- Humane, Protective Custodial Care, Rehabilitative Opportunities, Reentry Assistance  DOC-16 Referral Packet  The Michigan Department of Corrections (MDOC) release approximately 10,000 prisoners each year, and the Department is committed to providing academic, technica and workplace skills training for prisoners designed to enhance their ability to acquire and maintain employment upon release. To ensure that this goal is accomplished, a Workforce Development Referral Packet will be created for each prisoner to document the skills obtained during incarceration and their readiness for work upon release. A higher number means that more prisoners are being released with the necessary referrals in order to increase their success in the community. MDOC-GG- 100B	Customer Perception of MDOC By Selected Target Group (Prisoner Visitors - Helpfulness and Politeness of Visiting Room Staff) - % Helpful and Polite.	Green	<u>*</u>	70.0%	80.0% CY 2019, Q4	75.0%	Quarterly	The key to maintaining a successful customer relationship is to ensure we have valid and reliable methods of staying in touch with the perceptions of our customers - regarding what we have to offer them, and how well we are doing at it; and how those perceptions may change over time. Asking the customer is one of the best ways to stay on track toward our improvement goals, and to focus our efforts on what is most important. This metric measures the percentage of those questionnaires which rate the visitor's experience as helpful and polite. A higher number means the Department is successfully managing the perceptions of our prisoner visitors. Q1= Jan, Feb & March. Q2= Apr, May & June. Q3= July, Aug & Sept. Q4= Oct, Nov & Dec.
MDOC-GG- 200	Employee Survey - Employee Engagement Index - % MDOC Employee Champions <sup>1</sup>	Green	•₽	40%	35% 2018, September	38%	Every Other Year	Employee engagement is the strong and positive connection between a person and his or her job. It inspires significant outcomes of real value. Only when MDOC employees are truly engaged, can we reach our full potential. One way Departments have assessed their progress on Employee Engagement over the past 3 years is by tracking the overall percentage of their responding workforce identifying as Champions (strong identification with organization objectives, high level of loyalty to the organization, high level of willingness to cooperate and motivate colleagues). This percentage is included in the survey report following each administration of the survey. The 2017 PwC Employee Survey identified MDOC 'Champions' at 38% (2015 @ 31%; 2013 @ 21%; 2012 @ 18%) of the responding employees. A higher percentage indicates improved engagement by MDOC employees in their workplace.
MDOC-GG- 300	Department-Level Employee Engagement Action Plans (As Reported in MiResults) - % Completed or On Track	Green	=	100.0%	100.0% CY 2019, Q4	100.0%	Quarterly	Action drives improvement. The SoM Employee Engagement survey generates a great deal of data. Those who participated in the survey will be curious about the results, and have high expectations that their opinions will be acted upon. There is a strong relationship between taking effective action - seen and felt in the local work environment - and increasing employee engagement. The degree to which survey results are communicated and acted upon will determine our success in driving positive improvement. This measure tracks Department action planning, progress and completion; and will help keep the focus on actions most likely to drive lasting change. A higher percentage indicates more employees are observing a positive response to their survey feedback.Q1 is Jan., Feb., March. Q2 is April, May, June. Q3 is July, Aug., Sept. Q4is Oct., Nov., Dec.
