

REPORT TO THE LEGISLATURE
Pursuant to P.A. 114 of 2009
Section 925
Administrative Segregation Report

Section 925: By March 1, 2010, the department shall report to the senate and house appropriations subcommittees on corrections, the senate and house fiscal agencies, and the state budget director on the number of prisoners in administrative segregation between October 1, 2003 and September 30, 2009, and the number of prisoners in administrative segregation between October 1, 2003 and September 30, 2009 who at any time during the current or prior prison term were diagnosed with serious mental illness or have a developmental disorder and the number of days each of the prisoners with serious mental illness or a developmental disorder have been confined to administrative segregation. As used in this section:

(a) "Administrative segregation" means confinement for maintenance of order or discipline to a cell or room apart from accommodations provided for inmates who are participating in programs of the facility.

(b) "Serious mental illness" means that term as defined in section 100d(3) of the mental health code, 1974 PA 328, MCL 330.1100d.

This report summarizes data compiled by Corrections Mental Health Program Support Services (CMHPSS) which includes cumulative and individual case data for serious mental illness (SMI) or developmental disorder (DD) as identified on the mental health caseload.

Fiscal Year	Total Number of Days for All Prisoners in Administrative Segregation	Daily Average Number of All Prisoners in Administrative Segregation	Total number of Days for Prisoners w/SMI or DD in Administrative Segregation	Daily Average Number of Prisoners w/SMI or DD in Administrative Segregation
2003-2004	554097	1514	16448	45
2004-2005	479092	1313	16747	46
2005-2006	489246	1340	17530	48
2006-2007	487727	1336	15351	42
2007-2008	473509	1294	12622	35
2008-2009	429910	1177	12070	34

Additionally, the Department operates two Adaptive Skills Residential Programs (ASRP) for prisoners with impairments in adaptive behavior, often the result of developmental disorders or impaired intellectual functioning. A 110-bed ASRP unit at the Richard A. Handlon facility (MTU) serves prisoners at custody Level II or lower. This unit was formerly known as the Social Skills Developmental Unit (SSDU). A 142-bed ASRP unit at the St. Louis Correctional Facility (SLF) opened June 29, 2009 to serve higher security prisoners and those posing management problems. Regular psychological services rounds within segregation units statewide are employed to identify prisoners who would qualify for the high security unit.
