

# MICHIGAN INTEGRATED *Assessment Program*

This program directly helps your company by increasing productivity and efficiency while reducing costs and regulatory burden with a free integrated pollution prevention assessment.

The Office of Environmental Assistance (OEA) will provide a free, confidential integrated assessment to help your company evaluate pollution prevention opportunities.

**JUST CALL (517) 284-6879.**

## HOW IT WORKS

- OEA assessment team will spend 2–4 hours visiting your facility at a date and time convenient to you
- Opening meeting will review background information, answer questions and help identify areas of opportunity
- Facility tour to examine processes and operations
- Closing meeting to collect additional information and review initial suggestions to increase efficiencies, reduce waste and save money

## WHAT YOU GET

- Within 30–90 days, a draft report detailing ways to prevent pollution and improve compliance
- A final report focusing on those areas most important to your company
- Resources that go beyond the recommendations in the final report
- You are not obligated to complete any of the suggestions in the final report — it is yours to use at your convenience
