

Welcome and Introductions

Allen Jansen

Senior Deputy Director

Behavioral Health and Developmental Disabilities

Putting people first, with the goal of helping all Michiganders lead healthier and more productive lives, no matter their stage in life.

Today's Format

- Rather than slide presentations, we have three guests today to answer your questions relating to:
 - 1) Visitation rules in the current Executive Order, and
 - 2) MIOSHA guidelines.
- Please keep your microphones muted and **type your questions into Chat**. We will read them aloud for our guests to answer.
- If you want to record this session to watch later, please request permission in the Chat. Permission is granted one person at a time, so please be patient.

Reminders

- There will NOT be a session on Wednesday, March 3.
- Next session: Wednesday, March 10, at 2:00pm.

Questions about Visitation *Requirements for Residential Care Facilities*

If you are a school, local health department or long term care facility looking for the County Risk Indicator for your area, please visit [this page](#).

Risk Levels

Low A B C D E

Geographic Area: Michigan

Michigan Statewide

Statewide Overview (Feb 13):
Update based on data up through 2/13/2021. The State of Michigan positivity (3.9%) has decreased for five weeks. All eight MERC regions have recorded decreasing positivity for four or more weeks. The statewide case rate, 112.9 cases per million people, is decreasing for 34 consecutive days, and the current rate is 85% lower from the mid-November peak. Case rates are decreasing in all eight MERC regions. There are 5.2% of inpatient hospital beds in Michigan occupied by patients with COVID-19. Statewide hospitalizations for COVID-19 have decreased for over two months. This metric is decreasing and below 10% in all regions. The state death rate (4.0 deaths per million people) is decreasing for seven weeks, and this is a 70% decrease from the second surge peak. All regions are seeing decreases in deaths with half of all regions reporting fewer than twenty COVID-19 deaths in the past week (Lansing, Traverse City, Jackson, and Upper Peninsula). State of Michigan and six of the MERC regions have are at Risk Level D.

COVID-19 RESIDENTIAL CARE VISITATION ORDER

This order provides a safe plan for visitation, and continues necessary protections for residents and staff in facilities across the state.

County Risk Level (Based on the MI Safe Start Map)	Outdoor	Indoor	Compassionate Care
Low, A, B	Yes, if no recent cases in the facility	Yes, if no recent cases in the facility	Yes
C or D		Yes, with visitor testing,* and if no recent cases in the facility	Yes, with visitor testing required for indoor visits.* End of life visits are exempt from testing.
E		Not allowed	

Different rules apply to special categories of visitors, such as medical providers and those providing assistance with activities of daily living. See the [Residential Care Special Cases Guidance](#) for more information.

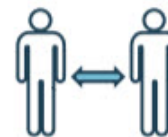

Visitation Precautions:

Limited number of visitors/
appointments only

Health screenings

Six feet of physical distancing

Face coverings (and other PPE
when required by the facility)

Hand hygiene and other cleaning/
disinfecting protocols

*Visitor testing is required in Nursing Homes, Homes for the Aged (HFAs), and Adult Foster Care homes (AFCs) licensed to serve 13 or more individuals. Visitor testing is not required in AFCs licensed to serve 12 or fewer individuals, unlicensed Assisted Living facilities, Hospice facilities, and Substance Use Disorder (SUD) Residential facilities.

Compassionate Care visits are those for residents in serious/critical condition, or in hospice care, including end of life visits.

For types of visits requiring testing, facilities must require visitors to be tested within 72 hours before visiting and show proof of negative test results upon entry. Contact the facility for more information about on-site and community testing options.

Questions or concerns can be emailed to COVID19@michigan.gov.

OTHER QUESTIONS ABOUT
VISITATION ISSUES?

Questions about MIOSHA Standards *Requirements for Residential Care Facilities*

Anthony Smykla

Industrial Hygienist

Michigan Occupational Safety & Health Administration

Department of Labor & Economic Opportunity

A question to get us started...

MIOSHA does not have a template plan for High and Very High Exposure Risk Employers. I've heard we are supposed to modify the Lower and Medium Exposure Risk Employers template plan. Any advice on how to do that?
