

Find Oil and Gas Well Information Using Well Attributes

Access the GeoWebFace Application

- ❖ Read the disclaimer, and then select the "[I Have Read And Agree With This Notice](#)" button.
- ❖ Maximize the windows viewing area (if you have not already done so).

Optional but advised (especially for smaller displays) to further increase the viewing area:

- ❖ Select the [Top Gray bar](#),
- ❖ Select the [Bottom Gray bar](#), and
- ❖ Press the [F11](#) key (toggle off when done).

The Process

In the [Left Panel](#) of the display:

- ❖ Select the [Map Tools](#) tab
- ❖ Select the [Quick Zoom](#) (Search) icon (leftmost icon)
- ❖ Using the drop down box has as the default value [Well](#) which has the following options relating to well attributes:
 - Permit Number (example: 45643),
 - API Number (example: 21079456430000) no dashes,
 - Well Name (example: State Garfield),
 - Company Name (example: BrietBurn),
 - Field Name (example: Garfield),
 - PRU (example: 18731)(production unit ID)
- ❖ Chose the option that suits your needs. Once you have entered the information -
- ❖ Select the [Quick Zoom](#) button
- ❖ If multiple options exist there will be a list displayed below the [Quick Zoom](#) button choose the option that suits your needs

The GeoWebFace zooms to the well (or wells) and displays it as a blue diamond.

- ❖ Select the [GeoWebFace Results](#) tab to see what information is available.

[GeoWebFace Results](#) tab provides several information options.

A [Data Table](#) is displayed showing a sub-set of the available data for the oil and gas wells. There might be a short delay while the GeoWebFace selects the information for your well(s) and displays it.

The [Download](#) option - in the rightmost column of the Data Table - provides access to the following if they are available:

- ❖ [RasterLogs](#) are records from geophysical procedures. Not all wells will have RasterLogs. RasterLogs typically have a plus button to its left - select it to display a list of the available logs -select the one you want
- ❖ [Drillers Logs](#) a written description of the formations that were encountered during drilling.
- ❖ [Well File](#) the life history of the well from Permit to Plugging.
- ❖ [Report](#) a one page summary of information for the selected well.
- ❖ [Map it](#) (same as [GeoWebFace Map](#) tab at the top of the panel) takes you back to the map view. Select the [GeoWebFace Results](#) tab at the top of the panel to return to this display.

Some records might not exist for the well(s) you have selected.

Use the [Export to MS Excel](#) link to download a set of data for all of the wells that were selected by the processes listed above.

For details on downloading to Excel, formatting the data and much more please see the [GeoWebFace User Guide](#).

The User Guide also has information on using the [On-Line Oil and Gas Database](#) and more instructions for using the GeoWebFace application.
