YEAR IN REVIEW by Kathie Oviedo, Deputy Commissioner of Charitable Gaming

On behalf of the Charitable Gaming Division staff, it is my pleasure to present the 2011 Annual Report. This report summarizes revenues received from charitable gaming activities.

In my first year serving as the Deputy Commissioner of Charitable Gaming, I was impressed by the relentless hard work and accomplishments being achieved by licensed organizations. I recognized the self-sacrifice it takes from the organizations and their volunteers to raise awareness and draw people together by encouraging involvement in addressing needs of the community and the underprivileged.

Licensed organizations have used charitable gaming proceeds to improve local communities in extraordinary ways by providing scholarships, camps, and school programs for under-privileged children; aiding financially disadvantaged families; helping homeless and drug addicted individuals; making available refuge for victims of domestic violence; building parks and playgrounds for our children; offering programs for senior citizen centers; supporting local police and fire departments; and giving much needed services to our veterans and military families. These are but a few examples demonstrating the positive impact charitable gaming has on the communities in which we all live.

As we move forward into next year, our goal is to ensure organizations continue to be profitable and promote charitable gaming as a lucrative venue to provide proceeds for their lawful purposes. Charitable gaming has contributed millions of dollars to communities all across Michigan. Although it comprises only a small portion of the total gaming industry, charitable gaming provides direct benefits to virtually every corner of the state. The Charitable Gaming Division will be taking new strategies that involve an enhanced public affairs role to include the development of improved communication through social media, and more convenient and accessible education and training opportunities. In addition, we are dedicated to providing efficient customer service and continual improvement of the charitable gaming activities through new game opportunities, technology, and effective regulation. Our initiative is to ensure that charities, suppliers and others work together and operate with honesty and integrity and in the public interest. Success of charitable gaming is dependent upon fair and productive partnerships between all participants in the sector so together we can make this a great program.

My utmost appreciation and respect goes to the organizations, suppliers, locations, volunteers and players for their dedication in making a difference in our communities and I look forward to working with you collectively to enhance our program even more in 2012.

A location can be rented to an organization for bingo if that location becomes licensed. Before an organization is approved to play bingo at a licensed location, all terms of the rental agreement must be approved by the bureau.

In FY 2011, licensed bingo games were held in the following facilities:

- Own Location ........................................................................ 48%
- Related Organization’s Location/Donated .......................... 12%

Act 382 of the Public Acts of 1972, as amended, requires the licensing of all suppliers of gaming equipment wishing to do business with nonprofit organizations licensed by the bureau. Licensed nonprofit organizations are required to purchase or rent the gaming equipment they use from a licensed supplier at a reasonable rate. Licensed suppliers are required to post a performance bond to sell charity game tickets.

The suppliers annual license fee is $300. Each supplier is required to file a report with the bureau of financial activity pertaining to sales or rentals.

Revenue collected in excess of the division’s operating expenses, including the payment of charity game ticket program costs, is turned over to the state’s General Fund.

In FY 2011, division gross revenue was $16,001,968.
