Offenders can be<br>returned to prison for committing new crimes or for violating<br>conditions of their parole. This figure reflects how successfu<br>the Michigan Department of Corrections (MDOC) is at<br>transitioning prisoners to a crime-free, productive life in the<br>community. A lower recidivism rate indicates less crime,<br>fewer victims and safer communities. The recidivism rate<br>has been in a narrow range of around 30% since 2008. New<br>'Current Values' are usually available by March of each year  |

| BHCS-01       | Prisoner Health Care Costs (1 Yr. Rolling<br>Millions                                |                       | Red        | •₽          | \$283.700 | \$315838.000<br>FY<br>2019,April       | \$317.668 |               | This figure is the yearly cost of both physical and mental<br>health care for prisoners housed in the Michigan Departmen<br>of Corrections (MDOC). It is calculated as a rolling average<br>for the previous 12 months. The MDOC is required to delive<br>necessary health care, mental health and substance abuse<br>services to inmates, and strives to do so in the most cost-<br>effective manner. An increase in this number triggers the<br>Department to review the reasons for the increase, and find<br>approaches for reducing the costs while maintaining or<br>improving health outcomes. A lower figure could reflect the<br>Department's success in reducing the health care cost per<br>inmate or could be the result of reductions in the amount of<br>care prisoners need. Reported monthly by the Bureau of<br>Fiscal Management, Budget and Operations Administration<br>There is a lag time of two months. |

| MDOC-<br>GG-200       | Employee Survey - Employee Engagement Index - %<br>MDOC Employee Champions <sup>1</sup>  | Green                | <b>₽</b> | 40%    | 38%<br>2017, March           | 31%    | Every Other Year | Employee engagement is the strong and positive connection<br>between a person and his or her job. It inspires significant<br>outcomes of real value. Only when MDOC employees are<br>truly engaged, can we reach our full potential. One way<br>Departments have assessed their progress on Employee<br>Engagement over the past 3 years is by tracking the overall<br>percentage of their responding workforce identifying as<br>Champions (strong identification with organization<br>objectives, high level of loyalty to the organization, high level<br>of willingness to cooperate and motivate colleagues). This<br>percentage is included in the survey report following each<br>administration of the survey. The 2017 PwC Employee<br>Survey identified MDOC 'Champions' at 38% (2015 @ 31%;<br>2013 @ 21%; 2012 @ 18%) of the responding employees. A<br>higher percentage indicates improved engagement by<br>MDOC employees in their workplace. |
