

# Ubwoko bushya bwa virusi bukwirakwira byoroshye bushobora gutuma umubare w'abandura COVID-19 uzamuka byihuse

## Ubu rero, kuruta mbere hose, ni ngombwa kugabanya ikwirakwira

Virusi zihora zihinduka biciye mu ruhererekane ndetse ubwandumu bushya bwa virusi buteganyijwe kubaho mu gihe runaka.

Virusi itera COVID-19 izwiho kugenda, ihinduka bundi bushya, muri rusange inshuro imwe buri byumweru bibiri.

Ubwoko bumwe bushobora gukwirakwizwa cyane cyangwa kudakangarwa n'inkingo mu buryo bworoshye - bityo rero ni ngombwa kwirinda icyatuma wandura.

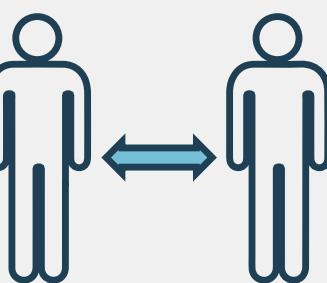

Abantu bagenda muri Michigan ndetse n'abashobora kuba barafashwe n'ubwandumu bushya bagomba kujya mu kato k'iminsi 14 (nta mahitamo yo kurangiza akato kare bafite) kandi bagapimwa.

### Ambara agapfukamunwa

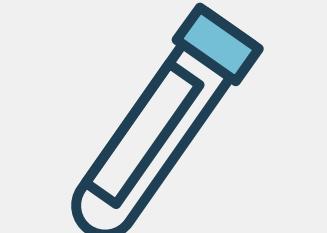

Igikoresho bakinga ko mu maso gishobora kwambarwa hejuru y'agapfukamunwa mu rwego rw'ubwirinzi bwisumbuye

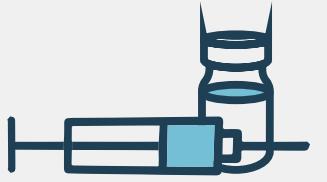

### Siga nibura intera y'intambwe 2

### Irinde guhura n'abantu benshi imbere mu nzu

### Ipimishe

### Ikingize mu gihe biri iwawe
