Register

1. www.Buy4Michigan.com

Buy4Michigan is the state's bid posting website. Contract opportunities 10k and up are located here.

2. www.michigan.gov/cpexpress

The Contract and Payment Express is located here. You must be registered here to be paid if you win a contract.

Research

1. The Contract Connect website hosts a wealth of information for businesses interested in selling to the state:

www.michigan.gov/micontractconnect

2. A list of contracts valued at 25k and above can be found by clicking the DTMB Procurement Contract List on the homepage of the Contract Connect website. See if what you sell is already on contract and when it's expiring.

Market

1. The state typically does not post contract opportunities under 10k on Buy4Michigan. If you're interested in selling to the state in amounts under 10k, and what you sell is not currently on the contract list, you may want to market to state agencies directly. A list of state agency buyers can be found under the *Contact Us* tab of the Contract Connect website:

www.michigan.gov/micontractconnect

2. For new or innovation products that the state may not know about, submit your information at the vendor information portal. Submissions are reviewed and vendors may be asked to meet with program directors:

www.michigan.gov/vendorinnovation

Bid

1. You will need to submit a proposal for contract opportunities posted on Buy4Michigan. If you need assistance with registering or submitting a proposal contact the Buy4Michigan Help Desk at 888-734-9749.
