

SID Migrated to MILogin

The School Infrastructure Database has been migrated to a more robust security/logon system called MILogin. MILogin is the same security system currently used by EEM, FID, GAD, MSDS, and REP, and moves CEPI's applications closer to a single sign-on stance.

Existing SID users with a MILogin account:

- If the SID application link is visible the next time you log into [MILogin](#), then we were able to migrate and automatically subscribe you. To confirm if you were migrated, please login to [MILogin](#).
- If the SID application link is not visible the next time you log into [MILogin](#), your account could not be migrated because of differences in contact information between MEIS and MILogin.
 - Ensure that your contact information (first name, last name, phone number and email address) is the same in MILogin as it is in MEIS so that your subscription can be approved without submitting a new security form.
 - To update information in [MEIS](#), log in and click "Update" when your changes are complete.
 - Subscribe to the SID application as applicable in MILogin. Please do not create another MILogin account if you already have one.
 - You will receive an email when your subscription has been approved.

Existing SID users without a MILogin account:

- Create a MILogin account and subscribe to the SID application as applicable in MILogin.
 - When creating your MILogin account, ensure your contact information (first name, last name, phone number and email address) is the same in MILogin as in MEIS (so your subscription can be approved without a new security form).
 - To update information in [MEIS](#), log in and click "Update" when your changes are complete.
 - You will receive an email when your subscription has been approved.

New SID users:

- If you are not an existing user, but now need access, create a MILogin account (if needed), subscribe to the SID application as applicable in MILogin and submit the appropriate [Application Security Form](#).

For further information on accessing SID through MILogin, please reference the [MILogin User Guide](#).

If you have further questions about using MILogin, please email CEPI Customer Support at CEPI@michigan.gov or call 517-335-0505 x3.
