

**REPORT TO THE LEGISLATURE**  
**Pursuant to P.A. 84 of 2015**  
**Article V, Section 509**  
**MSI Study Report**

Sec. 509 (1). The department shall conduct a study on the Michigan state industries program. The study shall focus on determining which industries within the 10 identified prosperity regions in this state have the maximum benefit to the prisoner population in providing marketable skills and leading to employable outcomes after release of the prisoner from a department facility. The report shall also include data on the current labor force trends in the prosperity regions of this state and how the operations of Michigan state industries can work in coordination with local communities to determine the industries that would produce the greatest number of employable prisoners upon release.

(2) By December 1, the department shall provide a report to the senate and house appropriations subcommittees on corrections, the senate and house fiscal agencies, and the legislative corrections ombudsman detailing the results and recommendations from the study on Michigan state industries described in subsection (1).

Correctional Industries Act; Act 15 of 1968 - An Act to provide for the employment of inmate labor in the correctional institutions of this state; to provide for the employment of inmate labor in certain private enterprises under certain conditions; to provide for certain powers and duties of the department of corrections, the governor, and other officers and agencies in relation to correctional institutions; to provide for the requisitioning and disbursement of correctional industries products; to provide for the disposition of the proceeds of correctional industries and farms; to provide for purchasing and accounting procedures; to regulate the sale or disposition of inmate labor and products; to provide for the requisitioning, purchases, and supply of correctional industries products.

All funds collected from the sale or disposition of goods, wares, and merchandise manufactured by inmate labor, or received for services provided by labor in the correctional institutions shall be turned over to the state treasurer and credited to the correctional industries revolving fund and shall be paid out only for the cost of doing business incurred in carrying out the purpose of the Act (800.325). However, the sale, exchange or purchase of industries products is limited to an institution of this or any other state or political subdivision of any other state, the federal government or agencies of the federal government, a foreign government or any non-profit entity with a designation of 501c3 from the U.S. Internal Revenue Service. MSI is also currently permitted to sell its cut and sew services to any private business or individual, if the products are cut and sewn textiles for a limited period of time as well.

Also included in PA 15 of 1968 is the intent that MSI shall operate as a total self-supporting system; furthermore that MSI do the following:

1. Provide adequate, regular, diversified, and suitable employment for inmates of the state for the purpose of enhancing job skills consistent with proper penal purposes.

2. Affect the requisitioning and disbursement of correctional industries products and services directly through established state authorities without possibility of private profits and without any intermediating financial considerations, appropriations, or expenditures.
3. Permit the management of correctional industries to operate in a manner as similar as possible to similar private industrial operations.
4. Require correctional industries to be a total self-supporting system.

Currently MSI operates the following factory operations in the noted Prosperity Regions:

<u>Prosperity Region</u>	<u>Prison Facility</u>	<u>Factory Type</u>	<u>Civil Service Employees</u>	<u>Prisoner Employees</u>
1e	Chippewa	Garment Factory	5	91
4b	Bellamy Creek	Shoe Factory	2	41
		Sign Factory	2	12
	Ionia	Cut & Sew Factory	3	77
5	Brooks	Laundry	4	35
	Carson City	Garment Factory	5	96
6	Thumb	Laundry	8	65
9	Gus Harrison	License Plate	6	62
		Optical Lab	0	12
	Huron Valley	Dental Lab	1	12
10	Cotton	Mattress Factory	2	37
		Print Shop	1	9
10	Detroit Reentry Center	Janitorial Factory	<u>4</u>	<u>23</u>
			43	572

In addition, MSI currently provides a fleet delivery system out of Region 9 and houses its Administrative Operations in Prosperity Region 7.

Prisoners who work at the various factories are hired by MSI from prisoners referred to the factory supervisor by the individual prison classification directors. Whenever possible, MSI hires prisoners close to their Earliest Release Date (ERD) so that the potentially paroling prisoner has full-time work skills in order to enhance their potential employability upon parole.

The majority of MDOC prisoners either need to update their jobs skills or need to learn job skills or in order to be meaningfully employed upon parole. Those job skills can be learned through a variety of methods including, but not limited to, MDOC vocational education, correspondence courses, and MSI employment.

MSI, working with both the MDOC Education staff and with resources from the DTMB Bureau of Labor, reviewed numerous documents and reports to develop the tables included in the appendix. Michigan labor market information was evaluated for skills and certifications currently sought by Michigan employers, educational requirements of Michigan employers, and the location of jobs across Michigan, as well as who the key employers are in the various Prosperity Regions.

According to information compiled by MDOC Education staff, paroled prisoners find employment in a number of areas upon parole utilizing skills learned in both the MDOC vocational programs and from working within Michigan State Industries. However, as many of the top demanded professions include Serve Safe certification, warehouse certification or fork lift certification, MSI will begin to explore ways to ensure that more of the prisoners paroling from Industries receive certification in one or more of these areas.

An analysis of the individuals who have paroled from MDOC since March of 2013 with MSI work experience was also performed. One clear outcome of the analysis is that MSI factories are not necessarily located in the regions to which their experienced workers parole, however for the most part MSI experienced parolees did parole in approximately the same ratio as overall MDOC paroles. The two statistically significant exceptions to that were that more MSI parolees went to Prosperity Region 4b and fewer went to Prosperity Region 10. A detailed analysis of the job classifications held by parolees was also completed which matched market needs in many cases. Also evaluated was the length of time that individuals were employed by MSI and their success/failure upon parole.

After evaluating all of the available data, compiled from a myriad of sources both within MSI, MDOC and State and Federal Government, and in consideration of MSI's statutory requirements to self-fund all of its operations, provide useful job skills to paroling/discharging prisoners and in consideration of its limited market of customers, a number of recommendations have been developed within MSI. The recommendations include the following:

- That Michigan State Industries (MSI) work with the Michigan Department of Corrections (MDOC) to reduce the time spent between leaving MSI employment and actual parole to the street in order to ensure retention of learned job skills to facilitate the best probability of employment.
- That MSI and MDOC work with DTMB to facilitate MSI's ability to rapidly acquire raw materials and services in compliance with PA 15 of 1964 (800.331).
- That MSI continue to work toward operational efficiencies necessary to ensure operations do not require additional funding from the General Fund or MDOC and, in fact, build up operational capital so that additional opportunities for employing prisoners can be explored.
- That MSI continue to require their prisoner employees to have either their high school diploma or their GED as 56% of all statewide vacancies require this level of education at a minimum.

- That MSI continue to work with individual facility Classification Directors to employ prisoners within 3-5 years of their Earliest Release Date (or less) to ensure the maximum benefit to paroling prisoners upon reentry.
- That MSI evaluate the overall length of employment of some prisoners to determine whether such employment slots could be better utilized by offenders closer to release.
- That MSI continue to work with MDOC Education to expand opportunities for prisoners to earn both warehouse and fork lift operator certificates to enhance employability upon parole, including potentially utilizing MSI space on second shift with MDOC Education staff supervising. These certifications are regularly noted across all prosperity regions in advertisements for new hires.
- That MSI continue to work with MDOC Education to expand opportunities for vocational education and industries facilities on second shift where safety and security can be maintained and MSI operations are not adversely impacted.
- That MSI continue to work with MDOC Education to continue to share MSI factory space where MSI deems space is available and where safety and security can be maintained without additional cost to MSI in order to enhance parolee's opportunities for vocational and work experiences prior to parole.
- That MSI work with MDOC Education to expand opportunities for prisoners to earn Serve Safe certification. This certification is regularly noted across all prosperity regions in advertisements for new hires.
- That MSI work with Reentry, Education and the wardens in the Jackson area to develop a workforce development program at the vacant Distribution Warehouse.
- That MSI reach out to Michigan employers seeking individuals with commercial sewing skills, metal stamping skills and batch processing/extruding and commercial laundry processing experience to assist MSI employees in interviewing directly for jobs prior to parole to help ensure employment and work to identify any cross-functional, transferrable work skills for other potential employment opportunities.
- That MSI work to develop prisoner employee skills as clerks and warehouse workers, especially in the area of mathematics, calculator utilization, filing, shipping and receiving. All these skills are regularly noted across all prosperity regions in advertisements for new hires.
- That MSI work to expand prisoner employment opportunities within its statutory framework (state and federal), especially in the areas of light manufacturing, hospitality, food service, retail sales skills and cashiering if possible as all are areas noted in advertisements across the state for new staff.

- That MSI work with MDOC to encourage MDOC to consider offering programming on second shift for MSI prisoner employees in order to maximize prisoner work opportunities prior to parole.
- That MSI should evaluate the impact of eliminating long-term employment of prisoner workers exceeding 25% of each factory's workforce and limit employment to 3-5 years from ERD or less where possible.
- That MSI should work with the MDOC Intake Units and Parole Board to ensure that Intake's recommendation of vocational training is recognized to include MSI employment as vocational training.
- That MSI consider split shift work assignments for those prisoners with regular call-outs in order to expand work opportunities and ensure sufficient trained prisoner staff on hand at all times.
- That MSI work to develop U.S. Department of Labor apprenticeships and/or national certifications for its prisoner employees, such as the Optical Programs American Board of Opticianry (ABO) Certificate.

## APPENDIX

### STATE OF MICHIGAN EMPLOYMENT INFORMATION BY PROSPERITY REGION

1. Basic Michigan Labor Statistics by Prosperity Region
2. Real Time Labor Demand - October 2015 by Prosperity Region  
(Top Job Categories, Top Occupations and Educational Requirements)
3. Real Time Labor Force Employment and Long-Term Projections by Prosperity Region
4. Statewide Top 30 Certifications Required by Prosperity Region
5. Statewide Top 30 Industries by Prosperity Region
6. Statewide Top 30 Employers by Prosperity Region
7. Statewide Top 30 Detailed Occupations by Prosperity Region
8. Statewide Top 30 Skills in Greatest Demand by Prosperity Region
