

Get ready to give kids 12-15 their dose of hope.

The COVID-19 vaccine is available to adolescents 12-15 years old. Make sure your office is enrolled and ready to administer the vaccine by taking these four steps:

1

Become a registered MCIR user.

If your practice isn't already registered, visit

https://www.mcir.org/wp-content/uploads/2019/09/MCIR_Provider_User-Usage_Agreement-easy-fill-8262019.pdf

REGISTER

Fill out the CDC Provider Agreement.

Complete the [CDC COVID-19 Vaccination Program Provider Agreement](#) for the practice.

NOTE: Whoever completes the form will receive all emails regarding vaccines from the CDC and VaccineFinder.

2

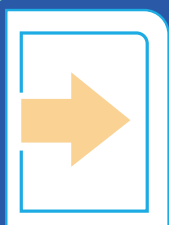

3

Submit the form.

After you submit the completed Provider Agreement, a confirmation email will be sent, and your CMO and CEO will receive a link to sign the agreement.

SUBMIT

Log in to complete the registration.

Log into MCIR (through [MILOGIN](#)) to finish the CDC COVID-19 Vaccine Site Provider Registration. You'll need the Corporate/Organization CMO License number to complete registration.
