**PART 111, HAZARDOUS WASTE MANAGEMENT, NATURAL RESOURCES AND ENVIRONMENTAL PROTECTION ACT, 1994 PA 451, AS AMENDED.** The Department of Environmental Quality has developed amendments to the hazardous waste management rules. The effective date of the amendments is April 5, 2017. These rules are necessary for the Department of Environmental Quality to maintain its federal authorization from the U.S. Environmental Protection Agency. The amendments improve the overall quality of the rules and reduce regulatory barriers by providing streamlined and flexible requirements. Copies of the amendments (ORR 2016-007EQ) can be obtained via the Internet through the Office of Regulatory Reform at [www.michigan.gov/orr](http://www.michigan.gov/orr). Copies of the compiled rules may be obtained via the internet through the Department of Environmental Quality at [www.michigan.gov/deq](http://www.michigan.gov/deq) or by contacting the Department of Environmental Quality, Waste Management and Radiological Protection Division, at P.O. **ANNOUNCEMENTS**

Environmental Protection Agency to satisfy the listing requirements of Section 303(d) and the reporting requirements of Sections 305(b) and 314 of the Clean Water Act. The Integrated Report describes the status of water quality in Michigan and includes a list of water bodies that are not attaining Michigan Water Quality Standards. Additional guidance on preferred data sets may be found by going to the [Integrated Report Web site](http://www.michigan.gov/deq/0,4561,7-135-3313_3681_3686_3728-12711--,00.html) ([www.michigan.gov/deq/0,4561,7-135-3313\\_3681\\_3686\\_3728-12711--,00.html](http://www.michigan.gov/deq/0,4561,7-135-3313_3681_3686_3728-12711--,00.html)). All ambient water quality data (including associated quality assurance/quality control information) for Michigan surface waters may be sent to Kelly Turek, Michigan Department of Environmental Quality, WRD, P.O. Box 30458, Lansing, Michigan 48909-7958; or if the ambient water quality data is in electronic form, please email [turrekk@michigan.gov](mailto:turrekk@michigan.gov). If submitting electronic data, please let Ms. Turek know if the data can be downloaded from a secondary location (e.g., WQX) or if the data will come directly from the submitter. **DEADLINE FOR PUBLIC COMMENT REGARDING MICHIGAN SUGAR COMPANY, CROSWELL, SANILAC COUNTY, MICHIGAN (SRN B2876)**, for the proposed draft permit for the proposed modification to their existing Permit to Install (PTI) No. 21-15A to increase the maximum heat input for their Riley boiler. The facility is located at 159 South Howard Street, Croswell, Michigan. The public comment period and hearing, if requested, are to allow all interested parties the opportunity to comment on the proposed PTI and the MDEQ’s proposed conditional approval. It has been preliminarily determined that the proposed modifications will not violate any of the MDEQ’s rules nor the National Ambient Air Quality Standards. Additionally, the revised project will require revisions to Renewable Operating Permit (ROP) No. MI-ROP-B2876-2013. This public comment period meets the public participation requirements for a future administrative amendment to the ROP. The New Source Review and ROP public notice documents can be viewed at

**DEADLINE FOR PUBLIC COMMENT REGARDING THE DRAFT STATEWIDE E. COLI TOTAL MAXIMUM DAILY LOAD (TMDL)**. The draft Statewide *E. coli* TMDL is available for comment. The Statewide *E. coli* TMDL is a framework that applies to all water bodies that are included in Michigan’s Year 2016 Section 303(d) list due to elevated *E. coli* and will also apply to water bodies identified as impaired due to *E. coli* in the future. The TMDL is being developed to identify problems, potential sources, and solutions (both voluntary and regulatory) to work toward the goal of meeting water quality standards. Please note, the MDEQ is proposing to revoke the outdated Rouge River *E. coli* TMDL (previously approved by the USEPA in 2007) and replace it with coverage under the Statewide *E. coli* TMDL. An interactive mapping system accompanies, but is not a part of, the Statewide *E. coli* TMDL and is also available for comment. The purpose of the map is to educate and engage citizens while also bringing a local scale to this statewide process. Written comments on the draft TMDL and mapping system may be submitted to Molly Rippke, Michigan Department of Environmental Quality, Water Resources Division, P.O. Box 30458, Lansing, Michigan 48909-7958 or [rippkem@michigan.gov](mailto:rippkem@michigan.gov), by May 19, 2017. Copies of the draft TMDL and a link to the mapping system are available at [www.michigan.gov/ecolitmdl](http://www.michigan.gov/ecolitmdl) or from **Denise Page** at 517-284-5523 or [paged@michigan.gov](mailto:paged@michigan.gov). ***The Business Rationale of the Circular Economy***

A circular economy is one that is restorative and regenerative by design and aims to keep products, components, and materials at their highest utility and value at all times. This new economic model seeks to ultimately decouple global economic development from finite resource consumption. The circular economy could create tremendous opportunities for industrial renewal, regeneration, and innovation. In this session we'll deep dive on the business rationale of the circular economy; what are the drivers for change, concrete business opportunities and what does circular economy look like when applied in the real world. The format will be interactive with room for exercises, questions and discussions.

**WEBINAR MINI-SERIES**

**APRIL 24, 2017**

**MDEQ AIR QUALITY DIVISION'S AIR PERMIT EXEMPTION RULES CHANGES – A WEBINAR MINI-SERIES.** The Michigan Air Pollution Control Rules require that a permit be obtained prior to installing any source of air emissions, unless the activity or equipment is specifically exempted. The Air Quality Division's (AQD) air permit exemptions are some of the most used and most asked about rules that the Division has on the books. In December 2016, many of the permit exemptions were updated and several new rules were added. This mini-series will provide attendees with important information on these permit exemption changes and how they may be useful for new or existing equipment.

**10:00 – 11:00 AM EDT**

***Air Permit Exemption –Rule 285 and Meaningful Change***

This Webinar will cover what to do when the process or equipment undergoes a minor materials change. Information and tools will be provided to assist in completing a meaningful change determination and what the update to Rule 285 entails.

More information is available at [MDEQ's Events Web Page \(www.michigan.gov/deqevents\)](http://www.michigan.gov/deqevents). **U.P. ENVIRONMENTAL RISK MANAGEMENT STRATEGIES CONFERENCE, RAMADA INN, MARQUETTE, MICHIGAN.** The MDEQ Remediation and Redevelopment Division’s Upper Peninsula District is pleased to announce the upcoming **Environmental Risk Management Strategies Conference**. This one day conference will focus on state programs that address environmental cleanups, including recent and pending statutory amendments, strategies for management of different types of contaminants, and contaminated property redevelopment. Presentations include informational sessions regarding new land and resource use restriction options for site closure, new strategies for addressing contaminant vapors, and requirements for managing non-aqueous phase liquids. Emergency management strategies and brownfield redevelopment tools will also be featured in a project scenario format. This conference is intended for owners and operators of contaminated properties, environmental consultants, state and local units of government, attorneys, practitioners, federal and tribal agencies, realtors, developers, and environmental organizations. Not to be missed, this conference provides examples of real strategies for solving complicated problems associated with managing risks and addressing releases of hazardous substances using new amendments to Michigan’s environmental laws. More information is available at [MDEQ’s Events Web Page](#) ([www.michigan.gov/deqevents](http://www.michigan.gov/deqevents).)

**AIR PERMIT TO INSTALL AND POTENTIAL TO EMIT WORKSHOPS, WASHTENAW COMMUNITY COLLEGE, ANN ARBOR, MICHIGAN.** The MDEQ’s Air Quality Division is offering two back-to-back workshops, *Air Permit to Install (PTI)* and *Potential to Emit (PTE)*. The morning *PTI Workshop* is for anyone required to obtain an air permit or who is interested in learning more about the air permit process. This workshop will address what constitutes an administratively complete application, explain what must be included in a complete application, and include a question-and-answer session. A limited number of One-on-One sessions with a permit engineer will be available for attendees with questions regarding an actual, on-going project. Attendees will receive the *Air Permit to Install Workbook*. The afternoon *PTE Workshop* is ideal for those who want to understand why determining PTE is important. PTE can be a confusing topic for all sectors of industry. We will take you step by step through calculating your facility’s PTE. The workshop will also

help you evaluate your PTE to determine if you are a major or minor source of air pollution and which options will best lead you to compliance with the regulations. **COST: \$50** for each workshop, or **\$85** (\$15 savings) to attend both. **MICHIGAN RECYCLING COALITION ANNUAL CONFERENCE & GOVERNOR'S RECYCLING SUMMIT, KELLOGG CENTER, EAST LANSING, MICHIGAN.** East Lansing will host the Michigan Recycling Coalition's 35<sup>th</sup> Annual Conference & Governor's Recycling Summit, Michigan's largest conference and exhibition about recycling and organics management. For 35 years, the MRC has been helping businesses, nonprofits, and municipalities explore the future of recycling and organics management. Network with industry experts, learn from thoughtful presentations, and take part in informative training sessions, tours, and a robust exhibition hall. In partnership with the MDEQ, the Summit will make the case for recycling, providing high-level information about the value of recycling to Michigan communities and businesses. Whether you are new to recycling, new to the MRC conference, or you've been attending for years, we aim to provide bountiful opportunities to learn and grow your knowledge of recycling in Michigan. More information is available online at [www.michiganrecycles.org](http://www.michiganrecycles.org).

**MAY 31–JUNE 2, 2017**

**GREAT LAKES AND ST. LAWRENCE GREEN INFRASTRUCTURE CONFERENCE, COBO CENTER, DETROIT, MICHIGAN.** The first ever Great Lakes and St. Lawrence Green Infrastructure Conference will draw 1,000 engineers, landscape architects, water quality professionals, government officials (local, state, provincial, and federal), developers, planners, academia, drain and road agencies, conservation and non-profit organizations, and interest groups from around the Great Lakes basin in Canada and the U.S. This is the first conference to focus on using green infrastructure across the landscape with a primary goal to protect the surface waters in the Great Lakes region. The conference location is in the middle of the Great Lakes chain, and at the forefront of many innovative green infrastructure projects. Much of Detroit is being recreated from the ground up. They are finding ways to reduce the burden on combined sewers for less than the cost of storing and treating combined effluent. They are making neighborhoods feel safer and more inviting and increasing green acreage over the top of thriving industry. These efforts are clearly linked to the Great Lakes, by reducing nutrient inputs to Lake Erie, and all Great Lakes' and St Lawrence waters downstream. This conference will include over 80 speakers to address topics such as green infrastructure technology, economics, local government/public works, and multi-jurisdictional/regional scale issues. The third day of this conference will offer four concurrent bus tours of local points of interest highlighting what Detroit is doing in terms of Green Infrastructure, Stormwater Management, and CSO Control. The Conference will feature valuable networking opportunities and an exhibitor area as well. Information Contact: **Dave Drullinger**, Office of Public Affairs and Outreach, 517-284-6855 or email at [drullingerd@michigan.gov](mailto:drullingerd@michigan.gov).
