**Source:** U.S. Census Bureau, Population Estimates Branch, Estimates of Subcounty Population for 2000-2009, released June 2010. These estimates were prepared by the U.S. Census Bureau through the Federal-State Cooperative for Population Estimates.

**Notes:** The "Estimate Base" differs from the census count due to (1) boundary changes between January 1, 2000 and January 1, 2008, as reported in the Boundary and Annexation Survey; (2) census corrections made through the Count Question Resolution program; and (3) other geographic corrections made by the Census Bureau.

The Census Bureau's population estimates are sometimes referred to as "mid-year" or "July" estimates. However, they do not reflect seasonal population movements. The difference between the estimates base and the population estimate for 2000 reflects one-quarter of the estimated population change between 1999 and 2000. Each subsequent estimate reflects one year of population change relative to the prior estimate. Migration among states and counties is primarily estimated upon the basis of addresses reported on federal tax returns that are filed in the first quarter of each year.

n.a. = not applicable. In the Census 2000 column, 'n.a.' indicates that a geographic unit did not exist at the time of the 2000 Census. Where 'n.a.' appears in other columns, it indicates that a geographic unit existed in 2000 but no longer existed as of January 1, 2009.

Geographic changes since the previous data release include the addition of a portion of Mayville village in Dayton township (Tuscola county) and the deletion of a portion of Holly village from Rose township (Oakland county).
