# 2008 STATISTICAL REPORT

## INTRODUCTION

Since the 2000 edition of the MDOC Statistical Report, bound paper copies have no longer been produced and distributed. Instead, these annual statistical reports are published only on the official MDOC web site on the Internet. The MDOC home page web address is <http://www.michigan.gov/corrections>, and the Statistical Reports are located under the *Publications & Information* link.

The crime breakdowns in the core tables of the first three sections of the report regarding felony court dispositions, prison intake, and prison population are all based on the longer 10-character offense codes, as was first shown in the 1999 report. They are also sorted by offense code rather than by crime frequency or maximum term. Since the new sort order keeps sequential offense codes together, similar crimes that have identical maximum penalties are no longer consolidated. This new level of detail provides much richer information than in the past.

However, the additional detail also makes the crime tables much longer; the reader must be careful to watch for related offense codes when attempting to examine the data for a particular type of crime. For example, several separate offense codes now appear for the crime of first degree criminal sexual conduct (750.520B-- ) in each crime table because each code represents a specific characteristic of the offense.

Summary narrative reflecting on the Department's observations about what the data show has again been kept to a minimum, as the Department now produces a separate Annual Report for that purpose.

### **Section Overview**

This report is divided into ten major sections (A-J).

- Section *A, Court Dispositions*, contains data on statewide felony court dispositions broken down by offense, sentencing jurisdiction, and type of disposition.
- Section *B, Prison Commitments*, provides prison intake data by the number and characteristics of new prisoners received by the Department.
- Section *C, Prisoner Population*, presents descriptions of Michigan's correctional facilities and statistics regarding the characteristics of the prisoner population.
- Section *D, Parole Board*, summarizes data on offender movement to parole and Parole Board activity and decisions, and examines the parole outcomes.
- Section *E, Probation and Parole Supervision* contains data and information regarding the community supervision programs and functions of the Department's Field Operations Administration (FOA).
- Section *F, Department Operations*, contains data and information about a variety of Department programs and administrative functions/operations. Section F contains the following subsections:
  - *Prisoner Program, Misconduct and Litigation Statistics*
  - *Michigan State Industries*
  - *Bureau of Health Care Services*
  - *Department Expenditures and Personnel Summaries*
- Section *G, Michigan Prisoner ReEntry Initiative (MPRI)*, was a new section in 2005 and reflects the development of the statewide initiative by several stakeholders, one of whom is MDOC. The first year that prisoners were paroled to the community under this initiative was in 2005.
- Section *H, Community ReEntry Programs*, brings the remainder of the Community Residential Program under the umbrella of the Michigan Prisoner ReEntry Initiative, along with the Residential ReEntry Program, and the Intensive Detention ReEntry Program.
- Section *I, Special Alternative Incarceration Program (SAI)* is administered by the Correctional Facilities Administration with Cooper Street Correctional Facility serving administratively as the parent institution. SAI has been redesigned to operate under MPRI principles.
- Section *J, Office of Community Corrections* provides data regarding the utilization of community sanctions and services for non-violent offenders in order to reduce admissions to prison.

# Court Dispositions

This section contains data on statewide felony court dispositions broken down by offense, sentencing jurisdiction and type of disposition. Offenders may have committed multiple offenses that the felony courts handle as a single court disposition or sentencing event. Both offender-based data and offense-based data have distinct uses that are not interchangeable, therefore, offender-based data is presented in Tables A and A1 through A1c and offense-based data is presented in Tables A2 through A2c.

Tables A and A1 through A1c aggregate multiple offenses and/or disposition (sentencing) dates into offenders. In other words, offenders with multiple offenses and/or multiple dispositions, from the same sentencing county, were reported as follows:

- Offenses/Dispositions for the same offender that occurred three or more months apart were reported as separate disposition events. (It is possible that these separate events were combination events, as discussed in the next bullet.)
- Offenses/Dispositions for the same offender that occurred less than three months apart were aggregated together into one disposition event using the following sequence in order to report the most severe details for the disposition event:
  - The most severe disposition was reported (e.g., a disposition to prison was

reported over a disposition to jail).

- If the dispositions were of equal severity, then the disposition with the longest minimum term was reported.
- If the dispositions and minimum terms were of equal severity, then the disposition with the longest maximum term was reported. (Minimum term is used as the first severity tie-breaker, since it represents the minimum penalty imposed by the judge based on the mitigating/aggravating facts of the offender's current criminal activity, whereas the maximum term represents the Legislature's statutory limitations on judicial discretion for the current criminal activity.)

Table A shows the statewide prison commitment rates of offenders for the current year and the previous fourteen years.

Table A1 shows the court dispositions of offenders broken down by disposition type and by sentencing county circuit within each of the two Field Operations Administration (FOA) regions. Tables A1a through A1c show the information in Table A1 broken down by major crime categories (i.e., non-assaultive, drug and assaultive offenses). The A1 series of tables are based on offenders, so multiple offenses/dispositions for

the same offender are aggregated and reported per the above sequence.

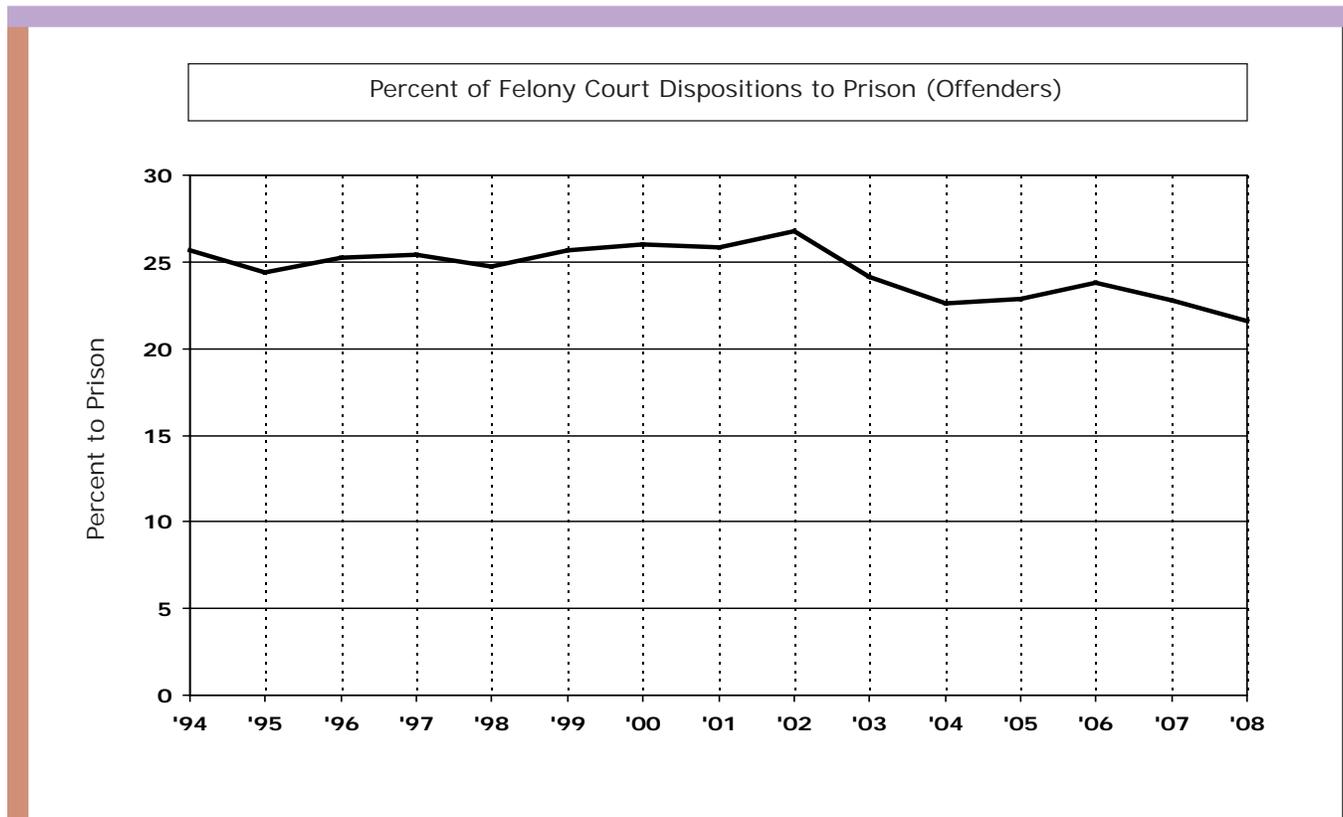

Table A2 shows the court dispositions of offenses broken down by disposition type and offense. Tables A2a through A2c show the information in Table A2 broken down by major crime categories (i.e., non-assaultive, drug and assaultive offenses). The A2 series of tables are based on all offenses, so multiple offenses/dispositions for the same offender are reported individually by offense.

The crimes in the A2 series of tables are sorted by Michigan Compiled Law (MCL) numbers and Prosecuting Attorney's Coordinating Council (PACC) codes (the sort order used since 1999). Since this sort order keeps related codes together, similar crimes that have identical maximum penalties are not consolidated. This level of detail provides much richer information, but the reader must be careful to watch for related codes when attempting to examine the frequency and disposition pattern for a particular type of crime. For example, several separate offense codes appear for the crime of first degree criminal sexual conduct (750.520B-- ) because each code represents a specific characteristic of the offense.

# A Statewide Prison Commitment Rates

Calendar Years 1994 - 2008

Year	Total Felony Dispositions (Offenders)	Percent of Total Felony Disposition to Prison
1994	37,823	25.7
1995	38,805	24.4
1996	38,749	25.2
1997	39,340	25.4
1998	40,016	24.7
1999	38,178	25.7
2000	38,359	26.0
2001	41,835	25.8

# Prison Commitments

# B

This section provides data on prison intake — the number and characteristics of new prisoners received into the Department's institutions and camps.

Tables B1a and B1b exclude one category of intake, called *additional sentence imposed*. Additional sentence imposed is excluded from these tables because rather than new offenders admitted into the system, these are prisoners who are already incarcerated and then receive an additional sentence, either because of a crime committed while incarcerated or because of later sentencing on a previous pending charge.

All of the other tables and charts in this section *include* the additional sentence imposed category.

Tables B1a through B1c compare prison intake with various other data for past years.

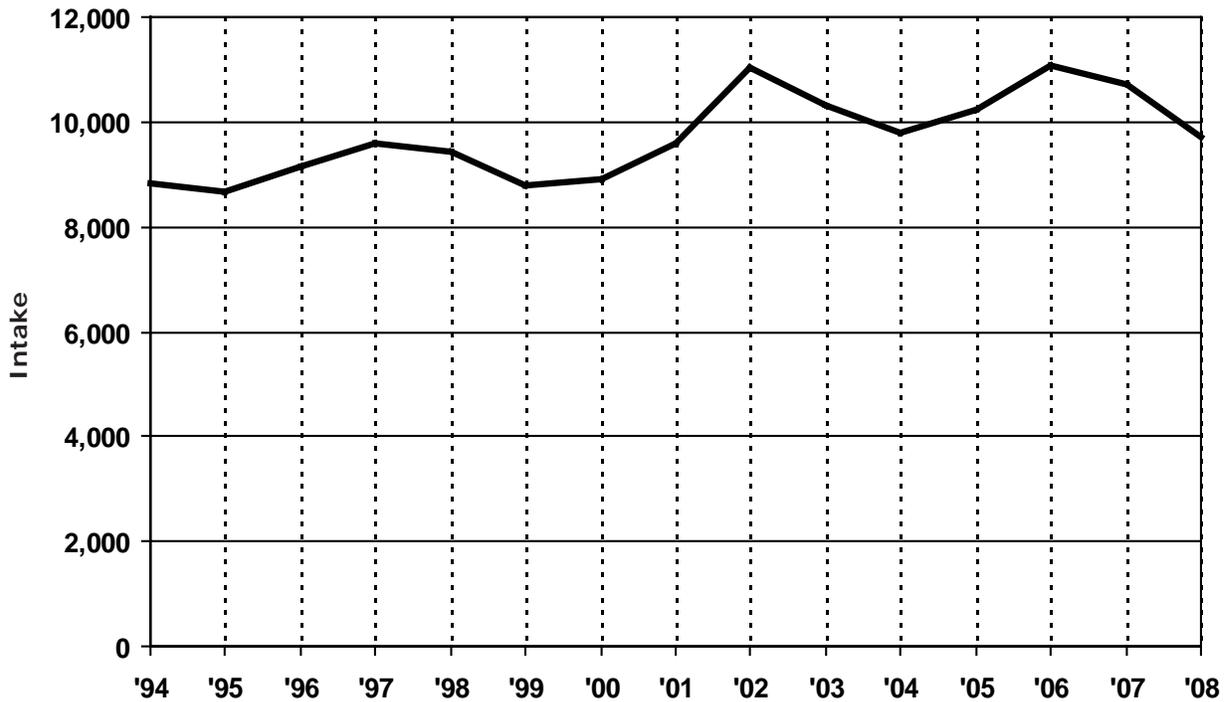

Table B2 shows prison intake broken down by minimum sentence and offense. Tables B2a through B2c show the information in Table B2 broken down by major crime categories (i.e., non-assaultive, drug and assaultive). Table B3 shows *female* intake broken down by minimum sentence and offense.

The crimes in the B2 series of tables and the B3 table are sorted by Michigan Compiled Law (MCL) numbers and Prosecuting Attorney's Coordinating Council (PACC) codes (the sort order used since 1999). Since this sort order keeps sequential codes together, similar crimes are not consolidated. This level of detail provides much richer information, but the reader must be careful to watch for related codes when attempting to examine the prison intake frequency and minimum term distribution for a particular type of crime. For example, several separate offense codes now appear for the crime of first degree criminal sexual conduct (750.520B--) because each code represents a specific characteristic of the offense.

Tables B4a through B7 summarize commitments to prison broken down by various other characteristics — including age, race, gender, commitment type, and major crime type.

# B1a Annual Prison Intake (Excluding "Additional Sentence Imposed") Calendar Years 1994 - 2008

Year	Admissions to Prison	Numerical Change	Percent Change
1994	8,845	---	---
1995	8,667	(178)	(2.0)
1996	9,169	502	5.8
1997	9,584	415	4.5
1998	9,424	(160)	(1.7)
1999	8,809	(615)	(6.5)
2000	8,922	113	1.3
2001	9,610	688	7.7
2002	11,050	1,440	15.0
2003	10,311	(739)	(6.7)
2004	9,811	(500)	(4.8)
2005	10,239	428	4.4
2006	11,094	855	8.4
2007	10,714	(380)	(3.4)
2008	9,716	(997)	(9.3)

# B1b Reported Index Crimes and Prison Intake (Excluding "Additional Sentence Imposed") Calendar Years 2001 - 2008

State index crime totals are calculated by combining actual figures with estimates of missing data, using an estimation process adapted from that used by the FBI. The MSP's estimation process is designed to help ensure an accurate portrayal of crime trends, and minimize fluctuations due to reporting discrepancies.

Year	Reported Index Crimes* (Estimated)	Prison Intake
2001	411,078	9,610
2002	395,239	11,050
2003	384,162	10,311
2004	362,958	9,811
2005	371,345	10,239
2006	384,340	11,094
2007	Not available	10,714
2008	Not available	9,716

\* Index crimes include murder, rape, robbery, aggravated assault, burglary, larceny, motor vehicle theft and arson. Data for Reported Index Crimes was not available at the time this chart was compiled. This page will be updated as the Michigan State Police (MSP) Uniform Crime Report (UCR) numbers become available.

**NOTES:** Be sure to check for related offense codes when examining a particular type of crime. They may or may not be in sequential order or even on the same page.

\*Sentences with Insufficient Information = 44

Largest minimum term is reported.

When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.

Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).

Minimum term averages are based on raw data (with life sentences excluded from the calculations).

**NOTES:** Be sure to check for related offense codes when examining a particular type of crime. They may or may not be in sequential order or even on the same page.

Largest minimum term is reported.

When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.

Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).

Minimum term averages are based on raw data (with life sentences excluded from the calculations).

**NOTES:** Be sure to check for related offense codes when examining a particular type of crime. They may or may not be in sequential order or even on the same page.

Largest minimum term is reported.

When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.

Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).

Minimum term averages are based on raw data (with life sentences excluded from the calculations).

\*Sentences with Insufficient Information = 1.

Largest minimum term is reported.

When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.

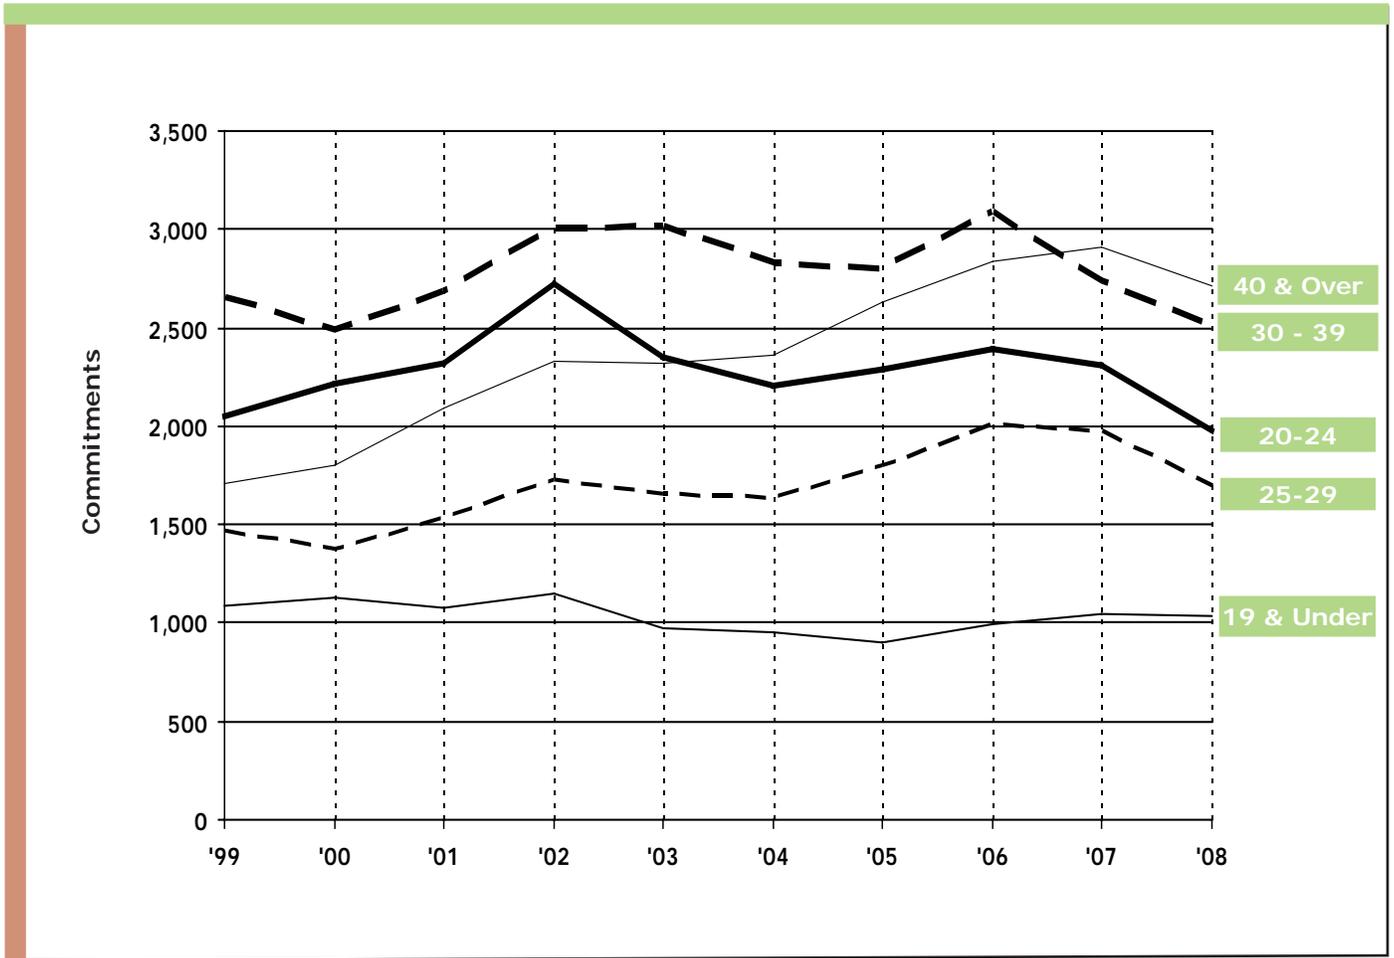

Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).

Minimum term averages are based on raw data (with life sentences excluded from the calculations).

# Prisoner Population

This section presents descriptions of Michigan's correctional facilities and statistics regarding the characteristics of the prisoner population.

The map shows the location of each Michigan prison and camp, as well as a geographic breakdown of the Correctional Facilities Administration (CFA) regions. The map is followed by a description of each facility.

Chart C is a breakdown of the net operating capacity of the institutions and camps by security level.

Table-Chart Ca displays the end-of-year institution and camp population from 1994 through 2008.

Table C1 shows the total prisoner population broken down by minimum sentence and offense. The total population includes prisoners housed in institutions, camps, the SAI-Prison program and Community ReEntry Program. Tables C1a through C1c show

the information in C1 broken down by major crime categories (i.e., non-assaultive, drug and assaultive). C2 shows the total *female* prisoner population broken down by minimum sentence and offense.

The crimes in the C1 and C2 series of tables are sorted by Michigan Compiled Law (MCL) numbers and Prosecuting Attorney's Coordinating Council (PACC) codes (the sort order used since 1999). Since this sort order keeps sequential codes together, similar crimes that have identical maximum penalties are not consolidated. This level of detail provides much richer information, but the reader must be careful to watch for related codes when attempting to examine the prison population frequency and minimum term distribution for a particular type of crime. For example, several separate offense codes now appear for the crime of first degree criminal sexual conduct

(750.520B--) because each code represents a specific characteristic of the offense.

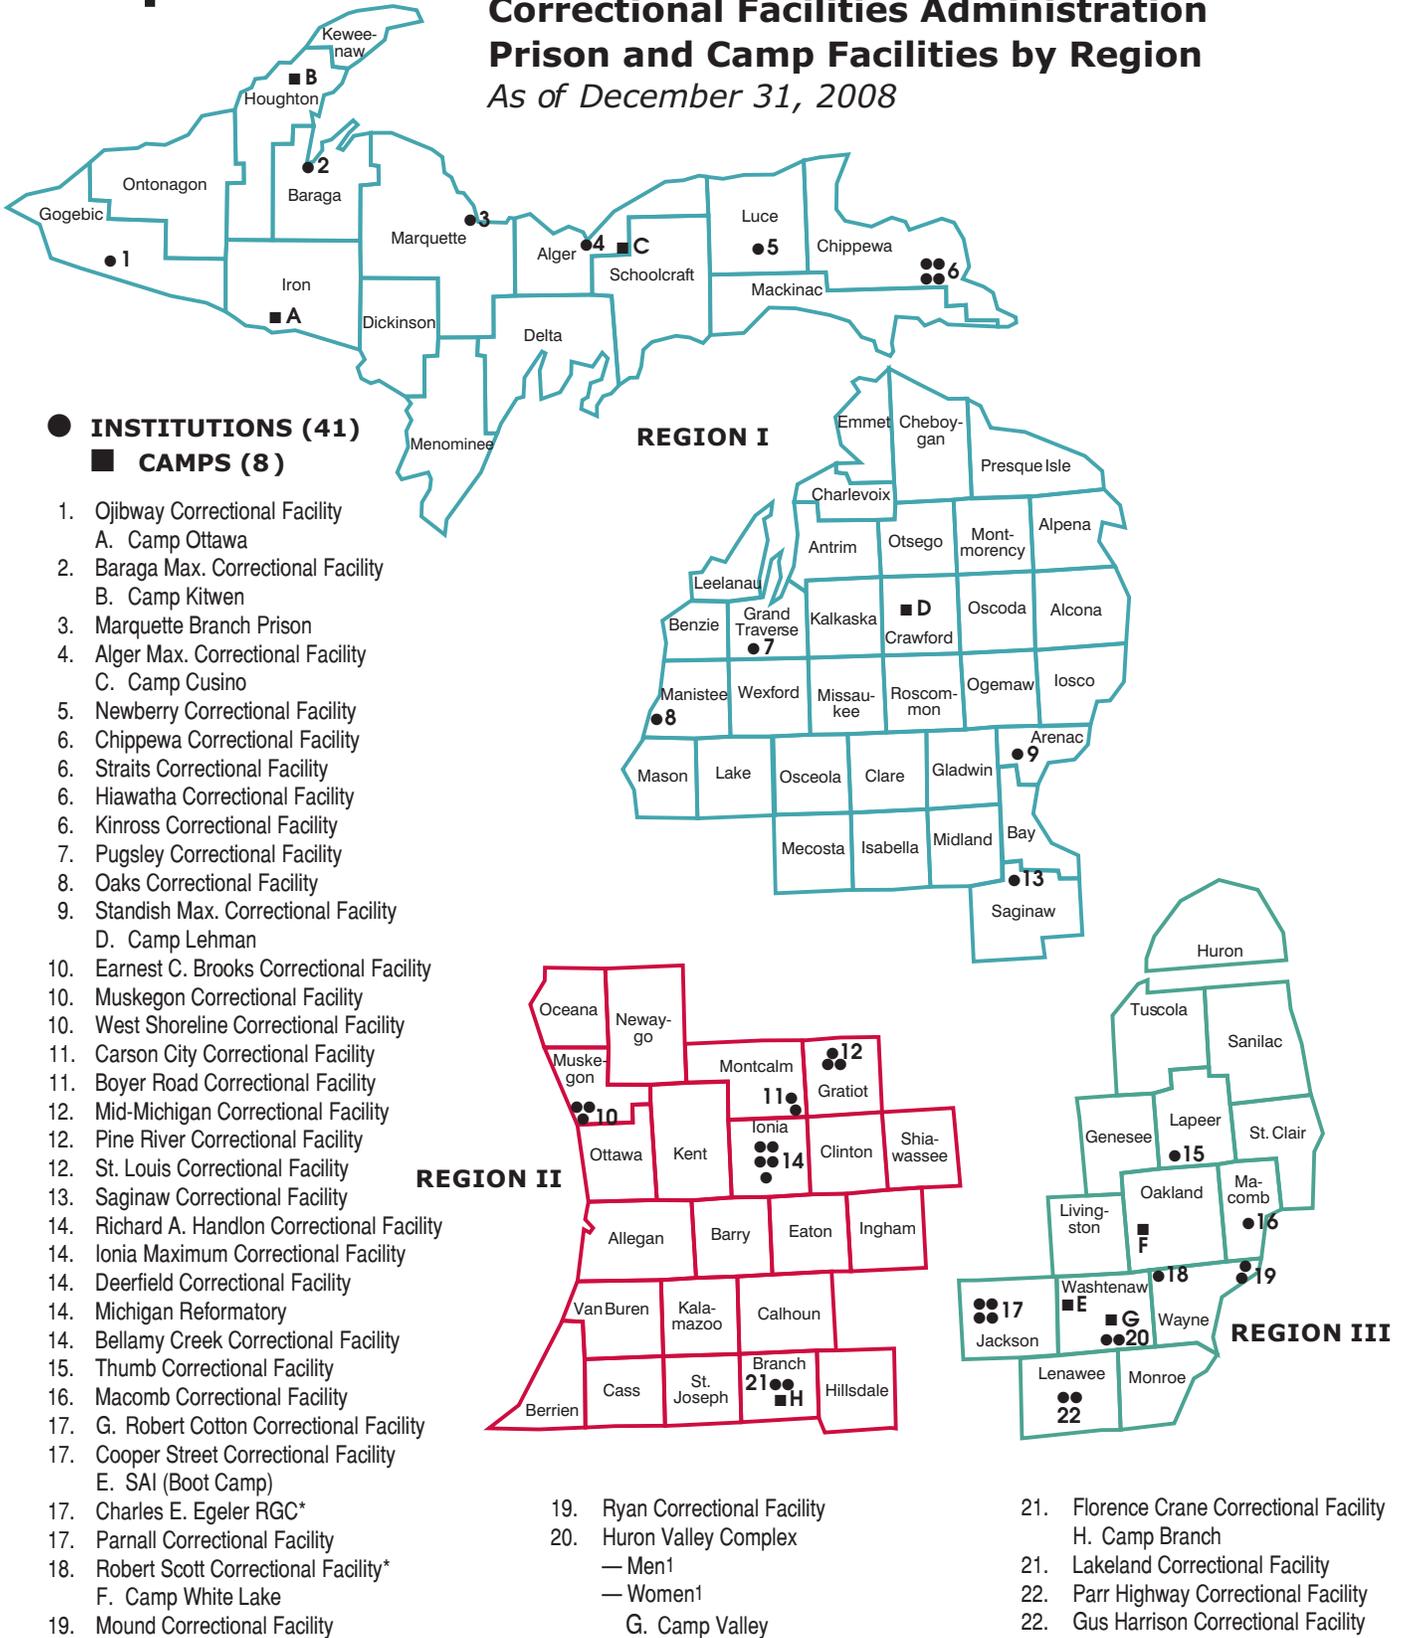

Tables C3a through C3c summarize the total prisoner population broken down by age, location and race.

Table C4 summarizes the movement of prisoners into and out of the institution and camp population during 2008. To demonstrate the effect of prisoner movement on the size of the institution and camp population, C4 reports only the movements onto and off of the institution/camp count. In other words, the table ignores movement types that do not affect the total count (e.g., movements *between* institutions). It also does not show prisoner movements that do not involve prison/camp locations (e.g., prisoner movements to parole from CRP locations).

Table C5 shows the number of escapes from secure DOC custody from 2001 through 2008.

**NOTES: Be sure to check for related offense codes when examining a particular type of crime. They may or may not be in sequential order or even on the same page.**

\*Sentences with Insufficient Information = 398

Largest minimum term is reported.

When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.

Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).

Minimum term averages are based on raw data (with life sentences excluded from the calculations).

**NOTES: Be sure to check for related offense codes when examining a particular type of crime. They may or may not be in sequential order or even on the same page.**

Largest minimum term is reported.

When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.

Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).

Minimum term averages are based on raw data (with life sentences excluded from the calculations).

**NOTES:** Be sure to check for related offense codes when examining a particular type of crime. They may or may not be in sequential order or even on the same page.

Largest minimum term is reported.

When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.

Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).

Minimum term averages are based on raw data (with life sentences excluded from the calculations).

NOTES: Be sure to check for related offense codes when examining a particular type of crime. They may or may not be in sequential order or even on the same page.

\*Prisoners with Insufficient Information = 15

Largest minimum term for each prisoner is reported.

When minimum terms exceed maximum penalties, that may be due to anomalies in criminal justice practices, habitualized offenses, database errors, etc.

Each minimum term category is rounded up from the preceding category (for example, the ten-year category includes all minimums longer than five years up to exactly ten years).

Minimum term averages are based on raw data (with life sentences excluded from the calculations)

## C4 2008 Prisoner Movement Summary: Institutions and Camps Only

### INTAKE

New Court Commitment.....	4,835
Probation Violator (Technical or New Sentence).....	2,850
Parole Violator New Sentence .....	2,029
Escaper New Sentence .....	2
<b>TOTAL</b> .....	<b>9,716</b>

### EXIT

Movement to Parole .....	11,488
Release to Court on Writ .....	3,742
Transfer to Community Residential Programs .....	83
Discharge from Sentence .....	1,655
Temporarily Housed at a County Jail .....	1
Death.....	120
Release to Mental Health Hospital or Criminal Justice Agency.....	0
Escape .....	2
<b>TOTAL</b> .....	<b>17,091</b>

### RETURN

Return from Court <i>without</i> Additional Sentence .....	2,497
Technical Parole Violator Return .....	1,885
Return from Escape from Community Residential Programs .....	11
Return from Court <i>with</i> Additional Sentence Imposed .....	962
Return from County Jail .....	1
Direct Return from Community Residential Programs .....	7
Return While on Parole Status .....	485
Return from Mental Health Hospital or Criminal Justice Agency.....	7
Return from Escape from Institution, Camp, SAI-Prison, TRV, or non-DOC location .....	3
<b>TOTAL</b> .....	<b>5,858</b>

**2008 Institution and Camp Population Change = - 1,517**  
 (INTAKE - EXIT + RETURN = POPULATION CHANGE)

NOTES: Includes institution, camp, and SAI-Prison movements.  
 Only movements affecting the total population count are shown (e.g., excludes movements between institutions, and temporary movements to/from hospitals).

## C5 Escapes from Secure DOC Custody

*Calendar Years 2001 - 2008*

Escapes from secure DOC custody include any and all escapes from:

- CFA institutions and camps.
- CFA custody (i.e., while under CFA control, such as while in transit or hospitalized).
- Special Alternative Incarceration (SAI boot camp for prisoners and probationers).
- Technical Rule Violator (TRV) Centers for CRP & parole violators.

Escapes from Secure DOC Custody

# Parole Board

This section summarizes 2008 data on offender movement to parole, and Parole Board activity and decisions. It also examines the parole outcomes of offenders who paroled in 1998-2005.

Table-Chart D shows the total number of prisoner movements to parole each year from 1994 through 2008.

Table D1 compares 2008 Parole Board activity and decisions to that of the previous twenty years. D1a provides more detail regarding the 2008 activity of the Parole Board.

Table D3 in this report was the product of work to re-engineer the tracking of offender outcomes following parole. The new effort began with tracking outcomes for a standardized two years (shorter only in the event of return to prison as a failure). This has since been extended to a standardized follow-up period of three years to meet legislative reporting requirements—thus eliminating the D2 Table. The table shows outcomes for several annual parole release cohorts to enable comparisons over time.

Table D3 represents a change from what was reported on this subject in annual MDOC Statistical Reports prior to 2005; so further explanation is warranted. The genesis of the Michigan Prisoner Reentry Initiative (MRPI) – discussed in Section G – required a re-engineering of the old parole

outcomes analysis methodology. The past table format was based on very old computer programming that tracked outcomes only until the parole terms expired. So, there were no controls on time at risk of failure in the tables because parole terms ranged from as short as a couple of months for parole-to-max cases to as long as four years for paroled lifers, while the most common parole terms are 18 to 24 months. Outcomes subsequent to the expiration of the parole terms were not reflected in the data.

The old production analysis that was generated by the data system for parole outcomes also provided only statewide results and could not be analyzed in greater depth than was present in the report tables. As the MPRI began to be planned and implemented, it quickly became apparent that a more robust method of outcome tracking would be needed. And that a bridge to the past would also be needed to enable new annual parole cohorts to be compared to older release years using a consistent methodology.

Calendar year 1998 was established as the baseline parole release year of the analysis for comparison with the outcomes of future annual parole cohorts. Calendar 1998 was selected as the baseline year because it was the most recent year that would provide a full four years of potential follow-up for an entire cohort year before the follow-up periods would reach

into calendar year 2003 when the MPRI initiative began.

As can be seen from the D3 table, the current primary definition of failure continues to be return to prison as either a parole violator technical return or with a new sentence (although the latter can now occur after the parole term expired).

Table D3 also shows offenders who were on parole absconder status at the end of the follow-up period. While on absconder status, parolees are obviously not succeeding at that point; but it is also important to note that they are not automatically headed back to prison. The determining factor in the disposition of a parole absconder is an assessment of offender risk. When risk is determined to be low (such as when an absconder is still employed and generally following parole rules, but failed to report), then the parole agent may continue to work with the case and impose local sanctions, possibly increase supervision of the case, and engage the community in service delivery designed to intervene in the behavior that led to the abscond and enable the absconder to become a successful parolee.

In the future, the Department will be working to gather data to expand the outcomes definition to include additional measures of re-offending such as arrests and convictions.

# D Annual Movements to Parole

Calendar Years 1994 - 2008

Year	Movement to Parole	Numerical Change	Percent Change

D - 5

<sup>1</sup>Follow-up includes three years from parole for prisoners paroled to Michigan counties

<sup>2</sup>Still on Parole status after three years from parole; either parole term given is longer than three years or parole term extended

<sup>3</sup>On Abscond status after three years from parole

<sup>4</sup>If a prisoner returned as a Technical Violator but also received a New Sentence within three years of parole without reparing, the case is counted only in the New Sentence column.

---

# Probation and Parole Supervision

This section contains data and information regarding the supervision programs for probationers and parolees within the Department's Field Operations Administration (FOA).

FOA is responsible for the supervision of all adult felons on probation and parole. Selected parolees and probationers are also supervised on electronic monitoring.

In addition, FOA is responsible for administration and operation of the Department's residential reentry programs located in Tuscola and Lake Counties. These programs assist parolees with housing, employment, substance abuse treatment, and other adjustment problems. These programs are now included under the umbrella of the Michigan Prison ReEntry Program (MPRI), a collaborative effort between the Michigan Department of Corrections and the departments of Community

Health, Labor and Economic Growth, Human Services, and numerous community partners.

Field operations are administered through Regional and Area offices (see map). The Metropolitan Region covers Wayne, Oakland, Macomb, and Washtenaw counties; and the Outstate Region covers the rest of the lower peninsula and all of the upper peninsula.

Table E1 shows the number of parolees returned to prison for technical violations and new sentences, broken down by gender and year. E1 also shows the number of parole revocation hearings held each year.

Chart E2 presents breakdowns of Field Operations *personnel* by type of offender supervised and by employee job classification. E2 also displays a breakdown of Field Operations *funds* by type of offender

supervised.

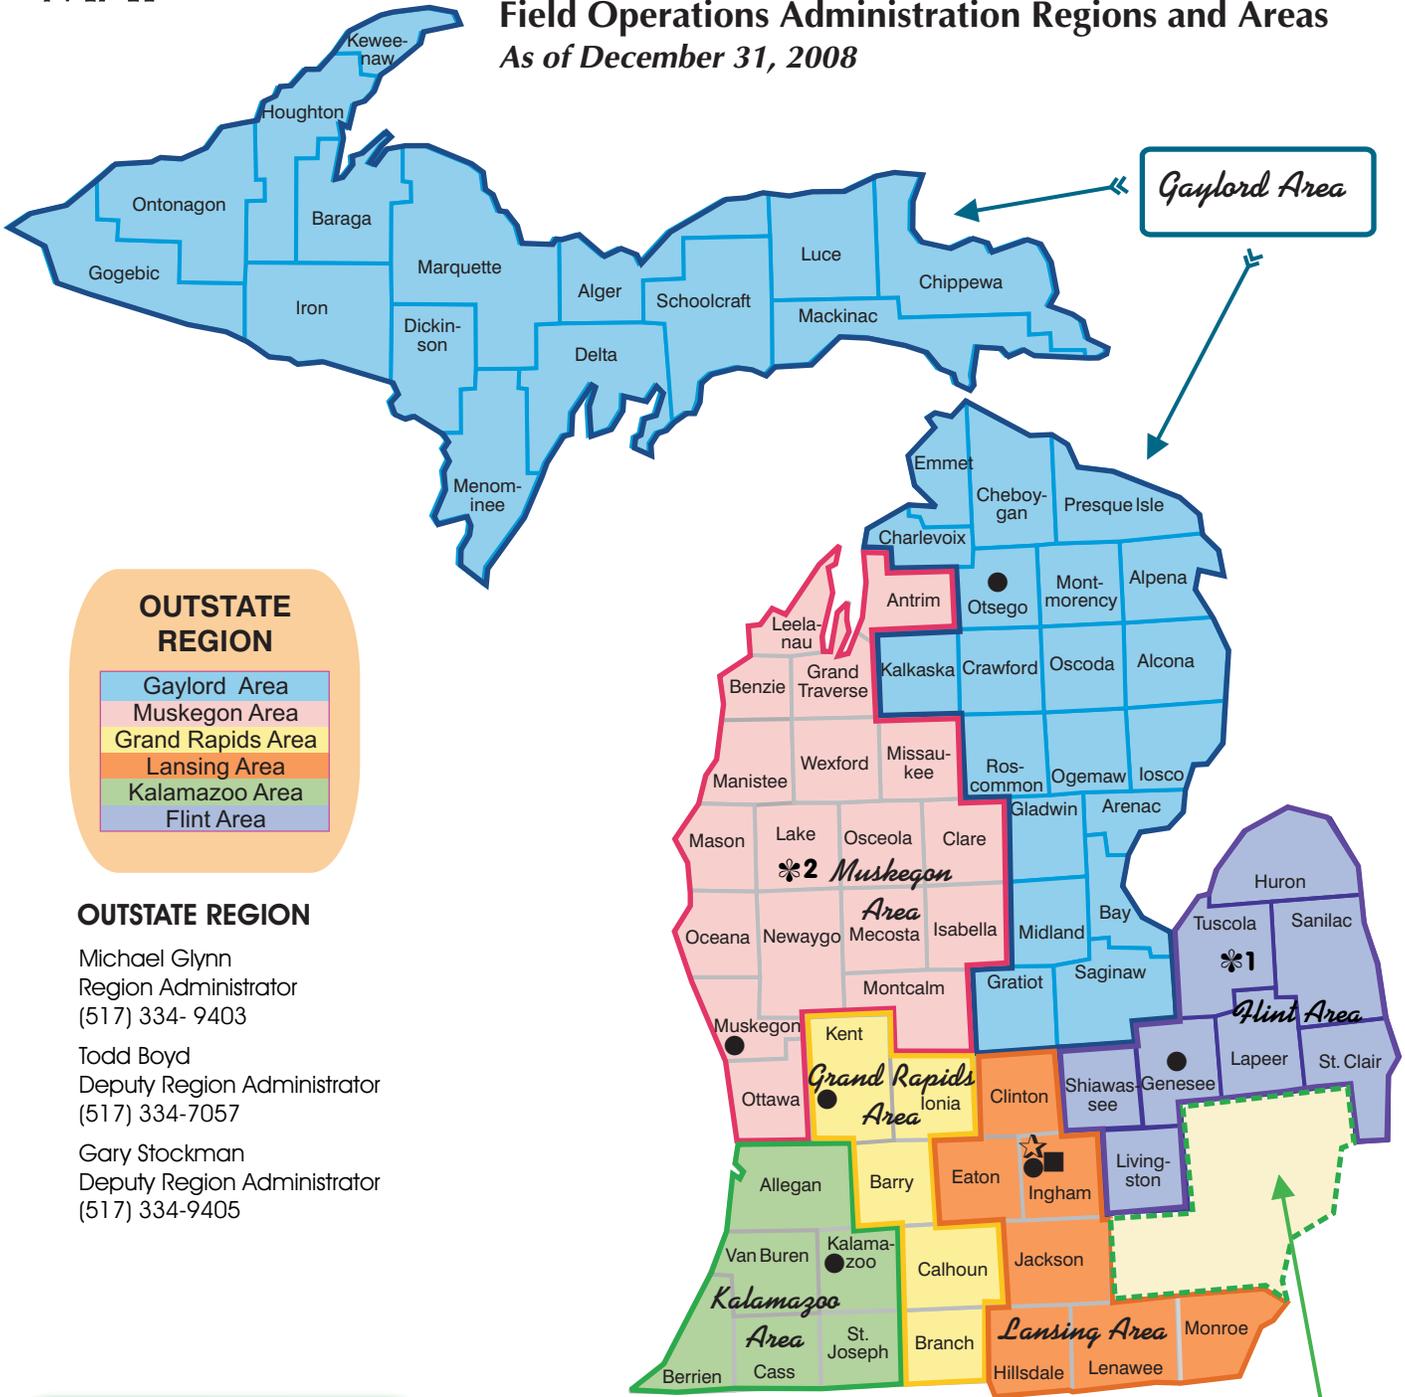

Chart E3 shows the distribution of investigations conducted by type, and a breakdown of the average number of offenders supervised by type. Workloads in 2008 remained constant from the previous year. The average agent workload was 93.2 to 1 in 2008.

Chart E4 displays the number of pre-sentence investigations conducted each year for the last ten years.

Charts E5 and E6 show the average number of parolees and probationers under supervision for the last ten years.

## E3 2008 Work Distribution

**INVESTIGATIONS = 157,519**

- [1] PRE-SENTENCE INVESTIGATIONS: in-depth analysis of the individual and circumstances of the offense.
- [2] SPECIAL INVESTIGATIONS: assignments completed at the request of the Governor, other states, the parole board, or the court.
- [3] PRE-PAROLE INVESTIGATIONS: prior to inmate release, living arrangements and job placement are investigated.
- [4] VIOLATION INVESTIGATIONS: reports prepared following a parole or probation violation.

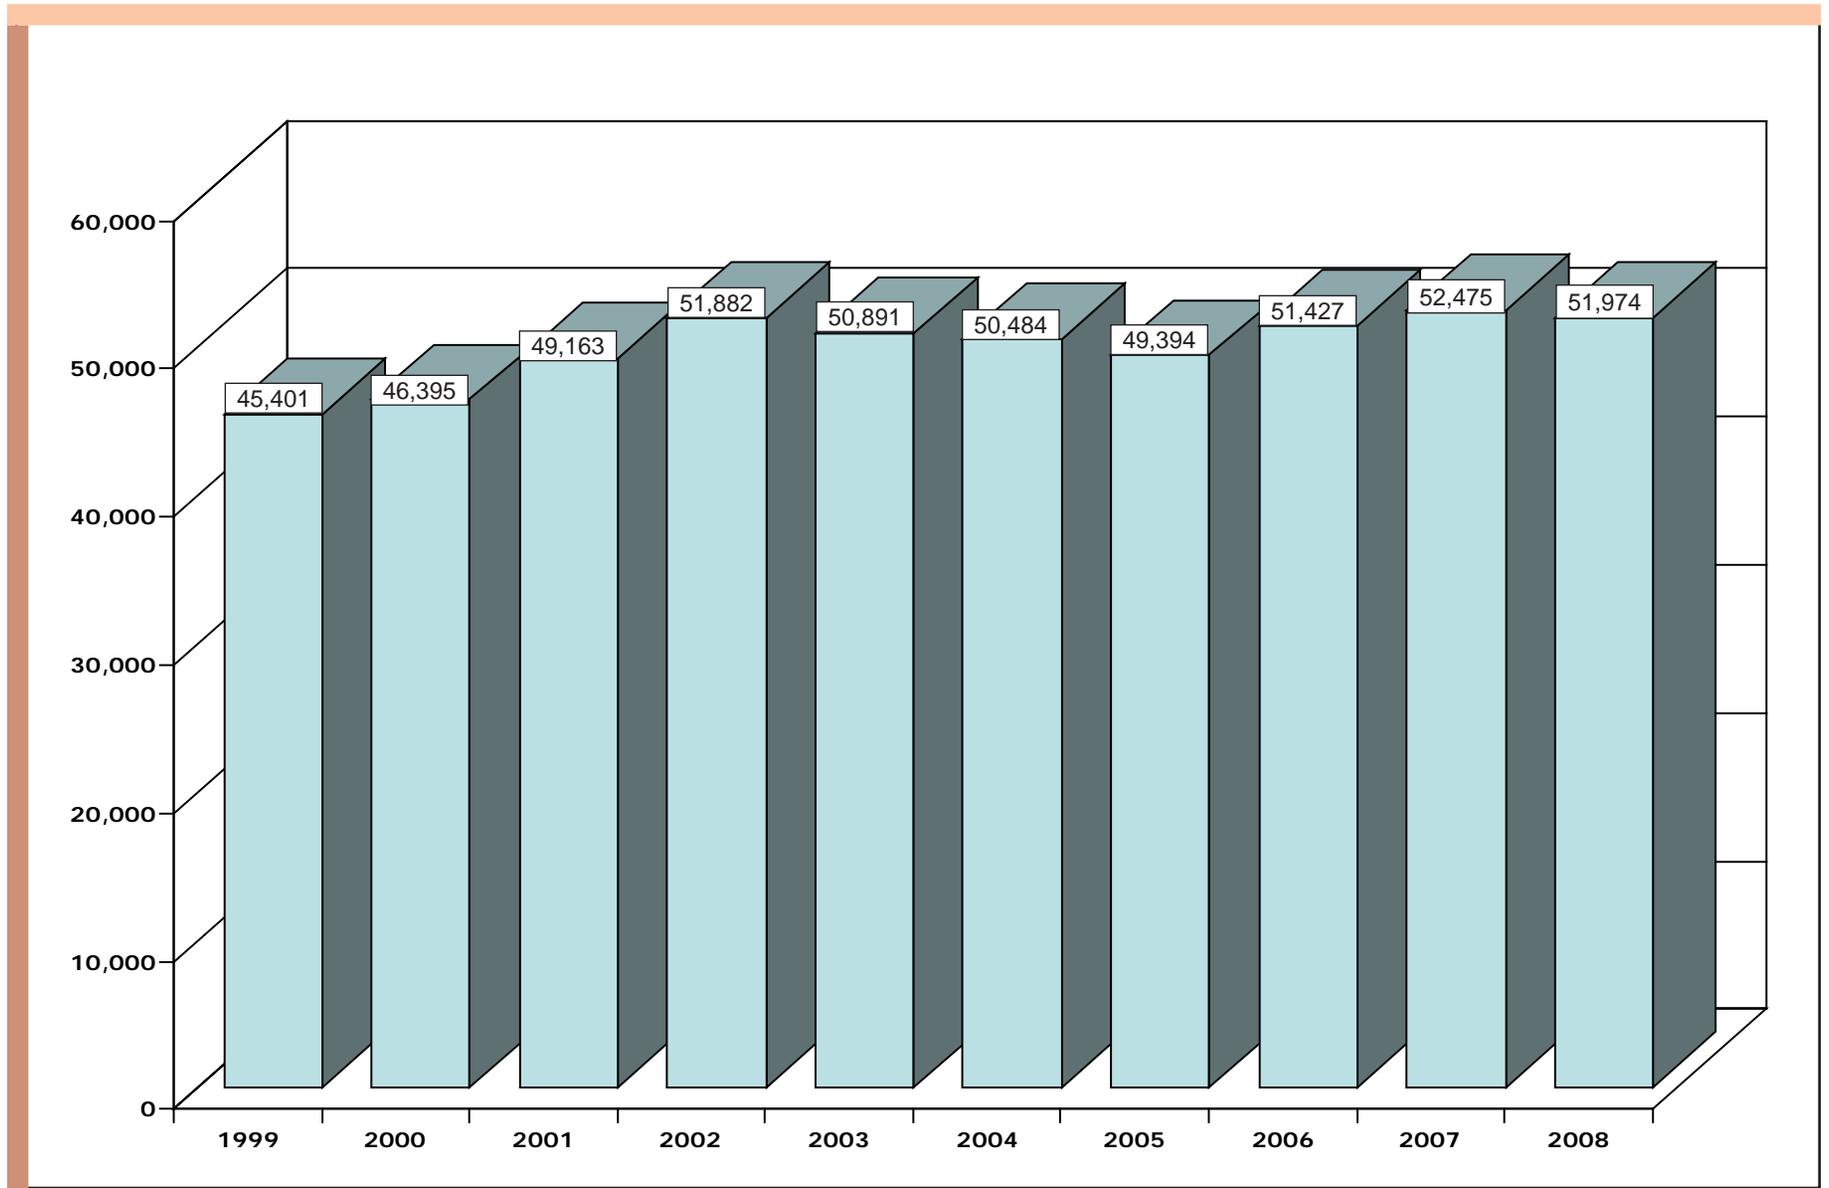

**SUPERVISION - AVERAGE NUMBER OF OFFENDERS SUPERVISED = 74,955**

Supervision is the process in which parole or probation agents work with offenders who are under the jurisdiction of the Department of Corrections (parole) or the jurisdiction of the Courts (probation, Holmes Youthful Trainee, and delayed sentences). The case numbers in the chart represent the average number of cases under supervision during the year.

# *Department Operations*

This section contains data and information about a variety of Departmental programs and administrative functions, operations and services.

There are four subsections.

- *Prisoner Program, Misconduct and Litigation Statistics*
- *Michigan State Industries*
- *Bureau of Health Care Services*
- *Department Expenditures and Personnel Summaries*

## *Prisoner Program, Misconduct and Litigation Statistics*

Table F1 provides statistics regarding prisoner participation in religious services broken down by faith preference.

The number of prisoners enrolled in academic and vocational programs is represented in Table F2. The education statistical reporting format was revised in 2005. The year-to-date (YTD) figures represent cumulative totals for FY 2007 - 2008, while the enrollment figures are based on numbers enrolled during the month of September 2008.

Table F3 shows the number and disposition of misconduct charges, by location, that were issued against prisoners in 2008.

Table F4 is a summary of the number of lawsuits filed against the Department, by category and year (2005 - 2009).

## F1 2008 Prisoner Faith Preferences

This table represents the number of approved religions in the MDOC facilities and the number of prisoners claiming each as their religious preference.

Faith Preference	Number of Participants	Percent
Atheism	43	0.1%
Buddhism	999	2.1%
Catholicism	4,991	10.3%
Church of Scientology	58	0.1%
Hare Krishna	8	0.0%
Jehovah Witnesses	779	1.6%
Judaism	810	1.7%
Moorish Science Temple	2,837	5.8%
Muslim	1,851	3.8%
Nation of Islam	2,370	4.9%
Native American Traditional Ways	1,048	2.2%
No Preference	6,228	12.8%
Other Faiths/Religion	2,070	4.3%
Protestantism	23,253	47.8%
Seventh Day Adventism	436	0.9%
Unknown Faith	857	1.8%
All Other Religions	48	0.1%
Total	48,686	100.0%

Note: Faith programming varies among the different facilities depending on population and classification levels.

## *Michigan State Industries*

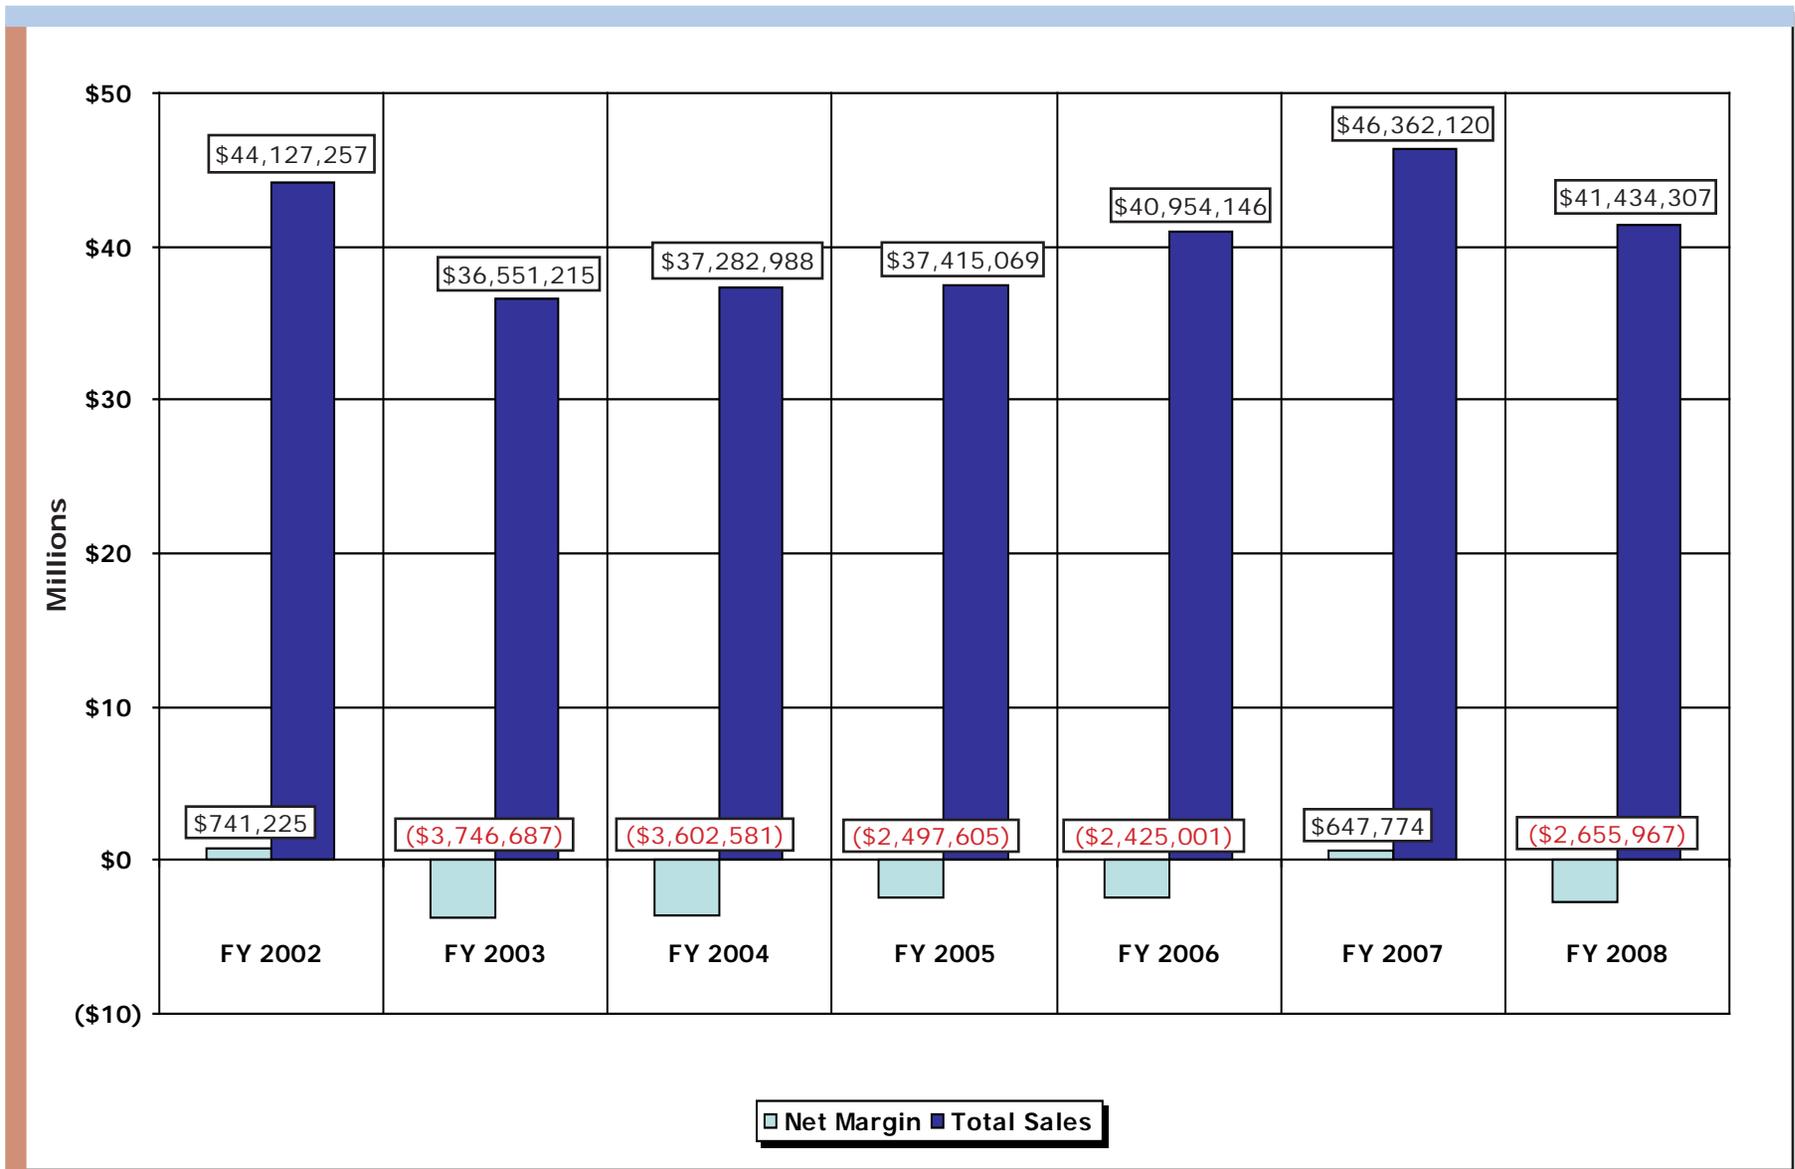

Chart F5 is a seven-year history of total sales and net margin for Michigan State Industries.

Table F6 provides a comparison of total sales and net margin from factory operations, broken down by individual factory and fiscal years (FY 2007 and FY 2008).

Table F7 shows the hourly pay schedule for prisoners employed in correctional industries.

# Department Operations

## Bureau of Health Care Services

This section presents charts regarding the cost of health care services for prisoners. Services are provided by the Bureau of Health Care Services. The Bureau has two main goals:

- Provide cost-effective care.
- Provide quality care.

Charts F8 through F10 summarize the Department's prisoner health care costs.

- Table-Chart F8 shows health care costs since the implementation of *managed care* for prisoners in FY 1997. Further, F8 distinguishes between *medical, dental and*

*psychological services* provided or controlled directly by the Department of Corrections versus *mental health* care costs provided directly by the Department of Community Health (DCH) for prisoners with serious mental illness.

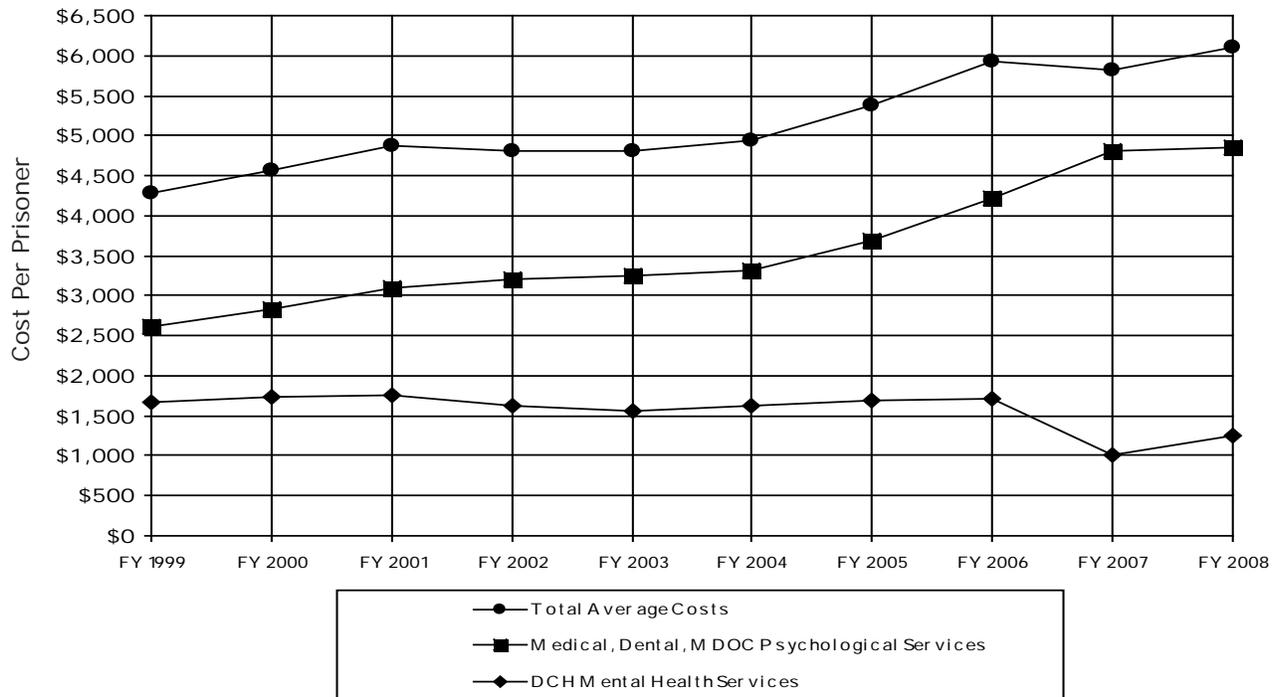

- The F9 chart shows a detailed breakdown of the trend of prisoner health care costs since FY 1997 under direct control of the Department of Corrections, (i.e. excluding the DCH costs).
- Chart F10 provides the Consent Decree Health Care expenditures for FY 2007 through FY 2008.

# F8 Health Care Expenditures Profile

FY 1999 - FY 2008

Fiscal Year	Average Population*	Annual Percent Change	Average Cost Per Prisoner			
			Medical, Dental, MDOC Psychological Services (MDPS)	MDPS Annual Percent Change	DCH** Mental Health	TOTAL
			Since Implementation of Managed Care			
1999	46,030	1.1%	\$2,614	3.9%	\$1,668	\$4,282
2000	46,986	2.1%	2,839	8.6%	1,735	4,574
2001	48,528	3.3%	3,101	9.2%	1,766	4,867
2002	49,855	2.7%	3,197	3.1%	1,615	4,812
2003	50,561	1.4%	3,250	1.7%	1,560	4,810
2004	49,179	(2.7%)	3,322	2.2%	1,624	4,946
2005	48,907	(0.6%)	3,690	11.1%	1,698	5,388
2006	50,595	3.5%	4,223	14.4%	1,706	5,929
2007	51,397	1.6%	4,801	13.7%	1,019	5,820
2008	50,577	(1.6%)	4,849	1.0%	1,260	6,109

**Total Average Cost Per Prisoner**

\* Based on Service Population.

\*\* Mental Health costs under direct control of the Department of Community Health (DCH) for prisoners with serious mental illness.

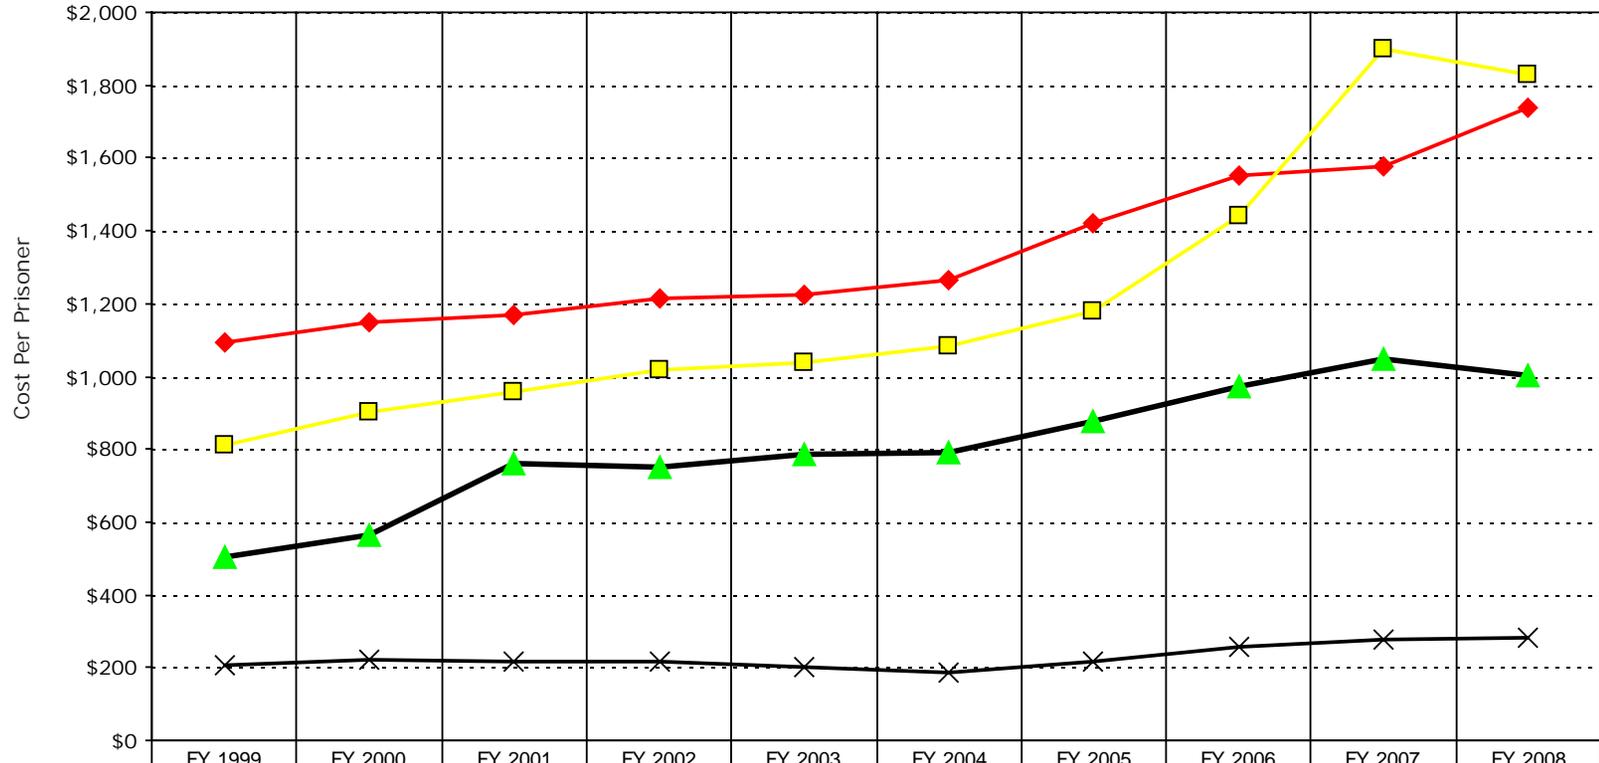

NOTE: Numbers in this table reflect a system of reporting expenditures in the year they were paid.

# Michigan Prisoner ReEntry Initiative

The Michigan Prisoner ReEntry Initiative (MPRI), implemented in the summer of 2005, is a statewide initiative, spearheaded by the Governor and supported by various state departments, local elected officials, and faith-based and community-based organizations in partnership with the Michigan Department of Corrections.

The **VISION** of the MPRI is that every inmate released from prison will have the tools needed to succeed in the community.

The **MISSION** of the MPRI is to reduce crime by implementing a seamless plan of services and supervision developed with each offender — delivered through state and local collaboration — from the time the offender enters prison through the offender's transition, reintegration, and aftercare in the community.

The **GOALS** of the MPRI are to:

- **Promote public safety** by reducing the threat of harm to persons and their property by offenders who have been released (re-entry) into respective communities.
- **Increase success rates of offenders** who transition from prison by fostering effective risk management and treatment programming, offender accountability, and community and victim participation.

## **THE THREE-PHASE, SEVEN-DECISION-POINT MPRI MODEL**

The MPRI Model involves improved decision making at seven critical decision points in the three phases of the custody, release, and community supervision/discharge process.

### **PHASE ONE – GETTING READY**

The **institutional phase** describes the details of events and responsibilities which occur during the offender's imprisonment from admission until the point of the parole decision and involves the first two major decision points:

#### **1. Assessment and classification:**

Measuring the offender's risks, needs, and strengths.

#### **2. Inmate programming:**

Assignments to reduce risk, address need, and build on strengths.

### **PHASE TWO – GOING HOME**

The **transition to the community or re-entry phase** begins approximately six months before the offender's target release date. In this phase, highly specific re-entry plans are organized that address housing, employment, and services to address addiction and mental illness. Phase Two involves the next two major decision points:

#### **3. Inmate release preparation:**

Developing a strong, public-safety-conscious parole plan.

#### **4. Release decision making:**

Improving parole release guidelines.

### **PHASE THREE – STAYING HOME**

The **community and discharge phase** begins when the inmate is released from prison and continues on community parole supervision until discharge. In this phase, it is the responsibility of the former inmate, human services providers, and the offender's network of community supports and mentors to assure continued success. Phase Three involves the final three major decision points of the transition process:

#### **5. Supervision and services:**

Providing flexible and firm supervision and services.

#### **6. Revocation decision making:**

Using graduated sanctions to respond to behavior.

#### **7. Discharge and aftercare:**

Determining community responsibility to "take over" the case.

The maps on pages G-3 through G-5 show the first round of eight pilot sites consisting of 18 counties, and the second round adding seven more counties. The last round brings all remaining counties onboard. Also, the maps show the counties to which the in-reach facilities will be releasing parolees. For each county or group of counties, a community coordinator was hired to seek community input in the development of a local Comprehensive Prisoner ReEntry Plan to help prepare each community for the re-entry of prisoners into their communities.

The key to the MPRI Model is the development and use of Transition Accountability Plans (TAP) at critical phases in the prisoner transition process. The TAPs succinctly describe exactly what is expected for a successful re-entry process as illustrated by chart G1.

Institutional Parole Agents begin the process of case management and TAP development. The TAP process begins soon after offenders enter prison.

The objective of the TAP process is to develop a seamless system of programming and service delivery ensuring that upon the prisoner's return to the community, appointments for needed services and 'real world' needs are met. Examples of these needs include:

CONTINUED ON PAGE G - 2

- mental health treatment;
- substance abuse treatment;
- housing;
- financial assistance;
- identification documents;
- transportation;
- employment or vocational training; and
- family reunification and support, when appropriate.

## TRACKING MPRI OUTCOMES

The follow up of MPRI-related offenders who are released to the community is being done by systematically tracking individual offender release cohorts since the MPRI is being implemented in stages to build toward the full MPRI Model. For example, the Intensive ReEntry Units (IRU's) that were implemented in 2005 were actually "precursors" to the MPRI because while they served as a testing ground for some MPRI practices, the full MPRI Model had not yet been implemented.

Similarly, the activity for the first and second rounds of official MPRI pilot sites and subsequent statewide implementation was concentrated on Phases II and III of the MPRI Model because the new, dynamic risk/needs assessment instrument (COMPAS) that is the linchpin of Phase I at the point of reception into prison was not fully implemented at the reception and guidance centers until October 2008. COMPAS is being used to develop TAPs at each In-Reach Facility to inform community-based planning. Thus, as each cohort of MPRI-related cases transitions to parole with the escalating benefit of the MPRI Model in place, it is expected that progressively improving recidivism outcomes will be apparent.

Beginning operations in 2009, the Learning Site will be the first site at which offenders will participate in all aspects of the MPRI model, including Phase I (institutional phase), with assessment, case

planning, treatment and progress monitoring. Piloting the enhanced data collection system in the Learning Site will ensure that the system is ready to be launched statewide to improve the tracking of key variables.

In recognition of variable failure rates among offenders with different characteristics, and in light of the fact that the prisoners chosen for the MPRI by the Parole Board tend to be moderate to high risk for re-offense, the Office of Research and Planning has developed matched comparisons, rather than just continuing to compare all cases to the overall baseline. While this complicated undertaking will continue to be refined, Office of Research and Planning analysts have already determined that county of release and a history of returns to prison as a parole violator (recidivism) are the two most significant factors identified so far in the differentiation between parole outcomes.

In the case of county of release, the differentiation is likely driven by local prosecutorial charging and plea bargaining practices as well as local issues such as economic/employment and housing prospects within depressed areas. The formal MPRI evaluation will eventually include examination of local community dynamics such as these.

In the case of history of prior parole failure, supplementary analysis of the 1998 baseline recidivism data shows that parolees who have a history of being returned to prison as parole violators (for either technical violations or new sentences) have a 24% greater likelihood of again failing on parole when next released, compared to parolees with no prior history of parole failure.

As proof of performance that the MPRI is targeting offenders who are otherwise likely to fail on parole, 56.2% of the MPRI and IRU

cases paroled through February of 2009 had a history of prior parole failure, while only 34.5% of the 1998 baseline paroles had a history of prior parole failure. Thus, when controlling for history of prior parole failure the overall MPRI/IRU recidivism outcomes through March of 2009 show a 30% relative rate reduction in total returns to prison so far when compared against the 1998 baseline, or an absolute reduction of 1,482 fewer returns to prison.

It is also important to reiterate that these outcome results are based on preliminary tracking methodology. They represent neither statistically significant findings derived from rigorous evaluation, nor definitive demonstration of the cause and effect of MPRI on offender success. While very encouraging, these preliminary results will eventually have to be subjected to more statistical controls and a more sophisticated array of methodologies, as well as broader outcomes measures (e.g., intermediate outcomes such as offender employment, and additional recidivism outcomes such as re-arrests and re-convictions), and, of course, full completion of standardized, uniform follow-up periods by each of the individual cohorts.

Table G2 shows the more detailed status and recidivism levels of the first 11 offender release cohorts as of the end of February 2009.

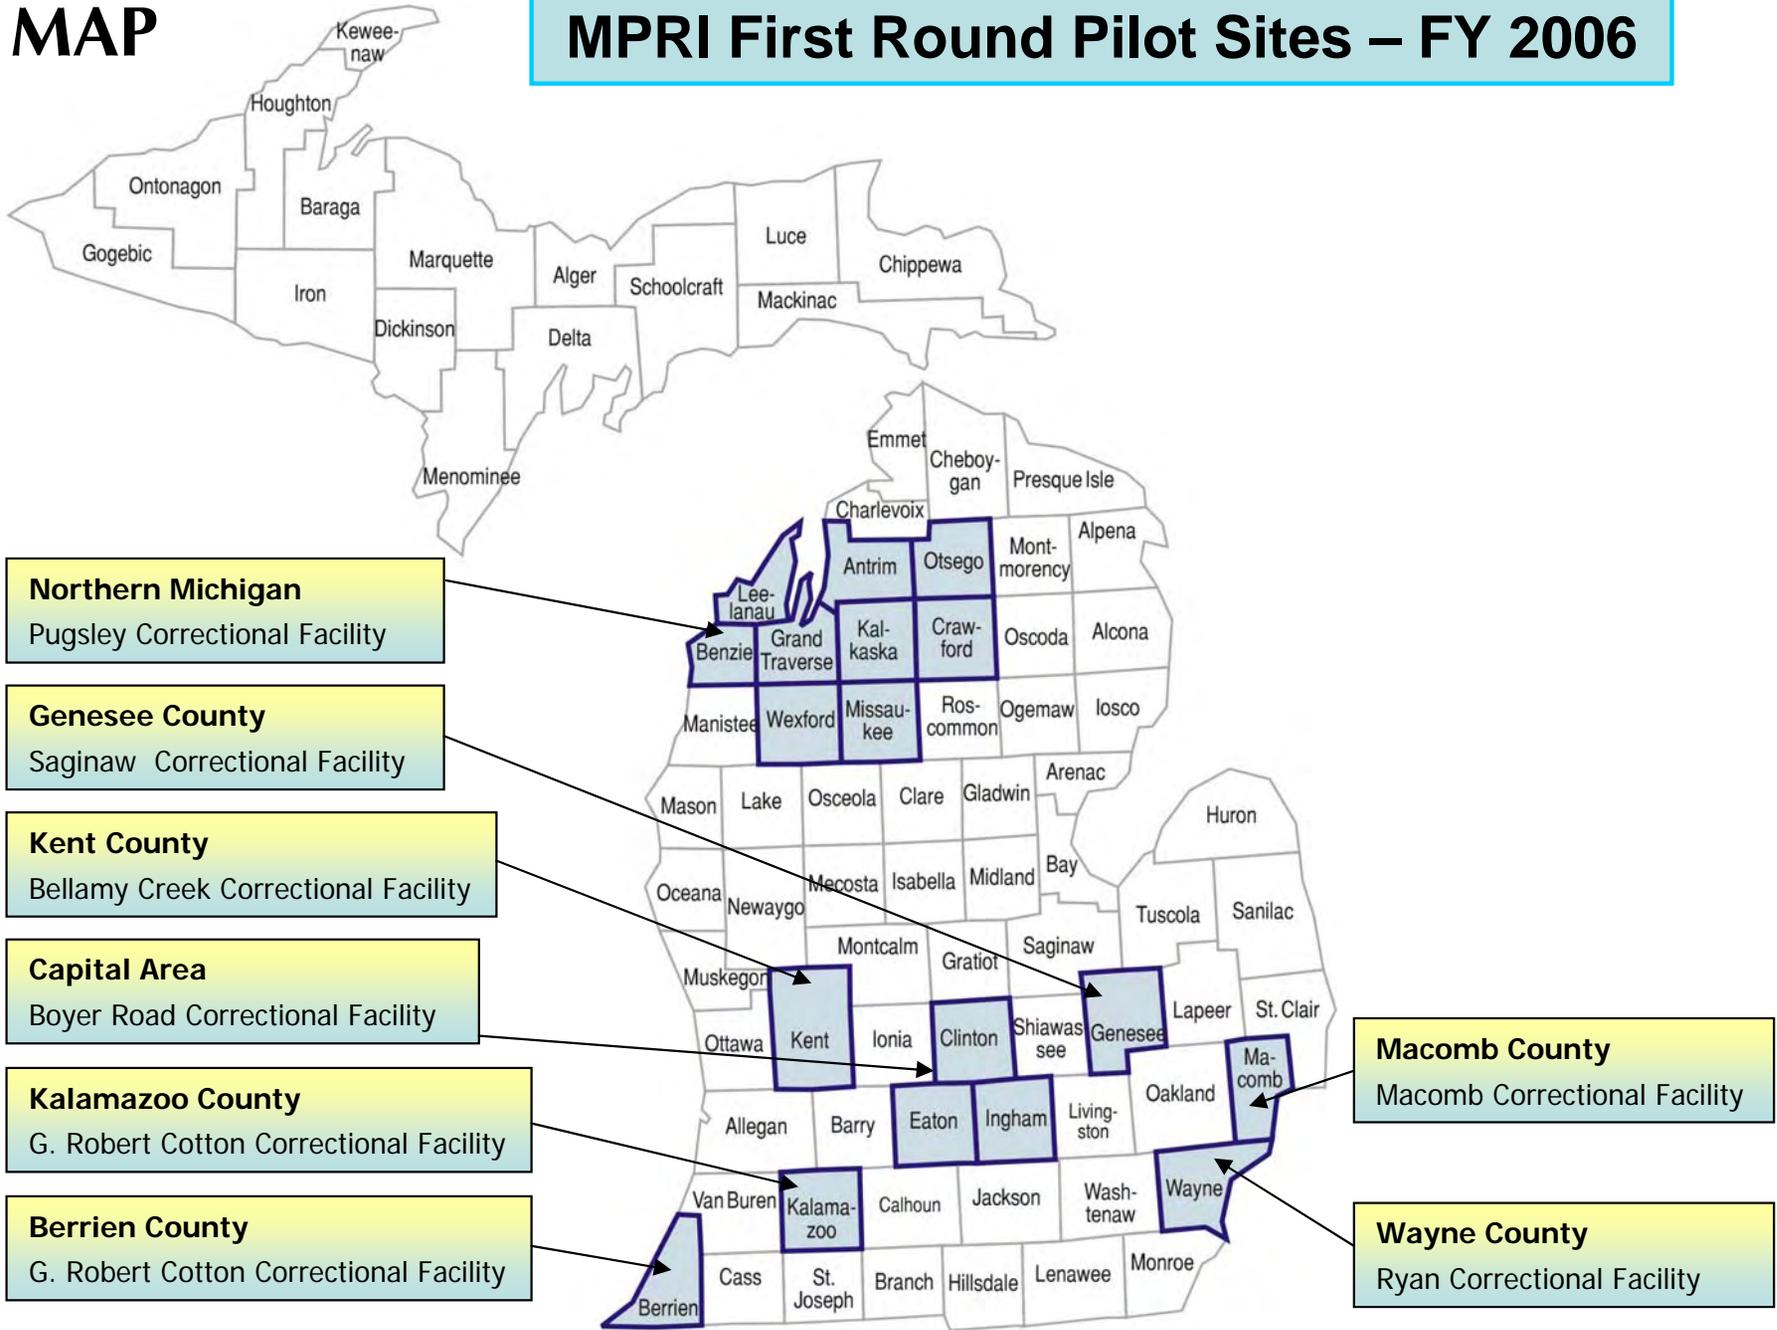

Table G3 shows the principal crimes for which sentences were being served among those offenders transitioned to parole (or discharged) so far from the first offender release cohorts. Sentences for drug and other nonassaultive crimes are understandably the most common for these initial offender release cohorts. After successes are achieved and parole board confidence in positive outcomes is increased, it is anticipated that the mix of offenses will gradually include a higher proportion of assaultive cases.

# Transition Accountability Plan

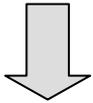

## MPRI Process Flowchart

### Phase 1: *Getting Ready*— Institutional Phase

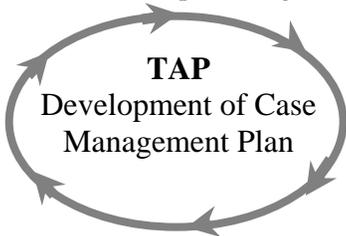

Offender enters  
MDOC under  
sentence

Institutional Assessment &  
Classification

*TAP 1: Dynamic and changing to facilitate  
transitional planning*

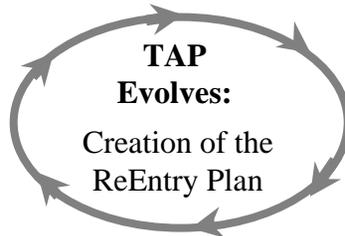

Institutional  
Programming

9 Months–1 Year  
Prerelease

### Phase 2: *Going Home*— Transition to Community ReEntry Phase

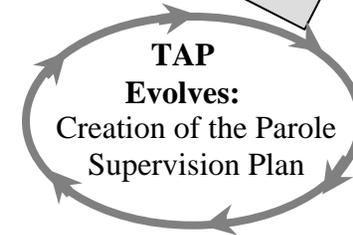

*TAP 2: Changes as details of parole plan are  
verified. Dynamic to ensure communication  
necessary for transition.*

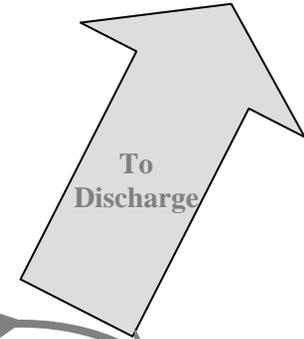

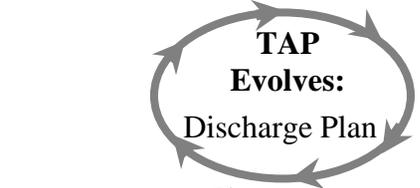

**Transitional Planners**

Release from  
Prison

### Phase 3: *Staying Home*— Community & Discharge Phase

• about 90% of all releases are to supervision

Work with offenders while they are incarcerated preparing them for release and continue to work as partners with probation & parole for as long as one year after release.

#### Monthly Transition Team Meetings

Include transitional planners, probation/parole reps,  
service providers, offender, and his/her family

# Community ReEntry Program

The Community ReEntry Program impacts prison admissions by intervening and diverting eligible parole violators and CRP violators who would otherwise be returned to prison. At the end of 2008, the average time before reparole for a parole technical violator was 17.0 months. The 2008 average successful Residential ReEntry Program (RRP) stay was 69.3 days, or 2.3 months, which saved an average of 14.7 months per parole technical violator RRP participant. The following three programs fall under the Community ReEntry Program:

- The Residential ReEntry Program (RRP) currently operating at two sites – Tuscola Residential ReEntry Program (TRRP) and the Lake County TRV, changing its focus to reentry by becoming the Lake County Residential ReEntry program (LCRRP) in 2008.
- The Intensive Detention ReEntry Program (IDRP) which provides parole agents the opportunity to

detain parolees with compliance problems before they become more serious parole violators. The department contracts with the Clinton County Jail and the Ingham County Jail to house parole violators. Two field agents, placed in the jails to supervise the IDRP population, assist field agents in the community by developing an updated release plan for the parolee.

- The Community Residential Program (CRP) provides community supervision on electronic monitoring for eligible low-risk prisoners while they get re-established in the community serving the last months of their sentences before parole. Very few prisoners remain eligible for the program due to the continuing impact of the 1998 Truth-in-Sentencing (TIS) law's prohibition on housing State prisoners anywhere other than in secure institutions and camps until their full minimum sentences are served.

Table H1 shows the number of new Community ReEntry Program participants by month and program site. MPRI expansion is driving the program's growth.

Table H2 shows the number of Community ReEntry Program terminations by month and program site.

Table H3 shows the end of month populations by program site for the Community ReEntry Program.

Table H4 breaks down the new electronic monitoring participants monthly by offender type.

Table H5 outlines monthly electronic monitoring terminations by offender type.

Table H6 lists end of month electronic monitoring populations by offender type.

Table H7 shows the 2008 end of month populations experienced by the GPS Electronic Tether program.

## H2 Community ReEntry Program Terminations Monthly by Program Site

*Calendar Years 2007 and 2008*

In 2008, out of the total 2,597 IDRP terminations (Clinton and Ingham), there were 2,585 parolees that successfully completed the IDRP. Among the total 2,011 RRP terminations (Lake County and Tuscola including a handful of CRP prisoners), 1,876 parolees successfully completed the RRP. The 2008 average successful stay for parolees in the IDRP was 28.6 days (down

from 33.4 days in 2007), and for the RRP 69.3 days (up from 48.3 days in 2007).

Unsuccessful IDRP and RRP terminations occurred in about 3.2% of all terminations for 2008. Parolees failed the RRP after an average of 29.7 days in 2008, compared to 32.4 days in 2007. Typical reasons for unsuccessful terminations from the RRP include:

- Abscond violation
- Medically/Psychologically unmanageable
- Substance abuse violations
- Rule violation (non-substance abuse)
- New felony/misdemeanor
- Threatening/assaultive behavior
- Creating a disturbance
- Failure to follow rules of ReEntry Center

## H4 New Electronic Monitoring Participants Monthly by Offender Type Calendar Years 2007 and 2008

The Electronic Monitoring Center is staffed 24/7 year round. Monitored probationers and parolees are assigned to and supervised by field agents throughout the State, but all monitoring of the equipment, alert processing and notification, and inventory control is managed

through the Monitoring Center. The Center also contracts to provide monitoring services for Community Electronic Monitoring (CEM) and for the Regional Detention Services System (RDSS).

The program has equipment to handle approximately 3,000

offenders on monitoring. While fully operational at that level in the past, a considerable reduction in numbers has occurred since the implementation of the 1998 Truth-in-Sentencing legislation, which has caused the number of prisoners in the CRP program to

fall from around 1,500 prisoners on electronic monitoring to less than 30 recently.

The table below breaks down the new electronic monitoring participants by month and type of offender.

Month	CRP Prisoner		Parole		Parole SAI		Probation		Probation SAI		CEM		RDSS		Total

# H5 Monthly Electronic Monitoring Terminations by Offender Type

## Calendar Years 2007 and 2008

The table below shows the monthly electronic monitoring terminations by offender type. Prisoners had successful electronic monitoring completions in 73.5% of the 2008 prisoner terminations. Successful prisoners stayed on electronic monitoring for an

average of 132 days in 2008 and prisoners who unsuccessfully terminated electronic monitoring stayed for an average of 98 days in 2008.

Below are typical reasons for unsuccessful terminations on electronic monitoring:

- Failure to pay for tether services
- Substance abuse violations
- Curfew violations
- Tampering with tether device
- Escape or abscond violation
- New felony
- Administrative— occurs when the offender is unable to continue for reasons beyond their control, such as, loss of home placement, hospitalized, or commitment to a treatment program.

# H7 Monthly GPS Electronic Tether Program Activity

## Calendar Year 2008

The use of Global Positioning System (GPS) monitoring allows for the tracking of parolee movement, either actively or passively, in order to determine compliance with supervision plans. To balance public safety interests and available resources, parolees released from prison on or after January 8, 2007, whose current offense requires registration under the Sex Offender Registration Act, shall be monitored on some form of electronic monitoring whenever practical. The Parole Board may not require GPS when medical and/or mental capacity issues make it impractical. In early 2008, the department began phasing out "Passive" GPS by transferring cases to "Active" GPS. As of the end of June 2008, parolees were monitored on "Active" GPS only. GPS monitoring may also be used in addition to RF monitoring as an intervention or sanction for non-compliance with the order for parole for parolees

who have breaking and entering-type convictions.

GPS electronic monitoring shall be used for prisoners granted parole for offenses listed below, including Attempts and Conspiracies to commit these offenses:

- Group 1: Any offense that requires registration under the Sex Offender Registration Act (SORA)–GPS for the entire term of parole.
- Group 2: A conviction for Failure to Register as a Sex Offender–GPS for the entire term of parole if the offense for which the parolee was required to register was a felony, or twelve months if the offense for which the parolee was required to register was a misdemeanor.
- Group 3: A conviction for felony Aggravated Stalking–GPS for the entire term of parole.
- Group 4: A conviction for felony Domestic Violence–GPS for a minimum of 12 months, and then RF monitoring for the remainder

of the parole term provided the parolee is in compliance with his/her Transition Accountability Plan (TAP).

- Group 5: Any other offender ordered by the Parole Board and identified by the Parole Release Unit–GPS for a minimum of 6 months, and then RF monitoring for a minimum of 6 months provided the parolee is in compliance with his/her TAP.

During 2008, there were 1,591 GPS activations and 687 terminations. Of the 687 terminations, 87 (12.7%) were for administrative and equipment related reasons. For the remaining 600 terminations, 375 (62.5%) resulted in technical violations, 29 (4.8%) resulted in new sentence failures, and 196 (32.7%) resulted in successful completion of GPS.

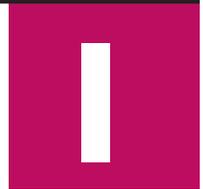

The table below shows the 2008 end of month GPS populations.

# *Special Alternative Incarceration Program*

This section describes offenders committed to Camp Cassidy Lake, the Special Alternative Incarceration (SAI) boot camp program for prisoners and probationers. SAI is a two-phase program.

*Phase I*, patterned after military basic training, involves physical fitness and programming (education, substance abuse awareness, basic life skills and counseling).

*Phase II* is an optional residential placement in the community while on parole or probation.

In 2003, *Phase III*, the intensive parole or probation supervision in the community, was replaced with regular community supervision. FTE's and funding previously under *Phase III* are now included in Field Supervision.

The program's objectives are to end criminal behavior by developing offender self-esteem and self-discipline, a sense of individual responsibility and a positive work ethic.

Data regarding SAI prisoner and probationer intake is provided in Table I1, Table I2 and Chart I3. SAI Phase I program performance and post-program outcomes are summarized in Tables I4 through I6 and Chart I7. Additional information about the SAI program (such as the offender eligibility criteria) is available in a separate annual report, *Special Alternative to Incarceration Program*. \*

The responsibility of the SAI program is under the Correctional Facilities Administration with Cooper Street Correctional Facility serving administratively as parent institution.

\*The report is available online at <http://www.michigan.gov/corrections>. Click on "Publications & Information," and finally, click on "Legislative Reports."

This section provides data on the Office of Community Corrections (OCC).

OCC works with local units of government and criminal justice professionals to implement Michigan's Community Corrections Act. The purpose of the Act is to increase the range and utilization of community sanctions and services for non-violent offenders in order to reduce admissions to prison. The OCC implements program policies, guidelines and standards, and provides technical assistance to local units of government to develop and implement locally-developed comprehensive corrections plans. These plans outline criminal justice problems and how policies and practices and P.A. 511 funds will address them.

Local governments voluntarily participate in the implementation of the Act through forming Community Corrections Advisory Boards (CCABs) which have responsibilities for developing comprehensive corrections plans. The plans establish the framework for applications for funds. Since 1989, 80 counties across the state have elected to participate in implementation of the Act through the formulation of single-county, multi-county and county-city Community Corrections Advisory Boards. Fiscal Year 2008 funds were awarded to support the implementation or continued operation of community-based sanctions and services in 74 counties.

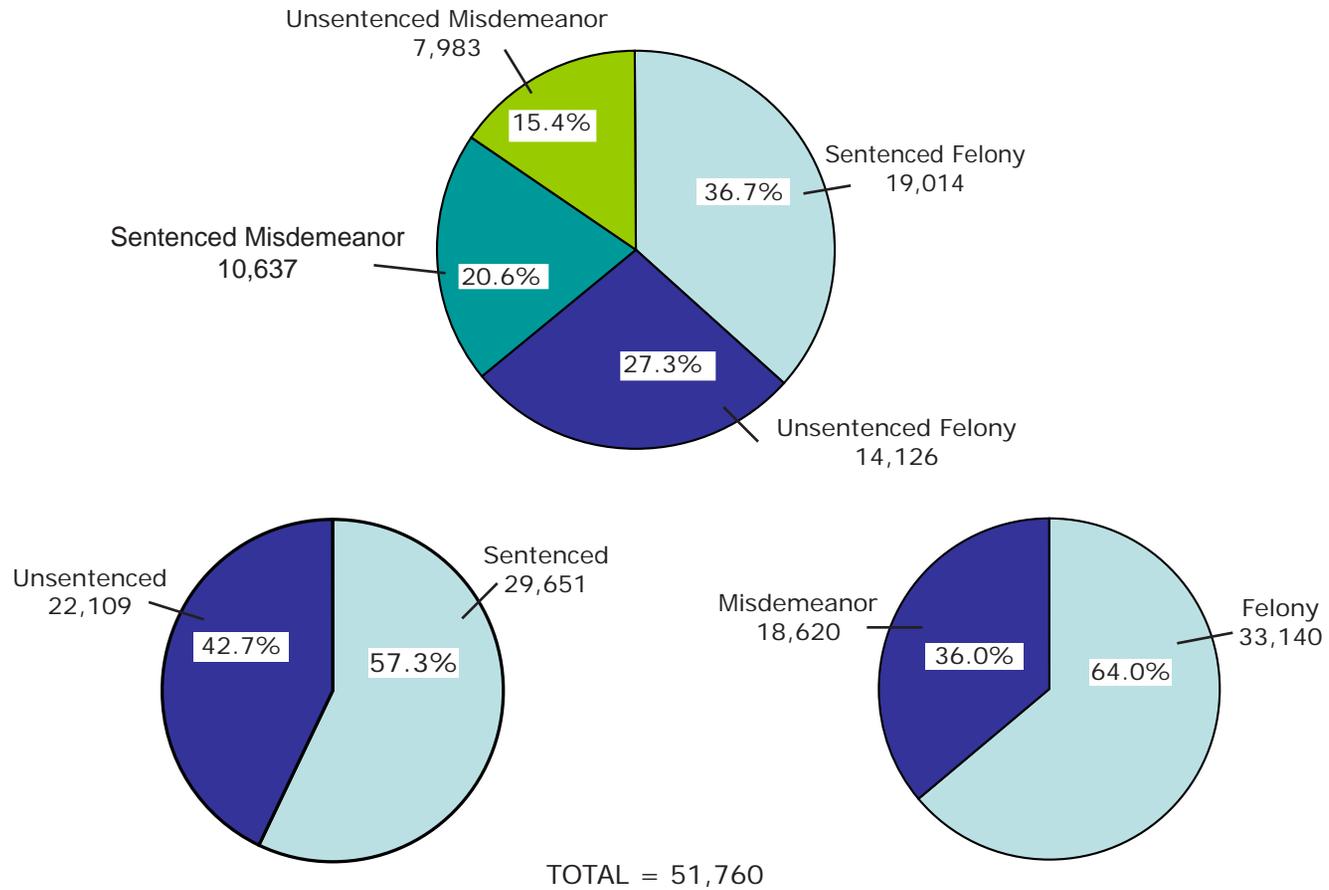

During Fiscal Year 2008, \$12,533,000 was awarded for comprehensive corrections plans and services, \$16,925,500 for probation residential services, and \$2,097,000 for the drunk driver jail reduction and community treatment program.

The OCC continued to work with local agencies to upgrade criminal justice information systems and to facilitate data sharing and the development of integrated information systems in FY 2008. This included efforts to integrate information from jails, courts, probation, service providers and local community corrections agencies. The goals are to reduce redundancy in data entry, improve the quality of the data available at local and state levels, improve communication among agencies and improve the efficiency of criminal justice decision making.

The number of new enrollees in community corrections programs during FY 2008 was 51,760. Chart J1 shows the number of offenders determined eligible and enrolled in programs by crime class and legal status. Chart J2 shows the award of comprehensive plans and services funds by program category. Table J3 illustrates the authorized and actual utilization of probation residential services.

# J1 Offenders Enrolled in P.A. 511 Community Corrections Programs in FY 2008
