

Accessing Local, County-based CAN Statistics

To access county-based child abuse and neglect statistics, we encourage grantees to utilize KIDS COUNT.

Michigan Data:

The steps to acquire the Michigan data are:

- Go to <http://datacenter.kidscount.org/>
- Either enter the state desired in the *Location* section or;
- Click the State of Michigan in the *Choose a State* section which will take the user to the home page for the Michigan Data.
- Note: There are other tabs on this page including *Data by Topic*.
- On the left side of the screen the user may sort for the desired information by several variables, including local Michigan areas (cities, counties, congressional districts), topics and data provider. The screen will automatically update based upon the information chosen.
- The center screen area will default to state data.

National Data:

The latest data is from: <http://www.acf.hhs.gov/programs/cb/research-data-technology/statistics-research/child-maltreatment>

- This page will provide a number of links to child maltreatment reports. Choose the desired one and click.
- The right side of the page provides additional resource material links.

Michigan League for Public Policy:

If you want the Michigan profile (with trends by race) or county snapshot report go to <http://www.mlpp.org/kids-count/michigan-2/right-start-in-michigan-2014>. Once at the website, do the following to find your county:

- Click on Kids Count tab.
- Select Michigan.
- From Michigan menu select MI Databook-20__.
- Click on desired county on Michigan map.
- The report will open. The report includes a written summary of trends and statistics in the desired county plus 2 pages of statistical data.
