Chicago, Illinois 60604-3507

Dear Dr. Hedman:

SUBJECT: 40 CFR, Part 60, Negative Declaration for Small Municipal Waste Combustion Units

The United States Environmental Protection Agency (USEPA) promulgated revised Emission Guidelines and New Source Performance Standards for Existing Small Municipal Waste Combustion (SMWC) Units on December 6, 2000. The Emission Guidelines, specifically, 40 CFR §60.1510, require the submittal of a letter of negative declaration to the USEPA if there are no existing SMWC Units in the state. The Michigan Department of Environmental Quality (MDEQ) has recently conducted a survey of all our district offices and current air quality permits. This search has confirmed that there are currently no existing SMWC Units, as defined by 40 CFR, Part 60, Subpart BBBB, in Michigan. Therefore, the MDEQ requests the USEPA's approval of this negative declaration.

If you have any questions regarding this matter, please contact Ms. Erica Wolf, Air Quality Division, at 517-284-6766; wolfe1@michigan.gov; or MDEQ, P.O. Box 30260, Lansing, Michigan 48909-7760; or you may contact me.

Sincerely,

Dan Wyant  
Director  
517-284-6700
