MI School Data User Migration

In mid-spring 2020, all MI School Data secure users will be required to have a [third party MILogin account](#) using the same email address as their current Mi School Data account to access secure data. Users who don't already have this type of MILogin account must create one prior to the migration to retain access to secure data. If this is not done prior to the migration, users will need to fill out a security form and request a new account. Further information and instructions on account migration will be coming soon.
