection (6), (7), or (8). In addition, a district that is a school
district of the first class or a district or public school academy in which at least 50% of
the pupils in membership were determined to be economically disadvantaged in the
immediately preceding state fiscal year, as determined and reported as described in
subsection (4), may use not more than 20% of the funds it receives under this section for
school security that aligns to the needs assessment and the multi-tiered system of supports
model. A district or public school academy shall not use any of that money for
administrative costs. The instruction or direct noninstructional services provided under
this section may be conducted before or after regular school hours or by adding extra
school days to the school year.

(6) A district or public school academy that receives funds under this section and
that operates a school breakfast program under section 1272a of the revised school code,
MCL 380.1272a, shall use from the funds received under this section an amount, not to
exceed $10.00 per pupil for whom the district or public school academy receives funds under
this section, necessary to pay for costs associated with the operation of the school
breakfast program.

(7) From the funds allocated under subsection (1), there is allocated for 2019-2020
2020-2021 an amount not to exceed $8,000,000.00 to support primary health care services
provided to children and adolescents up to age 21. These funds must be expended in a form
and manner determined jointly by the department and the department of health and human
services. If any funds allocated under this subsection are not used for the purposes of
this subsection for the fiscal year in which they are allocated, those unused funds must be
used that fiscal year to avoid or minimize any proration that would otherwise be required
under subsection (14) for that fiscal year.

(8) From the funds allocated under subsection (1), there is allocated for 2019-2020
2020-2021 an amount not to exceed $5,150,000.00 for the state portion of the hearing and
vision screenings as described in section 9301 of the public health code, 1978 PA 368, MCL
333.9301. A local public health department shall pay at least 50% of the total cost of the
screenings. The frequency of the screenings must be as required under R 325.13091 to R
325.13096 and R 325.3271 to R 325.3276 of the Michigan Administrative Code. Funds must be
awarded in a form and manner approved jointly by the department and the department of
health and human services. Notwithstanding section 17b, the department shall make payments
to eligible entities under this subsection on a schedule determined by the department.
(9) Each district or public school academy receiving funds under this section shall submit to the department by July 15 of each fiscal year a report, in the form and manner prescribed by the department, that includes a brief description of each program conducted or services performed by the district or public school academy using funds under this section, the amount of funds under this section allocated to each of those programs or services, the total number of at risk pupils served by each of those programs or services, and the data necessary for the department and the department of health and human services to verify matching funds for the temporary assistance for needy families program. In prescribing the form and manner of the report, the department shall ensure that districts are allowed to expend funds received under this section on any activities that are permissible under this section. If a district or public school academy does not comply with this subsection, the department shall withhold an amount equal to the August payment due under this section until the district or public school academy complies with this subsection. If the district or public school academy does not comply with this subsection by the end of the fiscal year, the withheld funds are forfeited to the school aid fund.

(10) In order to receive funds under this section, a district or public school academy shall allow access for the department or the department’s designee to audit all records related to the program for which it receives those funds. The district or public school academy shall reimburse the state for all disallowances found in the audit.

(11) Subject to subsections (6), (7), and (8), for schools in which more than 40% of pupils are identified as at-risk, a district or public school academy may use the funds it receives under this section to implement tier 1, evidence-based practices in schoolwide reforms that are guided by the district’s comprehensive needs assessment and are included in the district improvement plan. Schoolwide reforms must include parent and community supports, activities, and services, that may include the pathways to potential program created by the department of health and human services or the communities in schools program. As used in this subsection, “tier 1, evidence-based practices” means research based instruction and classroom interventions that are available to all learners and effectively meet the needs of most pupils.

(12) A district or public school academy that receives funds under this section may use up to 7.5% of those funds to provide research based professional development and to implement a coaching model that supports the multi-tiered system of supports framework.
Professional development may be provided to district and school leadership and teachers and
must be aligned to professional learning standards; integrated into district, school
building, and classroom practices; and solely related to the following:

(a) Implementing the multi-tiered system of supports required in subsection (3) with
fidelity and utilizing the data from that system to inform curriculum and instruction.

(b) Implementing section 1280f of the revised school code, MCL 380.1280f, as required
under subsection (3), with fidelity.

(13) A district or public school academy that receives funds under this section may
use funds received under this section to support instructional or behavioral coaches. Funds
used for this purpose are not subject to the cap under subsection (12).

(14) If necessary, and before any proration required under section 296, the
department shall prorate payments under this section, except payments under subsection (7),
(8), or (16), by reducing the amount of the allocation as otherwise calculated under this
section by an equal percentage per district.

(15) If a district is dissolved pursuant to section 12 of the revised school code,
MCL 380.12, the intermediate district to which the dissolved school district was
constituent shall determine the estimated number of pupils that are economically
disadvantaged and that are enrolled in each of the other districts within the intermediate
district and provide that estimate to the department for the purposes of distributing funds
under this section within 60 days after the school district is declared dissolved.

(16) From the funds allocated under subsection (4), there is allocated for 2019-
2020 an amount not to exceed $12,000,000.00 2021-2021 the amount necessary, estimated at
$2,200,000.00, for payments to districts and public school academies that otherwise
received an allocation under this subsection for 2018-2019-2019-2020 and whose allocation
under this section for 2018-2019, 2019-2020, excluding any payments under subsection (7) or
(8), would have been more than the district’s or public school academy’s allocation under
this section for 2019-2020-2020-2021 as calculated under subsection (4) only and as
adjusted under subsection (14). The allocation for each district or public school academy
under this subsection is an amount equal to its allocation under this section for 2019-2020
minus its allocation as otherwise calculated under subsection (4) for 2019-2020,
2020-2021, as adjusted by subsection (14), using in those calculations the 2017-2018-2018-
2019 number of pupils determined to be economically disadvantaged. However, if the
allocation as otherwise calculated under this subsection would have been less than $0.00, the allocation under this subsection is $0.00. If necessary, and before any proration required under section 296, the department shall prorate payments under this subsection by reducing the amount of the allocation as otherwise calculated under this subsection by an equal percentage per district or public school academy.

(17) A district or public school academy that receives funds under this section may use funds received under this section to provide an anti-bullying or crisis intervention program.

(18) The department shall collaborate with the department of health and human services to prioritize assigning Pathways to Potential Success coaches to elementary schools that have a high percentage of pupils in grades K to 3 who are not proficient in English language arts, based upon state assessments for pupils in those grades.

(19) As used in this section:

(a) “At-risk pupil” means a pupil in grades K to 12 for whom the district has documentation that the pupil meets any of the following criteria:

(i) The pupil is economically disadvantaged.

(ii) The pupil is an English language learner.

(iii) The pupil is chronically absent as defined by and reported to the center.

(iv) The pupil is a victim of child abuse or neglect.

(v) The pupil is a pregnant teenager or teenage parent.

(vi) The pupil has a family history of school failure, incarceration, or substance abuse.

(vii) The pupil is an immigrant who has immigrated within the immediately preceding 3 years.

(viii) The pupil did not complete high school in 4 years and is still continuing in school as identified in the Michigan cohort graduation and dropout report.

(ix) For pupils for whom the results of the state summative assessment have been received, is a pupil who did not achieve proficiency on the English language arts, mathematics, science, or social studies content area assessment.

(x) Is a pupil who is at risk of not meeting the district’s or public school academy’s core academic curricular objectives in English language arts or mathematics, as demonstrated on local assessments.
(b) “Economically disadvantaged” means a pupil who has been determined eligible for free or reduced-price meals as determined under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769j; who is in a household receiving supplemental nutrition assistance program or temporary assistance for needy families assistance; or who is homeless, migrant, or in foster care, as reported to the center.

(c) “English language learner” means limited English proficient pupils who speak a language other than English as their primary language and have difficulty speaking, reading, writing, or understanding English as reported to the center.

(d) “Statewide weighted average foundation allowance” means the number that is calculated by adding together the result of each district’s or public school academy’s foundation allowance, not to exceed the target foundation allowance for the current fiscal year, or per-pupil payment calculated under section sections 20 and 20m multiplied by the number of pupils in membership in that district or public school academy, and then dividing that total by the statewide number of pupils in membership.

Sec. 31d. (1) From the appropriations in section 11, there is allocated an amount not to exceed $23,144,000.00 for 2019-2020-2021 for the purpose of making payments to districts and other eligible entities under this section.

(2) The amounts allocated from state sources under this section are used to pay the amount necessary to reimburse districts for 6.0127% of the necessary costs of the state mandated portion of the school lunch programs provided by those districts. The department shall calculate the amount due to each district under this section using the methods of calculation adopted by the Michigan supreme court in the consolidated cases known as Durant v State of Michigan, 456 Mich 175 (1997).

(3) The payments made under this section include all state payments made to districts so that each district receives at least 6.0127% of the necessary costs of operating the state mandated portion of the school lunch program in a fiscal year.

(4) The payments made under this section to districts and other eligible entities that are not required under section 1272a of the revised school code, MCL 380.1272a, to provide a school lunch program must be in an amount not to exceed $10.00 per eligible pupil plus 5 cents for each free lunch and 2 cents for each reduced price lunch provided, as determined by the department.

(5) From the federal funds appropriated in section 11, there is allocated for 2019–
2020-2020-2021 all available federal funding, estimated at $533,000,000.00-$545,000,000.00 for the national school lunch program child nutrition programs and all available federal funding, estimated at $4,200,000.00-$5,000,000.00 for the emergency food assistance program food distribution programs.

(6) Notwithstanding section 17b, the department shall make payments to eligible entities other than districts under this section on a schedule determined by the department.

(7) In purchasing food for a school lunch program funded under this section, a district or other eligible entity shall give preference to food that is grown or produced by Michigan businesses if it is competitively priced and of comparable quality.

(12) The department shall compile the reports provided by prosperity region offices districts under subsection (11) into 1 legislative report. The department shall provide this report not later than April 1, 2021 to the house and senate subcommittees responsible for school aid, the house and senate fiscal agencies, and the state budget director.

(4) If the amount paid to districts under subsection (3) is less than the amount allocated under subsection (1), the department may distribute remaining funds to eligible districts through a second application in an amount necessary to reimburse districts for the cost of forgiving all outstanding student-meal debt, subject to subsection (7).
Applications for funding under this subsection are due to the department by May 1, 2021. The department must make reimbursement payments to all eligible districts within 60 days of the application deadline. A district receiving a reimbursement payment under subsection (3) is not eligible for a reimbursement payment under this subsection.

Sec. 3ln. (1) From the money appropriated in section 11, there is allocated for 2019-2020-2021 for the purposes of this section an amount not to exceed $30,000,000.00 and from the general fund money appropriated in section 11, there is allocated for 2019-2020-2021-2021 for the purposes of this section an amount not to exceed $1,300,000.00. The department and the department of health and human services shall continue a program to distribute this funding to add licensed behavioral health providers for general education pupils, and shall continue to seek federal Medicaid match funding for all eligible mental health and support services.

(2) The department and the department of health and human services shall maintain an
advisory council for programs funded under this section. The advisory council shall define
goals for implementation of programs funded under this section, and shall provide feedback
on that implementation. At a minimum, the advisory council shall consist of representatives
of state associations representing school health, school mental health, school counseling,
education, health care, and other organizations, representatives from the department and
the department of health and human services, and a representative from the school safety
task force created under Executive Order No. 2018-5. The department and department of
health and human services, working with the advisory council, shall determine an approach
to increase capacity for mental health and support services in schools for general
education pupils, and shall determine where that increase in capacity qualifies for federal
Medicaid match funding.

(3) The advisory council shall develop a fiduciary agent checklist for intermediate
districts to facilitate development of a plan to submit to the department and to the
department of health and human services. The department and department of health and human
services shall determine the requirements and format for intermediate districts to submit a
plan for possible funding under subsection (5). The department shall make applications for
funding for this program available to districts and intermediate districts not later than
December 1, 2019—2020, and shall award the funding not later than February 1, 2020.

(4) The department of health and human services shall seek to amend the state
Medicaid plan or obtain appropriate Medicaid waivers as necessary for the purpose of
generating additional Medicaid match funding for school mental health and support services
for general education pupils. The intent is that a successful state plan amendment or other
Medicaid match mechanisms will result in additional federal Medicaid match funding for both
the new funding allocated under this section and for any expenses already incurred by
districts and intermediate districts for mental health and support services for general
education pupils.

(5) From the funds allocated under subsection (1), there is allocated for 2019—2020
an amount not to exceed $6,500,000.00 to be distributed to the network of child
and adolescent health centers to place a licensed master’s level behavioral health provider
in schools that do not currently have services available to general education students.
Existing child and adolescent health centers receiving funding under this subsection shall
provide a commitment to maintain services and implement all available federal Medicaid
match methodologies. The department of health and human services shall use all existing or
additional federal Medicaid match opportunities to maximize funding allocated under this
subsection. The department shall provide funds under this subsection to existing child and
adolescent health centers in the same proportion that funding under section 31a(7) is
provided to child and adolescent health centers located and operating in those districts.

(6) From the funds allocated under subsection (1), there is allocated for 2019-2020
2020-2021 an amount not to exceed $23,000,000.00 to be distributed to intermediate
districts for the provision of mental health and support services to general education
students. From the funds allocated under this subsection, the department shall distribute
$410,700.00 to each intermediate district that submits a plan approved by the department
and the department of health and human services. The department and department of health
and human services shall work cooperatively in providing oversight and assistance to
intermediate districts during the plan submission process and shall monitor the program
upon implementation. An intermediate district shall use funds awarded under this subsection
to provide funding to its constituent districts, including public school academies that are
considered to be constituent districts under section 705(7) of the revised school code, MCL
380.705, for the provision of mental health and support services to general education
students. Intermediate districts may retain an amount not to exceed 5% of the grant award
to coordinate services and to improve or develop an integrated system of mental health and
support services. In addition to the criteria identified under subsection (7), an
intermediate district shall consider geography, cost, or other challenges when awarding
funding to its constituent districts. If funding awarded to an intermediate district
remains after funds are provided by the intermediate district to its constituent districts,
the intermediate district may hire or contract for experts to provide mental health and
support services to general education students residing within the boundaries of the
intermediate district.

(7) A district requesting funds under this section from the intermediate district in
which it is located shall submit an application for funding for the provision of mental
health and support services to general education pupils. A district receiving funding from
the application process described in this subsection shall provide services to nonpublic
students upon request. An intermediate district shall not discriminate against an
application submitted by a public school academy simply on the basis of the applicant being
a public school academy. The department shall approve grant applications based on the following criteria:

(a) The district’s commitment to maintain mental health and support services delivered by licensed providers into future fiscal years.

(b) The district’s commitment to work with its intermediate district to use funding it receives under this section that is spent by the district for general education pupils toward participation in federal Medicaid match methodologies. A district must provide a local match of at least 20% of the funding allocated to the district under section 3ln.

(c) The district’s commitment to adhere to any local funding requirements determined by the department and the department of health and human services.

(d) The extent of the district’s existing partnerships with community health care providers or the ability of the district to establish such partnerships.

(e) The district’s documentation of need, including gaps in current mental health and support services for the general education population.

(f) The district’s submission of a formal plan of action identifying the number of schools and students to be served.

(g) Whether the district will participate in ongoing trainings.

(h) Whether the district will submit an annual report to the state.

(i) Whether the district demonstrates a willingness to work with the state to establish program and service delivery benchmarks.

(j) Whether the district has developed a school safety plan or is in the process of developing a school safety plan.

(k) Any other requirements determined by the department or the department of health and human services.

(8) Funding under this section, including any federal Medicaid funds that are generated, must not be used to supplant existing services.

(9) Both of the following are allocated for 2019-2020-2020-2021 to the department of health and human services from the general fund money allocated under subsection (1):

(a) An amount not to exceed $1,000,000.00 for the purpose of upgrading technology and systems infrastructure and other administrative requirements to support the programs funded under this section.

(b) An amount not to exceed $300,000.00 for the purpose of administering the programs
under this section and working on generating additional Medicaid funds as a result of
programs funded under this section.

(10) From the funds allocated under subsection (1), there is allocated for 2019-2020
2020-2021 an amount not to exceed $500,000.00 to intermediate districts on an equal per
intermediate district basis for the purpose of administering programs funded under this
section.

(11) The department and the department of health and human services shall work with
the advisory council to develop proposed measurements of outcomes and performance. Those
measurements shall include, at a minimum, the number of pupils served, the number of
schools served, and where those pupils and schools were located. The department and the
department of health and human services shall compile data necessary to measure outcomes
and performance, and districts and intermediate districts receiving funding under this
section shall provide data requested by the department and department of health and human
services for the measurement of outcomes and performance. The department and department of
health and human services shall provide a annual report not later than December 1, 2019
and by December 1 annually thereafter of each year to the house and senate appropriations
subcommittees on school aid and health and human services, and to the house and senate
fiscal agencies, and to the state budget director. At a minimum, the report must include
measurements of outcomes and performance, proposals to increase efficacy and usefulness,
proposals to increase performance, and proposals to expand coverage.

(12) For 2018-2019, 2019-2020, and 2020-2021 only, an intermediate that receives
funding under this section may carry over any unexpended funds received under this section
for up to two fiscal years beyond the fiscal year in which the funds were allocated.

Sec. 32d. (1) From the funds appropriated in section 11, there is allocated to
eligible intermediate districts and consortia of intermediate districts for great start
readiness programs an amount not to exceed $240,000,000.00-$285,100,000.00 for 2019-2020.
2020-2021. An intermediate district or consortium shall use funds allocated under this
section for great start readiness programs to provide part-day, school-day, or GSRP/Head
Start blended comprehensive free compensatory classroom programs designed to improve the
readiness and subsequent achievement of educationally disadvantaged children who meet the
participant eligibility and prioritization guidelines as defined by the department. For a
child to be eligible to participate in a program under this section, the child must be at
least 4, but less than 5, years of age as of September 1 of the school year in which the program is offered and must meet those eligibility and prioritization guidelines. A child who is not 4 years of age as of September 1, but who will be 4 years of age not later than December 1, is eligible to participate if the child’s parent or legal guardian seeks a waiver from the September 1 eligibility date by submitting a request for enrollment in a program to the responsible intermediate district, if the program has capacity on or after September 1 of the school year, and if the child meets eligibility and prioritization guidelines.

(2) From the funds allocated under subsection (1), an amount not to exceed $247,600,000.00 - $283,100,000.00 is allocated to intermediate districts or consortia of intermediate districts based on the formula in section 39. An intermediate district or consortium of intermediate districts receiving funding under this section shall act as the fiduciary for the great start readiness programs. In order to be eligible to receive funds allocated under this subsection from an intermediate district or consortium of intermediate districts, a district, a consortium of districts, or a public or private for-profit or nonprofit legal entity or agency shall comply with this section and section 39.

(3) In addition to the allocation under subsection (1), from the general fund money appropriated under section 11, there is allocated an amount not to exceed $350,000.00 for 2019-2020-2020-2021 for a competitive grant to continue a longitudinal evaluation of children who have participated in great start readiness programs. This evaluation must include a comparative analysis of the relationship between great start readiness programs and performance on the kindergarten readiness assessment funded under section 104. The evaluation must use children wait-listed under this section for comparison, must include a determination of the specific great start readiness program in which the kindergarten students were enrolled and attended in the previous school year, and must analyze Michigan kindergarten entry observation tool scores for students taking the Michigan kindergarten entry observation tool each year and produce a report as required under section 104. For 2019-2020, the performance data on the kindergarten readiness assessment must be submitted to the center at the same time as the spring Michigan student data system collection. Beginning in 2020-2021, the performance data on the kindergarten readiness assessment must be submitted to the center at the same time as the fall Michigan student data system collection. The responsibility for the analysis required under this subsection may be added
to the requirements that the department currently has with its competitively designated
current grantee.

(4) To be eligible for funding under this section, a program must prepare children
for success in school through comprehensive part-day, school-day, or GSRP/Head Start
blended programs that contain all of the following program components, as determined by the
department:

(a) Participation in a collaborative recruitment and enrollment process to assure
that each child is enrolled in the program most appropriate to his or her needs and to
maximize the use of federal, state, and local funds.

(b) An age-appropriate educational curriculum that is in compliance with the early
childhood standards of quality for prekindergarten children adopted by the state board,
including, at least, the Connect4Learning curriculum.

(c) Nutritional services for all program participants supported by federal, state,
and local resources as applicable.

(d) Physical and dental health and developmental screening services for all program
participants.

(e) Referral services for families of program participants to community social
service agencies, including mental health services, as appropriate.

(f) Active and continuous involvement of the parents or guardians of the program
participants.

(g) A plan to conduct and report annual great start readiness program evaluations and
continuous improvement plans using criteria approved by the department.

(h) Participation in a school readiness advisory committee convened as a workgroup of
the great start collaborative that provides for the involvement of classroom teachers,
parents or guardians of program participants, and community, volunteer, and social service
agencies and organizations, as appropriate. The advisory committee annually shall review
and make recommendations regarding the program components listed in this subsection. The
advisory committee also shall make recommendations to the great start collaborative
regarding other community services designed to improve all children’s school readiness.

(i) The ongoing articulation of the kindergarten and first grade programs offered by
the program provider.

(j) Participation in this state’s great start to quality process with a rating of at
least 3 stars.

(5) An application for funding under this section must provide for the following, in a form and manner determined by the department:

(a) Ensure compliance with all program components described in subsection (4).

(b) Except as otherwise provided in this subdivision, ensure that at least 90% of the children participating in an eligible great start readiness program for whom the intermediate district is receiving funds under this section are children who live with families with a household income that is equal to or less than 250% of the federal poverty guidelines. If the intermediate district determines that all eligible children are being served and that there are no children on the waiting list who live with families with a household income that is equal to or less than 250% of the federal poverty guidelines, the intermediate district may then enroll children who live with families with a household income that is equal to or less than 300% of the federal poverty guidelines. The enrollment process must consider income and risk factors, such that children determined with higher need are enrolled before children with lesser need. For purposes of this subdivision, all age-eligible children served in foster care or who are experiencing homelessness or who have individualized education programs recommending placement in an inclusive preschool setting are considered to live with families with household income equal to or less than 250% of the federal poverty guidelines regardless of actual family income and are prioritized for enrollment within the lowest quintile.

(c) Ensure that the applicant only uses qualified personnel for this program, as follows:

(i) Teachers possessing proper training. A lead teacher must have a valid teaching certificate with an early childhood (ZA or ZS) endorsement or a bachelor’s or higher degree in child development or early childhood education with specialization in preschool teaching. However, if an applicant demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, teachers who have significant but incomplete training in early childhood education or child development may be used if the applicant provides to the department, and the department approves, a plan for each teacher to come into compliance with the standards in this subparagraph. A teacher’s compliance plan must be completed within 2 years of the date of employment. Progress toward completion of the compliance plan consists of at least 2 courses per
calendar year.

(ii) Paraprofessionals possessing proper training in early childhood education, including an associate’s degree in early childhood education or child development or the equivalent, or a child development associate (CDA) credential. However, if an applicant demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, the applicant may use paraprofessionals who have completed at least 1 course that earns college credit in early childhood education or child development if the applicant provides to the department, and the department approves, a plan for each paraprofessional to come into compliance with the standards in this subparagraph. A paraprofessional’s compliance plan must be completed within 2 years of the date of employment. Progress toward completion of the compliance plan consists of at least 2 courses or 60 clock hours of training per calendar year.

(d) Include a program budget that contains only those costs that are not reimbursed or reimbursable by federal funding, that are clearly and directly attributable to the great start readiness program, and that would not be incurred if the program were not being offered. Eligible costs include transportation costs. The program budget must indicate the extent to which these funds will supplement other federal, state, local, or private funds. An applicant shall not use funds received under this section to supplant any federal funds received by the applicant to serve children eligible for a federally funded preschool program that has the capacity to serve those children.

(6) For a grant recipient that enrolls pupils in a school-day program funded under this section, each child enrolled in the school-day program is counted as described in section 39 for purposes of determining the amount of the grant award.

(7) For a grant recipient that enrolls pupils in a GSRP/Head Start blended program, the grant recipient shall ensure that all Head Start and GSRP policies and regulations are applied to the blended slots, with adherence to the highest standard from either program, to the extent allowable under federal law.

(8) An intermediate district or consortium of intermediate districts receiving a grant under this section shall designate an early childhood coordinator, and may provide services directly or may contract with 1 or more districts or public or private for-profit or nonprofit providers that meet all requirements of subsections (4) and (5).

(9) An intermediate district or consortium of intermediate districts may retain for
administrative services provided by the intermediate district or consortium of intermediate
districts an amount not to exceed 4% of the grant amount. Expenses incurred by
subrecipients engaged by the intermediate district or consortium of intermediate districts
for directly running portions of the program are considered program costs or a contracted
program fee for service.

(10) An intermediate district or consortium of intermediate districts may expend not
more than 2% of the total grant amount for outreach, recruiting, and public awareness of
the program.

(11) Each grant recipient shall enroll children identified under subsection (5)(b)
according to how far the child’s household income is below 250% of the federal poverty
guidelines by ranking each applicant child’s household income from lowest to highest and
dividing the applicant children into quintiles based on how far the child’s household
income is below 250% of the federal poverty guidelines, and then enrolling children in the
quintile with the lowest household income before enrolling children in the quintile with
the next lowest household income until slots are completely filled. If the grant recipient
determines that all eligible children are being served and that there are no children on
the waiting list who live with families with a household income that is equal to or less
than 250% of the federal poverty guidelines, the grant recipient may then enroll children
who live with families with a household income that is equal to or less than 300% of the
federal poverty guidelines. The enrollment process must consider income and risk factors,
such that children determined with higher need are enrolled before children with lesser
need. For purposes of this subsection, all age-eligible children served in foster care or
who are experiencing homelessness or who have individualized education programs
recommending placement in an inclusive preschool setting are considered to live with
families with household income equal to or less than 250% of the federal poverty guidelines
regardless of actual family income and are prioritized for enrollment within the lowest
quintile.

(12) An intermediate district or consortium of intermediate districts receiving a
grant under this section shall allow parents of eligible children who are residents of the
intermediate district or within the consortium to choose a program operated by or
contracted with another intermediate district or consortium of intermediate districts and
shall enter into a written agreement regarding payment, in a manner prescribed by the
An intermediate district or consortium of intermediate districts receiving a grant under this section shall conduct a local process to contract with interested and eligible public and private for-profit and nonprofit community-based providers that meet all requirements of subsection (4) for at least 30% of its total allocation. For the purposes of this 30% allocation, an intermediate district or consortium of intermediate districts may count children served by a Head Start grantee or delegate in a blended Head Start and great start readiness school-day program. Children served in a program funded only through Head Start are not counted toward this 30% allocation. The intermediate district or consortium shall report to the department, in a manner prescribed by the department, a detailed list of community-based providers by provider type, including private for-profit, private nonprofit, community college or university, Head Start grantee or delegate, and district or intermediate district, and the number and proportion of its total allocation allocated to each provider as subrecipient. If the intermediate district or consortium is not able to contract for at least 30% of its total allocation, the grant recipient shall notify the department and, if the department verifies that the intermediate district or consortium attempted to contract for at least 30% of its total allocation and was not able to do so, then the intermediate district or consortium may retain and use all of its allocation as provided under this section. To be able to use this exemption, the intermediate district or consortium shall demonstrate to the department that the intermediate district or consortium increased the percentage of its total allocation for which it contracts with a community-based provider and the intermediate district or consortium shall submit evidence satisfactory to the department, and the department must be able to verify this evidence, demonstrating that the intermediate district or consortium took measures to contract for at least 30% of its total allocation as required under this subsection, including, but not limited to, at least all of the following measures:

participating families a list of community-based great start readiness program
subrecipients with a great start to quality rating of at least 3 stars.

(14) If an intermediate district or consortium of intermediate districts receiving a
grant under this section fails to submit satisfactory evidence to demonstrate its effort to
contract for at least 30% of its total allocation, as required under subsection (13), the
department shall reduce the allocation to the intermediate district or consortium by a
percentage equal to the difference between the percentage of an intermediate district’s or
consortium’s total allocation awarded to community-based providers and 30% of its total
allocation.

(15) In order to assist intermediate districts and consortia in complying with the
requirement to contract with community-based providers for at least 30% of their total
allocation, the department shall do all of the following:

(a) Ensure that a great start resource center or the department provides each
intermediate district or consortium receiving a grant under this section with the contact
information for each licensed child care center located in the service area of the
intermediate district or consortium by March 1 of each year.

(b) Provide, or ensure that an organization with which the department contracts
provides, a community-based provider with a validated great start to quality rating within
90 days of the provider’s having submitted a request and self-assessment.

(c) Ensure that all intermediate district, district, community college or university,
Head Start grantee or delegate, private for-profit, and private nonprofit providers are
subject to a single great start to quality rating system. The rating system must ensure
that regulators process all prospective providers at the same pace on a first-come, first-
served basis and must not allow 1 type of provider to receive a great start to quality
rating ahead of any other type of provider.

(d) Not later than December 1 of each year, compile the results of the information
reported by each intermediate district or consortium under subsection (13) and report to
the legislature a list by intermediate district or consortium with the number and
percentage of each intermediate district’s or consortium’s total allocation allocated to
community-based providers by provider type, including private for-profit, private nonprofit, community college or university, Head Start grantee or delegate, and district or intermediate district.

(16) A recipient of funds under this section shall report to the center in a form and manner prescribed by the center the information necessary to derive the number of children participating in the program who meet the program eligibility criteria under subsection (5)(b), the number of eligible children not participating in the program and on a waitlist, and the total number of children participating in the program by various demographic groups and eligibility factors necessary to analyze equitable and priority access to services for the purposes of subsection (3).

(17) As used in this section:
(a) “GSRP/Head Start blended program” means a part-day program funded under this section and a Head Start program, which are combined for a school-day program.
(b) “Federal poverty guidelines” means the guidelines published annually in the Federal Register by the United States Department of Health and Human Services under its authority to revise the poverty line under 42 USC 9902.

A classroom that offers a school-day program must enroll all children for the school day to be considered a school-day program.

(18) An intermediate district or consortium of intermediate districts receiving funds under this section shall establish and charge tuition according to a sliding scale of tuition rates based upon household income for children participating in an eligible great start readiness program who live with families with a household income that is more than 250% of the federal poverty guidelines to be used by all of its providers, as approved by the department.

(19) From the amount allocated in subsection (2), there is allocated for 2019-2020 an amount not to exceed $10,000,000.00 for reimbursement of transportation costs for children attending great start readiness programs funded under this section. To receive
reimbursement under this subsection, not later than November 1, of each year, a program
funded under this section that provides transportation shall submit to the intermediate
district that is the fiscal agent for the program a projected transportation budget. The
amount of the reimbursement for transportation under this subsection is no more than the
projected transportation budget or $300.00 multiplied by the number of children funded for
the program under this section. If the amount allocated under this subsection is
insufficient to fully reimburse the transportation costs for all programs that provide
transportation and submit the required information, the department shall prorate the
reimbursement in an equal amount per child funded. The department shall make payments to
the intermediate district that is the fiscal agent for each program, and the intermediate
district shall then reimburse the program provider for transportation costs as prescribed
under this subsection.

(20) Subject to, and from the funds allocated under, subsection (19), the department
shall reimburse a program for transportation costs related to parent- or guardian-

including, but not limited to, receipts and mileage reports, as determined by the
department.

   (c) Any other documentation or information determined necessary by the department.

(21) The department shall implement a process to review and approve age-appropriate
comprehensive classroom level quality assessments for GSRP grantees that support the early
childhood standards of quality for prekindergarten children adopted by the state board. The
department shall make available to intermediate districts at least 2 classroom level
quality assessments that were approved in 2018.

(22) An intermediate district that is a GSRP grantee may approve the use of a
supplemental curriculum that aligns with and enhances the age-appropriate educational
curriculum in the classroom. If the department objects to the use of a supplemental curriculum approved by an intermediate district, the superintendent shall establish a review committee independent of the department. The review committee shall meet within 60 days of the department registering its objection in writing and provide a final determination on the validity of the objection within 60 days of the review committee’s first meeting.

(23) The department shall implement a process to evaluate and approve age-appropriate educational curricula that are in compliance with the early childhood standards of quality for prekindergarten children adopted by the state board.

(24) From the funds allocated under subsection (1), there is allocated for 2019-2020 an amount not to exceed $2,000,000.00 for payments to intermediate districts or consortia of intermediate districts for professional development and training materials for educators in programs implementing new curricula.

(25) A Great Start Readiness Program or a GSRP/Head Start blended program funded under this section is permitted to utilize AmeriCorps Pre-K Reading Corps members in classrooms implementing research-based early literacy intervention strategies.

Sec. 32p. (1) From the appropriation in section 11, there is allocated an amount not to exceed $13,400,000.00 to intermediate districts for 2019-2020-2020-2021 for the purpose of providing early childhood funding to intermediate school districts to support the activities, goals and outcomes under subsection (2) and subsection (4), and to provide early childhood programs for children from birth through age 8. The funding provided to each intermediate district under this section is determined by the distribution formula established by the department’s office of great start to provide equitable funding statewide. In order to receive funding under this section, each intermediate district shall provide an application to the office of great start not later than September 15 of the immediately preceding fiscal year indicating the activities, strategies planned to be provided.

(2) Each intermediate district or consortium of intermediate districts that receives funding under this section shall convene a local great start collaborative and a parent coalition. (b) Children healthy, thriving, and developmentally on track from birth to third grade.
(c) Children developmentally ready to succeed in school at the time of school entry.
(d) Children prepared to succeed in fourth grade and beyond by reading proficiently by the end of third grade.

The home visits must be conducted as part of a locally coordinated, family-centered, evidence-based, data-driven home visit strategic plan that is approved by the department. The goals of the home visits funded under this subsection are to improve school readiness using evidence-based methods, including a focus on developmentally appropriate outcomes for early literacy, to reduce the number of pupils retained in grade level, to reduce the number of pupils requiring special education services, to improve positive parenting practices, and to improve family economic self-sufficiency while reducing the impact of high-risk factors through community resources and referrals. The department shall coordinate the goals of the home visit strategic plans approved under this subsection with other state agency home visit programs in a way that strengthens Michigan’s home visiting infrastructure and maximizes federal funds available for the purposes of at-risk family home visits. The coordination among departments and agencies is intended to avoid duplication of state services and spending, and should emphasize efficient service delivery of home visiting programs.
(5) Not later than December 1 of each year, each intermediate district shall provide a report to the department detailing the activities strategies actually provided implemented during the immediately preceding school year and the families and children actually served. At a minimum, the report must include an evaluation of the services provided with additional funding under subsection (4) for home visits, using the goals identified in subsection (4) as the basis for the evaluation, including the degree to which school readiness was improved, any change in the number of pupils retained at grade level, any change in the number of pupils receiving special education services, the degree to which positive parenting practices were improved, the degree to which there was improved family economic self-sufficiency, and the degree to which community resources and referrals were utilized. This program is intended to improve kindergarten readiness and subsequent academic achievement for educationally disadvantaged children.

(2) To be eligible to receive funding under this section, an intermediate district must contain at least 1 district that is either a member of a community engagement advisory committee in partnership with the department of treasury or that meets all of the

(2) A district that receives funds under subsection (5) may spend up to 5% of those
funds for professional development for educators in a department-approved research-based
training program related to current state literacy standards for pupils in grades K to 3.
The professional development must also include training in the use of screening and
diagnostic tools, progress monitoring, and intervention methods used to address barriers to
learning and delays in learning that are diagnosed through the use of these tools. (3) A
district that receives funds under subsection (5) may use up to 5% of those funds to
administer department-approved screening and diagnostic tools to monitor the development of
eyear literacy and early reading skills of pupils in grades K to 3 and to support research-
based professional development for educators in administering screening and diagnostic
tools and in data interpretation of the results obtained through the use of those tools for
the purpose of implementing a multi-tiered system of support to improve reading proficiency

application must include all of the following:

(a) The estimated total number of children in the community who meet the criteria of section 32d, as provided to the applicant by the department utilizing the most recent population data available from the American Community Survey conducted by the United States Census Bureau. The department shall ensure that it provides updated American Community Survey population data at least once every 3 years.

(b) The estimated number of children in the community who meet the criteria of section 32d and are being served exclusively by Head Start programs operating in the community.

(c) The number of children whom the applicant has the capacity to serve who meet the criteria of section 32d including a verification of physical facility and staff resources capacity.

(2) After notification of funding allocations, an applicant receiving funds under section 32d shall also submit an implementation plan for approval, in a form and manner prescribed by the department, by a date specified by the department, that details how the applicant complies with the program components established by the department pursuant to section 32d.

(3) The initial allocation to each eligible applicant under section 32d is the lesser of the following:

(a) The sum of the number of children served in a school-day program in the preceding school year multiplied by $7,250.00 - $8,336.00 and the number of children served in a GSRP/Head Start blended program or a part-day program in the preceding school year multiplied by $3,625.00 - $4,168.00

(b) The sum of the number of children the applicant has the capacity to serve in the current school year in a school-day program multiplied by $7,250.00 - $8,336.00 and the number of children served in a GSRP/Head Start blended program or a part-day program the applicant has the capacity to serve in the current school year multiplied by $3,625.00 - $4,168.00

(4) If funds remain after the allocations under subsection (3), the department shall distribute the remaining funds to each intermediate district or consortium of intermediate districts that serves less than the state percentage benchmark determined under subsection (5). The department shall distribute these remaining funds to each eligible applicant based
upon each applicant’s proportionate share of the remaining unserved children necessary to
meet the statewide percentage benchmark in intermediate districts or consortia of
intermediate districts serving less than the statewide percentage benchmark. When all
applicants have been given the opportunity to reach the statewide percentage benchmark, the
statewide percentage benchmark may be reset, as determined by the department, until greater
equity of opportunity to serve eligible children across all intermediate school districts
has been achieved.

(5) For the purposes of subsection (4), the department shall calculate a percentage
of children served by each intermediate district or consortium of intermediate districts by
dividing the number of children served in the immediately preceding year by that
intermediate district or consortium by the total number of children within the intermediate
district or consortium of intermediate districts who meet the criteria of section 32d as
determined by the department utilizing the most recent population data available from the
American Community Survey conducted by the United States Census Bureau. The department
shall compare the resulting percentage of eligible children served to a statewide
percentage benchmark to determine if the intermediate district or consortium is eligible
for additional funds under subsection (4). The statewide percentage benchmark is 60%.

(6) If, taking into account the total amount to be allocated to the applicant as
calculated under this section, an applicant determines that it is able to include
additional eligible children in the great start readiness program without additional funds
under section 32d, the applicant may include additional eligible children but does not
receive additional funding under section 32d for those children.

(7) The department shall review the program components under section 32d and under
this section at least biennially. The department also shall convene a committee of internal
and external stakeholders at least once every 5 years to ensure that the funding structure
under this section reflects current system needs under section 32d.

(8) As used in this section, “school-day program”, “GSRP/Head Start blended program”,
and “part-day program” mean those terms as defined in section 32d.

Sec. 41. (1) For a district or public school academy to be eligible to receive funding under this section, the district or public school academy must administer to English language learners the English language proficiency assessment known as the “WIDA ACCESS for English language learners” or the “WIDA Alternate ACCESS”. From the appropriation in section 11, there is allocated an amount not to exceed $13,000,000.00 for 2019-2020-2020-2021 for payments to eligible districts and eligible public school academies for services for English language learners who have been administered the WIDA ACCESS for English language learners.

(2) The department shall distribute funding allocated under subsection (1) to eligible districts and eligible public school academies based on the number of full-time equivalent English language learners as follows:

(a) $900.00 per full-time equivalent English language learner who has been assessed under the WIDA ACCESS for English language learners or the WIDA Alternate ACCESS with a WIDA ACCESS or WIDA Alternate ACCESS composite score between 1.0 and 1.9, or less, as applicable to each assessment.

(b) $620.00 per full-time equivalent English language learner who has been assessed under the WIDA ACCESS for English language learners or the WIDA Alternate ACCESS with a WIDA ACCESS or WIDA Alternate ACCESS composite score between 2.0 and 2.9, or less, as applicable to each assessment.

(c) $100.00 per full-time equivalent English language learner who has been assessed under the WIDA ACCESS for English language learners or the WIDA Alternate ACCESS with a WIDA ACCESS or WIDA Alternate ACCESS composite score between 3.0 and 3.9, or less, as
applicable to each assessment.

(3) If funds allocated under subsection (1) are insufficient to fully fund the payments as prescribed under subsection (2), the department shall prorate payments on an equal percentage basis, with the same percentage proration applied to all funding categories.

(4) Each district or public school academy receiving funds under subsection (1) shall submit to the department by July 15 of each fiscal year a report, not to exceed 10 pages, on the usage by the district or public school academy of funds under subsection (1) in a form and manner determined by the department, including a brief description of each program conducted or services performed by the district or public school academy using funds under subsection (1) and the amount of funds under subsection (1) allocated to each of those programs or services. If a district or public school academy does not comply with this subsection, the department shall withhold an amount equal to the August payment due under this section until the district or public school academy complies with this subsection. If the district or public school academy does not comply with this subsection by the end of the state fiscal year, the withheld funds are forfeited to the school aid fund.

(5) In order to receive funds under this subsection (1), a district or public school academy shall allow access for the department or the department’s designee to audit all records related to the program for which it receives those funds. The district or public school academy shall reimburse this state for all disallowances found in the audit.

(6) Beginning July 1, 2020, and every 3 years thereafter, the department shall review the per-pupil distribution under subsection (2), to ensure that funding levels are appropriate and make recommendations for adjustments to the members of the senate and house subcommittees on K-12 school aid appropriations.

(7) In addition to the funds allocated under subsection (1), from the appropriation in section 11, there is allocated for 2020-2021 an amount not to exceed $5,000,000.00 from the state school aid fund for additional payments to districts for educating English language arts learners. The department shall pay under this section to each district or public school academy an amount equal to $50.00 multiplied by the number of membership pupils in the district who are English language arts learners, as reported to the center in the form and manner prescribed by the center of the immediately preceding fiscal year. If the allocation under this subsection is insufficient to fully fund payments under this
subsection, the department shall prorate payments on an equal per-pupil basis.

Sec. 51a. (1) From the appropriation in section 11, there is allocated an amount not
to exceed $1,088,996,100.00 for 2018-2019 and there is allocated an amount not to exceed
$1,045,196,100.00-$1,085,096,100.00 for 2019-2020-2020-2021 from state sources and all
available federal funding under sections 611 to 619 of part B of the individuals with
disabilities education act, 20 USC 1411 to 1419, estimated at $370,000,000.00 each fiscal
year for 2018-2019 and $375,000,000.00 for 2019-2020, 2020-2021, plus any carryover federal
funds from previous year appropriations. In addition, from the general fund appropriation
in section 11, there is allocated to the department an amount not to exceed $500,000.00 for
2018-2019 for the purpose of subsection (16). The allocations under this subsection are for
the purpose of reimbursing districts and intermediate districts for special education
programs, services, and special education personnel as prescribed in article 3 of the
revised school code, MCL 380.1701 to 380.1761; net tuition payments made by intermediate
districts to the Michigan Schools for the Deaf and Blind; and special education programs
and services for pupils who are eligible for special education programs and services
according to statute or rule. For meeting the costs of special education programs and
services not reimbursed under this article, a district or intermediate district may use
money in general funds or special education funds, not otherwise restricted, or
contributions from districts to intermediate districts, tuition payments, gifts and
contributions from individuals or other entities, or federal funds that may be available
for this purpose, as determined by the intermediate district plan prepared under article 3
of the revised school code, MCL 380.1701 to 380.1761. Notwithstanding section 17b, the
department shall make payments of federal funds to districts, intermediate districts, and
other eligible entities under this section on a schedule determined by the department.

(2) From the funds allocated under subsection (1), there is allocated the amount
necessary, estimated at $286,800,000.00 for 2018-2019 and estimated at $297,800,000.00
$308,000,000.00 for 2019-2020, 2020-2021, for payments toward reimbursing districts and
intermediate districts for 28.6138% of total approved costs of special education, excluding
costs reimbursed under section 53a, and 70.4165% of total approved costs of special
education transportation. Allocations under this subsection are made as follows:

(a) The department shall calculate the initial amount allocated to a district under
this subsection toward fulfilling the specified percentages by multiplying the district’s
special education pupil membership, excluding pupils described in subsection (11), times
the foundation allowance under section 20 of the pupil’s district of residence, plus the
amount of the district’s per-pupil allocation under section 20m, not to exceed the basic
foundation allowance under section 20 for the 2018-2019 fiscal year and beginning with
2019-2020 not to exceed the target foundation allowance for the current fiscal year, or,
for a special education pupil in membership in a district that is a public school academy,
times an amount equal to the amount per membership pupil calculated under section 20(6).
For an intermediate district, the amount allocated under this subdivision toward fulfilling
the specified percentages is an amount per special education membership pupil, excluding
pupils described in subsection (11), and is calculated in the same manner as for a
district, using the foundation allowance under section 20 of the pupil’s district of
residence, not to exceed the basic foundation allowance under section 20 for the 2018-2019
fiscal year and beginning with 2019-2020 not to exceed the target foundation allowance for
the current fiscal year, and that district’s per-pupil allocation under section 20m.
(b) After the allocations under subdivision (a), the department shall pay a district
or intermediate district for which the payments calculated under subdivision (a) do not
fulfill the specified percentages the amount necessary to achieve the specified percentages
for the district or intermediate district.
(3) From the funds allocated under subsection (1), there is allocated for 2018-2019
an amount not to exceed $1,200,000.00 and there is allocated for 2019-2020-2020-2021 an
amount not to exceed $1,000,000.00 to make payments to districts and intermediate districts
under this subsection. If the amount allocated to a district or intermediate district for a
fiscal year under subsection (2)(b) is less than the sum of the amounts allocated to the
district or intermediate district for 1996-97 under sections 52 and 58, there is allocated
to the district or intermediate district for the fiscal year an amount equal to that
difference, adjusted by applying the same proration factor that was used in the
distribution of funds under section 52 in 1996-97 as adjusted to the district’s or
intermediate district’s necessary costs of special education used in calculations for the
fiscal year. This adjustment is to reflect reductions in special education program
operations or services between 1996-97 and subsequent fiscal years. The department shall
make adjustments for reductions in special education program operations or services in a
manner determined by the department and shall include adjustments for program or service
shifts.

(4) If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) is not sufficient to fulfill the specified percentages in subsection (2), then the department shall pay the shortfall to the district or intermediate district during the fiscal year beginning on the October 1 following the determination and shall adjust payments under subsection (3) as necessary. If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) exceeds the sum of the amount necessary to fulfill the specified percentages in subsection (2), then the department shall deduct the amount of the excess from the district’s or intermediate district’s payments under this article for the fiscal year beginning on the October 1 following the determination and shall adjust payments under subsection (3) as necessary. However, if the amount allocated under subsection (2)(a) in itself exceeds the amount necessary to fulfill the specified percentages in subsection (2), there is no deduction under this subsection.

(5) State funds are allocated on a total approved cost basis. Federal funds are allocated under applicable federal requirements, except that an amount not to exceed $3,500,000.00 may be allocated by the department each fiscal year for 2018-2019 and for 2019-2020 to districts, intermediate districts, or other eligible entities on a competitive grant basis for programs, equipment, and services that the department determines to be designed to benefit or improve special education on a statewide scale.

(6) From the amount allocated in subsection (1), there is allocated an amount not to exceed $2,200,000.00 each fiscal year for 2018-2019 and for 2019-2020 for fiscal year 2020-2021 to reimburse 100% of the net increase in necessary costs incurred by a district or intermediate district in implementing the revisions in the administrative rules for special education that became effective on July 1, 1987. As used in this subsection, “net increase in necessary costs” means the necessary additional costs incurred solely because of new or revised requirements in the administrative rules minus cost savings permitted in implementing the revised rules. The department shall determine net increase in necessary costs in a manner specified by the department.

(7) For purposes of sections 51a to 58, all of the following apply:

(a) “Total approved costs of special education” are determined in a manner specified
by the department and may include indirect costs, but must not exceed 115% of approved
direct costs for section 52 and section 53a programs. The total approved costs include
salary and other compensation for all approved special education personnel for the program,
including payments for Social Security and Medicare and public school employee retirement
system contributions. The total approved costs do not include salaries or other
compensation paid to administrative personnel who are not special education personnel as
defined in section 6 of the revised school code, MCL 380.6. Costs reimbursed by federal
funds, other than those federal funds included in the allocation made under this article,
are not included. Special education approved personnel not utilized full time in the
evaluation of students or in the delivery of special education programs, ancillary, and
other related services are reimbursed under this section only for that portion of time
actually spent providing these programs and services, with the exception of special
education programs and services provided to youth placed in child caring institutions or
juvenile detention programs approved by the department to provide an on-grounds education
program.

(b) Beginning with the 2004-2005 fiscal year, a district or intermediate district
that employed special education support services staff to provide special education support
services in 2003-2004 or in a subsequent fiscal year and that in a fiscal year after 2003-
2004 receives the same type of support services from another district or intermediate
district shall report the cost of those support services for special education
reimbursement purposes under this article. This subdivision does not prohibit the transfer
of special education classroom teachers and special education classroom aides if the pupils
counted in membership associated with those special education classroom teachers and
special education classroom aides are transferred and counted in membership in the other
district or intermediate district in conjunction with the transfer of those teachers and
aides.

(c) If the department determines before bookclosing for a fiscal year that the
amounts allocated for that fiscal year under subsections (2), (3), (6), and (11) and
sections 53a, 54, and 56 will exceed expenditures for that fiscal year under subsections
(2), (3), (6), and (11) and sections 53a, 54, and 56, then for a district or intermediate
district whose reimbursement for that fiscal year would otherwise be affected by
subdivision (b), subdivision (b) does not apply to the calculation of the reimbursement for
that district or intermediate district and the department shall calculate reimbursement for
that district or intermediate district in the same manner as it was for 2003-2004. If the
amount of the excess allocations under subsections (2), (3), (6), and (11) and sections
53a, 54, and 56 is not sufficient to fully fund the calculation of reimbursement to those
districts and intermediate districts under this subdivision, then the department shall
prorate calculations and resulting reimbursement under this subdivision on an equal
percentage basis. Beginning in 2015-2016, the amount of reimbursement under this
subdivision for a fiscal year must not exceed $2,000,000.00 for any district or
intermediate district.

(d) Reimbursement for ancillary and other related services, as defined by R 340.1701c
of the Michigan Administrative Code, is not provided when those services are covered by and
available through private group health insurance carriers or federal reimbursed program
sources unless the department and district or intermediate district agree otherwise and
that agreement is approved by the state budget director. Expenses, other than the
incidental expense of filing, must not be borne by the parent. In addition, the filing of
claims must not delay the education of a pupil. A district or intermediate district is
responsible for payment of a deductible amount and for an advance payment required until
the time a claim is paid.

(e) Beginning with calculations for 2004-2005, if an intermediate district purchases
a special education pupil transportation service from a constituent district that was
previously purchased from a private entity; if the purchase from the constituent district
is at a lower cost, adjusted for changes in fuel costs; and if the cost shift from the
intermediate district to the constituent does not result in any net change in the revenue
the constituent district receives from payments under sections 22b and 51c, then upon
application by the intermediate district, the department shall direct the intermediate
district to continue to report the cost associated with the specific identified special
education pupil transportation service and shall adjust the costs reported by the
constituent district to remove the cost associated with that specific service.

(8) A pupil who is enrolled in a full-time special education program conducted or
administered by an intermediate district or a pupil who is enrolled in the Michigan schools
for the deaf and blind is not included in the membership count of a district, but is
counted in membership in the intermediate district of residence.
(9) Special education personnel transferred from 1 district to another to implement
the revised school code are entitled to the rights, benefits, and tenure to which the
person would otherwise be entitled had that person been employed by the receiving district
originally.

(10) If a district or intermediate district uses money received under this section
for a purpose other than the purpose or purposes for which the money is allocated, the
department may require the district or intermediate district to refund the amount of money
received. The department shall deposit money that is refunded in the state treasury to the
credit of the state school aid fund.

(11) From the funds allocated in subsection (1), there is allocated the amount
necessary, estimated at $3,100,000.00 for 2018-2019 and estimated at $2,900,000.00 for
2019-2020, 2020-2021, to pay the foundation allowances for pupils described in this
subsection. The department shall calculate the allocation to a district under this
subsection by multiplying the number of pupils described in this subsection who are counted
in membership in the district times the sum of the foundation allowance under section 20 of
the pupil’s district of residence, plus the amount of the district’s per-pupil allocation
under section 20m, not to exceed the basic foundation allowance under section 20 for the
2018-2019 fiscal year and beginning with 2019-2020 not to exceed the target foundation
allowance for the current fiscal year, or, for a pupil described in this subsection who is
counted in membership in a district that is a public school academy, times an amount equal
to the amount per membership pupil under section 20(6). The department shall calculate the
allocation to an intermediate district under this subsection in the same manner as for a
district, using the foundation allowance under section 20 of the pupil’s district of
residence, not to exceed the basic foundation allowance under section 20 for the 2018-2019
fiscal year and beginning with 2019-2020 not to exceed the target foundation allowance for
the current fiscal year, and that district's per-pupil allocation under section 20m. This
subsection applies to all of the following pupils:

(a) Pupils described in section 53a.

(b) Pupils counted in membership in an intermediate district who are not special
education pupils and are served by the intermediate district in a juvenile detention or
child caring facility.

(c) Pupils with an emotional impairment counted in membership by an intermediate
district and provided educational services by the department of health and human services.

(12) If it is determined that funds allocated under subsection (2) or (11) or under section 51c will not be expended, funds up to the amount necessary and available may be used to supplement the allocations under subsection (2) or (11) or under section 51c in order to fully fund those allocations. After payments under subsections (2) and (11) and section 51c, the department shall expend the remaining funds from the allocation in subsection (1) in the following order:

(a) 100% of the reimbursement required under section 53a.
(b) 100% of the reimbursement required under subsection (6).
(c) 100% of the payment required under section 54.
(d) 100% of the payment required under subsection (3).
(e) 100% of the payments under section 56.

(13) The allocations under subsections (2), (3), and (11) are allocations to intermediate districts only and are not allocations to districts, but instead are calculations used only to determine the state payments under section 22b.

(14) If a public school academy that is not a cyber school, as defined in section 551 of the revised school code, MCL 380.551, enrolls under this section a pupil who resides outside of the intermediate district in which the public school academy is located and who is eligible for special education programs and services according to statute or rule, or who is a child with disabilities, as defined under the individuals with disabilities education act, Public Law 108-446, the intermediate district in which the public school academy is located and the public school academy shall enter into a written agreement with the intermediate district in which the pupil resides for the purpose of providing the pupil with a free appropriate public education, and the written agreement must include at least an agreement on the responsibility for the payment of the added costs of special education programs and services for the pupil. If the public school academy that enrolls the pupil does not enter into an agreement under this subsection, the public school academy shall not charge the pupil’s resident intermediate district or the intermediate district in which the public school academy is located the added costs of special education programs and services for the pupil, and the public school academy is not eligible for any payouts based on the funding formula outlined in the resident or nonresident intermediate district’s plan. If a pupil is not enrolled in a public school academy under this subsection, the provision of
special education programs and services and the payment of the added costs of special
education programs and services for a pupil described in this subsection are the
responsibility of the district and intermediate district in which the pupil resides.

(15) For the purpose of receiving its federal allocation under part B of the
individuals with disabilities education act, Public Law 108-446, a public school academy
that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551,
and is in compliance with section 553a of the revised school code, MCL 380.553a, directly
receives the federal allocation under part B of the individuals with disabilities education

If an intermediate district does not comply with this subsection by the end of the fiscal year, the intermediate district forfeits the amount withheld.

(3) Except as otherwise provided in subsections (11) and (12), all of the following apply to the provision of pupil instruction:

(a) Except as otherwise provided in this section, each district shall provide at least 1,098 hours and 180 days of pupil instruction.

If a collective bargaining agreement that provides a complete school calendar was in effect for employees of a district as of June 24, 2014, and if that school calendar is not in compliance with this subdivision, then this subdivision does not apply to that district until after the expiration of that collective bargaining agreement. A district may apply for a waiver under subsection (9) from the requirements of this subdivision.

(b) Except as otherwise provided in this article, a district failing to comply with the required minimum hours and days of pupil instruction under this subsection forfeits from its total state aid allocation an amount determined by applying a ratio of the number of hours or days the district was in noncompliance in relation to the required minimum number of hours and days under this subsection. have at least 75% of the district’s membership in attendance on any day of pupil
instruction, the department shall pay the district state aid in that proportion of 1/180
that the actual percent of attendance bears to 75%.

(e) If a district adds 1 or more days of pupil instruction to the end of its
instructional calendar for a school year to comply with subdivision (a) because the
district otherwise would fail to provide the required minimum number of days of pupil
instruction even after the operation of subsection (4) due to conditions not within the
control of school authorities, then subdivision (d) does not apply for any day of pupil
instruction that is added to the end of the instructional calendar. Instead, for any of
those days, if the district does not have at least 60% of the district’s membership in
attendance on that day, the department shall pay the district state aid in that proportion
of 1/180 that the actual percentage of attendance bears to 60%. For any day of pupil
instruction added to the instructional calendar as described in this subdivision, the
district shall report to the department the percentage of the district’s membership that is
in attendance, in the form and manner prescribed by the department.

(f) At the request of a district that operates a department-approved alternative
education program and that does not provide instruction for pupils in all of grades K to
12, the superintendent shall grant a waiver from the requirements of subdivision (d). The
waiver must provide that an eligible district is subject to the proration provisions of
subdivision (d) only if the district does not have at least 50% of the district’s
membership in attendance on any day of pupil instruction. In order to be eligible for this
waiver, a district must maintain records to substantiate its compliance with the following
requirements:

(i) The district offers the minimum hours of pupil instruction as required under this
section.

(ii) For each enrolled pupil, the district uses appropriate academic assessments to
develop an individual education plan that leads to a high school diploma.

(iii) The district tests each pupil to determine academic progress at regular
intervals and records the results of those tests in that pupil’s individual education plan.

(g) All of the following apply to a waiver granted under subdivision (f):

(i) If the waiver is for a blended model of delivery, a waiver that is granted for
the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is
revoked by the superintendent.

(ii) If the waiver is for a 100% online model of delivery and the educational program for which the waiver is granted makes educational services available to pupils for a minimum of at least 1,098 hours during a school year and ensures that each pupil participates in the educational program for at least 1,098 hours during a school year, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(iii) A waiver that is not a waiver described in subparagraph (i) or (ii) is valid for 3 fiscal years and must be renewed annually at the end of the three-year period to remain in effect, unless it is revoked by the superintendent.

(h) The superintendent shall promulgate rules for the implementation of this subsection.

(4) Except as otherwise provided in this subsection, the first 6 days or the equivalent number of hours for which pupil instruction is not provided because of conditions not within the control of school authorities, such as severe storms, fires, epidemics, utility power unavailability, water or sewer failure, or health conditions as defined by the city, county, or state health authorities, are counted as hours and days of pupil instruction. For 2018-2019 only, in addition to these 6 days, if pupil instruction is not provided on 1 or more days that are included in a period for which the governor has issued an executive order declaring a state of emergency across this state, upon request by a district to the superintendent of public instruction, in a form and manner prescribed by the department, that 1 or more of those days and the equivalent number of hours count as days and hours of pupil instruction, the department shall count those requested days and the equivalent number of hours as days and hours of pupil instruction for the purposes of this section. For 2018-2019, the days included in the executive order are January 29, 2019 to February 2, 2019. With the approval of the superintendent of public instruction, the department shall count as hours and days of pupil instruction for a fiscal year not more than 3 additional days or the equivalent number of additional hours for which pupil instruction is not provided in a district due to unusual and extenuating occurrences resulting from conditions not within the control of school authorities such as those conditions described in this subsection. Subsequent such hours or days are not counted as hours or days of pupil instruction.
(5) A district does not forfeit part of its state aid appropriation because it adopts or has in existence an alternative scheduling program for pupils in kindergarten if the program provides at least the number of hours required under subsection (3) for a full-time equated membership for a pupil in kindergarten as provided under section 6(4).

(6) In addition to any other penalty or forfeiture under this section, if at any time the department determines that 1 or more of the following have occurred in a district, the district forfeits in the current fiscal year beginning in the next payment to be calculated by the department a proportion of the funds due to the district under this article that is equal to the proportion below the required minimum number of hours and days of pupil instruction under subsection (3), as specified in the following:

(a) The district fails to operate its schools for at least the required minimum number of hours and days of pupil instruction under subsection (3) in a school year, including hours and days counted under subsection (4).

(b) The board of the district takes formal action not to operate its schools for at least the required minimum number of hours and days of pupil instruction under subsection (3) in a school year, including hours and days counted under subsection (4).

(7) In providing the minimum number of hours and days of pupil instruction required under subsection (3), a district shall use the following guidelines, and a district shall maintain records to substantiate its compliance with the following guidelines:

(a) Except as otherwise provided in this subsection, a pupil must be scheduled for at least the required minimum number of hours of instruction, excluding study halls, or at least the sum of 90 hours plus the required minimum number of hours of instruction, including up to 2 study halls.

(b) The time a pupil is assigned to any tutorial activity in a block schedule may be considered instructional time, unless that time is determined in an audit to be a study hall period.

(c) Except as otherwise provided in this subdivision, a pupil in grades 9 to 12 for whom a reduced schedule is determined to be in the individual pupil’s best educational interest must be scheduled for a number of hours equal to at least 80% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil. A pupil in grades 9 to 12 who is scheduled in a 4-block schedule may receive a reduced schedule under this subsection if the pupil is scheduled for a number of hours equal to at
least 75% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil.

(d) If a pupil in grades 9 to 12 who is enrolled in a cooperative education program or a special education pupil cannot receive the required minimum number of hours of pupil instruction solely because of travel time between instructional sites during the school day, that travel time, up to a maximum of 3 hours per school week, is considered to be pupil instruction time for the purpose of determining whether the pupil is receiving the required minimum number of hours of pupil instruction. However, if a district demonstrates to the satisfaction of the department that the travel time limitation under this subdivision would create undue costs or hardship to the district, the department may consider more travel time to be pupil instruction time for this purpose.

(e) In grades 7 through 12, instructional time that is part of a Junior Reserve Officer Training Corps (JROTC) program is considered to be pupil instruction time regardless of whether the instructor is a certificated teacher if all of the following are met:

(i) The instructor has met all of the requirements established by the United States Department of Defense and the applicable branch of the armed services for serving as an instructor in the Junior Reserve Officer Training Corps program.

(ii) The board of the district or intermediate district employing or assigning the instructor complies with the requirements of sections 1230 and 1230a of the revised school code, MCL 380.1230 and 380.1230a, with respect to the instructor to the same extent as if employing the instructor as a regular classroom teacher.

(8) Except as otherwise provided in subsections (11) and (12), the department shall apply the guidelines under subsection (7) in calculating the full-time equivalency of pupils.

(9) Upon application by the district for a particular fiscal year, the superintendent shall waive for a district the minimum number of hours and days of pupil instruction requirement of subsection (3) for a department-approved alternative education program or another innovative program approved by the department, including a 4-day school week. If a district applies for and receives a waiver under this subsection and complies with the terms of the waiver, the district is not subject to forfeiture under this section for the specific program covered by the waiver. If the district does not comply with the terms of
the waiver, the amount of the forfeiture is calculated based upon a comparison of the
number of hours and days of pupil instruction actually provided to the minimum number of
hours and days of pupil instruction required under subsection (3). A district shall report
pupils enrolled in a department-approved alternative education program under this
subsection to the center in a form and manner determined by the center. All of the
following apply to a waiver granted under this subsection:

(a) If the waiver is for a blended model of delivery, a waiver that is granted for
the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is
revoked by the superintendent.

(b) If the waiver is for a 100% online model of delivery and the educational program
for which the waiver is granted makes educational services available to pupils for a
minimum of at least 1,098 hours during a school year and ensures that each pupil is on
track for course completion at proficiency level, a waiver that is granted for the 2011-
2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the
superintendent.

(c) A waiver that is not a waiver described in subdivision (a) or (b) is valid for 3 fiscal
years and must be renewed annually at the end of the three-year period to
remain in effect, unless it is revoked by the superintendent.

(10) A district may count up to 38 hours of qualifying professional development for
teachers as hours of pupil instruction.

All of the following apply to the counting of qualifying professional development as
pupil instruction under this subsection:

be composed of teachers employed by the district who represent a variety of grades and
subject matter specializations, including special education; nonteaching staff; parents;
and administrators. The majority membership of the committee shall be composed of teaching
staff.

(c) Professional development provided online is allowable and encouraged, as long as
the instruction has been approved by the district. The department shall issue a list of approved online professional development providers, which must include the Michigan Virtual School.

(d) Qualifying professional development may only be counted as hours of pupil instruction for the pupils of those teachers scheduled to participate in the qualifying professional development.

(e) For professional development to be considered qualifying professional development under this subsection, the professional development must meet all of the following:

(i) Is aligned to the school or district improvement plan for the school or district in which the professional development is being provided.

(ii) Is linked to 1 or more criteria in the evaluation tool developed or adopted by the district or intermediate district under section 1249 of the revised school code, MCL 380.1249.

(iii) Has been approved by the department as counting for state continuing education clock hours. The number of hours of professional development counted as hours of pupil instruction may not exceed the number of state continuing education clock hours for which the qualifying professional development was approved.

(iv) Not more than a combined total of 10 hours of the professional development takes place before the first scheduled day of school for the school year ending in the fiscal year and after the last scheduled day of school for that school year.

(v) No more than 10 hours of qualifying professional development takes place in a single month.

(vi) At least 75% of teachers scheduled to participate in the professional development are in attendance.

(11) Subsections (3) and (8) do not apply to a school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a.

(12) Subsections (3) and (8) do not apply to eligible pupils enrolled in a dropout recovery program that meets the requirements of section 23a. As used in this subsection, “eligible pupil” means that term as defined in section 23a.

(13) At least every 2 years the superintendent shall review the waiver standards set forth in the pupil accounting and auditing manuals to ensure that the waiver standards and
waiver process continue to be appropriate and responsive to changing trends in online
learning. The superintendent shall solicit and consider input from stakeholders as part of
this review.

(2) The results of each test administered as part of the Michigan student test of
educational progress (M-STEP), including tests administered to high school students, must
include an item analysis that lists all items that are counted for individual pupil scores
and the percentage of pupils choosing each possible response. The department shall work
with the center to identify the number of students enrolled at the time assessments are
given by each district. In calculating the percentage of pupils assessed for a district’s
scorecard, the department shall use only the number of pupils enrolled in the district at
the time the district administers the assessments and shall exclude pupils who enroll in
the district after the district administers the assessments.

(3) The department shall distribute federal funds allocated under this section in

If a district elects to administer the Michigan kindergarten entry observation tool to a random sample of pupils within each classroom, the district’s intermediate district shall select the pupils who will receive the assessment based on the same random method. Beginning in 2020, the observation tool must be administered within 45 days after the start of the school year.

(b) The intermediate district that receives funding under this subsection, in collaboration with all other intermediate districts, shall implement a “train the trainer” professional development model on the usage of the Michigan kindergarten entry observation tool. This training model must provide training to intermediate district staff so that they may provide similar training for staff of their constituent districts. This training model must also ensure that the tool produces reliable data and that there are a sufficient number of trainers to train all kindergarten teachers statewide.

(c) By March 1, 2021, and each year thereafter, the department and the intermediate district that receives funding under this subsection shall report to the house and senate appropriations subcommittees on school aid, the house and senate fiscal agencies, and the state budget director on the results of the statewide implementation, including, but not limited to, an evaluation of the demonstrated readiness of kindergarten pupils statewide and the effectiveness of state and federal early childhood programs that are designed for school readiness under this state’s authority, including the great start readiness program and the great start readiness/Head Start blended program, as referenced under section 32d. start readiness program, individual great start readiness/Head Start blended program,
individual title I preschool program, individual section 31a preschool program, individual
early childhood special education program, or individual developmental kindergarten or
program for young 5-year-olds in which each tested child was enrolled. A participating

in any specific early childhood program and, if so, report that finding to the department
and to the intermediate district that receives funding under this subsection.

(d) The department shall approve the language and literacy domain within the
Kindergarten Readiness Assessment for use by districts as an initial assessment that may be
delivered to all kindergarten pupils to assist with identifying any possible area of
concern for a pupil in English language arts.

Sec. 263. (1) Included in the appropriation in section 236 for fiscal year 2019-2021
2020-2021 for MSU AgBioResearch is $2,982,900.00 and included in the appropriation in
section 236 for MSU Extension is $2,645,200.00 for Project GREEEN. Project GREEEN is
intended to address critical regulatory, food safety, economic, and environmental problems
faced by this state’s plant-based agriculture, forestry, and processing industries.
“GREEEN” is an acronym for Generating Research and Extension to Meet Environmental and
Economic Needs.

(2) The department of agriculture and rural development and Michigan State
University, in consultation with agricultural commodity groups and other interested
parties, shall develop Project GREEEN and its program priorities.

Sec. 264. Included in the appropriation in section 236 for fiscal year 2019-2021
2020-2021 for Michigan State University is $80,000.00 for the Michigan Future Farmers of
America Association. This $80,000.00 allocation shall not supplant any existing support
that Michigan State University provides to the Michigan Future Farmers of America
Association.

Sec. 265. (1) Payments under section 265a for performance funding student
affordability funding for fiscal years 2019-2020, 2020-2021, and 2021-2022 year 2020-2021
shall only be made to a public university that certifies to the state budget director by
October 1, 2019—the last business day of August—that its board did not adopt an increase in
tuition and fee rates for resident undergraduate students after September 1, 2018-2019 for
the 2018-2019 2019-2020 academic year and that its board will not adopt an increase in
tuition and fee rates for resident undergraduate students for the 2019-2020 2020-2021
academic year that is greater than 4.25% or $586.00, whichever is greater. As
used in this subsection:
(a) “Fee” means any board-authorized fee that will be paid by more than 1/2 of all resident undergraduate students at least once during their enrollment at a public university, as described in the higher education institutional data inventory (HEIDI) user manual. A university increasing a fee that applies to a specific subset of students or courses shall provide sufficient information to prove that the increase applied to that subset will not cause the increase in the average amount of board-authorized total tuition and fees paid by resident undergraduate students in the 2019-2020 academic year to exceed the limit established in this subsection.

(b) “Tuition and fee rate” means the average of full-time rates paid by a majority of students in each undergraduate class, based on an unweighted average of the rates authorized by the university board and actually charged to students, deducting any uniformly rebated or refunded amounts, for the 2 semesters with the highest levels of full-time equated resident undergraduate enrollment during the academic year, as described in the higher education institutional data inventory (HEIDI) user manual.

(2) The state budget director shall implement uniform reporting requirements to ensure that a public university receiving a payment under section 265a for performance funding/student affordability funding has satisfied the tuition restraint requirements of this section. The state budget director shall have the sole authority to determine if a public university has met the requirements of this section. Information reported by a public university to the state budget director under this subsection shall also be reported to the house and senate appropriations subcommittees on higher education and the house and senate fiscal agencies.

(3) Universities that exceed the tuition and fee rate cap described in subsection (1) shall not receive a planning or construction authorization for a state-funded capital outlay project in fiscal years 2020-2021, 2021-2022, or 2022-2023.

(4) Notwithstanding any other provision of this act, the legislature may at any time adjust appropriations for a university that adopts an increase in tuition and fee rates for resident undergraduate students that exceeds the rate cap established in subsection (1).

Sec. 265a. (1) Appropriations to public universities in section 236 for fiscal years 2019-2020, 2020-2021, and 2021-2022 year 2020-2021 for performance funding/student affordability funding shall be paid only to a public university that complies with section 265 and certifies to the state budget director, the house and senate appropriations
subcommittees on higher education, and the house and senate fiscal agencies by October 1, 2020 that it complies with all of the following requirements:

(a) The university participates in reverse transfer agreements described in section 286 with at least 3 Michigan community colleges.

(b) The university does not and will not consider whether dual enrollment credits earned by an incoming student were utilized towards his or her high school graduation requirements when making a determination as to whether those credits may be used by the student toward completion of a university degree or certificate program.

(c) The university actively participates in and submits timely updates to the Michigan Transfer Network created as part of the Michigan Association of Collegiate Registrars and Admissions Officers transfer agreement.

(2) Any performance funding student affordability funding amounts under section 236 that are not paid to a public university because it did not comply with 1 or more requirements under subsection (1) are unappropriated and reappropriated for performance funding student affordability funding to those public universities that meet the requirements under subsection (1), distributed in proportion to their performance funding student affordability funding appropriation amounts under section 236.

(3) The state budget director shall report to the house and senate appropriations subcommittees on higher education and the house and senate fiscal agencies by October 15, 2019-2020, regarding any performance funding student affordability funding amounts that are not paid to a public university because it did not comply with 1 or more requirements under subsection (1) and any reappropriation of funds under subsection (2).

(4) Performance funding Student affordability funding amounts described in section 236 are distributed based on the following formula: across-the-board proportional to each university’s share of total operations funding appropriated in fiscal year 2019-2020.

(a) Proportional to each university’s share of total operations funding appropriated in fiscal year 2010-2011, 50%.

(b) Based on weighted undergraduate completions in critical skills areas, 11.1%.

(c) Based on research and development expenditures, for universities classified in Carnegie classifications as doctoral universities: moderate research activity, doctoral universities: higher research activity, or doctoral universities: highest research activity only, 5.6%.
(d) Based on 6-year graduation rate, total degree completions, and institutional support as a percentage of core expenditures, and the percentage of students receiving Pell grants, scored against national Carnegie classification peers and weighted by total undergraduate fiscal year equated students, 33.3%.

(5) For purposes of determining the score of a university under subsection (4)(d), each university is assigned 1 of the following scores:

(a) A university classified as in the top 20%, a score of 3.

(b) A university classified as above national median, a score of 2.

(c) A university classified as improving, a score of 1. It is the intent of the legislature that, beginning in the 2020-2021 state fiscal year, a university classified as improving is assigned a score of 1.

(d) A university that is not included in subdivision (a), (b), or (c), a score of 0.

(6) As used in this section, “Carnegie classification” means the basic classification of the university according to the most recent version of the Carnegie classification of institutions of higher education, published by the Carnegie Foundation for the Advancement of Teaching.

(7) It is the intent of the legislature to allocate more funding based on an updated set of performance metrics in future years. Updated metrics will be based on the outcome of joint hearings between the house and senate appropriations subcommittees on higher education and community colleges intended to be held in the fall of 2019.

Sec. 265b. (1) Appropriations to public universities in section 236 for the fiscal year ending September 30, 2020-2021 for operations funding shall be reduced by 10% pursuant to the procedures described in subdivision (a) for a public university that fails to submit certification to the state budget director, the house and senate appropriations subcommittees on higher education and community colleges, and the house and senate fiscal agencies by October 1, 2020 that the university complies with sections 274c and 274d and that it complies with all of the requirements described in subdivisions (b) to (i), as follows:

(a) If a university fails to submit certification, the state budget director shall withhold 10% of that university’s annual operations funding until the university submits certification. If a university fails to submit certification by the end of the fiscal year, the 10% of its annual operations funding that is withheld shall lapse to the general fund.
(b) For title IX investigations of alleged sexual misconduct, the university prohibits the use of medical experts that have an actual or apparent conflict of interest.

(c) For title IX investigations of alleged sexual misconduct, the university prohibits the issuance of divergent reports to complainants, respondents, and administration and instead requires that identical reports be issued to them.

(d) Consistent with the university’s obligations under 20 USC 1092(f), the university notifies each individual who reports having experienced sexual assault by a student, faculty member, or staff member of the university that the individual has the option to report the matter to law enforcement, to the university, to both, or to neither, as the individual may choose.

(e) The university provides both of the following:

(i) For all freshmen and incoming transfer students enrolled, an in-person sexual misconduct prevention presentation or course, which must include contact information for the title IX office of the university.

(ii) For all students not considered freshmen or incoming transfer students, an online or electronic sexual misconduct prevention presentation or course.

(f) The university prohibits seeking compensation from the recipient of any medical procedure, treatment, or care provided by a medical professional who has been convicted of a felony arising out of the medical procedure, treatment, or care.

(g) The university had a third party review its title IX compliance office and related policies and procedures by the end of the 2018-2019 academic year. A copy of the third-party review shall be transmitted to the state budget director, the house and senate appropriations subcommittees on higher education, and the house and senate fiscal agencies. After the third-party review has been conducted for the 2018-2019 academic year, the university shall have a third-party review once every three years and a copy of the third-party review shall be transmitted to the state budget director, the house and senate appropriations subcommittees on higher education, and the house and senate fiscal agencies.

(h) The university requires that the governing board and the president or chancellor of the university receive not less than quarterly reports from their title IX coordinator or title IX office. The report shall contain aggregated data of the number of sexual misconduct reports that the office received for the academic year, the types of reports received, including reports received against employees, and a summary of the general
outcomes of the reports and investigations. A member of the governing board may request to
review a title IX investigation report involving a complaint against an employee, and the
university shall provide the report in a manner it considers appropriate. The university
shall protect the complainant’s anonymity, and the report shall not contain specific
identifying information.

(i) If allegations against an employee are made in more than 1 title IX complaint
that resulted in the university finding that no misconduct occurred, the university
requires that the title IX officer promptly notify the president or chancellor and a member
of the university’s governing board in writing and take all appropriate steps to ensure
that the matter is being investigated thoroughly, including hiring an outside investigator
for future cases involving that employee. A third-party title IX investigation under this
subdivision does not prohibit the university from simultaneously conducting its own title
IX investigation through its own title IX coordinator.

(2) Each public university that receives an appropriation in section 236 shall also
certify that its president or chancellor and a member of its governing board has reviewed
all title IX reports involving the alleged sexual misconduct of an employee of the
university, and shall send the certification to the house and senate appropriations
subcommittees on higher education, the house and senate fiscal agencies, and the state
budget director by October 1, 2019–2020.

(3) For purposes of this section, “sexual misconduct” includes, but is not limited
to, any of the following:

(a) Intimate partner violence.
(b) Nonconsensual sexual conduct.
(c) Sexual assault.
(d) Sexual exploitation.
(e) Sexual harassment.
(f) Stalking.

Sec. 267. All public universities shall submit the amount of tuition and fees
actually charged to a full-time resident undergraduate student for academic year 2019–2020
2020–2021 as part of their higher education institutional data inventory (HEIDI) data by
October 1, 2019, and by August 31 of each year thereafter the last business day of August.
A public university shall report any revisions for any semester of the reported academic year 2019-2020-2020-2021 tuition and fee charges to HEIDI within 15 days of being adopted.

Sec. 268. (1) For the fiscal year ending September 30, 2020, it is the intent of the legislature that funds be allocated for unfunded North American Indian tuition waiver costs incurred by public universities under 1976 PA 174, MCL 390.1251 to 390.1253, from the general fund.

(1) (2) By February 15 of each year, the department of civil rights shall annually submit to the state budget director, the house and senate appropriations subcommittees on higher education, and the house and senate fiscal agencies a report on North American Indian tuition waivers for the preceding academic year that includes, but is not limited to, all of the following information:

(a) The number of waiver applications received and the number of waiver applications approved.

(ii) The number of North American Indian waivers granted each term, including to continuing education students, and the monetary value of the waivers for the previous academic year.

(iii) The number of graduate and undergraduate students attending under a North American Indian tuition waiver who withdrew from the university each term during the previous academic year. For purposes of this subparagraph, a withdrawal occurs when a student who has been awarded the waiver withdraws from the institution at any point during the term, regardless of enrollment in subsequent terms.

(iv) The number of graduate and undergraduate students attending under a North American Indian tuition waiver who successfully complete a degree or certificate program, separated by degree or certificate level, and the graduation rate for graduate and undergraduate students attending under a North American Indian tuition waiver who complete a degree or certificate within 150% of the normal time to complete, separated by the level of the degree or certificate.
(2) A public university that receives funds under section 236 shall provide to
the department of civil rights any information necessary for preparing the report detailed
in subsection (1), using guidelines and procedures developed by the department of
civil rights.

(3) The department of civil rights may consolidate the report required under this
section with the report required under section 223, but a consolidated report must
separately identify data for universities and data for community colleges.
