INSTRUCTIONS FOR COMPLETING FORM SE-4096, SPECIAL EDUCATION ACTUAL COST REPORT

Introduction

All Intermediate School Districts (ISDs) and Local Educational Agencies (LEAs) (Public School Academies (PSAs) report as an LEA) that employ or contract special education personnel are required to complete this form to qualify for state special education categorical aid. LEAs that do not operate any special education programs and/or services should click the **Certify District Data (No Data To Report)** link on the LEA's home page.

CONTINUING for the 2017-18 school year:

The Office of Special Education (OSE) will continue to compare the costs reported by program on the SE-4096 Special Education Actual Cost Report with the membership reported by the ISDs, LEAs, and PSAs on the October 2017 Audited Pupil Membership Report. It is expected that if the district is reporting costs in a particular special education program, that there should be a corresponding full time equivalent (FTE) membership reported on the DS-4120 Audited Membership Report. Districts will be asked to explain any discrepancies between the two reports.

Continuing highlights for the 2017-18 school year:

Continuing for the 2015-16 reporting year, districts are required to break out expenditures coded under object codes 31xx from the remaining purchased services expenditures coded under 3xxx-4xxx. Purchased services coded under object codes 31xx are to be reported Purchased Services-Staff for both Section 52 and Section 53a.

The remaining purchased services are to be reported in Purchased Services-Non Staff for both Section 52 and Section 53a.

Allowable expenditures to be recorded in column 5 would include:

Object Code	Description
3110	Contracted special education staff (PSA and ISD only)
3120	Employee training and development services performed by personnel qualified to assist district staff in performing their duties more efficiently (use with function codes 221 and 283 only)
3130	Professional technical (contracted audiologist, medical service, psychologist or other student service (reported under the appropriate function code)
3160	Contracted data processing services for central registry only from a nonschool third party entity (use with function code 284 only)
3170	Tuition for the Michigan School for the Deaf (use with function code 431 only and only for ISDs)
3170	Hearing office and mediation fees (use with function code 231)
3190	Other professional/technical services for staff not provided under employee benefits

Refer to the Allowable Cost document for State Aid and IDEA Part B, Section 611 for further information.

Continuing reporting requirements for the 2017-18 school year:

Section 51a (7) (b) reads as follows:

(b) Beginning with the 2004-2005 fiscal year, a district or intermediate district that employed special education support services staff to provide special education support services in 2003-2004 or in a subsequent fiscal year and that in a fiscal year after 2003-2004 receives the same type of support services from another district or intermediate district shall report the cost of those support services for special education reimbursement purposes under this act. This subdivision does not prohibit the transfer of special education classroom teachers and special education classroom aides if the pupils counted in membership associated with those special education classroom teachers and special education classroom aides are transferred and counted in membership in the other district or intermediate district in conjunction with the transfer of those teachers and aides.

This requires that itinerant staff who were employed in one district in 2003-04 and for 2017-18 are employed in another district because of a position transfer have their associated costs reported back to the district where they were employed in 2003-04 for state aid payment purposes.

To accomplish this, the 2017-18 employing district will report the cost for the itinerant staff on the Section 52 Itinerant Cost and/or Section 53a Itinerant Cost pages of the SE-4096. This will assign the cost and appropriate staff back to the 2003-04 employing district. These costs will be deducted from the 2017-18 employing district's SE-4096 on their District Summary Report and added to the 2003-04 employing district's SE-4096 on their District Summary Report.

Section 18 of the State School Aid Act requires each district, public school academy and intermediate district to submit the SE-4096 Special Education Actual Cost Report by October 1, 2018, since September 30 is a weekend. Failure to submit the report to the Office of Special Education by October 1 will result in the withholding of the district, public school academy or intermediate district's entire state aid beginning with the next payment due the entity.

District's showing more expenditures attributed to IDEA Flowthrough accounts than the amount of grant funds, shall place the excess expenditures under Section 52. Excess amounts are to be apportioned back to the appropriate object code (i.e.; salaries, purchased services or supplies). These amounts are not to be placed under the Other Expenses column. Excess expenditures from transition grants may not be reported on the SE-4096 report unless they conform to the allowable costs document.

Aides are reported on the SE-4096 Special Education Actual Cost Report for the amount of time that they spend working in special education. All aides working in special education are required to be reported on the SE-4096 Special Education Actual Cost Report by the classroom program assignment, not by pupil disability.

The first line of the Instructional section of the SE-4096 has been titled "122-Least Restrictive Environment Aide." This line is used to report all individual pupil aides assigned by an IEP to work with a special education pupil in regular education and all Least Restrictive Environment aides assigned to a building under the direction and supervision of special education personnel. **Transportation aides are not reported on the SE-4096 Special Education Actual Cost Report, but instead are reported on the SE-4094 Transportation Expenditure Report.**

Funds transferred to the Michigan Rehabilitation Services (MRS) for the initiation of a cooperative agreement that is written consistent with the joint agreement between the OSE and MRS will qualify for state aid. Attach a copy of the agreement for the 2017-18 year showing the school district will be receiving a dollar in special education services for every dollar transferred to MRS. **These costs are reported**

under function code 411 and object code 8910 and should be placed on the 231-Board of Education/Adjustment line under the Other Expenditure column on the Section 52 and Section 53a of the SE-4096.

Instructional supplies may not be reported in a lump sum to any of the administrative functions (226-Supervision and Direction of Instructional Staff and 241-School Principal on Section 52 and Section 53a of the SE-4096). Instructional supplies ONLY need to be prorated to the appropriate program line on a direct usage basis. **Office and administrative supplies continue to be ineligible.**

Districts are required to keep documentation to verify all amounts recorded as journal entries charged to supplies or purchased services on the SE-4096. Such documentation shall be submitted to the OSE upon request. Lack of documentation will result in the disallowance of these costs.

General Instructions

The SE-4096 shall report costs for the school year July 1 to June 30.

Record all amounts of money to the **nearest dollar.**

The general classification of objects and expenditures are those which are found in Bulletin 1022, the Accounting Manual for school districts. The specific items which have been approved for special education reimbursement are shown in the [Allowable Costs Document for State Aid and IDEA Part B, Section 611](#), revised May 2018.

Items not listed in this chart are not to be included on the SE-4096 without prior OSE approval.

The objects of expenditure should be assigned to the program for which the service or supply was acquired on a direct charge basis wherever possible, or by a method of allocation which will provide a reasonable distribution of costs. The allocations once determined should be posted to the program accounts and adjusted from the account in which the original charge was made. Documentation of allocations and prorations must be maintained for audit purposes and submitted to the OSE upon request.

Recording Costs

Interpretation II-009, "Steps for Setting Up Accounts, Recording, and Reporting Special Education Expenses for the Special Education Actual Cost Report (SE-4096) and the Final Expenditure Report (DS-4044) for Federal Grants" dated March, 2002, has been sent to all districts. Persons completing this form for the first time may wish to read that publication.

This publication is available upon request from the OSE.

General Accounting Information

Early Retirement Incentive Payments

These include: (a) lump sum payments, (b) retirement incentive payments spread over the following year, and (c) the purchase of annuities as a retirement. These incentives do not qualify for state categorical reimbursement. The early retirement incentive payment plan is developed for the convenience of the school district and is not directly related to providing services to pupils with disabilities.

Stipends or prepaid insurance for personnel that retire early do not qualify for categorical reimbursement. These payments are made as an incentive for personnel to retire early and are not part of the ordinary fringe benefits and operational costs of the district.

Payment of unused sick leave is reimbursable to the extent that the sick leave was accrued during service to the categorical program. For example, if an employee worked five years in a general education program and five years in a special education program, the split in the reimbursement for unused sick leave should be 50 percent to each.

Expenditure for Repair and Maintenance

Costs for repair or replacement of items such as carpeting, copy machines, windows, and lavatories are reimbursed as a part of the district's indirect rate. If the district is eligible and chooses to claim direct operation and maintenance for a building, these costs may be included as part of the direct operation and maintenance. Direct operation and maintenance costs plus indirect costs cannot exceed 15 percent of direct costs as specified in Section 51a(7)(a) of the State School Aid Act. District's wishing to claim direct operation and maintenance should contact the OSE for assistance.

Lease Purchase and Rent

Lease purchase of facilities and rent of facilities are not reimbursable.

Refunds

These are a credit against the year in which the refund is received for the purpose of calculation of costs on this form.

Tuition Reimbursement

These costs coded under object code 2310 for employees to return to higher education to complete degree requirements are not reimbursable as a necessary cost of special education under state school aid.

Form SE-4096, District Summary Report

All of the amounts in the District Summary Report will populate upon completion of Section 52, Section 53a, Federal Grant Expenditures, Section 52 Itinerant Cost, and Section 53a Itinerant Cost pages. You will not need to enter any information. The following is an explanation of the different line items on the summary report.

Line 1a - Total amount of allowable expenditures for Section 52 programs. This total populates from the Total Cost on the Section 52 page of the SE-4096.

Line 1b - Total amount of allowable expenditures for Section 52 itinerant staff that were employed in another district in 2003-04 and transferred to your district in 2017-18 (**ISDs only**). This total populates from the Total Itinerant Services on the Section 52 Itinerant Costs page of the SE-4096 of the ISD's constituent LEAs that had Section 52 itinerant costs.

Line 1c - Section 52 reimbursable expenditures for special education. This is the total from line 1a minus line 1b.

Line 1d - Total amount of allowable expenditures for Section 52 itinerant staff enter by LEA's ISD. This line is used to add the itinerant staff costs back to the district where the staff was employed in 2003-04. This total populates from the Total Itinerant Services on the LEA's Section 52 Itinerant Costs page of the SE-4096.

Line 1e - Total reimbursable Section 52 expenditures. This is the total from line 1c plus line 1d.

Line 2a - Total amount of allowable expenditures for Section 53a programs. This total populates from the Total Cost on the Section 53a page of the SE-4096.

Line 2b - Total amount of allowable expenditures for Section 53a itinerant staff that were employed in another district in 2003-04 and transferred to your district in 2017-18 (**ISDs only**). This total populates from the Total Itinerant Services on the Section 53a Itinerant Costs page of the SE-4096 of the ISD's constituent LEAs that had Section 53a itinerant costs.

Line 2c - Section 53a reimbursable expenditures for special education. This is the total from line 2a minus line 2b.

Line 2d – Total amount of allowable expenditures for Section 53a itinerant staff enter by LEA’s ISD. This line is used to add the itinerant staff costs back to the district where the staff was employed in 2003-04. This total populates from the Total Itinerant Services on the LEA’s Section 53a Itinerant Costs page of the SE-4096.

Line 2e - Total reimbursable Section 53a expenditures. This is the total from line 1c plus line 1d.

Line 3 - Total of allowable expenditures that each entity expended from other state and federal sources. These sources include all IDEA grants, Section 51a(6), and direct federal grants. These expenditures must be listed by funding source on the Federal Grant Expenditure page.

IDEA funds must be recorded in a segregated account. If a district’s accounting records show more expenditures attributed to IDEA Flowthrough than the amount of grant funds, reallocate the excess expenditures to the Section 52 program. Costs allocated to Section 52 must be accounted for by the appropriate object code. Do not place these amounts in the Other Expenses column. Only costs in excess of federal revenue approved in the IDEA grant application may be included on the Section 52. The total claimed on the Interim Federal Expenditure Report (IFER) and Section 52 of the SE-4096 cannot exceed the approved IDEA budget. Expenditures in excess of the grant award under Transition Services are eligible to be reported on Section 52 of the SE-4096 if they conform to the Allowable Costs Document for State Aid.

If a district’s accounting records show less expenditures for an IDEA Flowthrough project than the funding received, examine the Section 52 expenditures carefully to determine if any of these Section 52 expenditures can legitimately be reallocated to the grant consistent with the approved grant application. If not, LEAs must return the excess federal funds to the ISD. ISDs must return excess funds to the state.

Explanation of Expenditures on Line 3 - Please list the source and amount of funds shown on line 3 on the Federal Grant Expenditures page. Sources may be IDEA grants, Section 51a(6), or direct funded federal projects.

Line 4 - Total allowable expenditures for special education. This is the total of lines 1e, 2e, and 3 and must be reconcilable to your accounting records.

Detailed Instructions for Form SE-4096, Section 52 and Section 53a

Include all eligible special education expenditures not reported elsewhere. **Do not include any Section 51a(6) or federal grants expenditures in Section 52 or**

Section 53a that have been identified on the Federal Grant Expenditures page.

Professionals

Enter the number of FTE special education approved professional personnel hired by the district. The FTE positions should be reported to the nearest tenth (0.0). **If no personnel are reported, but there are costs, attach an explanation.** LEAs, PSAs, and ISDs that contract with a third party entity for staff other than substitute teachers or aides must also complete this column.

Aides

Enter the FTE aides that qualify for reimbursement and for whom salaries are included in the salaries column. Aides qualify for reimbursement to the extent they spend time working in special education.

Do not include the FTEs for program assistants, interpreters, substitutes, or secretaries in the aides column. The salaries for program assistants and interpreters are reimbursable to the extent that they spend time working in special education. Secretaries are required to work their full employment with the district in special education to be reported for reimbursement. However, they are not considered aides and the FTEs are not to be listed in this column.

Health care aides serving an occupational therapist, physical therapist, or school nurse should be reported on the 213-Health Services line on Section 52 and/or Section 53a. All other aides must be reported by program assignment (classroom) of the pupil to the nearest tenth (0.0).

Please note for aides with a split assignment that a Personnel Activity Report (PAR) or equivalent documentation must be completed. Such PARs are subject to review by the OSE. Refer to the Michigan Department of Education's memorandum [clarifying funding for special education paraprofessionals with a split-assignment](#).

Expenses

Enter the cost information on the appropriate function lines and in the appropriate object code column (Salaries, Benefits, Purchased Services-Staff, Purchased Services-Non Staff, Supplies and Materials, etc.).

The Salaries column does not include costs for severance or termination payments or other special payments under object code 17xx. Such payments are not costs necessary for the provision of special education programs and services.

The Benefits column only includes those employee benefits in the 2100 series—insurances, 2800 series—mandatory coverages and those under 2920 (refer to

Allowable Costs Document for State Aid and IDEA Part B, Section 611). **Tuition reimbursement** is **NOT** an allowable benefit for reimbursement.

Purchased Services-Staff is for the 2017-18 year only includes costs for staff contracted from a third party entity. A third party entity is NOT another Michigan LEA, PSA, or ISD. Costs in this column are coded under object codes 31xx (see page five of the instructions).

Purchased Services-Non Staff is for all other allowable expenditures coded under object codes 3xxx-4xxx (refer to the Allowable Costs Document for State Aid and IDEA Part B, Section 611).

Other Expenditures includes ONLY costs for dues and fees to professional organizations, as well as, the costs for criminal background checks on instructional staff.

Tuition payments, service billings and contracted services between school districts are not allowable costs. Billings between districts for itinerant staff costs are not allowable costs. The operating district will claim state special education categorical aid and deduct it from the cost before billing the contracting district.

TOTAL

If using the online Excel form, the worksheet will automatically total the rows. If you are manually completing the SE-4096, enter the expenditure totals of each line under the TOTAL column of Section 52 and Section 53a.

Section 24

Enter the special education costs for programs approved by the OSE and operated on the grounds of a juvenile detention facility or child caring institution funded under Section 24 of the State School Aid Act. The amount on this line must agree with the total Section 52 cost reported and approved on the SE-4824, Section 24 Actual Cost Report for Section 52 and the total Section 53a cost reported and approved on the SE-4824, Section 24 Actual Cost Report for Section 53a.

Subtotals and Total Costs

The forms will automatically subtotal and total the columns.

Indirect Costs

Enter the total indirect costs amount on the Indirect Costs row under the Other Expenditures and TOTALS column on f Section 52 and Section 53a (multiply the approved indirect rate by the total direct costs located on the Subtotal –

Instructional and Non-Instructional Support row under the TOTAL column on Section 52 and on Section 53a).

If the special education indirect rate is not known, contact your intermediate school district, or refer to the

[Indirect Cost Rate for Special Education Added Costs](#)

Indirect cost rates are your district's rate or 15 percent, whichever is less.

Board of Education/Adjustments

Enter allowable costs related to special education hearings other than school attorney fees. This line will also be used by the OSE to make any necessary adjustments to the report and is used to report funds transferred to MRS as described on page 6 of the instructions. This line is also used to report unemployment costs to the extent the individual was employed in special education.

Capital Outlay

This amount includes only single pieces of equipment costing \$5,000 or more. It is limited to items used solely for instruction of special education pupils. Equipment purchased for use of individual pupil instruction or to provide access to education (wheelchairs, group hearing devices, etc.) may also be included (refer to the [Allowable Costs Document for State Aid and IDEA Part B, Section 611](#)).

Enter capital outlay purchases used in classrooms on the Subtotal – Instructional row under the Capital Outlay column on Section 52 and Section 53a and capital outlay purchases used by support staff on the Subtotal – Non-Instructional Support row under the Capital Outlay column on Section 52 and Section 53a.

Items, such as desks and movie projectors, are considered standard equipment for regular education classrooms and are not reimbursable.

An itemized list of equipment claimed on this line must accompany the SE-4096. The list must identify the item, cost, and the purpose or use if not obvious. The list should be attached using the **View Submitted Attachments** page on the home page.

Direct Operation and Maintenance

This is limited to programs that are in separate facilities used solely for special education pupils. Districts with an indirect rate of 15 percent or more do not qualify. To be considered for reimbursement, a schedule detailing the costs upon which the direct operation and maintenance is being calculated must be included

with the SE-4096. This consists of those activities concerned with keeping the physical plant open, comfortable and safe for use, and keeping the grounds, buildings and equipment in an effective working condition and state of repair. This includes activities of maintaining safety in buildings, on the grounds, and in the vicinity of schools. All utility expenditures such as electricity, heating (metered or bulk supply), water and sewage waste and trash disposal, and telephone charges are also included under this function. Building security is included under this function. More information, including an example, is available upon request from the OSE.

Enter the amount of direct operation and maintenance costs eligible to be charged. The combined total of the indirect cost and the direct operation and maintenance costs cannot exceed 15 percent of district program costs. Attach worksheets showing details of the calculations to the View Submitted Attachments page on the home page.

Tuition MSD

Only applies to ISDs. Enter the total preliminary tuition for pupils attending the Michigan School for the Deaf (MSD). The OSE will adjust this figure when the final tuition billings are complete in October, 2018. Prior to making this adjustment, the OSE will contact each ISD to confirm the accuracy of applying all of the final tuition to the SE-4096.

Detailed Instructions for Form SE-4096, Section 53a

Pupil Eligibility

Only complete this section if:

Section 53a pupils were reported on the special education page of the "2017-18 Pupil Membership Count," in the Michigan Student Data System (MSDS) for the October 2017 count (**do not complete for pupils counted as Section 53a on the February 2018 count date**); or

Section 53a Transportation costs were reported on the "Transportation Expenditure Report," SE-4094 **Transportation Expenditure Report**; or

The OSE has provided written approval to charge a unique cost for a ward of the state. A copy of the approval must accompany the SE-4096.

Eligible Costs

The number of pupils enrolled on the October pupil count (MSDS) will be the basis for calculating Section 53a program costs.

As indicated in Section 53a(2) of the State School Aid Act, "only those costs that are clearly and directly attributable to educational programs for pupils described in subsection (1), and that would not have been incurred if the pupils were not being educated in the district or intermediate district, shall be reimbursed under this section." Administrative costs related to operating the program including costs related to directors of special education, special education supervisors, special education building principals, secretarial support for special education personnel, transportation supervisors and clerical staff, cost of operating the bus garage and other administrative costs normally incurred by the district are not chargeable to Section 53a. **Program costs that are reimbursed by federal funds are not to be charged to Section 53a.**

Reimbursement for classroom programs and supportive services will be calculated based on the proportion of Section 53a pupils enrolled in the program or service, based on the number of pupils and costs for the total program. This is not calculated on a single classroom basis.

For example, a district operating an emotional impairment program has one Section 53a pupil out of a total of 10 enrolled in the program. In this case, 90 percent of the cost will be attributed to Section 52 and 10 percent to Section 53a. The program cost is \$40,000. Ninety percent or \$36,000 is reported as a Section 52 program cost for emotional impairment and the remaining \$4,000 is reported as a Section 53a emotional impairment program cost.

The district's one Section 53a emotional impairment pupil also receives speech. The district provided speech and language services to 100 pupils. Therefore, the district may bill 1 percent of the speech program cost to Section 53a and the other 99 percent to Section 52.

Costs unique to services for Section 53a pupils may be added to the proportion of costs billed to Section 53a provided there is a detailed explanation of the costs and the district has written prior approval from the OSE. These include the costs of a special communicative device for pupils or for capital outlay equipment that is used totally by the Section 53a pupil and is not available to other pupils in the district. Capital outlay costs for items which are used by the total program **cannot** be prorated to Section 53a since these costs are not unique to programming for court or state agency placed pupils. Direct cost for aides assigned to Section 53a pupils, as well as, administrative and consultative staff assigned to institutions and nursing homes require written prior approval to be charged to Section 53a.

Section 53a Transportation

Only costs associated with Section 53a pupils receiving "specialized transportation services" qualify. Specialized transportation services means transportation services provided in vehicles for the exclusive use of special education pupils (R388.371).

To claim transportation costs under Section 53a, the district must complete **Section 53a Allocation Verification for 2017-18** on page 8 of the SE-4096 and submit it to the OSE. You will need to complete additional verification pages if you have more than 25 riders to report. The verification page includes the following information:

- The names of the Section 53a pupils receiving specialized transportation services as of the transportation count week in October of 2015.
- The bus number from the bus inventory that each of the above pupils rides on during the count week.
- A copy of the SE-4094, Transportation Expenditure Report, to verify the amount claimed.

Place the amount reported on the SE-4094, Special Education-Section 53a Total Expenditures on the 271-Pupil Transportation row under the Other Expenditure and TOTAL columns of page 6 of the Section 53a report. This amount will be the district's reimbursable cost for Section 53a Transportation.

Detailed Instructions for Form SE-4096, Section 52 Itinerant Cost and Section 53a Itinerant Cost

Only districts that employed itinerant staff transferred from another district need to complete these pages. To accomplish this, the 2017-18 employing district will report the cost for the itinerant staff on the 2003-04 employing district's Section 52 Itinerant Cost and/or Section 53a Itinerant Cost pages of the SE-4096.

Include all eligible special education expenditures related to the itinerant staff. Do not include any expenditures for Section 51a(6) or federal grants identified on the Federal Grant Expenditures page of the SE-4096.

Professionals

Enter the number of FTE special education approved personnel hired by the district that had been employed in another district in 2003-2004. The FTE positions should be reported to the nearest tenth (0.0).

Aides

Enter the FTE aides that qualify for reimbursement and for whom salaries are included in the Salaries column. Aides qualify for reimbursement to the extent they spend time working in special education.

Do not include the FTEs for program assistants or interpreters in the aides column. The salaries for program assistants and interpreters are reimbursable to the extent

that they spend time working in special education. However, they are not considered aides and the FTEs are not to be listed in this column.

Health care aides serving as an occupational therapist, physical therapist, or school nurse should be reported on the 213-Health Services row on page 3 of Section 52 and page 6 of Section 53a. All other aides must be reported by program assignment (classroom) of the pupil to the nearest tenth (0.0).

Please note for aides with a split assignment that a PAR or equivalent documentation must be completed. Such PARs are subject to review by the OSE. Refer to the Michigan Department of Education's memorandum [clarifying funding for special education paraprofessionals with a split-assignment](#).

Expenses

Enter the cost information on the appropriate function lines and in the appropriate object code column (Salaries, Benefits, Purchased Services-Staff, Purchased Services-Non Staff, Supplies and Materials, etc.).

The Salaries column does not include costs for severance or termination payments or other special payments under object code 17xx. Such payments are not costs necessary for the provision of special education programs and services.

The Benefits column only includes those employee benefits in the 2100 series—insurances, 2800 series—mandatory coverages and those under 2920 (refer to Allowable Costs Document for State Aid and IDEA Part B, Section 611). **Tuition reimbursement** is **NOT** an allowable benefit for reimbursement.

Purchased Services-Staff is for the 2015-2016 year only includes costs for staff contracted from a third party entity. A third party entity is NOT another Michigan LEA, PSA, or ISD. Costs in this column are coded under object codes 31xx (see page five of the instructions).

Purchased Services-Non Staff is for all other allowable expenditures coded under object codes 3xxx-4xxx (refer to the Allowable Costs Document for State Aid and IDEA Part B, Section 611).

Other Expenditures includes ONLY costs for dues and fees to professional organizations, as well as, the costs for criminal background checks on instructional staff.

TOTAL

The forms will automatically total the rows.

Total Itinerant Staff Cost

The forms will automatically total the columns.

The sums of Section 52 are carried over and placed on line 1b and Section 53a on line 2b on the District Summary Report as appropriate.
