

Application for Permission to Organize a State-Chartered Credit Union

The formation of a Michigan-chartered, de novo credit union is subject to the requirements of Article 3, Part 1 of the Michigan Credit Union Act, PA 2015 of 2003, as amended.

Prior to filing an application with the Department of Insurance and Financial Services (DIFS), it is strongly recommended that the organizers of the proposed credit union meet with DIFS personnel to discuss the field of membership and operational concepts of the proposed credit union. A draft of the application package including a business plan should be completed prior to the meeting.

Credit union membership is limited to persons who are members of a group(s), (a) of any size that have common bond of occupation, association, or religious affiliation; or (b) whose common bond is residence, employment, or place of religious worship within a geographic area; or (c) whose common bond is common interests, activities, or objectives.

Initially a new credit union should have at least 500 primary members in order to assure a reasonable chance of success and to be of service to members. Smaller groups may be able to obtain credit union service by aligning with an existing credit union. Capable persons must be available to volunteer their time to serve as chairperson, vice-chairperson, treasurer, directors and committee members, as applicable.

All members of the credit union have an **equal** share of the institution. Any excess capital over the par share value that may be contributed by persons or organizations is "donated capital," and those persons or organizations would receive no additional return or ownership from it.

The amount of net worth will determine the size of loans that can be made. The aggregate lending limit for a borrower of a credit union is 25% of its net worth, which is the credit union's undivided earnings and reserves. Therefore, it can be difficult for a startup credit union to make certain consumer loans or home mortgages. As a credit union grows, larger and more complex loan types may become more practical.

Michigan state-chartered credit unions are also required to have share (deposit) insurance from the National Credit Union Administration and must therefore meet the NCUA's requirements as well.
