Each fiscal year in this schedule also includes approximately 2,000 classified employees for the business type activities and discretely presented component unit authorities. Although the expenses for the business type activities and component unit authorities are reported separately in the government-wide financial statements, the employee counts were combined in this schedule to ensure consistency with Department of Civil Service reports and for administrative efficiency.

This schedule includes average employee counts rounded to the whole full-time equivalent employee. For this reason, totals may not equal the sum of the employee counts per function.
